Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available. Restoration Parts

OER ORIGINAL EQUIPMENT REPRODUCTION®

Manufacturing Authentic Products for The Restoration Industry

Classic Industries® Has More To Offer!

Discounted Products

Our Everyday Low Pricing Can't Be Beat!

When you see this symbol, it denotes items that have been priced below regular catalog pricing and often, below MSRP. These discounted items, kits, and sets are priced competitively for everyday savings. Because these are pre-discounted, they are exempt from further discounts or promotional offers. Additionally, some products that do not feature this symbol, such as special order items, may also be "discount exempt".

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor' s current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv To View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries' new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

Earn Rewards!

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

The GM Restoration Parts Emblem

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display this emblem are Officially Licensed by General Motors as a genuine restoration product. Classic Industries® is currently licensed for many of the products listed in this catalog. The same products we've been manufacturing for years. We haven't changed our methods or quality and the GM Restoration Parts emblem is proof. The GM Restoration Parts emblem is a registered trademark of General Motors and used under license to Classic Industries® Inc.

Gold Key is the Symbol of Interior Quality

When you see this symbol of quality, you know you're getting the best the market has to offer. This symbol will denote specialty interior products which are outstanding in fit, craftsmanship and manufacturing techniques. These products have been stringently tested over the course of years and fall into the Gold Key category.

Classic Industries® The Restorers Choice™

Count on the Classic Industries® Restorers Choice symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

OER Premier

Count on the OER Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER Premier is the true sign of originality and quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

Diamond Blue™

★ **Indoor Use**
★ **Single Layer Material**

Diamond Blue fabric

Protect your car from dust and dirt with Classic Industries' custom-fit Diamond Blue car covers. Designed for use indoors, the Diamond Blue is manufactured using an economical single layer material that provides good protection from dust and dirt penetration. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Breathable and lightweight, Diamond Blue offers basic protection against dust, dirt, over spray and more. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock.

Diamond Fleece™

★ **Indoor/Outdoor Use**
★ **Triple Layer Material**

Diamond Fleece fabric

Outstanding protection at a price you can afford! Designed for indoor and occasional outdoor use, the Diamond Fleece is manufactured using 3 layer material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Breathable and lightweight, Diamond Fleece offers water resistance and guards against damage from the sun's UV rays. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock.

WeatherBlocker™ Plus

★ **Outdoor Use**
★ **Four Layers of Protection**

Our exclusive soft cotton lining provides added protection against dings and scratches.

The ultimate combination of protection and value! Designed for outdoor use, the Weather Blocker® cover is manufactured using a durable non-woven 4 layer material that provides a high level of protection against outdoor elements. The fourth layer is a soft cotton backing that further protects against scratches and dings. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Breathable and lightweight, Weather Blocker offers increased water resistance and protection from the sun's UV rays. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock. Specify blue, gray or tan.

Gust Guard Car Cover Clamps

If you need to leave your vehicle covered for extended periods of time in locations where wind gust could be a problem, this set is the answer. Includes 4 adjustable hem clamps, 2 "Quick Grip" friction locks and two 7' white cords. Clamps to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, it helps reduce the possibility of the cover coming loose.

Add a Storage Bag

Protect your car cover with a storage bag designed to fit covers for all years. A storage bag will help to keep your car cover clean and safe when not in use.

CC28 ..... 9.99 ea

Technalon delivers the best combination of water-resistant and breathable performance.

Gold

Gray

Technalon Premium Car Covers

A high-tech, 4-layer fabric, Technalon is lightweight, remains pliable in all weather conditions and won't rot, smell, or mildew. The outside and inside layers are made of long fibers which make the fabric tough, but very soft and non-abrasive. The middle layer is made of shorter fibers that catch water but allow the air to circulate. Specially developed for harsh outside weather conditions and will not freeze even in the coldest temperatures. Each cover is water-resistant and breathes, keeping your paint free from unwanted moisture between the paint and the car cover which could ruin your paint. Specify color when ordering.

OEM Quality Reproduction Carpet

Treat Your Classic Chevrolet To The Highest Quality Molded Carpet On The Market!

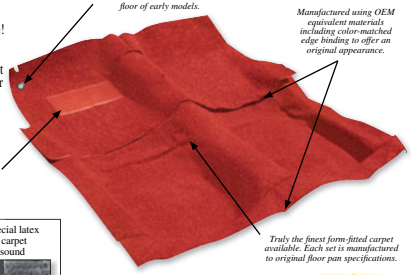
Absolutely the highest quality reproduction carpet available! All carpet is pre-formed as original and manufactured using OEM equivalent materials. Each carpet set features a correct heel pad, color-matched surged edges where front carpet overlaps rear carpet, original blend carpet material for your year and model, and includes a dimmer switch grommet. Features jute padding and a pre-cut grommet hole in the carpet for easy grommet installation (when applicable). Heat stamped, pre-formed and trimmed to fit your floor pan perfectly. Made in USA.

FAST UPS DELIVERY!
Large "in stock" inventory!

Each carpet set includes a correct style dimmer switch grommet. The grommet surrounds the dimmer switch on the floor of early models.

Made in USA

Manufactured using OEM equivalent materials including color-matched edge binding to offer an original appearance.



The heel pad is manufactured exactly as original. Each set features the correct configuration for the desired year in the proper matching color.

Truly the finest form-fitted carpet available. Each set is manufactured to original floor pan specifications.

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermobonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Thick 36 oz. jute padding is attached to the underside of the carpet for a factory fresh feel after installed. Available as an option for molded carpets.

Mass Backing

HushMat Ultra Insulation

Made in USA

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver ..... 34.99 set
HM251 black ..... 34.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200 silver ..... 99.99 set
HM201 black ..... 99.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver ..... 144.99 set
HM301 black ..... 144.99 set

Floor/Firewall Set

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A Floor/Firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

HM400 silver ..... 244.99 set
HM401 black ..... 244.99 set

License Plate Mat Set

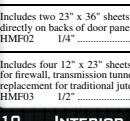
One 4" x 12" Sheet. 0.33 square feet (0.1 square meters). Designed to eliminate the nuisance rattling of your license plate due to subwoofer vibration or loose fitting frames. We also include a HushMat license plate frame in every box!

HM600 silver ..... 14.99 ea

Bulk Set

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500 silver ..... 359.99 set
HM501 black ..... 359.99 set



- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible, and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up To 300˚F
- Aggressive Adhesion
- One Step Peel And Stick Application

HushMat Sound Absorbing Foam

Made in USA

1/8" Foam

Includes two 23" x 36" sheets of 1/8" Hushmat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" ..... 119.99 set

1/4" Foam

Includes two 23" x 36" sheets of 1/4" Hushmat Silencer Megabond foam. Apply directly on backs of door panels, headliners or under package trays.

HMF02 1/4" ..... 171.99 set

1/2" Foam

Includes four 12" x 23" sheets of 1/2" Hushmat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" ..... 154.99 set

Cool It Insulating Mat By THERMO-TEC

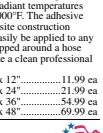
Made in USA

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly-reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual-density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

TT1005 24" x 48" ..... 31.99 ea
TT1006 48" x 48" ..... 64.99 ea

Adhesive Heat Barrier™

Made in USA



Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000˚F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

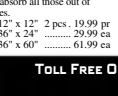
Super Sonic Acoustical Mat

Made in USA



This high quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity & strength, allowing the material to bend, move, & return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim & fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

Suppressor Acoustical & Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim & fit.

Dynamat Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contorts to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA

AcoustiSHIELD®
Roof to Road Solutions to Control Automotive Noise, Vibration and Heat

AS405 AS438

1958-70 Complete AcoustiShield Sets

Made in USA

This two-stage, automotive insulation and sound damping system gives older cars the "quiet riding comfort" found in today's new cars. AcoustiShield sets are designed on current "state-of-the-art" auto acoustic technology, to insulate and control the noise, vibration and heat in the passenger cabin. Sets include pre-sized Dynamat® damper pads, pre-trimmed heat shield/barrier panels, spray adhesive and sealing tape, plus fully illustrated instructions for an easy, painless, two-hour installation. Made in USA.
Note: AcoustiShield sets are shipped ground only.

OEM Style Rubber Floor Mats

If you've ever searched for the original GM early model accessory floor mats for your Impala, Bel Air, Biscayne or Caprice then you know how difficult they are to find! Classic Industries® has what you need! OER® manufactures an exact reproduction floor mat that features the embossed Bow Tie emblem on both front and rear mats. Each mat is produced to exact dimensions in accordance with factory specifications. All mats are die-cut to fit the original contour of the floor pan. This superior quality reproduction is manufactured with high grade rubber and original style grains and colors! Also features the original type carpet grips on the bottom of each mat to help keep the mats in place without slippage. You won't be able to tell these apart from the originals . . . Guaranteed!

OER® GM Restoration Parts

1 piece front rubber mat with Bow Tie emblem for use in 1963-65 passenger models. Will fit later models too!

Made in USA

M63002
(3 piece front & rear mat)

Each set of mats features a Bow Tie logo embossed on both front and rear mats as original. Will fit all models.

1963-65 Floor Mats without Console (Front & Rear) 3 piece

Reproduction floor mats for passenger models without center consoles. Includes 1 piece front mat (door to door) and 2 piece rear mats. Originally installed in 1963-64 full size Chevrolet (2 door/4 door/coupe and convertible), the 1963-64 Nova/Chevy II (sedan/coupe, hardtop/convertible) and the 1963-64 Corvair (coupe/convertible). Will fit 1965-up models with slight modifications. Some trimming may be required. Made in USA.

Lloyd Mats - The Ultimate in Protection...

LLOYD MATS

Custom Fit Lloyd Mats for Impala and Caprice. Featuring densely packed 2-ply 32 oz. DuPont nylon cut pile yarn for durability and long lasting appearance, woven polypropylene backing, water resistant latex coating and non slip TractionBac rubber backing. Matching nylon velour binding finishes off the edge of the mat and provides durable, long lasting protection that will never unravel. Available as a 4 piece set that includes custom fit front & rear mats, Lloyd Mats are available in a variety of colors to match or complement your Impala or Caprice's interior color. Mats are covered by a manufacturers limited warranty against defects in design, workmanship and materials for a period of two years from date of purchase. Please be sure of your color selection before placing your order. Each mat set is manufactured according to your color specifications. For that reason, mats cannot be accepted for return due to incorrect, mismatching color, etc. Made in USA.

Note: *All mats are special order only. Please specify embroidery color when ordering. Specify 2 or 4 door when applicable.* ***Important:*** *The snap clips used for installation may be larger than originals so check fit before installing clips. General Motors Trademarks used under license to Lloyd Design Corp.*

Heavy Foam Backing As Original

The quality is essential when restoring an interior. Although many manufacturers neglect this area, we insist on offering OEM quality upholstery which includes correct high density foam backing stitched into place as original. You can feel the difference once it's installed!

Correct Grains and Colors

Each style and color is specifically produced to match the original in weight and grain. You can be assured of achieving the desired results giving your interior authenticity and a quality factory fresh appearance.

Correct Manufacturing Techniques

Classics' upholstery is professionally reproduced using exact factory specifications. Correct manufacturing techniques allow the restorer to get a quality factory appearance with easier installation.

The Details Matter

When it comes to details, the word is *Classic!* Right down to the seams which are dielectrically heat sealed and include the original factory stitching pattern.

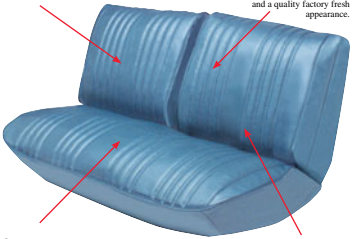
1968 Seat Upholstery

Heavy Foam Backing As Original

The quality is essential when restoring an interior. Although many manufacturers neglect this area, we insist on offering OEM quality upholstery which includes correct high density foam backing stitched into place as original. You can feel the difference once it's installed!

Correct Grains and Colors

Each style and color is specifically produced to match the original in weight and grain. You can be assured of achieving the desired results giving your interior authenticity and a quality factory fresh appearance.



Correct Manufacturing Techniques

Classics' upholstery is professionally reproduced using exact factory specifications. Correct manufacturing techniques allow the restorer to get a quality factory appearance with easier installation.

Made in USA

1962-68 SS Front Bucket Seat Foam

Seat foam is recommended when replacing your original upholstery. You'll get a great fit and easier installation using reproduction seat foam. Each replacement piece is manufactured to exact OEM specifications using original density foam which allows your new reproduction upholstery to install correctly while maintaining a factory appearance. Seat foam includes woven cloth backing which protects the seat foam from the seat springs. Seat foams fit both LH and RH seats.

1962-65 bucket seat side support springs SS401

1966-69 bucket seat side support springs SS408

1958-70 Seat Support Springs

Correct reproductions of the front bucket or bench seat springs. One of the most commonly broken or worn out items on your bucket seats are the seat springs located behind the upper or lower portion the seat foam. The side seat support springs are also available for 1958-70 full size models with bench seat. These new springs and side support springs will allow the upholstery seat foam to fit the way the factory intended. Highly recommended when replacing your upholstery. They will refresh the feel and appearance of your bucket seats. Fits standard or SS interiors!

Important: Professional installation is recommended.

1962 Front and Rear Side Panel Sets

Once you're ready to finish off the interior, don't cut corners on one of the most noticeable details, the door panels. While some companies want you to mail away your precious panels, the restoration professionals at Classic Industries® know that you would rather not be separated from these rare parts, so, ours are offered with original grain materials to re-cover your original upper door rails! These unique panels are constructed from top quality materials and assembled with the correct color cloth and matching vinyl trim covers to restore your Biscayne to a "showroom new" appearance. Each set includes: dielectrically sealed door panels, original style mounting weld nails, kick panels, matching material to recover your original armrest pads and windlace to complete your project! Save time, trouble and add value to your restoration. Proudly made in the USA!

Impala Door Panels

Each reproduction door panel is produced using the most efficient modern processes to ensure an original appearance and fit. All standard door panels are produced exactly as originals using correct grain materials and original factory colors. All panels are die-cut for easy installation using original or reproduction door panel clips. All holes needed for installing door handles, window cranks, etc., are pre-cut for easy installation. *Note: Door panels are shipped oversize.*

Headliners

After years of neglect to your interior and to complete your restoration properly, you'll want to replace your headliner with a pre-cut factory style reproduction! We offer the largest selection of factory colors and reproduction materials available. Each headliner is manufactured from factory patterns and will install just like the original. Headliners with separate sail panels include extra material to recover the sail panels. All headliners include material to recover sun visors.

Headliner/Upholstery Tool

Great for stuffing headliner or upholstery material into tedious channels without damaging materials. This is a handy tool which will make installing your headliner easy. You could spend tedious minutes trying to get it just right. Why waste time. Easy to use around curves and near corners. Why spend wasteful hours doing it the old fashioned way! Get the headliner tool and finish the job fast!

A7672 ..... 9.99 ea

Headliner Installation Glue

Replace your headliner easily with the correct glue application used to adhere the headliner to the roof panel. This is specially designed for use with early style headliners. This can contains 4 fluid ounces with a handy brush for easy application of glue. You will need this special glue if you are installing the headliner yourself. Be sure to have all the equipment you need to get professional results.

3M® Aerosol Super Trim Adhesive

This is a fast-acting, high-strength aerosol contact adhesive designed for two-surface application. This adhesive is resistant to heat and plasticizing oils and is excellent for attaching vinyl tops, headliners, vinyl trims, insulation, foam-padding and rubber parts to metal and other surfaces. Bonds can be made within minutes of application or as long as one hour later.

Note: Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.

08090	18 oz.	aerosol	21.99 ea

Headliners

To complete your restoration properly, you'll want to replace your torn or discolored original headliner with a presewn factory style reproduction! We offer the largest selection of factory colors and materials available. Each headliner is manufactured from original factory patterns and will install as originals. Headliners with separate sail panels include extra material to recover the sail panels. All headliners include material to recover sun visors.

1966-69 Bedford Headliners

Presewn in original style Bedford material, these excellent quality headliners are manufactured using the original patterns to ensure a factory fit and appearance. Each headliner includes enough matching material to recover your sun visors and sail panels if necessary. Available in a variety of colors to match or accent your interior. Choose from black, medium blue, ivy gold, dark blue, dark green, off white or dark red. Made in USA.

1967-68 Simulated Impala Leather

Presewn in original style simulated Impala leather material, these excellent quality headliners are manufactured using the original patterns to ensure a factory fit and appearance. Each headliner includes enough matching material to recover your sun visors and sail panels if necessary. Available in a variety of colors to match or accent your interior. Choose from black, red, gold, light blue, turquoise or bright blue. Made in USA.

Rear Inner Sail Panel Boards

The cardboard portion between the rear quarter window and back window.

SP7

SP10

Made in USA

Reproduction of the inner rear side sail panel for 1962-73 Impala models. These panels are ready to cover in your choice of material. The panels are die-cut to the original dimensions offering a secure fit with OEM quality. If desired, your original material can be reinstalled on these sail panels. However, we recommend replacing your original material with new material. The sail panel material is provided in the purchase of a new headliner. So, if you are purchasing a new headliner, then these rear sail panels are all you need. Original metal attachment flange will need to be transferred from back of original sail panels for correct installation. All include RH & LH sail panels. Made in USA.

Padded Dash Protectors

Produced from velour material. Each cover is contoured to the shape of the dashboard to ensure a protective fit. When your car is in the sun or in extreme cold temperatures, the dash pad can become cracked, warped or faded. The padded dash protector will eliminate these various problems and keep your original dash looking factory new. Available in popular colors!

Note: Colors supplied may vary slightly from the original factory colors.

Dash Cover Panels

PDC60501

1971-76 Full Size Chevrolet Dash Cover

Rejuvenate the interior of your vehicle by eliminating those unsightly cracks or discolored spots on your dash. Install a dash cover to bring new life to your interior again. They are vacuum-molded from thick, durable ABS material, and will not crack under extreme hot or cold temperatures. Each will install over your original dash, and will not require any special tools or instrument removal to install.

Important: *If you don't find your color listed, these dash covers can be painted to match your original interior color using the correct color OER® interior paint. See our index for paint listings.*

Note: *Shipped oversize.*

U-Cut-To-Fit Speedometer Cables

Top quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut to fit most GM transmissions.

1992-96 B-Body Gauge Pillars & Pods

Full pillar pods and standard gauge pods are the easiest way of adding additional gauges to your interior while maintaining a factory look. They easily attach to your A-Pillar covering your existing stock pillar. Each full pillar pod is designed to exactly match the size and shape of your stock pillar for unequaled fit and finish. These pillar pods are available in black ABS unless otherwise specified and can be painted to match the color of your interior. The full pillars feature mounting holes for three 2-1/16" gauges. The standard pods are available in dual 2-1/16", single 2-1/16", or single 2-5/8" configurations.

Important: Gauges sold separately.
Note: No further discounts apply.

A8101008

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal-float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg 06 = 6", 11 = 11"
Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or re-calibrating due to tire or gear changes; this unit requires a one time setup and you're done.

Marshall Instruments SCX & SCX Pro Gauges

SCX Pro gauges feature one-touch peak recall and programmable high and low full dial warning. There is also an external alarm output (12V, 500mA) that can be used to activate an external warning light when an alarm condition exists. Additional features include one-touch peak recall, user programmable high and low full dial warning, high-speed stepper motor movement, 2-color white/amber through-dial lighting, black dials with bold white numbers & illuminated pointer. Peak recall and programmable full dial warning are accessed via the included remote mount push button. SCX series performance gauges feature full sweep electric stepper motors, either black dials with bold white numbers, silver dials with bold black numbers, or bright white dials with bold black numbers and red pointers. Superior amber and white through-the-dial lighting and illuminated pointer makes nighttime viewing a breeze. All SCX and SCX Pro fuel senders work with 0-90, 240-33, 73-10, 20-150 and 0-30 Ohm senders. SCX Series 5" tachometers feature a slimline case design (only 2" deep). Advanced gauge features at an economy price point.

1958-90 Digital VFD Gauge Systems

These complete vacuum fluorescent digital conversion sets include gauges for oil pressure, water temperature, fuel level, volts charging as well as a speedometer, odometer, and tachometer. All sets are backed by a manufacturers limited lifetime warranty. These sets are designed to install directly into your original dash bezel for a complete and easy installation.

Important: *An optional wire harness for 1959-64 models is available to install set directly into factory wire harness without any modifications to the factory wire harness. 1961-62 sets include a custom aluminum dash panel.*

Note: *Important: Does not come with bezel as shown. Fits original bezel.*

1958-90 VHX Gauge Systems

Dakota Digital's new VHX instrumentation system will modernize your ride with the latest technology and styling. Featuring fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. These gauge systems mount directly to the stock dash housing for simple installation. VHX series gauges are loaded with features not often offered by competing systems, including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Available in silver or black alloy style, or carbon fiber style, with either blue, red, or white numeration and backlighting. ***Important:*** *Please specify gauge illumination color when ordering: "B" for blue, "R" for red, or "W" for white.* ***Note:*** *Gauge bezel not included. Carbon fiber style not available for all years.*

AutoMeter COMPETITION INSTRUMENTS

In-Dash Speedos & Tachs

Our In-Dash Speedometers and Tachometers feature our famous high performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon bezel have made these rugged and long lasting gauges a proven high performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability & readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested & race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Important: *Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

Note: *All Auto Meter gauges are discount exempt.*

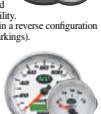
ULTRA-LITE

Ultra Lite gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy to read.

Z-SERIES

Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy to read.

PHANTOM II

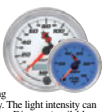


Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

NV

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom



Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high performance line easy to read with a crisp, no-nonsense modern appearance.

C2

C_2 gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

NEXUS

Nexus gauges feature a bright Super Bezel and black dial with red accent band. The lens is dark tinted for a low key appearance when off. When illuminated, the patented LED lighting technology provides lighted pointer and "through-the-dial" display.

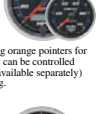
ULTRA-LITE II

Ultra Lite II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

ES

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

COBALT



Cobalt gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

SPORT-COMP II

Sport Comp II gauges feature a satin anodized Super Bezels and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent from your OE dash lighting.

AMERICAN MUSCLE

The American Muscle Street Rod Series features advanced hybrid dial technology combining Auto Meter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-COMP

Sport Comp gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high performance line easy to read with a crisp, no-nonsense modern appearance.

TRADITIONAL CHROME

Traditional Chrome gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy to read with a crisp, no-nonsense nostalgic appearance.

Gauge Accessories

AM5335

Shift-Lite

Uses an incandescent bulb and bright amber lens to alert the driver to preset shift points. Available in black or silver. Includes cover. Use with external, non-LED based, shift light tachometers or DPSS Controller sold separately.
Note: No further discounts apply.

AM5334	black	54.99 ea
AM5335	silver	54.99 ea

LED Replacement Bulbs

Upgrade your standard instrument lighting with intense LEDs. For all Auto Meter gauges (except clocks, A/F ratio, & Autogage), speedometers and tachometers. Does not work with Digital & LED Lit gauges (i.e. Cobalt, C2, NV, Phantom II, Sport-Comp II, Ultra-Lite II). Sold individually.
Note: No further discounts apply.

AM3285 AM3294

Tachometers - Twist-In Bulb

AM3295	green	14.99 ea
AM3294	red	12.99 ea
AM3296	blue	14.99 ea

AM3286	blue	15.99 ea
AM3287	amber	12.99 ea

Light Bulb Covers

For optional lighting color on most gauges. Does not work with digital & LED lit gauges (i.e. Cobalt, C2, NV, Phantom II, Sport-Comp II, Ultra-Lite II). Set of 3.
Note: No further discounts apply.

AM3215	green	7.99 set
AM3214	red	7.99 set
AM3207	blue	9.99 set
AM3208	yellow	9.99 set

MCX Series In-Dash Gauges

Features a domed lens, bright white dial face, black numbering and increments and fluorescent red pointers and a chrome Super Bezel. When lit for night time use, the gauges display "full dial" white illumination provided by patented LED lighting technology. The light intensity can be controlled through the optional LED Lighting Dimmer independently from your OE dash lighting (available separately).

AM1110

Important: Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.
Note: No further discounts apply.

1991-96 Newport Radio

The RetroSound Newport is the direct-fit modern audio upgrade with a factory style appearance for 1994-96 models. Designed for 1.5 DIN (3" x 7") dash openings, the Newport offers the most modern high-tech features including an iPod interface, Bluetooth connectivity, dual USB ports, and two auxiliary inputs for portable devices. Dual color (amber or green) illumination lets you match the Newport to your vehicle's backlighting and blend in to your interior.

Important: Factory Delco/Bose sound systems require an adapter to retain the factory amplified speaker system.

1963-64 Antenna Nut Tool

Finally a way to remove the chrome antenna nut on 1963-64 Impala models! Simple tool allows the user to remove the antenna nut easily and safely.

BS264 1963-64 ..... 11.99 ea

The Smart Antenna

Get great reception antenna with the Smart antenna. The antenna is totally self contained using printed circuit technology and miniaturized components, coupled with high quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash, concealed mounting prevents theft and also includes a lifetime warranty! Antenna cable measures 9 feet long.

SA20 fits all years! ..... 21.99 ea

Universal Power Antennas

Just think of how much easier it would be to put on or take off your car cover without the hassle of a fixed mast antenna. Automatically raises when radio is turned on, and retracts when radio is turned off. Includes 5 different angled mounting bases to insure a custom fit. Requires 11.5 inch mounting depth inside fender.

ANT4 universal power antenna..... 89.99 ea

1966-68 Power Antenna Harness

Correct replacement power antenna harness for 1966-68 full size models. These reproduction harnesses will completely replace your old original harness to restore your power antenna to proper working order.

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition. After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; this device could be wired to control all accessory power so you still have control of the power windows after the key is off.

RE12005 radio off delay ..... 64.99 ea

1965-72 Blower Motor Capacitor

This item will help to eliminate static in the radio from your Impalas blower motor assembly. For AM/FM radios and AC in order to eliminate electrical noise. Includes square plugs.

G5510 1965-72 ..... 46.99 ea

Radio Noise Suppressor

Sometimes after installing any new sound system, you may experience bothersome engine/alternator noise. Be sure to check all grounds for good connections (radio, antenna, amp., etc.). If you still hear engine/alternator "whine", our quality noise suppressor may eliminate this problem.

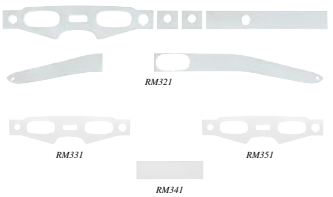
Instrument Panel



1958 Dash Panel Inserts

A reproduction of the dash panel inserts that fit all 1958 full size Chevrolet dashes. This is not just a sticker, it is the actual dot pattern, screen printed directly onto aluminum. This beautiful set comes with a quality 3M adhesive backing. These dash inserts are patterned directly from the originals and are laser cut for a perfect fit. For cars that came from the factory without a radio, the radio delete plate is available to cover the hole in the dash.

Note: Impala and Bel Air are 6-piece sets and run across the whole dash, Biscayne and Delray is one piece and fits around the instrument cluster only.

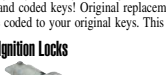
Lock Assemblies

Make it easy on yourself by installing lock sets that already include the lock assembly and coded keys! Original replacement lock assemblies usually need to be coded to your original keys. This process is eliminated when purchasing these sets. Choose from individual lock assemblies or complete sets which are guaranteed to make installation easier.

1965-92 Ignition Locks



Replace your original ignition lock assembly with these reproduction "coded" lock cylinders which include keys. Each set includes a cylinder assembly and the key which is pre-cut for fast installation. Early locks are available with original style keys, or later style square or oval keys.

Restoration Tip

1958-64 Door Lock Pawl

The "pawl" is the small bracket which attaches to the end of the lock cylinders. The pawl reaches in and actuates the latch for the door to lock and unlock. 1958 and later models use a "flat" egg shaped pawl. There are 2 different styles and lengths of door lock cylinders used. 2 door hardtop and convertible models used "long" cylinders, and 4 door hardtop, sedan and station wagon models used "short" cylinders. Please check your original cylinders before ordering.

Lock Assemblies

1958-91 Ignition and Door Lock Set

1958-76 Lock Cylinder Sets

Lock set designed to replace your ignition, door, glove box and trunk lock assemblies. Each set is supplied with "coded" cylinders and 2 pre-cut keys which will fit the new door, ignition, glove box and trunk lock cylinders. Early locks are available with original style keys, or later style square or oval keys.

1958-67 Tilt Columns

Your Choice of 4 Finishes

- Paintable Steel
- Chromed Steel
- Brushed Billet Aluminum
- Polished Billet Aluminum

Information Concerning Ididit Steering Columns

- The 1958 "column shift" column will move the steering wheel closer to your body than original. If this is a concern, we offer a short adapter. Use either part # SC2110P (polished) or SC2110C (chrome).
- On 1963-64 models, the original column had a dash bezel permanently attached to the column. An aluminum replacement is included with the column.
- The 1967 "column shift" column does not have a provision for the original dash indicator. An aftermarket indicator is required. A 4-way flasher set is not available for the 1967. The car was originally equipped with a flasher unit. A wiring harness adapter is included with the column.
- The 1958-66 models need a wire adapter to plug into your original wire harness

These tilt steering columns include levers and knobs and come wired for self-canceling turn signals, 4-way flashers, and horn. A neutral safety switch is included with all column shift units. The original under-dash mounting hardware and floor mount can be re-used. A stock steering wheel from a 1969 and newer GM passenger car will bolt right up. The shift pattern on the column will allow you to use either a 3-speed or 4-speed automatic transmission (will not match the detents on a Powerglide). A cable shift control set is required for installation of column shift columns and will attach to the lower shift arm provided on the column.

Note: Column shift units do not include a gear selector indicator. The shift pattern on column shift units can be used for a 3 or 4 speed automatic transmission, but will not match the detent pattern of a Powerglide. No further discounts apply.

1958-66 Ididit Column Installation Parts

Install your Ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. Sets are available for vehicles with a factory original harness and will include a 4-way flasher set. Many aftermarket wiring companies offer replacement panels that incorporate a 4-way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels, a 4-way flasher set is not necessary as it has been incorporated into the wiring panel. Components also available separately.

Note: Sets include a new U-joint, rag joint and steering shaft. On 1965-67 full size models the steering box is behind the crossmember, therefore only a rag joint is needed for installation. On 1965-66 models you must purchase the wire harness adaptor separately. See component listings for your application. No further discounts apply.

Tilt Column Steering Shaft

This shaft can be used on 1958-64 models to replace your worn out or missing original when installing an Ididit column. Use with SC1017 U-joint and SC1007 or SC1068 rag joint.

SC1018	3/4" DD x 36"	37.99 ea

Tilt Column Rag Joint

To complete your column installation, you should also replace your full size Chevrolet's rag joint. These replacement rag joints are the highest quality on the market. This item wears out over time and miles and should be replaced when installing your new column. Available for manual and power steering applications.

Note: Use SC1018 shaft with SC1007 and SC1009 rag joints. No further discounts apply.

SC2931C

SC2731C

Tilt Column Steering Wheel Adapters

These ididit steering wheel adapters allow you to bolt most aftermarket wheels to your new tilt column. They feature close tolerances and virtually no gap between the adapter and column. Available in 3, 5, 6, and 9 bolt configurations.

Important: The 9 bolt short adapter moves the steering wheel 2" closer to the dash and away from your body for more clearance.

450024

Slip Steering Shaft

The slip shaft is a cut-to-fit design and allows six inches of movement, eliminating binding caused by body flex. Includes a 1"/.75" DD slip shaft and a protective bellows.

Note: This shaft requires universal joints (sold separately).

450024	21"-27" DD shaft	74.99 ea
450036	30"-36" DD shaft	74.99 ea

FR20025B

1958-70 Tilt Steering Columns

These tilt steering columns feature all-new components including a one-piece cast upper housing design with a keyed GM ignition switch that has the standard GM plug. Designed to bolt in place of the original column. Complete turn signals, hazards and horn. The shift lever with the shift indicator are included on column shift applications. All Flaming River columns are made from 304 grade stainless steel, in paintable mill finish or polished to a high luster. They will never rust and are chemically clean and can be painted to match or highlight an interior with only minor preparation.

Note: No further discounts apply.

Turn the key | Pull the wheel | Put the security cap on and you're ready

Grant Wheel Security System

Remove and replace your aftermarket Grant steering wheel in less than 5 seconds and secure your vehicle from theft. A patented lock-out cap snaps onto the steering column to further assure the security of your vehicle. Unlike conventional alarms, this revolutionary system cannot be affected by motion. Another big advantage is that it doesn't rely on your battery. And it cannot be bypassed as many of the ignition bypasses can. This security system can only be used with Grant steering wheels. Also available is a handy nylon storage bag to protect your wheel when removed, and to store the lock-out cap when the wheel is installed.

Important: Not for use on factory original steering wheels

Note: No further discounts apply.

1958-66 Heritage Collection Steering Wheels

These unique steering wheel designs are inspired by classic wheel styles of the past to create a modern interpretation of a proud automotive heritage. The Heritage Collection features larger diameter machined aluminum steering wheels. The spokes are machined 6061 T6 Alcoa aluminum in a range of designs, polished to a mirror finish. The rims are genuine leather or hand rubbed mahogany wood. The wheels have finger grips on the back of the rim for additional comfort and style. The modular construction creates a wheel rim that is covered completely with leather or mahogany, not with a partial aluminum rim as used in many billet wheels. The center of each wheel has a polished aluminum center cap which compliments the wheel design. 14-3/4" diameter with 2-1/2" dish. Mounting kit included.

Important: For use on models without drivers air bag. Will work with tilt column only where noted. Mag 3 only available in leather.

Note: Must specify wheel type - A-leather, B-mahogany wood. No further discounts apply.

Steering Wheels

1958-60 15" Reproduction-Style Steering Wheels

Replace the old, bulky 17" steering wheel in your 1958-60 Chevy with one of these 15" reproduction-style steering wheels. These quality wheels replicate the look of the original steering wheels, but improve the driving feel with their smaller 15" diameter. Steering wheels includes horn ring, horn cap, a custom emblem (also accepts stock or reproduction emblems,) and installation instructions for both stock and aftermarket steering columns.

***Important:** Part# 26122000040 adapter kit is required when using an aftermarket tilt columns. Horn ring installation sets sold separately.*

1958-95 Le Carra Steering Wheels

Looking for a steering wheel for your classic Chevy full size that brings back feelings of the best of times from an older era? This is the wheel. Like the original equipment wheels of its time, these wheels feature a hard paintable rim and are available with functional horn ring (Mark 10 models only). Available glossy black, or primed and ready for your paint. The Mark 10 wheel is available with either the "groovy" horn button, "smoothie" horn button, or a timeless horn ring to bring that nostalgic look to your ride. The Mark 40 is available with either a plain black billet cap, or a black billet cap with en embossed Bow Tie. Now there's a steering wheel that looks like it belongs in your classic beauty. Wheels kits come with wheel, installation adapter and horn button. Wheel is a 15" wheel.

Note: No further discounts apply.

1969-81 14" Padded Leather Steering Wheel Set

Replace the outdated, uncomfortable stock steering wheel in your Chevy full size with one of these modern padded leather steering wheel kits. Each wheel features a thick padded leather grip for driving comfort and a classic center spoke design that is reminiscent of the optional sport wheels from the late 1960s muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Steering wheels are leather, and are available in black, tan, grey or red. Each steering wheel kit comes with everything you need to mount the wheel including, steering wheel, mounting hardware kit, chrome or brushed billet aluminum mounting hub, and choice of horn button and ring with either red/white/blue Bow Tie, blue/silver Bow Tie, black/red Bow Tie, cross flags or SS logo.

Note: No further discounts apply.

1967-68 Walnut Steering Wheel

This reproduction walnut steering wheel was available as an option in 1967-68. This wheel offers the appearance, feel, and status of the original without the high cost. The latest manufacturing methods are utilized to ensure a reproduction that is as close as possible to the original wheel. Mounting hardware and center cap sold separately.
Note: When converting a standard wheel to a wood wheel you will need to change the hub assembly. Hubs are available separately. We recommend the purchase of a wood wheel hardware kit for best results when installing.

OER GM Restoration Parts

1969 Rosewood Steering Wheel

This wheel was optional on any 1969 passenger car. This wheel offers the appearance, feel, and status of the original without the high cost of used original GM wheels. The latest manufacturing methods are utilized to ensure a reproduction which is as close as possible to the original wheel. The rosewood wheel features correctly coated simulated wood wrapped around brushed aluminum center spokes. Originally, the wheel was available as option N34 in 1969 and was referred to by the factory as the woodgrain plastic rim sport style steering wheel.
Note: When converting a standard wheel to a wood wheel you will need to change the hub assembly. Hubs are available separately. We recommend the purchase of a wood wheel hardware kit for best results when installing.

NRG Steering Wheels

Short Hub Adapter New!

This short hub unit was designed to mount an aftermarket steering wheel/ quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, one-piece design for maximum strength and durability. Fits 1969-06 GM, Ididit, and Flaming River steering columns.
Note: Must use with NRG Quick Release or Tilt systems.

152780	1969-79	black	129.99 ea

Generation 2.0 Quick Release System

New!

These 2.0 quick-release units feature many options that conventional Ball-Lock quick release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last. Available in black with a carbon fiber ring or in a variety of other colors with titanium chrome ring.

152781BK

Note: Must use in conjunction with the Short Hub Adapter.

Generation 2.8 Quick Release System

New!

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded Diamond Cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

Note: Must use in conjunction with the Short Hub Adapter.

1/2" Steering Wheel Spacers New!

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC machined aluminum with counter sunk mounting holes to the hub, and a universal 6 bolt mounting pattern.

152779B	black		24.99 ea
152779G	silver		24.99 ea

Quick Tilt/Lock System New!

By allowing the steering wheel to tilt out of the way in one quick motion and combining a patented locking system to secure the wheel once the tilt is engaged, this system provides an added layer of anti-theft security without sacrificing convenience.

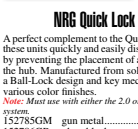
Note: Requires short hub adapter. Not compatible with quick lock or quick release units.

152772B	black		259.99 ea
152772G	silver		259.99 ea

NRG's Steering Wheel Adapter System:

NRG's modular steering wheel adapter system lets you choose the level of security for your classic vehicle. Pick from a quick release system that removes the steering wheel, a tilt-lock that unlinks the wheel from the column, or for total vehicle security use the Quick Lock system to prevent a would-be thief from placing a steering wheel onto the hub and driving away.

New!



152786GL

- **Manufactured from the highest quality aircraft aluminum.**
- **All Quick Release units feature a ball locking mechanism.**
- **Will work with all 1969-06 GM columns.**
- **Compatible with all Flaming River and Ididit Columns.**

NRG Quick Lock System

A perfect complement to the Quick Release Systems, these units quickly and easily disable the steering hub by preventing the placement of a steering wheel onto the hub. Manufactured from solid steel and utilizing a Ball-Lock design and key mechanism. Available in various color finishes.

Note: Must use with either the 2.0 or the 2.8 quick release system.

Parking Brake Cable

Complete the installation of your Wilwood parking brake set! These cable sets are compatible with all Wilwood internal drum parking brake sets, including the Dynalite and Superlite sets. This cable connects Wilwood's parking brake mechanism to your vehicle's OE equalizer assembly. The cables are simple to install and adjust. The black cable housing finish disappears under the car for a clean looking undercarriage.

Note: No further discounts apply.

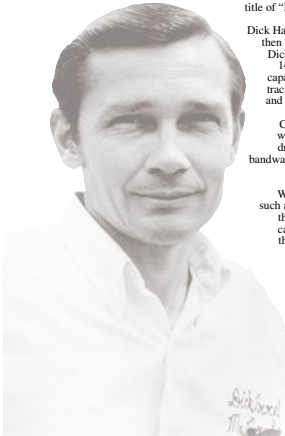
A Classic Industries Tribute To

Mr. Chevrolet

DICK HARRELL

Dick Harrell, Drag Racing Legend



Classic Industries® is proud to salute Dick Harrell, drag racing pioneer and all-around good guy who earned the title of "Mr Chevrolet," for his profound contributions to the classic car hobby and muscle car culture.

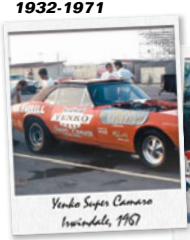
Dick Harrell was born in Phoenix, Arizona and lived there until he was 5 years old. He and his family then moved to Carlsbad, New Mexico, where he resided until 1965. Cars were very much a part of Dick Harrell's early life. Dick first gained racing acclaim in the Carlsbad area at the tender age of 14 where he became deeply involved with sprint cars. He began tuning and later proved to be a capable driver, racing throughout the Southwest. At age 17, Dick started driving jalopies on a dirt track near Carlsbad. By the early 1960's, Dick Harrell was a racing champion, setting records left and right in Chevrolet cars that he had re-engineered himself. When General Motors discontinued its racing program in the mid 1960's, most racers abandoned Chevrolet in favor of Ford and Chrysler models. Undaunted by GM's decision, Dick Harrell continued racing Chevrolets even without factory support. During this period of time, if a Chevy was competing in a professional drag race, you could bet that Dick Harrell was probably involved. He was relentless against the bandwagon of factory-backed racers, forging his reputation and earning the nickname "Mr. Reflexes" among others, but no nickname was more appropriate than "Mr. Chevrolet."

When the Camaro was newly introduced as a 1967 model, Dick Harrell teamed up with dealers such as Yenko Chevrolet to exploit the Central Office Production Order (COPO) process. Together, these early pioneers built the first COPO Camaro models, some of the most highly sought-after cars of the era. Dick Harrell then used his business skill and outstanding reputation to convince the American Hot Rod Association (AHRA) to create a special Pro-Stock racing class for these COPO models and they agreed, providing that 50 of each model were sold to the public. In 1969, Chevrolet took notice and enlisted Dick Harrell's help with the development of the now famous aluminum 427ci big block V8 for Can Am racing. This very powerful, extremely lightweight engine was conservatively rated at 430 hp and would make the 1969 ZL-1 the quickest production Camaro to leave the factory for decades.

Dick Harrell solidified and built upon his reputation in the business world, but his passion for racing would never subside. As he continued his affair with the drag strip, he was always willing to share his love and knowledge of Chevrolet and drag racing with anyone and everyone who was interested. Unfortunately, on September 12, 1971, he lost his life in a crash during a race in Toronto, Canada, when a front tire explosion at 220 mph sent Harrell into a light pole. In the aftermath of the tragic crash, speed-proven front tires were developed for funny cars to prevent similar accidents. Even in death, Dick Harrell advanced the course of drag racing.

On that unfortunate day, Dick Harrell left behind a wife, Elaine, and two daughters, Valerie and Kim. Valerie continues to keep the legacy of her father's incredible career alive by operating a forum and website dedicated to her father's memory. She has also been involved in projects that match the spirit of her father's efforts such as the 427-powered Dick Harrell Camaro tribute cars built by GMMG of Marietta, Georgia in 2003.

Dick Harrell, "Mr. Chevrolet"
1932-1971



Yenko Super Camaro
Irwindale, 1967

Dick Harrell's Chevy II
Anaheim, CA

Dick Harrell was recently inducted into the Don Garlits International Drag Racing Hall Of Fame, finally getting the recognition he deserves 39 years after that fateful day in Toronto. Today, we salute him as a true innovator, enthusiast and hero in the world of high performance racing and the automotive hobby.

Dick Harrell, the loving husband and father, is forever lost except in the private memories of his family and friends. "Mr. Chevrolet," the racing legend behind everything that made Chevy the major force that enthusiasts know and cherish today, will live on in our hearts and minds forever.

Commemorative Metal Signs

Display your pride and enthusiasm for your favorite brand with these PhotoSteel signs. PhotoSteel is corrosion resistant and can be used in harsh outdoor environments. It is sturdy enough to be mounted on a wall without any need for framing, to stand independently, lean against a wall, use as a table top or hang freely from the ceiling. Heavy gauge steel construction gives it a substantial and rich feel that will continue to impress for years to come.

Chip Foose/Classic Industries Project Poster

Brightly colored poster with 4 of the most popular cars from Overhaulin! Two of the most popular names in automobile restoration, Classic Industries® and Chip Foose have joined together to bring to you these four spectacular vehicles. The 1970 Nova-Caine, 1967 Cherry Nova, 1965 Impala Custom and the 1968 902 Merlot Camaro. Designed by Chip Foose in partnership with Classic Industries®, these four vehicles will provide inspiration to car builders for years to come. A compilation of the original Foose drawings, this 18" x 24" poster is printed on poster stock and shipped in a protective tube to eliminate damage.

Custom License Plate Frames

Flaunt your GM pride with a custom license plate frame that shows off your vehicle year and Chevrolet or vehicle year and model. Available for 1947-2002 Chevrolet, 1958-85 and 1994-96 Impala, 1958-75 Bel Air, 1966-1996 Caprice and 1958-72 Biscayne, with top mounting holes to fit any year. All license plate frames are manufactured in the USA and are produced in die-cast zinc with an elegant, rust-preventive triple chrome plating. Choose from a black, blue or red background with bright white lettering.

Note: Available in a variety of years and models. Specify your choice of color A-Black, B-Blue, C-Red.

Style Codes

How to Order Year/Model Frame:

Please select model from the part numbers listed below. Add the two digit year to the part number followed by two-digit style from above for that model and finally the alpha color code A - Black, B - Blue, C - Red

LF224 58 01 A = Impala, 1958, Style 1, Black

- LF224 — Part Number
- 58 — Year
- 01 — Style Code
- A — Color Code

Automotive Manuals

Chevrolet Service and Shop Manual

Factory manual that gives all the information you'll need for servicing your Impala, Bel Air, Biscayne and Caprice. Each shop manual includes procedures for maintenance and adjustments, minor service operations, removal and installation of components *(excluding the body)* and a wealth of General Motors service operations techniques. If there is one book devoted to the care of your Impala, this is the one! This manual covers the entire Chevrolet line (excluding Corvette). Whether you own an Impala or another Chevrolet model, these manuals will supply the important and pertinent information for correct maintenance procedures. Written by General Motors. A must for any B-body owner.

Note: This book covers the service aspect of the mechanical operations of the vehicle. For body and interior, see the Fisher Body Service Manual.

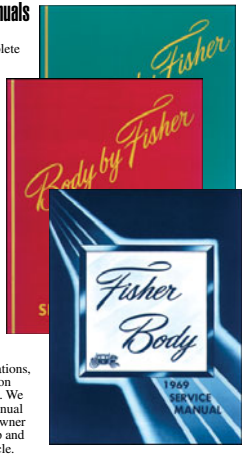
The Ultimate Body Manual for Full Size Models!

Covers every essential body component and much more!

Fisher Body Manuals

All Fisher body manuals have complete information on the essential removal, installation and adjustment procedures for servicing each year full size. Information includes interior trim cleaning, headlining, stationary glass, door panels, rear seat shelf, convertible top, electrical and more. This manual covers the most essential information pertaining to the body. Unlike the shop manual, you'll find unique information, illustrations, and other information found nowhere else. We recommend this manual for any Chevrolet owner who intends to keep and maintain their vehicle.



Note: This book covers the body aspect of the vehicle. For mechanical operations, see the Chevrolet Service / Shop Manual.

Impala Assembly Manuals

The most informative and comprehensive book available on early Impala assembly! Each manual contains detailed information on complete assembly of each component, exploded views of parts and where they fit, corresponding part numbers for parts and factory notations on assembly. No restorer should be without this manual! Manuals vary in page numbers according to year. An absolute must for anyone restoring a full size Chevrolet. Also includes factory notes and variations in products in accordance with factory specifications. We recommend these books for anyone who wants factory accurate information on the early model.
Note: *These printed pages are unbound and pre-punched for a standard 3-ring binder. Binder is not included.*

Engine Manuals

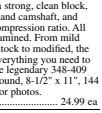
Chevrolet Inline Six-Cylinder Power Manual

This book covers performance-modifications for Chevrolet inline six- cylinder engines. You'll find information on selecting a block, modifying oiling systems, sealing, camshaft design, cylinder heads, manifolds, ignition and supercharging and turbocharging. 160 pgs. stfbnd.
L2722 ..... 29.99 ea

How to Rebuild & Modify Chevy 348/409 Engines

Chevy's W-series 348 and 409 became legends on the street, and the track. While these engines enjoyed pop culture status in the early 1960s, the later Mark IV Chevy big-blocks overshadowed these W-engines by the end of the decade. This book provides instruction for rebuilding a stock W-engine as well as directions for a sound performance build. Learn how to select a strong, clean block, the best heads and camshaft, and increase the compression ratio. All options are examined. From mild to wild, from stock to modified, the book covers everything you need to know about the legendary 348-409 engines. Softbound, 8-1/2" x 11", 144 pages, 400 color photos.
L1403 ..... 24.99 ea

How to Rebuild Chevy LT1/LT4

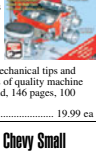


Step-by-step procedures on how to rebuild your Gen II small block back to factory, smog-legal specifications. Sections covered include disassembly, cleaning and inspection, reconditioning the block, crank, pistons and rods, cylinder-head reconditioning, gaskets and seals, balancing, engine installation, casting numbers and much more. 8-1/2" x 10-7/8", 192 pages.
L1393 ..... 24.99 ea

Rebuilding the Small Block Chevy Step-by-Step Videobook

This is a step-by-step Workbench Book and DVD combination that shows you how to build a street or racing small-block Chevy. Detailed sections show how to disassemble a used engine, inspect for signs of damage, select replacement parts, check critical component fit and much more! 160 pages, softbound.
L6611 ..... 29.99 ea

How to Rebuild the Small Block

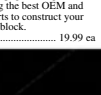


This book covers virtually every small block engine. Includes easy step-by-step approach, helps avoid costly and time-consuming mistakes, select the right parts, master mechanical tips and the ins and outs of quality machine work. Softbound, 146 pages, 100 illustrations.
L278 ..... 19.99 ea

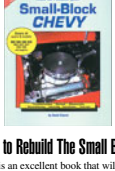
How To Build Chevy Small Blocks On A Budget

Know the ins and outs of building serious horsepower small block Chevy engines on a budget. Included are details of factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, etc. 144 pages, 300 b/w illus.
L857 ..... 19.99 ea

How To Build Big Inch Chevy Small Blocks

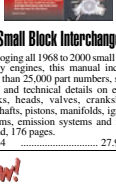


By building a big-cube small block, you can have all the torque and horsepower of a big block without all the weight expense and effort. This 128 page book guides you in selecting the best OEM and aftermarket parts to construct your big-inch small block.
L916 ..... 19.99 ea



How to Rebuild The Small Block

This is an excellent book that will give you great information on rebuilding your small block engine. You'll get some of the greatest information on all procedures required to bring your Chevy engine back to its original condition. How to remove the engine, inspect for wear, strip, recondition, assemble, install and tune up. Softbound, 8-1/2" x 11", 168 pages, 416 illustrations.
L20 ..... 24.99 ea



Small Block Interchange

Cataloging all 1968 to 2000 small block Chevy engines, this manual includes more than 25,000 part numbers, specs, dates and technical details on engine blocks, heads, valves, crankshafts, camshafts, pistons, manifolds, ignition systems, emission systems and more. Stfbnd, 176 pages.
L1024 ..... 27.99 ea

How To Draw Cars 2nd Edition

Car designer Thom Taylor goes back to the drawing board with all-new illustrations on such topics as the use of computers in design today. Taylor begins with advice on selecting the proper tools and equipment, then moves on to perspective and proportion; light, shadow, reflection, color and even interiors. 8-1/4" x 10-5/8", 144 pages, 140 color, 100 b/w photos.

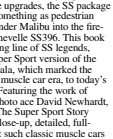
Chevy SS: The Super Sport Story



In 1957 auto show circuit, Chevrolet unveiled a Corvette prototype dubbed "Super Sport." The performance car world hasn't looked back. A combination of styling and performance upgrades, the SS package could turn something as pedestrian as a six-cylinder Malibu into the fire-breathing Chevelle SS396. This book traces the long line of SS legends, from the Super Sport version of the popular Impala, which marked the dawn of the muscle car era, to today's Impala SS. Featuring the work of acclaimed photo ace David Newhardt, Chevy SS: The Super Sport Story provides a close-up, detailed, full-color look at such classic muscle cars as the Chevelle, the El Camino, the Malibu, and the Monte Carlo as well as today's hot Camaro SS. The book is a celebration of the cars that redefined "high performance" and defined an era. Flexibound, 10-1/4" x 9", 348 pages, 308 color & 8 b/w photos.

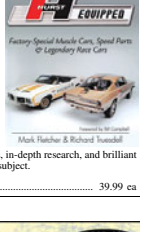
Hurst Equipped Factory Special Muscle Cars, Speed Parts & Legendary Race Cars



No other company or individual had as big an impact on so many aspects of the automotive industry as George Hurst. With an unquenchable desire to succeed, he started an automotive aftermarket parts business in his garage in Warminster, Pennsylvania. Through innovative products and marketing, Hurst Performance became the leader in high-performance shifters on the street and strip. The story of George Hurst and his companies have gone untold until now. Scores of interviews, in-depth research, and brilliant photographs make this the ultimate book on the subject. Hardbound, 160 pages, 8-1/2" x 11" 340 photos.

L1410 ..... 39.99 ea

1955-75 Chevrolet By The Numbers

Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Author Alan Colvin documented every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975, using original source material from Chevrolet's archives, including engineering blueprints, technical service bulletins and build sheets. Every engine is covered from the ultra-rare, high-performance aluminum 427 for the ZL-1, to the common 283 found in Impala station wagons. All engine blocks, cylinder heads, pistons, connecting rods, crankshafts, camshafts, manifolds and more, are listed. If you want to know the original parts for your Chevrolet drivetrain, not what will interchange or fit, but the correct part that came with your car when it rolled off the assembly line, Chevrolet by the numbers has the answer. Softbound, 8-3/8" x 11".

L508	1955-59	230 pages, 700 b&w illustrations	41.99 ea
L509	1960-64	291 pages, over 200 b&w illustrations	41.99 ea

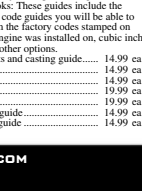
L511	1970-75	295 pages, 250 illustrations	36.99 ea

Casting Numbers-Cowl Tags-Suffix Codes



These guides will give you information regarding casting numbers, what suffix number goes with the head casting number, what exhaust manifold numbers go with these castings and so on. The casting numbers are listed in two ways: 1) By the year: This is great when you have a particular restoration which requires the correct casting number. 2) By casting number: When you want a particular casting number, you can quickly look it up numerically. This book also lists the more common part numbers associated with restoration. These are also listed two ways: 1) By group number: Just like factory manuals so you can order direct. 2) By part number: An easy way to zip down the list and find it numerically. Each book will give you a full factory description along with what years they are associated with. Suffix Code Books: These guides include the most important codes on an engine. With suffix code guides you will be able to decode virtually all Chevrolet V8 engines. From the factory codes stamped on the block, you can decode the original car the engine was installed on, cubic inch and horsepower, transmission intake, RPO and other options.

My Classic Car DVD Collection

American automobiles have been around since the early 1900s, but in the 50s, 60s, and 70s they became part of American culture, and they gave America an identity. With the help of Dennis Gage you can take a look at the cool cars of the fifties and the muscle cars of the 60s and 70s. In Cool Cars of The Fifties, take a nostalgic ride in such classics as a 1948 Tucker, 1955 Bel Air, 1954 Buick Riviera and 1950 Mercury just to name a few. Or take a pedal to the metal ride with such muscle machine manufacturers as Chevrolet, Ford, Buick, Oldsmobile, Pontiac and the Mopars. Also available is Jay Leno, Certified Car Nut. Dennis takes you inside Jays garage to look at his collection and take some of his favorite cars and motorcycle for test drives.

car completely covered

Touchless Car Cover

Using an old-fashioned car cover after washing your car can promote the growth of mold and bacteria under the cover in those unreachable nooks and crannies resulting in a car that smells like mildew. This can be prevented by covering your freshly-washed car with the Touchless Car Cover. No dust, no trapped moisture, and no chance for mold to grow. Just drive in and out to cover your car! Zippered sides allow access with the cover in place. There are no metal parts to corrode. Easy to set up and use with universal front and rear skirts. Fit sedans, wagons and coupes 196" or shorter.

1977-96 Custom-Fit Windshield Sun Shade

The UVS100 Ultra-Violet Heat Shield helps reduce interior temperature and protect against damaging sun rays that come through the front windshield. One side is colored reflective fabric and the other side is finished in soft pellon felt. Both fabrics are laminated to a foam core board which acts as an insulator to help reduce heat build up. Produced using pre-sewn panels that quickly accordion-fold for handy storage. No hardware or hassle, simply fold and position across the windshield surface, then fold the sun visors down to hold the shield in place. Optional heat-shield storage bags are available.

Note: Specify color when ordering.

Phantom Key Push Button Start

The Painless Phantom Key allows the total replacement of most ignition switches. Simply remove your existing ignition switch, install the backlit stainless push button and let the Phantom Key do all the work for you. When the key fob is more than 20 feet from your vehicle, the LED backlit push button switch blinks to indicate a security device and ward off potential thieves. Extra channels for functions such as trunk popper and door lock provide the added security of not having any key tumblers for a thief to pick. Available with white, blue or red backlit 22mm switch.

Note: No further discounts apply.

TF900629

1962-79 Remote Control Battery Disconnect

With this system, one click of the key fob completely shuts down your car's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. Just trigger it with the key fob as you walk away. For more security, the 4-channel system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4-channel package can handle up to 30 amps worth of electrical equipment.

Starter-Stop Anti-Theft Device

The Starter-Stop is a low-cost theft protection device that disables the vehicles ignition. This works with virtually all 12V cars. Simply wire it into any on/off switch in your vehicle and that will become your personal kill switch. It automatically arms when the ignition is turned off. There are no batteries to wear out, no annoying siren and no transmitters to lose.

14070 ..... 19.99 ea

"Road Kill" Anti-theft Device

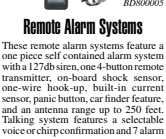
Stop car thieves with the "Road Kill" Anti-theft ignition shut-off kit. When activated, the engine will only run for 10 seconds. Just then, "Road Kill" shuts off the ignition and blasts the horn to get the world's attention. Each kit includes a 10 second timer, ignition relay, system on/off toggle switch, horn feed wiring and installation instructions.

T70792 ..... 99.99 ea

LED False Alarm

Deter auto theft with a "flashing red LED" that gives the appearance of a sophisticated alarm system at a fraction of the cost. In minutes the battery-operated Guardian 3000 can be installed anywhere on the dashboard.

G3000 ..... 19.99 ea



BD800005

Remote Alarm Systems

These remote alarm systems feature a one piece self contained alarm system with a 127db siren, one 4-button remote transmitter, on-board shock sensor, one-wire hook-up, built-in current sensor, panic button, car finder feature, and an antenna range up to 250 feet. Talking system features a selectable voice or chirp confirmation and 7 alarm messages.

Note: Requires existing power door locks/ trunk release for keyless entry to operate.

GN520 ..... 52.99 ea

Alarm Upgrade for Keyless Entry Systems

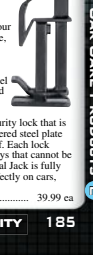
Upgrade your car's factory or aftermarket keyless entry system to a full security system with starter-disable protection, passive or active arming, on-board flashing parking lights relay, negative output for honking horn, positive output for siren, 2 negative and 1 positive inputs, 3 programmable disarm modes, plug-in override switch, plug-in LED status indicator, dual stage shock sensor, alarm pre-warning signal, 6-tone 120dB siren and a complete installation manual.

GN100 ..... 62.99 ea

Locking Hood Pin Set

This locking hood pin set can be used in place of standard hood pins to secure your hood with two barrel locks. Kit includes two chrome plated lock sets, gaskets and escutcheons, two fully threaded lock pins with nuts and two keys. For use in conjunction with stock hood latch mechanism.

S4062 ..... 15.99 set



PEDAL JACK The Ultimate Anti-Theft System!

By immobilizing the brake pedal, the Pedal Jack makes it impossible to drive the vehicle. Federal Vehicle safety standards require brake pedals to be unbreakable. The Pedal Jack uses this fact to it's advantage in providing tamper-proof security for your vehicle. Furthermore, the Pedal Jack itself is constructed using heavy duty, heat-treated tempered steel that is saw-proof and cannot be fractured by freon gas. It has a patented high-security lock that is protected by a tempered steel plate making it drill-proof. Each lock comes with three keys that cannot be duplicated. The Pedal Jack is fully adjustable to fit perfectly on cars, vans & light trucks.

UN1001A ..... 39.99 ea

Inspection Approval Stamps

- Achieve complete authenticity for your Vehicle by applying inspection approval stamps!
- The first and only kit designed to put inspection marks on your undercarriage and hood!
- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

It's the details that make the difference!

You may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

Questions and Answers

Q. What does P.T.B. stand for?
A. P.T.B. means P = Paint, T = Trim, B = Body.
Q. Do they go in any certain order?
A. No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc. The most common way is PTB.
Q. Where do they go?
A. PTB can be on either side of the firewall but the drivers side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.
Q. What color should they be?
A. They can be orange, light green, or a mixture of both. For example P=orange, T= light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

CC12

CC13

Factory Inspection Marking Kits

Includes the correct P.T.B. stamps with specially formulated paint to give your vehicle the final inspection marks that the factory put on. Also included are the yellow and white crayons for marking your firewall with the factory inspection marks. A must for any true restoration.

Frame Engine And Body Markers

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct car was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

Buffing Pad Wash Bucket & Detailing Cart

Buffing/Polishing Pad Washer

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system. The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water-tight portability. Wash and dry in under 30 seconds!

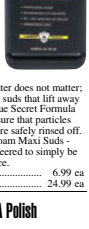
Now you can purchase our exclusive "Secret Formula" car care products in consumer friendly 16 oz. bottles, and you too can achieve the amazing results that only a detailer using professional grade products can achieve. If you detail your car often, take advantage of our bulk packaging and purchase your favorite products by the gallon! If you are tired of paying for expensive bottles with colorful labels and achieving mediocre results, then do your car's delicate finish a favor and order our complete car care system today. OER® offers the highest quality car care formulas at any price, without the hype of expensive advertising and high dollar packaging. No fancy bottles or labels to pay for, our product speaks for itself!

OER Secret Formula Wash & Wax Products

OER® Super Foam Maxi Suds Car Wash



This high sudsing, biodegradable liquid is concentrated 200:1 for economy. Mix one cap full with 4-5 gallons of water for a daily paint shampoo. Washes away dirt, grease and road grime, and rinses easily. Its pH balanced formula will not harm previously applied wax or sealant. A concentrated liquid car wash that offers economy without sacrificing high performance cleaning ability. Whether you use hard or soft water does not matter; Super Foam produces thick, rich suds that lift away dirt and oily road film. The unique Secret Formula offers unmatched lubricity to assure that particles glide gently across surface and are safely rinsed off. Formulated with OER® Super Foam Maxi Suds - high suds foaming action. Engineered to simply be the best wash & gloss at any price.

OER® "Secret Formula" DA Polish

This bodyshop safe, 100% wax and silicone free polish will prepare any paint for the perfect sealant. Available in your choice of 2 grades to rapidly remove light scratches, swirls, key marks, fingernail scratches, and other imperfections. Each grade starts out as a polish then breaks down to a final step product that produces an exceptional shine. Use the Pro-Polish as a final product or a superior foundation for wax, sealant or glaze. To start out with a slightly more aggressive polish, step up to the medium grit product Scratch & Swirl B-Gone. For best results use with a DA or rotary polisher.

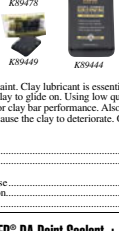
OER® "Secret Formula" Clay Bar System



Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like smooth finish. One premium professional duty bar is enough to do 8-10 vehicles. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint-fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube, detergent or surfactant based soaps will cause the clay to deteriorate. OER® Slick It Clay Lubricant is available in a 16 oz. bottle or pro-sized gallon.

OER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties. Glazes are used primarily to improve the shine brilliance and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the high brilliance of paints on a vehicle, glazes are also commonly used on show vehicles to achieve a "high-luster or wet-look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings WILL NOT turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with our OER® Secret Formula Pro-Polish first.

OER® DA Paint Sealant + 3X Carnauba

Just one coat of this sealant is all you need to protect your auto's finish for 6 to 8 months. OER® DA Paint Sealant's 3X Carnauba creates an anti-static, heat resistant protective seal against corrosive elements such as ultraviolet rays, salt water, acid rain and industrial pollutants. Can be applied in multiple layers to deepen the shine and level of protection without compromising your paint or clear coat. Coats your vehicle in a protective seal delivering a glossy, rich, liquid shimmer that leaps off the paint surface. Anti-static formula discourages the settling of new dust. Bring out the depth of the paint color while the shine enhancers leave a glass-like mirror finish.

OER® "Secret Formula" Waterless Wash

We care for the environment, and if you share the same feeling, try out OER® Secret Formula Waterless Wash... a unique product which can help you conserve water while keeping your car sparkling clean. However, just because our product doesn't call for the use of water, by no means it is any less effective. In fact, because there is no water, it is much easier on the finish and other bodywork in general. It cleans, shines and protects all paints, clear coats, rubber, vinyl and plastic surfaces. It even softens and breaks down light surface contamination while it captures and reduces dirt particles, lifting them off the surface of your vehicle. For all its cleaning power, it will not strip or remove wax or sealants and delivers superior results in the sun or in the shade. It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

OER® "Secret Formula" Headlight Restorer

OER® Secret Formula Headlight Restorer Professional Polish for plastic headlight lenses is not only affordable, but unlike most of the other headlight restoration products available in the market, is a professional formula that is remarkably easy to use. However, we do recommend that you apply it with the aid of a machine for best results. Over a period of time, the headlight lenses are bound to become yellowed and hazy. In such a situation, you have two options, spend hundreds of dollars for replacement, or try restoration. The latter is what our product is meant for. Save money! That's right, you no longer have to replace foggy headlights. In addition, you do not have to settle for exorbitantly-priced headlight restorer products available elsewhere. We offer a better alternative for less. Have a safer ride. When restored, your headlight will deliver better luminance, yielding up to 30% more road visibilty.

OER® Premium Carnauba Hard Paste Wax

This product is a favorite among professionals in the industry as well as automotive connoisseurs who insist on the finest quality. Made from 100% pure Brazilian Carnauba Wax, this hard paste wax leaves any finish with an exceptionally long lasting, lustrous, clear shine. Apply by hand with a damp cloth. For pre-cleaned surfaces only. As hard as a brick, yet easy to apply and remove. For use on any color paint. Bonds with clean paint, waxes and sealants to offer a deeper richer shine and longer lasting protection. One coat is truly all you need, however layer it as many times as you want to achieve desired results. Long lasting 2-3 month protection. Formulated for successful use even in the sun! Works like a sun block to protect your paint and deliver an unparalleled show-car shine. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Premium Carnauba Pre-Softened Wax

OER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a microfiber immediately. No need to wait for it to dry! Leaves no white haze at all- there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim- it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, OER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

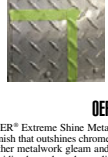
OER® Secret Formula Wheel Wax

OER® Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Guard delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated and even painted wheels. Clean, polish, shine, protect and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. It not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. OER Secret Formula Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid raid, water spots, airborne fallout and road contaminants.

K89486	8 oz. jar	18.99 ea



OER® Extreme Shine Premium Metal Polish & Sealant

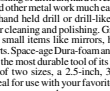
OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet-mirror like finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. The most innovative metal polish ever. A 3-step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball & drill.

K89483	16 oz. bottle	17.99 ea

OER® "Secret Formula" Wheel & Tire Care

OER® Secret Formula Wheel & Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.



Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims and other metal work much easier. Can be attached to any hand held drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space-age Dura-foam and fiber-soft materials make it the most durable tool of its kind. Comes in your choice of two sizes, a 2.5-inch, 3.5-inch, or 4.5-inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

K89490	2.5 inch polish ball	26.99 ea

K89498	4.5 inch polish ball	29.99 ea

OER® Acid Free Wheel & Tire Cleaner

Spray on and rinse off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

K89740

K89741

Grit Guard Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert. This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish-protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch-free. Available in 3.5 or 5 gallon size.

Dual Wash Bucket System

The ultimate solution for paint protection! The system includes two dollies, two Grit Guard inserts, two sealing lids, a dual-bucket connector plate and a seat cushion. The idea behind a two bucket wash is simple: two buckets means double the protection from swirl marks and scratches. With a designated rinse bucket, all the dirt and grime from your vehicle stays out of the clean, soap-filled wash bucket and off your prized possessions. When you're done washing your vehicle, you'll be amazed at the difference between the water in the rinse bucket and the wash bucket.

OER® Rust Removal & Prevention

OER® Remove Undercoat & Adhesive

OER® Chemical Restoration Remove Undercoat & Adhesive makes removing undercoating and left over adhesive a breeze! This d-limonene based solution loosens the undercoating bond from the metal or plastic surface for easy scraping. OER® Chemical Restoration Remove Undercoat & Adhesive is a biodegradable formula that works quickly on soft rubberized undercoating but may also be used to soften baked-on undercoating and adhesive. After removing the undercoating and repainting, use OER® Chemical Restoration Prep Metal to remove any residue and contaminants for a weld ready surface.

K86115 12 oz. aerosol ..... 14.99 ea

OER® Prep Metal

Removing contaminants from any metal surface is the first step in ensuring proper preparation before using our rust treatment products. OER® Chemical Restoration Prep Metal combines a powerful flushing action with a high solvency formulation to remove brake fluid, grease, oil, wax and other contaminants on metal surfaces faster and easier than other non-chlorinated degreasers. The aggressive formula evaporates quickly, leaving no film or ozone-depleting CFCs. VOC compliant. Can also be used for cleaning brake linings, drums, cylinder heads and most other metal parts, fast.

K86116 14 oz. aerosol ..... 14.99 ea

OER® Inhibit Rust

OER® Chemical Restoration Inhibit Rust is durable clear coating that protects any metal substrate from rust and corrosion for up to 7 years. It provides a superior bond to treated and non treated surfaces such as undercarriage, suspension components, wheel wells, fenders, and more. Easy to use and safe for use on metal, stainless, copper, aluminum, and fiberglass. Withstands temperatures up to 190ºF with two or more coats. Clear formula eliminates the need to mask off areas and it cleans up easily with solvent cleaner. OER® Chemical Restoration Inhibit Rust also protects and provides added UV resistance to painted to powder coated surfaces. OER® Chemical Restoration Inhibit Rust protects against weathering, oxidation, pitting, salt spray, fuel, tar, road debris, and modest abrasion.

K86113 16 oz. aerosol ..... 19.99 ea

- ***OER® Prep Metal*** cleans and removes contaminants from the metal surface.
- ***OER® Dissolve Rust*** removes rust leaving a bare metal surface.
- ***OER® Etch Metal*** removes light surface rust and leaves a coating that bonds paint to the metal surface.
- ***OER® Prep Metal*** cleans and removes grease, oils and other contaminants from the metal surface.
- ***OER® Convert Rust*** turns rust into a black, paintable polymeric coating that's ready for primer or top coat.
- ***OER® Corrosion Barrier 77*** bonds to bare or rusty metal. Can be brushed or sprayed on to permanently stop corrosion. Isolates metal from moisture and oxygen keeping rust in a suspended state and creates a finish that is unaffected by road salt, battery acid and other corrosives.

OER® Dissolve Rust

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

K86110 quart ..... 19.99 ea

OER® Convert Rust

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush - A common household paint brush or foam applicator. Spray Gun - HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

K86112 quart ..... 29.99 ea

OER® Etch Metal

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

K86114 pint ..... 16.99 ea

OER® Corrosion Barrier 77

OER® Chemical Restoration Corrosion Barrier 77 is a single-component, high-solids, rust stopping paint specially formulated to bond to blasted or rusted metal surfaces. The coating forms a rock hard finish that's flexible, non-porous and will not crack, chip, flake or peel. No hardeners or activators are needed. OER® Chemical Restoration Corrosion Barrier 77 is perfect for floors, subframes and other under-car panels. It is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives. Available in gloss or satin finish.

K86118 1 quart, satin ..... 44.99 ea

Spray-On Insulation

New!

Buy the Complete Set & Save!

BEFORE APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire-rated
- Both are paintable
- Coverage is approx. 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500°F
- Interior temperature reduced by 30°F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture & rust
- Dampens annoying rattles, vibrations & road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300°F

AFTER APPLICATION

Lizard Skin® Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one-part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30°F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs. for four gallons. Insulating a vehicle has never been this easy, thanks to a custom-designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two-stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Aerosol Coatings

OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in your choice of convenient 12 oz. aerosol cans or for bigger jobs where a spray gun is required, we offer quart cans.
Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Metal Mimic FX Coatings

OER® Metal Mimic FX high performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.
Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra-Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look. *Note: Ships ground only. No air shipment.*

Factory Black Set - Contains all four formulations
Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550	4 can set, all four sheens	59.99 set

Ultra Flat Factory Black
Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage, nuts, bolts, washers, screws, clips, brackets and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540	16 oz. can	16.99 ea
K89590	case of six 16 oz. cans	89.99 cs

Low Gloss Factory Black
A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, leaf spring shackles, control arms, firewall, cowl, brake components, AC compressor or anywhere else a low gloss, but not quite flat black finish is desired.

K89541	16 oz. can	16.99 ea
K89592	case of six 16 oz. cans	89.99 cs

Semi Gloss Factory Black
A durable low gloss coating that provides a factory fresh appearance on the underside of the hood or on inner fender skirts, battery tray, radiator support, master cylinder, front control arms, brackets, pulleys, fan blade, smog pump tail housing, starter, power steering assembly, horns, sway bars, wiper motor assembly and suspension components or anywhere else a semi gloss black finish is desired.

K89542	16 oz. can	16.99 ea
K89593	case of six 16 oz. cans	89.99 cs

High Gloss Factory Black
A high gloss coating that is perfect for restoration of air cleaner assemblies, valve covers, radiator tanks and brackets, ignition coils, voltage regulator covers, suspension springs, wheel inserts, shock absorbers, rear axle housings, differential tubes, brake backing plates and any other parts where a durable gloss black finish is desired.

K89543	16 oz. can	16.99 ea
K89594	case of six 16 oz. cans	89.99 cs

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be topcoated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals & dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods & deck lids, trunk interiors, section repairs, weld joints, rust holes or on chassis parts. Buy the case and save!

Note: Ships ground only. No air shipment.

K89570	20 oz. can	14.99 ea
K89669	case of six	79.99 cs

OER® Black Wrinkle Finish

A durable and long lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches or chips. Extremely durable formula resists oil, gas and grease. Can be used where harsh conditions break down conventional coatings. Comes in 16 oz. aerosol can. Great for valve covers, air cleaners, dash components and more. Buy the case and save!

Note: Ships ground only. No air shipment.

K89548	16 oz. can	12.99 ea
K89549	case of six	69.99 cs

OER® PBE Guide Coat Black

A fast dry black coating which enables the user to quickly identify the high and low areas on primed surfaces. Now you can achieve a professional, ultra smooth finish in an easy to use aerosol can. Apply one light coat over primed area. When dry, block sand the area to reveal high spots and depressions in the primed surface. Smoother finish than a conventional primer alone. Reduced overspray and fast drying formulation will lightly cover nearly 40 square feet Buy the case and save!

Note: Ships ground only. No air shipment.

K89571	20 oz. can	7.99 ea
K89572	case of six	42.99 cs

OER® Hi-Temp Exhaust Coat

A fast drying coating designed to withstand temperatures up to 1200 degrees F on a continuous basis. Forms a porcelain-like bond after curing. Resists blistering, peeling, discoloration, or loss of adhesion Excellent for headers, manifolds, mufflers, pipes and more.

Note: Ships ground only. No air shipment.

OER® High Solids Detail Coatings

A superior professional grade coating formulated for restorations where maximum performance is required. These high solid paints do not run or sag, and provide twice the coverage of conventional aerosol enamels. Each 20 oz. can offers the highest solid content (40%) of any aerosol paint on the market for maximum coverage. One 20 oz. can of OER® High Solids is equal to four 16 oz. cans of competing brands. *Note: Ships ground only. No air shipment.*

OER® Professional Grade PBE Primers

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation.

Note: Ships ground only. No air shipment.

OER® Self Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Drys to the touch in 10 minutes. Dry to sand or topcoat in 15 minutes. Available individually in 20 oz. cans or in case of six.

Individual 20 oz. Cans

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate-free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water-resistant coating that can be painted or left as is. Drys to the touch in 10 minutes. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans

K89565	green	14.99 ea

Case of Six 16 oz. Cans

K89666	green	79.99 cs
K89667	yellow	79.99 cs

OER® Spray Galv Weld-Thru Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely zinc-resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag-free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust-preventative properties. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans

K89567	OER® Spray Galv, gray	16.99 ea

Case of Six 16 oz. Cans

K89668	OER® Spray Galv, gray	89.99 cs

OER® Aerosol Coatings

OER® Factory Wheel Coatings

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor. *Note: Ships ground only. No air shipment.*

Rally Wheel Argent Silver
Correct color and sheen for the restoration of Rally I, Rally II and Super Sport wheels. Makes your wheels look like they just rolled out of the factory.

Custom Adhesive-Back Numbers

Announce the engine size on your Chevrolet with these chrome plated, die-cast numerals. All of these numerals have a strong self-adhesive back with no studs, so there is no need to drill holes in your car. Can be used for the fender, quarter panel, rear panel, roof panel or virtually anywhere there's a surface. Available in black, white or red painted recess. Made in USA. *Note: Each number is 5/8" tall by varying widths (approximately 1-1/2" wide).*

Restoration Decals

Restore your Impala to it's original condition with Classic Industries® reproduction valve cover decals. Each decal is reproduced to exact dimensions. The larger valve cover decals have a glue backing for easy application. The smaller decals are a water based application. We carry a large variety of early Chevrolet valve cover decals for most engine sizes. See listing below for current availability. Always be sure to clean the entire surface before applying decals to valve covers.

Valve Cover Stencil Set

These stencils will make re-painting the Chevrolet script on smooth valve covers (without holes for PCV and breather vents) an easy task.

DC599

1963-76 Frigidaire AC Compressor Decal

This decal applies to the air conditioning compressor on models originally equipped with Frigidaire A/C compressors. Each decal is designed to replicate the original exactly. Includes correct verbiage in the correct font style. Available for 1963-76 models. Made in USA.

Restoration Tip

If replacing an old compressor with a rebuilt unit, be sure to write down the old code number, you can use a clear plastic mailing label and type in the old code on clear plastic film. Place clear label over new sticker and apply to new compressor. Not only will the old number appear on the sticker, but the label will prevent the sticker from wear and discoloration!

1968-90 Impala and Full Size Emission Decals

Made in USA

Restoration Parts

Emission decals were applied to the radiator support and denoted the engine tuning specifications and instructions and emission information (when applicable). These decals are pressure sensitive with a "peel and stick" backing. Simply remove the backing and apply the decal to the correct location. On vehicles equipped with air conditioning, the decal is applied to the radiator shroud. On vehicles without air conditioning, the decal applies to the radiator support between the center of the radiator support and the drivers side radiator support brace. Made in USA.

Note: The location of the decal may vary depending on the year.

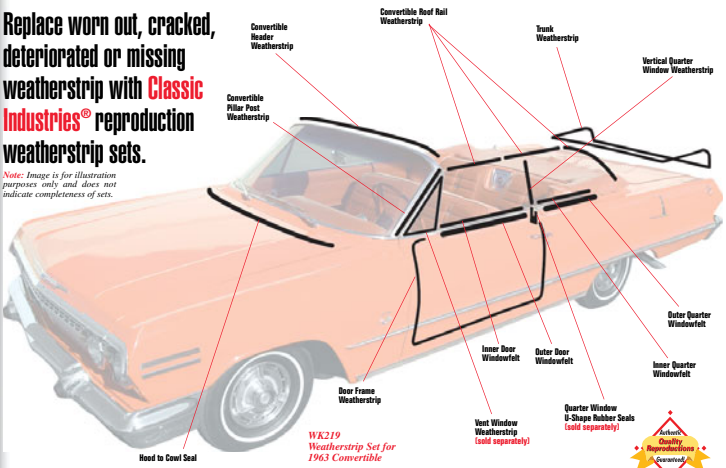
Weatherstrip Sets

Replace worn out, cracked, deteriorated or missing weatherstrip with Classic Industries® reproduction weatherstrip sets.

Note: Image is for illustration purposes only and does not indicate completeness of sets.



Impala Convertible Weatherstrip Sets

Bring your weatherstrip back to original factory condition and improve the overall look of the vehicle while maintaining originality with Classic Industries® replacement sets. After many years of use your original weatherstrip can deteriorate or simply rip in the most crucial areas. When this happens, small leaks will begin to enter the interior compartment or trunk area causing rust and the need for expensive sheet metal replacement. Although each item in this set can be purchased separately, we recommend replacing all the weatherstrip on the vehicle at one time. If you are painting the car or simply replacing worn out parts, the weatherstrip is one of the first places to check. Each weatherstrip product is manufactured to exact factory specifications and will fit properly and function exactly as designed. A complete set will replace every major weatherstrip component for your Impala model depending on the applications below. Each set includes quarter window vertical side weatherstrip. These are the upgraded versions for an easier installation and quality appearance. The sets are available with correct fitting reproduction window glass weatherstrip. Replace the entire weatherstripping on your early model Impala with Classic Industries® quality reproduction weatherstrip kits. The set includes all of the basic weatherstrip required to help keep the problem areas from leaking and causing damage or rust to the interior or sheet metal. See the listing below for availability. Please be sure to check your vehicle carefully before ordering. Our sales department can help with any questions you may have concerning the correct set for your year and model. They can also answer questions regarding installation or other products.

Important: Image is for illustration purposes only and does not indicate completeness of sets. Vent Window Weatherstrip and Quarter Window U-Shape Rubber Seals are shown for illustration purposes only and are available separately.

Note: No further discounts apply.

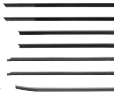
1958-90 Reproduction Door Glass Weatherstrip



W2139

Reproduction weatherstrip which inserts horizontally on the inner and outer section of the side door windows front and rear. These sets include a flat outer chrome bead unlike the more original round chrome bead style. Although they are not exactly as original, they're a great replacement because they fit great and are much less expensive than the OEM style weatherstrips. We recommend this style to restorers who want functionality and are not looking for complete originality.

Soft Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

Complete 7 Piece Set

T2300S	soft duty	24.99 set

Multi Wedge Prying & Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

1958 Bathtub Clip Expansion Tool

This specialty tool is used to install the bathtub shaped molding clips on 1958 Impala/ full size models.

153040	1958	side moldings	29.99 ea

Windshield Locking Strip Tool

This windshield lock strip tool comes with two double-ended tips to fit most windshield locking strips. Its unique design allows tip to swivel 90° in either direction to work where other tools won't. Simply select the tip with the opening that most closely fits your locking strip, then feed the locking strip through the eyelet to install or remove.

Y47000		16.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high-carbon steel.

S21500		6.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574		26.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200		11.99 ea

3M® Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609		21.99 ea

3M® Super Weatherstrip Adhesive

Adhesive used for bonding and sealing weatherstripping to trunk and doors. An excellent general purpose adhesive which is fast drying, waterproof and flexible (rubbery). Also resists oil, grease and solvents.

3M® Window-Weld Ribbon

Window-Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch-weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

K4122	round bead	11.99 ea

Replacement Vinyl Tops

Quality reproduction of the OEM style vinyl tops manufactured using the correct grain vinyl offering the ultimate in originality. Each top is pre-cut to fit the roof section requiring only minimal trimming. Seams are sewn with dacron bonded thread then dielectrically heat sealed which is correct in appearance and quality. We offer a wide selection of years and colors to choose from. See the listings below for current availability concerning colors and styles. Replacing your original vinyl top will help bring your Impala back to showroom condition.

Convertible Tops

Replacing your convertible top is an expensive proposition that should be done once and done right. Classic Industries® understands what a demanding job it is, that's why we stock the highest quality convertible top components available! All our convertible tops are manufactured using heavy weight sateen backed vinyl materials and original manufacturing techniques to assure you receive the best quality replacement tops on the market! Seams are highly improved upon by utilizing dacron thread and heat sealed lap seams to offer an original appearance while exceeding OEM specifications. When professionally installed, Classic Industries® convertible tops are guaranteed not to peel, leak, separate or shrink for a full 36 months from date of purchase. For best results, we recommend professional installation by a qualified shop. However, for those of you that decide to tackle the job yourself, we include detailed instructions with each top. For a professional looking installation that will stand the test of time, be sure to replace your convertible top pads and rear well liner as well. Replacement tops for 1958-64 models feature a plastic rear window just like the original. 1965-71 models feature an upgraded glass window that unlike plastic, will not become discolored or brittle over time. 1972-75 models are available with original style plastic rear window or with the optional glass rear window upgrade. . . your choice!

Note: Sewing is required for installation of glass rear windows. All tops with glass windows are shipped oversize.

- **Features a full 36 month limited warranty!**
- **The rear window features the Regalite symbol as original!**
- **Manufactured with black sateen backing just like the originals!**

MX01132

Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Each upgrade set installs easily in 5-10 minutes without any cutting or splicing. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

New!

The "TattleTale" Pulsing Brake Light

When you're driving your classic on the street, the last thing you want is a rear-end collision. To reduce the risk of damage to your classic vehicle, make sure those behind you are aware you're stopping. This is especially important in panic stop situations! Now you can feel safer with The "TattleTale" pulsing brake light system. Designed to get attention, an inertia switch (which is adjustable by you, using supplied installation bracket) detects panic stop situations and reroutes the brake signal through an electronic pulsator. Under normal braking situations the brake lights react normally, but when hard braking occurs, the lights pulse rapidly, alerting other drivers of a panic stop. This system is great for 3rd brake lights and is for use with systems up to 60 watts (5 amps). Simple and easy to install. Includes installation instructions.

1958-72 LED Tail Lamp Circuit Boards

Upgrade your vehicle with the latest technology in automotive lighting. Featuring faster response and brighter illumination than factory lighting. LED tail lamps are not only a style upgrade, but also make your vehicle safer by improving your visibility. LED bulbs also use far less electricity and have a far longer life span than incandescent bulbs, offering superior run-time and reliability. These solid state circuit boards have an epoxy coating with sealed electronics and plug into your existing harness with the standard 1156 or 1157 socket plug. With the optional sequential tail lamp sets, the sequence of lighting can also be changed. Available in a four-piece set of red LED boards or a six piece set that includes two white back up lamps. Lenses and housings not included. Will work with either factory or reproduction tail lamps.

LED Lamp Flashers

Due to the lower current draw of LED lamps, these electronic 12 volt flashers are recommended for vehicles equipped with LED lamps. Available in 20 amp or a 25 amp. The 20 amp is available in two or three prong type.

Important: If installing LEDs on both the front and rear, two flashers are usually required.

Rear Window LED Third Brake Lamp

This window LED bonds to the inside of the rear window in a black plastic case, ideal for painting to match interior, if desired. The small wires can be hidden in the window trim. Available in four inch and ten inch lengths and three different angles. The straight LED is ideal for flat windows like early cars and pick-up trucks. The fifteen degree LED is for sloped back windows, the thirty degree unit for radical chopped tops and customs. All three models have slight adjustment to allow you to "aim" the lamp.

LED Replacement Light Bulbs

500577

Brighten up your tail and backup lamps with these direct replacement LED bulbs. LED lighting is safer than conventional incandescent bulbs, shining up to 3 times brighter and lighting up more quickly. Plus they last longer, don't get hot, and require fewer amps. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 backup lamp bulb.

Important Information for Sheet Metal Installation

Test Fit All Panels Prior to Paint and Installation!

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel mis-alignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

If You Need to Return a Defect:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

When the details matter, look for these symbols of quality:

Classic Industries® Restorers Choice™

Count on the Classic Industries® Restorers Choice symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorers Choice™ logo. The Classic Industries® symbol is your assurance of quality.

Classic Industries® Weld-Thru™ Sheet Metal

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Made in the USA

Look for the "Made in the USA" logo for products that are proudly manufactured in the United States.

Made in USA

Original GM Products

Classic Industries® advertises a variety of products with the above genuine GM logo. This logo indicates that the product is manufactured by General Motors as an OEM replacement for your original parts.

Hoods/Accessories

1962 Full Size Chevrolet Hood

Reproduction hood for all 1962 Impala, Bel Air, and Biscayne models. Manufactured to original specifications with correct contours and under hood bracing. Finished in EDP coating for rust prevention.

Note: Shipped truck freight.

Hood Accessories

BH30010C

1961-70 Billet Hood Hinges

These billet hood hinges are CNC machined to perfection in the USA from high quality 6061-T6 billet aluminum. They provide a stunning alternative to stock stamped steel hinges and springs. Enhanced by nitrogen filled gas struts and sealed bearings, these hinges give your hood outstanding stability and flawless operation that is simply not possible with 40-50 year old stock hinges. The gas struts are made of the highest quality stainless steel for years of uncompromised performance. Sold in pairs, and come complete with the nitrogen gas struts and all necessary stainless steel mounting hardware.

Billet Aluminum Hood Pin Sets

You've gone to great lengths to source the highest quality and best looking parts for your car, so why settle for cheap, imported hood pins to finish off such a highly-visible part of your car? These US-made, 6061 T6 aluminum hood pin and scuff plate sets will help your car stand out in a crowd and complement any style hood. The billet scuff plates are available in your choice of machined, polished, or powder-coated black finish. All hood pin sets include 6" aluminum pins and stainless steel hardware, so you'll never have to worry about rust.

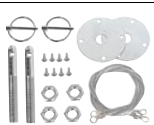
HP5005	chrome plated	129.99 set



Hood Pin Set with Flip Over Style

Each set uses the two piece flip over pins ideal for installations where an extra strong pin is required. Ring flips over stud and locks into place. Over center action eliminates possibility of pin falling out. Includes lanyards. This set is a reproduction of the rare, dealer installed optional hood pins. Hood pins are necessary for the attachment of fiberglass or lift off hoods and may be desired for extra security on factory hoods.

T4095		9.99 set

High Security Locking Hood Pin Set

Secure the hood of your cherished vehicle to keep thieves out! This locking hood pin set can be used in place of standard competition hood pins to secure your hood with two barrel locks. If your car is equipped with an alarm, this lock set will eliminate the thieves ability to access the alarm wiring and power source. Set includes two chrome plated lock sets, gaskets and escutcheons, two fully threaded lock pins with nuts and two keys. For use in conjunction with stock hood latch mechanism.

Note: Requires drilling of hood panel for installation.

Save Your Door Hinges!

You have the option of replacing the old pin and bushing design with an all new re-engineered and patented "greaseable" pin and bushing repair set. You can replace the originals with greaseable units and never worry about sagging doors again. These sets include all new steel pins with bronze bushings, abrasive material for removing paint or rust to prep the bushing area, a chemical locking agent to hold the new bushings in place, and an instruction sheet.

1991-96 Door Hinge Repair Sets

Available with greaseable upper and lower pins and bushings. Removal of the hinges from the door and body is required to install this set. Be sure to mark the hinge locations on the door and body for easy realignment. Instructions for replacement are included with each set. One repair set per door.

Lokar 12V Exterior Door Handles

Elevate your vehicles style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 volt pressure-pad switch to supply power to an electronically actuated door latch (door popper). Its two-piece design allows the insert to be removed for customization. Made in USA from 6061 T-6 billet aluminum.

Note: Requires electronic door latch actuators, not included.

1968-70 Clear Shot Door Mirrors

Clear Shot Mirrors eliminate the common passenger-side blind spot that exists with other mirrors. They also stay in place without having to be re-adjusted all the time. Mirrors mount to your car like the factory mirrors. On the back, they even have two Phillips head screws that allow you to tighten the ball and socket if needed. Sold in pairs.

Body Tools

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the car has been repainted. For instance, you can take measurements of about 4.5 mil around the car but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 ..... 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

T2302

soft *med.* *heavy*

Soft Duty - Delicate prying or wedging

Med. Duty - Sturdy prying or wedging

Heavy Duty - Very strong and durable

Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

Multi Wedge Prying & Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high teeth, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Save time and money by getting the job done quickly without having to repair nicks, dents, or scratches caused by using the wrong tool. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

13224

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Sheet Metal Tools

Blaircutter

Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Unlike hole saws, that rip and tear through the material, these cutters provide a quality, virtually burr-free hole. Available in seven sizes for 1/4" and larger drill chucks. Spring loaded pilot "pops" the slug from the cutter. Buy the set and save! Set includes all cutters, arbor and 3 extra pilots.

Note: D.O.C = depth of cut. Arbors and Cutters sold separately.

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high-strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip-proof or 2 standard pilots.

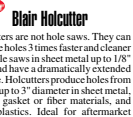
Stick Lubricant

Convenient 1.68 oz. tube is ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and nonferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750	1.68 oz.	5.99 ea



Blair Holcutter

Holcutters are not hole saws. They can produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have a dramatically extended tool life. Holcutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, hex washer, extra pilot & the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2" & 2-1/2".

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutter Sets

Rotabroach annular cutters are ideal for sheet metal fabrication, Paintless Dent Removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip-proof pilots which eliminate pre-drilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot and a variety of cutters as listed.

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

2 18" under rear seat floor braces (LH and RH)
1 full rear floor brace

New!

1961-70 Full Floor Pan Assemblies

Reproduction floor pan assembly for all 1961-70 Impala/full size Chevrolet models. Each full-length floor pan is die-formed from heavy gauge galvanized steel and features under rear seat pans that are spot welded with full underside bracing attached. The assembly is designed to allow the restorer the freedom to replace the floor pan section from front to back without piecing it together by using small sections. Assembly also features the holes and mounting nuts for seat and seat belt attachment. Replace your rusted or damaged floor pan with this high quality one piece floor pan. Each floor pan is painted with a rust preventative coating.

Important: Welding is required for installation.

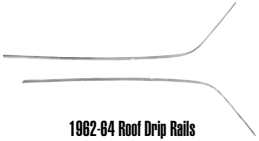
Roof Panels/Rocker Panels



1962-64 Roof Drip Rails

Replacement steel roof drip rails for 1962-64 hard top models are for cars with side roof rust damage. They weld to the roof panel sides where rain water collects and drips down to the rear of the car and out of the side windows. The aluminum drip rail moldings attach to these rails.

R1795	1962-64		144.99 pr

1991-96 Roof Bow Panel

This is the panel that installs under the front or rear section of the roof panel and acts as a reinforcement. For sedan models.

Trunk Mat Sets

Your trunk area should be considered an important aspect of your restoration. Although sometimes neglected, it doesn't take much to bring it back to showroom condition. It's a great feeling to know you can open the trunk lid and find everything you need in perfect order while maintaining an original appearance. The trunk dress-up kits can help keep your trunk in the condition you want. The sets are produced with three individual components; the trunk mat, the spare tire cover and the jack storage pack. The trunk mats are manufactured in heavy weight vinyl material with a soft felt backing. Each trunk mat features the original style crowsfoot or houndstooth pattern in gray/black or houndstooth pattern in black/aqua. The mats are manufactured to fit the trunk pan exactly. Each die-cut trunk mat is produced from original factory patterns. The spare tire covers are produced in the same crowsfoot or houndstooth material and can be ordered two ways. With the 14"/15" universal spare tire cover, or with a fiberboard spare tire cover. The fiberboard cover includes a stiff fiberboard support. These sets also include a jack storage bag produced in crowsfoot or houndstooth material which is correctly sized to house the jack unit, bracket and wrench. These sets will truly help to organize the trunk area while keeping a clean and neat appearance.

OER® Trunk Refinish Kit

Restore the trunk area of your classic car to a factory original appearance and provide the ultimate protection from the elements. First prime the area to be painted. On bare metal, you should use a self etching primer. Next, spray your base coat. Then spray your spatter coat and let dry thoroughly. Finally, coat the entire surface with our clear topcoat to seal the surface. Buy the kit and save! *Note: Ships ground only. No air shipment.*

black/gray *black/aqua* *gray/white*

Continental Kits

Add value to your restoration project with the ultimate dress-up accessory for your Impala, Bel Air or other full size Chevrolet! Custom crafted and shipped direct to your door, the restoration professionals at Classic Industries® have assembled a variety of kits in your choice of factory original or extended bumper styles! Each kit is constructed from heavy gauge steel and features an unconditional money back guarantee from the manufacturer! All chrome trim is made from a triple nickel process with a copper base to produce a deep blue luster sure to make your car a show winner! Our kits also include the details other lower cost kits don't, such as: full faceplates, steel back plates (which hides the tire from view inside the car (except 1958 double bar kits)), paintable steel or chrome plated tire rings, attaching hardware, a tire carrier mechanism which supports full size spares, rubber trim, and licence plate brackets with lights on certain models! We offer the widest variety of choices to provide the true custom look you want, at a price that can't be beat! All kits include diagrams for installation.

Note: *All non-chromed parts are shipped unfinished and must be painted to match desired body color. Continental Kits are available in several styles to suit your needs. Classic Industries® offers your choice of open or closed faceplates as well as chromed or unchromed tire bands. Please allow 10-12 weeks for delivery. Check the following descriptions or call one of Classic Industries® sales representatives to assist you with your order.*

Important: *Kits do not include the following items: spare tire, wheel, emblems or script. Due to the special order nature of these kits, they are not returnable. Each kit must be prepaid.*

Note: *Shipped truck freight. No further discounts apply.*

Double Bar or "Basket" Style

For those who refuse to settle for anything less than factory correct, we offer the basket style Continental Kit which features an upper and lower horseshoe bar design utilizing two spacers and wraps around the spare while attaching to the original bumper on all models with the exception of the 1958-59 kits which include a new center bumper section. These bars are finished in triple nickel show chrome. Features a tilt-back tire carrier mechanism with latch supports for your full size spare.

Important: *1958 and 1959 GM basket style models are available with solid faceplates only. All 1958-65 models below are available for 14" tire size only.*

Note: *Shipped truck freight. No further discounts apply.*

1958-68 Power Steering Pump Pulley

This aluminum single-groove power steering pump pulley is designed to solve clearance issues between the fan and pulleys when adding v-belt accessories like power steering and A/C to short water pump applications. This pulley fits all Saginaw keyway-style pumps that accept bolt-on pulleys with a 5/8" diameter shaft. Fits small block and big block Chevrolet motors equipped with a short water pump.

Important: Not for use on engines with a long water pump.

Note: No farther discounts apply.

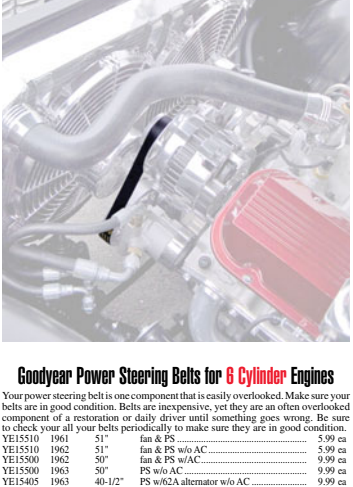
Warning: *Regarding Steering Pump Pulleys*

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines that exceed these limits may result in catastrophic failure of the pulley, which can potentially cause severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Be sure to install the pulley properly to avoid damage that can occur from improper installation or exceeding recommended RPM and horsepower limits.

Power Steering Parts



Goodyear Power Steering Belts for 8 Cylinder Engines

Make sure your belts are in good condition before starting off on your next road trip. Belts are inexpensive, yet they are an often overlooked component of a restoration or daily driver until something goes wrong.

Power Steering Parts

1958-96 Replacement Power Steering Pressure Hoses

A leak in your power steering system can make a mess of your engine compartment, your driveway and garage floor. You can also burn up your power steering pump by driving your car when it is low on fluid. Replace your worn out or cracked power steering hoses before these problems occur. The pressure hose connects from the power steering pump to the control valve/steering gear inlet. We offer a wide variety of power steering pressure hoses for nearly all applications. See the listings for the correct application for your year and model.

1960-96 Replacement Power Steering Return Hoses

The return hose connects from the control valve/steering gear outlet to the power steering pump. Hoses listed as "with fitting" includes the fitting that screws into the control valve/steering gear outlet port. Hoses listed as "hose only" do not include any fittings. It will be necessary to cut off and flare the metal pipe end of the original hose that screws into the control valve/steering gear outlet port and use a hose clamp to attach the new hose.

1959-64 Power Steering Conversion Box

This is a bolt-in power steering conversion box for 1959-64 Chevrolet models. It is based on the new 600 series steering gear from Delphi that offers true modern steering feel with a 14:1 ratio for stable highway driving and quicker turning for easy parking and low speed maneuverability. A 16" long splined shaft and 3/4" x 36 spline DD universal joint are required for installation when using a stock steering column.

409216	1959-64	steering shaft	34.99 ea

1965-90 Power Steering Gears

Rack and pinion style servo and specifically tuned effort characteristics. The gearbox provides quick response and precise control. The recirculating ball gears offer low friction with smooth and quiet operation throughout the entire steering range. Bolt-in replacement for the original steering box and can be used with original power steering pump and power steering pitman arm. Include a new rag joint and a pop-in hose fitting adapter to convert your old inverted flare style hoses to the new o-ring style fitting that is used on these new style boxes.

Note: When converting from manual steering, a power steering pitman arm is required.

1958-76 500 Series™ Gearbox

The 500 Series power steering conversion gearbox for 1958-76 Chevrolet is a key part of a modern, high performance power steering system. These 14:1 ratio units provide superior control and feedback, thanks to low friction recirculating ball gears. An open-centered rotary valve provides smooth operation while retaining excellent road feel and steering response. For the 1958-64 full-size Chevrolet, the 500 Series is a direct replacement for the manual steering box and compatible with the original pitman arm. Mounting bosses are integrated into the casting, lining up without shims and eliminating the need for an external bracket. Works with original and aftermarket steering columns and sway bars. The 1965-76 gearbox works with the factory power steering pitman arm and 3/4"-30 rag joint and is a great upgrade for manual and power steering models, including those with the larger 605 power steering gearbox.

Note: No further discounts apply.

PSK58602

- 14:1 Power Steering Ratio
- 7/16" Tube (11/18-18 Inverted Flare) Pressure Port
- 3/8" Tube Size (5/8-18 Inverted Flare) Return Port
- Works with Most Steering Columns and Sway Bars
- Works with the Factory Power Steering Arm and 3/4-30 Rag Joint

1958-64 Power Steering Conversion with 500 Series Box

Get modern power steering with this 500 Series conversion gearbox for 1958-70 Chevrolet full size passenger car models. This is a direct replacement for the factory power steering box and an easy upgrade from manual steering. The gearbox uses low-friction recirculating ball gears engineered and an open-centered, rotary valve provides for smooth operation and increased steering response. This provides superior directional control and road feedback, with a more stable feel. The mounting bosses are integrated into the casting, eliminating the need for an external bracket and shims. Includes gearbox, pump, mounting brackets, hoses, and polished end cover for a simple "bolt on" installation.

Important: *For power-assisted cars SLK6164 steering linkage kit is required and CP5860 idler arm bracket is required on 1958-60 and some 1961 models when using SLK6164.*

Note:* Modification to stock radiator core support may be required or use of a notched radiator AU01028ZANDZ or AU01028ZSNDZ on 1959-63 full size.* *Shipped overweight. No further discounts apply.*

New!

1958-64 Complete Steering Linkage Kit

A must when upgrading to power steering box for optimum performance and handling or upgrading your manual steering linkage. No modification required. Includes a complete new centerlink, pitman arm, idler arm, inner and outer tie rod ends, and an aluminum tie rod adjustment sleeves.

Note: *No further discounts apply.*

SLK6164	1958-64		198.99 kit

Idler Arm Conversion Bracket New!

This bracket is used to update your 1958-64 idler arm to the 1961-64 idler arm (18573). We recommend using the later idler arm when installing a 500 Series™ power steering box.

Note: *Some 1961models may require this bracket. Use with SLK6164 Steering Linkage Kit on 1958-60 vehicles.*

1958-64 Power Steering Conversion Set

This power steering conversion set for small block engines with a short water pump uses the stock pitman arm and requires a 3/4" x 30 spline joint for output. Set includes a remanufactured 600 steering box, adapter plate bracket, power steering pump, pump mount brackets, pulley, rag joint, splined steering shaft, and hoses.

Note: *For 1959-64 models with factory power steering, must use part number 990007 manual drag link adaptor to replace the control valve.*

1994-96 Tubular Upper & Lower Control Arms

Tubular control arms are a great performance upgrade for your 1994-96 Impala. These tubular control arms and all the included components are designed and either laser cut or CNC machined for exact tolerances. These arms are stronger than factory arms and add improved suspension geometry which means better handling. These beautiful, completely assembled arms are black powder coated and feature stainless steel cross shafts with aluminum /Acetron type bushings for a squeak free ride. They also include factory style ball joints and long lasting urethane bump stops. Sold in pairs only.

Note: Billet aluminum ball joint covers sold separately.

Made in USA

CPP

TCA58641B

TCA58642S

ETA65703B

1958-70 Tubular Control Arms

CPP's Totally Tubular control arms are designed for maximum strength and visual impact. The upper arms are designed to allow for an extra 5° of caster. The lower control arms have a factory-style stamped coil spring mount with an integrated shock mount. This stamping is welded around its entire perimeter and accepts QA-1 and Ridetech Shockwave coil overs. All arms capture both sides of the bushing, unlike the originals that were only retained on one side. This safety feature allows full control with virtually no flex on the control arm when cornering. Available in gloss black or silver powder coat. Made in the USA unless noted.

Note: ETA65703B is an imported part.

1958-70 2" Drop Disc Brake Spindles

This 2" drop spindle is for use when you want to lower your disc brake converted car a full 2", can be used on 1958-64 models that have already been upgraded with a stock spindle disc kit. Requires caliper bracket part BS7003 (sold separately). 1965-70 models require an 11" disc conversion kit. These spindles are precision cast from high quality Ductile Iron, with 4140 Chrom-moly CNC machined pins. Accepts the factory ball-joints and stock steering arms. These are the best engineered, and best fitting drop spindles available for your vintage Chevy!

Note: Will not work with drum brakes. Works with most 15" or larger disc brake wheels.

BS7001	1958-70	spindles only	249.99 pr

1958-70 2" Drop Spindles

2" drop spindles for 1958-70 Chevrolet full size models. Spindles have an integrated GM G-body caliper mount for GM G-Body brakes both factory and aftermarket that attach to OEM style mount locations. This feature broadens the choices of brake caliper combinations. The 2" drop spindle features a relocated axle to lower your vehicle's stance without sacrificing suspension travel. Pressed spindle pin construction with integral steering arm.

Note Use with 58-70 Chevy full size & Impala minimum rim size 15 to 18" diameter depending on width. No further discounts apply.

SL3161 Y65250

High Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high quality, high temperature bearing grease. This is a very stable aluminized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. And... a special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.

Global West Suspension

GW84

1958-70 Tubular Upper Control Arms

The G-Plus tubular upper control arms for 1958-70 models changes the way the car drives and performs. The wander and vague road feel is dramatically improved, even though it's through the stock steering components. This suspension system was designed front-to-rear, addressing the problems associated with this older platform. The concept was not to make a race car and destroy the ride, but to bring the car up to modern day standards. With this in mind the following improvements are achieved with the upper arm only. Straight-line stability for high speed freeway cruising. Improved tire wear and greater tire contact patch on the ground during cornering making the car safer in all driving conditions. The control arms are powder coated black and are pre-assembled with Del-a-lum bushings, billet cross shafts, stock upper ball joints and urethane bump stops. New alignment specifications are also provided. Sold in pairs.

Note: No further discounts apply.

GW841

1958-70 Tubular Lower Control Arms

The G-Plus tubular lower control arms are designed to accept the standard coil spring, coil-over shocks or shocks with air bags. The arms are powder coated black and pre-assembled with our Del-a-lum bushings, billet cross shafts, stock lower ball joints, urethane bump stops and spring cushions, sway bar attachment and hardware. These arms will work with drum or disc brakes and power steering. Direct bolt-in fit with no modifications needed. Sold in pairs.

Note: No further discounts apply.

GW501	1965-70	699.99 pr

1965-70 Adjustable Strut Rod

This adjustable strut rod for 1965-70 full size models no longer uses the standard rubber bushings. Instead it uses an spherical rod end with a special clevis that indexes properly in the frame and not allow rotation. This design provides more control at the wheel during braking and cornering. Front end stability is also dramatically improved. Caster is still adjustable via the strut rod by a special locking hex adjuster so setting the alignment is easy. These pre-assembled strut rods are powder coated black and include hardware.

Note: No further discounts apply.

GW1030

1958-96 Control Arm Bushing Sets

These Del-a-lum bushings are the top-of-the-line when it comes to suspension control and longevity. They will outlast all the other bushings. In fact Del-a-lum bushings come with a lifetime warranty to the original purchaser. No other bushing has a warranty that strong. These bushings are approved for NHRA racing and are excellent for street, road race, and dirt track applications.

Note: No further discounts apply.

GW90

1958-96 Tubular Tie Rod Adjusting Sleeves

Tubular tie rod adjusting sleeves replace the standard split sleeve tie rod adjusters located between the inner and outer tie rods. The sleeve is stronger than stock because of full thread engagement. The tie rod sleeves feature machined slots designed to accept an open end wrench for easy adjusting. Black powder coated finish with right and left hand threaded jam nuts. Sold in pairs.

Note: No further discounts apply.

GW850

1958-96 Coil Springs

Full size Chevrolets are known for excessive roll and oscillation, especially after bumps. Shocks and sway bars can help reduce the problem, but to correct the problem entirely, correct springs are required. These coil springs have been measured and tested to provide proper spring rates to eliminate the bobble and bounce, delivering a great ride with responsive handling. These springs will reduce the ride height by approximately one inch and give the car a slight nose-down attitude. Available for vehicles with small block and big block engines. Sold in pairs.

Note: No further discounts apply.

Global West Suspension

GW842

1958-96 Rear Lower Control Arms

Tubular rear lower control arms are designed to be a direct replacement of the stock arms and reduce the twisting loads at the frame bracket location. One of the weak links in the rear suspension is the frame bracket to the frame. As the suspension moves through it's travel, twisting loads are placed on the frame bracket. The harder the bushing used in these locations the greater the twisting loads are placed on the frame. Therefore realizing this problem we designed the new lower control arm with spherical bearing and rubber bushing. The bearing system mounted to the frame allows the rear suspension to move properly without placing twisting loads on the frame bracket. The bearing will allow the control arm to pivot or twist without shifting laterally. This also provides a smoother ride with less resistance and better rear end stability. Included is a special coil spring cushion that adds additional isolation for a quiet ride. Sold in pairs.

Note: No further discounts apply.

GW842	1958-64	399.99	pr

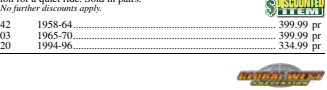
GW120	1994-96	334.99	pr



GW94

1959-70 Adjustable Rear Upper Control Arms

This adjustable upper control arm has a rubber bushing on the rear end side and a spherical bearing on the frame side. The arm allows you to adjust pinion angle without using the old style shims. The spherical bearing swivels and allows for the twisting action of the arm when the rear end goes over bumps and as the chassis rolls. This reduces the load on the frame bracket and frame cross member. The arm is powder coated black and is supplied with new mounting hardware.

Note: No further discounts apply.

GW53	1967-70	late 1967	179.99	ea

GW95

1959-68 Heavy Duty Adjustable Rear Upper Control Arm

This heavy duty adjustable upper control arm has a spherical bearing on both ends of the control arm. This double bearing designed arm allows you to adjust pinion angle without using the old style shims. This type of upper control arm would be used with high horsepower cars either on the street or for a drag racing applications. Also great for vehicles with hydraulics. The bearings are teflon lined so no lubrication is required. By using a double bearing upper control arm additional side loads are reduced on the frame and rear end brackets. The arm is powder coated black and is supplied with new mounting hardware.

Note: No further discounts apply.

GW52	1965-68	209.99	ea

GW845

GW843

1958-70 Adjustable Rear Panhard Bar

Lateral location of the rear end has always been a problem. This is due to the angle of the panhard bar at ride height. Raising or lowering the ride height shifts the rear end laterally away from the center of the car, plus depending on the final angle of the panhard bar if it is not parallel to ground it causes the rear end to be unstable around turns and over bumps. To fix the problem we offer an adjustable pan hard bar that uses a hex adjuster, a bearing rod end, and a greaseable urethane bushing. The panhard bar can be adjusted on the car for centering. If the panhard bar is not parallel to ground, based on the vehicles ride height, a new adjustable panhard bar frame bracket is available. The bracket installs on the frame surrounding the stock mounting location and converts it to a multi-hole frame mount. The multi-hole bracket allows you to bolt the panhard bar on parallel to ground or as close as possible based on your ride height. This will correct the rear end lateral location problem. These items are powder coated black and include mounting hardware.

Note: Welding is required. No further discounts apply.

GW941

1959-68 Rear Anti-Squat Brackets

Making the car have better traction is what this is all about. The anti-squat set changes the geometry of the rear suspension by providing a different angle on the upper control arm. By changing this angle, the load transfer to the tires is changed, increasing traction. This takes the place of the factory bracket and simply bolts on.

Important: The multi-position bracket is designed for Global West's upper control arms. The factory arm is dimensionally too large to take advantage of the adjustability. If you need a replacement bracket, the stock arm can be used in the upper most hole.

Note: No further discounts apply.

GW507	1965-68		39.99	ea

GW846 GW847

1958-64 Rear Frame Supports

These supports are designed to add strength to the rear frame crossmember. The crossmember holds the attachment points for the rear upper control arm(s) depending on your frame. During hard acceleration, the upper control arm is trying to pull away from the frame. Add the vast improvements of tire science and current horsepower levels and it's easy to see why your frame could use additional support. Both supports require welding during final installation. There is also no interference between parking brake cables or exhaust. Both braces tuck high up and contour along the floor. Some cars have one upper control arm while others have two. We recommend installing both sides, even if you have only one upper control arm.

Important: If your vehicle has only one upper control arm order the GW847. Order both if your vehicle has two upper control arms.

Note: No further discounts apply.

Chassisworks gStreet Suspension

The gStreet line of front suspension systems is an excellent choice for improving performance and stance. To keep installation simple, the tubular upper and lower control arms use factory chassis mounts and bolt directly to stock or aftermarket dropped spindles. The lower control arms feature a true coilover style eye mount, rather than a crossbar mount. gStreet systems are available with single or double adjustable, billet-aluminum VariShock coil-over shocks or ShockWave air shocks. Each style features a pivot-ball lower mount with ball-stud upper mount. The greaseable ball-stud mount provides positive control of the suspension while still allowing free pivoting movement.
Note: These components are for the gStreet suspension only. Will not work for other suspension components.

Pavement, Meet Chevrolet.

If you're looking for more performance from your full-size Chevrolet, check out Chassisworks gStreet ShockWave or Varishock Suspension.

1958-64 Impala gStreet Shock and Anti-Roll Bar Package

The gStreet line of suspension products from Chris Alston's Chassisworks has engineered a simple to-install front and rear suspension upgrade package for 1958-64 Impala and related models that offers excellent seat-of-the-pants handling improvement without a ton of effort. The package includes front and rear anti-roll bars matched with VariShock direct-replacement adjustable shocks. One-inch diameter front bars include billet-aluminum chassis mounts and urethane bushings. Rear bars are 7/8"-diameter and bolt directly to the factory lower control arms. VariShock billet-aluminum shocks are included in the package and available in 16-position single- or double-adjustable versions to fine tune ride quality and handling performance. Installation takes just a few hours and requires drilling and minor trimming to mount the components.

Supercar Handling For

Before

After

Launch harder, accelerate smoothly and gain axle control with the Hotchkis Performance Rear Suspension System. New engine and tire technology vastly overpowers stock suspension. Hotchkis fabricated lower trailing arms, adjustable upper trailing arms and adjustable pan-hard rod positively locate the axle under your car, allowing you to benefit from new engine, transmission and tire technology. Optimum pinion angle adjustment for superior traction and u-joint angle to cure unwanted drive line vibration can be achieved with the adjustable upper trailing arms. For increased stability and larger tire packaging, the axle can be centered under your car with the adjustable pan-hard rod. Finished in gloss black powder coat and features tough, quiet riding, greaseable polyurethane bushings, CNC machining and 100% Tig welded construction. Grade 8 hardware and complete instructions are included. All Hotchkis components are made in the USA!

Made in USA

1959-64 Sway Bar Set

You can improve handling and straight line performance on your 1959-64 full size model with these sport sway bars. These performance sway bars control the roll of your car in corners and allow you to put more power down in the straights. These high carbon steel hollow sway bars are finished in gloss black powder coat and include polyurethane bushings, end links, brackets and hardware. Sold in front and rear sets only.

Note: Shipped double oversize. No further discounts apply.

ridetech Air Ride Technologies Air Suspension Systems

Choose From 3 Different System Levels

Level 1 System

Level 1 is the entry level air suspension system designed for the enthusiast on a budget that wants to upgrade the vehicle and gain the advantage of riding on air. Includes a front system, a rear system and a compressor system.

Level 2 System

Level 2 system provides more tuning than level 1 set with the addition of a ShockWave front kit, 4-Link AirBAR rear set and the enhanced RidePro e3 compressor/control system.

Level 3 System

STREET Challenge

The level 3 Street Challenge suspension package is for the discerning full size Chevrolet owner who is after heart stopping cornering power, a cool lower stance, and a civilized ride quality. No cutting of the floor pan, no fabrication and no compromise in performance!

System Components

COOLRIDE by Air Ride Technologies

The CoolRIDE air bag system is a bolt-on system that relocates the shocks for better handling and improved ride quality. The system comes with pre-engineered mounting hardware to maintain ground clearance, driveline angles, tire clearance, and load capacities while normally fitting in the stock locations. Includes air springs with mounting brackets and all necessary hardware, and utilizes factory shocks.

SHOCKwave by Air Ride Technologies

The SHOCKWAVE is a top quality front air spring system that is a bolt-on unit that requires no welding. All ShockWave systems have single or double adjustable shock valving to allow tuning of the ride quality and handling performance of your vehicle for a perfect, custom ride every time!

AirBAR by Air Ride Technologies

The AirBAR is a 4 link rear air suspension that will directly bolt into the OE leaf spring mounts of your vehicle. Installation is bolt-on with some minor welding required. It eliminates the OE leaf springs and replaces them with a 4 link rear suspension. The 4 link bars offer more precise positioning of the rear axle to eliminate flexing and increase stability.

airpod

The airpod with LevelPRO is a completely integrated air compressor/controller system that is the most advanced system available today. It includes the controller, air pressure sensors and 4-way ride height sensors. Its compact size eliminates hours of installation time.

RidePRO by Air Ride Technologies

The RidePro manual control, 4 way compressor system is for the budget minded builder. The control panel has 2 dual needle air pressure gauges and 4 electric rocker switches to activate the air valves. Includes the RidePro air valves, 3 gallon aluminum tank, compressor, harnesses, air lines and fittings.

LevelPRO by Air Ride Technologies

LevelPro systems add the extra functionality of ride height sensors to the proven RidePRO e3 system to provide the most accurate, and hassle free control over ride height. Ride height sensors allow the system to compensate for load variations and automatically adjust pressure to always maintain accurate ride height presets. The right choice for tow vehicles and cars that see various load configurations or the person that wants to "set-it and forget-it".

MUSCLEbar POSI-Link by Air Ride Technologies

The MUSCLEbar sway bars were developed specifically for lowered vehicles and will greatly enhance the cornering performance of your vehicle. Increased bar diameters, polyurethane bushings, and appropriate attachment links all add up to a sway bar package that is designed to work correctly with your lowered vehicle and aggressive driving style. The POSILinks improve range of motion and eliminate binding. The strong design prevents deformation and failure and adds positive transfer of motion through the sway bar.

ridetech Air Ride Technologies Air Suspension Systems

DISCOUNTED ITEM Made in USA

What can an air suspension do for your car? These RideTech components are the ultimate in adaptable performance. Get adjustable ride height, variable spring rate, and improved ride quality. Between the impact forged monotube shocks and high endurance airbags, these RideTech air systems provide the superior performance you would expect from coil based systems.

Each suspension product is based on years of experience with outfitting each platform and will provide a simple solution to assembling all the right components to create the best performing, most versatile suspension system for your vehicle.

1991-96 CoolRide Front Suspension Systems for Stock Control Arms

The CoolRide system relocates the shock to the outside of the lower control arm. A bolt-on bracket mounts the top of the shock to the frame rail. It will raise and lower the front of the vehicle, improving the handling and offering a terrific ride. Includes (2) air springs, (2) shock absorbers, mounting brackets, and hardware. Choose kits designed for stock A-arms or kits that include tubular control arms for suspension adjustability and strength.

Important: Compressor/controller systems must be purchased separately.
Note: Shipped overweight. No further discounts apply.

ARF11400	1991-96	use with OE arms	699.99 kit

1958-96 ShockWave Front Suspension Systems

The ShockWave front air bag system is a completely bolt-in suspension system that requires no welding. ShockWave systems have adjustable shock valving to allow tuning of the ride quality and handling performance of your vehicle. With the single adjustable unit, compression and the rebound of can be adjusted between 16 settings. With the triple adjustable unit, you can adjust both the rebound and the compression independently. 1958-70 kits include (2) ShockWave air spring/shock units, (2) tubular upper control arms and (2) tubular lower control arms. 1991-96 kits do not include control arms.

Important: Dropped spindles are not recommended on 1991-96 models.
Note: Shipped overweight. No further discounts apply.

1965-96 Rear CoolRide Suspension Systems

This CoolRide system mounts the air spring and shock absorber in the stock locations. It will raise and lower the vehicle, improving the handling and offering a terrific ride. System includes (2) air springs, (2) shock absorbers, mounting brackets, and hardware. For 1965-70 applications with tubular control arms, kits include (1) tubular upper arm, (2) tubular lower arms, and an adjustable panhard bar.

Important: Some 1965-70 rear ends had two upper control arms, use appropriate number below for this application.
Note: Shipped overweight. No further discounts apply.

30334000	w/o ride height sensors	1504.99 kit

ARC41001

LevelPRO Max 4-Way Compressor/Controller System

This LevelPRO Max compressor/controller system upgrades the standard LevelPro system with a 5 gallon tank to provide maximum performance for your air suspension. Includes (1)AMK compressor, (1) 5 gallon tank, (1) RidePro e3 electronic controller, (1) air valve, wiring harness, 1/4" air hose and fittings. Will raise and lower your car in approximately 3 seconds. Available with or without ride height sensors.

Note: Shipped overweight. No further discounts apply.

ARC41001	with ride height sensors	2204.99 kit
30334100	w/o ride height sensors	1704.99 kit

RidePro 4-Way Compressor/Controller System

Looking for an analog solution to your air suspension system? Skip the computers and use this manual RidePro kit! Includes (1) compressor, (1) 3 gallon tank, analog control panel, 4-way solenoids, wiring harness, air hose, and fittings. This kit will raise and lower your car in approximately 3-5 seconds.

Note: Shipped overweight. No further discounts apply.

30154000	RidePro	1004.99 kit

APD4000

AirPod 4-Way Compressor/Controller Systems

Looking for a plug-and-play compressor system? The AirPod is a completely integrated system with four bolt mounting, four plumbing connections, and three wiring connections. The lightweight package features a corrosion proof aluminum tank, single or dual compressors under a sleek molded cover. The AirPod with the RidePro e3 system is a basic pressure based system that includes a controller and air pressure sensors. The LevelPRO is a more advanced air suspension control system and includes a controller, air pressure sensors, and ride height sensors.

Note: Shipped overweight. No further discounts apply.

AirPod with 3-Gallon Tank & Single Compressor

APD4001	LevelPro	2304.99 kit

AirPod with 5-Gallon Tank & Dual Compressors

APD4100	RidePro	2104.99 kit
APD4101	LevelPro	2604.99 kit

RidePro e3 Control System

This sleek control panel features an auto-dimming transflective display which is completely visible in the sun. Backlit buttons each have a distinct "click" to give you feedback while two mini USB connections allow a variety of panel mounting and connection options. Waterproof M12 twist connections and solid state compressor relays eliminate external relays and wiring. The LevelPro e3 leveling system is compatible with any air suspension and is a great upgrade to your current e1/e2 system. Includes ECU, control panel, pressure sensors, wiring harnesses, and instructions.

Note: No further discounts apply.

30318000	RidePro e3 ..	1004.99 set

RidePro e3 Control System

Awesome convenience, not to mention cool! The RidePro e3 Remote Control System gives you a keyless remote to control your RideTech system. Includes (2) key fob transmitters, an antenna, receiver and plug-in wire harness.

Note: No further discounts apply.

31008500	.....	154.99 set

LevelPRO Sensor System

The RideTech LevelPRO leveling system is an advanced air suspension control system! LevelPRO uses a unique combination of ride height sensors and air pressure sensors to quickly achieve your selected ride height. By comparing the position of the ride height sensor to the air pressure, the vehicle is leveled with no crossloading. This kit can be used to upgrade an existing AirRide system.

Note: No further discounts apply.

LEV8000	.....	1509.99 kit

Manual Inflation Air Hose Set

This is an air inflation hose kit that can be used to manually inflate your AirRide system. If you have not decided yet on which compressor system you want to use, this is an inexpensive way to raise and lower your AirRide suspension. Includes fittings.

AK90	hose set	39.99 set

Front Coil Springs

Replace your front springs with OEM style heavy duty reproductions of the original springs. Each spring is designed to fit exactly as original and features correct spring rates! Classic Industries® has added hundreds of new listings bringing you the largest selection of front coil springs available anywhere! Each OEM spring includes the correct listing as suggested by General Motors for the particular model and options available for the vehicle. Once installed, each spring will offer an exact replacement ensuring that your Impala, Bel Air, Biscayne or Caprice will maintain the highest standards of originality and quality for your suspension. We stock a large variety of OEM style springs for fast UPS delivery. The listings below indicate the correct part numbers associated with each model as listed. Some part numbers coincide with various applications for each model year. Be sure you're getting the correct springs for your year and model with Classic Industries' exact replacements.

Rear Coil Springs

Replace your rear springs with OEM style heavy duty reproductions of the original springs. Each spring is designed to fit exactly as original and features the correct spring rates! Classic Industries® has added more than a hundred new listings bringing you the largest selection of rear coil springs available anywhere! Each OEM spring includes the correct listing as suggested by General Motors for the particular model and options available for each vehicle. Once installed, each spring will offer an exact replacement ensuring that your Impala, Bel Air, Biscayne or Caprice will maintain the highest standards of originality and quality for your suspension. We now stock a large variety of OEM style springs for fast UPS delivery.

- OEM Quality
- Largest Selection
- Largest Inventory
- Exact Spring Rates
- Fast UPS Delivery

Full Size Chevrolet Lowering Spring Sets

Classic Chevrolet models already have clean lines and flowing curves. Classic Industries® offers lowering spring sets to enhance the look of your classic ride even further. These spring sets are custom wound for 1958-64 full size models and are manufactured for each specific application using your vehicle's original GM spring specifications combined with the engine size that is currently in your vehicle to achieve a lower ride height. This formula results in a stock type spring with a factory spring rate and lowered ride height. Sold in sets of 4, they are available in 1, 2, or 3 inch drops. Use with correct length shocks to maintain stock ride and handling. To ensure receiving the correct springs, simply locate the part number that corresponds to your specific model, specify the engine that is currently in your vehicle, and specify 1, 2, or 3 inches of drop. It's that simple. The professionals at Classic Industries® can assist you with any information when ordering.

Important: Due to the age of these vehicles, the original springs may have settled or begun to sag and you may not realize the full amount of drop. The amount of drop is based on the original spring specifications and ride height when new. Special order. No further discounts apply.

Suspension Components

OER

Coil Spring Insulator

Molded rubber coil spring insulators that mount between the coil springs and the frame. These insulators will help keep the springs from riding on the frame metal to metal and will give you better ride. Coil spring insulators were not original on all vehicles. Measures 5-5/16" o.d, 3-3/4" i.d, lip height 7/16".

Note: These insulators will increase ride height equal to the thickness of the insulator.

W1006 2 required ..... 12.99 ea

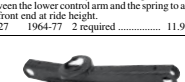
New!

OER

1964-77 3/8" Coil Spring Spacer

Reproduction 3/8" coil spring spacer for 1964-77 models. This was used by GM on the production line between the lower control arm and the spring to adjust the front end at ride height.

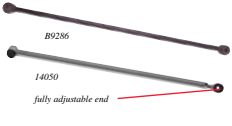
14927 1964-77 2 required ..... 11.99 ea



1959-64 Lower Rear Trailing Arms

These are upgraded reproductions of the lower rear trailing arms for all 1959-64 full size models. These steel arms include the bushings and lower coil spring perches. The arms are reinforced (boxed) for strength so they are great for vehicles equipped with hydraulic systems.

B9296 1959-64 ..... 199.99 pr



1959-64 Rear Panhard Rod

If your full size is feeling a little loose in the corners, maybe the rear panhard rod is worn out. This replacement panhard rod which features installed bushings will restore stability to your 1959-64 full size model during cornering. For cars that are lowered or have a hydraulic system installed, an adjustable pan hard bar is necessary to keep the rear end aligned properly. Available in black or chrome.

1958 Rear Bushing Set

Freshen up the rear suspension of your 1958 full size model and smooth out your ride with a rear bushing set. Includes 10 bushings to service the rear suspension.

A58820 1958..... 169.99 set

1959-64 Rear Panhard Rod Bushing

Reproduction of the original rear panhard rod bushing used on 1959-64 full size models. If your full size model is feeling loose around corners, no need to replace the complete panhard bar, just replace the bushings. These quality reproductions are the way to go without replacing the whole bar.

CX2035 1959-64 2 required ..... 14.99 ea

17261 17262

1959-70 Rear Trailing Arm Bushing

These are reproductions of the rear trailing arm bushings for all 1959-70 models. These bushings will replace your original worn out bushings and are manufactured like original for a perfect fit.

1990-96 Billet Trailing Arms

Eliminate wheel hop and improve traction with these quality billet aluminum or titanium trailing arms. These arms are a huge improvement over the stock stamped steel arms. They're very light, super strong and are CNC machined from solid billet stock. They also include greaseable polyurethane bushings. These stock length trailing arms will fit all 1990-96 Impala and Caprice models. The upper arms are adjustable to correct your pinion angle on lowered cars. For the ultimate in performance and great looks, you won't find a better suspension arm available. Get your Impala or Caprice to put the power down and handle with these awesome suspension arms. Be the first on your block to have titanium suspension arms.

1959-64 Rear Upper Torque Arm

Reproduction upper torque arm for 1959-64 full size models. This is a new stamped steel control arm with new bushings installed. Replace bent, cracked or crushed upper control arm. Sold as each.

Important: *Check your vehicle to know how many upper torque arms you have. Your vehicle may have one or two arms.*

B9298 1959-64 ..... 84.99 ea

Vehicle Scale

Measure the weight of your car with this quality vehicle scale. This scale features weight for each wheel as well as total weight. Percentage weight is also available along with front and rear percentages. Each of the individual wheel pad measures 14-1/2" x 9-1/2" x 2-1/2" with a 1250 lb capacity per pad for a total scale capacity of 5000 lbs. Accurate to 1/10 of 1%. 20' cables, durable carrying case, blacklit display and batteries are included.

Note: Shipped overweight.

67650 vehicle scale ..... 799.99 ea

SUSPENSION SYSTEMS

Universal Driveshaft Safety Loop

Required and approved by all major racing sanctioning bodies. This universal driveshaft safety loop is fully adjustable to fit most vehicles. The four piece design is manufactured from 1/4" thick, 2" wide mild steel, bright zinc plated and comes with all necessary hardware.

Note: No further discounts apply.

LW18000 all models zinc plated..... 39.99 ea

OER

Gray Cast Iron Spray Paint

Get the OEM look on your steering boxes, leaf springs, rear end and other parts with correct OEM style gray paint. Comes in convenient 12 oz. spray can.

Note: Aerosol spray cans are shipped ground only.

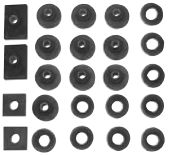
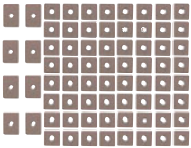
Body Mount Bushings



W2052



W2062

1958-70 OEM Body Mount Bushing Set

Classic Industries® offers the Impala restorer the finest in pure restoration with these OEM reproduction subframe bushing sets. Replacing the original bushings with rubber reproductions is a sure way of retaining originality and mounting the subframe exactly the way the factory intended. Each bushing is designed and manufactured to replicate the original in every detail. Classic Industries® recommends replacing the originals with rubber bushings as opposed to polyurethane for a correct restoration. Replace your original worn out subframe body mounts with Classic Industries® complete subframe body bushing set. Each pre-packaged set contains all shouldered rubber bushings and biscuit. Each body mount is produced using correct compression molded S.B.R. with steel sleeve inserts where required. Fits all Impala, Caprice, Bel Air and Biscayne models.

Suspension Components

THE CURE FOR A HOST OF SUSPENSION AILMENTS!

1980-90 Complete Hyper-Flex System Master Set

Installing a set of performance polyurethane bushings will give you an incredible improvement in control no matter what kinds of demands you put on your vehicle. Maintain proper alignment throughout suspension travel, increase handling and control, greatly reduce wheel hop on hard acceleration, and even braking control is improved through better suspension stability. Our HYPER-FLEX SYSTEM Master Set includes front control arm bushings, front end link set, rear coil spring isolators, transmission mount, ball joint and tie rod end boots.

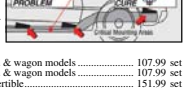
1961-96 Polyurethane Body Mount Bushing Sets

Classic Industries® offers Polyurethane Bushings for passenger models. These unique bushings are designed to never wear out as conventional bushings do. These unique bushings are self lubricating, never squeak, are weather resistant and are produced using the latest polyurethane materials. Replace your original body mount bushings with these new polyurethane style bushings. These sets will replace all of your body mount bushings.



*Note: * Steel sleeves and washers are not included with this bushing set.*

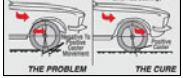
1965-70 Polyurethane Strut Rod Bushing Sets



Polyurethane Strut Rod Bushing Sets deliver BIG improvements in real world driving for owners of BIG, full size Chevrolets. They are often the choice with street and strip enthusiasts, lowriders, hoppers, and of course, police, fire and government service agencies. The size and weight of these vehicles, whether at work or hard at play, place tremendous demands on their suspensions. Demands that original rubber components simply can't stand up to. Polyurethane components are designed to meet their special needs and provide an incredible improvement in handling, control and reliability.

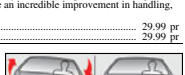
1991-96 Greaseable Polyurethane Sway Bar Bushing Set - 30mm



Dollar for dollar, performance polyurethane sway bar bushings offer the greatest improvement in performance among all the polyurethane products! They make the vehicle's sway bar system MUCH more effective - like adding a larger, higher performance sway bar! Complete with zerk fittings and utilizing a unique channel design, allowing grease to flow to all inner bushing surfaces. This innovative design will virtually eliminate any possible squeaking. Fits 1991-96 full size models with 30mm bar.

Polyurethane Bushing Sets

It doesn't take long before soft suspension rubber begins to deteriorate. Polyurethane is impervious to deterioration caused by oil, grease, and the elements, giving you firm, confident handling that lasts. These bushings are formulated and designed to reduce the noise, vibration, and harshness that other polyurethane bushings may have and include "squeak proof" Super Grease. All of the dynamic bushings feature grooves to hold grease for superior performance. Available in black or red, specify color when ordering (G-black or R-red).

Complete Sets

1959-64 Complete Set
Includes front & rear control arm bushings, sway bar end link, tie rod boots and trans mount.

Shock Absorbers

KYB GR-2 1958-96 GR-2 Gas Shocks

KYB's GR-2 series is specially designed to deliver a smooth, comfortable ride. A patented check valve minimizes foaming and aeration to make sure the ride stays smooth, even under rough conditions. For that new car ride purchase a set of GR-2 series shocks, struts or cartridges.

1958-96 Gas-a-Just Shocks

KYB's Gas-a-Just shocks are designed to deliver maximum driving control and performance. Gas-a-Just's higher gas pressure keeps tires glued to the road while its high strength, monotube configuration provides extra-rugged durability and fade-free performance. For a high performance ride purchase a set of Gas-a-Just Shocks.

1965-96 Bilstein Shocks

If you've never experienced the exhilaration of driving a vehicle equipped with Bilstein Shocks, you're in for a pleasant surprise. You'll soon discover there is quite literally, nothing like it. Bilstein's shock bodies are precision formed through a unique seamless extrusion process. This provides superior strength along with high finish tolerances that are usually associated with surgical instruments. The finished body is then mated with a solid, induction hardened steel chrome plated and polished shaft, machined valving components and highest quality seals. Combined with extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. Conventional shocks slowly lose efficiency and eventually fail over a period of time causing excessive tire and suspension wear. Of all your suspension components, nothing works harder than your shock absorbers, making it critical you pick the right ones for your vehicle. Bilstein Gas Pressure Shock Absorbers are the least expensive, fastest way to dramatically improve the ride, handling and control of your vehicle. Plus, with Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again.

1965-85 2-Way Adjustable Shocks

All the benefits of up-to-date ride quality while still maintaining a stock look. Rebound and compression adjustable shocks that will fit into OE control arms. This is made possible by the adjustment valve being located on the bottom of the shock, unlike other premium brand shocks with side valves that require aftermarket control arms for clearance. Shock bodies are made of a CNC-turned aluminum housings with a clear anodized coating to keep the appearance up for years to come.

Note: No further discounts apply.

1958-96 VariShock Bolt-In Shocks

Engineered to be the ultimate direct-replacement shock absorber. Features an all aluminum design for minimum weight, urethane bushings, and individually dyno-tested and calibrated to assure uniform performance. Threaded (3/8"D x 2-1/2"L) stem mount is designed to fit into the upper mount of most vehicles, while the open crossbar and pin mount are manufactured with urethane bushings with 350% more material, improving load distribution and extending bushing life. "Deflective Disk Valving" in the pistons eliminates spring fatigue. Rebuildable if necessary. Made in the USA. Sold in pairs. Available with single or double adjustment and non-adjustable factory-preset valving for street-performance applications.

Note: No further discounts apply.

1965-96 Hotchkis HPS 1000 Shock Absorber

Improve the ride and handling of your muscle car with Hotchkis Sport Suspension's HPS 1000, vehicle specific-tuned shock absorbers for your 1965-70 full size and 1978-96 Caprice or Impala SS. These shocks feature Bilstein's deflective disc valve technology in a high pressure mono tube shock body, which allows excess heat to dissipate more quickly than twin tube designs. A separating piston uses nitrogen to pressurize the shock oil, preventing aeration (foaming), which often leads to loss of performance or poor ride. Conveniently bundled in a 4 pack for maximum savings or front and rear sets, these shocks can be used on stock or lowered cars. Shocks are the hardest working part of your suspension; don't sacrifice your ride and performance to an inferior product. These are an upgrade for your Hotchkis Sport Suspension.

Note: No further discounts apply.

1958-90 Lakewood Drag Shocks

State-of-the-art 10 stage valve design provides excellent starting line reaction and stable high speed operation superior to any other shock on the market today. These shocks have multiple valve stages; as the vehicles speed increases, the characteristics of the shock change. These stages have been refined to include a low speed stage which provides excellent weight transfer upon initial launch, then brings the front end down quickly to avoid poor aerodynamics. As vehicle speed increases, the shock provides greater stability and better control for safer operation. These shocks include polyurethane bushings that will not deflect under stress, allowing the valving to work immediately and efficiently. The chrome plated piston rod will resist corrosion and limit premature seal wear. Lakewood shocks are assembled using quality components including specially formulated antifoaming hydraulic fluid for precise and consistent drag strip operation regardless of temperature. Over extension and compression are internally controlled with hydraulics instead of OEM style urethane stops. If over extension or compression does occur, the impact will be cushioned hydraulically to prevent damage to the shock while giving the driver added control. All Lakewood drag shocks will mount in the stock location without modification.

Note: No further discounts apply.

90/10 Series Front-Race Only

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch. Works best on vehicles where maximum rear wheel traction is required.

Important: These shocks are not designed for street use.

70/30 Series Front-Street & Strip

Used for overall improved handling on the strip or when quick front end lift is not needed. Works best on medium to high horsepower vehicles with wide tires and low to medium horsepower vehicles with slicks. This is the perfect shock for vehicles that are driven both on the street and on the strip.

50/50 Series Rear-Street & Strip

Used to properly load the rear wheels and prevent over-reaction and wheel hop. This shock is the best overall choice for vehicles that are driven both on the street and the strip. Use with leaf or coil springs.

1958-90 QA1 Stocker Star Shocks

QA1 offers Stocker Star Shocks in your choice of fixed, single-adjustable and double-adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget-conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers two knobs to adjust compression and rebound separately, resulting in 324 valving options to fine-tune your ride for any type of driving. All shocks have polyurethane bushings and are sold individually. Two required per axle.

Note: Some disassembly or modification may be necessary to mount these shocks. No further discounts apply.

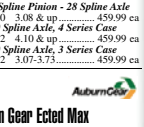
1964-96 Auburn Gear Ected Max

ECTED: *E*lectronically *C*ontrolled *T*raction *E*nhancing *D*ifferential (*Pronounced* "ek-ted") The ECTED Max is a revolutionary traction-technology product that switches between limited-slip and locker mode on the fly. When "off," the ECTED Max functions like a performance limited-slip differential. When "on," current is sent to an electromagnetic coil on a non-rotational bearing cap bolts, pulling a pilot cone into engagement with the differential case, ultimately compressing the clutch pack and creating locker solid axle assembly. ECTED gives you the advantage at the drag strip and on twisty tracks, all in one package.



Important: *Bearing kits include 2 Timken cones and 2 Timken cups. * with 30T side gears.*

Note: *No further discounts apply.*

Made in USA

ECTED Max™ Advantages:

- **Made from 9310 heat-treated billet steel for extreme durability**
- **Can switch from limited slip mode to locker mode "on the fly," at any speed.**
- **Switches to locker mod without lining up any shift forks or pins.**
- **Operates quietly – say good-bye to noisy lockers!**
- **Backed by Auburn's industry-leading one-year warranty.**
- **Backed by the industry-exclusive D-REX = Differential – Replacement EXchange Program.**

1958-96 Rear Axles

These rear axles are built to stand up to the demands of high-performance applications. Made from 1541H steel, these axles contain significantly more manganese than 1040 or 1050 steel versions. This greatly increases strength and durability—without being a whole lot more expensive. This results in axle shafts that are approximately 20 to 25 percent stronger than the OEM units. Sold each.

1965-96 Rear Axle Repair Bearing

Classic Industries® offers a complete sealed repair bearing that will replace the rear axle bearing on your full size model when damage has occurred to the axle shaft from a worn-out bearing. This bearing is a sealed, self-contained, pre-lubed unit that is engineered to relocate the load area of the bearing on the axle shaft to the area just outboard of the damaged section of the axle. 2 required per vehicle.

Note: This should be considered a temporary fix until you can replace the damaged axle.

Disc Brake Conversions

Everyone knows a full size vehicle will run fine in the city or on the highway, but stopping is another matter. Classic Industries offers a solution to this age old problem. The conversion set includes the components you will need to convert your full size model's standard "weak" drum front brakes to a powerful disc brake setup.

This comprehensive conversion set utilizes quality parts for guaranteed fit and safety, and is manufactured and assembled to allow any full size owner the opportunity to convert from drum brakes to disc brakes without the need for a professional installer!

Three Different Rotor Finishes Are Available

- **Standard Finish**
  Basic finish from the factory.
- **Turbo Slotted and Xtra Life Plated**
  Slotted for heat and gas to escape. The slots also remove debris that might accumulate. Xtra Life plating adds protective finish layers to the rotor.
- **Big Bite Cross Drilled, Turbo Slotted and Xtra Life Plated**
  The drilling, like the slots venting, help cool the rotors.

Front & Rear Disc Brake Conversion Sets

Rear disc brake Sport R1 caliper shown with optional powder coating. Mechanical parking brake shown on backside.

Two Different Rotor Finishes Are Available

- **Turbo Slotted and Xtra Life Plated**
  Slotted for heat and gas to escape. The slots also remove debris that might accumulate. Xtra Life plating adds protective finish layers to the rotor.
- **Big Bite Cross Drilled, Turbo Slotted and Xtra Life Plated**
  The drilling, like the slots venting, help cool the rotors.

1958-98 Front Disc Brake Conversion Sets

13" 4-Piston Sets

17" minimum wheel size. 43mm 4-piston aluminum calipers, (shown with optional powder coating), 13" x 1.125" directional slotted/plated rotors with 5 x 4.75" bolt pattern or optional Big Bite slotted/plated & drilled rotors, high performance pads, braided stainless steel flex lines, caliper mounting brackets and hardware. The lightweight calipers are CNC machined from aircraft quality aluminum, and reduce the unsprung weight for a better ride. 1958-68 sets bolt to stock drum brake spindles and feature a 5 x 4-3/4" wheel bolt pattern. 1992-96 sets fit Caprice and Impala SS models with a 5 x 5" wheel bolt pattern. All 4-piston brake sets for 1958-68 models include a master cylinder and power booster. 1992-96 Caprice and Impala SS sets *do not* include the master cylinder or booster but includes new spindles. See our rear Short Stop upgrade set #A2350009R for matching rotors on 1994-96 Impala SS models.
Important: *Conversion sets fit most 17" wheels depending on offset.*
Note: *Shipped overweight.*

Upgrade Your O.E. Single-Piston Disc Brake System with Our Quick Change Aluminum Caliper Upgrade Set!

Quick Change
SSBC PERFORMANCE BRAKE SYSTEMS

Features:

- *2-piston design provides more consistent pressure on the brake pad than the stock single-piston caliper*
- *More consistent pad pressure reduces pad deflection, thus increasing clamping pressure on the rotor and reducing braking distance*
- *For stock size rotors only.*
- *Corrosion-free, lightweight stainless steel pistons minimize heat transfer to the brake fluid for optimum performance*
- *Calipers come standard with a clear anodized finish (shown with optional powder coating)*
- *Includes both SAE and metric fittings*

1981-96 Quick Change Aluminum Caliper Upgrade Conversion

15" minimum wheel size. 43mm 2-piston aluminum calipers and performance brake pads. Available with standard clear anodized calipers; optional black or red powder coat calipers.
Note: *Fits most 15" wheels depending on offset.*

A Direct Bolt On Replacement That Fits In Your Stock Wheels And That Definitely Adds Some Style To Your Impala!

BIG BITE Cross Drilled Rotors

SSBC PERFORMANCE BRAKE SYSTEMS

A2350010

Two Different Rotor Finishes Are Available

- **Turbo Slotted & Xtra Life Plated**
  Slotted for heat and gas to escape. The slots also remove debris that might accumulate. Xtra Life plating adds protective finish layers to the rotor.
- **Big Bite Cross Drilled, Turbo Slotted & Xtra Life Plated**
  The drilling, like the slots venting, help cool the rotors.

1981-96 Short Stop...Rotor Upgrade Sets

Add some style with our Short Stop... Rotor Upgrade Sets. The set includes slotted/plated unidirectional or optional Big Bite slotted/plated & drilled rotors and performance brake pad upgrade for your stock brake system. Xtra Life plating is standard on all rotor upgrades and helps protect the rotor from rust and corrosion. A direct bolt-on replacement that fits in your stock wheels & definitely adds style to your Impala!
Note: *Shipped overweight.*

Wilwood Disc Brake Systems

Get Reliable Stopping Performance For Your Ride!

Forged Billet Dynalite 4 Piston Calipers

- Stress-flow forged bodies and a radial transition provide superior strength and efficiency.
- FDL calipers generate high clamping force without deflection from four stainless steel pistons. The stainless construction resists corrosion and reduces heat transfer from the pads.
- Spring-loaded SRS stainless bridge plates eliminate bridge wear from pad gouging, pad rattle, and dampens vibrations that cause brake squeal. 1/8" NPT fluid inlet easily adapts to all types of flexlines.
- Four corner bleed screws allow simple bleeding regardless of caliper location.
- Top loaded brake pads can be easily inspected and serviced without caliper removal.

Caliper Brackets and Hardware

- CNC-machined aluminum mount brackets with steel bolt hole inserts
- Grade 8 and stronger nuts, bolts, washers and alignment shims

BP-10 SmartPads

- Medium friction, low dust and low noise street performance brake pads with friction characteristics of a semi-metallic race compound.

HP Series Vented Iron Rotors

- Smooth rotor face
- 12.19" diameter
- High thermal stability
- Distortion-resistant
- Improved stopping power and cooling over OE
- Increased rotor mass extends service life vs. SRP series rotors

SRP Series Vented Iron Rotors

- Increased surface heat dissipation over HP
- Cross-drilled and slotted rotor face
- 12.19" diameter
- Reduced pad glaze
- Smooth engagement and consistent pedal response.

Front Disc Brake Sets

Forged Billet Aluminum Hubs

- High-strength, low-weight hubs are forged from premium-grade billets under high heat & pressure, then CNC machined for precise fit.
- Drilled for 5 on 4.50" and 5 on 4.75" wheel lug patterns.
- Come with bearing races installed, new bearings, grease seals, screw-on billet aluminum hub caps, and 1/2"-20 RH Grade 8 wheel lug studs.

1959-90 Dynalite Pro Series Front Hubs

Dynalite Pro Series Front Hub Sets are engineered for competition and sports driving applications Get big stopping power in severe heat conditions with up to 35 pounds of weight savings off the front end.
Important: 1959-64 sets increase front track width approximately 1" per side. Requires 15" or larger wheels with disc brake offset. 1977-90 sets require modification to caliper mounting ears and backing plate.
Note: Shipped overweight. No further discounts apply.

With Standard HP Rotors

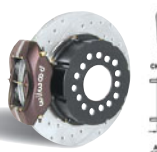
14011008BD	1979-90	for disc spindle	789.99 set

Rear Disc Brake Sets



HD Aluminum Rotor Mounting Hats

- Premium CNC machined lightweight construction.
- Multi-drill pattern accommodates 4.50", 4.75" and 5.00" five lug patterns.
- Black anodized to resist corrosion.

Dynalite Pro Series Rear Axle Sets

Dynalite Pro Series Rear Axle Kits are engineered for competition and sport applications that do not require a parking brake. These lightweight sets are tough enough for severe braking on a road course. .
Important: Custom built or narrowed rear axles may use axle bearings and flange offsets that are different from the original make and model of the center section. All kits must be ordered based on the axle flange and axle offset
Note: Shipped overweight. No further discounts apply.

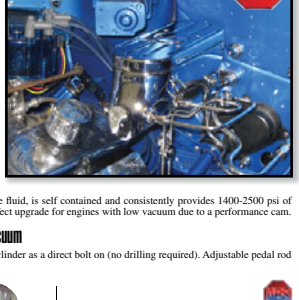
Disc Brake Conversions

Electronic Disc Brake Conversion Sets

Remote Electric Hydraulic Pump Provides Power



Eliminates the Bulky Original Booster

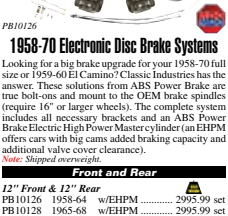
Gain valuable clearance in the firewall area by doing away with the unsightly, inefficient vacuum power booster. Sleek billet aluminum master cylinder takes its place for an improved appearance & performance.

Increases Braking Pressure and Performance

This electronic system runs on brake fluid, is self contained and consistently provides 1400-2500 psi of braking pressure at the wheel. A perfect upgrade for engines with low vacuum due to a performance cam.

True Bolt-on - Requires No Vacuum

Replaces your OEM brake master cylinder as a direct bolt on (no drilling required). Adjustable pedal rod to allow for correct pedal height.



PB10126

1958-70 Electronic Disc Brake Systems

Looking for a big brake upgrade for your 1958-70 full size or 1959-60 El Camino? Classic Industries has the answer. These solutions from ABS Power Brake are true bolt-ons and mount to the OEM brake spindles (require 16" or larger wheels). The complete system includes all necessary brackets and an ABS Power Brake Electric High Power Master cylinder (an EHPM offers cars with big cams added braking capacity and additional valve cover clearance).

Note: Shipped overweight.

1958-70 Zero Offset Disc Brake System

Is the big cam in your 1958-70 full size or 1959-60 El Camino causing a lack of braking, or do you have valve cover clearance issues? Classic Industries has the answer! This true bolt-on solution from ABS Power Brake mounts to the OEM brake spindles and works with 14" OEM style wheels. These sets feature 10-3/4" cross-drilled and slotted rotors. All necessary brackets are included with the system, plus the Electric High Power Master cylinder.

Note: Shipped overweight.

Electric High Power Master Cylinder

The most innovative system on the market today, this bolt on solution replaces the OEM brake booster/ master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist. Complete with a remotely mounted power supply, this fully self contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures 8.75" long and 3.5" wide.

PB10569	all models	1349.99	set

PB10145

1958-70 Front Bolt-On Disc Brake Systems

This true bolt-on solution from ABS Power Brake will bolt up to the OEM spindles. Included with the system are all brackets needed, master cylinder and proportioning valve so you can select the correct combination (disc/drum or disc/disc). Available with 10 3/4" or 12" rotors. Rotors are cross-drilled/slotted.

Note: Shipped overweight.

With Booster

Includes a new 8" Dual Power Brake Booster Combo.

Disc Brake Conversions

BB4001

1958-70 Big Brake Conversion Set

This big brake system uses twin 52mm piston calipers to grab massive cross-drilled and gas-slotted rotors to provide a 60% increase in stopping over the popular C5 caliper. Front sets are compatible with stock drum brake spindles and include 13" rotors, calipers, hoses, bearings, seals, mounting brackets and hardware. Rear sets include 12" rotors, calipers, mounting brackets, hoses, wheel studs, hard lines, e-brake cables and hardware. The 4-wheel set includes a 4-wheel disc manual/power master cylinder and proportioning valve. Calipers are available with a black rust inhibitive coating or powder coated red.

Important: *These brakes require 17" wheels or larger.*
Note: *Shipped overweight. No further discounts apply.*

Disc Brake Master Cylinder and Booster

Complete 7" & 9" booster and master cylinder assemblies are specifically built with the disc brake conversion in mind. These are completely new master cylinders. The 7" combination unit is ready to install and is perfect for tight fitting applications like big block with roller rockers, or street rods and customs that require the booster to mount below the floor boards. The 9" combination unit is ready to install and is perfect for small block and street rod or custom applications. The boosters are finished in an anodized gold and the master cylinder is in raw cast color.

1967-96 Power Brake Boosters

Having trouble with your power brakes? If your vacuum draw is weak, at a level less than 18 in. of Hg, you may need to replace your power brake booster. Over time, the internal rubber components of the booster can deteriorate, especially if rich gasoline fumes enter the vacuum lines. Replace defective brake boosters and make sure your vehicle has the power to stop safely!

Important: *The listings below are for the power brake booster only and do not include the master cylinder assembly (sold separately). Boosters are not currently available in original OEM color.*

Manual Push Rod Set

Special heavy duty push rod converts cars equipped with power brakes to manual brakes. Uses present master cylinder. Must have deep hole in piston.

398721 ..... 22.99 set

Electronic Vacuum Pump Set

It takes 16" of vacuum to properly activate your vehicle's power brake booster. Sometimes, big-cammed or supercharged engines don't create enough vacuum to operate the booster, making it more difficult to stop. This vacuum pump will supply the booster with the needed vacuum so your brakes will function properly.

VP28146 vacuum pump set ..... 289.99 set

Master Cylinder Push Rod Set

This set will come in handy when re-building your master cylinder and power booster on your power brake system. This set includes the plastic sleeve (boot), two push pins (one for a shallow m/c, one for a deep m/c) and the attaching clivis.

PBK10 ..... 11.99 set

Wilwood Tandem Master Cylinder

These tandem outlet master cylinders are configured for manually actuated, four wheel disc brake applications. They feature a slotted mounting flange that accommodates bolt hole centers between 3.22" and 3.40". The bodies also feature two through-hole mounts on 6.40" centers for side mounting to frame members or other secure elements of the chassis. These master cylinders are manufactured with a 1" or a 1.12" piston bore providing options for matching volume and stroke requirements, and fluid outlets on both sides of the cylinder to simplify plumbing based on mount location. Available with either a natural or polished finish.

1967-69 Disc Brake Metering Valve

The metering valve prevents the front brakes from locking up before the rear brakes have had a chance to activate. A bad metering valve can cause severe nose-diving during braking and excessive front brake pad wear. This all-new, cosmetically correct reproduction valve is correct for all 1967-69 models with disc brakes. Mounts remotely to the master cylinder. Comes with original style mounting bracket.

PV68	1967-69	with disc brakes	109.99 ea

Adjustable Proportioning Valve

The next generation adjustable proportioning valve from Wilwood combines the latest refinements in manufacturing processes and materials to deliver precise pressure metering and unyielding strength from its compact and lightweight, forged billet design. Precision proportioning from 100 to 1,000 PSI. At full release, valve is capable of up to 57% reduction in line pressure. The new, smaller body accommodates easy mounting in a variety of locations in conjunction with two .25" diameter holes on 1.00" centers. Along with standard 1/8" NPT inlet and outlet ports and two 1/8" NPT to 3/8-24 inverted flare brake line adapters included with each valve makes installation simple.

Note: No further discounts apply.

1971-72 Proportioning Valve Dust Boot

Proportioning valve front rubber dust boot. This is the dust boot on the front of the valve.

1253523 1971-72..... 5.99 ea

Combination and Proportioning Valve Bleed Tool

Combination and proportioning valve bleed tool is designed to replace the warning light switch (white plug) on the proportioning valve during the brake bleeding process. After the bleeding process is finished, simply remove the tool and reinstall the warning light switch. This item makes bleeding your brake system much easier. Works with all popular non adjustable GM style combination valves; including the proportioning valves used on disc brake conversions. Tool is designed to lock the low pressure shut valve to allow fast and easy brake system bleeding. No need to constantly remove low pressure switch and center the low pressure valve during the brake bleeding process!

P19842 ..... 7.99 ea

Adjustable Proportioning Valve and Distribution Block

Distribution block connects to the master cylinder and distributes brake fluid to all four wheels. Adjustable proportioning valve regulates rear brake pressure, helping to maintain correct brake bias between front and rear brakes. Built-in switch will activate tail lights when brake pedal is depressed.

A0730 black anodized finish..... 84.99 ea
A0730P polished finish..... 119.99 ea

Proportioning Valve

This adjustable proportioning valve makes it easy to control and maintain front to rear brake balance. A driver can compensate for changing fuel loads by simply turning the dial. This valve has an adjustment range of 100 to 1000 PSI. Excellent for race cars or tow vehicles.

A0707 ..... 49.99 ea

Combination Proportioning Valve & Pressure Gauge

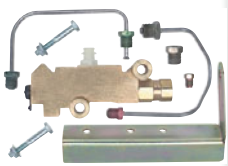
When balancing brake pressure between the front and rear brakes don't guess. Your safety depends on the ability of your brakes not to lock up unevenly. With this new brake pressure gauge and proportioning valve combination you will remove any guessing on your next brake conversion. With the simple single adjustment knob you will be able to get your braking balanced perfectly. If you ever tow trailers or other equipment you can even make any needed adjustments "on the fly" to better control the load and conditions. Don't bet on a guess, get it right the first time!

A0707E ..... 64.99 ea

Brake Pressure Gauge

Whenever a brake professional is balancing a new brake system for either street or race applications he has to use the best equipment. At Classic Industries® we believe in getting the job done right the first time. With this all new brake pressure gauge you will be able to measure your braking pressure right at the caliper where it is the most accurate. The gauge comes with the six most common fitting sizes to adapt this versatile gauge right to the threaded bleeder port of either your caliper or drum system. Get the correct brake balance with the best tool for the job.

A1704 ..... 49.99 set



1967-72 Brake Combination Valve Set for Drum to Disc Conversion

The brake combination valve provides proper front to rear brake force balance. This set includes fluid metering and distribution block and system failure light switch. Comes with a custom bracket to mount to master cylinder, avoiding frame/header clearance problems. Also includes pre-bent master cylinder to combination valve lines.

391350 1967-72..... 129.99 set

Brake & Parts Cleaner

This powerful brake & parts cleaner quickly cuts through grease and grime, but it does not leave an oily film. This fast drying formula gets the job done while using less spray compared to watered down cleaners. Non-Chlorinated.

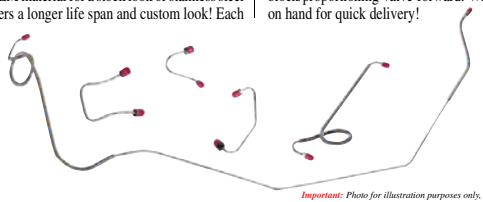
Brake Line Sets

Reproduction brake lines for your early model passenger car are now available in OEM material for a stock look or stainless steel material which offers a longer life span and custom look! Each set includes all the necessary components from the distribution block/proportioning valve forward. We keep a large inventory on hand for quick delivery!



Important: Photo for illustration purposes only, set contents may vary.

- Available in stainless steel or original material
- All lines have the correct color coded fittings
- All lines have been pre-fitted for easy installation
- Each line is machine double flared for a safe, no leak fit
- All lines are clearly labeled for your convenience
- Reproduced with the discriminating restorer in mind

1958-70 Hydraulic Brake Flex Hoses

Get the best in appearance and extreme performance with braided stainless hoses. Our hoses feature a single crimp/swage fitting on each end with a black nylon jacket for a clean, professional look. Unlike many of the braided stainless hose kits out there, these braided stainless hoses are bolt-on replacements with no need for ugly screw-on adapters or fittings. A clear coating on the hose itself allows for easy cleaning. Full D.O.T. approval is assurance that these hoses are safe for use on any public roadway. Banjo bolts and copper washers are included when needed.

1991-96 Steel Brake Hose Set

Increased stopping power, better pedal feel, and improved safety are some of the qualities you can expect with stainless steel brake lines. Eliminate "mushy brake" feel caused by rubber lines that swell under pedal pressure. These quality brake lines are subjected to a 9 step quality assurance testing process including pressure testing each line up to 3000 p.s.i. All lines are D.O.T. certified and T.U.V. (Germany) approved. The Caprice set includes 3 hoses, and the Impala SS set includes 5 hoses.

1958-68 Rear Brake Hose Tee Fitting

Reproduction of the original brake hose fitting. This brass tee fitting can be used on all 1958-68 rear brake hoses with a 7/16"-20 thread size. The tee fitting is often thrown away with the rear brake hose. This fitting is designed to solve several hours of headache and problems trying to remove the old fitting from the hose without damaging it.

Brake Pads/Shoes

CB2299A

Features:

- **Semi Metallic Pads:** Long wearing characteristics. Stable friction performance across wide temperature range. High friction level.
- **Extended wear Pads:** Longer wearing. Stable friction performance across wide temperature range. Low brake rotor wear, long rotor life.
- **Ceramic Pads:** Longest wearing, most advanced material available. Low brake dust. Stable friction performance across wide temperature range.

1968-96 Posi Quiet Brake Pads

Posi Quiet brake pads are manufactured using the same positive molding process utilized by Original Equipment suppliers. Positive molding uses extreme pressure to compress the friction material and bond it to the backing plate. This process assures consistent friction material density throughout the pad, resulting in even wear and performance characteristics throughout the life of the brake pad. Posi Quiet friction is available in three specialized formulas suited for varied applications and driving styles. Semi-Metallic, Extended Wear and Ceramic.

Replacement Brake Parts

E286 E287

1967-96 Replacement Disc Brake Rotors

Premium-grade replacement brake rotors feature machined non-friction surfaces for better balancing, creating a cleaner, more finished looking rotor that dissipates heat effectively to provide better stopping power, especially in repeated stopping situations. Each rotor features a double disc ground finish to virtually eliminate run out thickness variations, producing a non-directional finish for better pad and rotor break-in. The 1967-70 rotors were originally a two piece design, now replaced with a one piece design.

*Note: *Replaces factory two piece rotor design.*

CB2082BL CB2099BR

1971-96 StopTech Sport Rotors - Slotted

StopTech Sport Rotors direct replacement rotors are 1-piece, slotted discs for your factory brake system. They offer improved cooling as well as a signature "short slot" design which wipes away the debris of used friction material that otherwise accumulates between the rotor and pad, keeping fresh pad material exposed to the rotor and reducing pad glazing. The edges sweeping the pad slightly increase the effective coefficient of friction, or "bite," amplifying brake system response. By providing an escape path for water, slotted rotors can also improve initial brake response under wet conditions.

CB2082CL CB2088CR

1971-96 StopTech Sport Rotors - Slotted Cryo

These StopTech Sport Rotors Cryo rotors are given a cryogenic treatment. Deep cryogenic treatment is a one-time process that permanently improves the performance and service life of metal components. The rotors are cooled to -300°F, then gradually heated to +300°F, before being slowly returned to room temperature. Although not apparent to the naked eye, the improvements to the rotor are significant. The cryogenic treatment process redistributes residual stress in the rotor giving it extra protection against thermal distortion, extending the wear life of the brake disc.

Note: Special order. Must be pre-paid, non-returnable.

Brake Tools

Speed And COMFORT For A Demanding Job!

Working in a kneeling position on concrete takes a toll on your body, especially your legs. knees, feet and back! This new tool approaches working on your knees in a whole new way. Instead of supporting yourself on your heels, the seat provides the support, while taking pressure off knees, ankles and toes. This leaves your feet free to control your movement. The caster wheels allow you to roll when you need to move instead of crawling, crouching and bouncing on your knees. The attached floating kneepads allow your knees to rest, eliminating the direct pressure that causes circulation problems pain and discomfort. Attached to the tool is a handy 7" x 15" removable tray which is great for holding tools, fasteners, small parts, etc. Weighing only 8 lbs., the tool is manufactured from 1/8" thick industrial strength aluminum. The comfortable webspring seat is covered with a soft leather-like cover and adjusts vertically 11.5" to 15.5" in height. It also adjusts 3" horizontally and tilts for your utmost comfort.

X99115 ..... 197.99 ea

Disc Brake Pad Spreader

This unique tool makes changing disc brake pads easy. The tool compresses the disc brake piston for easy installation of pads.

Y24400 ..... 9.99 ea

Y25750

Y24300

Speedy Brake Pad Spreader

The pistol grip ratcheting action and the fast acting plunger compress disc brake pistons in seconds. This makes brake pad replacement a snap.

Y24300 single piston pad spreader ..... 49.99 ea
Y25750 dual piston pad spreader ..... 57.99 ea

Brake Cylinder Hone

Hones drum brake wheel cylinders and disc brake calipers from 13/16" to 2-3/4" in diameter. Sleeve makes insertion in cylinder easy and protects stones when not in use. Use with variable speed drill.

X265 3/8" hex ..... 14.99 ea
X266 stone set for drum brakes (3) .... 4.99 set
X2004 stone set for disc brakes (3) ..... 7.99 set

Disc Brake Hone

Special abrasive pads polish the cylinder without cutting. Controlled pressure, three abrasives, and flexible driver give good stability and speed. Stones are 1" long. Range 1-1/2" to 3-1/8".

Y10400 hone ..... 17.99 ea
Y10490 set of replacement abrasives .... 6.99 set

Bendix Drum Brake Spring Tool

Removes and installs return springs on Bendix drum brakes. Place socket end over spring anchor and twist to remove. Hook notched end through spring and over the post, lift to install.

X280 ..... 8.99 ea

Brake Spring Pliers

Double ended tool for removing and installing brake springs.

X298 ..... 19.99 ea

Brake Adjustment Tool

Speed up star wheel adjusting on drum brakes by simply inserting the tool through the slot in drum backing plate. A different angle at each end adapts to many various models.

Y50700 ..... 5.99 ea

Large Tubing Bender

Large version of the brake line bender for use on fuel, transmission and power steering lines.

V025700 ..... 49.99 ea

Tubing Bender

Bend 3/16", 1/4", 5/16" and 3/8" copper or steel tubing. This tool makes tight bends without the tube collapsing. Roller adapters are included for each tubing size. Place tubing between the adapter and studs and squeeze the handles to bend.

X2189 ..... 27.99 ea

Brake Tools

Brake Bleeder Wrenches

These will ensure that you don't strip the bleeder nuts on your calipers or cylinders. Check size before ordering.

Y10950	1/4" x 3/8"	8.99 ea
Y10900	5/16" x 3/8"	8.99 ea

Brake Spring Removal Tools

Two to choose from. The standard tool will remove springs that are set over a post. The heavy duty will remove springs installed through a hole.

Y44800	heavy-duty (lg. brake springs)	18.99 ea
Y46750	standard tool	11.99 ea

Double Flaring Tool Set

If your brake lines or fuel lines need to be flared, this is the right tool for you. This set allows the user to make single or double SAE flares to exact dimensions. Great item to keep in your tool box!

Y31310	double flaring tool set	54.99 set

Universal Brake Caliper Bit Set

Nine sizes for brake caliper bolt applications. No more searching for the correct bit! This handy set will cover a multitude of applications.

Y29150		29.99 set

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y19200		11.99 set

Mityvac Brake Bleeder

The Mityvac Brake Bleeding Set may be used on virtually all hydraulic systems as well as most ABS systems. It's a rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use by the do-it-yourselfer, or step up to the heavy duty metal bleeder designed for the professional mechanic.

04000	"professional" model	99.99 set
06820	"do-it-yourselfer" model	44.99 set

Brake System Power Bleeder

This is a simple, one person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. This unit features a large reservoir that holds up to 2 quarts of brake fluid. Complete system includes reservoir with gauge, hoses, fittings, instructions as well as two adapters that will fit most all GM master cylinders from 1947-present.

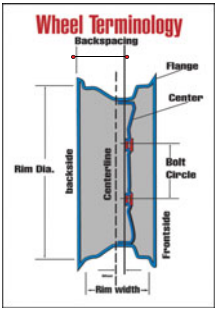
Rally Wheels

How to Measure Wheel Backspacing



Items Required to Properly Measure Backspacing:

- *Tape Measure*
- *Straight Edge*
- *Wheel (preferably with tire dismounted)*

Lay the wheel face down on the ground with the backside of the wheel facing up. Take a straight edge and lay it horizontally across the backside of the wheel. With the tape measure, measure the distance from where the wheel center makes contact with the drum or rotor to where the straight edge contacts the backside flange.

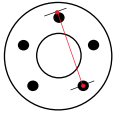
How to Measure Wheel Offset

To calculate the wheel offset, you will need the following measurements:

- *Wheel Centerline (outboard flange to inboard flange "2)*
- *Wheel Backspace*
- *Wheel Width*

Subtract wheel center line from wheel backspace. If the backspace number is smaller than the wheel centerline number, your offset is negative. If the backspace number is greater than the wheel centerline number, your offset is positive.

How to Measure Bolt Pattern



5 x 4.75" or 5 x 5"

On five lug wheels, measure from the back side of the top hole to the center of the second hole. In the examples given above, the first number represents the number of lugs while the second number represents the measurement in inches.

OER® Factory Wheel Coatings

OER factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Ships ground only. No air shipment.

1967 Rally Wheel Cap Locks

If your rally wheel caps have ever been stolen, then you know how expensive they are to replace! We now offer an inexpensive and intelligent way to prevent them from being stolen. Rally Wheel locks are made from the highest quality materials, to keep your caps where they belong... *on your Chevrolet*. They install easily to your wheel without any modification and cannot be detected. Will fit 1967 Rally wheel caps.

"Hex Style" Wheel Center Cap

Reproduction wheel center cap is manufactured using high quality chrome-plated injection molded ABS plastic with a stamped steel insert. Each cap is designed exactly like the original as a two-piece screw-on style cap that includes the ABS center cap, steel retainer and phillips head screw. Center cap is designed as an exact duplicate of the cap that was originally installed on American Racing wheels of the 1960's and 70's including the 200S Daisy wheel, T70, and T70R 5-spoke alloy wheels, but they may fit other aluminum wheels of the era that have a 2-1/2" center bore. Center caps are sold individually. 4 required per vehicle. Cap will accept a 1-3/4" emblem.

K676 Hex style cap ..... 39.99 ea

OER® Acid Free Wheel & Tire Cleaner

Spray on and rinse off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

1959-70 Factory Style Stamped Steel Wheel

Factory style replacement stamped steel wheel features gloss black powder coating with OE style dimples for "dog dish" hub cap, and dimples by the valve stem. Perfect for a classic sleeper look!

Important: Rally hub caps will not fit these wheels.
Recommend: For 14x6" and 14x7" use TK3000 trim rings and for 15x7" use TK3125 trim ring.

Rocket "Booster" Wheels

Get ready to blast off with the Rocket Racing Wheels "Booster"! This 1-piece wheel is purpose-built to deliver classic-inspired style and performance for the finest muscle cars, pro-touring and street machines at a reasonable price. Designed specifically for the offsets of hot rods and muscle cars, each Booster is precision-crafted from A356 aluminum and topped off with a vintage style aluminum o-ring center cap. Available with painted gray center and machined outer lip, in full chrome, in Hypershot finish or with hyper silver center section with machined outer lip. Manufactured with cutting edge alloys, the strictest quality standards and a gorgeous classic design, the Booster is sure to get you push you into the stratosphere at the next car show.

Rocket "Launcher" Wheels

Blast down the strip with the Rocket "Launcher"! This is a front-runner 10 spoke gasser wheel. The 1950s and 1960s, was the Golden Age of Drag Racing, the 10 & 12 spoke Gasser front runners could be found on everything from run-what-you-brung roadsters to full-blown and supercharged Altereds and Gassers. Back then, the 15 x 4 size fronts were only available as spindle mounts on straight axles. The Rocket "Launcher" preserves the original nostalgic Gasser design and perfects it with a much safer 5 lug bolt-on design. The Rocket Launcher is precision-crafted, designed and is tested to meet or exceed U.S.D.O.T. Requirements & SAE Standards. Available with gray painted center and machined lip, fully polished or "As Cast".

Rocket "Igniter" Wheels

At the dawn of the hot rod age, a handful of gear heads in hopped-up roadsters streaked across Southern California dry lakebeds in a quest for speed and glory. Back in the glory days of vintage racing, these style 5-window kidney bean wheels could be found from the strip/street to the salt flats. Those lakebeds eventually became test sites for top secret rocket planes that set world speed records. Now you can prepare your ride for launch with the style that started it all with the Rocket Igniter. This painted Salt Flats style wheel which was inspired by Vintage Drags and Bonneville Dry Lakes Land Speed Racing. Available fully polished, as cast and painted gray centers with machined lip.

Rocket "Injector" Wheels

As soon as Rocket released the Launcher Series "front runner" wheels, Rocket was overwhelmed by enthusiast demand for a hardcore traditional hot rod wheel that could be matched with the Launcher for the perfect staggered combo. Rocket's Scientists accepted the challenge and created this wheel to revive this classic design from drag racing's golden age. Reminiscent of the testosterone pumping Fuelie wheels of the 1960's absolutely complete the big and little combo look. Rocket Injector wheels are sculpted to perfection and hold true to the greatest era of Detroit automotive performance. Available fully polished or in its natural "As-Cast" finish.

OER® Secret Formula Guardian Wheel Wax

OER® Guardian Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Guard delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Guardian not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Guardian is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid raid, water spots, airborne fallout and road contaminants.

CRAGAR
Classic Wheels

Classic Wheels

Cragar S/S Super Sport Wheels

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Cragar 32 Series Keystone Klassics

If your car is a 1960-70s model, chances are it came with narrow wheels and tiny bias ply tires. By the mid 1960s, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

CRAGAR

Classic Wheels

Classic Wheels

Cragar 390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60s. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome plated steel rim with a chrome plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60s era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

OER®

K89614

K89615

OER® Acid Free Wheel & Tire Cleaner

Spray on and rinse off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

American Racing Wheels

Alloy Salt Flat Special

This 2-piece wheel will give your vehicle a vintage look reminiscent of the old Halibrand "kidney bean" wheels that first gained popularity with racers in the 1960's. Available in many different sizes. This wheel's center is painted in a magnesium gray with a polished outer rim. Includes center cap.

Note: Special order, must be prepaid.

Classic 200S - Daisy Wheel

One of the most popular wheels ever made by American Racing Equipment was the 200S, also known as the "Daisy Wheel". These wheels were originally cast at a foundry in Portland, Oregon until the late 1970's. The Daisy Wheel is a great alternative to the more common Torque Thrust wheel. Includes center cap.

Note: Special order, must be prepaid.

American Racing Custom Wheels

The American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, where a bit pricey for the average Joe. This soon led to an influx of modular copies and 1-piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1-piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

Firestone™ Wide Oval Tires

Firestone Wide "O" Oval tires are back! These tires are manufactured from the original molds to bring you the highest quality muscle car tire available. These tires were installed by General Motors on many popular muscle cars from 1967 through 1974. Each tire features a 2+2 construction (2-ply polyester and 2-ply fiberglass). Available in Raised White Lettering, featuring the words Firestone and Wide "O" Oval, Red Lines or pinstripe whitewall. After all, if you're going to invest hard-earned money in new tires, why not increase the value of your classic by installing original style reproduction Firestone tires? You can see the difference!

Note: Tires must be pre-paid. Special shipping rate applies. No further discounts apply.

- Exact Reproduction Firestone® Tires
- Manufactured from original molds!
- Three styles to choose from!
- Produced in the USA!
- Large Inventory for Fast Delivery!

Tire Size Quick Reference Chart

Classic Industries® now offers a convenient way to verify exactly what size tire you can mount onto your specific car! This chart allows you, the car owner, to cross-reference the original tire size (listed in the owners manual of your vehicle) with today's "modern" metric-sizing. No more guessing!

0-100 PSI Digital Tire Pressure Gauge

PROFORM

Proform's programmable, accurate Digital Tire Pressure Gauge measures from 0-to-100 PSI in increments of .01 PSI on a backlit LCD screen. When you remove the gauge from the valve stem in NORMAL mode, the gauge will slowly count back to zero. In PEAK mode, the reading will display after removal. Features unit conversion (PSI, bars and kg/cm2), automatic OFF, and dual air bleed buttons to allow controlled pressure release. Instructions included.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

Wall Mount Wheel/Tire Hanger

The wheel and tire hanger is a great way to organize your shop or garage by getting wheels and tires off the floor, freeing up more space. Each heavy duty powder coated hanger is appx. 21" long and mounts at a slight angle so wheels won't slide off. Can also be used to hang bicycles or anything you want to get off the floor.

Note: Each hanger will hold 2 wheels with tires mounted.

Tire & Wheel Combos

Bolt them on and go! What could be easier?

When you buy a tire and wheel package from us, you can rest assured that you are getting the best. These complete sets include four tires of your choice, Chevrolet Rally Wheels, tall "Derby" style Rally center caps, trim rings, valve stems...fully mounted and balanced! Your tire and wheel package will be mounted and balanced by a professional with the latest state of the art Hunter balancing equipment. For maximum ride quality, our Hunter SmartWeight balancing system analyzes the entire assembly for non-conformity issues and the result is improved ride quality, performance and wear. You'll also receive FREE nitrogen inflation that will give your combo longer life and better performance. Your combo will arrive to your front door ready to simply bolt on your vehicle so you can go for a drive. What could be easier?

Important: *Choose tire size and brand from below.*
Note: *Tire sets must be pre-paid. Shipped overweight. No further discounts apply.*

Radiators

1958-70 Full Size Passenger Car OEM Style Replacements

Made in USA

Direct replacement radiator for 1958-70 full size passenger cars. These radiators are manufactured from durable copper and brass materials and are designed to meet or exceed original cooling specifications. Features original style stamped tanks with 1/2" tube on 9/16" centers. Dimensions listed are for radiator core only. Made in USA.

No Exchange Required! No Core Charge!

** Important: Radiators for 1965-70 models with automatic transmissions are available with 12-1/2" cooler line fitting spacing only.*

Note: Fan shrouds, fan shroud brackets, radiator petcock, radiator cap and shroud mounting clips are available separately. Due to dimensional differences, fan shrouds are not interchangeable between air conditioned models and non air-conditioned models. All radiators are shipped double oversize.

Radiators

81008

1958-86 Be Cool Polished Aluminum Cooling System

Be Cool radiators are designed to provide the added cooling capacity required by high horsepower engines. These all-aluminum radiators can be up to 40% lighter than traditional copper/brass radiators and feature high quality aluminum welds to enhance the appearance of your car. These are complete module cooling systems that include the polished aluminum radiator, radiator cap, electric fans, vented coolant recovery tank, aluminum fan mounting brackets, electric fan wiring harness and all necessary installation hardware. Keep your engine cool with a Be Cool radiator!

Important: *19" and 22" radiator cooling systems feature a single fan.*
25" and 27" radiator cooling systems feature a dual fan.

Note: *No further discounts apply.*

SR002811

1960-96 Economy Replacement Aluminum Radiators

Don't be fooled by the price of these radiators. These quality light weight aluminum radiators stand up to the demands of everyday driving with excellent cooling properties. These replacement radiators vary in appearance from the originals, but fit in the factory mounting locations. Every radiator includes fittings for an automatic transmission cooler.

Important: *The core is slightly smaller that the original; this will not lessen cooling capabilities. Measure your core. Hose adaptors are included.*
Note: *Shipped oversize. *Does not feature fan shroud brackets.*

AFCO

AR80252N AR80253N1

1960-86 Polished Radiators

Constructed of 100% polished aluminum, these beautiful racing radiators are built using no epoxy for trouble free service. These beautifully polished radiators fit in the factory mounting location with pre-drilled brackets for easy installation. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. Automatics are available with a built in transmission cooler with the correct dimensions to use the factory transmission lines. 062

K0085 1958-72..... 4.99 ea

Royal Purple

Purple Ice Super Coolant

Purple Ice reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. It also lubricates the water pump seals. Purple Ice should always be used in conjunction with antifreeze in regions where freezing temperatures occur. Recommended for any water / glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

Flex-a-lite Syclone Electric Fan

The amazing Flex-a-lite Syclone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2,500CFM of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398		16" fan	144.99 ea

Flex-a-lite Black Magic S-Blade

If your car is still running the factory engine-driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine-driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine-driven fan can cost up to 17HP to operate! This universal-fit Flex-a-lite electric fan features computer-engineered blades that are extremely quiet and efficient, and moves 3,000 CFM of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160			304.99 ea

Electric Fans

FL210

Improves Horsepower, Extends Water Pump Life & Cools Faster!

Used as a primary fan, this unit frees up wasted horsepower and increases fuel mileage by eliminating drag caused by your standard engine mounted fan. Also increases water pump life by reducing strain on the water pump bearing assembly. When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating.

Fan Accessories / Hoses

Dakota Digital

Electric Fan Controller

This Dakota Digital electric fan controller is designed for the ultimate in flexibility, and to be a simple add-on in any application using an electric fan. This fully programmable controller includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Features include a fully programmable "fan on" and "fan off" temperatures to suit any application or personnel preference. Has the capability to leave the electric fan operating after the engine has been shut down for a user adjustable time. Has a full digital LED readout for displaying temperature readings and maintaining simple installation. It is recommended that the compact box (3" x 2.75" x 1") be mounted inside the cab of the vehicle or alternate dry environment. Operation Range: 150°F-250°F.

Important: *Must use a second 70 amp relay for dual fan or two speed fan operation (# DD2702).*

New! Made in USA

Thermostat Housing Spacer

216, 235, and 261 6 cylinder engines do not have a water outlet to tap into on the front of the engine when installing a manifold heat plate. This thermostat housing spacer solves that problem by adding a water outlet simply just by installing it. These spacers are made from 3/8" CNC- machined aluminum with a barbed hose fitting. Made in the USA.

Note: Gaskets and mounting hardware not included.

VP2002

Glass Thermostat Assembly

This 2" thermostat assembly allows you to see when and how far the thermostat opens on a unique gradient scale without ever removing the radiator cap. Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boiler systems. Fits all small and big block Chevrolet engines that use a non-bypass type thermostat, 1955 and up. Also fits all 216-292 straight 6 engines from 1937-90. Made in USA.

Important: Index pointer and gradient scale are only included in sets with thermostat.

Note: Bolts not included

No further discounts apply.

New!

Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440	restrictor plate set	7.99 ea

1958-96 Remanufactured Water Pumps

Keep your engine running cool with one of these top quality remanufactured water pumps. These water pumps are a great value as they are remanufactured to "better than original" factory specifications using superior, all brand new internal components. Each water pump will install, look and function just like new.

1958-96 New Water Pumps

These 100% new water pumps preform better and last longer than conventional new water pumps because they're "engineered with insight." Based on over 40 years of making the highest quality remanufactured parts, we've seen where and why new parts fail. and we built in solutions to avoid traditional design flaws. Developed with advanced 3D modeling and design software tools to deliver dimensional precision up to 0.005 mm. Unitized seals produced with superior materials that drastically enhance operating life. Bearing type and materials meet or exceed original specifications.

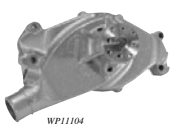
For over 20 years, Stewart Components has focused on the development and production of high performance water pumps, resulting in innovations like special high-strength castings, larger flow passages, more efficient impellers, and stronger bearings. Every pump is designed to exacting tolerances for reliable, long-term performance that meets the requirements for your application. Each Stewart pump is hand assembled and tested at 10,000 RPM, and comes with a one-year manufacturer guarantee. There are significant differences between a stock water pump and Stewart Components water pumps. Most OEM pumps are built to meet standard performance requirements at relatively low RPM, but Stewart high-flow pumps are designed specifically for high performance applications, delivering maximum flow with minimum power consumption. Stewart high-flow water pumps deliver up to 180 GPM (gallons per minute) of coolant flow at 8,000 RPM, yet consume just 2.26 horsepower at 4,000 RPM! To optimize the performance of your car's cooling system, you should look at the entire system to maximize both water and air flow.

WP12203



WP11104

Stewart Components Stage 1 Cast Iron High Flow Water Pumps

Stewart Components Stage 1 pumps use brand new, original equipment iron castings that are precision machined to be compatible with stock lines and brackets, and are internally engineered for performance and reliability. Applications suitable for V-belt or serpentine belt systems are available. These water pumps feature a 3/4" heavy duty bearing.
Note: No further discounts apply.

Stewart Components Stage 2 Aluminum High Flow Water Pumps

Stewart Components Stage 2 pumps use brand new, 356-T6 heat treated aluminum casting that are precision machined to be compatible with stock lines and brackets. These pumps feature several significant performance upgrades compared to their Stage 1 pumps for maximum performance. Applications suitable for V-belt or serpentine belt systems are available. These water pumps feature a 3/4" heavy duty bearing.
Important: These small block water pumps require the use of a high flow, modified thermostat due to the elimination of the factory bypass holes in the Stage 2 pumps. See listings below for available temperatures.
Note: No further discounts apply.

MR4333

Electric Water Pump Drive Set

The electric water pump drive set was designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1,500 rpm, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring and switch. You supply the fan of your choice.

SU110 SU109

SU102

1980-96 Coolant Temperature Sensor

The coolant temperature sensor sends a signal to the electronic control unit relative to the coolant temperature in a computerized engine-control system. The sensor is located under the hood, mounted to the front driver side of the intake manifold. A faulty coolant sensor can cause a variety of cold performance problems as well as emissions failures. Correct operation of the sensor can also be upset by installing the wrong temperature range thermostat or by incorrect filling of the coolant system or coolant loss.

TU46

1958-96 Temperature Sending Units

The temperature sending unit screws into the side of the cylinder block or on the intake manifold and allows the temperature gauge or warning light to function properly. If your temperature gauge is not functioning properly, replacing the sending unit is an inexpensive fix.

Maintain Constant Belt Tension and Increase Belt Life!

YE49214

YE49006 YE49001

1989-96 Belt Tensioners

Belt tensioners are engineered so that the belt remains at nearly a constant tension throughout the entire operating range. This ensures maximum accessory drive component life while still preventing belt slip. Tensioners have an operating range plus extra travel for loading. Belt tension will only be correct if the belt length is correct and the indicator is within operating range. Tensioners also help to dampen the belt and accessory vibrations. Once a "dealer only" item, these tensioners have now been brought to the aftermarket. These Goodyear Accu-DRIVE™ tensioners feature better than OE fit and performance.

Warning: *concerning water pump pulleys*

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Goodyear Belts

How Long Has it Been Since You Changed Your Belts?

Make sure your belts are in top condition before starting off on your next road trip. Belts are so inexpensive, yet they are often overlooked component of a restoration or daily driver.... that is until something goes wrong. Don't risk the life and longevity of your engine for the sake of a few bucks. Replace your weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare set just in case you should have a broken belt while on the road with your classic vehicle.

Air Conditioning Systems

New!

961056

Gen-IV SureFit System Features:

- ★ No cable electronic servo motor controls
- ★ Infinite air and temperature blending
- ★ Separate high capacity heat and cooling coils
- ★ Mounts behind dash
- ★ AC exits through under dash AC dash vents
- ★ High volume dehumidified defrost mode
- ★ 4-lever systems use their own controls, 3-lever systems include 3-knob underdash control pod

1959-60 Vintage Air Gen IV Sure Fit Systems

The Gen IV is Vintage Air's most powerful and intelligent climate control system. Gen IV systems use microprocessor controlled servomotor drives to eliminate cables or vacuum connections. This 1959-60 Chevy Full-Size system features Electronic Cable Converters which adapt to your factory 4-lever deluxe controls for electronic operation. The 2-Lever kits includes a 3-Knob underdash control pod for electronic operation. Additional features include variable blower speed and dash/floor/defrost blend. Systems are engineered specifically for each vehicle application and require minimal alteration to the vehicle for installation.

Important: *Specify engine size and short or long water pump. Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.*
Note: *Special order, must be pre-paid. Shipped oversize. No further discounts apply.* PBS1

Gen-IV SureFit System Features:

- ★ Electronic servo motor controls
- ★ No cables or capillary tube to route
- ★ Separate high capacity heat and cooling coils
- ★ Mounts behind dash
- ★ AC exits through original AC dash vents
- ★ Dehumidified defrost with dash/floor blend
- ★ Infinite blower speed

1961-64 Vintage Air GenIV SureFit R134a Systems

This system includes; air conditioning, heating and defrost combination designed specifically for your vehicle; Compressor, compressor bracket, hose set and hi/lo safety switch; Our exclusive cable replacement modules connect to your original AC control assembly and controls this unit. This unit is designed to mount to existing holes in your dash and firewall without drilling or fabrication. Evaporator comes complete with all mounting brackets, hardware, louvers, duct hose, condenser with mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware, wiring harness and installation instructions.

Important: *Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included. R12 systems available on request.*
Note: *Special shipping rate applies. Special order, must be pre-paid. Shipped oversize. No further discounts apply.* PBS1

Air Conditioning Brackets

1965-69 Compressor Mounting Braces

Reproduction AC compressor mounting braces for 1965-69 full size models to keep the air conditioning compressor supported in the correct position. Choose between front or rear mounting braces.

Rear Mounting Braces

C727201 1965-69 big block ..... 24.99 ea

Front Mounting Braces

C66821 1965-68 big block ..... 23.99 ea
C66821 1966-67 283, 327 ..... 23.99 ea

1969-70 Big Block Rear Bracket

Reproduction of the rear AC compressor bracket for 1969-70 big block models. This bracket mounts the rear of the compressor to the intake for rear adjustment of the compressor.

14544 1969-70 big block ..... 44.99 ea

1969-70 BB Rear Compressor Plate Bracket

Reproduction of the rear AC compressor plate bracket for 1969-70 big block models. This triangular shaped bracket attaches the compressor to the adjuster bracket.

14548 1969-70 big block ..... 19.99 ea

1969-74 Compressor Front Bracket

Replacement bracket for 1969-74 small block full size Chevrolet. Not for big block models. This is the front bracket support.

3932433 1969-74 small block ..... 19.99 ea

1970-79 Compressor Rear Bracket Support

Correct support bracket which bolts directly to the exhaust manifold. The rear compressor bracket will bolt to this support bracket.

3932435 1970-79 small block ..... 29.99 ea

1969-70 BB Lower Rear Bracket Support

This is a reproduction of the lower rear air conditioning compressor bracket support that mounts to the head on 1969-70 big block models. This hard to find item is cast iron and will replace the original.

14256 1969-70 big block ..... 44.99 ea

1970 Compressor Front Mounting Bracket

Replacement bracket for 1970 full size cars with air conditioning and big block engines. Not for small block models. This is the front bracket.

HC291 1970 big block ..... 44.99 ea

1989-93 Compressor Rear Mounting Brace

Correct GM replacement compressor mounting brace will keep the compressor stationary and eliminate problems that may occur with broken or missing brackets.

G5657 1989-93 5.0, 5.7 (lower) ..... 55.99 ea

Dougs Headers AC Relocation Bracket

This steel air conditioning bracket relocates the air conditioning compressor to the left of the engine. Designed to allow clearance for headers in specific pre-1979 small block Chevy applications.

7608 1955-79 ..... 24.99 ea

1977-81 AC Compressor Brackets

Replacement compressor mounting bracket will keep the compressor stationary and eliminate problems that may occur with broken or missing brackets.

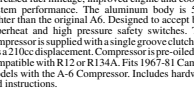
Air Conditioning

1967-81 Aluminum AC Compressor

This is a 10 cylinder "bolt-in" direct replacement for the GM Fridgidare/Harrison A6 compressor. This new design is specifically engineered to fit the A6 mounting brackets and AC hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. The aluminum body is 52% lighter than the original A6. Designed to accept both superheat and high pressure safety switches. This compressor is supplied with a single groove clutch and has a 210cc displacement. Compressor is pre-oiled and compatible with R12 or R134A. Fits 1967-81 Camaro models with the A-6 Compressor. Includes hardware and instructions.

AP2201 1967-81 with single pulley .. 389.99 ea



1971-93 Air Conditioning Compressor

Keeping your Impala cool in the summer is easy when the AC equipment is working properly. If your compressor is causing problems, Classic Industries recommends replacement with Genuine GM originals. We offer these OE style compressors for the applications listed below. These AC Delco remanufactured compressors feature mounting holes with metric threads. 57098 uses 5" pulley.

Hi Performance Crate Engines From GM Performance Parts

GM PERFORMANCE PARTS

Different Levels of Engine Assemblies

Classic Industries offers three distinct levels of GM Crate Engines, covering the gamut from long blocks to complete turn-key engines. This variety gives classic car builders the opportunity to customize an engine as much or as little as they need to, to meet their expectations. For additional engine choices and more information about GM Performance engines, visit us online at http://www.classicindustries.com!

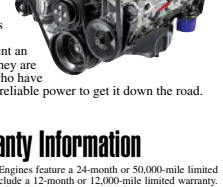
Base/Base+ Engines

The base engine assembly typically includes, block, crank, pistons, cam, heads and valve covers, but allows the builder to pick the carburetor/injection system and intake manifold they desire. Base+ engines include an intake manifold, and on select models, a distributor also.

Deluxe Engines

The deluxe crate engines are essentially ready to fire up, as they ship with the distributor installed, harmonic balancer bolted on and the carburetor in the crate. All you need to do is put the parts together and go!

Turn-Key Engines



We told our engineers to have some fun and assemble engines the way they think it should be done … we then took their combinations, built them up and put them in crate that ships right to your dealer. The turn-key engines represent an outstanding value, and they are perfect for enthusiasts who have built a chassis and need reliable power to get it down the road.

350/290HP Base Engine

The best value crate engine in the GM Performance Parts lineup! The 350/290 is an answer to those car crafters who demand maximum return on their money. However, just because it's affordable, don't think that it's a stone. The 350/290 delivers 290 hp @ 5100 rpm and a solid 326 lb.-ft. of torque at 3750 rpm.

Specifications:
Engine Type: Chevrolet small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .450" int/.460" exh
Duration: 222° int/222° exh @ .050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 8.5:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 87 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5100
Balanced: Internal

Installation Notes
• Use internally balanced flexplate P/N G9289 for automatic transmission or flywheel P/N G7319 for manual transmission (not included).
• Power ratings based on Holley 670-cfm carburetor (not included).
• Does not accept GM Performance Parts roller lifter assemblies.
• Recommended use in vehicles 6000lb GVW or less.
Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

G13013 ..... 2274.99 ea

ZZ383/425HP Base Engine

Big block power from a small block engine! For the ultimate GM Performance Parts small block crate engine, choose the ZZ383, a combination of Fast Burn aluminum performance heads and a 383 stroker small block that adds up to 425 horsepower and 449 lb.-ft. of torque. The ZZ383 has a specially machined engine block and 3.80"-stroke crankshaft, which produce 383 cubic inches of pure performance.

Specifications:
Engine Type: Chevy small block V8
Displacement: 383 cubic inch
Bore x Stroke: 4.00" x 3.80"
Camshaft Specs:
Lift: .509" int/.528" exh
Duration: 222° int/230° exh @ .050"
Valve Size: 2.00" intake/1.55" exhaust
Compression Ratio: 9.6:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 6000
Balanced: External

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

Installation Notes
• Comes with 12.75" automatic transmission flexplate. Requires 1986-99 350 style externally balanced flywheel for manual transmission.

G13022 ..... 6119.99 ea

350 HO/330HP Engine

The 350 HO is based on a tough, Chevy four-bolt block. The high-lift camshaft is based on the 1965-67 Corvette *G13014* 327 engines, but it has even more lift and duration. The Turn-Key engine is complete from top to bottom. A complete, running engine right out of the crate. Ships with an accessory drive package, fuel pump, starter, and spark plug wires. One level down is the 350 HO Deluxe which comes nearly ready to fire up. Finally, the base model gives you all of the same internal components as the Deluxe and Turn-Key including chrome valve covers and timing cover.

Specifications:
Engine Type: Chevy small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .435" intake/.460" exhaust
Duration: 212° int / 222° exh @.050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 9.1:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended PRM: 5500
Balanced: External

Installation Notes
• Counterweighted flexplate for auto transmission.
• Change to ext. balanced flywheel for manual trans.
• Right-side oil dipstick.
Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

G13014 Turn-Key ..... $409.99 ea
G13509 Deluxe ..... 4349.99 ea
G13015 Base Engine.... 3259.99 ea

Ram Jet 350 Deluxe Engine

Evoking the nostalgic look of the early fuel injection systems, but with a state-of-the-art, electronically controlled port fuel injection system. The engine comes with the necessary wiring harness, an MEFI engine controller and detailed installation instructions.

Specifications
Engine Type: Chevy small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .431" intake/.451" exhaust
Duration: 196° int/206° exh @ .050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 9.4:1
Rocker Arm Ratio: 1.6:1
Recommended Fuel: 92 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5500
Balanced: External

Installation Notes
• Comes with ext balanced, manual trans flywheel.
• Change to ext balanced flexplate for auto trans.

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

Warranty Information

GM Performance Parts Crate Engines feature a 24-month or 50,000-mile limited warranty. GM Components include a 12-month or 12,000-mile limited warranty. GM Performance Parts Racing Crate Engines are excluded from limited warranty. GM Parts Engines offer a 36-month or 100,000-mile limited warranty when the engine is installed in a recommended application.

Important: Designed for pre-1979 street vehicles or any off-road vehicle. Not intended for marine applications. Some applications may affect engine warranty. Some applications may not be emission legal; check state and local ordinances. GM Performance Parts does not utilize any used or remanufactured parts in this crate engine.

Hi Performance Crate Engines From GM Performance Parts

GM PERFORMANCE PARTS

24-month/50,000-mile limited warranty.

ZZ4 350/355HP Engine

An aluminum-headed 350 that makes 355 horsepower and 405 lb.-ft. of torque! The Base ZZ4 350 engine is delivered with an aluminum dual-plane intake manifold, HEI distributor, cast iron water pump, dampener, and flexplate. With its high level of performance and durability, it could very well be the perfect crate engine.

Specifications:
Engine Type: Chevrolet small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .474" int/.510" exh
Duration: 208° int/221° exh @.050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 10:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5800
Balanced: External

Installation Notes
• Comes with 12.75" ext. balanced autos flexplate.
• Change to ext. balanced flywheel for manual trans.
• Requires fuel line from fuel pump to carburetor.
• Fuel pump pressure is pre-set, no regulator required.
• Some assembly and engine tuning may be required.

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

G13293 Base engine .... 6242.99 ea

454 HO Base+ Engine

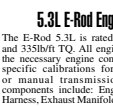
Musclecar power at a low-buck price! We started with a brand new Gen VI four-bolt big block, and cast iron cylinder heads deliver a pump-gas friendly 8.75:1 compression ratio. Horsepower comes in at 425 with 500 lb.-ft. of torque. The 454 HO is delivered to you complete with water pump, balancer, intake manifold, and 14" automatic transmission flexplate.

Specifications:
Engine Type: Chevy big block V8
Displacement: 454 cubic inch
Bore x Stroke: 4.25" x 4.00"
Camshaft Specs:
Lift: .510" intake/.540" exhaust
Duration: 211° int/230° exh @ .050"
Valve Size: 2.19" intake/1.88" exhaust
Compression Ratio: 8.75:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 92 octane
Timing: Base 4° BTDC, 26° Total
Maximum Recommended RPM: 5500
Balanced: External

Installation Notes
• Clutch linkage boss is cast into block, but must be drilled and tapped.
• For cast iron exhaust manifolds, lower head bolts may need to be replaced with bolts with shorter heads for clearance.
• Comes with a 14" automatic transmission flexplate.

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

G7167 ..... 6359.99 ea



G13203

5.3L E-Rod Engine

The E-Rod 5.3L is rated at 315 HP and 335lb/ft TQ. All engines include the necessary engine controller with specific calibrations for automatic or manual transmissions. Other components include: Engine Wiring Harness, Exhaust Manifolds, Catalytic Converters, O2 sensors/sensor bosses, fuel tank evaporative emissions canister, mass air flow sensor and sensor boss, Accelerator pedal (for use with GMPP electronic throttle), air filter and instruction manual. In addition each engine requires a front accessory drive/transmission control system suited to your build. For more detailed information about E-Rod engines, visit our website.

Specifications for G13201/G13202
Engine Type: LS-series Gen IV small block V8
Displacement: 327 (5.3L)
Bore x Stroke: 3.78 x 3.62 (96x 92 mm)
Camshaft Specs:
Lift: .467" intake/.479" exhaust
Duration: 196° int/201° exh @ .050"
Valve Size: 1.890" intake/1.550" exhaust
Compression Ratio: 9.5:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 87 octane
Maximum Recommended RPM: 6000
Balanced: Internal

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

G13202 manual ..... 6959.99 ea
G13201 automatic ..... 6959.99 ea

6.2L LS3 E-Rod Engine

Based on the Corvette's 430 HP 6.2L all-aluminum LS3 engine. All engines include the necessary engine controller with specific calibrations for MT or AT configurations. Other components supplied include: Engine wiring harness, Exhaust manifolds, catalytic converters, O2 sensors/sensor bosses, Accelerator pedal (for LS3 electronic throttle), air filter and instruction manual. In addition each engine requires a front accessory drive/transmission control system suited to your build. For more detailed information about E-Rod engines, visit our website.

Specifications for G13203/G13204
Engine Type: LS-Series Gen IV Small block V8
Displacement: 376 cubic inch (6.2L)
Bore x Stroke: 4.60" x 3.620"
Camshaft Specs:
Lift: .551" intake/.522" exhaust
Duration: 204° int/211° exh @ .050"
Valve Size: 2.165" intake/1.590" exhaust
Compression Ratio: 10.7:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 92 octane
Maximum Recommended RPM: 6600
Balanced: Internal

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

GM PERFORMANCE PARTS

New!

G13294

G13293

ZZ5 350/400HP Engine

Chevrolet Performance's all-new ZZ5 350 uses new-casting Fast Burn cylinder heads equipped with LS-style beehive valve springs for greater high-rpm performance. It's rated at 400 horsepower – more than any Small-Block engine ever offered in a production Chevrolet muscle car or Corvette! The new, lightweight aluminum cylinder head casting is based on the proven Fast Burn design, with large intake runners and 2.00/1.55-inch valves. New beehive-style valve springs enable greater high-rpm performance and durability. They allow the ZZ5 to rev higher to make the most of every cubic inch of air drawn through it. The ZZ5 is built with a brand-new block with four-bolt mains, along with a forged steel crankshaft, an aggressive hydraulic roller camshaft and durable, high-silicon pistons. Unique valve covers distinguish this new crate engine at a glance, too along with Chevy "bow tie" insignias in the ends of the cylinder heads that let everyone know you've got the latest Chevrolet Performance hardware under the hood. The Turn Key engine package includes the distributor, carburetor and balancer installed. The starter, fuel pump air conditioning pump, alternator, front-end accessory drive kit and more are also included.

Specifications:
Engine Type: Chevrolet small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Block: Cast iron with 4-bolt main caps
Camshaft Specs:
Lift: .474" int/.510" exh
Duration: 208° int/221° exh @ .050"
Valve Size: 2.00" intake/1.55" exhaust
Compression Ratio: 9.72:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5800
Balanced: External

Installation Notes
• Comes with 12.75" ext. balanced 153-tooth automatic transmission flexplate.
• Change to ext. balanced flywheel for manual trans.
• Requires fuel line from fuel pump to carburetor.
• Fuel pump pressure is pre-set, no regulator required.
• Some assembly and engine tuning may be required.

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

24-month/50,000-mile limited warranty.

G3434

G3433

ZZ502/502HP Engine

One horse per cube has long been a mark of great engines. Today, the standard is met in the ZZ502, an engine that is not just bigger, but better than the competition. The base engine is a convenient partial engine assembly. You get the big block V8, four-bolt main muscle and just enough of the "finish work" to take the headache out of choosing parts—without missing out on the fun stuff! For those of you who want your ZZ502/502 already assembled, the ZZ502/502 Deluxe crate engine includes the entire engine, from carb to oil pan, and comes assembled from the factory. It includes a Holley 870-cfm four barrel carburetor, dual-plane intake manifold CNC-port matched to the oval-port heads, starter, distributor, plug wires, and water pump. The ZZ502/502 Deluxe crate engine offers you a GM Performance Parts tested and validated 502 horsepower/567 lb.-ft of torque. The ZZ502/502 comes with our aluminum oval-port, big-valve street heads that flow enough air to satisfy the demands of the hungry 4.47" bores and 4.00" stroke crankshaft.

Specifications:
Engine Type: Chevy big block V8
Displacement: 502 cubic inch
Bore x Stroke: 4.47" x 4.00"
Camshaft Specs:
Lift: .527" intake/.544" exhaust
Duration: 224° int/234° exht @ .050"
Valve Size: 2.25" intake/1.88" exhaust
Compression Ratio: 9.6:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 92 octane
Ign Timing: Base 8° BTDC, 30° Total
Maximum Recommended RPM: 5800
Balanced: External

Installation Notes
• Clutch linkage boss is cast into block, but must be drilled and tapped.
• When using cast iron exhaust manifolds, lower head bolts may need to be replaced with bolts with shorter heads for clearance.
• Requires electric fuel pump because the Gen VI block has no mechanical pump boss.
• Comes with a 14" auto transmission flexplate.

Note: Special order, prepaid only. Shipped truck freight. No further discounts apply.

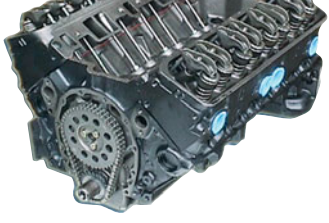
Remanufactured Engines

All of ATK's manufacturing facilities have achieved both QS-9000 and ISO 9001 certification levels, one of the few engine remanufacturers in the world to have done so. In addition, ATK's parent company VEGE Motoren has also achieved ISO 9001 certification. This is particularly significant as it represents both an engineering and a manufacturing certification.

ATK by VEGE
ENGINES • HEADS • TRANSMISSIONS



There are over 150 processes involved in remanufacturing an ATK engine. Featured procedures include:

- Engine blocks magnafluxed, bored, precision-honed and mains line-honed
- Camshaft bearings line-bored for accurate center-to-center clearance
- Engine blocks and cylinder heads precision surfaced
- Cylinder heads magnafluxed and machined for three-angle valve seats
- Crankshafts stress-relieved, precision ground and micro-polished
- Camshafts precision ground or replaced with new
- Each engine tested (most hot-run tested) for compression, oil pressure, oil leaks, engine noise and general operating condition before shipment

ATK Remanufactured Engine Warranty Information:

At Classic Industries®, we know that supplying a great product is only part of the job. The staff at ATK is made up of dedicated professionals whose only job is to support you, the Classic Industries® customer. From the moment you call on ATK, whether to request technical assistance, or inquire about their warranty, they are dedicated to providing solutions and support. That's the ATK promise. Classic Industries® and ATK have always been leaders in innovation, offering products, warranties and programs that have redefined the industry. That leadership is evident in our products and our support. ATK warrants to the original purchaser that each engine sold by Classic Industries® shall be free of defects in material and workmanship under normal use and with periodical maintenance as set forth by the original manufacturer subject to the following terms and conditions.

3 YEAR Unlimited Mileage WARRANTY

Definitions:
Engine: As used in this warranty refers to the remanufactured assembly (basic block, cylinder head and internal components) as supplied by ATK.
Term: Standard Warranty: This warranty shall exist for 3-years and Unlimited miles. Warranty term begins on date of installation.
The Standard Warranty applies to all ATK products with the following exceptions:
Diesel Engines carry a warranty term of 12 months or 12,000 miles whichever occurs first.
Trucks Over 11,000 GVW (Gross Vehicle Weight) carry a warranty term of 12 months or 12,000 miles whichever occurs first.
Motorhomes: Class A or Motorhomes over 11,000 GVW are NOT COVERED by the ATK warranty. ATK expressly does not offer engines for these applications. Please be aware that only engines designed expressly for large motorhomes should ever be used in such an application. ATK does not catalog nor prepare engines for these applications and therefore takes no responsibility when an ATK engine is used in this manner.
Product Replaced Under Warranty:
Product replaced under warranty carries the remainder of the original product's warranty term.
Standards:
Subject to the limitations listed herein. ATK, at its option, shall repair or replace a product within the warranty term after determination by ATK that the product is defective. All products are to be returned to ATK for inspection. Products not returned to ATK will not be warranted. All repairs and/or replacements covered by this warranty must be authorized by ATK. Unauthorized repairs will not be paid.
Limitations:
This warranty applies to products originally supplied by ATK. This warranty does not apply to or include any of the following:
A. Damage as a result of OVERHEATING, LACK OF LUBRICATION or CONTAMINATION.
B. Damage resulting from PRE-IGNITION or DETONATION. This includes but is not limited to: meshed or broken pistons, broken piston rings, damaged cylinder heads, leaking head gaskets, etc. For more information regarding pre-ignition and detonation please contact our Customer Service Department.
C. Repair or replacement required as a result of any accident or misuse.
D. Repair or replacement of any accessory or service item, including specifically but not limited to: all components of the cooling, fuel, electrical and ignition systems in addition to all belts, hoses, and filters.
E. Any product used for competition racing or related purposes.
F. Any product to which a device or accessory not conforming to original manufacturer's specifications has been installed.
G. Any product on which periodic maintenance services required by the original manufacturer have not been performed.
Limited Liability:
ATK's liability under this warranty is limited solely to the repair or replacement of defective product. ATK shall not be liable for any incidental, special, consequential or exemplary damages, including but not limited to rental cars, towing fees or for any service not expressly provided for herein, relating to or arising from the ATK product.
Limited Warranty:
This warranty is given in lieu of all other warranties, expressed or implied, including any warranty of merchantability, or fitness for a particular purpose, on the part of ATK or the dealer installing the engine. No dealer nor any agent or employee thereof, is authorized to extend or modify this warranty.
Labor Payments:
ATK authorized repairs will be compensated at a rate not to exceed 100% of the applicable flat rate schedule as published by Chilton, Mitchell or Motors Repair Manuals. Hourly rates for all authorized labor claims will be paid in accordance with the original installation rate, not to exceed $42.00 per flat rate hour. Do-it-yourself repairs, and repairs performed by unlicensed repair facilities, will be paid at a rate not to exceed $15.00 per flat rate hour.
Additional Owner/User Obligations:
Initial Startup: Valves must be readjusted to manufacturer's specifications. Due to various component designs, cylinder head re-torque may or may not be required in your particular application. Refer to factory shop manual for the proper procedure for your engine type. If for any reason you are unsure what action to take please contact our Customer Service Department via our Toll Free telephone number.
First Service: Between 600-1000 Miles After Installation: Oil and oil filter must be changed, valves readjusted and cylinder heads re-torqued (refer to initial startup instructions). Failure to perform these basic operations may result in a voided warranty.

Introducing ATK's No Fault Gold Warranty Program.

An added protection program that covers car rental, towing, an increased labor rate and fluids on all approved claims.

The No Fault Gold Warranty Program Includes:

Rental Car up to $150!
Rental car expense reimbursed for 5 days/ $30 per day up to $150
Towing Up to $100!
Towing reimbursed on approved claims up to $100 per occurrence.
Increased Labor Rate Up to $95 per hour
Increase labor rates to cover approved repairs up to $95 per hour
Fluids Up to $25!
Cost of fluids is reimbursed on approved claims up to $25

ATK now offers the No Fault Gold Warranty Program for you to purchase in addition to the Industry Leading standard ATK warranty already included with our remanufactured engines. This added protection policy covers expenses not included in ATK's standard warranty. Coverage is based on hourly rates established by Chilton, Motor and Mitchell manuals.

ATK Gold Seal Service Agreement is an additional $200.00

	Rental	Towing	Max. Hourly Labor Rate
NO Fault Gold Warranty Program	YES	YES	Up to $95
Standard ATK Warranty	NO	NO	Up to $50

How does the core charge work?

Upon ordering, you will be charged the retail price of the engine plus the core charge. When your engine arrives, you will save the crating that it is shipped in, so that you can use it to package your core. Once the core is ready to ship, you will call ATK for core pickup. ATK will then inspect the core to make sure it meets the following criteria. Providing the core meets all of the criteria, you will be refunded the core price.

Core Policy:
- All fluids must be drained prior to core return.
- Cores must be complete and in rebuildable condition.
- Core returned must be identical to the engine purchased in size and application.
- ATK reserves the right to refuse any core that has been modified or altered.

Note: Core prices can fluctuate according to supply, demand and availability. If you plan to return a core for credit, please confirm the core price with your salesperson prior to ordering. No further discounts apply.

Classic Industries® & ATK Team Up To Bring You The Best Remanufactured Engines In The Industry!

ATK is dedicated to continual improvement in the processes and procedures for every engine that they manufacture. This insures our ability to offer the very latest products and the highest quality remanufactured units in the industry. Their manufacturing techniques have been perfected to the point where they now offer us increased capacity, thus resulting in lower pricing on many applications. With an industry leading warranty, ATK is now our top engine supplier. We are dedicated to distributing the highest quality engines in the market. We're also dedicated to setting the industry standard in customer service. We believe that once you've experienced the quality of ATK products, you'll agree there is no better engine source than ATK from Classic Industries®. Call today for complete details.

Important: All engines come without valve covers, timing cover and oil pan unless otherwise noted. Shipped anywhere in the Continental United States for $50.00. Note: No further discounts apply.

Hi Performance Crate Engines from ATK

ATK has been building engines for over 75 years and has assembled a line of dyno-proven crate engine packages to power up your car. Classic Industries' dedication to bringing the highest quality products on the market, combined with ATK's industry-leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, ready-to-run package for those who want to bolt their engine into their GM muscle car and hit the road. For the ultimate in Chevy crate engines, there's no better source than ATK from Classic Industries®.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications
Note: Special order, prepaid only. Not eligible for No Fault Gold Warranty Program. No further discounts apply.

ATK by VEGE
ENGINES • HEADS • TRANSMISSIONS

Features a 24-Month/Unlimited-Mile Warranty!

Three Stages of Performance!

From Tried-and-True . . .

Stage 1:

The ATK Stage 1 package is the basic building block of performance. Each Stage 1 motor comes with oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

Stage 2:

The ATK Stage 2 package builds on the basics of the Stage 1, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

. . . To Tire-Melting!

Stage 3:

The ATK Stage 3 package is high performance in a crate, with oil pan and pump, spark plugs and wires, timing and valve covers, distributor, performance intake manifold, carburetor, fuel pump, water pump, flaxplate, and balancer all pre-installed.

Stage 1 Performance Engines

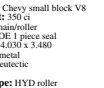
350/292HP TBI

The 350 ci TBI engine produces 292 hp and 373 lbs of torque in a late style hydraulic roller block. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 292
Torque: 373
Engine Type: Chevy small block V8
Displacement: 350 ci
Block: 4 bolt main
Crankshaft: OE 1 piece seal
Bore/Stroke: up to 4.030 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ea
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP31 350/292HP..... 2599.99 ea

350/351HP Vortec



The 350ci Vortec engine produces 351 hp and 400 lbs of torque when used with a performance carburetor and manifold combination. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.
Important: Not intended for EFI.

Specifications
HP: 351
Torque: 400
Engine Type: Chevy small block V8
Displacement: 350 ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .502 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: OE cast iron Vortec
Chamber Size: 64 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP32 350/351HP..... 2619.99 ea

383/320HP TBI Stroker

This 383 ci TBI stroker engine produces 320 hp and 395 lbs of torque with an upgraded hydraulic roller cam. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 320
Torque: 395
Engine Type: Chevy small block V8
Displacement: 383 ci
Block: 4 bolt main
Crankshaft: nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ex
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 30 degrees total advance
Max RPM: 5800

HP05 383/320HP..... 3609.99 ea

350/375HP w/Alum. Heads

Produces 375 hp and 415 lbs of torque with the help of Pro-Filer aluminum heads and a hydraulic roller cam lifter combo. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 375
Torque: 415
Engine Type: Chevy small block V8
Displacement: 350 ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.040 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Pro-Filer aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 steel
Recommended Fuel: 91 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP89 350/375HP..... 3359.99 ea

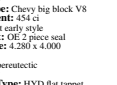
383/379HP Vortec Stroker

This 383 ci Vortec stroker performance engine produces 379 hp and 461 lbs of torque when used with a performance carburetor and manifold combination. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 379
Torque: 461
Engine Type: Chevy small block V8
Displacement: 383 ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: Scat 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .500 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: OE cast iron Vortec
Chamber Size: 64 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP33 383/379HP..... 3919.99 ea

454/415HP Big Block



The 454 ci performance engine produces 415 hp and 497 lbs of torque for your hot rod. Includes oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 415
Torque: 497
Engine Type: Chevy big block V8
Displacement: 454 ci
Block: 2 bolt early style
Crankshaft: OE 2 piece seal
Bore/Stroke: 4.280 x 4.000
Rods: OE
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD flat tappet
Camshaft Lift: .539 in x .539 ex
Duration @ .50: 230 in x 230 ex
Cylinder Heads: OE cast
Chamber Size: 118 cc
Valve Size: 2.079 in x 1.720 ex
Intake Runner Volume: OE
Compression Ratio: 9.4:1
Rocker Arms: 1.7:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

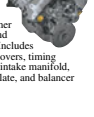
Hi Performance Crate Engines from ATK

Stage 2 Performance Engines

350/408HP w/Alum. Heads

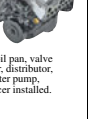


This 350 ci engine produces 408 hp and 414 lbs of torque on pump gas with the help of an Edelbrock Performer intake manifold and aluminum heads. Includes an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 408
Torque: 414
Engine Type: Chevy small block V8
Displacement: 350 ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: Scat 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: Edelbrock aluminum
Chamber Size: 70 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 185 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 roller tip
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP34M 350/408HP..... 4949.99 ea

383/429HP Alum. Head Stroker

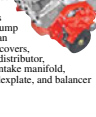


This 383 ci stroker engine produces 429 hp and 459 lbs of torque on pump gas with the help of an Edelbrock Performer manifold and aluminum heads. Includes an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 429
Torque: 459
Engine Type: Chevy small block V8
Displacement: 383 ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: Scat 4340 I-beam
Pistons: KB forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: Edelbrock RPM aluminum
Chamber Size: 70 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 185 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 roller tip
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP36M 383/429HP..... 4949.99 ea

454/500HP Big Block

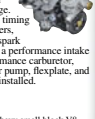


This 454 ci engine with performance aluminum heads produces 500 hp and 545 lbs of torque on pump gas. Includes an oil pan, valve covers, timing cover, distributor, performance intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 500
Torque: 545
Engine Type: Chevy big block V8
Displacement: 454 ci
Block: 2 bolt early style
Crankshaft: OE
Bore/Stroke: 4.290 x 4.000
Rods: OE
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD flat tappet
Camshaft Lift: .540 in x .540 ex
Duration @ .50: 228 in x 238 ex
Cylinder Heads: oval port aluminum
Chamber Size: 110 cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 290 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.7:1 full roller
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP45M 454/500HP..... 5899.99 ea

383/480HP Stroker



This 383 ci street/strip stroker engine with 480+ hp and 470+ lbs of torque in a ready-to-run pump gas package. Includes oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all pre-installed.

Specifications
HP: 480+
Torque: 470+
Engine Type: Chevy small block V8
Displacement: 383 ci
Block: 4 bolt main/roller
Crankshaft: Scat 4340 forged
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Cylinder Heads: Pro-Filer aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.6:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP55C 383/480HP..... 7439.99 ea

Stage 3 Performance Engines

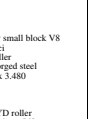
540/600HP Dart Big Block

This ATK monster Stage Three 540 ci Dart Big "M" engine produces over 600 hp and 600 lbs of torque in a dyno-tested and tuned package. All Stage Three motors are dyno proven, built from top quality parts and come with oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all-pre installed.

Specifications
HP: 600+
Torque: 600+
Engine Type: Dart Big "M" Block V8
Displacement: 540 ci
Block: Dart 9.8" deck height
Crankshaft: Scat 4340 forged steel
Bore/Stroke: 4.500 x 4.250
Rods: Scat H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Dart Pro Series 1
Chamber Size: 119 cc
Valve Size: 2.25 in x 1.88 ex
Intake Runner Volume: 325 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.7:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 6800

HP42C 540/600HP... 12,299.99 ea

Supercharged 350/500HP

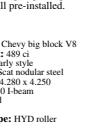


This 350ci supercharged engine produces 500+ hp and 494 lbs of torque in a ready-to-run package. Includes oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flex plate, and balancer all pre-installed.

Specifications
HP: 500+
Torque: 494
Engine Type: Chevy small block V8
Displacement: 350 ci
Block: 4 bolt main/roller
Crankshaft: 4340 forged steel
Bore/Stroke: 4.030 x 3.480
Rods: H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .535 in x .560 ex
Duration @ .50: 231 in x 239 ex
Cylinder Heads: aluminum
Chamber Size: 70 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 170 cc
Compression Ratio: 8.5:1
Rocker Arms: 1.6:1 full roller
Induction: Weiand 177 supercharger/carb
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP38C 350/500HP..... 9699.99 ea

489/565HP Stroker



This 489 ci stroker big block offers 565 hp and 595 lbs of torque in ready-to-run package. Includes oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all pre-installed.

Specifications
HP: 565
Torque: 595
Engine Type: Chevy big block V8
Displacement: 489 ci
Block: 4 bolt early style
Crankshaft: Scat nodular steel
Bore/Stroke: 4.280 x 4.250
Rods: Scat 4340 I-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller

1958-96 Replacement Motor Mounts

If your vehicle has 50-60,000 miles or more or the motor mounts have been soaked with oil over a period of time, chances are they have grown weak and are need of replacement. This can be a dangerous condition as the engine can shift, causing the accelerator to stick in a full throttle position. Our reproduction motor mounts are an inexpensive cure for this potentially dangerous condition.

4592

LS1/LS6/Vortec Engine Mount Plates

These engine mount plates are used when installing a LS1, LS6 or Vortec engine into a vehicle that was originally equipped with a small block engine. Available in a 4 piece set that includes the plates and motor mount pads or the plates can be purchased separately. Includes grade 8 hardware.

4592	2 plates with 2 pads		79.99 set
4572	2 plates only		59.99 set

Performance Products

1994-96 JET Performance Modules

JET Performance modules offer the most horsepower available for your car when using a donor engine and computer system from a crate engine! Add up to 23 horsepower instantly with simple, plug-in installation! Only JET Performance programming provides exclusive, full range dynamic spectrum tuning of the air/fuel ratio, ignition advance, transmission and various other parameters. Each program is track and dyno tested to ensure the most possible horsepower and drivability from each application. 50 state smog legal!

Stage 1

Is for stock or mildly modified vehicles. Fuel and timing curves are modified for optimal performance and mileage using less expensive, lower octane fuels. Programming is designed to burn fuel at peak efficiency, which results in improved performance and mileage. Daily drivers can use lower cost regular fuel for potential mileage gains, but for optimal performance gains use of mid-grade or better is recommended.

JT19520	1995	AT - Impala SS	244.99 ea
JT19620	1996	AT - Impala SS	244.99 ea

Stage 2

Is designed for the performance enthusiast, the Stage 2 features more aggressive programming to make the most horsepower and torque available. Fuel and timing curves are extensively modified for peak performance and drivability. Requires use of 91 octane fuel, 180 degree thermostat and free flow exhaust. Also works well with aftermarket intake systems, mass air sensors, TBI spacers, etc.

Hypertech Speedometer Calibrator

The Hypertech Speedometer Calibrator allows speedometer and odometer correction for on 2007-12 cars and trucks when changing to 2.56, 2.73, 3.08, 3.23, 3.42, 3.73, 4.10, 4.56, 4.88 or 5.13 gears. It can also clear DTC's and make corrections for tires 24" to 54" in 1/4" increments. Completely user friendly and easy to use! It updates via internet and can easily return the vehicle to stock tune! Additional software can also be purchased and installed turning it into a Max Energy power programmer.

Note: Discount exempt.

732501 2007-12 GM speedo calibrator 229.99 ea

Max Energy Power Programmer

This CARB-approved power programmer can give your 2007-12 gas or diesel vehicle an extra 10 to 40 horsepower. The Max Energy programmer allows countless adjustments from shift points to speedometer calibrations for a wide range of gear ratios and tire sizes. It allows up to 1000 rpm adjustments of the rev limiter, the ability to change the top speed limiter and can be used to read and clear DTC's. It updates via internet and can easily return the vehicle to stock tune, if necessary.

Note: Discount exempt

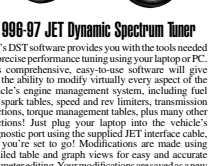
1994-08 JET Power Shift

JET Power Shift plugs into your 1994-08 GM automatic transmission harness allowing four different shift firmness settings at your fingertips. Settings range from Stock all the way to Race. Great for towing, a day at the track, or everyday driving. The Power Shift is also compatible with the JET Power-Servo kit for an extremely firm shift.

JT70701 1994-08 4L60E/4L65E..... 134.99 ea



1996-97 JET Dynamic Spectrum Tuner

JET's DST software provides you with the tools needed for precise performance tuning using your laptop or PC. This comprehensive, easy-to-use software will give you the ability to modify virtually every aspect of the vehicle's engine management system, including fuel and spark tables, speed and rev limiters, transmission functions, torque management tables, plus many other functions! Just plug your laptop into the vehicle's diagnostic port using the supplied JET interface cable, and you're set to go! Modifications are made using detailed table and graph views for easy and accurate parameter editing. Your modifications are saved as a new file on your PC, then are downloaded to the vehicle's computer. The original programming is uploaded and saved to your PC so that it can be reloaded in the ECU at any point to return your car to its stock tune!

Elite Autoscanner Pro New!

This battery powered OBD I and OBD II enhanced scan tool features a large, backlit LCD and offers hobbyists and technicians the ability to read and erase generic and manufacturer-specific DTCs (Diagnostic Trouble Codes), display and reset MIL (Malfunction Indicator Lamp) status, record & playback live sensor data, read and display I/M (Inspection/Maintenance) monitors and more! Read domestic enhanced codes, graph engine data, record stored vehicle information, and connect to a PC to print data and download updates. CAN compliant and compatible with ALL 1996 and newer OBD II compliant vehicles as well as certain pre-1996 GM, Ford and Chrysler vehicles.

Note: No further discounts apply.

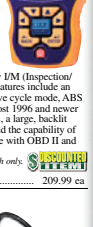
AC9190 ..... 334.99 ea

OBD II / ABS AutoScanner Code Connect New!

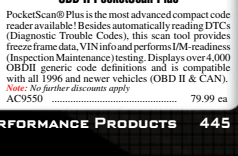
This OBD II scanner not only displays the diagnostic trouble codes, but also offers the most probable solutions for your specific vehicle when troubleshooting details are available thanks to the CodeConnect database of 3 million verified fixes. Read and erase DTCs (Diagnostic Trouble Codes), display and reset MIL (Malfunction Indicator Lamp) status, read, record & playback live sensor data, read and display I/M (Inspection/Maintenance) monitors. Other features include an OBD II emissions check and drive cycle mode, ABS code read/erase capability for most 1996 and newer GM, Ford, and Chrysler vehicles, a large, backlit LCD, a USB port for updates, and the capability of printing data via PC. Compatible with OBD II and CAN vehicles 1996 and newer.

Note: Troubleshooting data in English only. No further discounts apply.

AC9580 ..... 209.99 ea



New!



OBD II PocketScan Plus

PocketScan® Plus is the most advanced compact code reader available! Besides automatically reading DTCs (Diagnostic Trouble Codes), this scan tool provides freeze frame data, VIN info and performs I/M-readiness (Inspection Maintenance) testing. Displays over 4,000 OBDII generic code definitions and is compatible with all 1996 and newer vehicles (OBD II & CAN).

Note: No further discounts apply

LS Conversion Components

LS9 6.2L/638HP

The Corvette ZR1 LS9 6.2L engine in a fully-dressed crate engine package! The LS9's lightweight reciprocating mass, sixth generation supercharger and high flow cylinder heads combine to provide 638 horsepower at 6500 rpm with a neck-breaking 604 ft-lbs of torque, making it the most powerful standard production motor GM has ever produced.

HP	638
TQ	604
Bore/Stroke	4.065" x 3.622"
Cam Type	hydraulic roller
Cam Lift	.562" x .558"
Duration @ .050	211° int./230° exh.
Valve Size	2.16" int./1.59" exh.
Compression Ratio	9.1:1
Rocker Ratio	1.7:1
Recommended Fuel	92 octane
Balancing	internal
Max RPM	6600

Installation Notes
Includes a 14" manual transmission flywheel. Requires an external oil tank for the dry sump oiling system. Requires an intercooler pump and water tank for the charge cooler. Requires a heat exchanger for the charge cooling system. Does not include ECU or wire harness Accessory drive system not included. Crankshaft has a unique 9 bolt flywheel mounting pattern. May require an adapter for some transmissions
Note: *This engine is intended for installation in pre 1976 non pollution controlled vehicles or for off road use. Special order, prepaid only. Shipped truck freight. No further discounts apply.*

G25010 LS9/6.2L ..... 26,024.99 ea

LSA 6.2L/556HP

The supercharged 6.2L LSA engine from the Cadillac CTS-V and Camaro ZL-1 in a fully dressed crate engine package! This cousin of the Corvette LS9 produces 556 horsepower at 6100 rpm with 551 lbs of torque at 3800 rpm. It's a rare engine that offers smooth and well-balanced performance.

HP	556
TQ	551
Bore/Stroke	4.065" x 3.622"
Cam Type	hydraulic roller
Cam Lift	.492" int./.480" exh.

G25018

G25016

LSA Supercharger Kit

Add horsepower to any LS engine with rectangular port L92-style heads! This is the same 1.9L supercharger found on the 6.2L LSA engine with a slightly different intercooler cover. A pair of Eaton four lobe high helix rotors makes this unit extremely efficient at low rpm but sustains the output into high rpm. On a 6.2L engine it produces about 9 lbs of boost but boost pressure may vary with engine displacement and compression ratio. This kit includes intake, fuel injectors, cast cover, intercooler, front pulley, throttle body, and gasket set. Installation requires proper tuning of the vehicle computer system along and a high pressure, high volume fuel pump. Intercooler requires a liquid cooling system consisting of a heat exchanger, a coolant tank and a coolant pump. The ZL1 fuel pump module delivers 66 gph at 65 psi, a significantly greater volume than a standard pump. This module is perfect for custom tanks and motors up to 600 hp.
Note: *This product may not be legal for highway use in all 50 states. Special order, prepaid only. Shipped double oversized. No further discounts apply.*

Vintage Air Front Runner Drive

Vintage Air's Front Runner Drive features include a block mounted truss CNC machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hardcoat finish. The black hardcoat sets include black hardcoated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hardcoated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), Hi-performance water pump and GM 140 amp alternator. The Vintage Air TiteFit Line/compact compressor package is perfect for that nice tight and clean look

Important: Not compatible with any LT1 engine.
Note: Shipped oversize. No further discounts apply.

Polished Aluminum LT1 Valve Covers

These premium valve covers are designed specifically for 1993-97 GM LT1 engines. Manufactured from cast aluminum and polished to a high luster. Valve covers include new bolts, baffles and grommets.
Note: Gaskets not included.

6045 1993-97 ..... 129.99 pr

New!

LS9 Engine Controller Set

This engine controller includes the electronics needed to wire a 6.2L LS9 crate engine. Each set comes with an ECM specifically programmed for the LS9 along with the wiring harness and fuse box. Includes a MAF sensor with mounting boss, a pair of oxygen sensors with weld in sensor bungs, an electronic accelerator assembly and instructions. This engine controller set is a stand alone system designed for retrofit in older vehicles, not an upgrade or replacement system for new vehicles.
Note: Not for use with pollution controlled vehicles. Special order, prepaid only. No further discounts apply.

Each Supercharger Assembly Features:

- **Two Eaton Twin Vortex High Helix Rotors**
- **Built-In Water-To-Air Intercooler with Front Facing Lines**
- **Intake With Injectors**
- **Throttle Body**
- **Front Pully**
- **Ribbed Cast Cover**
- **Gasket Set**

ZL1 Supercharger

Get more power out of your LS engine with a 1.9L supercharger lifted straight from the ZL1 production line! This supercharger is original equipment for the 6.2L LSA powered 2012-13 Camaro ZL1 and will bolt onto any LS engine using rectangular L92 heads. Produces approximately 9 pounds of boost on a 6.2L engine.
Important: Requires a liquid cooling system with heat exchanger, coolant pump, and coolant tank, as well as a high-pressure high-volume fuel pump, and reprogramming or replacing the engine management system.
Note: Special order, must be prepaid. Shipped double oversized. Not legal for highway use on pollution controlled vehicles in all 50 States. No further discounts apply.

BK5005

1997-04 BBK LS1 & LS6 Intake Manifold

Boost horsepower and low end torque with this intake manifold from BBK. Designed for LS1 and LS6 engines, this intake improves the Z06 Corvette intake design with an 85mm straight through throttle inlet with rounded low-restriction intake runners to allow an 18-24 horsepower increase on a base LS1 engine. Features a titanium powder coat finish and is available in sets with BBK Power Plus series 80mm throttle bodies with cable or electronic throttle controls. Uses factory rubber o-ring gaskets and includes mounting hardware and instructions.
Note: No further discounts apply.

E7518

Edelbrock Air-Gap Dual Quad LS1

Now you can have late model muscle with a classic look with dual quads on a LS1 engine. This dual carburetor set up is designed to maximize performance in the 1500 to 6500 rpm range. Available with or without carburetors and individually in your choice of natural finish or with an elegant Endurashine finish.
Important: Not legal for pollution controlled vehicles.
Note: No further discounts apply.

With Carburetors

These complete systems include a non-EGR dual quad manifold with tuned and matched Thunder AVS carburetors, an MSD ignition controller that works with the LS1, LS6, LM7, LR4 and LQ4 with 24X ignition systems, wiring harness, MAP sensor, fuel inlet, progressive linkage, gaskets and brackets.
Note: Shipped overweight. No further discounts apply,

LS700200

Fitrite™ LS Engine Mount Kit

This kit is made to assist you with your project. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter kit allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3" forward for a full 3-1/2" of travel with a completely custom range of positions. The short adapter kit is a smaller, more compact version, moving the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. This exclusive design no-weld brackets are CNC laser cut steel and features a durable black powder coat finish. FitRite™ kits include POLYPLUS™ engine mounts.

Note: The short adaptor works well with the low mounted air compressor.

1958-96 LS Engine Conversion Headers

These headers are designed for the LS engine mounting kits and are available in a variety of sizes and styles. A silver ceramic coating keeps temperature under control and provides long-lasting good looks. Each set is designed to clear the factory AC box, power steering, and power brakes. Mid length headers have a 3" ball socket collector, while the long tube headers have a unique flat collector with a round 3" outlet. Limited lifetime manufacturer's warranty. Made in USA.

Important: Column shift vehicles may require shifter linkage modification for header clearance. Parking brake modifications may be necessary on earlier models. Minor trimming of the bell-housing may be required when installing long tube headers with 4L80E transmissions.
Note: No further discounts apply.

LS1 Single Fuel Line Filter/Regulator Set

This handy set will allow you to maintain a single fuel line running to the engine, making for a "clean" installation. By localizing the filter and regulator for the return of excess fuel to the tank, it cleans up and simplifies this critical portion of the conversion. Includes a 3/8" and a 5/16" stainless steel fitting.

Note: No further discounts apply.

SP3029	filter kit	184.99 ea

LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. Their contoured shape aims exhaust gases for increased flow and performance over stock manifolds with a traditional old school look. Fits all LS engines up to 500 horsepower except LS7 and LS9 and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72 A-Body vehicles. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

Note: Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.
No further discounts apply.

Performance Products

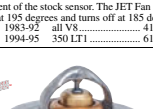
JT60600

JT60604

1983-95 JET Fan Switch

The JET Fan Switch turns on the vehicle's cooling fan at a lower temperature than stock for improved performance and engine longevity. Cooler operating temperatures increase horsepower by providing a denser air/fuel mixture. Installation is simple replacement of the stock sensor. The JET Fan Switch turns on at 195 degrees and turns off at 185 degrees.

JT60600 1983-92 all V8 ..... 41.99 set
JT60604 1994-95 350 LT1 ..... 61.99 ea



JT10170

1981-97 JET Low Temp Thermostat

Reduced engine temperatures add life to your engine and provide a denser air/fuel mixture which helps produce more horsepower. Consistent control of engine temperature allows and engine to operate at its peak efficiency no matter what the driving conditions. The factory 195 degree thermostat simply cycles open and closed, this reduces cooling efficiency in any engine. With the JET 180 degree thermostat you get consistent engine cooling and a precise metering of water throughout the engine. Constructed of stainless steel.

JT10170 1981-92 all V8 ..... 14.99 ea
JT10174 1993-97 LT1 ..... 14.99 ea

JT90140

1988-96 JET Underdrive Pulley Set

The JET Underdrive Pulley Set reclaims lost horsepower and mileage by reducing the drag placed on the engine to drive the accessories such as the air conditioning, power steering and water pump. The JET Pulleys slow down these accessories to allow the engine to turn with less effort without any adverse effect on the operation of AC, power steering, charging or cooling systems. Installation consists of replacement of the stock pulleys. Sets include pulleys, hardware, instructions and part number for new serpentine belt (most sets will require use of smaller size belt). Each set includes 2 pulleys.

*Note: Belt is not included with kit. * Includes 2 pulleys.*

JT90106* 1986-87 5.0L 4 bbl. ..... 159.99 set

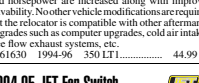
New!

1994-08 JET Power Shift

JET Power Shift plugs into your 1994-08 GM automatic transmission harness allowing four different shift firmness settings at your fingertips. Settings range from Stock all the way to Race.

JT70701 1994-08 4L60E/4L65E ..... 134.99 ea



1994-96 JET Inlet Air Temp Relocator

The JET IAT Relocator repositions the Inlet Air Temperature sensor to a cooler location in the air intake system to provide a lower air temperature reading to the computer. By doing this, throttle response and horsepower are increased along with improved drivability. No other vehicle modifications are required, but the relocator is compatible with other aftermarket upgrades such as computer upgrades, cold air intakes, free flow exhaust systems, etc.

JT61630 1994-96 350 LT1 ..... 44.99 ea

1994-95 JET Fan Switch

The JET Fan Switch turns on the vehicle's cooling fan at a lower temperature than stock for improved performance and engine longevity. Cooler operating temperatures increase horsepower by providing a denser air / fuel mixture. Installation is simple replacement of the stock sensor. The JET Fan Switch turns on at 195 degrees and turns off at 185 degrees.

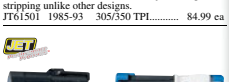
JT60604 1994-95 350 LT1 ..... 61.99 ea

JT61501

1985-93 JET Fuel Pressure Regulator

The JET TBI Billet Aluminum Adjustable Fuel Pressure Regulator provides you with the ability to adjust fuel pressure for maximum efficiency and horsepower gains. Factory TBI regulators are not adjustable and wear out over time due to weakening internal spring tension which reduces power and mileage. Stock vehicles with high mileage can restore lost power by simply replacing the regulator and performance built motors benefit from the ability to precisely meter fuel delivery. The JET Regulator is a direct replacement and features a steel insert on the adjuster to prevent stripping unlike other designs.

JT61501 1985-93 305/350 TPI ..... 84.99 ea



1992-02 JET Skip Shift Eliminator

The JET Skip Shift Eliminator bypasses the computer aided gear selector feature on the newer GM 6 speed transmissions. The CAGS feature causes the unwanted 1st to 4th gear shift. Installation is a simple plug in and the unit is OBD-2 compatible.

JT61610 1992-02 all w/6 speed..... 34.99 ea

1994-96 JET Powr-Flo Mass Air Sensor

The JET Powr-Flo Mass Air Sensor delivers improved horsepower, torque and mileage from your LS1 powered vehicle by simply replacing the restrictive stock mass air sensor. The factory sensor not only is a major restrictive point in stock intake systems, but it also limits the full potential of aftermarket cold air intake systems. The flow bench tested design of the JET mass air sensor provides airflow increases of up to 45% and installs in 10 minutes or less. Compatible with oteth aftermarket upgrades such as computer upgrades, cold air intakes, TBI spacers, free flow exhaust systems, etc.

Joe Gibbs Driven Racing Oil

Joe Gibbs LS30 Synthetic Oil

This LS30 synthetic 5W-30 oil is specifically formulated for high performance LS-series engines such the 6.2L LS3 found in the 5th generation Camaro SS or the 6.2L supercharged LSA under the hood of the new ZL1. Using advanced synthetic-based oils, LS30 delivers high temperature and high shear protection, making it ideal for high performance LS engines, especially those that have been turbocharged or supercharged.

March Performance Pulleys

March "Ultra Drive" Front Mount Serpentine Sets

This system has been designed to mount accessories below the valve covers and between the width of the heads. Precision CNC machined from 6061-T6 aluminum for strength and perfect fit, hardcoated on high wear areas and clearcoated to eliminate polishing in those hard to reach places to look great for years to come. Set is designed to fit Ram Jet, TPI, Single and multi carb engines and includes an oversize crank pulley that aids in driving your alternator, AC and water pump at idle, where it counts.

Note: Serpentine belts are not included in any of the sets, however the belt length is included below for information purposes. All sets include short reverse water pump. Shipped overweight. No further discounts apply.

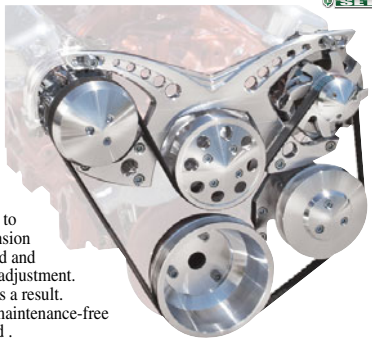
March Performance Pulleys

March "Revolver" Serpentine Sets for Short Water Pump

This serpentine conversion offers the same combination of style and low price as the popular Style Track alternator, AC and power steering set, but cool Revolver styling. The highly styled one piece bracket provides a rigid support for the alternator and AC compressor; a separate bracket allows the option of power steering or no power steering. The Revolver uses a unique, easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. The Revolver offers a much cleaner appearance as a result. Includes all instructions and hardware. Features maintenance-free clear, black or black onyx powdercoat or chromed .



Shown With Optional MP4182 AC Manifold

Note: No cylinder head accessory holes needed for mounting. Serpentine belt is not included with any set. Length of belt is listed below, and is included in the instructions also. Shipped overweight. No further discounts apply.

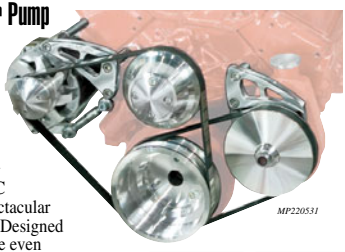
March Performance Pulleys

March "Mid Mount" Alternator and Power Steering Serpentine Conversion Ultra Sets for Long Water Pump



MP220531

Simple yet exceptionally styled, this new "Mid Mount" Alternator and Power Steering serpentine set from March Performance offers an exciting new look. A new higher mounted power steering pump bracket helps clear the steering gear box in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratio pulleys for increased cooling. CNC machined from solid billet 6061-T6 aluminum for a spectacular machined finish with perfect fit and extra high strength. Designed for a great appearance from any angle, these brackets are even machined on the engine facing side. All billet pulleys and brackets have a "No Polishing" maintenance-free clear powder coating. Also available black powder coated.

Note: Serpentine Belts are not included with sets. Length of belt is listed below, and is listed in the instructions also. All alternator belts are 6 rib. Shipped overweight. No further discounts apply.

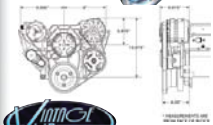
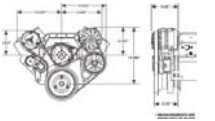
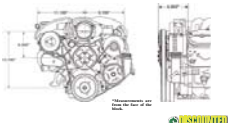
174011







Vintage Air Front Runner Drive

Vintage Air's Front Runner Drive is a great compliment to the engine compartment. It allows you the ease of using the modern serpentine belt system that you have on your everyday driver. This engineered package solves issues such as: premature belt failures caused by mechanical tensioning, excessive belt length runs, awkward component placement, and cylinder head mount-bolt variations. Features include a block mounted truss CNC machined from T-6061 billet aluminum available in a or black hardcoat finish. The black hardcoat sets include black pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), Hi-performance water pump and GM 140 amp alternator. The Vintage Air TiteFit Line/compact compressor package is perfect for that nice tight and clean look

Important: *On Chevy ZZ4 engine, composite timing cover mounting bolt must be modified or timing cover may be replaced with steel cover (GM part # 12523317 or equivalent), for standard short water pump clearance. Not compatible with any LT1 engine.*

Note: *Shipped oversize. Discount exempt.*

Performance V-Belt Pulley Sets

March performance underdrive V-Belt pulleys can free up 12-15 horsepower at the rear wheels. March performance pulleys eliminate belt throwing and reduce accessory drag. They also aid in cooling by increasing water pump speed. Designed with "no polishing needed" clear powder coat. All sets include crank pulley, water pump pulley, and alternator pulley with cover.
*Note: *Requires 1980's style water pump for clearance or any aftermarket water pump. No further discounts apply.*

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Harmonic Balancers

Made in USA

1965-68 Reproduction Harmonic Balancers

Harmonic balancers wear out over time causing unwanted noise and vibration. They should be replaced before damage is done to your engine. These are exact, authentic, made-in-the USA reproduction GM harmonic balancers with all the correct markings for the serious restorer.

1720111

Fluidampr Performance Harmonic Dampers

Fluidampr performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone-based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations at almost any frequency and constantly adjusts itself for optimum performance at all RPM ranges. Fluidampr products are made from CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: Small block dampers are not for 1992 and later LT1 engines.

SFI-Approved Harmonic Balancers

SFI specification harmonic balancers are a must for high RPM engines and required on most tracks. These small block balancers have been tested for two hours at 12,000 RPM to meet or exceed all SFI specifications. All balancers feature laser etched degree marks for timing adjustments.

*Note: *Has removable weights and works with internally or externally balanced engines.*

HD100012

Chevrolet Pro/Race Harmonic Dampers

Pro/Race high performance harmonic dampers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. Pro/Race dampers are ideal for the additional torque loads from belt-driven superchargers. The STREET damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. On the RACE damper, the elastomer is bonded to the steel hub and ring to endure sustained high-RPM conditions. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally-balanced application. Internally-balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

Important: Pro/Street or Pro/Sport Counterweights are not interchangeable with Pro/Race Counterweights.

**Note: HD100016 & HD100019 are NOT drilled to accept counterweights.*

Timing Components

Replace Your Stock Timing Chain With A Precision Gear Drive System From Edelbrock!

Edelbrock

Accu-Drive® Camshaft Gear Drives

Made in USA

The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly. Most Accu-drives require no modifications to the engine block, although some fitting of the axles and front cover may be required. The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear.

E7890

Important: Not for stock Chevy hydraulic roller-lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil galley bosses on block when in the most rearward position. Grind or machine block for clearance.

Lifetime Limited Warranty

Note: No further discounts apply.

COMP

Small Block Chevy Dry Timing Belt System

Get more performance out of your small block with the Magnum dry timing belt system! This system absorbs crankshaft harmonics and is more durable and more accurate than traditional timing chains or aftermarket gear drive systems, especially at high RPM. The Magnum belt drive system is ideal for street performance and budget-minded race applications. Make quick timing modifications at the track without the hassle of removing a timing chain cover! Includes main plate, gears, belt, shims, mounting hardware, and instructions.

Lifetime Limited Warranty

Note: Minor block modification may be required. No further discounts apply.

COMP

Small Block Chevy Wet Timing Belt System

Get more performance out of your small block with the Magnum wet timing belt system! This system absorbs crankshaft harmonics, keeping the timing accurate with virtually no fluctuation. It is also more durable than traditional timing chains or aftermarket gear drive systems, especially at high RPM. The Magnum belt drive system is ideal for street performance and budget-minded race applications. Designed to work with billet timing cover #21101 but works with most late model flat covers. Includes upper and lower timing gears, belt, cam timing bushings, shims, cam button, mounting hardware and instructions.

Lifetime Limited Warranty

Note: Minor block modification may be required. No further discounts apply.

Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off.

You've got billet spokes on your wheels, now get precision machined billet spokes in your engine compartment! K&N, renowned for superior performance, durability, and styling in their filters, combines serious air flow with gorgeous looks in these round, 14" billet aluminum air cleaners with either a 5 spoke or 10 spoke lid. Both styles include a carbon fiber insert and a 3" tall K&N element. They are designed to fit 5-1/8" carburetor flanges, and are available with either a 1-1/4" drop base or a standard 9/16" raised base.

K&N Air Filter Oil & Clean/Degreaser Kit!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt build up and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each kit includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

K&N Carburetor Cover

The K&N Carburetor Cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws or other items down the throat and into the intake manifold. Also works well in keeping dirt, dust and other elements out of your carb during times you must store your engine or vehicle with the air cleaner assembly removed. Choose from black, red or orange.

K & N Fuel Injection Intake Sets for Impala

The K&N Filtercharger Injection Performance Set replaces the original air filter case to dramatically reduce intake restrictions and allow your engine to inhale a larger volume of air. This provides more usable power and torque throughout the RPM range, especially in turbocharged and supercharged engines. Meets the tough C.A.R.B emissions. Washable, reusable and backed by K&N's 10-year Million Mile Limited Warranty.

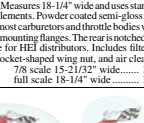
Vintage Corvette Style Air Cleaner

Dress up your engine with this 14" louvered design air cleaner which is similar to the 1955-57 Corvette. Features a 3" tall element and recessed base. Fits 5-1/8" carb necks. Give your classic a custom appearance by adding this uniquely designed air cleaner.

T2293 ..... 34.99 ea



Retro Style Air Cleaner

The design of this heavy gauge steel air cleaner is based on the 1951-56 Oldsmobile and Cadillac oil bath air cleaners. Measures 18-1/4" wide and uses standard 14" x 4" filter elements. Powder coated semi-gloss black. The base fits most carburetors and throttle bodies with 5-1/8" diameter mounting flanges. The rear is notched to provide clearance for HEI distributors. Includes filter element, chrome rocket-shaped wing nut, and air cleaner decal.

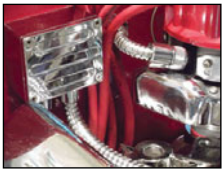
HAL STUFF Underhood Wiring Conduit

De-Clutter Your Engine Bay!

Take the ugly out of your electrical wiring with HAL STUFF wiring conduit. All of the major components are triple chrome plated or are polished 304 stainless steel. Choose from a complete starter set with accessories, or piece together your own custom application!



New!

Complete Conduit Starter Set

Is your hood hiding a mess of wiring and vacuum lines? De-clutter your engine bay with this conduit set! This set includes 15 feet of 1/2" polished stainless steel flexible conduit, enough for most applications, as well as six chrome 1/2" conduit terminators, two 1.50" x 2" chromed aluminum enclosures, chrome aluminum firewall pass through, and twelve 1/2" nickel-plated mounting clips.

Performance Intakes

Spectre offers a wide assortment of highly innovative products with unmatched quality and value. From HPR high performance racing filters that offer a washable, reusable high-flow air filtration solution to ProFab cold air intakes which brings a smooth stream of cool, dense air into the engine for power you can feel every time you step on the gas. Spectre uses 3D CAD software to design and test new products before a rapid prototype machine creates a quality ABS model which is used to test form, fit, and function. Performance is verified by a computer controlled flowbench which can measure air flow with OEM engineering accuracy. This dedication to quality shows up in the final product, resulting in unmatched performance and value.

1965-66 Dual Plenum Air Intakes

These air intake systems use a dual plenum design with 4" intake tubes to get the most power from your engine! Designed to give you the greatest horsepower and torque increase by routing the intake inlet away from heat sources like the radiator and headers These are low profile configuration intakes offering extremely low profile dimensions for tight hood clearance applications. Includes intake tubes, heat shields, filters, boots, clamps, and hardware. Choose from blue, black, red, or white filters. Fits standard 5-1/8" carb neck.

Note: Specify filter color when ordering.

SP72152A

blue black red white

1963-66 Single Inlet Air Intakes

Get more power from your LS engine swap with these single 4" cold air intakes from Spectre. These intakes are available configured for speed density, boot-in MAF sensor, or with MAF sensor pad (for blade style MAF sensor). Each intake includes tubes, powder coated heat shield, boots, clamps, and hardware with your choice of blue, black, red, or white Spectre HPR® (high performance racing) air filter.

Important: Check for proper clearance between throttle body and radiator. A minimum of 6" is needed between the end of the throttle body and radiator. This may require cutting off the throttle body end of the "Y" pipe 1-1/2" to 1-3/4" or to a maximum of no more than 3-3/4" inches from "Y" weld to end of pipe.

Note: Specify filter color when ordering.

Cool-Air Tube Heat Shield

The Cool-Air Tube Heat Shield features a unique lace-up design. This unique design allows this heat shield to fit air tubes from 2-1/2" to 4" in diameter, up to 3 feet in length. Like most of Thermo-Tec's products, it blocks more than 90% of radiant heat from the exhaust, protecting the air tube and the fresh air within from the destructive effects of high heat. For an added kick, Cool-Air Tube Heat Shield comes with laces in four cool colors - white, blue, red and yellow!

Universal DTM Plenum Air Intakes

These air intake systems use a DTM (Down The Middle) plenum design with either a 90˚ or Y-tube tube to get the most power from your engine! Includes intake tubes, filters, boots, clamps, and hardware. Choose from blue, black, red, or white filters. Fits standard 5-1/8" carb neck.

Note: Each DTM intake requires 2-1/4" clearance between the top of the carburetor and the hood.

Engine Dress-Up

New! Made in USA

10110

1958-90 Clear Vue Valve Covers

Clear Vue valve covers show off your valve train to make any custom motor unique. These covers are manufactured from a heat resistant clear material that will not warp, haze, or become yellow over time. Oil sheets off after high RPM in about 30 seconds. These valve covers are NHRA certified for Sportsman Gas Class vehicles. Sets include two clear valve covers, two stainless steel deflector plates and two chrome breather caps with grommets. Made in USA.

Important: Spreader bars are recommended for installation.
Note: Bolts and spreader bars are not included. Not for use on methanol supercharged engines.
No further discounts apply

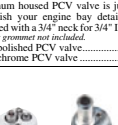
New!



T6068

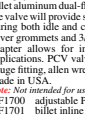
Aluminum PCV Valve

This aluminum housed PCV valve is just what you need to finish your engine bay detailing project. Manufactured with a 3/4" neck for 3/4" ID grommets.

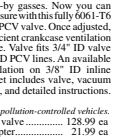
Note: Rubber grommet not included.

T6068	polished PCV valve	19.99 ea
T6067	chrome PCV valve	23.99 ea

New! Made in USA



DF1700



DF1701

Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully 6061-T6 billet aluminum dual-flow PCV valve. Once adjusted, the valve will provide sufficient crankcase ventilation during both idle and cruise. Valve fits 3/4" ID valve cover grommets and 3/8" ID PCV lines. An available adapter allows for installation on 3/8" ID inline applications. PCV valve set includes valve, vacuum gauge fitting, allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution-controlled vehicles.

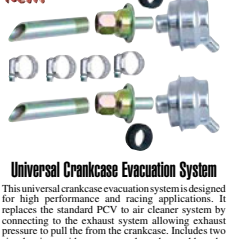
DF1701	billet inline adapter	21.99 ea
DF1702	PCV valve rebuild kit	14.99 kit

New!



Universal Crankcase Evacuation System

This universal crankcase evacuation system is designed for high performance and racing applications. It replaces the standard PCV to air cleaner system by connecting to the exhaust system allowing exhaust pressure to pull the from the crankcase. Includes two simple pipes with one-way valves that weld to the header collectors and are connected to dual valve cover breathers.

Note: Not for use on pollution controlled vehicles. For valve covers with 1-1/4" holes. Hoses are not included.

20501	crankcase evacuation set	34.99 set

PCV Hose Retainer Clip

Reproduction of the late 60s-70s PCV hose retainer clip which holds the PCV hose in place on models with Holley carburetors. Mounts on RH forward carburetor stud.

Note: Holley only.

AR1757

Available in chrome moly steel with a black oxide finish or corrosion-proof polished stainless steel. Choose between conventional hex head bolts and nuts or compact, easy access 12-point designs. The heads feature a wide base for better load distribution and sealing, while the compact head is easily accessed. Sets are shipped with the required flat washers. All sets come with 1/4"-20 bolts.

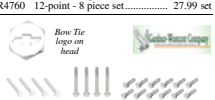
Bow Tie logo on head



1978-97 Engine Dress-Up Bolt Sets

You've already built your motor for power. Now bolt on the pizazz with a engine dress-up bolt set! Available in either polished stainless or chrome plating, these sets feature a Bow Tie logo stamped directly into the heads of the bolts. The engine dress-up sets contain attaching hardware for the intake manifold, valve cover, water neck, water pump, timing cover, fuel pump, oil pan, distributor hold down, and either header bolts or standard exhaust bolts. Washers are supplied where applicable.

Stovebolt Intake Manifold Heat Plates

Installing aftermarket exhaust manifolds or headers on 194-292 ci 6-cylinder engines requires an intake manifold heating system for proper performance. The original intake and exhaust manifolds were connected with a heat riser system to keep fuel at ideal atomization temperature. Without this, fuel puddles at idle, causing poor performance and hesitation under acceleration. This manifold heater plate solves this issue using temperature-regulated coolant circulated through the cooling system, rather than extremely hot exhaust gas. CNC-machined from 3/8" heavy gauge aluminum and includes barbed brass fittings and instructions. Made in USA.
Note: Gaskets and mounting hardware not included.

Fenton Intake Manifold Heater

The Fenton intake manifold heater set directs heat to the intake manifold for better fuel atomization. This reduces excessive richness, rough idle, and poor throttle response, particularly at idle or in cold climates, making the engine stronger throughout its temperature range. The heater is designed to be used with the Fenton intake manifold AJ5315 and Fenton dual headers AJ5312 on 1953-62 models with 235 and 261 cid 6-cylinder engines. Set includes intake plate, gasket, hardware, tubing, and fittings for installation.

Edelbrock Performer

Edelbrock Performer manifolds are dual-plane, low-rise intake manifolds with a patented runner design that you won't find on other brands. This patented design greatly improves throttle response and torque over a wide RPM range, especially from idle through the mid-range. Manifolds are offered in EGR and non-EGR versions for most GM V8s, and most Performer intakes are 50-state street legal when used with the correct carb and application. Made in the USA.

Note: *No further discounts apply.*

Edelbrock Performer RPM

Performer RPM manifolds are dual-plane, high-rise intake manifolds with a 180° firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match the free-flowing exhaust, and high lift cams and other modifications of a high output engine. They are intended for high-performance street or competition engines that run up to 6500 RPM. Not intended for emissions controlled vehicles. Made in the USA.

Note: *No further discounts apply.*

Performer EPS Vortec Manifold

New!

Available for small-block Chevrolet with Vortec or Edelbrock E-Tec cylinder heads, the performer EPS dual-plane manifold is optimized to deliver superior performance with Edelbrock square-bore Performer Series or Thunder Series AVS carburetors. The runner design is "tuned" for peak torque around 3500 rpm on a 350ci engine and it's ideal for off-idle through 5500 rpm. Dyno tests showed gains averaging 5+ ft/lbs. of torque from 3000 to 4500 rpm for more performance where you need it most. Match with a dependable Edelbrock square-bore carburetor for maximum performance.

Note: *Discount exempt.*

Engine Components

Small Block Heads

E60719

1955-86 Small Block Performer Heads

Designed for 1955-86 small block Chevys, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. These are 50-state street legal heads. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Hardened pushrods required. Made in the USA. ***Important:*** *When using hot air choke carburetors and Performer manifolds with these heads, choke kit E1932 is required. When using stock rockers on these heads .100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.* ***Note:*** *Shipped overweight. No further discounts apply.*

1987-95 Small Block Performer Centerbolt Heads

Designed for 1987-95 5.7L Chevy engines (except LT-1, LT-4, and LT-5) originally equipped with centerbolt valve covers and the 1987 and later intake manifold bolt pattern. The high velocity intake runner is designed to work with either T.B.I. or T.P.I. systems. The 60cc combustion chambers maintain stock compression ratio when used with the recommended gaskets. These are 50-state street legal heads. Hardened pushrods required Available in straight plug configuration only. Made in the USA. ***Important:*** *When using stock rockers on these heads, 1.00" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.* ***Note:*** *Shipped overweight. No further discounts apply.*

Edelbrock E-210 Small Block Cylinder Heads

The new E-210 cylinder head for small-block Chevy engines feature larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts, making them ideal for a spec series racer and larger displacement engines. The exhaust port flange is in the stock location to allow for the use of off-the-shelf headers and hardware, while the enlarged valves and ports support the power needed to compete at engine speeds of up to 6500 rpm. The E-210 cylinder head is capable of supporting more than 500 naturally aspirated horsepower, and even more in forced induction applications. Made in USA. ***Note:*** *No further discounts apply*

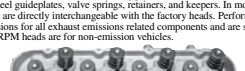
Big Block Heads

Edelbrock cylinder heads are made from A356 aluminum and heat-treated to T-6 specs. They are manufactured using the latest CNC programmable machining centers for a high degree of accuracy, and quality is assured using Coordinate Measuring Machines (CMM). These street high-performance heads provide out-of-the-box, bolt-on performance with no additional porting required. They offer improved power throughout the RPM range for great throttle response and top-end horsepower. The intake and exhaust runners are CNC profiled for superior flow and performance. Standard port locations allows the use of a wide variety of intake manifolds. Stock location of the exhaust flange allows the use of stock exhaust or headers. Hardened interlocking valve seats are compatible with leaded or unleaded fuel. All Performer and Performer RPM heads are assembled with high quality stainless steel, swirl polished valves with undercut stems, 2 ring positive oil control seals, rocker studs, hardened steel guideplates, valve springs, retainers, and keepers. In most cases these heads are directly interchangeable with the factory heads. Performer heads have provisions for all exhaust emissions related components and are street legal. Performer RPM heads are for non-emission vehicles.



60459

1965-90 Big Block Performer RPM Oval Port Heads

Designed for non-emissions oval port big block Chevys. The unique intake port design produces flow close to rectangular port heads, but with the smaller port size and velocity of an oval port for excellent seat-of-the-pants performance and crisp throttle response. The semi-open chamber design maximizes combustion efficiency with streetable compression ratios. The stainless steel 2.19" intake and 1.88" exhaust valves have smaller than stock 11/32" valve stems to promote excellent flow and lighter valve weight. The deck surface and water jackets were specially designed to work with all big block Chevy engines. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in the USA.

1965-90 Big Block Performer RPM Rectangular Port Heads

Performer RPM rectangular port heads have specially designed intake and exhaust ports for increased flow and velocity over stock big block heads. These heads feature a highly efficient 118cc open-style combustion chamber and high velocity 315cc long/306cc short intake ports. Designed for streetlegal performance big blocks operating from 2500 to 7000 RPM. Stainless steel hardened tip 2.19" intake/1.88" exhaust valves have 11/32" valve stems for excellent flow and lighter weight. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in the USA.

Important: *The spark plug has been moved closer to the center of the bore and will interfere with high dome pistons designed for stock Chevy open chamber heads.*

Note: *Shipped overweight. No further discounts apply.*

1967-69 Z28 302 Hypereutectic High Performance Pistons

Precision-machined high performance pistons with original dome design and floating wrist pin for 2nd design 1968 and 1969 stock compression 302 engines (11:1 with 64 cc heads). These hypereutectic pistons will also fit 1967 and 1st design 1968 engines with no modifications, and are available in standard, .030", .040", and .060" overbore sizes. Cast with 16-18% silicon alloy, and T-6 hardened for performance applications, new tooling was specifically made for these pistons featuring an exclusive computer-designed understructure allowing dome machining (0.143") to safely reduce the compression ratio to 10:1 while maintaining balance. Wrist pin and spirolock retainers are included. Individually plastic-sleeved after factory sorting in sets of eight by size and weight to balance and blueprint tolerances (+/- .0004" & 1.5 grams or better). Warranted for 2 full years in street cars. Set of 8 pistons with pins and locks. ***Note:*** *Piston rings not included. Not recommended for extreme performance engines.*

March Chevy 409 Serpentine Conversion

If you are looking for the high tech race look for your Chevy 409 cubic inch V8, consider this March Performance serpentine conversion. This one piece alternator and air conditioning bracket provides a rigid support for the alternator and A/C compressor; a separate bracket allows the option of power steering. Four separate idlers guarantee the ultimate in belt to pulley contact area for sure "no slip" operation. Comes complete with alternator, an alternator pulley with fan and nose cover, a A/C compressor and nose cover, a water pump with pulley and nose cover, a crank pulley and the alternator/A/C bracket, complete with the belt tensioning tool. Sets with power steering include a chrome Saginaw style power steering pump and the power steering pump pulley with nose cover. Powder-coated.

Important: Engine and valve covers not included.
Note: Shipped overweight.

Performer RPM W-Series Intake Manifold

Designed for 1958-65 Chevrolet 348/409 "W-Series" big-block engines, these Performer RPM intake manifolds are specifically engineered to deliver improved performance in the mid to high rpm range, especially when combined with Edelbrock carburetors. Two versions are available, one for small-port cast iron heads and the other for factory large port or with Edelbrock Performer RPM "W-Series" heads P/N E60819. They both also feature a front mounted oil fill tube (not installed) and matching push-in breather cap. For square-bore carburetors only.
Made in USA.

COMP CAMS

Camshafts

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

Important: *On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high performance set from Classic Industries.*

A - Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

B - Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C - Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D - Complete Set

Complete set includes cam, lifters, timing chain & gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your car undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

COMP CAMS for your High Performance Street Machine!

The Magnum™ Cam is a great cam for high performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising.

Xtreme Energy™ Cams are Comp Cams® series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

Complete set - includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions & decals.

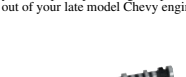
COMP CAMS

For Computer Controlled Engines!

If you have a late model computer controlled engine, you have to be VERY CAREFUL when selecting a high performance aftermarket cam! The wrong cam could "throw off" the computer, spelling real trouble for your vehicle's driveability and performance.

Comp Cams® has engineered this line of camshafts specifically for these engines, ensuring that you get a camshaft that works WITH your computer, providing exceptional performance and driveability out of your late model Chevy engine!



Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

Complete Set

Complete set includes cam, lifters, timing chain & gear valve springs and retainers, valve locks, valve stem seals.

COMP CAMS for your TBI/Crossfire or Carbureted Late Model!

Designed for use with throttle body, or crossfire injected and carbureted 305 ci engines. Your choice of 3 kits to suit your specific needs, Camshaft only, Cam and lifters or complete set. The complete set includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions & decals.

Edelbrock Performer RPM Camshaft Set

Made in USA

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 6500 RPM. These hydraulic lifter camshafts are dyno-matched to Performer® RPM manifolds for high RPM horsepower while maintaining acceptable low-end torque. With 10-12 inches of manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts. Made in USA.

Note: No further discounts apply.

Edelbrock Rollin' Thunder Performer Plus Camshafts

Made in USA

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 5500 RPM. These hydraulic roller lifter camshafts reduce friction, virtually eliminate break-in problems and permit higher valve velocities for increased performance. Intended for use with OEM or Edelbrock hydraulic roller lifters sold separately. Made in USA. *Note: No further discounts apply.*

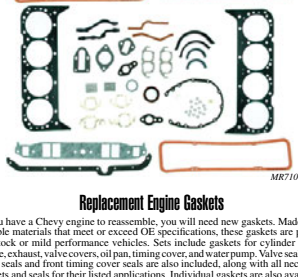
Gasket Sets



MR7101

Replacement Engine Gaskets

If you have a Chevy engine to reassemble, you will need new gaskets. Made from durable materials that meet or exceed OE specifications, these gaskets are perfect for stock or mild performance vehicles. Sets include gaskets for cylinder heads, intake, exhaust, valve covers, oil pan, timing cover, and water pump. Valve seals, rear main seals and front timing cover seals are also included, along with all necessary gaskets and seals for their listed applications. Individual gaskets are also available. *Note: Sets do not include carburetor or FI intake plenum gaskets.*

Permatex® Gasket Maker

Makes reliable formed in place gaskets that resist cracking, shrinking and migrating. Coats pre-cut gaskets to increase reliability. Resists auto and shop fluids. Great for use on valve covers, intake manifold end seals, timing covers, water pumps, and thermostat housings. 3 oz. tube.

S80022	blue #6B	3.99 ea
S81160	red #26B	3.99 ea
S81878	copper #101B	5.99 ea

Form-A-Gasket Sealant

Slow drying, non-hardening sealant designed for sealing cut gaskets and stamped parts. Allows for easy disassembly if required. Temperature range of -65°F to 400°F. Use where sealing is more important than adhesion. Resists shop fluids and fuels. Great for valve cover gaskets and oil pan gaskets. Comes in 3 oz. tube in your choice of standard or hi-temp formula.

S80016	3 oz.	3.99 ea

75801

1955-03 Mr Gasket Performance Head Gaskets

Mr. Gasket head gaskets are one of the most advanced, tested and proven in the performance market today and earned the respect of many professional engine builders. A variety of gasket materials are available to meet your specific needs. Each provides excellent stability and reduces cylinder bore distortion.

Mr. Gasket Ultra-Seal

Features a five layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn-out. Will not indent aluminum heads.

71134	1955-91	283-350	4.130" bore	.028" comp. thickness	39.99 ea
75713	1997-03	346 LS1	4.000" bore	.051" LH, driver side	36.99 ea
75801	1970-80	400	4.190" bore	.038" w/steam holes	39.99 ea
75804	1991-99	454-502	4.520" bore	.038" comp. thickness	44.99 ea

Mr. Gasket MLS (Multi-Layered Steel)

Manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. Ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

73130	1955-91	283-350	4.060" bore	.040" comp. thickness	84.99 ea
73131	1955-91	283-350	4.125" bore	.040" comp. thickness	91.99 ea
73132	1955-91	283-350	4.165" bore	.040" comp. thickness	84.99 ea
73133	1955-91	283-350	4.200" bore	.040" comp. thickness	91.99 ea
73140	1992-97	350 LT1	4.040" bore	.040" comp. thickness	84.99 ea
73141	1992-97	350 LT1	4.100" bore	.040" comp. thickness	84.99 ea
73143	1997-03	346 LS1	4.125" bore	.054" comp. thickness	84.99 ea
73144	1997-03	346 LS1	4.160" bore	.054" comp. thickness	84.99 ea

Mr. Gasket Steel Shim

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

Note: Do not use with lightweight 305 heads.

71130	1955-91	283-350	4.100" bore	.020" comp. thickness	21.99 ea
71131	1965-90	396-454	4.370" bore	.020" comp. thickness	21.99 ea

Mr. Gasket Copper (Dead Soft)

Manufactured from dead soft solid copper. Provides excellent stability and reduces cylinder bore distortion and can be used with or without stainless steel o-rings. The Copper head gasket is ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

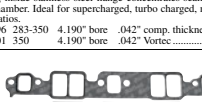
Note: Do not use with lightweight 305 heads. Gaskets do not include steam holes. O-rings are recommended to seal combustion pressures.

71052	1955-91	283-400	4.140" bore	.020" comp. thickness	49.99 ea

Mr. Gasket Solicor

Features a solid steel core that provides radial strength for combustion flange. The steel wire ring inside stainless steel flange concentrates sealing load around the combustion chamber. Ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

75727	1957-96	283-350	4.190" bore	.042" comp. thickness	49.99 ea
75727	1996-01	350	4.190" bore	.042" Vortec	49.99 ea



E7201

Made in USA

1958-90 Edelbrock Intake Manifold Gaskets

These gaskets are matched to Edelbrock Performer, Performer RPM and Victor Jr. cylinder heads and manifolds and designed to optimize performance and flow. New micropore synthetic fiber composite construction makes these gaskets impervious to most chemicals with high recovery under compression. They will conform to imperfections on sealing surfaces at lower flange pressures and include a nitrile bead around each port opening for a durable seal. Made in USA.

Note: No further discounts apply.

Replacement Lifters

TVL817

When rebuilding an engine, it is essential to replace your lifters during camshaft replacement. The usage of the original lifters may cause undue damage on your new camshaft or possibly your entire engine. These lifters will fit 1963-91 small block or big block engines and are offered in your choice of hydraulic or mechanical depending on your particular application.

TVL817 hydraulic ..... 4.49 ea
TVL43 mechanical ..... 6.99 ea

66905

Stamped Rocker Arm Sets

Stamped steel rocker arms featuring long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Easy installation requiring no special tools and will fit under stock valve covers. Fits small blocks through 1986 with stock 1.5:1 pivot ratio and 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts, or, add a set of 16 stock-length, high-performance 5/16" push rods with welded ball ends and save.

Note: Check for pushrod clearance and alignment, spring coil bind, piston-to-valve clearance and valve timing when modifying the valve train to exceed factory specs.

225050

Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.

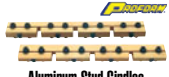
225050 SB baffle .....39.99 ea
225100 BB baffle .....39.99 ea

Valvetrain Oil Deflector

Use this lightweight aluminum deflector to redirect oil from your small block Chevy pushrods directly to the rocker arm fulcrum balls for better lubrication, less wear and longer valvetrain life. Mounts easily to stock rocker arm studs with the supplied hardware. Sold in pairs.

Note: Installation requires polylocks and tall valve covers.

267700 SB oil deflectors ...31.99 pr



Aluminum Stud Girdles

Aluminum stud girdles are designed to reduce flexing of the rocker arm studs and help reduce part breakage under high stress. For use on small blocks through 1986 with full-roller rockers. Includes 2 girdles and 16 specially designed poly locks.

66950 for 3/8" studs ..... 119.99 set
66951 for 7/16" studs ... 119.99 set

66906C

Stamped Roller Rocker Sets

Stamped steel rocker arms feature roller tips for reduced friction, and long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Available in the stock 1.5:1 pivot ratio, or, a performance enhancing 1.6:1 ratio for increased horsepower and torque. Easy installation requiring no special tools and will fit under stock valve covers. Fits small blocks through 1986 with 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts.

Note: Check for pushrod clearance and alignment, spring coil bind, piston-to-valve clearance and valve timing when modifying the valve train to exceed factory specs.

66907C

Early Aluminum Roller Rockers

The race-proven needle bearing fulcrum and roller tip not only unleash horsepower, they also lengthen valve train component life and reduce wear and tear on valve stem tips. Small block sets include your choice of (16) 1.5:1 stock ratio arms, (16) performance enhancing 1.6:1 ratio arms or a mixture of (8) 1.5:1 stock ratio arms and (8) 1.6:1 ratio arms to allow greater air flow on either the intake or exhaust ports, depending on your needs. Big block sets include (16) 1.7:1 ratio arms. Easy installation requiring no special tools. Applications are available to fit small blocks through 1986 with 3/8" or 7/16" rocker studs and big blocks through 1984.

Note: Check for pushrod clearance and alignment, spring coil bind, piston-to-valve clearance & valve timing when modifying the valve train to exceed factory specs.

66928C

Early HD Roller Rockers

Set of 16 full-roller rockers designed for up to 10,000 RPM. This heavy duty design features an oversized body and fulcrum with a triangulated profile for additional rigidity and strength. Will accommodate most oversized valve springs. American-made roller bearings are in self contained bearing-cups for extra low friction wear. Available in the stock 1.5:1 pivot ratio, or, 1.6:1 ratio for increased horsepower and torque. Easy installation requiring no special tools. Fits small blocks through 1986 with 3/8" or 7/16" rocker studs.

Note: Check for push rod clearance and alignment, spring coil bind, piston-to-valve clearance and valve timing when modifying the valve train to exceed factory specs.

Milodon Stock Replacement Oil Pans

These stock replacement oil pans feature a distinctive gold plating that is not only cosmetic, but also provides long lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. Flat, unwarped pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Sold separately is Milodon's "crush proof" gasket seal set, item# 40100 for 1955-85 small block or item# 40200 for 1964-90 big block. Also offered is Milodon's new 1 pc gasket item #41000 for 1955-85 small block or item# 41001 for 1986-02 small block. For use with original stock oil pickup screen also sold separately.

Throw Away the Old Hardware!

Forget about cleaning up your old outdated hardware. These complete hardware sets contain everything you need for a quick and accurate installation of your oil pan. Designed especially for firmly holding oil pans in place without loosening up. Bolts feature a built-in serrated washer face that eliminates the need for washers and facilitates the use of a socket wrench during installation. Construction is such that they can be used time and time again. Choose from plated finish or show quality chrome.

Oil Pressure Switch Socket

Removes oil pressure sending unit on most engines. 3/8" drive socket has 1-1/16" hex opening plus recess to accommodate switch. Also fits some brake light switches. Can also be turned with 15/16" wrench.

X3923 ..... 5.99 ea

Chevrolet V8 Oil Pump Primer

Don't start your engine after a rebuild or major engine disassembly without first making sure there is oil at all the critical friction points such as main, rod and cam bearings, rings and cylinders, as well as the lifters and camshaft. Starting your engine without any oil in these places can create the need for *another* engine rebuild. This oil pump primer can help get oil to all of these crucial areas before you start your fresh engine. Simply drop the oil pump primer down your distributor opening into the oil pump drive, attach a drill motor, and spin up the oil pump. It's that simple!

66896 with bushing ..... 23.99 ea

Hot Rod Vintage Car Oil

From the leader in racing lubricants, now comes a lubricant designed specifically for hot rods, street rods, and vintage cars. Joe Gibbs Driven Hot Rod Oil builds on the formulation that is used by thousands of racers while adding critical additives to protect engines. What can you do? Check your oil bottles for the API donut. If the oil you currently use carries an API donut, it probably lacks the amount and type of formulated anti-wear chemistry that historic or racing engines need. Designed specifically for older style historic car and hot rod engines, *Joe Gibbs Driven Hot Rod Oil* features high levels of zinc for wear protection as well as US Military grade rust and corrosion inhibitors for storage protection.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Sprint Cup and Nationwide Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil.

Royal Purple Synthetic Oil

Royal Purple Motor Oil delivers superior protection and improves performance in four-cycle gasoline and diesel engines. It increases horsepower and torque, saves fuels and reduces heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves you time and money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Royal Purple's performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Royal Purple Motor Oil is compatible with other mineral and synthetic motor oils.

Royal Purple Engine Break In Oil

Engine builders have grown increasingly concerned that many modern motor oils do not provide adequate wear protection for new engines, particularly those using flat-tappet cams. Royal Purple has addressed this issue by developing a new engine break-in oil. Royal Purple Break-in Oil is formulated to allow optimal ring seal and protect rotating assembly components such as the camshaft and valve train from initial start up wear. Royal Purple combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Royal Purple Break-in Oil is fully formulated and does not require the use of any other chemical additives. Royal Purple recommends using their high performance motor oils after the engine is broken in for maximum engine performance.

Oil Filters & Components

1956-67 Bypass Valve Bolts

Reproduction of the correct bolts used to attach the oil bypass valve. Manufactured in grade 5 metal and include correct "Delta" headmark. 2 bolts included.

1256593 1956-67 ..... 3.99 pr

1968-92 Oil Filter Adapter

Original GM replacement oil filter adapter for all 1968-92 small block and big block models. The adapter is essential because the oil filter attaches directly to this item. The adapter also includes the filter bypass valve.

G7300 1968-92 V8.....49.99 ea

1956-67 Oil Filter Adapter

This adapter will convert all 1956-67 small block Chevrolet V8 engines (except Chevy II) that came with a canister style oil filter to a spin on type filter. It includes a 13/16"-16 nipple which will accept a PH-30 or equivalent Chevrolet spin on type oil filter.

Note: Requires the use of the O.E.M. by-pass valve.

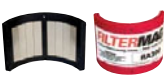
T1059 1956-67 .....24.99 ea

New!

Engine Saver Prefilter Screen

Add life to your engine with a prefilter screen for your oil filter. This stainless steel screen installs on top of conventional spin-on oil filters and traps debris down to the 280 micron range without restriction or loss in oil pressure, letting you examine particles from failing bearings that would normally be trapped in a filter, unseen.

223845 .....15.99 ea



FSS375 *FRA300*

FilterMag

FilterMag's powerful rare-earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super-strong magnetic force holds FilterMag to the canister. Fits steel oil filter canisters from 2.9" to 5.5" in diameter. The heavy duty/racing FilterMags have a larger curve surface designed for more demanding situations. Flat style FilterMags are also available for automatic transmission pans and differential covers.

Swivoil Filter Wrench

Hard to reach oil filters will come off easily with this swivel handle oil filter wrench. Swivel tension is adjusted easily using the nut and bolt on the handle. Range 3-1/2" to 3-7/8".

X3082 ..... 9.99 ea

1964-72 Oil Filter Connector

Correct replacement of the connector that installs on the engine block which the oil filter cartridge attaches to. Improperly fitted oil filters can cause engine problems and make for a nasty cleanup. 13/16"-16 x 1/2" on one end, 1"-12 x 7/16" on the other.

G9147 1964-72 ..... 8.99 ea

1956-67 Bypass Valve

Reproduction bypass valve which is usually discarded when swapping from a canister to a spin-on later style filter. Gasket included.

1256589 1956-67 .....37.99 ea

New!

Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM, this can cause more damage than it prevents, due to the frequent circulation of unfiltered oil. This anodized billet aluminum adaptor eliminates the bypass valve, preserving your expensive engine. For small block and big block applications.

223775 .....34.99 ea

New!

Oil Return Screen Set

This oil return screen set is inexpensive insurance on any modified small block Chevy engine. The screens install in and over the oil drain holes in the lifter valley, trapping debris from valve train failure, keeping it out of the oil pan. Includes galley plugs, screens, and a special epoxy for installation.

225000 .....24.99 set

Chrome Oil Filter Cover

Add protection to your filter while achieving a high performance look! The same concept as the aluminum versions, this chrome plated beauty installs quickly and looks great. Each cover includes triple chrome plating for an extra-bright finish. 3-11/16" I.D. x 5-3/16" tall.

T1067 ..... 5.99 ea

1958-67 Oil Filter Canister

For the last word in a correctly restored 1958-67 engine, install this original style oil filter canister. This style canister used a larger PF141 filter for increased oil capacity. Includes correct black electrostatic powder paint and white silkscreened lettering. 6-3/4" tall, uses 5-3/8" canister filter.

Note: Includes filter, O-ring and bolt.

Billet Aluminum Push-In Engine Dipstick

Billet aluminum handle with a stainless steel dipstick for pre-1980 small block Chevrolet engines. Installs straight into the engine block, no tube necessary. Seals at the bottom of the handle with two O-rings. Billet aluminum handle designed to coordinate with Lokar's flexible transmission dipsticks.

Pour Boy All Purpose Filler Spout

Pour Boy all purpose filler spout takes the place of funnels. With its unique multiple thread design, Pour Boy fits a variety of containers from oil bottles to antifreeze, windshield washer fluid to gas treatments, all with an airtight seal! Flow of the fluid is easily controlled by simply bending the spout. No more mess! No more fuss... and... no more funnels! 3 per package.

RM1003	3 pieces		7.99 kit

1967-02 Oil Dipstick Tube Seal

Original replacement dipstick tube gasket which allows the a tight seal when the oil dipstick is inserted into the tube. Helps keep foreign substances from entering the tube.

MSD Ignition Parts

MSD Pro-Billet Distributors

These distributors feature a flawless lightweight CNC-machined 6061-T-6 billet aluminum housing and a polished steel shaft that receives a QPQ, or Tuftride coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ rpm. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8 or 10 series ignition control box or from our "ready-to-run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "plug-n-play" alternative to more expensive computer controlled systems. Made in USA.

Note: No further discounts apply.

"Standard" Pro-Billet Distributors

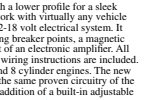
MSD Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD. It is recommended that the Noise Filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover. Made in USA.

Note: No further discounts apply.

8830	MSD noise filter w/cover	44.99 ea

MSD Digital 6A/6AL Ignition Control



MSD's Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Same footprint as the traditional 6A and 6AL but with a lower profile for a sleek look. The 6A will work with virtually any vehicle as long as it has a 12-18 volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6 and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. Made in USA.

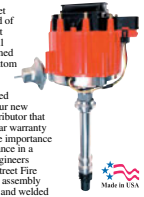
Street Fire HEI Distributor



Introducing the Street Fire value-line brand of MSD Ignition. Street Fire components will offer a quality designed alternative to the bottom bargain parts that are springing up all over. We're so assured with the quality of our new Street Fire HEI Distributor that we provide a one year warranty with it! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you can not afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. The high voltage is transferred through a new rotor to the brass terminals of the distributor cap and out to the plugs. The Street Fire Distributor is the first product to come from our new value branded ignition line. Made in USA.

Note: No further discounts apply.

MSD Ignition System Coils

If you are looking to upgrade your stock coil or want to complement the performance of your MSD 6 Series Ignition, our Blaster Coils are the right choice. The following Blaster Coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 Coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90° terminal and boot. Made in the USA.

Note: No further discounts apply.

8202	Blaster 2	49.99 ea
8223	Blaster 3	49.99 ea

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster Coils are supplied with a 0.8 ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red. Made in the USA.

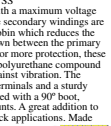
8200

Important: *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

Note: No further discounts apply.

8200	Blaster 2 chrome	49.99 set
8203	Blaster 2 red	54.99 set

Blaster SS Coil



Don't let the compact size of the Blaster SS Coil fool you because it is packed with performance. The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamps with a maximum voltage output of 40,000 volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90° boot, terminal and vibration mounts. A great addition to CD Ignitions and some stock applications. Made in USA.

Note: No further discounts apply.

8207	Blaster SS Coil	54.99 ea

MSD Ignition Parts

Spark Guard

Made in USA

MSD's Spark Guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD Universal Spark Plug Wire Sets. Spark Guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely. Made in USA.

Note: No further discounts apply.

8804	spark guard	19.99 ea

Pro-Crimp Tool

Made in USA

The Pro-Crimp features interchangeable jaws allowing for a variety of different style crimps with one heavy duty tool. The Pro-Crimp features a hardened steel frame with comfortable molded hand grips. The slick ratchet action provides secure, factory quality crimps every time. The Tool is supplied with precision crimping/stripping jaws for MSD's spark plug wire terminals. Made in USA. *Note: No further discounts apply.*

8.5mm Super Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electromagnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Available in your choice of red or black wire. Made in USA.

*Important: *With wires over valve covers.*
Note: No further discounts apply.

Universal Super Conductor wires shown with multi-angle boots

2-In-1 Universal Wire Sets

These universal spark plug wires sets are made from MSDs Super Conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90º boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut to fit any application. Each set includes a MSD Mini-Stripper crimper for easy installation. Available with wires in either black or red. Made in USA.

Note: No further discounts apply.

MSD 6LS Ignition Controllers

The 6LS and 6LS-2 Ignition Controllers allow you to map a timing advance curve, as well as program a two-step rev limiter, a vacuum advance curve, and even a step retard in case you want to add nitrous to the mix. The 6LS is designed for LS1/LS6 type engines with a 24-tooth wheel, which can be identified by the black crank sensor connector. The 6LS-2 is designed specifically for the LS2/LS7 with a 58-tooth wheel and gray crank sensor connector. Both 6LS ignition controllers use factory-style connectors for a direct installation and are compatible with carburetors and EFI. Includes software CD, six timing modules, harness, and instructions.

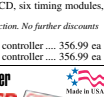
Note: Does not control fuel injection. No further discounts apply.

6010	LS1/LS6 ignition controller	356.99 ea
6012	LS2/LS7 ignition controller	356.99 ea

MSD Tachometer Adapter

Made in USA

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item # 8910 or 8910E. For applications using green and violet wires for magnetic pickup input, use item # 8920. Made in USA.



8920

*Important: *For use on non-current limiting ignitions, originally equipped with a ballast resistor.*
*** For use on current limiting ignitions, not originally equipped with a ballast resistor.*
Note: No further discounts apply.

8910E**	points or amplifier	54.99 ea
8920	magnetic pickup	69.99 ea

Pro-Clamp Spark Plug Wire Separators

Made in USA

The MSD Pro-Clamp will keep the plug wires in a tidy order and away from engine heat sources. Each Separator features secure grooves for each wire and a top bracket snaps in place to sandwich the wires in place. Each base has a hole for a retaining screw if desired and a tab that will help hold it in position. The set is supplied with two 4-wire separators, two 3- wire separators and four 2-wire separators. Made in USA.

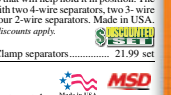
Note: No further discounts apply.

8843	Pro-Clamp separators	21.99 set

Coil Wires

Made in USA

MSD offers these two style coil wires to make the change easy. Also, remember that the coil wire sees eight times the use of each plug wire so changing the coil wire as a maintenance through the race season is recommended. Made in USA.



*Important: * 18" long, straight female socket coil terminal and boot on one side with a straight female socket distributor cap socket terminal and boot on the other.*
*** 18" long, 90º male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket style distributor cap.*
Note: No further discounts apply.

1957-74 Mallory E-Spark Conversion Set

Are you tired of constantly having to adjust and replace points in your distributor? Eliminate those pesky points altogether with Mallory's new, low cost E-Spark conversion sets. This self-contained conversion kit fits neatly within a stock GM or Mallory distributor cap, so it looks like original from the outside. Thanks to specialized electronic circuitry and an infrared signal, you'll never again have moving parts to wear out, and you gain better performance, drivability, and throttle response, plus improved fuel efficiency!

Note: No further discounts apply.

8MM Universal Fit Spark Plug Wire Set

Mallory top-of-the-line spiral core Pro Sidewinder spark plug wire sets feature a low resistance spiral core that delivers high energy output for maximum spark at the plug. Great RFI suppression meets the demands of today's on-board electronics, such as electronic ignition, sound systems, and computer controls. 8MM ozone-resistant red silicone jacket repels water, oil, grease and fuel. Withstands temperatures up to 500 degrees. Universal applications.

Important: Wires are not terminated at cap end.

Note: No further discounts apply.

Unilite Conversion For GM Distributors

Unilite conversion kits for point distributors put an end to high maintenance point ignition systems by installing a proven Mallory Unilite ignition conversion kit. By utilizing specialized electronic circuitry and an infrared signal, ignition timing is stable from 1 RPM through 10,000! Features include more accurate ignition timing than any other type of system, improves performance and fuel efficiency, easy to install with simple hand tools, reduced maintenance (never change points again) and latest thermal-clad-based surface mount construction for maximum dependability and long life.

Performance Ignition

HEI In-Cap Coil Low Ohms Contact Brush

The standard OE carbon brush in GM's HEI in-cap coil distributor has a very high (5k to 10k Ohms) resistance. When an aftermarket capacitive discharge ignition system, such as an ACCEL, Mallory, Crane, Holley or MSD unit is installed, this high resistance can create enough heat to melt the distributor cap. ACCEL's low Ohm contact brush solves this problem because it passes virtually all the energy to the rotor without causing excessive heat build up.

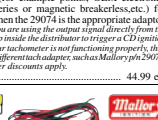
Mallory Tachometer/Fuel Injection Adapter

Tachometers/Fuel adapters may be required to generate the correct signal for certain tachometers or fuel injection systems when installing a inductive or CD ignition system. If you are using the points trigger lead (for example points, OEM electronic, Unilite, 50-series or magnetic breakerless,etc.) for the ignition, then the 29074 is the appropriate adaptor.

Important: If you are using the output signal directly from the magnetic pickup inside the distributor to trigger a CD ignition control, and your tachometer is not functioning properly, then you will need a different tach adapter, such as Mallory p/n 29078.

Note: No further discounts apply.

29074 ..... 44.99 ea



Mallory Tachometer Adapter

Some applications with a tachometer need a voltage spike signal from the negative side of the coil before they will operate properly. This signal changes when a high inductive storage or capacitive discharge electronic ignition control is installed. The tachometer adapter develops a voltage spike that will run most voltage triggered tachometers and current (series) triggered tachometers. The tachometer adapter works with any inductive storage or capacitive discharge electronic ignition control triggered by points or electronic amplifier trigger. For vehicles w/ inductive or capacitive discharge for factory style tach

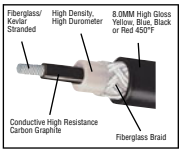
Note: No further discounts apply.

29078 ..... 154.99 ea

ACCEL Ignition

Superstock

Applications: Performance upgrade to OE-type/replacement-type
Features: Silicone spark plug boots, yellow, blue, red, & black silicone wire, zinc-plated steel spark plug terminals
Benefits: Efficient transmitter of ignition energy, popular priced performance, oversized upgrade where OE is 7mm
Construction: 8mm, 450° F silicone & EPDM rubber construction w/a fiberglass braid
Core: Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance. *Note: No further discounts apply.*



4015	8mm	yellow	37.99 set

8mm Superstock Spiral

Applications: Late model coverage
Features: Color-matched silicone spark plug boots, high gloss blue, black, red & yellow wire, stainless steel spark plug terminals
Benefits: Increased ignition energy due to lower resistance, oversized upgrade where OE is 7mm
Construction: 8mm, 550° F double silicone construction w/a fiberglass braid
Core: Spiral wound stainless steel alloy conductor, magnetic suppression & semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.
Note: No further discounts apply.

300+ Race Wire

Applications: Race engine configurations
Features: Silicone spark plug boots, black wire, stainless steel spark plug terminals
Benefits: Maximum energy to spark plug, heaviest gauge conductor in the industry, 8.8mm oversized racing wire, complete suppression of EMI/RFI (radio noise)
Construction: 8.8 mm, 600° F double silicone construction w/a fiberglass braid
Core: HD gauge spiral wound copper/ nickel alloy conductor, magnetic suppression & fully reactive ferrite material, all Kevlar core, 150 Ohms per foot resistance.
Note: No further discounts apply.

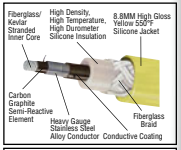
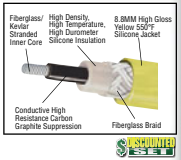
8.8mm Wire

Applications: Performance street/strip
Features: 8.8mm oversized wire, oversized 8.8mm silicone spark plug boots, high gloss yellow wire, stainless steel spark plug terminals
Benefits: True performance upgrade, increased ignition energy due to lower resistance
Construction: 8.8mm, 550° F double silicone construction w/a fiberglass braid
Core: Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/ Kevlar core, 500 Ohms per foot resistance, also available w/carbon/ graphite core.





Note: No further discounts apply.

EXTREME 9000 Ceramic Wires

New!

Increase ignition energy with these incredibly low resistance severe-duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600° F while offering a mere 500 ohm/ft of resistance and complete EMI/ RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000° F. Compatible with both pre and post HEI systems.
Important: Universal 8 cylinder sets can be used for 6 cylinder applications.
Note: No further discounts apply.

Performance Ignition

PX1181

Ignitor

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame Thrower 40,000 volt coil. Ignitor is concealed entirely within the distributor so you have no unsightly black box to clutter up your engine compartment. Easily installs in minutes with no complex wiring, is compatible with 12-volt negative ground systems, and it's smog legal in all 50 states and Canada! Comes with a 30-month warranty.

PX1181	1957-74	8 cylinder	.....	79.99 set

Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 ohms) 45,000 volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

8 Cylinder with Hall-Effect Style Sensor

PX91181	1957-74	8 cylinder	.....	114.99 set

Ignitor III

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Peak current level is reached just prior to spark for maximum energy without the heat build-up, increasing coil performance and module reliability. Legal in all 50 states and Canada. Fits GM V8 single point type distributors.

Note: Not available for 6 cylinder.

Performance Ignition

Made in USA

577410

1957-74 PR-i Ignition System

This direct replacement ignition system allows you to eliminate points ignition and add a RPM limiter all with one simple installation. This system eliminates points maintenance, "points bounce" at high RPM, and electronic dwell control for maximum ignition energy at high RPM with reduced current draw at low RPM. The Hall effect sensor detects points cam lobes and provides stable timing. No shutter or magnetic wheel required. Features a two wire hookup to the coil and includes a precise RPM limiter (200 RPM steps from 5,200 to 7000 RPM) which can be set with a flat blade screwdriver! The unit features sealed construction using surface-mount electronics, which make it waterproof and highly resistant to vibration and shock. Includes instructions and troubleshooting guide. Compatible with most original equipment ignition coils; a PR-i coil is recommended for maximum energy (sold separately). 50-state street legal. Made in USA.

Flame Thrower HEI Distributor

Experts agree that good HEI systems rely on a good module & a good coil. We believe that the combination of a great module & a great coil makes the Flame Thrower distributor the best! Operates without misfires up to a minimum of 7500 rpm.... that's 3000 rpm higher than most enthusiasts report with their stock HEI. Produces 67% more energy in the coil, delivers twice the energy across the spark gap allowing wider plug gaps (.050-.055).

Note: Please specify red, blue or black cap when ordering.

Flame-Thrower Magnetic Trigger Billet Distributor

New!

These magnetic triggering billet distributors for SB/BB Chevy engines contain a precision magnetic pick up coil and reluctor that produces a strong crisp signal even at extremely low RPM. The over molded pick up coil has excellent corrosion resistance and a standard tyco mate plug for easy wiring. This distributor is compatible with most capacitive discharge and magnetically triggered ignition systems. Distributors have a mechanical centrifugal advance. Available with black or red caps.

PX300811

Note: Must be used with an ignition box. Not legal for use on pollution controlled vehicles.

PX300811	red cap	209.99 ea

Flame Thrower Billet Slip-Collar Distributor

These Flame Thrower billet slip-collar distributors are designed to give maximum ignition performance and easy installation. Designed for small block or big block Chevrolet engines, these distributors provide all the features and benefits that the complete line of Flame Thrower distributors offer. The slip-collar design fits either standard deck or tall deck applications.

PX710460

Flame-Thrower Cast Stock Look Distributor

These Pertronix Flame-Thrower distributors appear to be stock point-type distributors, but are anything but stock. These 100% new distributors feature a hardened precision ground gear with adjustable vacuum advance and a tailored advance curve offer optimum performance. The electronics provide years of dependable, maintenance-free service. Available with the standard Ignitor ignition or with the high performance Ignitor III high energy multispark module with adjustable REV limiter built in. Includes brass contact high dielectric cap and rotor. 50 state legal. Made in USA.

Note: Fits non computer controlled small block and big block Chevrolet engines except 305 and W-series 348 - 409.

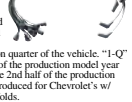
Ignition Wires

1953-74 Date Coded Spark Plug Wire Set



Reproduction Delco-Packard plug wires for 1953-74 full size models. Each wire includes the original style lettering w/the wording Packard TV R Suppression. All wires are date coded based on the production quarter of the vehicle. "1-Q" indicates the first half of the production model year and "3-Q" indicates the 2nd half of the production year. Wiring sets are produced for Chevrolet's w/ original exhaust manifolds.

Note: Not for use with aftermarket headers or manifolds. 3-Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production.

- Includes correct coded production dates!
- Available from 1953 through 1974
- Includes correct Packard TVR Suppression markings
- Officially licensed by General Motors

1955-74 7.0mm Plug Wires

PX708101

Flame Thrower Plug Wires are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high performance wire set including: 2 current paths- spiral wound stainless steel alloy winding & carbon impregnated fiberglass center core, low 500 ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil & chemicals. They also have EPDM rubber inner insulation for superior heat resistance & prevention of arcing & voltage leaks. Fiberglass reinforcing braid is added for strength & flexibility. Lifetime Warranty - Made in USA.

Ignition Wires

Thunder Volt 8.2 Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno tested and proven to increase horsepower and torque. Designed with a Ferrite spiral-wound core coated with a blend of copper/nickle bonded with a conductive acrylic cover for only 40 ohms per foot ovf resistance with optimum RFI and EMI suppression. A 2-layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

Thunder Volt 50 Ignition Wires

Taylor Thunder Volt 10.4mm ignition wires are dyno tested and proven with increases up to 5 horsepower and 7 pounds of torque. Designed with a Ferrite spiral-wound core coated with a blend of copper/nickel bonded with a conductive acrylic cover to provide low resistance at only 40 ohms per foot with optimum RFI and EMI suppression. Features a tightly woven heat treated fiberglass braid and a 3-layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees with a 102,000 volt dielectric strength. Available in black with gold lettering and low profile color-coordinated silicone boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

Taylor SST Shielded Ignition Wires

Taylor SST Shielded 8mm wires complement any engine with chrome, polish, or braided lines. A spiral wound conductor layered in two layers of a synthetic silicone blend jacketed with a braided tin coated copper cover and blue silicone boots offers protection up to 550 degrees. *Note: Installation requires the use of an included grounding kit.*

Taylor 409 Pro Race Ignition Wires

Taylor 409 Pro Race 10.4mm high performance ignition wires are designed for street and track performance. Featuring tightly woven heat treated fiberglass braid over a 100% silicone Spiro-Pro ignition wire providing a 3-layer jacket these wires have a 102,000 volt dielectric strength and thermal protection to 600 degrees. The spiral wound core with 350 ohm resistance per foot has excellent EMI and RFI suppression making them perfect for extreme electronic ignition systems. Available in black, red, and blue with low profile silicone Pro Boot spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

TT14260

Cool-It Plug Wire Sleeves

This unique spark plug and ignition wire protector comes in four colors; red, blue, black and silver. These dual-purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double-wall construction keeps the wire and boot cooler in a high-temperature engine. Its universal size fits most boots, is easy to install and - most importantly-is nonflammable. Cool-It Plug Wire Sleeves can be used in any temperature environment from street vehicles to race cars. Sleeves are available in packs of 4 or 6.

10012

Spark Plug Index Washers

These soft copper washers help increase horsepower and reducing detonation. They allow the spark plugs ground and electrode opening to be indexed in their optimal position for better combustion and reduced hot spots on the electrode. Available for both tapered and flat sealed 14mm spark plugs in packages of 30. Each set includes 10 washers in three different thicknesses.

10012	tapered indexing set	29.99 set
10022	flat indexing set	29.99 set

New!

Spark Plug Indexing Tool

This tool makes indexing spark plugs easier. Made from gold anodized billet aluminum, it accepts both tapered and flat sealed 14mm spark plugs. The tool has knurled edges for hand held use or it can be locked into a vice on its flat edges. Simply mark your desired ground electrode position and place index washers on the spark plug until the electrode lines up to the mark.

Ignition Components

1959-80 Vacuum Advances

DV1836

A primary component of your vehicle's ignition system is the vacuum advance. The vacuum advance is a mechanism attached to the distributor which moves the breaker point or pickup coil plate when it receives vacuum generated by the engine. Over time, the vacuum advance can become worn or the diaphragm can become brittle and crack causing the vehicle to run poorly.

1955-02 Replacement Ignition Coils

Service replacement and premium quality ignition coils for 6 & 8 cylinder engines. These oil-filled coils feature an increased number of wire windings for greater output voltage and a heavy duty insulator for longer life. Double outer laminations create a stronger magnetic field for higher output voltage and spark energy. Available for breaker-points ignition, HEI and late-style ignition.

New!

TSP Power Pack Ignition System

This ignition system includes everything needed for a dependable high performance ignition in one package. The system included a Pro Billet distributor which features a billet aluminum housing with adjustable collar, sealed ball bearings, mechanical advance with extra springs for multiple curves and a multi polymer distributor cap with brass contacts. The system also includes a 50 kV Power Coil and a high output digital 6AL multiple spark capacitive discharge Power Box with adjustable rev limiter.

Note: Not for use with 348-427 W-series engines.

New!

A7700200

TSP Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

1955-79 E3 Spark Plugs

E3 has created a new spark plug that burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

DYNA Force MSD

MSD DynaForce Starters

These MSD DynaForce starters are designed for severe duty, high compression applications. The 3.4 hp motors use a 4.4:1 gear reduction to easily start even an 18:1 engine with a lower current draw than traditional starters. Features a red powder coat finish and nickel plated solenoids with a three position adjustable mounting block so they can be clocked for easier installation. Small and big block models have a straight mount bolt pattern and work with 153 and 168 tooth flywheels. Made in USA.

Note: LS1/LS7 starter not compatible with GTO LS engines. No further discounts apply.

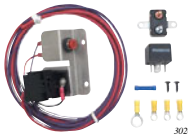
Starter Heat Shield™ Set

In today's high-heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly-reflective mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters.

TT1002	with straps	25.99 set

PAINLESS



Hot Shot Starter Solution

The solution for vehicles with GM starters that are hard to start when hot, or vehicles with old or worn out electrical systems. Works by boosting available amperage to the starter solenoid. The "Hot-Shot" Plus model includes an engine bump switch which allows you to turn over the engine while working in the engine compartment (adjusting valves, etc.) Includes stainless steel mounting bracket, 30 amp heavy duty relay, 24" wire length, wire leads, terminals, and easy-to follow instructions.

30201	with engine bump switch	74.99 ea
30202	without bump switch	38.99 ea

1965-77 GM Replacement Starter Solenoid

This starter motor solenoid commonly wears out and needs replacing due to heavy use and heat which is generated from the engine and exhaust manifolds. This original GM replacement will fit all 1965-77 full size Chevrolet models.

G7255	1965-77	46.99 ea

1958-93 Heavy Duty Starter Solenoid

The gold series solenoids are manufactured with a high-temperature insulated wire for better heat resistance, a nickel-plated mounting bracket for better ground and an increased contact area on studs for higher electrical current capacity and longer life.

GM

1965-75 Starter Motor Braces

Over a period of years, the starter motor braces are usually lost or discarded when the starter is replaced. Without this brace, undue strain will occur to the starter motor body causing wear or damage. When this happens you will need to replace the starter. This is the front support brace for use with the 1965-75 small block engine.

G5110	1965-69	283, 307, 327, 350	10.99 ea

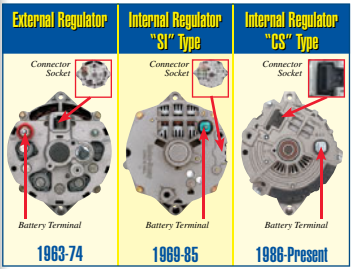
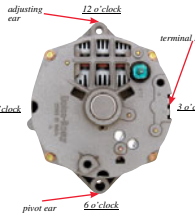
Alternators

Internal & External Regulator Alternator Identification Guide



Clocking Position Identification Guide

The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two-wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.



Smooth Look Alternators

This is a beautiful new look in alternators. The sharp lines on the back of most alternators have been replaced with a smooth domed surface. The sharp lines around the side have been eliminated and the air vents have been reworked to optimize cooling and surface finish. This chrome alternator is sure to brighten up your engine compartment. This all new alternator will add a custom appearance to your Impala while maintaining a high degree of dependability and performance.

S674611 chrome 140 amp, one-wire ..... 249.99 ea

Restore Your Charging System with a Quality Remanufactured Alternator!

Direct replacement for your worn-out or non-working original alternator. These quality remanufactured alternators will install and function as original. We offer a wide selection of different applications depending on your year and model. If your late model Chevrolet is not listed here, check our listings for brand new units.

Note: Part numbers with a "U" suffix followed by a number refers to a clock position of the terminal socket on the alternator case. Looking at the back of the alternator with the pivot ear at the bottom, or 6 o'clock position, note the clock position of the terminal socket on your original alternator, and match it to the replacement listings.

Alternator Wire Terminal Cap and Retainer

Alternator wire terminal cap and retainer used on most all vehicles equipped with a GM threaded-post type alternator. The retainer attaches behind the alternator post lead and has the clip edge to accept the cap. These protective pieces are made of injected molded plastic and each retainer is color coded to match the cap.

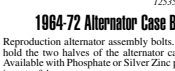
1253555 1964-72 silver zinc ..... 7.99 set

Made in USA



AR351

Alternator Bolt Sets

The subsequent loss of electrical power could be due to the OEM alternator stud failing. To prevent this from ever happening, conscientious engine builders rely on ARP's "bulletproof" alternator studs. They're made from a premium grade 8740 chrome moly steel alloy and heat treated to a nominal 200,000 psi tensile strength. They are very rigid and won't bend under the stress of competition, eliminating problems with alternator pulley alignment. Made in the USA.

1955-62 Alternator Conversion Bracket Set

Bring your 6 cylinder motor into the new age by adding an alternator. This is a 2 piece set that will mount an alternator to your 1955-62 216 or 235 Chevrolet engine. Set includes the lower mount bracket as well as the upper adjusting bracket.

CX1671	1955-62		61.99 set

1958-62 Upper Generator Brace

This is a correct reproduction upper generator brace for all 1958-62 full size Chevrolet models with 283 or 327 engines.

C603641	1958-62	283, 327	24.99 ea

SB Alternator Relocation Kit

This kit allows you to mount your alternator down low on the drivers side of the car. Uses the two bolt holes on the LH side next to the balancer. If you have trouble running tall valve covers due to alternator clearance, are trying to open up the area up top for radiator hose routing and do not have a power steering pump mounted low on the drivers side of then engine, this may be the kit for you. Requires use of short water pump.

HB800003

1958-68 Alternator Bracket for Headers

Exhaust headers often use extra thick flanges and tight bends, making it difficult to mount an alternator bracket. These ceramic-coated steel alternator brackets mount to either side of the engine to close-mount the alternator toward the vehicle center line without interference. A billet aluminum spacer is offered separately for those who wish to retain the original alternator position and belt routing. Three spacer styles are offered with either a polished or satin finish.

Note: For 1958-68 models with small block V8 and short water pump.

1958-73 Stainless Fuel Injection Fuel Tanks

Stainless steel gas tanks are a direct replacement for the OE tanks. Each tank is hand formed from 304 grade Stainless Steel and TIG welded. All tanks feature a unique baffle system to control fuel tank slosh. Each tank has baffles running front to rear, side to side, and surrounding the fuel pickups to eliminate fuel starvation during acceleration and hard braking. All fittings and mounting flanges for fuel sending units and fuel pumps are CNC machined from 304 Stainless steel stock to a thickness of 3/8" to ensure a proper seal. All tanks include an installed fuel pump and stainless steel mounting straps with hardware. All tanks have a brushed finish for easy up-keep but can be easily polished to a show finish.
Important: Fuel sending unit is not included with tank.
Note: Shipped double oversize. No further discounts apply.

Fuel Tank Components

GM37CF1

1965-66 Fuel Injected Classic Tanks

A turn key fuel tank that comes with an integrated sender and fuel pump assembly completely installed, just "plug and play". Manufactured using American-made specially coated Ni-Tern LT35 steel. Built with precise, original mounting strap depressions. Square and round welds to match original specs. Each tank has an in-tank high capacity fuel pump that is 85-115 PSI/50-60 GPH. Each features a 0-95 ohm fuel sender.

Important: Will not fit station wagon models.

Note: Shipped double oversize.

GH3008

1958-66 Remanufactured AC Fuel Pumps

At last, the often difficult to find AC fuel pumps are available for your passenger car as a remanufactured model. Each pump is thoroughly rebuilt including new valves, diaphragm, oil seal, and gasket. Mounting gasket is included with each pump. Pump stamping number can be found on mounting flange.

*Note: *With Hi-Po.*

1984-96 Electric Fuel Pumps

Electric fuel pumps will require additional components for installation. Please read the notes carefully to determine the correct style pump for your year and model. You may contact our technical department for more information.

Note: New strainers must be used on electric pumps for warranty compliance. Fuel pump strainers are included on electric pumps without notation. If a strainer is listed in the pump description, you must order it separately. Due to electrical requirements on certain fuel pumps, models denoted with one or two asterisks (or **) require a strainer and wire harness adaptor for installation. * use S20194 strainer & S88536 wire harness ** use S20197 strainer & S88536 wire harness † use S20192 strainer.*

Holley Chrome Fuel Pumps

Replace your original fuel pump with a genuine Holley triple chrome plated fuel pump. Each hi-volume mechanical fuel pump flows 60 gallons per hour at 7-1/2 PSI. Features include an adjustable lower housing allowing 360 degree rotation of fuel inlet-outlet fittings for custom installations. Applications to fit small block and big block engines. 3/8" NPT inlet and outlet.

Note: No further discounts apply.

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage. Easy to read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments).

Y20300			27.99 ea

New!

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872	fuel pump safety switch		21.99 ea

62541

Electric Fuel Pumps

These externally-mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vein technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve. Available in a range of pressures with the choice of chrome or cadmium-plated housings.

Note: Not for fuel-injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.

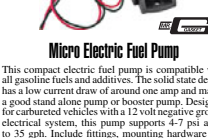
Electric Fuel Components

Low Profile Fuel Line Disconnect Set

Easily disconnect fuel injection quick connect fuel lines in hard-to-reach locations. 3/8" adapters work on GM fuel lines. 5/16" adapters work on Ford and Chrysler applications.

34750 ..... 24.99 set

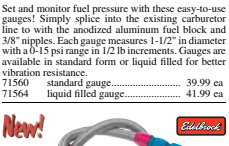


Micro Electric Fuel Pump

This compact electric fuel pump is compatible with all gasoline fuels and additives. The solid state design has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Include fittings, mounting hardware and instructions.

Note: Not for diesel applications.

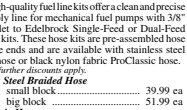
71211 micro electric fuel pump ..... 39.99 ea



Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy-to-use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance.

71560 standard gauge ..... 39.99 ea
71564 liquid filled gauge ..... 41.99 ea



Edelbrock Pump To Carburetor Fuel Line

These high-quality fuel line kits offer a clean and precise fuel supply line for mechanical fuel pumps with 3/8" NPT outlet to Edelbrock Single-Feed or Dual-Feed fuel inlet kits. These hose kits are pre-assembled hose with hose ends and are available with stainless steel braided hose or black nylon fabric ProClassic hose.

Note: No further discounts apply.

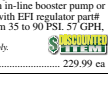
Universal Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which to reduce the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part# E1791 or E1792.

Note: No further discounts apply.

E1795 ..... 59.99 ea

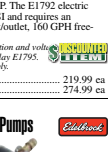


In-Line Street/Strip Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand-alone unit. Use with EFI regulator part# E1728 for adjustability from 35 to 90 PSI. 57 GPH, 3/8" hose barb fittings.

Note: No further discounts apply.

E3594 ..... 229.99 ea



Quiet-Flo Electric Fuel Pumps

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 PSI does not require a regulator. 3/8" inlet/outlet, 120 GPH free-flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 PSI and requires an external regulator. 1/2" inlet/outlet, 160 GPH free-flow, up to 1000 HP.

Important: For proper installation and voltage requirements, use fuel pump relay E1795.

Note: No further discounts apply.

E1791 6.5 PSI ..... 219.99 ea
E1792 12 PSI ..... 274.99 ea

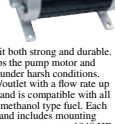
Quiet-Flo Electric Fuel Pumps

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. Its rugged housing and high quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 GPH at 45 PSI for high-HP fuel injected applications. This fuel pump supports 835 HP at 12 volts with a current draw of 12 AMPS at 45 PSI. 10AN inlet/outlet 80 GPH at 45 PSI.

Important: Dimensions: 6-7/8" X 3-1/4".

Note: No further discounts apply.

E1790 ..... 584.99 ea



Quiet-Flo Electric Fuel Pumps

For huge horsepower from an EFI engine, this external fuel pump offers the ultimate performance in a compact package. Anodized aluminum housing and high quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions. Features a -12AN inlet/outlet with a flow rate up to 120 GPH at 45 PSI, and is compatible with all grades of gasoline and methanol type fuel. Each pump is factory tested and includes mounting brackets. This fuel pump supports up to 1040 HP at 12 volts, drawing 18 AMPS at 70 PSI. 12AN inlet/outlet 120 GPH at 45 PSI.

Important: Dimensions: 7" X 3".

Note: No further discounts apply.

E1794 ..... 849.99 ea

Fuel Pressure Regulators

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. The E1728 features dual -6AN inlet ports, a single -6AN outlet and a -6AN external bypass. Compatible with all grades of gasoline and methanol fuels. Adjustable from 35 PSI to 90 PSI and have 1/8" NPT gauge ports. 180 GPH, w/-6AN inlet/outlet, 35-90 PSI for EFI.

Note: No further discounts apply.

E1728 ..... 199.99 ea

Fuel Pressure Regulators

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. The E1729 has a longer body and dual -10AN inlet ports, a single -10AN outlet and a -6AN external bypass. They are compatible with all grades of gasoline and methanol fuels. Both units are adjustable from 35 PSI to 90 PSI and have 1/8" NPT gauge ports. 180 GPH, w/-10AN inlet/outlet, 35-90 PSI for EFI.

Note: No further discounts apply.

E1729 ..... 209.99 ea

Fuel Pressure Regulator

This fuel pressure regulator is machined from aircraft quality aluminum with fluorosilicone diaphragm material for high temperature protection and extended life. This fuel pressure regulator has a single 3/8" NPT inlet and dual 3/8" NPT outlets for carbureted applications and is adjustable from 5 PSI to 10 PSI, providing extremely consistent pressure regulation. Compatible with all grades of gasoline and methanol, and has a 1/8" NPT gauge port. Includes mounting brackets and hardware. 160 GPH, 5 PSI to 10 PSI for carburetors.

Note: No further discounts apply.

Edelbrock Carburetors

Edelbrock Thunder Carburetors

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. Its a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball-burnished and CNC-profiled body, and the Quick-Tune secondary. They're available in 650 CFM and 800 CFM sizes with manual or electric choke. There's even an 800 CFM version specifically designed for off road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

EnduraShine Finish

The EnduraShine finish carburetors offer an everlasting show quality appearance, extreme durability and unmatched performance. The durable finish won't turn blue like chrome and it doesn't require countless hours of polishing and maintenance to maintain the everlasting shine. These bright silver chrome finish carburetors are powder coated for durability. The clear top coat enhances the polished aluminum look for a great appearance.

E1806

650 CFM Carburetors

Recommended for most Performer applications and small cubic-inch Torker II applications.

Note: No further discounts apply.

E1805	650 CFM	manual choke	364.99 ea

E8132	with 3/8" barbed end and no filter	81.99 ea
E8130	blue anodized fuel filter only	29.99 ea
E8129	polished aluminum fuel filter only	34.99 ea

Edelbrock Performer Carburetors

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square-bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air-Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square-bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

E1405

500 CFM Carburetors

Recommended for small cubic-inch Performer and dual quad applications. Includes both timed and full vacuum ports for ignition advance.

Note: No further discounts apply.

EPS 800 CFM Carburetors

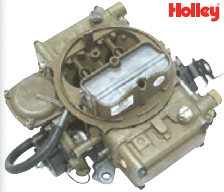
The new EPS 800 carb is designed and calibrated for street high-performance engines. Dyno tests show that the EPS 800 carb outperformed a Holley #3310 carb out of the box by 26 ft/lbs. of torque and 22 horsepower on a small block Chevy equipped with Performer RPM components. Features include a high-capacity accelerator pump, and an improved secondary cluster design.

Note: No further discounts apply.

E1412	800 CFM	manual choke	429.99 ea
E1413	800 CFM	electric choke	429.99 ea

Holley® Carburetors

Don't settle for anything less than a perfect factory original replacement! These new Holley carburetor assemblies are designed to replace the factory original exactly. Each carburetor is manufactured from the original Holley tooling ensuring an authentic and powerful replacement of the original factory installed carburetor.



600 CFM Holley Carburetor

Classic offers newly re-manufactured 600 CFM Holley carburetors. They feature an original finish, vacuum secondaries, and Power Valve blowout protection. For all engines with or without air injection reactor (smog). These replacements are similar to the units installed on 1967-69 Z28s with cross ram induction and can be used to replace list numbers 3810S, 4410A, and 4295.

Important: *Throttle solenoid used on some models not included. Order separately. Carburetor is stamped with current manufacturing date.*

Note: *No further discounts apply.*

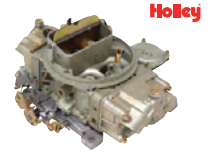
1970 LT1 Z28 Holley Carburetor

This Holley carburetor assembly for LT1-equipped 1970 models is an exact reproduction equipment, manufactured by Holley themselves, using their original tooling. Replaces GM part number 3972121 on both automatic and manual transmission cars.

Important: *Carburetor is stamped with current manufacturing date.*

Note: *No further discounts apply.*

H4555 1970 AT or MT ..... 789.99 ea



1970 Holley Carburetor

This Holley carburetor assembly for 1970 models is for LS6, L78, L89, 396 and 454 high performance engines. Each carburetor is manufactured from the original Holley tooling insuring an authentic and powerful replacement of the original factory installed carburetor. Replaces GM part number 3969898 for automatic transmission.

Important: *Carburetor is stamped with current manufacturing date.*

Note: *No further discounts apply.*

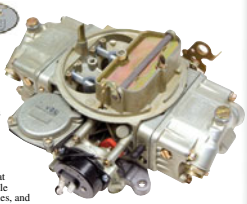
H80670	670 CFM	four barrel	431.99 ea
H80770	770 CFM	four barrel	431.99 ea

Holley 650 CFM Carburetor



This Holley 4150 Series 650 CFM 4 barrel carburetor is ideal for most moderate performance small block V8 engines. It features center hung float bowls, a universal throttle lever, vacuum secondaries, and an electric choke. This is one of the simplest ways to get more performance from your engine.

Note: No further discounts apply.

H80783	650 CFM	electric choke	424.99 ea

Holley Accelerator Pump Cam Set

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

Note: No further discounts apply.

H2012	includes 8 pump cams	26.99 set

Performance Carburetors

67212

67208

Carburetor Main Body Features:
- *High-Flow Center Section Design*
- *Flat Surfaces: CNC Precision Finish*
- *Changeable Screw-In Idle Air Bleeds*
- *Changeable Screw-In High Speed Bleeds*
- *High-Performance Down-Leg Boosters except 650 CFM*
- *Electric Choke*

Fuel Bowl Features:
- *Fuel Level Sight Windows*
- *Externally Adjustable Needle & Seat*
- *Dual Feed Fuel Inlet*
- *Notched Secondary Float*

Billet Throttle Base Plate Features:
- *Adjustable Secondary Housing on Vacuum Secondary Models*
- *Easy Access Secondary Idle Air Flow Adjustment*
- *Strong, Lightweight Billet Aluminum*
- *Corrosion Resistant Bright Anodized Appearance*
- *Button Torx Head Throttle Plate Screws*
- *Power Valve Blow Out Protection*
- *Slip Link Linkage on Mechanical Secondary Models*

Billet Metering Block Features:
- *4 Corner Idle System on Mechanical Secondary Models*
- *Changeable Idle Feed Restrictions*
- *Durable, No Warping or Porosity Problems*
- *Secondary Jet Extensions on Mechanical Secondary Models*
- *Non-Stick Gaskets*

PROFORM

PROFORM Street Series Carbs

Based on the highly successful Race Series carburetors, PROFORM street carburetors are constructed with lightweight aluminum. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using PROFORM High-Flow Carburetor Main Body, durable billet metering blocks, aluminum fuel bowls, and a high performance billet throttle base plate.

2900

MSD Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80lb. injectors and a self-calibrating throttle position sensor. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide-band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

Note: Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O number D-722. No further discounts apply.

New! MOROSO

EFI Fuel Return Adapter

When converting a carbureted vehicle to an EFI system that requires a fuel return system, there's no longer any need to buy an expensive fuel tank. This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes the adapter with two buna rubber sleeves and four stainless steel clamps for a leak proof seal.

265385 fuel return line adapter ..... 49.99 set

New! MOROSO

Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level by tilting it forward 5 degrees This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.
Note: Not legal for use on pollution controlled vehicles.

265030 ..... 39.99 ea

New! MOROSO

Rubber Air Cleaner Base Gasket

This buna rubber air cleaner base gasket forms a positive seal between the air cleaner and the top of carburetors with a 5-1/8" neck. Designed for air cleaners with a straight lip, the gasket has a groove that fits over the lip for a superior seal against dust and debris. It can also be flipped and used on air cleaners with a rolled lip.

Street Demon Calibration Set

This calibration kit allows fine tuning of Street Demon carburetors. Although the carburetors are already fine tuned other adjustments and modifications may be necessary for optimal performance in built engines with large cams. This kit includes an assortment of primary jets, metering rods and step-up springs along with secondary jets all in a convenient plastic storage case.

Note: No further discounts apply.

D1921	Demon calibration set	79.99 set

Edelbrock Carburetor Calibration Sets

E1489

These sets include a selection of metering rods, jets, and step up springs that allow fine tuning and calibration of Edelbrock Performer and Thunder Series carburetors for mildly to extremely built motors, especially motors with performance camshafts that cause low intake manifold vacuum. Made in USA.

Note: Not legal for pollution controlled vehicles. No further discounts apply.

Carburetor Parts

Fuel Pump Safety Switch

If your motor stalls and your float sticks or if you're in an accident, your electric fuel pump will keep running, fueling a possible fire. Make your muscle car safer with this Fuel Pump Safety Switch. Wired in-line with your fuel pump, the switch monitors the tachometer signal and shuts off the fuel pump when the engine stops running. When the key is turned on, the fuel pump is allowed to prime for 3 seconds. After priming, the pump is only allowed to run when the engine is running. Internal 7.5A resettable fuse. No plumbing into oil pressure lines. No priming button needed. Works with all replacement and high performance electric fuel pumps. Made in the USA and has a 1 year warranty. Measures 2" x 1.5" x 1".

RE12003 ..... 64.99 ea

1967 Rochester Carburetor Repair Kit

You've got the original carburetor but it needs work. What do you do? You get a carburetor repair kit and fix it! This OE style repair kit is fabulous for repairing minor problems associated with original Rochester carburetors. Full Size Chevrolet Headers

1958-94 Hedman Hedders

Classic Industries® stocks a full line of Hedman Hedders™ for 1958-96 full size Chevrolet models. These units are designed to replace the heavy, and restrictive factory manifolds with tubular steel manifolds. These Hedders are not only lighter, but will also increase your Chevrolet's performance. Tork-Step hedders feature an innovative design that allows for and increased overall torque curve. Sets are complete and ready to bolt on. Includes collector and header to head gaskets, collectors, and bolts. We offer Hedman Hedders™ for use with or without air injection (smog tubes).

Important: Available in black only. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. ***Note:*** *Shipped oversize. No further discounts apply.*

Hedman Hedder Notes

1) Without smog injection or injection heads.
4) Includes parts necessary to retain emission devices. (50-State).
5) With A.I.R. system.
6) Modification to stock exhaust required to retain catalytic converter.
15) Shortie hedder (Max. ground clearance).
20) Not recommended for use with aluminum heads.
25) Engine swap, all parts must be factory stock.
26) AC equipped vehicles require bracket #20110.
45) Not legal for sale or use in California on pollution controlled motor vehicles.
49) Will not fit Saginaw close ratio P/S with 825 power steering box.
103) Will fit with angle plug heads - Chevrolet aluminum only.
121) Must modify rotary R4-AC bracket.
208) Due to aluminum cylinder heads on GEN VI engines, 502 BB Chevy will have clearance problems on some applications. Bottom of header flanges may hit head bolts. Notching may be necessary.

Hedman Emission Notes

B) Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a highway.
C) For vehicles 1964 through 1974 without A.I.R. system, considered as O.E. replacement parts when existing emission controls are not removed from vehicle.
D) Not legal for sale or use in California.
F) For vehicles 1964 through 1974 with A.I.R. system, considered as O.E. replacement parts and do not require an E.O. #, when existing emission controls are not removed from vehicle.
K) 1975-80 only, 50 state legal for these years only.
N) 1975-81 only, 50 state legal for these years only.

1958-94 Doug's Headers

Doug's headers are carefully developed to fit each specific vehicle application. Doug's headers are available for 1958-94 full size Chevrolet models with small block or big block V8 engines, with and without air-injection ports, and with console or column shifters. Heavy-duty machined and finished header flanges, the smooth mandrel bends tubes, and a protective Metallic Ceramic Thermal Barrier Coating (MCTBC) make Doug's Headers an excellent choice for exhaust system performance.

Important: Headers are intended for off-highway use only and are not designed for use on California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. ***Note:*** *Shipped oversize.*

Doug's Header Notes

5) Shorty design for maximum ground clearance.
36) Fits D-Port cylinder heads including ZZ4 crate engines.
52) Will not fit Saginaw close ratio with 825 power steering box.
69) Big block frame stands and motor mounts must be used to insure proper engine location and header fit.
92) Will fit most angle plug heads including factory Chevrolet "Bow-Tie" heads.
93) Vehicles with locking steering columns require linkage removal.
96) May require AC bracket 7608.
125) Fits Edelbrock angle plug heads.
126) Tri-Y design.

Doug's Header Notes

133) Will not fit with Powerglide transmission.
180) Requires LS1 adapter plate set SK100
181) Includes 3" to 2 1/2" reducers with O2 fittings
214) Must use non-shell type motor mounts

Doug's Emission Notes

3) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission-controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

Exhaust Manifolds

GM Restoration Parts

1968 Small Block Exhaust Manifolds

There's no better feeling than knowing you're replacing an integral part of your engine with correct reproductions! Each reproduction exhaust manifold is specifically designed to replace the original exactly, including correct part numbers cast into each manifold. This reproduction is regarded as the early style and does not include smog tube holes. Sold in pairs only for a complete replacement.

GM Restoration Parts

1968-72 Big Block Exhaust Manifolds

Reproduction exhaust manifolds for 1968-72 full size big block models. These extremely high-quality manifolds are designed and manufactured to exact original specifications including the correct casting numbers for 1968-70 models. The manifolds are also correct for 1971-72 big blocks with the exception of the casting numbers, which were different. Reproduction manifolds were *"outflow"* tested to ensure factory equivalent specifications. We now offer your choice of manifolds for early models not equipped with air injection tubes, or manifolds with correct air injection tube hole locations. Manifolds are sold in pairs only.

AR1111

Made in USA

Header Bolt Sets

ARP manufactures premium grade bolt sets to facilitate installation of exhaust headers in both stainless steel or 8740 chrome moly steel. The Stainless 300 material is not affected by corrosion or extreme heat. What's more, the compact 12-point nut version lets you easily slip a socket close to the pipe. Each ARP bolt set includes the specific number of parts for your application, plus premium-quality washers and hex or 12-point nuts, as required. Each small block set contains 12 bolts and each big block kit contains 16 bolts. Made in USA.

Keep Cast Iron Manifolds Looking New!

Apply this non-toxic manifold dressing to your manifolds with a cloth and polish them to a silvery shine. One 3 ounce container will do approximately 3 sets of manifolds. Burn proof up to 1800 degrees fahrenheit. For those before-show touch-ups, try our quikstik manifold dressing touch-up stick.

CY1001 3 ounce can..... 15.99 ea

1967-69 Reproduction Smog Tubes

We offer reproduction smog tubes also known as air injection reactor tubes which are manufactured exactly as original! These tubes are cosmetically correct in every detail! Each tube is manufactured to exact factory specifications including correct bends and outlets for installation onto the exhaust manifold. A correct threaded outlet head is installed for easy installation of the smog pump check valves. Original GM tubes are finished in the correct zinc plating.

14674	1969-76		44.99 ea

1969-70 Smog Pump Pulley

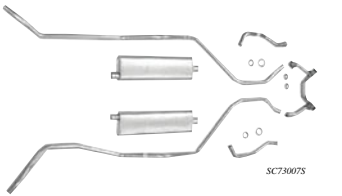
Quality reproduction of the deep groove A.I.R. (air injection reactor) pump pulley for high performance small block and big block models. Single groove, 5-3/4" o.d.

K1132	1969-70	w/hi perf eng.	89.99 ea

Warning: Concerning Smog Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Original Style Exhaust Systems



SC73007S

1958-66 Original Style Exhaust Systems - Stainless Steel

OE-style replacement exhaust systems for all 1958-66 full size Chevrolet models. Manufactured in 304 grade stainless steel, each replacement exhaust system is designed to closely duplicate and replace the original system. All systems feature as-original notched-tip tailpipes and all exhaust systems are mandrel bent for improved performance and exhaust flow. Each system includes header pipes and two header pipe flange gaskets as required.
Note: Special shipping charges apply.

F15923

Header Collector Ball Flange Set

This header collector set takes the place of messy three-bolt, flange-type connections and allows for a leak-free and gasket-free ball-flange type connection.

F15923	3.5" collector to 3" system	99.99 set
F15925	3" collector to 2.5" system	99.99 set

Aftermarket Exhaust Systems

1965-96 Header Back System With X-Pipe

Fabricated using 16 gauge, mandrel-bent stainless steel pipe ensures maximum exhaust gas flow which will boost horsepower. This system features a Siamese designed X-pipe, a pair of Street Pros mufflers for 1965-69 or Race Pros mufflers for 1994-96, tailpipes, cad plated clamps and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. 2-1/2" header back system with X-pipe.

Important: *If using stock, cast iron manifolds, add a set of downpipes to connect your original manifolds to the header back system.*

Note: *Shipped double oversize.* 092

1965-89 Header Back System With X-Change

Pypes has designed a 2-1/2" Header Back dual exhaust systems for 1965-69 V8 models. Fabricated using 16 gauge, mandrel-bent aluminized steel pipe ensures maximum exhaust gas flow which will boost horsepower. X-change crossover is unique with its open port exhaust that provides a straight path when uncapped yet still utilizes the benefits of the crossover technology for an extra 10-15 mph. Features a Siamese designed X-pipe with the X-change crossover, a pair of Street Pros mufflers, tailpipes, cad plated clamps and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. 2-1/2" header back system with X-change.

Important: *If using stock, cast iron manifolds, add a set of downpipes to connect your original manifolds to the header back system.*

Note: *Shipped double oversize.* 092

1962 Borla T-304 Stainless Exhaust System

These smooth bore 2-1/2" mandrel bent true dual exhaust systems from Borla fit 1962 Impala and full size models with manual or automatic transmission with small block 283, 327, or LS1 engines and increases horsepower 7-10% in most vehicles. These systems include two turbo style mufflers, head pipes for stock exhaust manifolds, and two styles of tailpipes to give you the choice of split rear or side exit through polished 2" stainless steel turned down exhaust tips. All Borla systems are made from the aircraft grade T-304 stainless steel and are backed by a 1,000,000 mile warranty.

Important: *Does not fit wagon models.*

Note: *Shipped double oversize. No further discounts apply.* 092

Electric Exhaust Cut-Outs

Don't crawl under your car to uncork your exhaust ever again by switching to electric cut-outs. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high quality materials- CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather-tight wiring connectors, and custom illuminated toggle switch.

Note: Match valve size with cut-out size for optimal fit and performance.

Doug's Stainless Steel Electric Cutouts

These cut-outs feature a rugged 12 volt DC motor and rotating gate for a leakproof seal every time the cut-out is opened and closed. When fully opened, these cut-outs do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly-style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cut-outs are ideal for race tracks that don't require mufflers. These Doug's cut-outs are available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Note: May not be legal for highway use or use on emission controlled vehicles.
Important: Not recommended for vehicles equipped with catalytic converters.

Key Features:
- 304 stainless steel construction
- High torque 12 Volt DC gear reduction motors
- Self adjusting, self cleaning gate for leak proof seal
- Zero obstructions when fully open
- Harness pre-wired for easy installation
- Reduced size permits greater installation options
- Includes wiring harness, gaskets and hardware
- Cutout kits included Y-pipe & band clamps for simple installation

Dual Drive Oxygen Sensor Wrench

Tool comes with both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat-treated steel with six point design will withstand high torque removal applications.

Low-Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your full size Chevrolet passenger car. This look was popular in the late 1950's and early 1960's. When set up as a functional feature, it allowed the racer to uncap or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the car with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from three styles - slanted outlet without cap, triple outlet with caps or single outlet with cap. Available in three lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

Note: Shipped oversize.

FLOWMASTER Performance Mufflers

Flowmaster's technology uses the pressure and sound energy released from an engine's combustion chamber into the exhaust system to create a low pressure area between exhaust pulses. Their design uses this energy to pull spent gases out of each cylinder more efficiently. This improved removal of exhaust gases out of the cylinders promotes a more efficient charge of unburned fuel and air to fill the cylinder for the next cycle. The result is more power as the engine has a purer mixture to burn.

New!

Flowmaster Super 10 Series Stainless Steel Mufflers

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures 6.5" x 9.5" x 4".

Note: These mufflers are recommended for off-highway use, not for street driven vehicles

FLOWMASTER Super 40 American Thunder

The Super 40 5" X 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased bend radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminized, black in color and is the most aggressive, deepest-sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

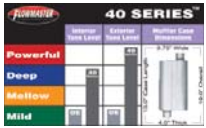
FLOWMASTER 40 Series Performance Mufflers



- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

F42441

Flowmaster 40 Series-Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 rpm's, and again at 2400-2600 rpm's. Constructed of 16 gauge aluminized steel and fully mig-welded for maximum durability

F42441	2.25"	offset inlet/center outlet	84.99 ea

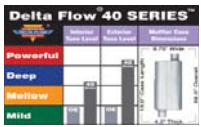
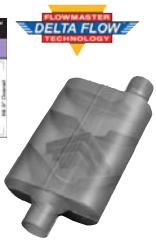
FLOWMASTER Delta Flow 40 Performance Mufflers





- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

Flowmaster Delta Flow 40 Series-Reduced Interior Resonance

This two chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully mig-welded for maximum durability.

Magnaflow 4" x 9" Oval Mufflers

Magnaflow's wide-open performance mufflers outflow OEM chamber style mufflers by as much as 167%! This reduces engine heat and back pressure and improves exhaust scavenging from the combustion chamber. Magnaflow minimizes the power robbing effects of the OEM system to restore torque and horsepower to the engine. Magnaflow is the straight through, wide-open performance muffler with a smooth, deep tone. These mufflers offer a reversible inlet/outlet design.

Performance Exhaust

Pypes Performance Stainless Steel Mufflers

Through extensive research and feedback from customers, Pypes has learned that no one muffler design is best. Every car is different, and everyone has different requirements. Different performance modifications change the sound and functionality of a muffler, so it's nice to have several different proven designs to choose from! One thing that is consistent with all Pypes mufflers is that they are high quality, precision engineered and constructed which allow us to include a lifetime warranty!

Street Pro Mufflers

Don't let the looks of this muffler fool you. At idle, you may cause passengers to grab for their seat belts, but upon acceleration, the smooth, authoritative tone turns apprehension into reassured confidence. This is a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler because there is no filler to burn off. Recommended for stock to medium modified vehicles where an aggressive sound is appreciated without demanding undesirable attention. Muffler shell measures 4" x 9" x 14" long. Limited lifetime warranty.

Race Pro Mufflers

Sometimes you just have to have the best of everything. When it comes to flow, you just can't get anything better than our Race Pro Muffler. This baby features a 'straight through' path with throughput that can flow 95% as efficiently as a straight pipe! The throaty sound is surprisingly tame considering the absence of any impedance when you look down its barrel. At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders lookout! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Highly recommended for the track where every tenth counts. Of course, there are plenty of these mufflers hidden under some fine street machines, too! Muffler shell measures 4" x 9" x 14" long. Limited lifetime warranty.

Violator Mufflers

The Pypes Violator muffler has quickly gained acceptance and praise in the marketplace. It flows as much air as the Race-Pro muffler but has an incredibly distinctive chambered sound! The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers. Finally, a muffler that flows like a straight through muffler but sounds like a chambered muffler. If you want to be noticed, then this is your muffler! Muffler shell measures 4" x 9" x 14" long. Limited lifetime warranty.

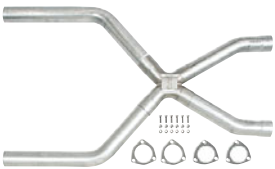
Exhaust Accessories

New! Dr. Gas!



A7700139

Made in USA

Dr. Gas Universal X-Pipe Crossover

Dr. Gas designed and commercialized the x-pipe crossover in the '80s. X-pipes equalize exhaust system pressure imbalances while producing a scavenging effect for more power and efficiency. Exhaust note is dramatically improved to a smoother, higher-pitch note. Universal x-pipe crossover sets are available in 2.5", 3", 3.5", and two special sizes with built-in reducers after the X junction. Sizes with reducers deliver enhanced torque without a horsepower loss. Complete sets include two inlet bends, the x-pipe junction, two outlet bends, and flanges with gaskets and hardware. Precision made with premium materials. Made in USA.

Note: Welding and trimming required. Test fit before final installation. No returns accepted once products are trimmed or altered.

Dr. Gas Boom Tubes

Dr. Gas Boom Tubes were designed for stock car racing, and now these low-profile side-exit exhausts are available for your muscle car. Boom Tubes have no restriction and are a perfect add-on for exhaust cut-outs. Boom Tubes are fully MIG welded and can be trimmed to match your vehicle's side profile. Untrimmed Boom Tubes measure approximately 27.5" long and are available with 2.5", 3", and 3.5" round inlets. From the inlet transition, they drop to a thin 1.75" thick and 8" wide with two lengthwise support ribs. Exposed exit is approximately 12" to 14" wide depending on the trim angle. Combine with Dr. Gas mufflers and x-pipe system for a one-of-a-kind exhaust sound! Made in USA.

Note: Test fit before trimming. No returns accepted once Boom Tubes are trimmed or altered.

THERMO-TEC®

TT1017

Flexible Heat Shield That Clips Into Place!

The Header Manifold Blanket™ provides excellent heat-retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in two sizes: (2) 20" by 24" blankets for V6 & V8 applications, and (1) 36" by 40" blanket for straight 6 & 4 cylinder engines.

TT1017	V6-V8 applications	85.99 pr
TT1018	straight 6 or 4 cyl models	89.99 ea

Reduce Under-Hood Temperatures!

The original Exhaust Insulating Wrap™ was developed over 12 years ago by Thermo-Tec®. Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000°F, and contains no asbestos. Thermo-Tec® exhaust wrap will not over-insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. This coating controls heat buildup and dissipation. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

TT1016

Reduce Under-HoodTemperatures

The new quick-wrap, high-velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec® and can be applied with the headers in the vehicle.

Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200° F (maximum continuous temperature of 1000° F). Available in black or natural in 50' or 25' rolls.

Micro Louver Air Shield

Lightweight yet durable, the aluminum Micro Louver Air Shield features micro air louvers, which allow air to flow through the metal shield. The movement of the vehicle creates dynamic air flow, cooling by natural convection. The textured surface created by the micro air louvers creates more area for heat dissipation. The Micro Louver Air Shield is flexible yet durable; it bends and flexes easily by hand, making a custom fit trouble-free.

Hi-Heat Coating

To finish off a clean and well-protected Exhaust Insulating Wrap application it is recommended to use the Hi-Heat Coating. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

Shield Hoses & Wiring From Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive-backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000° F. Provides a barrier against the extreme conditions that under-hood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

B&M Transmission Products

Pour-in Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase - it's reality! It can be mixed with stock-type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: Not recommended for electronically controlled automatic transmissions.

Note: No further discounts apply.

Buy a Case & Save 11.45!

223041 Original Trick Shift™ - 12 qts... 75.99 cs

Formulated for Late Models!

B&M's Synthetic Trick Shift™ is suitable for all automatic transmissions including late model electronic controlled transmissions. Formulated as a performance automatic transmission fluid, it features the latest synthetic fluid technology. Not an additive, this safe and effective formula of extreme pressure agents and foam inhibitors provides a long service life for your transmission. Ideal for street use and high performance applications including racing, off-road, towing and heavy duty fleet use. Synthetic Trick Shift™ may be mixed with all other types of ATF but works best by itself.

Note: No further discounts apply.

Key Features:

- Cool blue color.
- Latest synthetic fluid technology.
- Excellent when installing all B&M transmission kits.
- Mixes with other types of automatic transmission fluids.
- Formulated for late model vehicles.
- Suitable for racing, street performance, towing and off-road applications.
- Easy pour quart bottles.
- Meets or exceeds Mercon or Dexron III requirements.

223043 Synthetic Trick Shift™ - 12 qts. 113.99 cs

Fifty Years of Expertise!

B&M has been building transmissions for extreme duty use for almost 5 decades. From the famous B&M Hydrostick of the 50s to the Torkmasters and Clutchflites of the 60s, B&M has been the yardstick to which all other performance automatics have been measured. Transmissions unequalled in quality, features and durability.

Note: All transmissions are special order and must be pre-paid. No further discounts apply.

Street/Strip TH350 & TH400

B&M's Street/Strip Transmission is a complete ready to run unit (less converter) for high performance street and mild strip use. The transmission provides firm shifts and features a standard shift pattern. These are the finest available for street/strip use.

Street TH-700-R4/4L60

This transmission is suitable for use behind engines producing up to 450 lb/ft of torque, which covers most small blocks and mild big blocks. A low first gear ratio and overdrive 4th make these very desirable units. Note: Will not replace 4L60E applications (post 1993).

Traveler Transmissions

This is a rugged model and has a medium/firm shift compared to the hard shift of the Street/Strip model. The Traveler features increased oil flow which provides for cooler operation under heavy duty use. The Traveler would be a good selection for towing applications.

GM TH350

Key Features:

- 2.52:1 first gear ratio, 1.52:1 second gear.
- Extra wide direct drum bushing.
- Machined forward and direct pistons.
- All new B&M high performance friction plates.
- New intermediate roller clutch.
- New kickdown band with welded anchors
- All new thrust bearings and races.
- New adjustable modulator.
- New detent control link w/new breather & filter.
- Recalibrated valve body.

Note: Shipped truck freight.

Art Carr's California Performance Transmission

AC13300

California Performance Transmissions

Whether you have a stock engine or one that's built-to-the-hilt, you don't want an automatic transmission that just slides into gear. You need one that shifts positively into each gear, especially at wide-open throttle. That is what you get from California Performance Transmission. Each transmission is dyno tested to ensure accurate shifting and pressure and backed by a 2 year manufacturer's limited warranty.
Note: Special order. Shipped truck freight.
No further discounts apply.

TH350 & TH400

Built with heavy-duty clutches and bands to withstand the rigors of the street and strip use. Modified from stock design for improved lubrication. Hi-Tech valve body offers the choice between manual and fully automatic shift control.
***Important:** Do not use torque converters with a stall speed in excess of 2600RPM.*

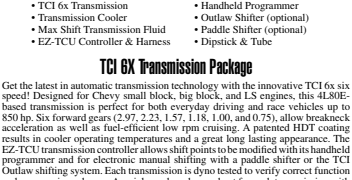
TCI



27162

Includes

- TCI 6x Transmission
- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller & Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick & Tube

TCI 6X Transmission Package

Get the latest in automatic transmission technology with the innovative TCI 6x six speed! Designed for Chevy small block, big block, and LS engines, this 4L80E-based transmission is perfect for both everyday driving and race vehicles up to 850 hp. Six forward gears (2.97, 2.23, 1.57, 1.18, 1.00, and 0.75), allow breakneck acceleration as well as fuel-efficient low rpm cruising. A patented HDT coating results in cooler operating temperatures and a great long lasting appearance. The EZ-TCU transmission controller allows shift points to be modified with its handheld programmer and for electronic manual shifting with a paddle shifter or the TCI Outlaw shifting system. Each transmission is dyno tested to verify correct function and pressure in each gear. A serial-numbered spec sheet for each transmission with performance test scores is included.
***Important:** 4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 3 or 6 bolt steering wheel adaptors.*
***Note:** Some modification may be required. Special order, must be prepaid.*

SuperMatic 4L70E Transmission

GM PERFORMANCE PARTS

Support up to 480 horsepower with the SuperMatic 4L70E. Greater performance with enhanced efficiency is the cornerstone of a growing movement in environmentally-conscious hot-rodding or "E-rodding". One of the best ways to drastically improve the efficiency and driveability of your vehicle is by installing a modern automatic overdrive transmission. This GM Performance Parts 4L70E transmission compliments high-performance engines with the exceptional efficiency, strength, and shift characteristics that enthusiasts demand. Built with the highest quality OEM parts, including a 13-vane pump with a heat-treated stator support, five-pinion input and reaction carriers, high performance 2/4 servo, heat-treated sun shell and heavy-duty low roller clutch assembly, and a robust 3-4 clutch pack and high-energy 2-4 band. Needle bearing assemblies replace conventional thrust washers to minimize power losses. The new SuperMatic 4L70E is the perfect compliment to a GMPP crate engine, creating a bulletproof powertrain for any project you can dream up.
***Note:** Special order item. Must be prepaid. Shipped truck freight.*

B&M Transmission Products

HoleShot™ for Small Block & Big Block Applications!

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Many modifications, particularly big cams, tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher rpm where more torque is available. The HoleShot™ is generally a very good choice for the typical street machine that is looking for better launch capability and more strength. Street rods with modified engines will also benefit from a HoleShot™ converter. Not recommended for N20 equipped engines.

Stall speed listings are based on engines producing 230 lb. ft. of torque at 2,500 rpm. More torque at 2,500 rpm will give you a higher stall speed, less torque at 2,500 rpm will give you a lower stall speed than the stall speed ratings indicated.
Note: No further discounts apply.

Key Features:
- Furnace brazed impeller
- New precision steel alloy pump drive tube
- New heavy duty needle bearing between stator & impeller (not a thrust washer)
- Needle bearing between stator & turbine
- Furnace brazed turbine
- Dual pattern drive lugs on some GM HoleShots.™
- New turbine hub
- New springs and rollers in stator

Tork Master™ for Mild Performance Small Blocks!

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is not recommended for big block or supercharged applications.
Note: No further discounts apply.

Key Features:
- The best "value priced" street converters available.
- New precision pump drive tube.
- Pressure tested.
- Fully balanced.
- New alloy steel pump drive tube.
- Needle thrust bearing when factory equipped.
- New thrust washer between turbine and cover when required.

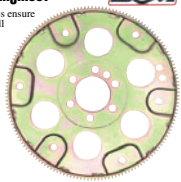
From Street to Strip- These Flexplates Are Built Especially For High RPM Engines!



B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of transmission applications.
Note: No further discounts apply.

Key Features:
- SFI spec 29.1 approved.
- NHRA/IHRA legal.
- SFI spec 29.1 certification sticker included.
- Ideal for street applications to extreme duty racing and high RPM use (above 6,000 RPM).
- Dual bolt patterns to accommodate Powerglide, TH350, TH400 & TH700R4.

Torque Converters

California Performance Transmission Torque Converters

The revolutionary Street Converter (2400-2600 RPM stall speed) came from research and development of off-road competition. These converters offer a slightly higher stall speed that will allow greater torque bands at medium and high speeds, and increased lock-up at higher RPM ranges. In addition there's an increase in fuel mileage at cruise speed. The 10" converter is recommended for vehicles in excess of 450hp. Thus, named Heavy-Duty Super Torque Converter. You'll get 52 extra horsepower over stock converters with the HD Super Torque converter.

Important: *These torque converters have a full 90-day warranty, and are guaranteed against defective workmanship for two full years from purchase date. After 90 days, for two years, California Performance Transmissions will completely repair or replace, at its option, at a cost in relationship to the original cost of the torque convertor. Standard repair will be $225.00. Transportation to and from California Performance Transmission for any warranty repairs is the responsibility of the torque converter owner.*

GM PERFORMANCE PARTS

SuperMatic Transmission Controller

GM Performance Parts' all-new SuperMatic transmission controller system is the most fully integrated and user-friendly transmission control package in the aftermarket. Designed for hot rods and other vehicles equipped with LSx engines and GM Hydramatic 4L60- or 4L80-series electronically controlled transmissions - including GMPP SuperMatic transmissions. Installation is a simple matter of completing the new fully terminated connections that link the transmission controller. Controller comes pre-programmed and is ready to drive once all connections are made. Designed to operate with GMPP's E67-based engine controller, which operates all GMPP LSx crate engines with electronic fuel injection. While the system is designed for "tuning-free" operation right out of the box, it also includes optional connections that allow adjustment and calibration, including shift timing and shift firmness and can be configured to operate the transmission. Comprehensive adjustment instructions are included with the kit. As if all those features weren't enough, the system also includes full on-board data-logging capability to help maximize performance when tuning.

B&M Torque Converter Lock-Up Control

This unit provides control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. Eliminates converter lock and unlock cycling and premature unwanted converter lockup avoiding engine lugging and spark knock. Provides lockup at highway speeds for fuel economy. Can be used for converter lockup operation when converting a non-lockup equipped vehicle to a lock up style transmission and converter. Provides dash mounted control to govern converter lockup at any speed between 30 and 90 mph. LED dash indicator displays when converter is locked or unlocked.

Cast Aluminum Transmission Oil Pans

Fight high transmission temperatures with these specially cast transmission oil pans. The sand-cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black, as cast or polished, there is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

Note: *Gasket and filter not included.*

1958-70 Automatic Transmission Cooler Lines

Replace your original transmission cooler lines with these reproductions which are pre-bent to the correct configurations. These lines will replace originals which are commonly cut when doing engine or transmission repairs. Each line features the correct fitting and thread sizes. For a "show quality" look, choose from either the original galvanized material or the longer-lasting stainless steel material!
Note: Shipped double oversize

MORSO

Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

241200	transmission filter cooler assembly	99.99	ea

1958-63 Transmission Cooler Line Fittings

Don't search store after store for the correct adapters to connect transmission cooler lines to a radiator! These brass fittings fit perfectly with correct threads on the radiator side and correct flares on the cooler line side.

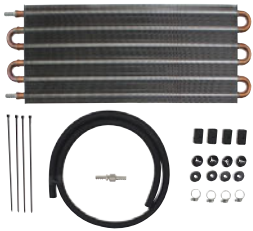
Flex-a-lite



Double the Life of your Transmission!

Did you know that approximately 90% of all transmission failures are caused by overheating? When fluid overheats, seals and clutches burn out, clutches start to slip, seals harden and varnish forms. Automatic transmissions generate extreme heat during stop-and-go driving, when towing or when carrying heavy loads. Once the fluid reaches 200°, it deteriorates rapidly, losing it's ability to cool critical transmission components. If you frequently drive in stop and go traffic, have installed a high stall torque converter, tow or carry heavy loads, a transmission cooler can help reduce transmission temperatures tremendously. Reducing the fluid temperature just 20° can actually double the life of your transmission. This high performance transmission oil cooler is made in the USA and features a heavy duty 7-1/2" x 20" x 3/4" core for extreme conditions. Comes complete with all hardware, hoses, fittings, adapters and easy to follow instructions.

Mechanical Speedometer Conversion Sets

Mechanical speedometer conversion sets for the 4L60E, 4L65E, 4L70E late model GM overdrive automatic transmissions. Each set will convert your overdrive automatic transmission to work with a factory mechanical speedometer while retaining functional VSS capability. Simple 30 minute bolt-on installation. Includes the correct length tail housing, new GM speedometer sleeve with new gear, new GM VSS sensor, new GM reluctor/drive gear bushing and bolts. 1998-up sets include 6 bolt to 4 bolt adaptor and hardware.

Important: *When ordering, you must give rear axle gear ratio, either tire diameter or tire size for correct speedometer gears.*

Note: *Special order, must be prepaid. No further discounts apply.*

223071

Key Features:

- Provides crisp shifts on any stock AT.
- Eliminates soft sluggish shifts, shift overlap, & excess wear on clutches & bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

1965-01 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission - and you get two modes of performance to select from: Heavy Duty, or Street/Strip.

Stage 1-Heavy Duty: Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

Stage 2-Street/Strip: Provides very positive shifts for high performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

Note: No further discounts apply.

223095

Key Features:

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

1965-01 Transpak

The next step up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 Heavy Duty-For street rods, normal passenger vehicles or other heavy duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive."

Stage 2 Hi-Performance Street-For full performance street use. Essentially the same as Heavy Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive."

Note: No further discounts apply.

223097	1993-01	4L60E	101.99 ea

Key Features:

- Installs in minutes
- Reduces slippage and heat
- 50 state emissions legal
- For late model AT vehicles 4L60E GM w/trans code MT1 or M30 (RPO code in glovebox).

Switch On High Performance Driving Fun!

ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced - extending the life of your transmission! Anyone can install a B&M ShiftPlus™ in minutes with a few simple hand tools. This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock!

223308

Torque Converter Lock-Up Controls

These units provide control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. These are designed for use on carbureted engines. Eliminate converter lock and unlock cycling and premature unwanted converter lockup avoiding engine lugging and spark knock. Provides lockup at highway speeds for fuel economy. Can be used for converter lockup operation when converting a non-lockup equipped vehicle to a lock up style transmission and converter. B&M set is for the person who wants to "fine tune" when the converter locks-up; while the Painless set is for the person who wants to put it in and forget about it.

Note: No further discounts apply.

B&M

Provides a dash mounted control to govern converter lockup at any speed between 30 and 90 mph. LED dash indicator displays when converter is locked or unlocked. Set includes an adjustable control box with locked and unlock indication, speed sensor with cable adaptor for mechanical speedometer, wiring, and complete instructions.

223314	electronic speedometer	204.99 set
223308	mechanical speedometer	204.99 set

Painless

Uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lock-up solenoid. Includes vacuum switch, 4th gear pressure switch, brake switch, torque converter lock-up solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

Royal Purple Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Max ATF significantly reduces heat to extend the life of your transmission. Max ATF is fully compatible and can be mixed with other automatic transmission fluids; however, for the best results drain or flush the current oil and then fill with Max ATF.

S206

1964 Impala Shifter Conversions

If you plan on updating your classic 1964 Impala with a newer TH350, TH400, TH700R4, or TH2004R transmission, why not make your conversion as easy and straight forward as possible. Classic Industries® offers the correct sets that will allow you to use your factory shifter with the newer style transmissions listed above. This set eliminates the rod linkage and replaces it with a GM cable assembly (sold separately). The set includes a new laser cut and hardened detent plate, cable mount bracket, cable pin, and all necessary hardware.

1965-67 Impala Shifter Conversions

If you plan on updating your classic 1965-67 Impala with a newer TH350, TH400, TH700R4, or TH2004R transmission, why not make your conversion as easy and straight forward as possible. Classic Industries® offers the correct sets that will allow you to use your factory shifter with the newer style transmissions listed above. The conversion set includes a new laser cut and hardened detent plate, transmission shift lever, and all necessary hardware. This set retains the original rod type linkage. If you are converting from a Powerglide to a TH400, we recommend that you also purchase the SW425 shifter rod to make your installation much easier. All other applications can use original shifter rod. If your original is not in very good shape or yours is missing, take a look at the shifter rod listings for your correct application.

1968-72 Shifter Overdrive Conversion Set

If you plan on updating your classic 1968-72 Impala to a newer TH700R4, or TH2004R overdrive transmission, Classic Industries can make your conversion as easy and straight forward as possible with our conversion sets. We offer sets that will allow you to correctly convert your shifter to operate all 4 speeds. These conversion sets include a laser cut hardened det ent plate and, all necessary brackets and hardware. Your converted shifter will work with your original cable, and travel the same distance in the console as the original.

Hi-Tech TH400 Electric Kickdown

Lokar's TH400 Electric Kickdown is cable-operated and the electric switch is housed in a billet aluminum or black box that mounts with transmission pan bolts. Includes U-Cut-to-Fit stainless steel outer housing designed with a specially extruded liner for extended life of the cable, aluminum fittings, stainless steel inner wire and stainless steel mounting bracket. This design eliminates mounting unsightly electrical switches on the carburetor, manifold, or near throttle pedal. It can be mounted in a variety of locations within 48" of the carburetor. Installation instructions are included. Mount the throttle end of the kickdown with the stainless steel carburetor bracket and return spring set.

Important: *Throttle cable bracket/spring set # SR4000 is required for installation.*

Lokar TH350 Kickdown Bracket and Cable

Standard adjustable GM detent with Lokar's stainless mounting bracket mounts onto the two back manifold bolts. Designed for 4 barrel-type carburetors for small block Chevrolet engines. Includes extender for more versatility in adjusting cable length where needed.

Important: *Cable housing cannot be cut to fit.*

KD2350	bracket and cable	49.99 ea

Lokar Throttle Cable Bracket and Springs

Stainless steel bracket mounts to rear of Holley, Edelbrock, AFB, Quadrajet, Demon, and in-line dual quads. Stainless steel bracket and GM designed dual stainless springs are used to mount Lokar's throttle cable and kickdown assemblies. Design provides improved clearance on Edelbrock carbs. Design includes tension screw to prevent bracket from movement under extreme pressure on a kickdown cable, such as with a TH700R4 transmission.

Auto Trans Shifters

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon-shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH200, 2004R, 250, 350, 400, 700R4 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, backup light switch, lighted gear indicator, polished aluminum T-handle & cable.
- Can be used with a reverse pattern valve body.

223016 Hammer™ shifter ..... 221.99 ea

High Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to it's timeless good looks and high performance ratchet action. And, it's ideally suited for most popular universal applications. For TH200, 2004R, 250, 350, 400, 700R4 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, backup light switch, lighted gear indicator, polished aluminum T-handle, & cable.
- Can be used with a reverse pattern valve body.

223017 Megashifter™ shifter ..... 324.99 ea

Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH200, 2004R, 250, 350, 400, 700R4 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, backup light switch, lighted gear indicator, chrome knob & cable.
- Can be used with a reverse pattern valve body.

223018 QuickSilver™ shifter..... 291.99 ea

The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ - but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine - making daily driving something to look forward to. Utilizing a simple detent action between First, Second, High and Neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, backup light switch and flat aluminum stick. For TH200, 2004R, 250, 350, 400, 700R4 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, backup light switch, lighted gear indicator, black T-handle & cable.

223019 Sport Shifter™ shifter..... 214.99 ea

Straight Line Detent Shifter with Timeless Style!

The B&M StarShifter is one versatile three speed automatic shifter - wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in Low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH200, 250, 350, 400 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch & polished aluminum T-handle & cable.

223020 StarShifter™ shifter..... 199.99 ea

More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3 speed automatics, the patented 'Z' shaped architecture eliminates the possibility of overshifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger - so you get the most bang for your buck! For TH200, 250, 350, 400 automatic transmissions.

Important: *Not for original consoles.*
Note: *No further discounts apply.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, backup light switch, black T-handle & cable.

Quarter Stick Covers

One of the nice features of the Hurst Quarter Stick Shifter is the ability for you to choose the finished look you want through the availability of two distinctive cover kit designs.

Important: For vehicles without factory consoles.
Note: No further discounts apply.

Style One - Plastic Cover Set:

- Adds a "factory option" look to your Hurst shifter.
- Textured black plastic can be trimmed to fit any floor contour.
- Mounting plate & button head screws are included.

1300055 plastic cover set ..... 84.99 set

Style Two - Aluminum Cover Set:

- Adds a "race car" look to your Hurst shifter.
- Attaches to shifter with two quick release pins.

1300041 aluminum cover set ..... 74.99 set

Hurst Roll Control

Used primarily in drag racing to provide positive locking action to the front wheels of race cars. In tests, the Hurst Roll/Control has proved a 1/100,000 of a second release time and vibration tests have seen up to 30 G's applied without mechanical failure. Roll/Control installation kit that includes lines, fittings & connectors is sold separately.

Note: No further discounts apply.

1745000

1745000 Hurst Roll/Control kit ..... 114.99 ea
5671510 installation kit ..... 44.99 set

Key Features:

- Forged aluminum stick
- CNC Machined Billet Pistol-Grip handle
- Snap action thumb switch for operating roll/ control nitrous or trans brake
- One-hand operated, spring loaded reverse lock-out mechanism
- Factory installed neutral safety switch
- Cable operated.

Pistol-Grip Quarter Stick Provides a Firm Natural Grip!

The Hurst Pistol Grip Quarter Stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The Pistol-Grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll/Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst Pistol-Grip Quarter Stick fits TH250, 350, 375, 400 transmissions.

Important: For vehicles without factory consoles.
Note: No further discounts apply.

With Reverse Valve Body

3162001 TH250, 350, 375, 400 ..... 364.99 ea

Key Features:

- Forged aluminum stick.
- One-hand operated, spring loaded reverse lock-out mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

The Floor Mount Hurst Quarterstick Provides a Positive Shift Feel!

The Hurst Quarter Stick automatic shifter is designed to provide positive gear change control for street or strip applications. Detent activation is controlled by a chrome plated trigger contoured to fit comfortably into the driver's hand. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, pick the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst Quarter Stick shifter fits TH250, 350, 375, 400 transmissions.

Important: For vehicles without factory consoles.
Note: No further discounts apply.

EXTERNAL FEATURES

SuperCase

We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger, full-width 30T maindrive bearing and a countershaft sealing soft plug, and we reinforced and thickened the mounting ears. As a final touch, user-friendly straight thread fill and magnetic drain plugs with sealing O-rings were added. Despite these improvements, we preserved the look of a '60's design so our new case won't look out of place under your classic muscle car. No flex, no leaks, no broken ears.

Roller Side Cover

We noticed that we sell more side cover oilseals for Muncies than synchronizer rings, and although the oilseals are inexpensive and easy to replace, this bothered us. When we investigated we discovered that the shifter shafts in many high-mile side covers are running in elongated bores, causing new oilseals to fail prematurely. Obviously, a new side cover with round bores would solve the problem temporarily, but we wanted a permanent solution, so we made our shifter shafts a true .750" and supported them with needle bearings. It's standard on our new transmissions.

Extension Housing

If you've been looking, you know that good extensions for thirty-year old Muncies are hard to come by. When we set out to eliminate that little problem, we also thought about what you're planning to do with it. We added a backbone rib, stiffened the reverse shift tower, and enlarged the oilseal shroud. This housing is produced with a passenger-side speedometer drive housing. So whether all you need is an extension better than yours or you're thinking your monster motor might need the big output to handle all that torque, you can stop looking. We've got you covered

INTERNAL FEATURES

Gearsets

For over fifty years Auto Gear has delivered the highest quality manual transmission gears. Our Muncie M22 gearset is typical. Some vendors purchase the "unimportant" gears in India or China. They must be smarter than we are – we think they're all important, so all six of our gears are manufactured for us in Italy by Antonio Masiero S.p.A. For General Motors cars from 1963-74, we offer the most complete range of Muncie gearing available. Every piece meets our standards before we put our name on it. You can buy cheaper gears elsewhere, but you can't buy better gears anywhere.

Roller 1st Gear Option

When you're not in low (and how much time is that?) your gearbox is spinning your 1st gear on the shaft. That's horsepower that's not going to your tires, and for years racers have minimized that loss by squeezing a bearing between modified 1st gears and sleeves, an expensive, one-piece-at-a-time solution. Our roller 1st upgrade uses a specially cut gear and sleeve for the ultimate in accuracy, coolest running, and lowest cost. It's standard in our new transmissions.

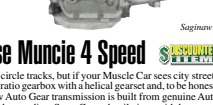
Note: *Not for use in drag racing applications, or street use when hand launches will be the normal, or even occasional, driving style.*

Ductile Iron Midplate

Every time you shift your Muncie's heavy mainshaft assembly is thrown back and forth, restrained only by two snaprings and your midplate. Think of it as a slidehammer and it'll be no surprise that many aluminum midplates are distorted at the snapring groove. We make the midplate you should be hammering on... our midplate is made from shock resistant ductile iron. It's standard in our new transmissions.

Borg Warner

Muncie



Saginaw

The Ultimate SuperCase Muncie 4 Speed

Customer Favorite

There are exotic transmissions designed for quarter miles or circle tracks, but if your Muscle Car sees city streets or country lanes you need a heavy-duty, synchronized, close-ratio gearbox with a helical gearset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts - the highest quality available - and includes all the goodies: SuperCase, ductile iron midplate, your choice of three heavy-duty gearsets (each with roller 1st) and a roller side cover. Best of all, it's ready to install and it's available at a less-than-exotic price. No core required!

Note: *All transmissions are special order and must be pre-paid. Special shipping rate applies. No further discounts apply.*

SuperCase w/M22 Gearset w/2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22-based gearset. All three of ours feature the legendary 'Rock-Crusher' gear geometry and run with the signature whine. And, while they cost a little more, most owners find that they raise the value of their automobile by the difference or more. The M22 is as GM intended and was originally paired with a 4.11 axle. Street cars used only in the wide-open flat places may successfully run something faster. This approach offloads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

TR1014	1970-74	26/32 spl		2229.99 ea

SuperCase w/M22W Wide Ratio Gearset w/2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that'll show your wallet a little mercy. It's a little less strong, but it's far from weak.

Kevlar Pilot Bushings

Kevlar has a long history of durability in industrial applications, and now RAM offers pilot bushings in this amazing material. By using Kevlar for the pilot bearing, wear is significantly reduced over time versus bronze or needle bearing bushings that can lose lubrication over time, causing wear. Kevlar bushings are self lubricating and offer low susceptibility to damage from heat while maintaining their dimensional stability.
Note: No further discounts apply.

BU656K 1967-96..... 49.99 ea

Roller Pilot Bearing

Replacement pilot bearing for use on all 1958-96 V8 full size models. Worn pilot bearings can cause hard shifting and increase transmission wear. When changing your clutch be sure to use a new pilot bearing for best results. This bearing should be used in high performance vehicles and is a significant upgrade from the stock bronze bushing.
Note: No further discounts apply.

T10 Flywheel/Clutch Housing Cover

Correct cover plate which is located on the back of the engine block and is used to cover the flywheel.

340252 1975-79 350..... 29.99 ea
340252 1976-79 305..... 29.99 ea

Clutch Housing/Flywheel Cover - 11"

Correct clutch housing/flywheel cover plate which is located on the back of the engine block and is used to cover the flywheel. For most big blocks and high-performance small blocks with a heavy duty clutch and a 11" bellhousing.
Note: For models with Chevrolet 621 or similar 11" bellhousing.

3843943 1965-72 11"..... 21.99 ea

1958-79 Flywheel to Crankshaft Bolt

This is the necessary bolt used to connect the flywheel to the engine crankshaft which is for all 1958-79 Impala models with 6 cylinder or V8 engines. Original GM replacement bolts. These bolts do not feature the original markings. 6 required.

G8454 1958-79..... 1.99 ea

1962-79 Flywheel to Crankshaft Bolt

Reproductions of the correct mounting bolt for standard transmission. Manufactured in grade 8 steel. 7/16"-20 x 15/16". Includes serrated washers.

1256643 1962-79 6 included..... 10.99 set

1965-89 Clutch Pressure Plate Bolt

Original GM clutch pressure plate bolts for small block or big block applications from 1965-69. 6 required.

G8536 1965-69 3/8"-16 x 1"..... 2.99 ea

1962-76 Pressure Plate to Flywheel Bolt

Reproductions of the attachment bolts for attaching the clutch pressure plate to the flywheel. For all vehicles with standard transmissions. 3/8"-16 x 15/16" bolts with lock washers.

1256644 1962-76 six bolts included..... 9.99 set

Flywheel & Clutch

11" Flywheel with Ring Gear

Original GM flywheel assembly for 1958-74 full size Chevrolet heavy duty or high performance models. 14" dia., 168 tooth ring gear with a 12.625" dia. pressure plate bolt pattern and a 3.58" dia. crank bolt pattern. Use with 11" dia. clutch disc. 30 lbs. Use only on crankshafts with 2 piece seal. Comes with a factory installed ring gear.

Ram True Balance Billet Steel Flywheels

Ram True Balance billet steel flywheels are recommended as a replacement for factory cast flywheels in high performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high performance applications at higher RPMs. Ram billet steel flywheels are CNC machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum runout and the optimum mating surface for the variety of friction materials offered. Use steel flywheels in heavier drag race cars or for the best driveability in street driven vehicles.

Note: For use with Ram Clutch Sets only. No further discounts apply.

True Balance Billet Aluminum Flywheels

The choice for most all-out competition vehicles, Ram True Balance billet aluminum flywheels are CNC machined from certified materials and exceed SFI specifications. A key feature of a Ram aluminum flywheel is a 1/4" steel friction insert. A well tuned competition clutch system has a predetermined amount of slippage at launch and at the gear changes. The flywheel insert must have enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. Thinner inserts can warp and lift causing uneven engagement across the clutch disc. The thicker insert remains flatter and dissipates the heat better. Each flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum runout and to provide the optimum mating surface for your choice of clutch disc.

Note: For use with Ram Clutch Sets only. No further discounts apply.

Clutch Components

RAM Street Dual Disc System

The word is out, RAM Street Dual System is in! The "on/off switch" clutches for your high horsepower street machines are a thing of the past. Your muscle car may have been built with technology from the 60's, but that doesn't mean your clutch has to be! The RAM Street Dual Disc clutch system makes use of 30 years of drag racing experience to become the ultimate clutch system for your high horsepower muscle car. Wrap your bellhousing around super strong dual clutch discs with an aluminum flywheel, easy pedal effort diaphragm pressure plate, 300 series friction material, and a special floater plate and retainer that virtually eliminate floater plate rattle. Even though the capacity for this clutch system is 1,000 HP and 900 ft/lbs of torque, the engagement is silky smooth thanks to the 300 series friction material.

902100

Important: The dual disc system works with mechanical linkage on older cars and hydraulic and cable systems on late models. LS1 applications require an adjustable master cylinder. A safety bellhousing is strongly advised, and some modifications may be required to pivot ball configurations in cable and mechanical release applications, as well as hydraulics.

Note: No further discounts apply.

Powergrip Performance Clutch Sets

As engine power and torque increase you need a clutch set to stand up strong. Powergrip utilizes a unique blend of friction materiels and increased clamp loads to give you the holding power you need for aggressive street driving and occasional drag strip use. With up to an 80% increase in holding power Ram's Powergrip series is a natural for the aggressive driver.

Note: No further discounts apply.

Hydraulic Release Bearing

This hydraulic release bearing for stock-style clutch applications is designed for GM applications utilizing the 1.375" transmission collar size. The bearing is a floating design, and installation is simple and quick. Use this bearing in any project car in which fitting a mechanical linkage is not possible. The bearing requires a minimum 7/8" bore master cylinder and a -4AN feed line to run from the master to the bearing. A remote bleeder system is available to make bleeding simple from the outside of the bellhousing.

LS1 Adjustable Clutch Master Cylinder and Slave Cylinder

An adjustable master cylinder is required for installation of the RAM Street Dual on any LS application so you can limit your clutch travel and avoid shifting problems. When installing the new clutch hydraulics, it is essential to flush the system of old fluid and re-bleed with new fluid. Bleeding MUST be done by vacuum method or using a power bleeder such as a mity-vac.

Hays Built Stronger

With more than 40 years of research, development and testing, Hays has emerged as the leader in performance clutch technology. With Hays Performance Clutches, you can be assured of a brand new product manufactured from the finest quality materials and workmanship available.

HY85112

Increase Performance Without Sacrificing Streetability!

An excellent upgrade from the stock unit, the Hays Street Clutch far exceeds OE specifications in material, construction and performance. Hays Street Clutches are matched sets designed to provide smooth engagement and a significant performance increase without sacrificing streetability. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays Street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter-free engagement. The Hays High Performance Throwout Bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat-treated and blanchard ground to ensure trueness. The collars are heat-treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat-resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch kits include a Hays Performance Pressure Plate, Hays Performance Clutch Disc, Hays Performance Throwout Bearing, bolt kit, and a handy splined clutch pilot tool to aid in installation of kit.

Hays Street Performance Clutch Discs

Hays Street Performance Clutch Discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter-free engagement. Designed to provide a significant performance increase without sacrificing streetability.

Hays Street/Strip Clutch Discs

HY40111

The Hays Street / Strip Clutch Disc is engineered specifically for high horsepower street vehicles in addition to occasional dragstrip use. Manufactured with premium quality, high burst strength woven lining to withstand heat and higher engine RPM and riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter-free engagement.

On the dragstrip, race after race, record holders in every class have proven the exceptional performance, durability and long term dependability of Hays Clutches.

HY85103

Precise Gear Changes and Positive Clutch Engagement Put You One Step Ahead of the Competition!

The Hays Street/Strip Clutch Kit features the Hays Street/Strip Diaphragm Pressure Plate, The Hays Street/Strip Clutch Disc, plus, the Hays High Performance Throwout Bearing that has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat-treated and blanchard ground to ensure trueness. The collars are heat-treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat-resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street/Strip Clutch kits include a Hays Street/Strip Pressure Plate, Hays Street/Strip Clutch Disc, Hays Performance Throwout Bearing, bolt kit, and a handy splined clutch pilot tool to aid in installation of kit.

Clutch Components

Adjustable Throwout Bearing

This adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid length bearing and if you remove all three rings you will have the short bearing.

1958-76 Delco Energizer® Batteries

Turn back the hands of time and restore the appearance of your Impala truly to stock by replacing a period-incorrect battery with this original style reproduction. Manufactured by the nation's leading antique auto battery experts, these authentic reproduction *Delco Energizer®* batteries offer you true "tar-top" appearance, using a special patented Poly-Tar® formulation, while eliminating the sticky hot weather disadvantages of a tar-top! Each battery is correct in every detail including acid resistant, screw-in or push-in type caps featuring Delco lettering or circles and are finished in the proper trim. All batteries have the correct caps and the exclusive "Delco-Eye" feature that was used to check electrolyte fluid level on applicable units. Each case has been manufactured to OEM spec. dimensions, which vary depending on model ordered. Other details include: reproductions of the assembly line battery decal, featuring white label with red text attached to the battery post as well as correct Delco Energizer® lettering on the top casing!

CAUTION: *Maintenance-Free batteries are Gel-Cell type batteries and DO NOT require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.*
**Includes [6] screw-in yellow caps with "Delco" lettering. **Includes [5] screw-in yellow caps with "Delco" lettering. All batteries measure 10-1/4" x 6-3/4" x 9". Top post batteries include positive [+] post on rear RH section of battery. Side post batteries include positive [+] post on LH side.*
Note: *Batteries carry a 48 month manufacturers warranty. Shipped overweight. No further discounts apply.*

Optima Yellow Top Batteries

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the YellowTop AGM battery is a true dual-purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.
Note: *Shipped overweight. No further discounts apply.*

Optima Red Top Batteries

The OPTIMA RedTop high-performance AGM battery is the ultimate high-CCA starting battery designed to deliver the strongest 5-second ignition power for a reliable start-up every time. The RedTop outperforms and outlasts traditional batteries in demanding cranking/starting applications. With ultimate power delivery and durability, the RedTop is ideal for luxury cars, hot rods, off-road vehicles and other applications that require a leak-proof starting battery.

Battery Cables

1961-70 Spring Ring Battery Cables

If you want to restore your full size Chevrolet to exact factory specifications, these OEM type cables are what you need! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word *Spring Ring* in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end.

BM2428

Battery Mat - Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Manufactured in your choice of high-impact plastic or heavy-duty steel. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts. This item is good to use whenever servicing the battery or cleaning the engine compartment.

X201	high-impact plastic	8.99 ea
X206	heavy-duty steel	9.99 ea
X2173	post and terminal tool	9.99 ea

New!

130 Amp Heavy-Duty Battery Load Tester

Applying a powerful 130 amp load, this heavy-duty battery tester delivers more accurate results than conventional testers. Determine a battery's state of charge as well as cranking and charging volts. Large, easy-to-read display. Unique clamp design for side and top post batteries. Side clamp mount for cable storage. Convenient zero adjust to reset pointer. Lightweight, comfortable, easy-to-grip. Multi-mount bracket for easy storage on a wall or tool box.

AC7614 ..... 74.99 ea

Battery Lifesaver - Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BLS1 ..... 29.99 ea

1958-70 Felt Battery Post Washer

New!

This felt washer is designed to go on the positive battery post under the battery cable as recommended by GM. The washer helps to prevent corrosion of the positive battery post and cable.

Temperature Sending Unit Wiring Set

Reproduction temperature sending unit wiring set which extends from the front light harness to the temperature sending unit. Includes correct 24" insulator cover and 30" green wire with bullet, blade or button type terminals included.

CA34620	.....	11.99 set

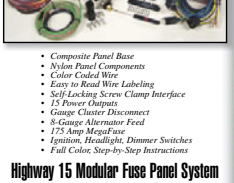
Universal Under Hood Or Trunk Lamp

Add an under trunk or hood light to your car. Includes bracket, bulb, internal switch, and wiring to install.

TF900114	metal housing	28.99 ea

Highway Series Modular Fuse Panel Systems

These universal fuse panels are constructed in heat-resistant nylon. They offer a less expensive alternative to wiring your car. Each feature anti-push back locks and single-side wire access with self-locking, screw-down connections. Includes a 175 amp mega-fuse located at the starter/alternator for extra protection. 8 gauge power feed wire powers the panel and features a battery and accessory stud connection on the panel. Ignition, alternator, headlight, steering column, accessory and gauge wiring is included in the set. All wiring is color-coded. All fuse panel systems include relays, fuses, flashers, circuit breakers and all necessary power connections and terminals. Also included is a full-color schematic with component symbols and step-by-step instructions for trouble-free installation.



- *Composite Panel Base*
- *Nylon Panel Components*
- *Color Coded Wire*
- *Easy to Read Wire Labeling*
- *Self-Locking Screw Clamp Interface*
- *15 Power Outputs*
- *Gauge Cluster Disconnect*
- *8-Gauge Alternator Feed*
- *175 Amp MegaFuse*
- *Ignition, Headlight, Dimmer Switches*
- *Full Color, Step-by-Step Instructions*

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 9 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes ignition, headlight and dimmer switches.

500703	15 panel connections	409.99 ea

OE Style Wiring Harnesses

1958-74 Front Lamp Harness

CF50113

Classic Industries® offers the largest selection of "in stock" replacement wiring harnesses available anywhere for your 1958-74 passenger car! Our harnesses are reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. This harness is one of two main harnesses located in the engine compartment. It provides wiring for the main battery power lead, headlamps, parking lamps, side marker lamps, horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge. These harnesses are produced as closely as possible to original specifications including correct colored wire.

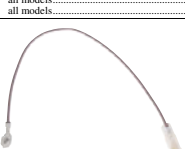
CF59001	1959	all models	31.99 pr



1967 Front Lamp Harness Extension

With the addition of the optional T78 front running lamps, this harness is necessary for the proper operation of the lights. Be sure to check your original harness and add this harness to your order when replacing the complete harness if necessary. Includes the lamp switch to T78 running lamp lead.

CG73368	1967		9.99 ea

OE Style Wiring Harnesses

1958-76 Engine Harnesses

CF40150H

Replacing your original wiring harness doesn't have to be a puzzle of wires! Classic makes it easy by supplying wiring harnesses which are ready to install and includes the correct color wires and connectors making installation as easy as possible. The listing includes exact reproductions of the original engine harnesses located in the engine compartment. When ordering engine harnesses it is essential to supply as much information as possible regarding your Chevrolet's optional equipment including the year, engine size, transmission type, or any and all factory options. This will ensure you are getting the correct harness for your particular application!

1958-70 AC Harness

Correct reproductions of the original wiring harnesses which were used on factory option air conditioning. Includes a detailed schematic for each year listed for proper installation."C.A.C". is General Motors term for Custom Air Conditioning, a factory installed unit (not aftermarket). 1965 and 1966 models equipped with C.A.C. routed with engine harness, please refer to the Engine Wiring Harness section. For use with factory original air conditioning systems only.

*Note: *Cool Pack. **With seperate low blower switch.*

CA01655	1965-69		9.99 ea

OE Style Wiring Harnesses

1964-67 Transistor Ignition Amplifier

Ignition system trouble, one of the most frustrating problems any classic GM owner can experience! Take it to three different mechanics, get three different answers. If you're experiencing strange ignition problems that no one can seem to diagnose, don't rule out the transistor ignition amplifier. This unit heats up your spark to allow your classic to run more efficiently enhancing performance. This is a correct reproduction of the transistor ignition amplifier module. Replaces the original circuit board in amplifier. Fits all models.

32270	1964-67		134.99 ea

CF48218

1964-65 Transistor Ignition Amp. Harness

While trouble shooting your ignition system, a more common problem may be the transistor amplifier wiring harness itself. Again, if replacing your expensive module, be sure to order the new wiring to protect your investment!

CF46911	1964	all models	59.99 ea
CF48218	1965		59.99 ea

1964-67 Transistor Ignition Amp. Extension

If your transistor ignition amplifier is fine, your harness is intact, and the system still isn't working, the problem may be the ignition amplifier extension. This integral extension runs from the internal circuit board to your amplifier housing connection.

33225	1964-67		34.99 ea

CF47103

1964-67 Starter to Ignition Amp Harness

If the ignition amplifier checks out ok, then perhaps you'll need the starter to amplifier harness only. This harness runs from the starter to the ignition amplifier as described above. A "must have" if you are investing in a new amplifier as well! Fits all models.

CF47103	1964		69.99 ea
CG58219	1965		69.99 ea
CG67841	1966-67		69.99 ea

1964-67 Ignition Amp Extension Harness

This harness is correctly reproduced with original style GM fasteners as are those listed above. This particular harness connects the ignition switch to the ignition amplifier extension harness listed above, be sure to order in conjunction when replacing your entire system.

CF46913	1964-67		14.99 ea

1965-66 Voltage Regulator Harness

Fits vehicles equipped with transistor ignition amplifiers and in line diode. This option is found on Chevrolet models with 396 c.i. V8, air conditioning and TH400 transmission.

2115	1965-66		29.99 ea

1958-71 Under Hood Lamp Assembly

Manufactured to exact specifications including correct color wiring and terminal end. We offer a replacement under hood lamp assembly for 1958-71 full size Chevrolet models. Replace your original lamp or install a new lamp for nighttime use.

CG83128	all models		39.99 ea

CF16885

1958-68 Transmission Overdrive Harness

Transmission trouble? The last thing any classic car owner wants to think about! If you've got to do the big job, be sure to grab one of Classic Industries® excellent reproduction automatic transmission overdrive harnesses! Correctly made with all the proper fasteners for proper overdrive performance.

1965-71 Underdash Harnesses

Replacing your original dash harness doesn't have to be a confusing experience! The most essential wiring on the vehicle is the underdash harness. Virtually every other wiring harness is connected to this one. When you replace it, you don't want problems! Each underdash wiring harness is manufactured specifically to your own car's specifications. This includes the model year with each and every option covered to ensure the harness is exactly what you need. No more searching the wrecking yards for a harness that might or might not work! Get exactly what you need without the guess work.

*Note: *Underdash wiring harnesses must be connected to a dash instrument cluster harness for proper use (sold separately). †Caprice only*

CF31160

1963-71 Dash Instrument Cluster Harnesses

These instrument cluster harnesses are sold separately from the underdash harnesses. This harness is required to allow proper installation of the underdash harness. Each harness is an extension of the underdash harness and will help to properly operate the instrument cluster gauges. If your original harness is in good working order, you may install the underdash harness directly to your existing instrument cluster harness. This cluster harness will finish your underdash connections and allow your gauges to work properly. Be sure to order the correct harness for your year and model.

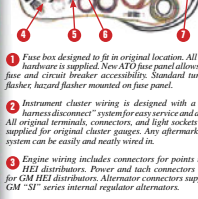
Universal Wiring Harnesses

One Kit Does It All!

Specialty aftermarket complete wiring harnesses for full size are now available. Imagine replacing every harness on the car with a pre-assembled 20 circuit harness. The factory assembled wiring harness includes a completely terminated fuse block along with automotive blade type fuses, flashers, horn relay, tachometer lead, ballast resistor for point type ignitions, fusible link, and a large selection of terminal ends, wire ties and grommets. OEM specification-grade fuse block is pre-terminated to wiring harness at factory. Fuse block is supplied with mounting plate or bulkhead connector (depending on application) for fast, permanent installation. Anti-theft feature- Fuse blocks are designed so that you can simply remove the coil wire fuse from the fuse block to deter vehicle theft. All wiring harness assemblies meet or exceed OEM specifications. Harnesses are manufactured with GM color coded, industry certified, high temperature wire rated at 600 volts. Wire gauges- 18 gauge to 10 gauge, depending on circuits. Easy to follow installation instructions are included with each harness assembly. Factory tech assistance help line is available



1. *Fuse box designed to fit in original location. All required hardware is supplied. New ATO fuse panel allows for easy fuse and circuit breaker accessibility. Standard turn signal flasher, hazard flasher mounted on fuse panel.*

2. *Instrument cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. Any aftermarket gauge system can be easily and neatly wired in.*

3. *Engine wiring includes connectors for points type and HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors supplied for GM "SI" series internal regulator alternators.*

4. *Replacement headlight switch with internal 30amp circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included. A new floor dimmer switch provided as well.*

5. *Along with wiring for your original dome/interior lighting, we have also included separate under dash light sockets. Does not include door jamb switches.*

6. *Steering column connectors will plug directly into most aftermarket columns as well as 1961-64 GM columns which utilize stock GM turn signal switches.*

7. *Rear body harness assembly is designed to plug into the main harness in the original location. Flexibility in harness design allows for original or custom routing. Rear body wiring includes backup light lead wires with correct light sockets, stop and tail light lead wires with correct light sockets, license plate lead wires, and fuel tank sender wire and connection. In addition, a complete pre-assembled trunk lid harness is also included.*

Classic Update

1961-64 Classic Update Wiring Harness

Easily convert to HEI ignition, use modern audio equipment, add power windows or even add AC to your vehicle with this wiring harness set. Engineered for each specific year, make and model configurations, these update harnesses include all of the original style light sockets, connectors and terminals. This wiring harness set boasts 19 features, making it the most complete system of its type on the market today.

- *Includes the Proper Connectors & Terminals*
- *Clear, Simple, Color Coded Instructions*

1958-64 16 Fuse, 20 Circuit Wire Harness

These wiring harnesses are built specifically for 1958-64 passenger car models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket columns such as ididit and Flaming River. Will wire full gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes wiring for high and low beams, indicator lights, parking lamps, turn signal lamps and brake lamps. Will readily accept fuel injection. The wiring is high-temperature, fire resistant and color-coded. Features the circuit printed on each wire. All sets include a headlight switch, isolated cooling fan relay and color-coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

PAINLESS

1994-02 LT1 & LS1 FI Wiring Harness

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven F.I. engine wiring harnesses. The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Like all Painless wiring harnesses, these fuel injection harnesses feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer G8606.

*Important: *Not for use on vehicles with VATS*

The Detail ZONE

1994-02 FI Engine Swap Wiring Harness

These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each harness is designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

*Note: *The engine computer for the 1997 Corvette and 1998 Camaro/Firebird are the same part number, however the Corvette computer must be reprogrammed to utilize this wiring harness. This engine utilizes the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM. **Corvettes must use the Camaro/Firebird ECM in order to use this wiring kit. This engine uses the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.*

Universal Wiring Harnesses

Universal Chassis Wiring Harnesses

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries, there's no limit to what you can do with your wiring.

Note: No further discounts apply to Painless wiring products.

Remote Master Disconnects

We offer two Master Disconnect kits with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect Kit 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master Disconnect with Emergency Push Button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote Master Disconnect with Mechanical Latching Solenoid is ideal for everyday vehicle applications and is a simple and effective antitheft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

PAINLESS

Digital Power Manager

This Digital Power Manager is a weatherproof, solid state dual battery control unit that eliminates the guesswork when using a secondary battery. When the main start battery is too low to crank the engine by itself, the units combines both batteries to crank the engine. The Digital Power Manager will not allow the main battery to drain the secondary battery, and once the engine is running, it will only allow the alternator to charge the auxiliary battery after the main battery is fully recharged by the alternator. The unit is capable of switching up to 280 amperes for large loads such as winches or jump starting another vehicle. Ideal for any vehicle equipped with high power stereo systems, high amp driving lights or winches. Includes weather proof Digital Power Manager, 6 gauge connection cables, terminals, heat shrink, mounting hardware and a remote indicator lamp.

Neutral Safety/Back-Up Lamp Set

This set is engineered to perform as a neutral safety switch or a backup-lamp switch by using one of two trigger levers included. Fits GM Turbo 350 and 400 transmissions as well as the 700R4.
Note: No further discounts apply.

80175 ..... 67.99 set

Torque Converter Lockup

For 700R4 transmissions with square 4-pin connectors. Can be used without the factory computer (ECM). This unit is electronic, NOT vacuum controlled. It reads speed of the vehicle through a sensor that attaches to the speedometer cable. Transmissions with factory internal speed generators must be converted to cable drive to use this unit. This system locks up the converter at a set speed and unlocks it when the signal generator senses the vehicle speed is below lock up speed or when the brakes are applied. This unit is set to lock the converter at 42-47 MPH and can be adjusted if necessary.

200-4R Transmission Lock-Up Set

PAINLESS

Now you can add a 200-4R overdrive automatic transmission to your carbureted small block GM engine. The 200-4R will give you quicker acceleration and better fuel economy than the old standby TH350. Kit includes a vacuum controlled switch and a combination 4th gear pressure switch/lock-up solenoid to control lock-up. Comes complete with a new pan gasket for the transmission.
Note: No further discounts apply.

60110 ..... 181.99 set

700R4 Trans Torque Converter Lock-up Set

PAINLESS

Now you can control the lockup converter on your overdrive transmission with your carbureted engine and not have to buy an expensive computer with our easy to install Lock-Up set. A vacuum controlled switch and a 4th gear pressure switch/ lock up solenoid combination controls the lockup. Comes with everything to complete the job including a pan gasket. Fits any 700-R4 GM transmission.
Note: No further discounts apply.

60109 ..... 209.99 set

Universal Fan Wiring

TF900634

"Ice Box" Cooling Fan Control

Available as a single fan control or dual fan/2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an A/C Request system to turn the cooling fan on whenever the A/C Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single two speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine bolt. Each unit has a fully adjustable operating range of 140-230 degrees.

*Note: *With Walker 2-speed fans.*

TF900634	dual control	139.99 ea
TF900635*	dual control	139.99 ea

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632		149.99 ea

Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627		189.99 ea

30104

Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals and mounting hardware.

Specs on Adjustable Fan Thermostat:
Temp range: -32° to 248° F
Accuracy: +/- 7.3° F
Differential: 7.3° +/- 3.6° F

Important: Temperature refers to the temp of the capillary tube, not the coolant temp.
Note: No further discounts apply.

Painless F5 Fan Controller

This state-of-the-art fan control system uses pulse width modulation to control electric fan speed from 50% up to 100%. A three position toggle switch lets you choose between normal operation, 100% fan speed, or turn the fan(s) off. An AC compressor override that runs the fans at 100% duty cycle if air conditioning is kicked on. Includes a solid state controller rated for engine bay use, 3/8 NPT threaded temperature sensor, large gauge fan wires and labeled vehicle integration wire harness, mounting hardware, and 70 Amp fuse and connectors. The F5 Dual Fan Controller is rated to control two 35 Amp cooling fans. The F5 Single Fan Controller is rated to control one 70 Amp cooling fan.

Note: No further discounts apply.

Get Custom Digital Wiring With Infinitybox

Upgrade, Consolidate and Control Your Wiring With an Infinitybox Wiring System

Infinitybox is an intelligent wiring system that can replace or enhance the traditional point-to-point wiring in any vehicle – regardless of make, model or year. It uses modern technology to not only control standard features like head lamps, turn signals, and electric fans, but also allows the flexibility to easily add features like power windows, iPhone control, and advanced anti-theft security. Infinitybox makes it easy to add these features and more, all while simplifying the process of re-wiring your car, adding circuit diagnostic capabilities, and creating a more reliable and dynamic wiring system. All wiring harnesses and modules are made in the USA!

Made in USA

The Infinitybox base system can be used in conjunction with any Infinitybox accessory module. Control up to 20 electrical circuits with this system alone. Pre-configured to control ignition, headlights, parking lights, high beams, horn, electric fans, self-cancelling turn signals, hazard lights, electric fuel pump and brake lamps. Includes one MASTERCELL and two POWERCELL units, universal wiring harnesses and primary fuses.

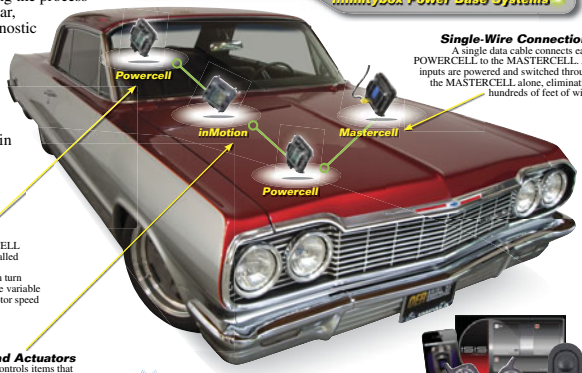
Basic Kit
MP50101 3-cell ..... 1552.99 kit

Basic Kit w/inLINK
MP50102 3-cell ..... 1790.99 kit

Basic Kit w/inLINK & inRESERVE
MP50103 3-cell ..... 1996.99 kit

Basic Kit w/inLINK, inRESERVE, inTOUCH MAX
MP50116 3-cell ..... 2409.99 kit

Infinitybox Power Base Systems



Single-Wire Connections
A single data cable connects each POWERCELL to the MASTERCELL. All inputs are powered and switched through the MASTERCELL alone, eliminating hundreds of feet of wire!

System Flexibility
The Infinitybox POWERCELL uses solid state switches called MOSFETs for switching. POWERCELL outputs can turn things on and off, or can be variable for lighting effects and motor speed control.

Control Motors and Actuators
The inMOTION module controls items that change direction like convertible top motors, sunroofs, and power windows and locks.

Connect with your Car!
The Infinitybox MASTERCELL supports various interfaces, such as stock or aftermarket switches, remote key fobs, or in-car touchscreen controls… Even connect to your vehicle with your iPad, iPhone, or iPod!

INFINITYBOX INTELLIGENT WIRING

- ***Add New-Car Tech Without Excessive Wiring & Relays!***
- ***Reduce Installation Time by up to 50%!****
- ***Easily Accommodates Changes or Additions!***
- ***No Specialized Electrical Knowledge Necessary***
- ***Eliminates Hundreds of Feet of Wiring!***
- ***Programmable for Custom Functions!***

**Versus other universal wiring systems.*

Infinitybox Accessory Modules

inLINK Key Fob Control Module

Control up to 16 different functions with the inLINK 4-button key fob. Consolidate vehicle security, remote lighting, door opening, and similar systems and control them with an encoded signal from 100 feet away. Features a simple plug-and-play installation. Includes 2 key fobs, batteries and installation guide.
MP50105 inLINK control module ..... 237.99 kit

inTOUCH Mobile for iPod, iPhone, or iPad

Unlock doors, turn on lights, roll down windows – control virtually any electrical accessory through an encrypted Wi-Fi connection with this simple user interface for your iPhone, iPad, or iPod touch. Includes mobile radio interface card and operating instructions. Mobile app requires iOS 3.1.3 or newer.
MP50106 inTOUCH for Apple devices... 401.99 ea

inTOUCH MAX 7" Touch Screen

The inTouch MAX 7" touch screen gives you complete control of your vehicle accessories and access expanded diagnostics with just one simple connection to the MASTERCELL. In addition to virtually eliminating the need for hard-mounted switches in the car, you can also eliminate the need for ignition keys with its built in password security system. Includes touch screen, MASTERCELL interface cable, and installation guide.
MP50107 7" touch screen interface ... 1723.99 kit

Add-On POWERCELL

Looking to add more accessories with your Infinitybox system? Add up to 10 more circuits with an additional POWERCELL. Up to five POWERCELL units can be controlled by the MASTERCELL for a total number of 50 output circuits. Includes wiring, connectors and installation guide.
MP50108 POWERCELL control unit. 516.99 ea

inMOTION Motor Controller

Add up to 5 electrical accessories that require power and ground reversing, such as window motors, lock solenoids, and convertible tops. Uses any type of switch or input and allows for options like "express down" power windows. Also features intelligent technology that allows the cell to learn the normal operation of every connected component and reacts if an unusual event occurs to prevent damage from obstructions or binding mechanisms.
MP50109 inMOTION motor controller.. 516.99 kit

inCODE Programming Module

Now you can add custom features like "theater dimming" interior lights, or delayed-off headlights, even after your system has been installed. The Infinitybox system supports custom input and output personalities. With the inCODE Programming Module, you download custom-configured programs from your personal computer and import it directly to your MASTERCELL or POWERCELL in less than 90 seconds.
MP50110 inCODE programmer ..... 332.99 ea

inDASH MAX Dash Lighting Controller

The inDASH MAX is a compact module that functions much like a POWERCELL, but is designed specifically to activate LEDs or incandescent bulbs in your gauge cluster based on commands sent from the MASTERCELL when turn signals, parking light switches, or high-beams are activated.
MP50111 inDASH MAX dash lighting... 320.99 ea

inVIRONMENT Vintage Air® Controller

A simple two cable hookup with the Vintage Air Gen-IV® allows truly seamless integration with the Infinitybox system. Gain complete control of your air-conditioning with ISIS through your choice of buttons, the inTOUCH MAX touch screen or with your Apple device.
Note: Shown using inTouch Max interface, sold separately.
MP50112 Vintage Air Gen-IV module 435.99 ea

inRESERVE Battery Monitoring

Constantly monitor your battery while your car is parked with inRESERVE! If voltage gets too low, inRESERVE disconnects the battery to preserve remaining voltage. The system also allows you to disconnect and reconnect the battery at the touch of a button. Includes exclusive ISIS battery monitoring software.
MP50114 inRESERVE module ..... 205.99 kit

VISIT OUR NEW SHOWROOM!

Conveniently Located in Huntington Beach, CA!

Four Ways to Order!

ORDERING BY PHONE

TOLL FREE 800•854•1280

In the continental United States, Hawaii and Alaska. Outside the U.S call 714.847.6887.

Mon-Fri 8:00-5:00 **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING

Service Excellence From the Restoration Leaders!

You No Longer Have To:

- ✕ Pay excessive fees to protect your merchandise
- ✕ Contact the carrier yourself
- ✕ File a damage claim yourself to have the carrier inspect the damaged items
- ✕ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries will issue a pick up call tag through the carrier that shipped the products. The carrier will pick up the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pick up the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pick up. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® - your partner in restoration!

Form of Payment

CREDIT CARDS

Classic Industries® accepts *Visa*, *Mastercard*, *American Express*, *Optima*, and *Discover* for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on pre-paid orders, the name, address, and check number must be pre-printed on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on pre-paid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:

Classic Industries®

PAYPAL

Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be pre-paid including freight *(when applicable)*. COD orders through the mail will not be accepted. WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be pre-paid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD' (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info@classicindustries.com

General Information

Sales Tax Information

Orders shipped outside of California may be exempt from sales tax. California residents are required to add the appropriate current sales tax. Due to regular variations in California sales tax, rates are subject to change without notice. California orders are subject to tax on handling fees, COD fees and rush fees. This additional tax will be applied the to invoice. As of the printing date of this catalog, the current rate is 8%.

Accuracy Of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as right or left hand products. (right side-passenger) (left side-drivers). Right hand or left hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day delivery whenever possible. All orders must be pre-paid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by Fed Ex. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non acceptance/ non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product *"Shipped truck freight"*. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a *minimum $125.00* fee for all California orders and *minimum $175.00 fee* for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an *additional $40.00* fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours. *Important: Truck freight items are excluded from promotional shipping offers.*

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog. *Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.*

General Information

Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

Sales Errors/Ordering Errors

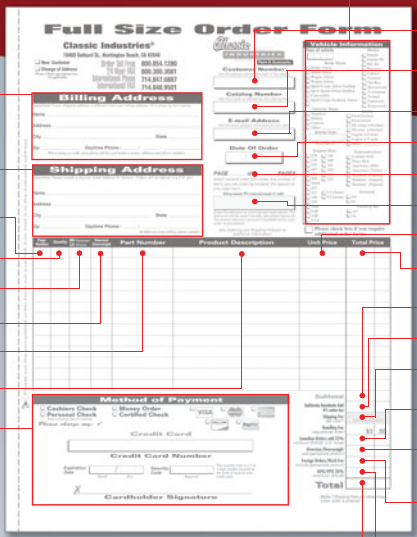
Classic Industries is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

How to FILL OUT YOUR ORDER FORM



Billing Information:
If paying by credit card, fill in the card holders name and billing address (*where the credit card statements are received*).

Shipping Information:
If different than the billing address, please fill in the name and address where the order will be sent.

Page Number:
The page # of the product being ordered.

Quantity:
How many of each item you are ordering.

RH/LH:
RH (pass. side) or LH (drivers side) if applicable.

Oversize/Overweight:
Enter correct amount if applicable.

Part Number:
Enter part number as it appears in this catalog.

Product Description:
The name of the product as it is listed in this catalog.

Method of Payment:
Check the appropriate box for payment. If you are paying by credit card, fill in the card number, expiration date, security code, and card holders signature.

Vehicle Information:
Complete information about your vehicle.

Customer Number:
Usually located on the back of your catalog, above your name.

Catalog Number:
Located on the front upper right corner of the catalog cover.

E-mail Address:
Enter your E-mail address.

Date of Order:
Enter the date of your order.

Number of Pages:
Enter the number of pages you are sending.

Discount/Promotional Code:
Enter the discount or promotional code.

Unit Price:
The unit price of each item.

Total Price:
The individual price of each product multiplied by the quantity being ordered.

Subtotal:
The total amount of products ordered.

California Sales Tax:
Orders shipped within California add 8%

Shipping Fee:
See note*

Canadian Orders:
Add 25% of your subtotal or a minimum of $10.00 U.S. funds, whichever is higher.

Oversize/Overweight and Double Oversize:
Check the quantity of items and add the appropriate amount based on the chart.

Foreign Orders/Rush Fees:
Contact Classic Industries® for current shipping rates to your country.

APO/FPO:
Add 20% of your subtotal or a minimum of $10.00 U.S. funds, whichever is higher.

Total:
Total of all items including tax and shipping.

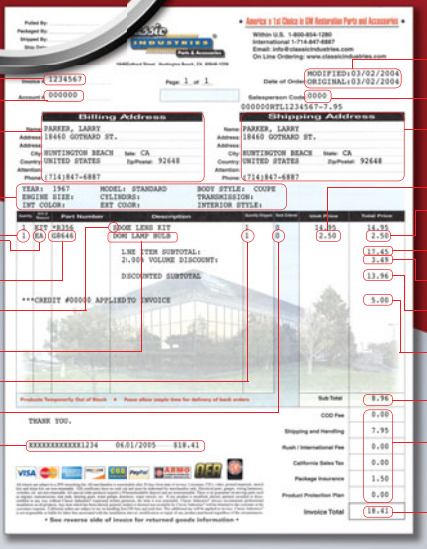
How to READ Your Invoice



Invoice Number
Each order is assigned an individual invoice number.

Account Number
Your customer number.

Billing Information
Customer mailing address or where the credit card statements are received.

Vehicle Information
Shows your vehicles's year, model, etc.

Quantity Ordered
The number of each part that you've ordered.

Unit of Measure
Indicates if an item is sold individually, as a pair, kit or set.

Part Number
Part number as it's listed in the catalog.

Sale Item
"S" indicates sale item not eligible for discounts.

Product Description
Description of the part ordered.

Quantity Shipped
Number of items shipped.

Quantity Back Ordered
Number of items out of stock.

Payment Information
This shows the type of payment (cash, credit card, etc.) and the amount billed.

Date of Order
This is the date your order was originally placed.

Sales Person
The person that took your order.

Shipping Information
The address your order was shipped to.

Unit Price
The cost of each individual part.

Total Price
The total price of each part multiplied by the quantity your ordered.

Sub Total Price
The total of all parts.

Discounts
The total of discounts applied.

Sub Total Price
The total of all parts and discounts applied if applicable.

Credits
The total of credits applied.

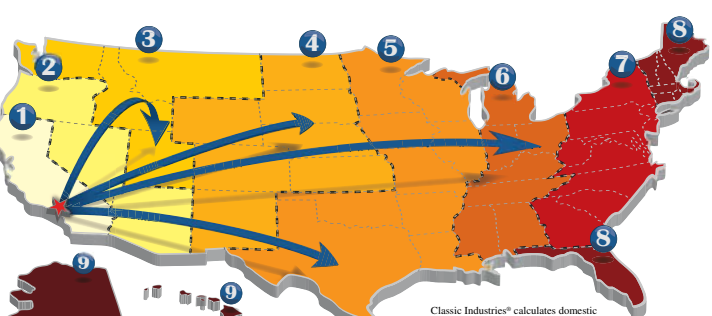
Sub Total Price:
The total of all parts, discounts and credits if applicable.

Misc. Fees:
This includes shipping and handling, rush charges, insurance and sales tax if applicable.

Invoice Total:
The total of all parts shipped and fees for your complete order.

If you have any questions regarding your invoice please contact us at 800-854-1280 during regular business hours and a customer service representative will gladly assist you.

Shipping Information



Classic Industries® calculates domestic shipping based on the 8 zones in the contiguous United States. Please note that the following chart only provides a base rate - charges may be added for oversized, overweight or truck freight items.

Zones	1	2	3	4	5	6	7	8	9
Estimated Delivery	2-4 Days			3-6 Days		4-8 Days			7-10 Days

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day delivery whenever possible. All orders must be pre-paid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

HANDLING

Each order is charged a handling fee of up to $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by Fed Ex. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum $125.00 fee for all California orders and minimum $175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional $40.00 fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog. *Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.*

ZONE 9
ALASKA & HAWAII

Orders to Alaska and Hawaii ship by air and therefore ground rates do not apply.

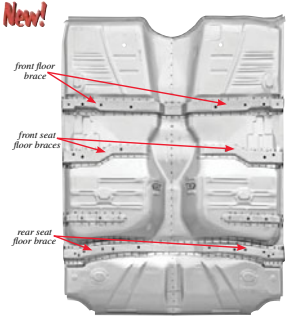
New!



bottom view of 1961-64 floor pan

Floor pan features:

1 full front floor brace
2 25" front seat floor braces (LH and RH)
2 18" under rear seat floor braces (LH and RH)
1 full rear floor brace

1961-70 Full Floor Pan Assemblies

Reproduction floor pan assembly for all 1961-70 Impala/full size Chevrolet models. Each full-length floor pan is die-formed from heavy gauge galvanized steel and features under rear seat pans that are spot welded with full underside bracing attached. The assembly is designed to allow the restorer the freedom to replace the floor pan section from front to back without piecing it together by using small sections. Assembly also features the holes and mounting nuts for seat and seat belt attachment. Replace your rusted or damaged floor pan with this high quality one piece floor pan. Each floor pan is finished with a rust preventative coating.

***Important:** Welding is required for installation.*
*Note: Shipped truck freight. *No further discounts apply.*

1958-64 Full Size 4 Wheel Disc Brake Conversion

Looking to convert your classic Chevrolet full size to 4-wheel disc brakes? This conversion is the answer. These sets rotors, master cylinder, proportion valve and brake booster. Available in manual or power brake systems, and as a standard setup with plain rotors or with cross drilled/slotted rotors and black powder coated calipers or with cross drilled/slotted rotors, black powder coated calipers and chrome master cylinder (and booster on power systems). Sets with cross drilled/slotted rotors also include braided stainless flex hoses.

Note: Shipped double oversize.

B6263 features trunk side drop-off extensions and gas tank strap brackets

1962-64 Full Trunk Floor Pans w/Rear Brace & Side Extensions

When things start falling through the holes in your full size Chevrolet's trunk floor, maybe its time to replace it! This replacement steel panel is just what you'll need to get your trunk floor back into shape. It is manufactured with original gauge steel featuring side drop-off extensions and the rear cross brace. These replacement panels will fit 1962-64 full size models except wagons.

Note: Shipped truck freight.

WeatherBlocker™ *Plus*

OER AUTHORIZED

WeatherBlocker Plus Car Covers

The ultimate combination of protection and value! Designed for outdoor use, the Weather Blocker cover is manufactured using a durable non-woven 4 layer material that provides a high level of protection against outdoor elements. The fourth layer is a soft cotton backing that further protects against scratches and dings. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Breathable and lightweight, Weather Blocker offers increased water resistance and protection from the sun's UV rays. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock. Specify blue, gray or tan.
