Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available. General Motors Parts

Classic Industries® Has More To Offer!

Service Excellence From the Restoration Leaders!

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor' s current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv To View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries® new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

OER Premier

Count on the OER Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER Premier is the true sign of originality and quality.

The GM Restoration Parts Emblem

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display this emblem are Officially Licensed by General Motors as a genuine restoration product. Classic Industries® is currently licensed for many of the products listed in this catalog. The same products we've been manufacturing for years. We haven't changed our methods or quality and the GM Restoration Parts emblem is proof. The GM Restoration Parts emblem is a registered trademark of General Motors and used under license to Classic Industries® Inc.

Classic Industries® The Restorers Choice™

Count on the Classic Industries® Restorers Choice symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

Diamond Blue™

★ **Indoor Use**
★ **Single Layer Material**

Diamond Blue™ fabric

Designed for indoor use, OER®'s Diamond Blue™ covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double-stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue™ offers basic protection from water and guards against damage from dust, dirt, and similar environmental elements. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

Diamond Fleece™

★ **Indoor/Outdoor Use**
★ **Triple Layer Material**

Diamond Fleece™ fabric

Designed for indoor and occasional outdoor use, OER®'s Diamond Fleece™ cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double-stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece™ offers water resistance and prevents damage caused by the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

SoftShield™

★ **Indoor Use**
★ **Cotton Flannel Material**

Softshield™ cotton flannel fabric

gray tan

Favored by classic car collectors that garage their vehicles, OER®'s SoftShield™ cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield™ cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double-stitched seams to add strength and durability and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side for use of a tie strap or lock. Your choice of gray or tan flannel.

The Ultimate in Outdoor Protection for Your Vehicle

OER® AUTHORIZED

Lightweight highly reflective material for added protection from harmful UV rays.

Titanium™ Car Cover

This durable, lightweight fabric is engineered specifically to provide the best protection from the sun. Designed for both indoor or outdoor use, OER®'s Titanium material features a special 100% polyester reflective and water repellent top layer that helps keep the interior cooler in sunlight and protects against harmful UV rays. Each cover is sewn with double-stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. With their specially engineered reflective properties, Titanium™ covers offer the ultimate in UV protection in a lightweight material that's easy to handle and store. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side for use of a tie strap or lock.

Technalon Premium Car Cover

Specially developed for harsh outside weather conditions, the Technalon cover offers the best blend of practicality, durability, appearance and value on the market. Produced using Polypropylene Technalon, a high tech 4 layer fabric that is lightweight, remains pliable even in extreme cold and won't rot, smell, or mildew. The inner and outer layers are tough but very soft and non abrasive while the middle layer is made of shorter fibers that catch water but allow air to circulate. Features double stitched seams with an elastic band front and rear to keep the cover secure. Specify color when ordering.

COVERCRAFT

Gust Guard™ Cover Clamps

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (airport, vacation, etc.) in locations where wind gust could be a problem, this kit is the answer. Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

CV7001 ..... 14.99 set

OER® Authorized Carpet Sets

All OER® Authorized carpet is heat stamped and pre-formed, or tailored to fit your cab's floor pan exactly. Each carpet set features a correct reproduction heel pad (if originally equipped), original factory weight jute padding attached to the underside of the carpet, color matched surged edges where front carpet overlaps rear carpet on models with two piece carpet sets and original blend carpet material for your year and model. Includes a dimmer switch grommet for easy installation (when required). Carpet can be ordered in all factory original colors! Proudly manufactured in the USA!

Note: Crew Cab carpet, passenger and cargo area carpet for Blazer/Jimmy, Suburban shipped oversize. Complete carpet sets for Blazer/Jimmy, Suburban and S10 Pickup shipped double oversize.

Molded Heel Pad
The heel pad is manufactured exactly as original. Each set features the correct configuration for the desired year in the correct matching color.

Formed for Perfect Fit
Each set is formed to original cab floor pan specifications.

OEM Materials
Manufactured using OEM equivalent materials including color matched edge binding offering an original appearance.

OER AUTHORIZED

Made in USA

Starting at 149.99!

- 1947-74 IS PRODUCED WITH OEM 80/20% RAYON AND NYLON BLEND LOOP CARPET
- 1973-98 IS PRODUCED WITH OEM STYLE CUT PILE CARPET
- FEATURES ORIGINAL STYLE COLOR-KEYED HEEL PAD
- FEATURES HEAVY 36 OZ. JUTE BACKING

S10/Blazer Carpet

Reproduction molded carpet for 1982-98 Chevrolet/GMC S10/S15 pickup and Blazer/Jimmy models. Each carpet is pre-cut and heat formed to exact factory specifications with OE grade materials to replace the original carpeting in both appearance and fit. Each features color keyed edges and a heat sealed reproduction heel pad (when applicable) for a complete installation.

Note: Complete carpet sets shipped oversize.

1955-99 Vinyl Floor Covering

Manufactured using vinyl materials just like originals!

Reproduction vinyl floor covering for GM Truck models. Many pickups did not come equipped with floor carpeting and instead feature a vinyl or rubber floor covering. Now you can replace the original vinyl covering with this quality reproduction. Manufactured to OE specifications, each piece is press molded to exact floor pan contours for a perfect fit. Each set also includes original style jute padding on the backside, offering the same appearance as factory. Due to differences in options, the floor covering must be cut when installed.
Note: Shipped oversize.

Original Style Accessory Floor Mats for Early Models

These rubber floor mats were originally available as an optional accessory at the dealership. Now you can replace the original or add to the originality of your restoration with these high-quality reproduction mats. Each mat is die-cut to fit the floor of your Chevrolet truck. Sold as a front pair only or a as a complete set of 4 for Suburban or crew cab pickups with rear seats. Will also fit other various models in the Chevrolet line. Each mat includes cutout area on the back section that allows the customer to cut the mats to fit other Chevrolet models.

Each set of mats features an embossed a Bow Tie logo on both front and rear mats as original. Will fit all models.

A Variety of Original Colors are Available!

- Correct OEM Colors!
- Carpet Grippers on Bottom of Mats!
- Manufactured Using High Grade Rubber!
- Embossed Bow Tie Emblem

Floor Mats Front Only (Set of 2)

These floor mats are used with all truck models for the front floor area only. They can be installed in any year or model Chevrolet truck.

Interior Insulation

HushMat®

- #1 Rated Automotive Thermal and Sound Insulator
- Reduces Firewall/Tunnel Heat by Over 40%
- Blocks Exhaust Drone From Entering Interior
- Hushmat Ultra Bonds to Every Surface
- Creates a 10 Db Barrier to Road and Engine Noise
- Performs in Temperatures Up to 550 Degrees F
- One Step Peel and Stick Application
- Flexible in All Climates – Molds and Contours Easily

Made in USA

HushMat Ultra Insulation

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver ..... 34.99 set
HM251 black ..... 34.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200 silver ..... 99.99 set
HM201 black ..... 99.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver ..... 144.99 set
HM301 black ..... 144.99 set

Floor/Firewall Set

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A Floor/Firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

HM400 silver ..... 244.99 set
HM401 black ..... 244.99 set

License Plate Mat Set

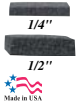

One 4" x 12" Sheet. 0.33 square feet (0.1 square meters). Designed to eliminate the nuisance rattling of your license plate due to subwoofer vibration or loose fitting frames. We also include a HushMat license plate frame in every box!

HM600 silver ..... 14.99 ea

Bulk Set

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500 silver ..... 359.99 set
HM501 black ..... 359.99 set

Made in USA

- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up to 300 Degrees F
- Aggressive Adhesion
- One Step Peel and Stick Application

HushMat Sound Absorbing Foam

1/8" Foam

Includes: two 23" x 36" sheets of 1/8" Hushmat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" Silencer Megabond ..... 119.99 set

1/4" Foam

Includes: two 23" x 36" sheets of 1/4" Hushmat Silencer Megabond foam. Apply directly on backs of door panels, headliners or under package trays.

HMF02 1/4" Silencer Megabond ..... 171.99 set

1/2" Foam

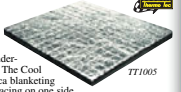

Includes: four 12" x 23" sheets of 1/2" Hushmat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" Silencer Megabond ..... 154.99 set

Cool It Mat

COOL IT. Thermo Tec

Use the Cool It Mat™ to battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. It is also perfect in doors, under-hoods, and above transmission housings. The Cool It Mat™ is composed of resin bonded silica blanketing insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dualdensity composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

TT1005 24" x 48" insulating mat ..... 31.99 ea
TT1006 48" x 48" insulating mat ..... 64.99 ea

Adhesive Heat Barrier™

COOL IT. Thermo Tec

Made in USA

Use your imagination and you will find many uses for this heat reflecting mat. Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. It can be used in applications to protect painted surfaces, plastic parts or any component from the damaging effects of radiant heat. Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance. Two sizes to choose from.

TT1003 12" x 12" ..... 11.99 ea
TT1004 12" x 24" ..... 19.99 ea

Super Sonic Acoustical Mat

COOL IT. Thermo Tec

Made in USA

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14700 12" x 12" 2 piece ..... 14.99 pr
TT14710 36" x 24" ..... 29.99 ea
TT14720 36" X 60" ..... 56.99 ea

Thermo-Guard FR

COOL IT. Thermo Tec

Made in USA

Thermo-Guard FR offers the best heat and sound insulation! This lightweight, durable shield does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high-tech foil heat barrier that blocks more than 90% of radiant heat. Thermo-Guard FR is very easy to apply and it can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055 24" x 48" one side foil ..... 19.99 ea
TT1056 48" x 72" one side foil ..... 49.99 ea

The Details Matter

When it comes to detail, the name to remember is *Classic Industries®*! Right down to the seams which are dielectrically heat sealed or sewn and include the original factory stitching pattern.

W1028100512

Correct Manufacturing Techniques

Classic Industries® upholstery is professionally reproduced using exact factory specifications. Correct manufacturing techniques allow the restorer to get a quality factory appearance with easier installation.

Correct Grains and Colors

The finest American made vinyls are used in manufacturing all upholstery sets. Each style and color is produced to closely match the original in weight and grain. You can be assured of achieving the desired results giving your interior authenticity and a quality, factory fresh appearance.

1981-87 Bench Seat Upholstery

Reproduction bench seat upholstery for 1981-87 Chevrolet/GMC standard cab or crew cab truck models. Manufactured using correct madrid grain vinyl to factory specifications, each set will replace the original in appearance and fit. Available in all vinyl or vinyl with regal velour cloth inserts.

Seat Foam

Highest Quality Reproduction Chevy/GMC Seat Foam on the Market!

The finest seat foam on the market today, these all new seat foam sets are available for all 1967-99 Truck interiors. Replacing the seat foam is always recommended when replacing your original upholstery. With new seat foam, you'll get a great fit and installation will be easier. Each replacement foam insert is manufactured to match the original foam density exactly, allowing your new reproduction upholstery to install correctly while maintaining a factory appearance. Seat foam features woven cloth backing which protects the seat foam from the seat springs. Extra cloth is included to attach the foam to the seat frame. Molded to meet or exceed factory quality specifications, these replacement bench seat foams will also make your ride more comfortable. Don't neglect to replace foam when reupholstering your interior!

Manufactured to Exacting Specifications with the Finest Quality Materials to Meet or Exceed the Industry Standards for Excellence!

1967-72 Seat Belt Buckle Cover & Emblem

Reproduction standard interior seat belt buckle cover includes the button and spring assembly as well as a reproduction GM "Mark of Excellence" emblem. This is a plastic cover used to replace front or rear seat belt covers for standard interiors, unlike the deluxe interior models which included a die-cast buckle cover. Available in black only, paint to desired color. The emblem features a aqua or blue background, and a black and polished aluminum border with the "Mark of Excellence" print on bottom. Adhesive backed and measures 7/8" x 7/8". Use as needed. Sold individually.

1970-71 Chevrolet/GMC Vinyl Door Panels

The 1970-71 door panels are made from Walrus grain vinyl and feature factory correct colors that match our interior upholstery and soft trim interior products. Each door panel is manufactured utilizing heat sealed horizontal pattern stitching surrounded by authentic scroll detailing. These panels are accented with wood grain trim and mylar border located above the arm rest and door handle areas. The non-assembled door panel skins are applied by using the existing door panel backing while the preassembled units come complete with backing and are ready-to-install.

Universal Snap-On Windlace by the Foot

Replacement style snap-on vinyl windlace, sold by the foot. Often used to seal interior rear door jamb edges to sill plates and much more. Featuring authentic vinyl grain texture, positive gripping power and rapid application, this flexible snap-on vinyl trim is ideal for classic car applications. Available in a variety of colors.
Note: Windlace is cut to your measurement and therefore is non-returnable.

Made in USA

1947-66 Altman Easy Door Latch Set

Stop slamming your doors! The Altman Easy Latch set is a vehicle specific bolt-on, bear jaw rotary claw latch set that features contoured jam plates to match the contours of your vehicles doors. These are in no way a universal application. Our bear jaw rotary claw latches are each designed to work with the exterior handles, interior handles, and the exterior door lock cylinders of the specified vehicles. Each piece of our bear jaw latches are zinc-plated to fight corrosion. The Altman Easy Latch kit will have your doors opening and closing smoothly and safely. Instructions and mounting hardware is included. Manufactured in the USA.
Important: 1955-59 sets are offered in two ways: For customers retaining the look of their original steel door panels with an insert that is supplied and will fit in the recessed area, or for customers that desire to fill that area with a custom door panel.

RE13005

Dome Lamp Dimmer

Soften the interior lighting of your classic truck. The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The deluxe dome lamp dimmer, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.

1995-01 Dash Pad Rattle Stops

These rattle-stop dash pad clips are an inexpensive and easy-to-install solution for noisy dash pads. Over time, cracks begin to form around the bolts holding the top of the dash in place. These cracks allow motion and flexing, which can cause further damage and unacceptable noise. These clips treat and prevent this problem by reinforcing the weak points in the dash. Set includes; 3 tabs, 3 rubber insulators and instructions. Available in flat black or brushed aluminum finish.

Important: Also fits 1995-99 Tahoe and Suburban.

Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. The Cable-X is a universal adapter that will pick up the electronic speedometer signal and will operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem. Your choice of snap on or thread on cable fitting at speedometer.

1973-91 Super Sport Style Dash Emblem

Now you can build your own 1973-91 Chevy SS pickup. This dash emblem is the perfect size to cover up the stock emblem holes on your 1973-91 dash panel or use it in other locations for a custom SS look. Each emblem is manufactured from durable plastic and features a strong adhesive backing for easy installation.

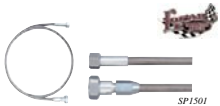

14800	1973-91	Super Sport	14.99 ea

1982-89 Speedometer Cable

This lower speedometer cable is manufactured as original for 1982-89 truck 2 wheel drive models with automatic transmission. It is a thread-on design and measures 24" in length.

6454481	1982-89	1/2 or 3/4 ton	29.99 ea

SP1501

"U-Cut-To-Fit" Speedometer Cable

These speedometer cables feature machined aluminum fittings and a premium housing designed with a specially extruded liner for extended life of the cable. The inner cable and outer housing can be cut to fit most GM transmissions. These are "U-Cut-To-Fit" speedometer cables that are 7' long and designed to work with factory speedometers with a 5/8"-18 male thread or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner, VDO etc. These cables are also designed to fit into the transmission gear adapter (not supplied).

Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Both sensors are 7/8"-18 thread.

60117	late TPI and early LT1 – 4 pulse		159.99 ea

GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position.

1947-87 New Vintage Custom Gauge Kits

Upgrade the look and performance of your dash with a set of gauges from New Vintage USA. These gauges feature a period styled design to blend perfectly into your build. Fits 1947-87 GM Trucks and easily installs into your existing bezel using NVU's exclusive mounting system. Each kit is hand built in Detroit and comes with NVU's 5-year warranty. The electronic programmable speedometer with digital odometer allows for easy recalibration any time wheels and tires or rear axle gears are changed. Each kit includes an electronic programmable speedometer (unless notated) displayed in MPH, tach (when applicable), oil pressure, fuel level, volt, and water temp gauges, oil pressure and water temp sending units, sending unit adapters, NVU's mounting brackets/panel, OE style stainless steel bezels (1947-55 1st series) and instructions. Made in USA.

***Important:** Please add color code to part number when ordering: A=Black, B=Beige, C=White*

***Note:** Instrument dash bezel not included. Sending unit for electronic speedometer must be purchased separately.*

1947-53

Features: two 4-3/8" gauges, OE style bezels, wire harness, and a 240-33 Ohm adjustable fuel sender. 3 in 1 gauges also feature turn signal, high beam, and warning lights incorporated into the gauge.

***Note:** *Black or Beige only. †Black or White only.*

1947-87 Dakota Digital VHX Series Gauges

Add a modern appearance to your truck with these VHX gauge clusters! Six gauges provide traditional readouts while digital LCD message centers can select between clock, odometer, hour meter, 0-60 timer, 1/4 mile timer, and shift indicator. Designed to fit directly into stock instrument bezels. Available in three styles: carbon fiber, silver alloy or black alloy with either blue, red, or white backlighting (white illumination not available with carbon fiber style gauges).

Note: Shift indicator function requires sending unit DD1000. Specify illumination color when ordering: B = Blue, R = red, or W = white. Dash bezel not included.

In-dash Speedos and Tachs

Our In-dash Speedometers and Tachometers feature our famous high performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges a proven high performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Important: *Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an Ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

ULTRA-LITE

ULTRA-LITE gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy-to-read.

SPORT-COMP II

SPORT-COMP II gauges feature a satin anodized Super Bezels and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent from your OE dash lighting.

PHANTOM II

Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

ULTRA-LITE II

ULTRA-LITE II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

C2

C_2 gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Z SERIES

Z SERIES gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read.

TRADITIONAL CHROME

TRADITIONAL CHROME gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy to read with a crisp, no-nonsense nostalgic appearance.

ES

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

COBALT

COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

AMERICAN MUSCLE

The AMERICAN MUSCLE Street Rod Series features advanced hybrid dial technology combining AutoMeter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-COMP

SPORT-COMP gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high performance line easy-to-read with a crisp, no-nonsense modern appearance.

NV

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom

Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy to read with a crisp, no-nonsense modern appearance.

B Dash & Console Components

Gauge Accessories

LED Replacement Bulb

Upgrade your standard instrument lighting with intense LEDs. For all AutoMeter gauges (except clocks, AM/FM ratio, and Autogage), speedometers and tachometers. Does not work with Digital and LED Lit gauges (i.e., COBALT, C2, NV, Phantom II, SPORT-COMP II, ULTRA-LITE II). Sold individually.

All Other Gauges
Replaces 161, 168, 193 and 194 wedge base style bulbs only.

Quick-Lite Shift-Lite

Ultra fast response, vibration resistant amber LED light. Compatible with all external shift light tachometers and DPSS Controllers sold separately.

AM5330	black	59.99 ea
AM5331	silver	61.99 ea
AM5329	chrome	84.99 ea

Shift-Lite

Uses an incandescent bulb and bright amber lens to alert the driver to preset shift points. Available in black or silver. Includes cover. Use with external, non-LED based, shift light tachometers or DPSS Controller sold separately.

AM5334	black	54.99 ea
AM5335	silver	54.99 ea

Super-Lite 12 LED Shift-Lite

A brighter LED illuminated version of the Shift-Lite. This light uses 12 bright amber LEDs and features a three position brightness switch. Available in black or silver. Use with external, non-LED based, shift light tachometers or DPSS Controller sold separately.

AM5332	black	89.99 ea
AM5333	silver	89.99 ea

Billet Gauge Bezel

Twist Machine billet aluminum bezels fit over your existing AutoMeter gauges without modification or disassembling your dash. These billet bezels attach to your gauges by way of pressure activated silicone "dots". Simply clean your gauges, apply the dots, then press your new bezels in place. Available with or without holes in face, individually or in sets.

Gauge Pillars and Pods

Full pillar pods and standard gauge pods are the easiest way of adding additional gauges to your interior while maintaining a factory look. They easily attach to your A-Pillar and cover your existing stock pillar. Each full pillar pod is designed to exactly match the size and shape of your stock pillar for unequaled fit and finish. These pillar pods are available in black ABS and can be painted to match the color of your interior. The full pillars feature mounting holes for triple or dual 2-1/16" gauges. Available in dual 2-1/16", single 2-1/16", or single 2-5/8" configurations.
Note: Gauges sold separately.

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.
Note: For use with distributorless ignition systems only.

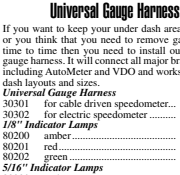

AM9117	tach adapter	99.99 ea

Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up-and-down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-1989 GM vehicles. Measures: 2" x 0.75" x 1". Includes instructions.
Important: *Recommended for vehicles running an HEI ignition with a tach designed for points style ignitions.*

MG019219		34.99 ea

Universal Gauge Harness

If you want to keep your under dash area organized or you think that you need to remove gauges from time to time then you need to install our universal gauge harness. It will connect all major brand gauges including AutoMeter and VDO and works with most dash layouts and sizes.

1960-94 GT Pro Touring Sport Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four-spoke Sport wheel used on the 70's Sport models. The wheel offers a modern flair to an already classic design. Choose between a black anodized leather wrapped with "baseball stitching" or polished spoke with genuine mahogany/perforated leather. Each wheel is 14.5" on diameter with a 2.375" dish. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and grade eight mounting hardware.

Note: Not intended for vehicles with air bag safety systems.

Polished Horn and Hub

This kit includes the polished 4-spoke wheel with polished hub and a choice of an engraved bowtie or red bowtie horn button. The horn buttons cover the bolts that mount the wheel for that custom look.

14" Padded Leather Steering Wheel Kits

Replace the outdated, uncomfortable stock steering wheel in your GM truck with one of these modern padded leather steering wheel kits. Each wheel features a thick padded leather grip for driving comfort and a classic center spoke design that is reminiscent of the optional sport wheels from the late 1960's muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Each steering wheel kit comes with everything you need to mount the wheel including, steering wheel, mounting hardware kit, mounting hub and Bow Tie or crossed flags horn cap. These kits are priced right and an exceptional value.

14" Padded Leather Steering Wheel Set

Replace the outdated and uncomfortable stock steering wheel in your Chevrolet/GMC truck with one of these modern padded leather steering wheel sets. Featuring a classic center spoke design reminiscent of the optional sport wheels from the muscle car era of the late 1960's, each wheel features a thick padded leather grip for driving comfort. The smaller 14" diameter wheel is easier to manage and gives your dash a unique, sporty look. Finished in leather, these wheels are available in your choice of black, tan, gray or red and with your choice of horn button and ring with either red/white/blue Bow Tie, blue/silver Bow Tie, black/red Bow Tie, cross flags or GMC logo. Each steering wheel kit comes with everything you need to mount the wheel, including: steering wheel, mounting hardware kit, horn button and your choice of a chrome or brushed billet aluminum mounting hub.

Note: Must specify logo suffix on steering wheel set: A – red/white/blue Bow Tie, B – blue/silver Bow Tie, C – black/red Bow Tie, D – cross flags, F – GMC logo.

Steering Column Parts

Made in USA

1947-72 Tilt Column

These tilt steering columns include levers and knobs and are wired for self-canceling turn signals, 4 way flashers, and horn. Compatible with 1969 and newer GM passenger car steering wheels. Most aftermarket steering wheels attach with an adapter. 1947-59 columns include new under dash and floor mounts. For 1960-72 columns, the original mounts and hardware mount must reused. Column shift units include a neutral safety switch, and an optional cable shift control set attaches to the lower shift arm on the column.

Important: *Column shift units do not include a gear selector indicator. Column shift pattern allows use of a 3- or 4-speed automatic transmission, but will not match a Powerglide detent. Not for use with pre-1969 factory steering wheels. 1955-59 models with turn signals require an adapter. New U-joint/coupler, steering shaft, rag joint, and harness adapter are recommended.*

1960-72 Steering Column Installation Sets

These sets include items needed to install your ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. The sets for factory harness equipped vehicles will include the adapter harness to convert to a later model GM or Ididit steering column to the factory wiring. The sets for aftermarket wiring harness do not include the adapter harness as it will not be necessary for installation.

Important: *All these sets include a new U-joint/coupler, rag joint and steering shaft. When using your original wiring harness the adapter harness with 4 way flasher is included.*

For Factory Original Wiring Harness

1960-07 Steering Shaft

Direct replacement heavy-duty steering shaft assemblies for 1960-07 full size trucks are a huge improvement over stock shafts. They consist of a telescoping shaft, needle bearing U-joint and a rag joint. These heavy-duty assemblies will fix that loose and wandering steering for good! Extreme duty shafts features a two joint design that eliminates the factory rag joint. These are designed for extra heavy-duty, off-roading or for trucks with body lifts.

1948-87 Tilt Steering Column

FR20021B

Featuring all-new components including a one piece cast upper housing design, these tilt steering columns are designed to bolt into the place of the original column. Each Flaming River tilt column comes complete with turn signals, hazards and a horn. The shift lever with shift indicator are included on column shift applications. Manufactured using 304 grade stainless steel either in paintable milled finish or polished to a high luster.

Important: *1960-66 power steering models – early power uses 13/16"-36 spline, late power uses 3/4"-30 spline. *Shift indicator not included.*

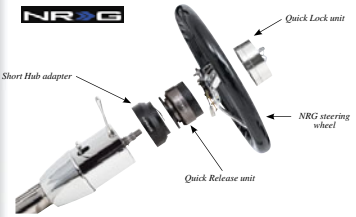

Note: *NSS = neutral safety switch.*

NRG Steering Components

NRG was founded by a group of genuine racing enthusiasts dedicated to raising the bar for aftermarket products. Initially focusing on high end interior products, their quality and popularity enabled them to expand into tuning components. Steering wheels and accessories remain a NRG specialty. Offering an appearance with the quality and performance to match, the products from NRG innovations are designed and manufactured to stand up to your expectations.

- **Manufactured from the Highest Quality Aircraft Aluminum.**
- **All Quick Release Units Feature a Ball Locking Mechanism.**
- **Will Work with All 1969-06 GM Columns.**
- **Compatible with All Flaming River and ididit Columns.**

The NRG Quick Release system gives your vehicle's interior a finished touch, while the Quick Lock system will also give you added security.

Quick Release unit *installed on column* *removable steering wheel*

6 Bolt Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last. Available in black with a carbon fiber ring or in a variety of other colors with titanium chrome ring.

Note: Must use in conjunction with the short hub adapter.

152782GM	gun metal with titanium ring	129.99 ea
152782GL	silver with titanium ring	129.99 ea

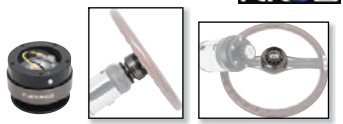

installed on column

Short Hub Adapter

This short hub unit was designed to mount an aftermarket steering wheel/quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, one piece design for maximum strength and durability.

Note: Must use with one of our Quick Release or tilt systems.

152780	black	129.99 ea

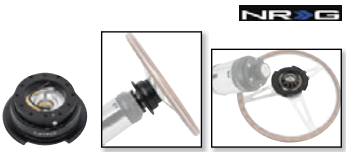

Quick Release unit *installed on column* *removable steering wheel*

5 Bolt Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last. Compatible with all 5 bolt Grant steering wheels.

Note: Must use in conjunction with the Short Hub Adapter.

152783B	black	129.99 ea

Quick Release unit *installed on column* *removable steering wheel*

6 Bolt Generation 2.8 Quick Release System

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded diamond cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

Note: Must use in conjunction with the short hub adapter.

Universal Integrated Turn Signal Set

A common problem faced by rodders and kit car builders is where to mount turn signals since many aftermarket steering columns are not designed to accommodate the necessary wiring and switches. Problem solved, with this new Integrated Turn Signal set from Painless. The toggle switches for both turn signals and flashers can be mounted anywhere. Because the set is designed to be an integrated system, turn signals will work in conjunction with brake lamps.

30120		169.99 set

CX1188

Universal Turn Signal Switch

Aftermarket replacement turn signal switches for various models that do not have factory turn signals. This universal switch mounts to the steering column.

iStart™ Touch Sensitive Starter System with Advanced Security

This system uses a security module with proximity sensors to disable the ignition switch and keep the doors locked until you come into range. Once inside, a touch sensitive starter button lets you cycle through accessory, ignition, start/crank, and off modes just like a typical ignition switch. Skip directly to start/crank by simply holding the button!

Note: *Main control box is 3-1/2" x 6" . Security module is 2" x 4". iStart™ button requires 1-1/4" mounting hole.*

1947-72 Modern Reproduction Radio

These all new radios have the exact look and feel of the original radio, but have the audio performance you expect from today's technology. These radios install without any modifications to the dash and free up additional space behind the dash due to it's compact size. Radios include die-cast chrome knobs, faceplates, and functioning AM/FM station presets (where applicable.) Designed and manufactured in the USA.

SecretAudio Sound Systems

SecretAudio systems are an excellent choice for any project vehicle because they allow you to keep your original radio intact, or you can hide your audio system altogether! The tuner/amp unit can be hidden out of sight and controlled by either the LCD Display/Controller or a mounted LCD panel with a RF remote control. Both systems boast excellent audio features which make them an ideal choice for any street rod, classic, or custom.

Secret Audio with LCD Display/Remote

All system functions are controlled by and shown on the rechargeable remote controller/LCD. Includes LCD holder (usage is optional) and cigarette lighter adapter for charging.

CR601 ..... 411.99 set

Secret Audio with Compact RF Remote

Features an LCD display that can be mounted virtually anywhere and controlled by the compact radio-frequency (RF) remote. Includes flush mount bezel and mounting bracket for your choice of LCD display mounting.

Play Portable MP3's or CD's on Your Factory Radio!

With the RediRad adapter music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. For simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off the personal player. Preserve the original appearance and maximize the collector value of your vehicle while still listening to your tunes your way!

14923	RediRad adapter		99.99 ea

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

1973-03 Back-Up Lamp Switch

Mounted on the transmission, the back-up lamp switch is an open switch that prevents voltage from being applied to the back-up lamps until the vehicle is put in reverse. Putting the vehicle in reverse closes the contact and applies power to the rear back-up lamps.

1947-02 Stop Lamp Switch

If the brake lamps on your truck don't illuminate when you press your brake pedal, it may be time to replace a burnt-out brake lamp switch. The combination of heat, electrical loads, and repetitive use often causes this switch to fail. These quality stop lamp switches will restore your brake lamps to working order. *Note: cc=cruise control.*

1960-03 Neutral Safety Switch

A neutral safety switch allows current to pass from the ignition switch to the starter when the lever is placed in the P or N position or the clutch is depressed. Located on the lower steering column or the floor shifter of automatic transmission vehicles and behind the clutch pedal of manual transmission vehicles. The neutral safety switch is often forgotten when the vehicle does not start and is often the culprit when all other possible starter components have been replaced.

A Welcome Addition to Your Cockpit!

The Plug-N-Chug dashboard drink holder installs in seconds by sliding your ashtray out and sliding the Plug-N-Chug in its place. Whether driving to a show or just cruising in your daily driver, you'll find the Plug-N-Chug a welcome addition to your cockpit. Best of all, it installs with absolutely no modifications to your vehicle. During the show, simply unplug the drink holder and plug the original ashtray back in its place for an original interior appearance. Upholstered in automotive grade black vinyl. Choose from our king size single drink holder or standard size double drink holder.

1947-62 Original Glove Box Key

Original GM replacement key for 1947-62 GM trucks. This is the correct octagonal replacement key for an authentic appearance.

G10255	1947-62	all – octagonal ..... 3.99 ea

1973-91 Glove Box Lock Cylinder

If you only need to replace the glove box lock, this original GM lock cylinder can be coded to your existing key to ensure your original key can be used to lock it. This eliminates the hassle of having an extra key to keep track of, and also eliminates the need to replace or recode other lock cylinders when you want to maintain matching keys throughout the vehicle.

Note: Uncoded.

New!

1960-72 Billet Aluminum Pedal Assembly

Direct replacement billet aluminum pedal assemblies for 1960-72 GM Truck models. Each throttle assembly has been designed to eliminate the factory rod linkage and mount into the stock location utilizing a modern Lokar throttle cable system. The arms are splined and can be switched for right or left adjustment. The traditional flat style throttle pad is spring-loaded and measures 2" x 5". Lokar's curved brake, clutch and parking brake pedal pads add style and function to your classic car. Designed with hidden screws, these pads are curved to match and bolt directly to the factory steel pedal. Available in a brushed or black finish with rubber inserts on the pad. Made in USA.

Note: Short Pad – 4" (top of pad) 3-5/16" (bottom of pad) x 3-1/8" high. Long Pad – 5-7/8" (top of pad) 5-1/8" (bottom of pad) x 3-1/8" high.

Bench Seat Console

Classic Consoles Low-Rider floor console is designed to fit over the transmission hump and features an aluminum plate underneath that can be adjusted to conform to just about any transmission hump. The Cruiser series consoles are designed to fit the contour of early bench seats and easily installs with the supplied nylon strap. This strap is routed under the bench seat and cinches down to the front of the console. All consoles feature large drink holders and a felt lined storage compartment with lid.

Low-Rider

Measures: 17"L x 8-1/2"W (11" at cupholders) x 6"H at cupholder, 4"H at rear, with a 10"L x 6"W x 3"H storage compartment.

A Classic Industries Tribute To

Mr. Chevrolet

DICK HARRELL

Dick Harrell, Drag Racing Legend

Classic Industries® is proud to salute Dick Harrell, drag racing pioneer and all-around good guy who earned the title of "Mr Chevrolet," for his profound contributions to the classic car hobby and muscle car culture.

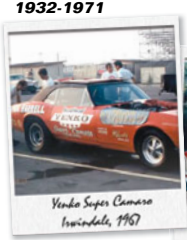

Dick Harrell was born in Phoenix, Arizona and lived there until he was 5 years old. He and his family then moved to Carlsbad, New Mexico, where he resided until 1965. Cars were very much a part of Dick Harrell's early life. Dick first gained racing acclaim in the Carlsbad area at the tender age of 14 where he became deeply involved with sprint cars. He began tuning and later proved to be a capable driver, racing throughout the Southwest. At age 17, Dick started driving jalopies on a dirt track near Carlsbad. By the early 1960's, Dick Harrell was a racing champion, setting records left and right in Chevrolet cars that he had re-engineered himself. When General Motors discontinued its racing program in the mid 1960's, most racers abandoned Chevrolet in favor of Ford and Chrysler models. Undaunted by GM's decision, Dick Harrell continued racing Chevrolets even without factory support. During this period of time, if a Chevy was competing in a professional drag race, you could bet that Dick Harrell was probably involved. He was relentless against the bandwagon of factory-backed racers, forging his reputation and earning the nickname "Mr. Reflexes" among others, but no nickname was more appropriate than "Mr. Chevrolet".

When the Camaro was newly introduced as a 1967 model, Dick Harrell teamed up with dealers such as Yenko Chevrolet to exploit the Central Office Production Order (COPO) process. Together, these early pioneers built the first COPO Camaro models, some of the most highly sought after cars of the era. Dick Harrell then used his business skill and outstanding reputation to convince the American Hot Rod Association (AHRA) to create a special Pro-Stock racing class for these COPO models and they agreed, providing that 50 of each model were sold to the public. In 1969, Chevrolet took notice and enlisted Dick Harrell's help with the development of the now famous aluminum 427ci big block V8 for Can Am racing. This very powerful, extremely lightweight engine was conservatively rated at 430 HP and would make the 1969 ZL-1 the quickest production Camaro to leave the factory for decades.

Dick Harrell solidified and built upon his reputation in the business world, but his passion for racing would never subside. As he continued his affair with the drag strip, he was always willing to share his love and knowledge of Chevrolet and drag racing with anyone and everyone who was interested. Unfortunately, on September 12, 1971, he lost his life in a crash during a race in Toronto, Canada, when a front tire explosion at 220 MPH sent Harrell into a light pole. In the aftermath of the tragic crash, speed proven front tires were developed for funny cars to prevent similar accidents. Even in death, Dick Harrell advanced the course of drag racing.

On that unfortunate day, Dick Harrell left behind a wife, Elaine, and two daughters, Valerie and Kim. Valerie continues to keep the legacy of her father's incredible career alive by operating a forum and website dedicated to her father's memory. She has also been involved in projects that match the spirit of her father's efforts such as the 427-powered Dick Harrell Camaro tribute cars built by GMMG of Marietta, Georgia in 2003.

Dick Harrell, "Mr. Chevrolet"
1932-1971

Yenko Super Camaro
Irwindale, 1967

Dick Harrell's Chevy II
Anaheim, CA

Dick Harrell was recently inducted into the Don Garlits International Drag Racing Hall of Fame, finally getting the recognition he deserves 39 years after that fateful day in Toronto. Today, we salute him as a true innovator, enthusiast and hero in the world of high-performance racing and the automotive hobby.

Dick Harrell, the loving husband and father, is forever lost except in the private memories of his family and friends. "Mr. Chevrolet", the racing legend behind everything that made Chevy the major force that enthusiasts know and cherish today, will live on in our hearts and minds forever.

Visit www.dickharrell.com for more information on "Mr. Chevrolet".

The "TattleTale" Pulsing Brake Light

To reduce the risk of damage to your classic vehicle, make sure those behind you are aware you're stopping. Now you can feel safer with The "TattleTale" pulsing brake light system. An inertia switch (which is adjustable by you, using supplied installation bracket) detects panic stop situations and reroutes the brake signal through an electronic pulsator. Under normal braking situations the brake lights react normally, but when hard braking occurs, the lights pulse rapidly, alerting other drivers of a panic stop. This system is great for 3rd brake lights and is for use with systems up to 60 watts (5 amps). Includes installation instructions.

Custom License Plate Frame

Flaunt your GM pride with a custom license plate frame that shows off your vehicle year and Chevrolet or vehicle year and model. Available for 1947-2002 Chevrolet models, with top mounting holes to fit any year. All license plate frames are manufactured in the USA and are produced in die-cast zinc with an elegant, rust preventive triple chrome plating. Choose from a black, blue or red background with bright white lettering.

Note: Available in a variety of years and models.
Specify your choice of color: A – Black, B – Blue, C – Red.

Style Codes

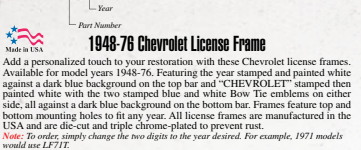

How to Order Year/Model Frame:

Please select model from the part numbers listed below. Add the two digit year to the part number followed by two-digit style from above for that model and finally the alpha color code A – Black, B – Blue, C – Red.

LF223 58 01 A = 1958, Chevy Style 1, Black
- LF223 — Part Number
- 58 — Year
- 01 — Style Code
- A — Color Code

Made in USA

1948-76 Chevrolet License Frame

Add a personalized touch to your restoration with these Chevrolet license frames. Available for model years 1948-76. Featuring the year stamped and painted white against a dark blue background on the top bar and "CHEVROLET" stamped then painted white with the two stamped blue and white Bow Tie emblems on either side, all against a dark blue background on the bottom bar. Frames feature top and bottom mounting holes to fit any year. All license frames are manufactured in the USA and are die-cut and triple chrome-plated to prevent rust.

Note: To order, simply change the two digits to the year desired. For example, 1971 models would use LF71T.

Script Logo Styles

Block and Script Style License Plate Frame

Finish off the details for your ride with these high-quality license plate frames. They are heavy cast solid brass and triple chrome-plated. CNC engraved and hand painted with UV stable epoxy enamel to ensure a lasting finish. They will never rust and will look great for as long as you own your vehicle. They are offered with bottom or top logos, since many of the newer model truck rear bumpers cover the bottom of the license plate. Each license frame comes with matching chrome screw caps to add the final detail.

*Note: *Features red Bow Tie next to script.*

Chevrolet Shop Manuals

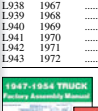

Service and Shop Manuals

These factory shop manuals give you all the information you'll need for servicing your GM truck. Each manual features plenty of important information, including a brief description of construction, and thorough data on operation, care, specifications, and overhaul of major components for Chevrolet and GMC trucks. These manuals were originally written by General Motors and will not only serve as a handy reference, but also provide step-by-step procedures for most service operations. This is an invaluable reference source for anyone who owns a Chevrolet or GMC truck. Reprints of the original GM shop manuals.

*Note: *Includes supplement for 1952. **Supplement – use with L784.*

1947-72 Assembly Manual

Each manual is an exact duplication of the original assembly manual actually used on the line when the truck was built. These manuals include detailed assembly information and exploded views on each and every major component. Also includes exploded views of different sections of the truck including interior and exterior parts. Each part is numbered with the original part number for reference along with special factory notations describing the assembly of the vehicle and changes that may have been introduced right on the line. If you're putting together a truck, or simply want to know in detail, how the truck was assembled, this book is a must! Available for years listed below.

How to Repair Your Pickup or SUV

Whether confronting wild terrain or suburban sprawl, these daily drivers require regular maintenance to keep them in top form. This book, by straight-talking author and auto-show host Paul Brand, gives readers all the information they need to keep their SUVs and pickups running smoothly. With 50 step-by-step projects, all clearly illustrated with detailed photographs, How to Repair Your Pickup or SUV covers every aspect of car care for these vehicles, from basic fluid and brake replacement to engine and transmission maintenance. Though some of the book's projects cover general vehicle maintenance, most are specific to pickups and SUVs, such as those focusing on suspension and wheel/SUV upgrades, bedliners, trailer hitches and more. Softbound, 224 pages, 8-1/4" x 10".

Blazer & Jimmy Limited Edition Extra 1969-1982

Most SUVs were based on existing truck chassis with the result that early examples were pretty basic but were strong and powerful and soon became symbols of a new lifestyle. One of the first in the market was the Blazer which quickly established itself as one of the biggest selling vehicles in North America because of its go-anywhere capabilities and roominess. The other plus was a range of accessories such as air conditioning, automatic transmission , carpets, etc. The Blazer soon became a symbol of a new breed of buyer in North America as it was a big seller for GM and generated huge profit per unit. Large interest clubs have been formed by people who enjoy getting away and out into remote areas of the country where they can exploit the off-road capabilities of the Blazer to the fullest extent. Softbound, 136 pages, b&w.

Chevy Engine Overhaul Manual

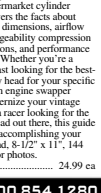

This Haynes manual includes information on engine identification, tools and equipment, diagnosis, cylinder head servicing, engine removal and installation, step-by-step procedures, tips from professionals, performance and economy modifications and more! Softbound. Approximately 275 pages.
L565 ..... 29.99 ea

The Small-Block Chevy Bible From Gen1 to Today's LS

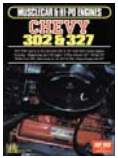

Since 1955, Chevrolet's small block V8 has defined performance. It was the first lightweight, overhead valve V8 engine available to the masses at an affordable price, and remains the performance engine of choice to this day. A builder does not have to spend big money to get big horsepower from the Chevy small block, and this book provides the information needed to build anything from a mild street engine to a cost is no- object dream build. Includes multiple build examples and case studies, parts selection, flow printing, basic machine work, and more. Softbound, 8-1/4" x 10-3/4", 240 pages.
L1396 ..... 34.99 ea

GM LS-Series Cylinder Head Guide

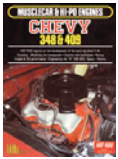

The GM LS-Series V8's are the most popular engines in the aftermarket right. Choosing the best cylinder head is key to making any LS-engine project perform to its highest potential. This book compares readily available factory and aftermarket cylinder heads and delivers the facts about each, including dimensions, airflow rates, interchangeability compression ratios, applications, and performance characteristics. Whether you're a budget enthusiast looking for the best-possible factory head for your specific combination, an engine swapper looking to modernize your vintage muscle car, or a racer looking for the best-flowing head out there, this guide is essential for accomplishing your goals. Softbound, 8-1/2" x 11", 144 pages, 333 color photos.

Chevy Monster Big Blocks

The golden age for American engines must be from the mid-'50s when the small block Chevy made its debut – to the early '70s when emission controls brought an end to the muscle car era. The three major manufacturers – GM, Ford and Chrysler each supported at least one big block and one small block engine during this period which subsequently went on to become legends. Softbound, 132 pages.

L990 ..... 19.99 ea

Big-Block Chevy Buildups

This step-by-step guide to big block Chevy engine buildups covers everything from low budget engine projects for mild street performance, to all-out race motors for dragstrip action. Bolt-on modifications, engine block prep, cylinder heads, intake and exhaust systems, dyno-tested combinations and more. 8-1/2" x 10-7/8", 192 pages.

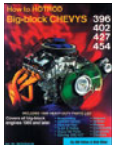

L1484 ..... 24.99 ea

How to Rebuild Your Big Block

Comprehensive book giving excellent information on how to remove engine, tear down and inspect for wear, recondition, assemble and install. How to identify each part. Includes casting numbers and specifications. Covers all years of passenger cars and trucks. 396, 400, 402, 427 and 454. 160 pages, softbound.

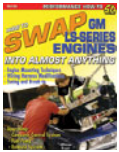

L41 ..... 29.99 ea

How to Hotrod A Big-block

Full coverage is included to show and explain what it takes to blueprint an engine to the exact specifications which will provide the best performance. Lots of photos and illustrations will help make your task easier. Softbound, 162 pages, 8-1/2" x 11".

L75 ..... 29.99 ea

How To Swap GM LS Engines

Includes complete specs, and detailed information so you can select and fit an LS engine. A section on mounting kits, explaining how to install these engines into a variety of cars using readily available motor mount kits, universal engine mounts, or fabricated mounts. 144 pages, softbound.

L1021 ..... 24.99 ea

Chevy LS1/LS6 V-8s

Covered is everything you need to know about these engines, including the difficult engine removal and installation, simple engine bolt-ons, electronic controls for the Generation III engine and detailed engine builds at four different power levels. 160 pages, 600 b/w photos.

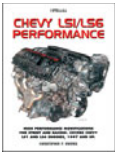

L862 ..... 24.99 ea

LS1 Engine Installation

This useful publication provides general information on components and procedures that can be extremely useful when installing or servicing LS1 engines. Topics include installation notes, support systems, electronic engine controls, recommended accessories, parts lists and engine specs. Softbound, 36 pages.

G11810 ..... 15.99 ea

Chevy LS1/LS6 Performance

A complete performance – guide for Chevrolet's newest generation LS1 and LS6 small block Chevy engines. Includes sections on bolt-ons, cylinder heads, intake manifolds, camshafts and valve train, fuel-injection, block-prep, final assembly, exhaust and forced induction. 192 pages, 8-1/2" x 11".

L1407 ..... 24.99 ea

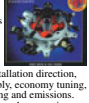

How To Rebuild LS Engines

This book details and highlights special components, tools, and other accessories needed to get the job done right. Appendices are packed full of valuable reference information, and the book includes a Work-Along Sheet to help you record vital statistics and measurements along the way. 8-1/2" x 11", 152 pages, 604 color photos, softbound.

L975 ..... 27.99 ea

Carburetor Manuals

Holley Carburetor, Manifold & Fuel Injection

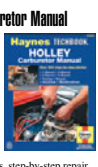

High-performance and stock replacement manual for one, two, and 4 barrel Holley carbs, plus manifolds for street and strip – basic principles, air and fuel requirements, installation direction, repair and assembly, economy tuning, performance tuning and emissions. Includes sections on the operation and installation of Pro-Jection fuel injection systems. Also includes special section on Z28s. 8-1/2" x 11", 192 pages.
L40 ..... 24.99 ea

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment and more! Softbound, 6" x 9", 80 pages.
L559 ..... 19.99 ea

Super Tuning and Modifying Holley Carburetors

Shows how to select, install, tune and modify all popular Holley performance 4 barrel models. This comprehensive manual tells virtually everything you'll ever need to know about the legendary Holley carburetor. 8-1/2" x 11", 144 pages, over 300 photos.
L9658 ..... 26.99 ea

Holley Carburetor Manual

Information includes carburetor identification, basic trouble-shooting, diagnostic checks for computer controlled carburetors, on vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 step-by-step photos. Sftbnd, 220 pgs.
L564 ..... 29.99 ea

Rebuild & Powertune Carter/Edelbrock Carburetors

A step-by-step guide to rebuilding, modifying and tuning the Carter/Edelbrock carburetors. Carter history and model overview; an overview of carb parts and how they work; car selection; rebuilding carbs; installation and hardware; performance and adjustments; general tuning and troubleshooting; emission, fuel economy and fuel supply; racing and special applications. Softbound, 8-1/4" x 5-1/4", 176 pages.
L1034 ..... 29.99 ea

Rochester Carburetors

Here's the definitive book on selecting, installing, tuning and modifying conventional and electronic Rochesters. Also details design, operation and performance modifications of current microcomputer controlled models. Includes comprehensive coverage of Quadrajet design and service from early to electronic models. Softbound, 176 pages.
L191 ..... 29.99 ea

How to Build and Modify Quadrajet Carburetors

The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications. 128 pages.
L202 ..... 19.99 ea

Rochester Carburetor Manual

This manual includes detailed information on carburetor identification, basic troubleshooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 photos, 200 pages.
L561 ..... 29.99 ea

Fuel Injection Manuals

Designing and Tuning High-Perf Fuel Injection Systems

This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of standalone. Includes glossary and a special resources guide with standalone manufacturers and test equipment manufacturers. Softbound, 128 pages, 8-1/2" x 11".
L1062 ..... 24.99 ea

Street Supercharging

This book will give information regarding all facts of supercharging, including how to install blowers, buying a kit, rebuilding manifolds, blower drives, carburetion and accessories. Softbound, 8-1/2" x 11", 128 pages.
L211 ..... 24.99 ea

Fuel Injection 1986-1999

This manual covers port injection, TBI, CIS. Complete with trouble codes and information for all major manufacturers including BMW, Chrysler, Ford, GM, Honda, Mazda, Mercedes, Nissan, Subaru, Toyota, VW.
L386 ..... 29.99 ea

Turbochargers

How to select and install the correct turbo for big or small horsepower gains, turbo design, sizing and matching. Improve the performance of your engine by simply getting the right information. Covers all aspects of turbocharging and includes turbo suppliers list. Softbound, 8-1/2" x 11", 160 pages.
L185 ..... 29.99 ea

Wiring Manuals

Automotive Electrical Manual

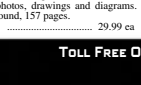

The manual features comprehensive information which covers basic electrical fundamentals, troubleshooting and repair for both foreign and domestic vehicles. Includes engine starting and charging systems, lights, gauges and more! 242 pages, softbound.
L575 ..... 29.99 ea

Automotive Wiring & Electrical

The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. 8-1/2" x 11", 144 pages, 350 photos.
L1019 ..... 24.99 ea

Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings and diagrams. Softbound, 157 pages.
L187 ..... 29.99 ea

How to Diagnose & Repair Automotive Electrical Systems

New!

This book details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8".
L20990 ..... 25.99 ea

Transmission Manuals

Turbo Hydra-Matic 350

Clear, concise text leads you through every step of the rebuild, from transmission removal, tear down and inspection to assembly and installation. Also covers transmission identification, principles of operation and maintenance, troubleshooting and in car repairs. 8-1/2" x 11", 256 pages.

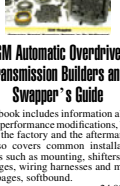

L160 ..... 29.99 ea

Powerglide Transmission

This complete guide to the Powerglide covers it all from a stock rebuild to an all-out race unit. Subjects covered include general transmission service, basic operation, in-car service and repairs, final assembly and much more. Includes 500 photos. 8-1/2" x 11".

L242 ..... 29.99 ea

GM Automatic Overdrive Transmission Builders and Swapper's Guide

This book includes information about high-performance modifications, both from the factory and the aftermarket. It also covers common installation issues such as mounting, shifters and linkages, wiring harnesses and more. 128 pages, softbound.

L996 ..... 24.99 ea

Transmission Rebuild Videos and DVDs

Each video includes tips for freeing stuck valves, air testing clutch packs, setting end play, bolt lengths, torque specifications, torque converter installation and much more! Approximate running time 90 min.

How To Rebuild and Modify Your Manual Transmission

This resource explains the principles behind the workings of all manual transmissions and helps readers understand what they need to do and know to rebuild their own transmissions. Includes how to determine what parts to replace and where to find (and how to measure) the specifications for each particular transmission. 8-1/4" x 10-1/2", 192 pages.

L287 ..... 29.99 ea

GM Automatic Transmission Overhaul Manual

The TH2004R, 350, 400 and 700R4 automatic transmissions are covered with complete overhaul photo sequences. Also covered are theory of operation, in-vehicle repairs and performance modifications. Softbound, 8-1/4" x 10-3/4", 240 pages, 576 b/w illustrations.

L743 ..... 29.99 ea

Chassis & Drivetrain Manuals

Street Rodder's Chassis & Suspension Handbook

First in a series of custom techniques and tips on all areas of building a street rod. Features designing and how-to procedures on building the chassis and suspension for all types of street rods. 192 pages.

L248 ..... 29.99 ea

Differential Rebuilding DVD

Watch nine of the most popular differential rebuilds all in one DVD! Covered in detail is disassembly, inspection and the setup procedures for achieving a good pattern. You'll learn the different set up techniques for each unit and see the results as each shim is changed. The rebuilding and ring and pinion installation basics covered in the DVD are universal to all differentials. Approx. 120 minutes.

16160 ..... 31.99 ea

Welding Manuals

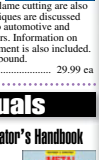

The Welder's Handbook

Excellent handbook detailing all common and not so common techniques of welding. Oxyacetylene welding, cutting, brazing and soldering. Also includes how to weld stainless-steel, aluminum, magnesium and titanium. Softbound, 8-1/2" x 11".

L144 ..... 19.99 ea

Welding Manual

This Haynes Techbook covers gas (oxy-acetylene), arc, MIG and TIG welding. Soldering and flame cutting are also covered. Techniques are discussed as they relate to automotive and workshop repairs. Information on selecting equipment is also included. 176 pages, softbound.

L388 ..... 29.99 ea

Sheet Metal Manuals

Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. 144 pages, softbound.

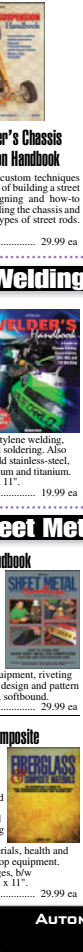

L243 ..... 29.99 ea

Metal Fabricator's Handbook

This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, 560 illustrations.

L42 ..... 29.99 ea

Fiberglass & Composite Materials

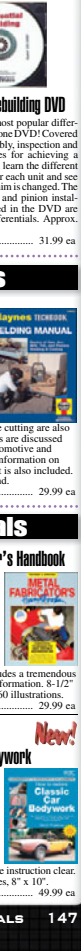

This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations, 8-1/2" x 11".

L652 ..... 29.99 ea

How to restore Classic Car Bodywork

New!

With specially devised techniques which don't rely on workshop plant, this work spans the gap between professional and amateur. The text is readable, the photos bright and the instruction clear. Paperback, 128 pages, 8" x 10".

L44110 ..... 49.99 ea

Paint & Body Manuals

How To Paint Your Car

This book reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. The book covers, in step-by-step detail, how to properly prepare your car for paint, including bodywork, surface preparation and masking. 160 pages, softbound.

L3159 ..... 27.99 ea

Paint Your Car On A Budget

This book unveils dozens of secrets that will help anyone paint their own car. This book covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. 128 pages, 8-1/2" x 11", 400 color photos.

L917 ..... 24.99 ea

Airbrush Painting: Advanced Techniques

New!

This book gives you the airbrushing tools to take your art just about anywhere. Clearly illustrated directions show you how-to airbrush everything from backgrounds and murals to animal subjects and delicate human features on virtually any surface. Paperback, 176 pages, 8-1/4" x 10-5/8".

L35031 ..... 24.99 ea

Fabricate Automotive Fiberglass & Carbon Fiber Parts

New!

Learn to fabricate and repair body and engine parts fabricated from fiberglass and composite materials. All the relevant tools, patterns, and materials are covered in detail. This book guides the reader through each critical stage. Softbound, 160 pages, 8-1/2" x 11".

L1096 ..... 29.99 ea

Interior Manuals

Auto Upholstery & Interiors

A guide to performing basic upholstery and interior repairs on all kinds of automobiles written expressly for the home enthusiast. Includes helpful guides on how to replace headliners, lay carpet, repair dashboards, reupholster seat frames and more. Softbound, 8" x 10", 160 pages.

L1265 ..... 29.99 ea

Automotive Upholstery

The author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build seats, make headliners and carpets. Materials are described with specific recommendations for vinyl, cloth, leather, Nimbus, panel board, etc. 230 pages, 8-1/2" x 11", 550 b/w photos.

L378 ..... 22.99 ea

Custom Auto Interiors

More than 800 color photographs capture every detail you'll need to create your own exciting and award-winning custom interiors. Precise step-by-step instructions show you how to turn out completely professional custom interiors. This is an advanced-level book. 192 pages, 8-1/2" x 11".

L740 ..... 26.99 ea

Automotive Custom Interiors

New!

The book covers every aspect of design – seat and upholstery, dashboards and gauges, door panels and armrests, consoles, steering wheels, pedals, shifters, knobs and hardware, floor coverings and headliners, audio and high-tech accessories, and cargo areas and trunks. This is the ultimate resource for a custom interior. Paperback, 160 pages, 8-1/4" x 10-5/8".

Chevrolet by the numbers

Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Author Alan Colvin documented every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975, using original source material from Chevrolet's archives, including engineering blueprints, technical service bulletins and build sheets. Every engine is covered from the ultra rare, high-performance aluminum 427 for the ZL-1, to the common 283 found in Impala station wagons. All engine blocks, cylinder heads, pistons, connecting rods, crankshafts, camshafts, manifolds and more, are listed. If you want to know the original parts for your Chevrolet drivetrain, not what will interchange or fit, but the correct part that came with your car when it rolled off the assembly line, Chevrolet by the numbers has the answer. Softbound, 8-3/8" x 11".

L508	1955-59	230 pages, 700 b&w illustrations	41.99 ea

Casting Numbers-Cowl Tags-Suffix Codes

These guides will give you information regarding casting numbers, what suffix number goes with the head casting number, what exhaust manifold numbers go with these castings and so on. The casting numbers are listed in two ways: 1) By the year: This is great when you have a particular restoration which requires the correct casting number. 2) By casting number: When you want a particular casting number, you can quickly look it up numerically. This book also lists the more common part numbers associated with restoration. These are also listed two ways: 1) By group number: Just like factory manuals so you can order direct. 2) By part number: An easy way to zip down the list and find it numerically. Each book will give you a full factory description along with what years they are associated with. Suffix Code Books: These guides include the most important codes on an engine. With suffix code guides you will be able to decode virtually all Chevrolet V8 engines. From the factory codes stamped on the block, you can decode the original car the engine was installed on, cubic inch and horsepower, transmission intake, RPO and other options.

My Classic Car DVD Collection

American automobiles have been around since the early 1900's, but in the 50's, 60's, and 70's they became part of American culture, and they gave America an identity. With the help of Dennis Gage you can take a look at the cool cars of the fifties and the muscle cars of the 60's and 70's. In Cool Cars of The Fifties, take a nostalgic ride in such classics as a 1948 Tucker, 1955 Bel Air, 1954 Buick Riviera and 1950 Mercury just to name a few. Or take a pedal to the metal ride with such muscle machine manufacturers as Chevrolet, Ford, Buick, Oldsmobile, Pontiac and the Mopars. Also available is Jay Leno, Certified Car Nut. Dennis takes you inside Jays garage to look at his collection and take some of his favorite cars and motorcycle for test drives.

New!

- *Use with stock rear bumpers*
- *Not designed for use with roll pans*
- *For coil spring trucks only*
- *Hardware included*
- *Flip license plate available*

1967-72 C10 Hidden Tow Hitch Receiver

This new 1967-72 Chevy truck hidden trailer hitch receiver hides behind the rear license plate keeping a nice clean, stock appearance. Can be used on stepside and fleetside trucks. Class 4 rated with a 500 lb tongue and 5000 lb pull capacity. Requires drilling. Flip down license plate holder available. Powder coated blacked. Includes hardware.

Recommendation: Recommend using flip down license plate holder because it requires major modification to the original license plate bracket.

Note: Check for clearance when installing with a relocation aluminum fuel tank installed. Shipped oversize.

In the USA, Car Thieves Strike Every 23 Seconds...

The Ultimate Anti-Theft System!

By immobilizing the brake pedal, the Pedal Jack makes it impossible to drive the vehicle. Federal Vehicle safety standards require brake pedals to be unbreakable. The Pedal Jack uses this fact to it's advantage in providing tamper-proof security for your vehicle. Furthermore, the Pedal Jack itself is constructed using heavy-duty, heat treated tempered steel that is saw proof and cannot be fractured by freon gas. It has a patented high security lock that is protected by a tempered steel plate making it drill proof. Each lock comes with three keys that cannot be duplicated. The Pedal Jack is fully adjustable to fit perfectly on cars, vans and light trucks.

UN1001A ..... 39.99 ea

Locking Hood Pin Set

This locking hood pin set can be used in place of standard hood pins to secure your hood with two barrel locks. Set includes: two chrome-plated lock sets, gaskets and escutcheons, two fully threaded lock pins with nuts and two keys. For use in conjunction with stock hood latch mechanism.

S4062 ..... 15.99 set

Made in USA

Talking Alarm System

Get security for your classic vehicle without the hassle of complicated installation and cutting or destroying original parts. This talking system features seven different messages ("system armed," "system disarmed," "I was tampered with," "please adjust sensor now, thank you, "you are too close to the vehicle please move away," "please help me!"), one 4 button extended range remote with protective slider, remote adjustable shock sensor for special situations (heavy rain, nearby railroad tracks, or construction sites etc. where you may want to reduce sensitivity), extra loud 127db siren, car finder (locate your vehicle in a crowded parking lot), and panic features, and a built-in 9 volt battery back-up (battery not included). Installs in less than 10 minutes. Made in USA.

BD2001 ..... 89.99 ea

55001

Phantom Key Push Button Start

The Painless Phantom Key allows the total replacement of most ignition switches. Simply remove your existing ignition switch, install the backlit stainless push button and let the Phantom Key do all the work for you. When the key fob is more than 20 feet from your vehicle, the LED backlit push button switch blinks to indicate a security device and ward off potential thieves. Extra channels for functions such as trunk popper and door lock provide the added security of not having any key tumblers for a thief to pick. Available with white, blue or red backlit 22mm switch.

RF700101

iStart™ Touch Starter System

Looking to make your classic more like late model rides? Install the iStart™ transponder system from Ron Francis Wiring! This system uses a security module with proximity sensors to disable the ignition switch and keep the doors locked until you come into range. Once inside, a touch sensitive starter button lets you cycle through accessory, ignition, start/crank, and off modes just like a typical ignition switch. Skip directly to start/crank by simply holding the button!

Note: Main control box is 3-1/2" x 6". Security module is 3" x 4". iStart™ button requires 1-1/4" mounting hole.

RF700102	w/Ron Francis wiring harness	599.99 ea

TF900629

Remote Control Battery Disconnect

With this system, one click of the key fob completely shuts down your car's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. Just trigger it with the key fob as you walk away. For more security, the 4 channel system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

TF900628	1962-79	4 channel	209.99 ea

LED False Alarm

Deter auto theft with a "flashing red LED" that gives the appearance of a sophisticated alarm system at a fraction of the cost. In minutes the battery operated Guardian 3000 can be installed anywhere on the dashboard.

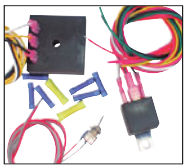

G3000 ..... 19.99 ea

Starter-Stop Anti-Theft Device

The Starter-Stop is a low cost vehicle protection device that disables the vehicles ignition. This works with virtually all cars, boats, SUVs and motorcycles with 12V systems. Simply wire it into any on/off switch in your vehicle and that will become your personal kill switch. It automatically arms when the ignition is turned off. There are no batteries to wear out, no annoying siren and no transmitters to lose.

14070 Starter-Stop ..... 19.99 ea

The "Road Kill" Anti-theft Device

Stop car thieves with the "Road Kill" Anti-theft ignition shut off kit. When activated, the engine will only run for 10 seconds. Just when the car thief thinks he's got it made, "Road Kill" shuts off the ignition and blasts the horn to get the world's attention like no car alarm can. Each kit includes: a 10 second timer, ignition relay, system on/off toggle switch, horn feed wiring and installation instructions. Great for use with electric fuel pumps!

GPS Trackers

New!

Easily find your missing vehicle or family member online in real time!

GPS Security Tracking Device

Smaller than a cell phone, this GPS security tracking device is ideal for protecting your classic car from thieves. The battery powered GPS tracker lets you view your vehicle's location in real time, from the comfort of your computer, tablet or smartphone. Its rechargeable battery can run for weeks, and with motion activated tracking, you wont waste any battery life when your target isn't moving.

- ***Works on exclusive BrickHouse GPS platform***
- ***Optional extended battery also available***
- ***Preset for 1 minute reporting intervals***
- ***Detailed travel reports***
- ***Panic button***
- ***U.S. tracking only***

This customizable GPS tracking device is packed with features. You can receive text or e-mail alerts if your vehicle exceeds a preset speed, or even get instant alerts when your vehicle moves into or out of a "safe" area you've designated. This device requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: *If service is inactive for 60 days or more, reactivation will require a new SIM card for your device and may take up to 5 business days.*

A9200101 ..... 139.99 ea

New!

GPS Tracking Device + Extended Battery

BrickHouse's real-time GPS tracker gets even better with this unprecedented battery upgrade.

- ***Extends battery life up to 5 years***
- ***Weatherproof magnetic case for vehicle tracking***
- ***Full featured online platform***
- ***U.S. tracking only***

This battery powered tracker gives you real-time location viewing from the comfort of your computer, tablet or smartphone. The extended battery will last for about 2 months on constant tracking under the default 1 minute tracking interval. Or, it can last for years while providing one update every 24 hours. Through this exclusive online platform, you can receive detailed reports of the tracker's activity, as well as speed – or location based custom alerts. The GPS tracking device + extended battery kit now includes a fast charge cable that reduces charge time on the extended battery from 60 hours to 20 hours. Note that the GPS tracking device must be connected to the battery pack in order to fully charge. Purchase of this device constitutes agreeing to the monthly service fees chosen upon sale. The device requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: *If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 5 business days.*

A9200105 ..... 353.99 kit

New!

TrackPort GPS Vehicle Tracker

The TrackPort is the easiest way to track a car or truck, and protect it against thieves. Just plug the device into your car's OBD-II (On Board Diagnostic) port. Normally located under the driver side dash, this port has been standard on all vehicles sold in the United States since 1996. Use your vehicle's existing port to supply uninterrupted power to your tracking device. Unlike traditional hardwired tracking devices, an OBD GPS tracker can be easily moved from one vehicle to another with no tools and little effort. It's completely "Plug and Play".

- ***No installation required, just plug in and go***
- ***Move TrackPort instantly from car to car***
- ***Location updates every 30 seconds***
- ***Powered by your vehicle – no batteries needed***
- ***U.S. tracking only***

Know where the TrackPort is at any time, view where it's been, and run reports on the vehicle's behavior from any computer, tablet, or smartphone with a web connection. Receive customizable location or speed–based alerts via text message or email. Purchase of this device constitutes agreeing to the monthly service fees chosen upon sale. The TrackPort requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: *If service is inactive for 60 days or more, reactivation will require a new SIM card for your device and may take up to 5 business days.*

New!

BrickHouse Hidden Car Tracker Pro Plus

Track your car easily with the BrickHouse Hidden Car Tracker Pro Plus, a completely covert GPS tracker. This powerful tracker puts you in total control of individual vehicles or fleets, and drivers will never know it's there unless you tell them. Enjoy an unlimited power supply while the car is running and, when the car is off, the internal backup battery continues to provide location data for up to 12 hours – ideal for recovering stolen or lost vehicles.

- ***Hardwired, no batteries required***
- ***Location updates every 10 seconds***
- ***External antenna for superb accuracy***
- ***12 hour continuous back-up battery***

Through BrickHouse Security's easy-to-use GPS platform, you can receive instant speed or location based alerts via text or email, based on custom parameters. View the tracker's location in real time on three customizable map views, or access detailed location history reports. All of these features can be accessed from any smartphone, tablet, or computer with an internet connection; no special apps or software are necessary. This device requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: *If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 5 business days.*

New!

Hidden Car Tracker Micro GPS

Protect your classic car or truck from thieves with this virtually invisible high-performance tracker. If the car is moving, the Hidden Car Tracker Micro is covertly recording those movements and transmitting them to you in real time. When the vehicle is parked, this device will continue to provide location updates every hour for as long as the vehicle's battery provides power. Through BrickHouse's easy-to-use online platform, you can send instant speed or location based alerts via text or email to any smartphone, tablet or computer.

- ***Runs on exclusive BrickHouse GPS platform***
- ***Hardwired, no batteries required***
- ***Location updates every 60 seconds***
- ***Records detailed travel history reports***

Access to each of the device's features is available instantly, from anywhere! All you need is internet access. This product is offered for the express purpose of securing personal property, company property, and ensuring the safety of individuals with their consent. The device requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: *If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 5 business days.*

OER® – The New Standard of Excellence in Car Care!

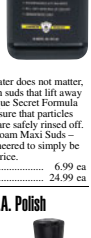

Professional Products for the Enthusiast!

Professional grade car care detailing supplies are no longer just for professionals. OER® is pleased to offer our complete line of car care products for the auto detailing professional and/or classic car enthusiast. Now you can purchase our exclusive "Secret Formula" car care products in consumer friendly 16 oz. bottles, and you too can achieve the amazing results that only a detailer using professional grade products can achieve. If you detail your car often, take advantage of our bulk packaging and purchase your favorite products by the gallon! If you are tired of paying for expensive bottles with colorful labels and achieving mediocre results, then do your car's delicate finish a favor and order our complete car care system today. OER® offers the highest quality car care formulas at any price, without the hype of expensive advertising and high dollar packaging. No fancy bottles or labels to pay for, our product speaks for itself!

OER Secret Formula Wash and Wax Products

OER® Super Foam Maxi Suds Car Wash

This high sudsing, biodegradable liquid is concentrated 200:1 for economy. Mix one cap full with 4-5 gallons of water for a daily paint shampoo. Washes away dirt, grease and road grime, and rinses easily. Its pH balanced formula will not harm previously applied wax or sealant. A concentrated liquid car wash that offers economy without sacrificing high-performance cleaning ability. Whether you use hard or soft water does not matter, Super Foam produces thick, rich suds that lift away dirt and oily road film. The unique Secret Formula offers unmatched lubricity to assure that particles glide gently across surface and are safely rinsed off. Formulated with OER® Super Foam Maxi Suds – high suds foaming action. Engineered to simply be the best wash and gloss at any price.

OER® "Secret Formula" D.A. Polish

This bodyshop safe, 100% wax and silicone free polish will prepare any paint for the perfect sealant. Available in your choice of 2 grades to rapidly remove light scratches, swirls, key marks, fingernail scratches, and other imperfections. Each grade starts out as a polish then breaks down to a final step product that produces an exceptional shine. Use the Pro-Polish as a final product or a superior foundation for wax, sealant or glaze. To start out with a slightly more aggressive polish, step up to the medium grit product Scratch & Swirl B-Gone. For best results use with a D.A. or rotary polisher.

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like finish. One premium professional duty bar is enough to do 8-10 vehicles. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint-fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube, detergent or surfactant based soaps will cause the clay to deteriorate. OER® Slick-It Clay Lubricant is available in a 16 oz. bottle or pro-sized gallon.

K89449	black block, heavy-duty for heavy oxidation	12.99 ea

OER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings WILL NOT turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with our OER® Secret Formula Pro-Polish first.

K89621	1 gallon	49.99 ea

OER® D.A. Paint Sealant + 3x Carnauba

Just one coat of this sealant is all you need to protect your auto's finish for 6 to 8 months. OER® D.A. Paint Sealant's 3x Carnauba creates an anti-static, heat resistant protective seal against corrosive elements such as ultraviolet rays, salt water, acid rain and industrial pollutants. Can be applied in multiple layers to deepen the shine and level of protection without compromising your paint or clear coat. Coats your vehicle in a protective seal delivering a glossy, rich, liquid shimmer that leaps off the paint surface. Anti-static formula discourages the settling of new dust. Bring out the depth of the paint color while the shine enhancers leave a glass-like mirror finish.

Get The OER® Advantage... It's Almost Unfair!

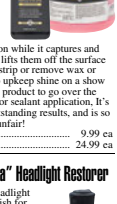

OER® "Secret Formula" Waterless Wash

We care for the environment, and if you share the same feeling, try out OER® Secret Formula Waterless Wash, a unique product which can help you conserve water while keeping your car sparkling clean. However, just because our product doesn't call for the use of water, by no means it is any less effective. In fact, because there is no water, it is much easier on the finish and other bodywork in general. It cleans, shines and protects all paints, clear coats, rubber, vinyl and plastic surfaces. It even softens and breaks down light surface contamination while it captures and reduces dirt particles, lifting them off the surface of your vehicle. For all its cleaning power, it will not strip or remove wax or sealants and delivers superior results in the sun or in the shade. It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

K89605	16 oz. bottle	9.99 ea
K89606	1 gallon	24.99 ea

OER® "Secret Formula" Slick-It Spray Wax

OER® Slick-It Spray Wax is a quick, easy-to-use spray wax. Spray on and wipe off! Our special high lubricity secret formula actually encapsulates dust particles and enhances a deep luster without using water. This innovative product removes surface dust, fingerprints and smudges from showroom vehicles while leaving a clean glossy finish. Softens and breaks down light surface contamination while it captures and reduces dirt particles and lifts them off the surface of your vehicle. Will not strip or remove wax or sealants. Good product to upkeep shine on a show quality finish or as a final product to go over the vehicle after a good wax or sealant application, It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

K89445	1 gallon	24.99 ea

OER® "Secret Formula" Headlight Restorer

OER® Secret Formula Headlight Restorer Professional Polish for plastic headlight lenses is not only affordable, but unlike most of the other headlight restoration products available in the market, is a professional formula that is remarkably easy-to-use. However, we do recommend that you apply it with the aid of a machine for best results. Over a period of time, the headlight lenses are bound to become yellowed and haze. In such a situation, you have two options, spend hundreds of dollars for replacement, or try restoration. The latter is what our product is meant for. Save money! That's right, you no longer have to replace foggy headlights. In addition, you do not have to settle for exorbitantly priced headlight restorer products available elsewhere. We offer a better alternative for less. Have a safer ride. When restored, your headlight will deliver better luminance, yielding up to 30% more road visibilty.

K89628	12 oz. bottle	12.99 ea

OER® Premium Carnauba Hard Paste Wax

K89440

K89828 – sold separately

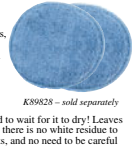

This product is a favorite among professionals in the industry as well as automotive connoisseurs who insist on the finest quality. Made from 100% pure Brazilian Carnauba Wax, this hard paste wax leaves any finish with an exceptionally long lasting, lustrous, clear shine. Apply by hand with a damp cloth. For pre-cleaned surfaces only. As hard as a brick, yet easy to apply and remove. For use on any color paint. Bonds with clean paint, waxes and sealants to offer a deeper richer shine and longer lasting protection. One coat is truly all you need, however layer it as many times as you want to achieve desired results. Long lasting 2-3 month protection. Formulated for successful use even in the sun! Works like a sun block to protect your paint and deliver an unparalleled show-car shine. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Premium Carnauba Pre-Softened Wax

K89623

K89828 – sold separately

OER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a gloss like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a microfiber immediately. No need to wait for it to dry! Leaves no white haze at all – there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim – it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, OER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Secret Formula Professional Dressings

Finally you can get the level of shine you desire with a professional grade formula that is not greasy, will not drip, is dry to the touch and lasts far longer than any product sold in stores. Additionally, our products soak in to nourish and protect the surface while repelling dust and dirt. Your choice of matte finish for an original appearance or super shine for a high gloss look.

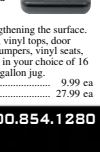

OER® Super Shine High-Gloss Protectant

The only 100% super shine, dry to the touch dressing that works as well on vinyl, leather, rubber, and tires as it does on hard plastics, plastic bumpers and trim. A multi-surface shield for your vehicle's interior. Dual action premium dressing leaves surfaces dry to the touch and shining better than new, while protecting the surface against dirt and dust. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires and more! Water based emulsion repels dirt and dust while blocking out harmful UV rays. Surfaces treated with OER® Secret Agent Shine look shiny longer and require less cleaning. Extra thick, pure emulsion will not separate or sling and is easy to apply with towel or sponge. Industry leading sealant that aids in protecting seats, steering wheels, door panels, and dashboards against the elements.

OER® Extreme Shine Premium Metal Polish & Protectant

OER® Extreme Shine Metal Polish & Protectant cuts through layers of dulling oxides to restore a wet mirror like finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483 16 oz. bottle..... 17.99 ea

Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims and other metal work much easier. Can be attached to any hand held drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Spacegage Dura-foam and fiber soft materials make it the most durable tool of its kind. Comes in your choice of two sizes: a 2.5 inch or 3 inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

OER® "Secret Formula" Wheel And Tire Care

OER® Secret Formula Wheel and Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

OER® Secret Formula Wheel Wax

OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect and prolong in one easy step. Extremely easy to use and apply, utilizing accurate particle-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid rain, water spots, airborne fallout and road contaminants.

K89486 8 oz. jar..... 16.99 ea

OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on, wipe-off formula with no scrubbing necessary and no harsh scent.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

Torpedo Billet Polisher

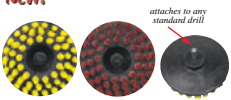

New!

The Torpedo Billet Polisher is great for getting into tight areas on wheels, engine components and more. Attaches to most all drills and effortlessly buffs out scuffs, oxidation, tarnish, brake dust and corrosion on metals even fiberglass. This is a strong and perfectly balanced brush, densely filled with soft white cotton yarn. Unique material holds polishing and buffing compound better than cloth and has great pliability, which enables for a directional mark free finish.

MOTHERS® – High-Performance Car Care Products

California Gold Clay Bar Set

The clay bar system has been a closely guarded secret of professional detailers for many years. Until now they have had nearly exclusive access to this technology. Now Mothers® makes it available to you so you can gain the benefits of the system, saving time and money. Everything you need is included in this box: one 80 gram Mothers® California Gold Clay Bar (enough to save at least three average sized cars), one 16 oz. bottle of California Gold® Showtime® Instant Detailer (clay bar lubricant) and one 4 ounce bottle of California Gold® Original Formula Liquid Carnauba Wax to provide long lasting protection.

M07240 ..... 21.99 set

California Gold Original Formula Paste Wax

Genuine Brazilian carnauba wax combined with cleaners is the secret to a superb shine and incredible protection. Original formula is created with carnauba wax, top of the line cleaners, the highest quality polishes and finish restorers. Works great on cars, trucks, motorcycles and airplanes. Is safe for clear coats. Gives the shine you would expect from a paste wax and is easy-to-use.

M05500 12 fl. oz. ..... 12.99 ea

California Gold Natural Formula Paste Wax

This natural formula wax contains carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05550 12 oz. paste..... 19.99 ea

Mothers® Mag & Aluminum Polish

Mothers® secret formula is world renowned for providing the easiest, brightest shine for aluminum wheels, manifolds, valve covers, brass trim, all alloy parts and accessories. Tough enough to tackle the most neglected metals, yet gentle enough to use every day.

M05100 5 oz. ..... 5.99 ea
M05101 10 oz. economy size 8.99 ea

California Gold Car Wash

Cleans and shines like only Mothers® can. This ultra suds car wash contains detergent strong enough to wash away dirt, road film, bugs, bird droppings and other contaminants, yet its exclusive PH balanced formula will not remove wax and resists water spotting.

M05600 16 oz. ..... 4.99 ea
M05632 32 oz. economy size 6.99 ea

California Gold Pre-Wax Cleaner

Cleans like only Mothers® can. See incredible results on clear coat paints, lacquers, enamels, pearls, candies, urethanes and all other paint types. Prepares paint for waxing or glazing by removing oxidation, dirt, stains and old wax. Restore color and luster to your paint with Mothers® Pre-Wax cleaner.

M07100 16 fl. oz. ..... 5.99 ea

California Gold Sealer and Glaze

Enjoy the ultimate brilliance of a show car shine on all paint types and colors including clear coats, blacks, reds and candies. Fills and hides scratches, swirl marks and spider webbing. Formulated to achieve spectacular, professional results by hand or with a buffer. Will not streak, smear or fingerprint and may be used over existing wax.

M08100 16 fl. oz. ..... 7.99 ea

California Gold Natural Formula Liquid Wax

This natural formula wax contains carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05750 16 fl. oz. ..... 11.99 ea

California Gold Carnauba Cleaner Wax

The alternative to paste wax is this terrific liquid wax with cleaner. It contains Brazilian carnauba for spectacular shine and state-of-the-art chemical film formers to lock in durable protection. Great for all paints. Restores color, removes oxidation and is detergent resistant. Safe for clear coats too.

M05701 16 fl. oz. ..... 7.99 ea

LeatherTech Foaming Wash

LeatherTech Foaming Wash is an air-infused rich lather cleansing solution that penetrates and cleans stains from even the most neglected finished leather and vinyl surfaces. Glycerin-enriched micro-emulsion provides moisture balance while encapsulating agents lift away dirt and debris, leaving your leather clean and ready for conditioning.

M06410 8 oz. ..... 6.99 ea

Moisture Infusion Gel Cream

LeatherTech Moisture Infusion goes beyond conventional conditioning with advanced hydration to nourish and protect leather surfaces in one simple step. Premium conditioners replenish natural oils lost to heat and sunlight with a moisture lock to prevent fading, drying and cracking. Keep your leather soft and supple for years to come!

M06310 7 oz. ..... 11.99 ea

Carpet & Upholstery Cleaner

Carpet & Upholstery Cleaner is a must for removing stubborn dirt and stains from velour, vinyl, cloth, carpets and sheepskin covers. Safe and effective on all automotive fabrics, yet works great for home use too. This special formula is designed to get out some of the toughest dirt you'll find. Even works great on grease, gum and stains caused from mud.

M05422 22 oz. ..... 7.99 ea

Preserves Protectant

Provides preservation and protection for 30 days. This unique formula penetrates and bonds to block out the harmful effects of ultraviolet rays, ozone, smog and contaminants to protect, rubber, vinyl, plastic and fiberglass. It beautifies and protects tires, bumpers, vinyl tops, dash boards, window trim, seats, household items, sporting goods and just about everything else.

M05316 16 fl. oz. ..... 8.99 ea

Regular Formula Wheel Mist

Rusty rims? Oxidized bumpers? Don't worry Mothers® will clean it up for you. The original, one step wire and mag wheel cleaner, formulated for chrome and rough cast aluminum. No scrubbing or elbow grease needed. Simply spray on and hose off dirt, oxidation, rust and brake dust for the best shine and the ultimate sparkle. Works great on chrome bumpers, side pipes or any hard to clean bright metal surface.

M05824 24 fl. oz. ..... 6.99 ea

Mothers® PowerBall

Mothers® PowerBall is the first foam polishing tool designed to revitalize billet, diamond plate, polished aluminum, stainless steel, plastic lenses, convertible top windows and much more. When used with Mothers® Power Metal polish, the power ball is ideal for any uncoated, polishable metal finish. Its unique and durable construction compresses to fit tight spaces, so polishing difficult, intricate metal work to a mirror like finish is fast and easy.

M05140 PowerBall..... 29.99 ea

Chrome & Glass Cleaner/Protector

Ideal for cleaning and protecting windows, mirrors, bumpers, wheels and chrome trim. Leaves surfaces clean and streak free. Unique protecting agents resist smears and fingerprints.

M05208 12 fl. oz. ..... 5.99 ea

Mothers® Back-to-Black

Renews and protects all exterior trim. Perfect for all vinyl, rubber, plastic, flat finishes, yet surfaces need not be black to achieve superior results. Works incredibly well on both smooth and textured surfaces, bumpers, protective and decorative moldings, louvers, air vents, window trim and wiper arms. After applying, surfaces look new again and will be protected against further oxidation or deterioration caused by harsh elements. To get back to beauty, get Back-to-Black.

M06108 8 fl. oz. ..... 6.99 ea

Accessories for the Ultimate Classic Truck Garage!

Grit Guard insert keeps the wash water clean & scratch-free!

Grit Guard Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert. This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch-free. Available in 3.5 or 5 gallon size.

K89740 3.5 gal. ..... 28.99 ea
K89741 5 gal. ..... 32.99 ea

Grit Guard Deluxe Wash Bucket Sets

This superb washing system features a Grit Guard insert, a heavy-duty bucket, a seat cushion and a dolly that turns the washing system into a rolling stool, so you can sit down and detail your car comfortably. Five heavy-duty smooth rolling casters roll over cracks without tipping. Two locking casters hold your washing system in place while working on inclines. The convenient spin-on lid creates a perfectly sealed storage compartment for all of your favorite cleaning supplies. Supports up to 250 pounds.

Dual Wash Bucket System

The ultimate solution for paint protection! The system includes: two dollies, two Grit Guard inserts, two sealing lids, a dual bucket connector plate and a seat cushion. The idea behind a two bucket wash is simple: two buckets means double the protection from swirl marks and scratches. With a designated rinse bucket, all the dirt and grime from your vehicle stays out of the clean, soap filled wash bucket and off your prized possessions. When you're done washing your vehicle, you'll be amazed at the difference between the water in the rinse bucket and the wash bucket.

Grit Guard insert helps to clean the pad

spring loaded Grit Guard insert pumps water into the pad, and eliminates the need for manual adjustment

Buffing/Polishing Pad Washer

One of the biggest problems with buffing/polishing pads today lies in the backing pad and its likeliness to tear off of the pad. The major cause of this is from hand washing your polishing pads. The backing pad gets wet, over saturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. The washer works with all common types of rotary buffers, dual action polishers, drills, and air tools used for buffing and polishing. Your pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system. The washer extracts contaminants trapped deep inside your buffing pads. O-ring seal lid provides water tight portability. Wash and dry in under 30 seconds!

K89747 ..... 134.99 ea

built-in cutout holds your wash bucket or pad washer

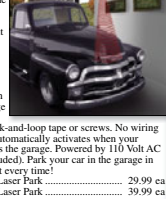

Detailing Cart with Provision for Bucket

The universal detail cart organizes all of your most commonly used detailing products and makes them mobile! Accessories for the Ultimate Classic Truck Garage!

Wall Guard

Hanging Door Guard

Two Ways to Prevent Costly Paint Chips

The Wall Guard attaches to your garage wall providing cushioned protection for both your car door and your wall. Comes complete with hardware needed to attach to drywall, studs, brick or concrete. Predrilled holes are 16 and 24" apart for fastening to stud wall. Measures 25" x 6-1/2". Our Hanging Door Guard is ideal for two car households. This rubber-like pad hangs from the rafters or drywall ceiling of your garage providing a protective barrier between both vehicles. You in effect protect two vehicles with one product. Hardware for hanging the device is included. Measures: 25" x 6-1/2".

ACP102 Wall Guard ..... 11.99 ea
ACP103 Hanging Door Guard..... 19.99 ea

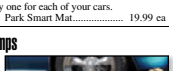

Park Perfectly Every Time

The Park Smart Mat helps guide you into your garage space letting you know exactly when to stop. Perfect for getting your classic or collectible car into the correct position in a crowded garage. As you feel yourself driving over the first bump, the second bump tells you that you have driven far enough forward. Measures: 27-1/2" x 12" x 1-1/2". Comes with a manufacturer's limited lifetime warranty. Buy one for each of your cars.

ACP101 Park Smart Mat..... 19.99 ea

Trailer Ramps

Is your trailer door too steep to get your car to the race track or autocross? Are you tired of busting up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed Trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for cars weighing up to 6000 lbs. Trailer Ramps are ideal for low ground clearance cars with extra wide tires.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR104 5" ..... 299.99 pr
RR105 8" ..... 299.99 pr

Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR109 6" L x 4" H x 5" W ..... 59.99 set

Wheel Cribs

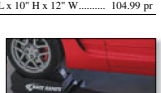

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the car. Each crib supports 1500 lbs (3000 lbs per set) and weighs only 5 lbs. Wheel Cribs also can be used for car display.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR108 15" L x 10" H x 12" W ..... 104.99 pr

Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your car up 8" or 10" and hold up to 3000 lbs per set while weighing only 10 lbs per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products. *Shipped oversize.*

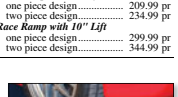

56" x 12" Race Ramp with 8" Lift 867

67" x 14" Race Ramp with 10" Lift

RR102* one piece design..... 299.99 pr
RR103* two piece design..... 344.99 pr

Roll-Ups

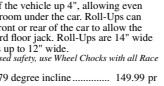

Designed to be used in conjunction with 56" or 67" Race Ramps. Roll-Ups raise the opposite end of the vehicle up 4", allowing even more working room under the car. Roll-Ups can also raise the front or rear of the car to allow the use of a standard floor jack. Roll-Ups are 14" wide work with tires up to 12" wide.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR106 10.79 degree incline..... 149.99 pr

Flatstoppers

This product helps to keep your tires from flat spotting during long periods of storage. Once the tires are set in the FlatStoppers, more of the bottom portion of the tire will be fully supported, thus dispersing the weight of the car more evenly onto the tire to prevent any flattening. FlatStoppers will not conduct heat or cold to your tires despite changing floor temperatures.

OER® Rust Removal & Prevention

Remove Rust

OER® Dissolve Rust

dissolve

■ *OER® Dissolve Rust* removes rust leaving a bare metal surface.

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

K86110 quart ..... 16.99 ea

Treat Rust

OER® Etch Metal

etch

■ *OER® Etch Metal* removes light surface rust and leaves a coating that bonds paint to the metal surface.

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

K86114 pint ..... 16.99 ea

OER® Convert Rust

convert

■ *OER® Convert Rust* turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush – A common household paint brush or foam applicator. Spray Gun – HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

K86112 quart ..... 24.99 ea

Inhibit Rust

OER® Inhibit Rust

glossy clear coat

■ *OER® Inhibit Rust* bonds to any metal substrate completely sealing the area to starve rust and oxidation, to prevent pitting, weathering, abrasion, and protect against salt spray, fuel, tar, and road debris.

OER® Chemical Restoration Inhibit Rust is durable clear coating that protects any metal substrate from rust and corrosion for up to 7 years. It provides a superior bond to treated and non treated surfaces such as undercarriage, suspension components, wheel wells, fenders, and more. Easy to use and safe for use on metal, stainless, copper, aluminum, and fiberglass. Withstands temperatures up to 190 degrees F with two or more coats. Clear formula eliminates the need to mask off areas and it cleans up easily with solvent cleaner. OER® Chemical Restoration Inhibit Rust also protects and provides added UV resistance to painted to powder coated surfaces. OER® Chemical Restoration Inhibit Rust protects against weathering, oxidation, pitting, salt spray, fuel, tar, road debris, and modest abrasion.

K86113 16 oz. aerosol ..... 16.99 ea

Your Choice of Gloss Black, Satin Black or Gloss Clear!

■ *OER® Corrosion Barrier 77* bonds to bare or rusty metal. Can be brushed or sprayed on to permanently stop corrosion. Isolates metal from moisture and oxygen keeping rust in a suspended state and creates a finish that is unaffected by road salt, battery acid and other corrosives.

gloss black — satin black — gloss clear

apply over bare metal — apply over rusty metal — apply over bare metal

OER® Corrosion Barrier 77

After removing or treating rust on floors, subframes, or other under car components, OER® Chemical Restoration Corrosion Barrier 77 is a single-component, high solids, rust stopping paint specially formulated to bond to bare or rusted metal surfaces. The coating forms a rock hard finish that's flexible, non-porous and will not crack, chip, flake or peel. No hardeners or activators are needed. OER® Chemical Restoration Corrosion Barrier 77 is perfect for floors, subframes and other under car panels. It is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives. Available in gloss or satin finish.

Insulation/Restoration Marking

New!

Buy the Complete Set & Save!

BEFORE APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire-rated
- Both are paintable
- Coverage is approx. 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30°F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

AFTER APPLICATION

Lizard Skin® Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degrees F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom-designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle and 1 gallon of Sound Control when applied as undercoating.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084		5.99 pr

Frame Engine and Body Markers

PM0303 PM0305

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. GM engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct car was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

K89662	red oxide	69.99 cs

OER® High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum overspray. Available individually in 20 oz. cans or in case of six.

Individual 20 oz. Cans

K89575	red oxide	12.99 ea
K89576	gray	12.99 ea

Case of Six 20 oz. Cans

K89664	red oxide	69.99 cs
K89665	gray	69.99 cs

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate-free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted or left as is. Drys to the touch in 10 minutes. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans

OER® Spray Galv Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust-resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag-free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust preventative properties. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans

K89567	OER® Spray Galv, gray	16.99 ea

Case of Six 16 oz. Cans

K89668	OER® Spray Galv, gray	89.99 cs

OER® Black Wrinkle Finish

A durable and long lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches or chips. Extremely durable formula resists oil, gas and grease. Can be used where harsh conditions break down conventional coatings. Comes in 16 oz. aerosol can. Great for valve covers, air cleaners, dash components and more. Buy the case and save!

Note: Ships ground only. No air shipment.

K89548	16 oz. can	12.99 ea
K89549	case of six	69.99 cs

OER® High Temp Exhaust Coat

A fast drying coating designed to withstand temperatures up to 1200 degrees F on a continuous basis. Forms a porcelain-like bond after curing. Resists blistering, peeling, discoloration, or loss of adhesion Excellent for headers, manifolds, mufflers, pipes and more.

Note: Ships ground only. No air shipment.

OER® High Solids Detail Coatings

A superior professional grade coating formulated for restorations where maximum performance is required. These high solid paints do not run or sag, and provide twice the coverage of conventional aerosol enamels. Each 20 oz. can offers the highest solid content (40%) of any aerosol paint on the market for maximum coverage. One 20 oz. can of OER® High Solids is equal to four 16 oz. cans of competing brands. *Note: Ships ground only. No air shipment.*

Custom Engine Numbers

Announce the engine size of your choice on your Chevrolet with these chrome-plated, die-cast numerals. All of these numerals have a strong self-adhesive back with no studs, so there is no need to drill holes in your car. Can be used for the fender, quarter panel, rear panel, roof panel or virtually anywhere there's a surface. Available in black, white or red painted recess.

Note: Each number is 5/8" tall by varying widths (approximately 1-1/2" wide).

OER AUTHORIZED

3M© Window Weld Ribbon

Window Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

1991-00 Lower Door Weatherstrip

Original GM replacement weatherstrip designed for 1991-00 C/K model standard and extended cab pickups, and 1992-00 Tahoe/Yukon, Suburban and crew cab models. This weatherstrip attaches to the lower edge of the door. Completely remove the old weatherstrip and clean the surface before applying the new weatherstrip. Allow ample time for the weatherstrip to adhere and conform to the door.

WS5498	1969-72	single wall, RH	24.99 ea

PW1066

1969-91 Blazer Header Weatherstrip

This header weatherstrip will replace the factory installed weatherstripping perfectly. 1969-72 Blazer header weatherstripping is a one piece design. 1973-75 Blazers were unique because the header weatherstripping is made up of two separate pieces. There is an inner and an outer. On the 1976-91 Blazer, the header weatherstrip is installed between the removable shell and the roof. The header seals will complete the removable top seals for the 1973-91 Blazer.

PW1089	1969-72	header seal, one piece	27.99 ea
PW1066	1973-75	header seal, inner – mounts on cab	27.99 ea

PW1056	1973-75	with removable top	66.99 pr

Made in USA

1973-75 Blazer/Jimmy Roof Rail Weatherstrip

Replacement weatherstrip for 1973-75 Blazer and Jimmy models with removable tops. This reproduction includes LH and RH weatherstrip and installs on the shell portion of the top to seal the door glass to the shell, unlike the PW1056 which installs between the top and the body. Sold as a pair. Manufactured in the USA!

PW1057	1973-75	with removable top, shell to body	54.99 pr

PW1060

PW1061

1976-91 Blazer/Jimmy Roof Rail Seal

These are the highly sought after roof rail seals that are positioned between the body and the removable shell. While the early model 1969-75 Blazers had what is commonly referred to as a removable top (the entire roof area was removable) the later 1976-91 Blazers only had the rear roof (shell) area that was removable. These seals will replace the factory seals exactly and will remain flexible and soft for many years to come.

Replacement Glass

New!

DW4235G

1947-53 Custom One Piece Windshield

Replace the outdated flat two piece windshield in your 1947-53 truck with a one piece windshield manufactured utilizing molded laminate safety glass. Available in your choice of clear, tinted or shaded. Each glass is professionally packed with extra care to prevent shipping damage. To install this glass, you must cut out the center divider bar that your truck was originally equipped with from the factory. The one piece glass provides a unique custom look that will set your truck apart from the crowd.
Note: A 1 piece windshield seal is included with glass. Shipped truck freight.

Sliding Rear Window

CRL301

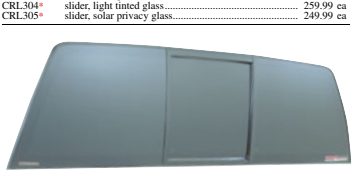

1973-03 Deluxe Three Panel Slider

The Deluxe Three Panel Sliders is the most popular manual sliding rear window on the market today. Its "factory style" design and advanced features make it your best choice. The low profile slim line frame gives better rear sight lines than most other sliders. Deluxe sliders have a compound curved glass to reduce glare and silk screened edges to conceal the inner framework. Aluminum frames feature a powder coated polyester paint for a trouble-free long lasting finish. Another feature is an exclusive self locking latch for quick and convenient one hand locking of the slider. Some 1973-87 pickups are equipped with a wide channel gasket on OE sliders. These are not acceptable for installation with the Deluxe Three Panel Slider and must be replaced with a narrow channel window seal, sold separately.

Important: 1988-03 C/K and Silverado/Sierra models require special tools and urethane bond-in installation. For this reason, a professional installation is recommended on 1988-02 C/K and Silverado/Sierra trucks.

*Note: *Shipped oversize.*

1967-03 Push Button Power Slider Rear Window

Power Slider is the top-of-the-line accessory for your Chevy truck. Push button convenience allows you to open or close the rear window with a simple touch of the dash mounted switch. No need to take your eyes off of the road, or fumble with a latch behind your head, just touch the switch and the Power Slider quietly opens or closes. Integrates beautifully, as if it were original equipment. Some 1973-87 pickups are equipped with a wide channel gasket on OE sliders. These are not acceptable for installation with the Power Slider and must be replaced with a narrow channel window seal, sold separately. *Important: 1988-03 C/K and Silverado/Sierra models require special tools and urethane bond-in installation. For this reason, a professional installation is recommended on 1988-03 C/K and Silverado/Sierra trucks. Note: *Shipped oversize.*

If you follow the transition that truck sliders have made through the last 30 years, it's hard to believe the changes. Today's truck sliders are a completely different product than their predecessors. The original sliders were totally utilitarian in nature, designed more for increased cab ventilation than for style. Today's sliders, with their slim lines, smooth powder coated frames and curved glass panels, provide both form and function... a stylish and convenient accessory for your truck, no matter what model year.

1948-72 Traditional Four Panel Slider

Our Traditional four panel design gives you the widest possible opening available in a sliding rear window. Features include fully contoured frames that contribute to an overall thin-profile appearance. Locking latches, tempered glass and a tight sealing weatherstrip design make this slider an excellent choice for your Chevy truck. Some pickups are equipped with a wide channel gasket on OE sliders. These are not acceptable for installation with the Traditional Four Panel Slider and must be replaced with a narrow channel window seal, sold separately.

Body Side Molding Sets

Made in USA

1962-66 Truck Side Moldings

Beginning in 1962, GM began to encourage buyers to purchase extra cost items in convenient custom packages. One of these, Custom Side Molding option, consisted of a trim spear that swept the full length of the truck, usually accenting a white stripe between the upper and lower moldings, and was available on Fleetside models only. The Chevrolet molding package was a 16 piece set of both upper and lower moldings. GMC models were offered only with the upper moldings.

1967-68 Lower Side Moldings

To maintain an upscale appearance and continue encouraging buyers to purchase extra cost option packages, GM outfitted their 1967-68 truck, panel and Suburban models with special exterior trim. The Chevrolet fleetside molding package was a 12 piece trim set that runs run along the lower body from the front fender, door, cab and bed side. Panel models received a unique 10 piece set. Each molding set features a bright aluminum finish with a black painted stripe to offer an authentic appearance. Unless noted, individual moldings fit pickup, panel and Suburban models. Includes mounting clips except where noted.

Body Side Molding Sets

OER® AUTHORIZED

1969-72 Body Side Moldings

In 1969, Chevrolet offered a deluxe trim and comfort package called the CST (Custom Sport Truck). Later dubbed Cheyenne, this package added strips of black accented bright metal trim running from front to back along the styling crease of the sides. Some models also featured a lower trim that was available in a black accented bright metal or a woodgrain accented trim. These complete reproduction trim sets will restore your CST or Cheyenne to its former glory or simply give your standard model an upscale look.

1969-72 Black Upper Side Molding Set

Reproduction black accented upper side molding sets for 1969-72 Chevrolet trucks. Manufactured as original for an authentic appearance.

Tools and Adhesives

Remove Weatherstrip Easily with the Right Tools! Pry or Scrape Old Weatherstrip Away from the Vehicle and Prep for New Weatherstrip.

T2300M (7 piece)

T2301H (4 piece) T2302

Soft Duty *for delicate prying or wedging*

Medium Duty *for sturdy prying or wedging*

Heavy-Duty *very strong and durable*

Soft Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

Multi-Wedge Prying and Scraping Tools

Multi-Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Save time and money by getting the job done quickly without having to repair nicks, dents, or scratches caused by using the wrong tool. Each 3 piece set includes: one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

Windshield Locking Strip Tool

This windshield lock strip tool comes with two double-ended tips to fit most windshield locking strips. Its unique design allows tip to swivel 90 degrees in either direction to work where other tools won't. Simply select the tip with the opening that most closely fits your locking strip, then feed the locking strip through the eyelet to install or remove.

Y47000 ..... 16.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 ..... 6.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 29.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 11.99 ea

3M® Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609 ..... 21.99 ea

3M® Super Weatherstrip Adhesive

Adhesive used for bonding and sealing weatherstripping to trunk and doors. An excellent general purpose adhesive which is fast drying, waterproof and flexible (rubbery). Also resists oil, grease and solvents.

3M® Window-Weld Ribbon

Window-Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

Now you can have the ultimate 1950's custom look on your early truck with ease, thanks to our convenient frenched headlamp conversion set. This unique set is available with your choice of chrome or paintable bare steel trim rings. Buckets are weld-in units and the lamps install from the front. Trim rings are held in place with 3 spring clips for a clean "no hardware" look. Engineered to work with standard 7" sealed beams or almost any other custom aftermarket 7" lamp configuration.

Note: Welding is required. Professional installation is recommended. Bulbs not included.

Projector Headlamps

Projector headlamps embody the classic look while substantially upgrading the quality and spread of light. The unique hi-low switch design provides a clean and safe light cutoff design, eliminating the issue of "headlight dazing" on the roads. Each unit features a Bi-Xenon projector (high and low beams) with adjustable light focus and flat light distribution to prevent blinding of oncoming traffic. Available with a traditional chrome housing or with a black housing. Bulbs and wiring is included.

Halogen Headlamp Harness

Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts.

30816	for 9004 and 9007 halogen bulbs	222.99 ea
30817	for 9005 and 9006 halogen bulbs	222.99 ea

PAINLESS

Auxiliary Lamp Relay Set

Install extra driving or fog lamps easily and properly with our Auxiliary Lamp Relay Set. Switch can be wired to turn lights on per state law requirements: low beams and auxiliary lamps, high beams and auxiliary lamps. Auxiliary lamp operation only. Complete set includes lighted switch, wiring harness, 30 amp relay and terminals.

30803		91.99 set

MX01132

Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Each upgrade set installs easily in 5-10 minutes without any cutting or splicing. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

Brake Lamp Relay

When upgrading tail lamps to the new higher wattage halogens, always use a relay. The Painless kit gives you everything you need to protect your wiring and switches.

30105 ..... 31.99 set

1967-72 Billet Tail Lamps

Billet LED tail lamp assemblies and tail lamp lenses for 1967-72 trucks. Tail lamp assemblies are made from billet 6061-T6 aluminum and equipped with selectable sequential or non-sequential LED boards, machined buckets with wire socket housings. They are available in a one piece design with integrated backup lamp or a two piece design with separate back-up lamps. Lens sets are designed for direct fit installation and are made from billet 6061-T6 aluminum. Each lens set includes two red tail lamp lenses and two clear back-up lamp lenses. All sets come complete with stainless steel mounting hardware.

LED Replacement Light Bulb

Brighten up your tail and back-up lamps with these direct replacement LED bulbs. LED lighting is safer than conventional incandescent bulbs, shining up to 3 times brighter and lighting up more quickly. Plus they last longer, don't get hot, and require fewer amps. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 back-up lamp bulb.

Get a Complete 1947-57 Cab from Classic Industries®!

4196102 – front view

4196103 – front view

1947-57 Reproduction Truck Cab

If the cab of your 1947-57 classic truck is rusted out beyond repair or heavily damaged, or if you want to build an entire truck from scratch, these cab assemblies are just what you need. Designed and manufactured for as-original appearance and fit, these accurate reproductions of the cab feature a roof panel, rear cab panel, two doors, the firewall, inner and outer cowl panels, windshield center post and rear window panel. Inside the cab, you'll find a complete dash panel, floor pan, all floor pan braces, rocker panels and seat mounting platform. Produced using high grade steel with modern welding techniques, each assembly is painted with a rust preventative coating. With many automotive companies now offering specialty bolt on applications for these all new cabs, it's easier than ever to assemble a showroom quality Chevrolet pickup with reproduction and aftermarket accessories. That's why we chose a brand new cab for our '53 Shop Truck project, built in conjunction with "Chop Cut Rebuild".

Note: Each cab is crated for protection when being shipped. A 295.00 crating fee will be added to all cab orders. Contact your Classic Industries® representative for current freight rates to your area. This item is shipped via truck freight.

Important Information for Sheet Metal Installation

Test Fit All Panels Prior to Paint and Installation!

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel mis-alignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

If you Need to Return a Defect:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

When the details matter, look for these symbols of quality:

Classic Industries® Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

Classic Industries® Weld-Thru™ Sheet Metal

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Made in USA

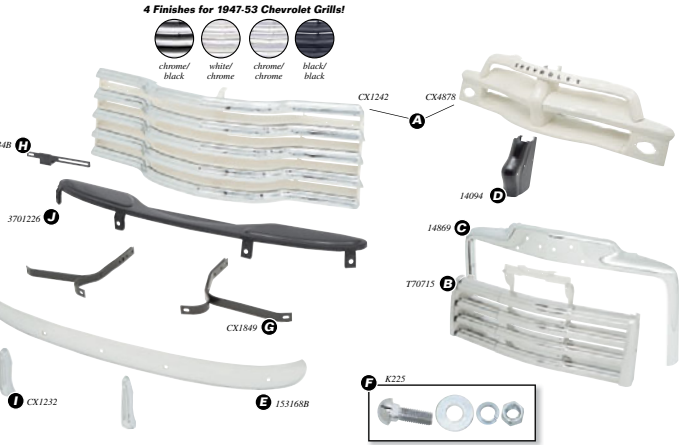

Look for the "Made in USA" logo for products that are proudly manufactured in the United States.

Made in USA

Original GM Products

Classic Industries® advertises a variety of products with the above genuine GM logo. This logo indicates that the product is manufactured by General Motors as an OEM replacement for your original parts.

I 1973-79 Vent Handle Washer

This is the correct spacer used to keep the vent glass handle from making contact with the window glass. This will keep your glass from getting damaged or scratched. Correct replacement inner and outer plastic washer for the vent opening handle on 1973-79 truck models.

OEM

9708138	1973-79.....		2.69 set

1988–07 Door Components

Stainless Door Handle Covers

Convert your plain looking body color door handles to the upgraded look of polished stainless steel with this door handle accent set. This stamped overlay attaches to your original door handle with double-sided tape and will provide a handsome accent to your truck that will set it apart from the rest of the crowd. Fits all pickup and SUV models.

C/K Models

T999405	2 door, 4 piece	41.99	set
T999404	4 door, 8 piece	78.99	set

C 1947-55 Custom Tailgates and Tailgate Covers

Customize your tailgate with a custom tailgate or a custom tailgate cover. The tailgate is the quick and easy bolt-on option, while the tailgate cover is an inexpensive steel panel designed to weld flush onto your existing tailgate. Available in several styles including a smooth-look, an embossed Bow Tie or louvered panel. Louvers are 4" wide on 6" centers and available in a variety of configurations. Each panel comes ready to prep and paint.

*Note: *Shipped oversize, **Shipped double oversize.*

1947–55 Rear Body

1947-55 Tailgates and Components — Continued

D 1947-53 Tailgate Hinges

Reproduction tailgate hinges for 1947-53 truck models. Available in black or chrome plated finish for an authentic appearance. Sold in pairs.

CX1309	1947-53	black	24.99 pr
14891	1947-53	chrome	39.99 pr

E 1947-53 Tailgate Hidden Hinges

This set of hinges is only 1/4" wide when viewed from the rear and practically invisible from the side! An exposed 1/4" thick hinge plate is dimensionally identical to the side of the tailgate and when installed is welded to the stake pocket. When painted the same color as the bed, it virtually disappears from view. This product fits 1947-53 Chevrolet pickups with original style tailgates. Included in the hidden hinge set are: 2 hinge plates, 2 plastic trunnions and all necessary hardware and instructions.

T262080	1947-53		80.99 set

F 1954-55 Stepside Tailgate Trunnions

Reproduction lower trunnion for 1954-55 models. Bolts onto the bedside where the tailgate pivots. Also known as the hinge ball. Features Cadmium-plating. For stepside models only.

CX1316	1954-55	1st series	10.99 pr

G 1947-55 Tailgate Decal

Improve the appearance of your tailgate by replacing the worn out or missing tailgate decals. Each decal is produced in the correct style font for your year and model. See the listing below to find your application.

DG78	1947-54	all	GMC stepside	black	9.99 ea
DG77	1947-54	all	GMC stepside	white	9.99 ea
DC748	1954-55	1st series	Chevrolet stepside	black	12.99 ea

H 1947-55 Tailgate Chains

Tailgate chain assemblies for Stepside trucks are a method of supporting the gate when open, and securing the gate when it is closed. Stepside assemblies include eyebolts, chains and hooks. Fleetside assemblies include plates, chains and hooks.

CX1310	1947-53	all	cadmium-plated	25.99 set

CX1320	1947-55	1st series	clear	7.99 pr

J 1947-55 Hidden Latch Sets

When we built our '53, the team wanted a smooth look, but they also knew that tailgate chains can ruin our high dollar paint job. It had to look smooth, yet be compatible with the vintage "look" of the truck. With this kit, we achieved all of that. A touch of the release buttons on each side allows the gate to open.

T70800	1947-53	all	stock tailgate	16" straps	195.99 pr
T70772	1954-55	all	stock tailgate	21" straps	195.99 pr

K 1947-55 Hidden Latch and Link Sets

Say goodbye to unsightly and noisy chains that rattle and damage your truck's delicate paint surfaces. These link conversion sets are just what you need to update to a smooth, clean look. Some modification to bed sides and tailgate will be necessary for installation. A latch set (sold separately) will be required to securely fasten the tailgate. Instructions are included in each kit. One pair does both sides. Made in USA.

I 1955-59 Hidden Latch Kit

This kit was designed to be easy-to-install, tailgate must shut easily and securely and must have no rattles while you drive down the road. In addition, none of the materials used will ever rust and it must not damage the paint. It had to look smooth, yet be compatible with the vintage "look" of the truck. With this kit, we achieved all of that. A touch of the release buttons on each side allows the gate to open. The kit includes all fasteners, hardware, and complete instructions.

1960-66 Rear Body

OER® Mirror Shine Metal Polish

OER® Secret Formula Mirror Shine Metal Polish cuts through layers of dulling oxides, brake dust and oily soils to expose bright, shiny metal surfaces. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam. This outstanding polish will make your metalwork look its absolute best. Spreads on with ease and buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. Use by hand, with a polisher or with your polish ball and drill. Made with aluminum oxide.

Vise Grip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the car. The added feature of "Vise Grip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

13229	1/2" wide jaw	29.99 ea
X9853	1" wide jaw	39.99 ea

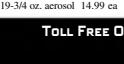

3M® Products

3M® putties spread easily, dry fast, sand easily and offer minimum shrinkage. Each tube includes 21 ounces of putty. 3M® Rocker Panel Spray is a paintable coating that will match the factory applied textured coating on the rockers and stone throw areas of automobiles.

Note: *Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.*

Red Putty

05966	for pinholes	27.99 ea

Rubberized Undercoating

OER

A new rubberized rapid drying undercoating material in an aerosol container. Used for rustproofing and sound deadening. Also used for sealing fenders, quarter panels, door panels, repaired sections, joints, hoods, and deck lids.

Note: *Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.*

K89570	19-3/4 oz. aerosol	14.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the car has been repainted. For instance, you can take measurements of about 4.5 mil around the car but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437		84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

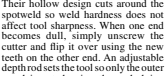

E3437		9.99 ea

Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

S20015	straight	31.99 ea
S20016	90 degree angle	34.99 ea
S20017	air hammer	52.99 ea

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Sheet Metal Tools

Blaircutter

Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Unlike hole saws, that rip and tear through the material, these cutters provide a quality, virtually burr-free hole. Available in seven sizes for 1/4" and larger drill chucks. Spring loaded pilot "pops" the slug from the cutter. Buy the set and save! Set includes: all cutters, arbor and 3 extra pilots.

Note: D.O.C = depth of cut. Arbors and Cutters sold separately.

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

Stick Lubricant

Convenient 1.68 oz. tube is ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750	1.68 oz.	5.99 ea

Blair Holcutter

Holcutters are not hole saws. They can produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have a dramatically extended tool life. Holcutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Painless Dent Removal Access Hole Set

Note: Each set includes: arbor with standard pilot, extra pilot and cutters as shown.

11083	1/4", 3/8", 1/2", and 3/4"	61.99 set

Rotabroach Cutter Sets

Rotabroach annular cutters are ideal for sheet metal fabrication, Painless Dent Removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip-proof pilots which eliminate pre-drilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot and a variety of cutters as listed.

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutter Set

Dynamat Universal Hood Insulation

Dynamat hoodliners will protect your truck's paint and reduce irritating underhood noise. Made from 3/4" acoustic sound soaker foam with a reinforced, aluminized skin that is oil and water resistant. The hoodliner has a high tack pressure sensitive adhesive for easy peel and stick application. For those who prefer black, there is also Dynaliner, which boasts the highest heat blocking properties available in a single layer synthetic foam. Dynaliner is available in 1/4" and 1/2" thick. Use the thickest one your space will allow. All hood insulation sheets measure 32" x 54".

Lokar 12V Exterior Door Handles

Elevate your car's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its two piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

Important: Requires electronic door latch actuators, not included.

*Note: *Installation requires hand pocket for clearance.*

T71037

1947-55 Custom Radiator Core Support

These custom radiator core supports fit only the 1947-55 Chevrolet 1st series pickup trucks. It mounts the sheet metal out on each frame rail and that gives you plenty of up and down and side-to-side fender adjustment. The posi-align core support also allows you to mount your radiator approximately 2-1/4" lower than stock, which in turn, lets you use an engine mounted fan. This is a bolt-in set with no welding required and includes all the hardware and complete set of instructions needed to install it. Once installed, you will have a core support that not only allows you to run an engine driven fan, but also has side-to-side and up and down adjustment for positive alignment of your truck's front sheet metal. As for the big ugly rods that held the stock stuff together, forget them, you no longer need that support. These core supports are strong enough to hold everything in place without those rods. When you finish, you will have a clean and professional look under your hood.
Important: Does not fit GMC models.
Note: Shipped oversize. 081

T71035

1947-1955 Chevrolet Fender Skirt Set

These are redesigned 1947-55 Chevrolet 1st series pickup inner fender aprons. The parts in this set are 18 gauge cold rolled steel and each apron features a row of louvers to allow your engine heat to escape into the wheel well. When you install this set in conjunction with the custom firewall and the posi-align core supports, your engine compartment will take on a whole new appearance. Remember those ugly long radiator support rods that reach from your stock firewall to your core support? When you install the inner fender apron set along with the core support set, those stock support rods are no longer required. This inner fender apron set includes the hardware and complete instructions needed to install it in your truck. This is a bolt-in set with no welding required. This set will match up against your stock firewall and stock radiator core support with a small amount of trimming to the back edges and some minor adjustments to the front edge.
Important: Does not fit GMC models.
Note: Shipped oversize. 081

Body Tools / Hardware

EZ Rest Door Hanger

The EZ Rest Door Hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with a removable saddle and 30mm (1.18") diameter saddle hole.
Note: Floor jack is not included.

Door Alignment Tool

When it comes to door alignment, you need the proper tool to get the job done right. With these handy tools, you can easily adjust the hinges without the aggravation of trying to align by eyesight with improper tools. Your choice of adjuster tool with built-in handle or adjuster tool without handle. The adjuster without the handle is designed for use with a standard breaker bar and socket to save space in your toolbox during storage. Either tool will perform the job quickly and accurately without the hassle of trying to adjust the alignment with general purpose tools.

Y65800 door adjuster tool with handle ..... 57.99 ea
S21845 door adjuster tool without handle ..... 31.99 ea

Door Spring Tool

Compresses spring for easy, safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel. Great for all GM models.

S21900 ..... 19.99 ea

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. Luckily, now there's the specially designed Door Bushing Tool. Its special design makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges. Super tough alloy steel construction.

S21825 ..... 20.99 ea

Door Hinge Pin Popper

The ultimate solution for removing door pins fast. Drives out even stubborn hinge pins. Works on all GM cars with removable hinge pins. Includes pin puller to remove loosened pins.

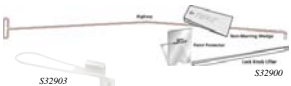

S21835 ..... 31.99 set

3M White Grease

Keep your door hinges, hood hinges, trunk and hood latches properly lubricated with 3M White Lithium Grease. Also a terrific for lubricating lock cylinders and window regulators. A heavy bodied white lithium spray grease product delivers excellent metal to metal lubrication under high friction loads. Ideal for use on chains, gears, drives and hinges.
Note: Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.

Take Your Truck Bed to the Next Level !

Exotic Bed Wood Sets

The bed floor is the largest flat surface on your classic truck, it plays an integral role in the final appearance of the your build. So whether you are restoring your own classic truck or building a one of a kind show truck, we understand how important the quality and integrity of the bed wood is to you. Take your restoration to the next level with these high quality custom bed wood sets. Although oak is a quality wood, it does not fit all builds, and until now, has been practically the only species of bed wood offered in the aftermarket. You now have the option to choose from a significant number of beautiful domestic and exotic species of wood, with each having their own distinct color, grain pattern, and character. This will allow you to further enhance the appearance and personalize your classic truck.

Important: Special order, must be prepaid. No returns.
Wood is shipped unfinished.
Note: Shipped double oversize.

Dress-up Your Angle Strips with Covers

Stepside Angle Strip Cover

Stepside angle strip covers are made like angle strips, but they bolt right over the existing angle strips to renew the appearance of your originals. With angle covers, you do not have to hassle with removing the old angles. The new angle covers come without holes, so you can drill your own holes to line up with the original angles. Be sure to order ribbed neck bolts for your angle covers to ensure easy assembly.

Note: Shipped oversize.

EZ Seal & Shine Bed Wood Finish Kit and Detailer

A custom wood bed can really make your truck shine. Protect the shine of your custom woodwork with a beautiful sealed finish that protects and enhances gloss sheen. Now you can achieve a professional looking finish with this new single-stage finishing kit with an easy to use sealer that any hobbyist can use. EZ Seal & Shine can be sprayed or brushed on most stained, painted or raw woods. The eco-friendly finish provides a high gloss, protective finish that shields against harmful UV rays. It meets all VOC standards worldwide and is packaged in handsome, resealable metal cans. When it comes to detailing, the most effective way to polish and protect any custom wood bed is with EZ Wet Gloss Spray Detailer. It provides a mirror-like finish to the paint, glass and metal surfaces the vehicle. This specially formulated, synthetic spray detailer provides a super wet gloss shine, removes smudges and fingerprints while also reducing friction. Harmful static can cause scratches when wiping or drying surfaces, but the EZ Wet Gloss Spray Detailer brings all surfaces to a show car shine and always "Makes Wood Look Good™"!

BKSP952	all – detailer 16 oz. bottle	13.99 ea

1947-87 Cross Sills and Reinforcement Strips

Cross sills fit between the bed wood planks and the frame of the truck. The bed strips are bolted to the cross sills giving the bed wood strength and rigidity and providing the surface to mount the bed to the truck frame. Reinforcement strips are shorter in height and attach to the wood and bed strips only, providing additional reinforcement for the models listed. Pre-punched holes in 14 gauge steel with the original bolt pattern for each year and model.

*Note: *Shipped oversize. **Shipped double oversize.*

1947–87 Pickup Bed Strips

Bed strips hold the wood planking to the bed cross sills. Strips are 1-1/2" wide and roll formed 18 gauge steel, or 430 stainless. Pre-punched square holes in the original bolt pattern. Choose from raw steel, unpolished stainless steel or polished stainless steel materials as listed below. Choose individual strips or a complete set. Classic Industries® offers the largest selection of bed strips anywhere!

Individual Strips Required by Year

Stepside

1947-51 ..... 8 strips
1951-72 ..... 7 strips
1973-87 ..... 6 strips

Fleetside

1958-59 ..... 7 long, 8 short
1960-72 ..... 7 long, 4 short
1973-87 ..... 6 strips

1947-87 Bed Bolt Sets

Bed wood bolt sets contain: the correct size square shouldered carriage bolts, washers and nuts for bed strips, angle strips and bed wood. Smooth button headed bolts are available in polished and unpolished stainless, and paintable zinc coated. Bed to frame bolts are also included along with the large offset washers that are countersunk in the bed wood.

Smooth Look Bed Strips

Get the Smooth Look with Custom Bed Strips!

These custom bed strips use a completely hidden fastening system with special bolts that slide into the groove on the underside of the strip to adjust to any bolt location. These strips are precut to correct length and include the correct number of hidden fasteners for your truck. Each strip is 1-1/2" wide, and is available in polished, unpolished or raw steel. Raw steel bed strips must be finished. Bed strip hardware and instructions are included. Bolt sets for bed-to-frame and side mounting are sold separately. Made in USA.

Number of Strips in Each Set

Stepside

1947-51	8 strips
1951-72	7 strips
1973-87	6 strips

Fleetside

1958-59	7 long, 8 short
1960-72	7 long, 4 short
1973-87	6 strips

Smooth Look Bed Strips

Hardware Sets for Smooth Look Bed Strips

Special hardware is required when installing the Smooth Look Bed Strips because the strips use a completely hidden fastening system with special bolts that slide into the groove on the underside of the strip. This groove allows the bolt to adjust to any bolt location. Each hardware set includes all the bolts, nuts, washers and lock washers to install the bed wood and angle covers. Select this bolt set when using angle strips or covers without punched square holes. Includes ribbed neck carriage bolts for round holes to be drilled in angle strips or covers and standard carriage bolts for the bed strips.

Polished Stainless Steel

For Use with Standard Angle Strips

Each hardware set includes: all the bolts, nuts, washers and lock washers to install the bed wood and angle covers. Select this bolt set when installing smooth look bed strips with standard angle strips. Polished stainless steel.

Windshield Wiper Parts

A40119

1963-00 Remanufactured Wiper Motor

Each wiper motor is built using the industry's most advanced engineering and remanufacturing technology. Our remanufactured wiper motors are the high quality, low cost alternative to brand name motors. Why pay more?! Enjoy safety, performance, and reliability at a fraction of the cost of OE. Backed by a 1-year manufacturer's limited warranty.

CX1366

Electric Windshield Wiper Motor Conversions

Great replacement and electric conversion wiper motor. This motor will replace the original vacuum driven wiper units and includes the original style knob. Wired to work either in an original 6 volt system or the more modern 12 volt converted electrical system. For use only with negative ground electrical systems.

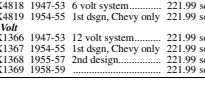

Note: Wiper motors will operate at a slower speed with a 6 volt power source than with a 12 volt power source. Linkage modifications will be necessary.

6 Volt

CX4818	1947-53	6 volt system	221.99 set
CX4819	1954-55	1st dsgn, Chevy only	221.99 set

12 Volt

1947-55 Wiper Tower Gaskets

Keep the wiper transmission tower from leaking and corroding by replacing the gasket that is placed between the cowl panel and the tower base. Includes 2 pieces.

CX1372	1947-53	includes 2 piece	2.99 pr
CX1373	1954-55	1st series	2.99 pr

152827

1947-59 Hidden Wiper Conversion

Our wiper system is a modern, high-quality replacement for the old system. It is the only replacement wiper system that is completely hidden, fitting entirely underneath the dash area! This allows you to remove the stock wiper motor. The wiper motor hole in the firewall can be covered easily with the cover plate supplied in the set or you can weld in a patch panel to eliminate the hole entirely.

Important: Some modification is required.

Standard 2-Speed Systems

152824	1947-54	2-speed system	459.99 set
152826	1955-59	2-speed system	364.99 set

Systems with Delay Switch

152825	1947-54	with delay switch	519.99 set
152827	1955-59	with delay switch	414.99 set

Intermittent Wiper Module

New!

This Intermitter Wiper Module adds three settings to the factory slow and fast speeds. Uses existing switch and motor for a stock look. Installs behind the dash between the switch and harness. Fits most applications with two-speed and non-hiding wipers.

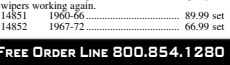

RE13009			76.99 ea

Wiper Transmission Clip/Spring Assembly

Connecting assembly of spring and clips for the 1947-59 wiper transmission assembly. This will reconnect the transmission upper arms and keep the wiper arms working in unison.

If you need to replace the worn out, damaged or missing power steering pump in your 1963-96 Chevrolet or GMC truck, choose from our comprehensive selection of thoroughly reconditioned pumps! These pumps are carefully inspected and restored to OEM functionality! Available with and without reservoir. Pulley, cap, and nut sold separately. *PS6000*

NO CORE CHARGE REQUIRED!

Note: This listing covers CK and RV models. CK models were produced until 1986, Suburban, Blazer, Jimmy, and crew cab pickup continued from 1987-91 as RV models. The 2 door pickups introduced in 1988 are also designated CK models but are not included in these listings. For more applications, check our website: www.classicindustries.com

RESTORER'S CHOICE™

OEM AUTHORIZED

OE Style Remanufactured Power Steering Pump

Classic Industries® features pumps the pros use. When the Nation's most elite hot rodders and restorers source parts for show winning projects, they don't settle for anything less! Why should you? If you're in the market to replace the worn out, damaged or missing power steering pump in your 1963-79 Chevrolet or GMC truck, choose from our comprehensive selection. Thoroughly reconditioned, these pumps are carefully inspected and restored to OEM appearance and function! Perfect for chrome plating or show! Don't sacrifice price for quality when it comes to this integral underhood component! When appearance is a top concern, use these OE style remanufactured pumps!

1960-87 Power Steering Gearbox Conversion

This CPP 500 Series power steering conversion gear box for the 1960-87 Chevrolet truck is a great start to updating your power steering system. The gearbox features a 14:1 ratio unit which provides superior directional control and road feedback, as well as a more stable feel to the driver. CPP engineered the recirculating ball gears for low friction and increased steering response. An open centered, rotary type valve provides smooth operation throughout the steering range while retaining excellent road feel. For the 1967-87 C10 Chevrolet Trucks, the 500 Series is a direct replacement for the factory manual/power steering box and is "bolt-on" easy-to-install requiring an adapter bracket for 1960-66 1/2 ton trucks as early trucks have a different bolt pattern. This uses a 3/4" - 30 rag joint.

1963-72 Saginaw Power Steering Pulley New!

This aluminum single groove power steering pump pulley is designed to solve clearance issues between the fan and pulleys when adding V-belt accessories like power steering and AC to short water pump applications. This pulley fits all Saginaw keyway style pumps that accept bolt-on pulleys with a 5/8" diameter shaft. Fits small block and big block Chevrolet motors equipped with a short water pump.

Important: *Not for use on engines with a long water pump.*

Warning: ***Regarding Steering Pump Pulleys***

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines that exceed these limits may result in catastrophic failure of the pulley, which can potentially cause severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Be sure to install the pulley properly to avoid damage that can occur from improper installation or exceeding recommended RPM and horsepower limits.

Performance Suspension

1973-99 Complete HYPER-FLEX Polyurethane Bushing Sets

ENERGY SUSPENSION

Reduce deflection and increase control with a complete set of performance polyurethane bushings. These Hyper-Flex bushings will maintain proper alignment throughout suspension travel, reduce wheel hop under hard acceleration and improve braking control. Sets include front control arm bushings, front spring and shackle bushings, rear spring and shackle bushings, cab/body mounts, front sway bar bushings, tie rod end boots, and transmission mounts.

*Note: Please specify color code when ordering. Use (R) for red bushings and (G) for black bushings. Not for crew cab models. †Does not fit Superlift/Skyjacker suspension. *Does not include transmission mounts.*

1973-99 Front Control Arm Bushing Sets

ENERGY SUSPENSION

Simply put, the three most valuable reasons for using polyurethane suspension components on your vehicle are: Performance, Durability and Appearance. HYPER-FLEX performance polyurethane products do not rot or deteriorate from oils and car chemicals like original rubber components do. The result is a longer lasting component that will ensure years of an incredible improvement in handling, control and reliability.

ENERGY SUSPENSION

Energy Suspension Formula Five Pre-Lube

Energy Suspension Formula Five Pre-lube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, wash resistant film of lubricant. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your polyurethane bushings to your suspension.

Made in USA

Important: Only small amounts of this pre-lube are needed when assembling components.

Morrison's 1947-53 GT Chassis *Handles* Curves Like a Sports Car!

Replace the 60-Year Old Chassis with a GT Sport Chassis Package!

Out With the Old...

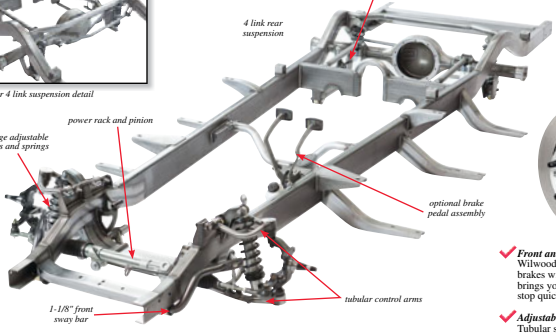

✕ ***Leaf Spring and "I" Beam Front Suspension***
The original suspension was a leaf spring and "I" Beam design. Tubular shocks replaced lever type in 1950, but what was state of the art back then is old news now.

✕ ***"Twin Action" Rear Drum Brakes***
Front and rear drum brakes were state of the art in 1951. They called it Advance Design for a reason!

rear 4 link suspension detail

✓ ***Front and Rear Brake Package***
Wilwood front and rear disc brakes with 11" vented rotors brings your 1947-53 Truck to a stop quickly and without incident.

✓ ***Adjustable Coilover Suspension***
Tubular steel control arms and Strange Engineering adjustable coilover shocks make your front suspension tunable to your personal preference. A triangulated 4 bar rear suspension with Strange adjustable coilover shocks keep the Ford 9" rear axle assembly in place.

MORRISON GT SPORT CHASSIS

Made in USA

In with the New!

- ***Caster*** has been increased from 2 degrees to 5 degrees for added stability at high speeds and better weight distribution under cornering.
- ***Bumpsteer*** is a minimal issue with the GT Sport chassis. Even on uneven pavement, the vehicle with track straight!
- ***Roll Center*** is improved throughout body roll, resulting in consistent, stable and predictable vehicle handling.
- ***Camber*** has been enhanced through the first four inches of suspension travel. The angle of the control arm also helps to increase stability under hard braking.
- ***Ride Height*** is approximately 2 inches lower than stock ride height, thanks to Wilwood PRO Drop Spindles. Combined with the increased wheelbase and 2" x 6" mandrel bent rectangular tube frame, the GT Sport chassis stays incredibly mild-mannered.

GT Sport Chassis with Suspension and Axle Housing

The Art Morrison GT Sport Chassis with suspension and axle housing includes a front suspension consisting of uncoated upper and lower IFS control arms, spindles, Strange adjustable shocks and springs, power rack and pinion and a 1-1/8" sway bar. Out back, a Ford 9" housing is held in place by a triangulated 4 link suspension with Strange adjustable shocks and springs. Roll control is provided by a 3/4" sway bar.
Note: Art Morrison chassis are special order and must be prepaid.
Shipped truck freight.

TCI Truck Chassis

Renovate your classic truck with a new chassis by TCI! These stout frames feature extended 8" main rails for increased rigidity and clearance between crossmembers while retaining the original profile. Designed to improve ride quality and increase performance with a wide variety of configurations to meet your specific needs.

Chassis shown powder coated for illustration purposes only. Chassis components come in bare steel.

All TCI Chassis Include:

- *Boxed frame with core support crossmember*
- *Extended 8" main rails to increase rigidity*
- *9" Currie Housing with 31-spline axles*
- *Choice of rear axle gear ratio (3.00-4.56)*
- *11" rear drum brakes*
- *Under floor master/booster assembly*
- *Stainless steel braided brake hoses*
- *Wilwood brake residual check valves*
- *Wilwood brake proportioning valve*
- *Engine frame mounts*
- *Automatic transmission crossmember*
- *Running board brackets mounted*

Stage 1 Front and Rear Suspension

1947-59 Stage 1 IFS

This is the front coil-spring independent front suspension from the TCI Stage 1 chassis. Based on the traditional Mustang II style spindle, it is configured for increased camber gain and anti-dive for better performance. The upper coil spring tower accommodates traditional shim alignment adjustment instead of T-bolts. The upper control arm mounts onto vertical plate. Heavy-duty ball joints and control arms and a robust one piece lower control arm mounting pin add strength and durability without increasing weight. Includes: complete sway bar, plain rotors and big bore calipers.
Note: Shipped truck freight.

1947-59 Stage 1 Leaf Spring Rear Suspension

Upgrade your rear leaf spring suspension with TCI's leaf spring rear suspension. This bolt-in rear leaf set is the same suspension used on the Stage 1 chassis. It not only gives you updated springs; it also lowers your truck 4" and features leaf springs, shock kit, frame bracket, U-bolts, axle brackets, shackles with polyurethane bushings and hardware.
Note: Shipped double oversize.

TCI Truck Chassis

Stage 2 Front and Rear Suspension

1947-59 Stage 2 IFS

This is the independent front suspension from the Stage 2 TCI chassis. The heavy-duty ball joints and control arms are built to support the extra weight of truck applications. Steering geometry is designed to maximize cornering grip with great street manners. Alignment adjustments are a snap with offset stainless adjusters. Ride height can be modified with billet rebound adjustable coilovers. The one piece crossmember design makes installation simple. Available with manual or power rack and pinion steering. Choose from three bolt patterns. Includes plain 11" vented rotors and uncoated tubular control arms.
Note: Shipped truck freight.

1963-72 C10 Independent Front Suspension

1963-1972 Chevy truck custom Independent Front Suspension package from Total Cost Involved. Engineered for 1/2 ton trucks, this bolt-on Custom IFS includes 26 way adjustable, RideTech billet coil-over shocks which allow you to custom tune your ride to the way you drive. Backed by a 1-million mile warranty. Instantly turn your C10 Chevy truck into the ground hugging, finest handling pickup you desire. TCI's crossmember design, dedicated spindles, and distinct A-arms fit with Moog's largest ball joints. Drop your truck five inches while increasing suspension ground clearance. Mounting hardware included.
Important: All parts are unpainted except for the powder coated coilover shocks and springs
Note: Shipped oversize. Dropped shipped from vendor.

				081

1963-72 Rear Suspension

Made in USA

Axle and Sway Bay not included. Wilwood brakes optional.

Features:
- *Limited Lifetime Warranty on all TCI manufactured parts*
- *Crossmember is lowered 5"*
- *Better center of gravity with less body roll*
- *More controlled handling by coilover shocks and sway bar with no suspension binding variables*
- *No cutting into the bed required*

(Note: Cutting of rail for C-Notch is required)
- *Utilizes multiple stock mounting points*
- *Mounting options for multiple factory rear ends*
- *Engineered to work seamlessly with most aftermarket rear mounted gas tanks*

1963-72 C10 Coilover Torque Arm

This product is engineered for 1963-72 C10 Chevy Trucks built for: standard street, autocross and pro touring applications. This will compliment the TCI Custom IFS. The truck will ride and handle better than stock. Made in USA.
Important: Cutting of the frame rail for C-Notch is required. Notch plates are included. Rear ends are optional. 12 bolt rear ends will bolt-on.
Note: Shipped oversize.

Performance Suspension

Heidt's SUPERIDE II IFS System is the ultimate front suspension for your 1947-59 Truck! Gain the best handling for your street or muscle truck by installing this complete suspension system! This is an all-new kit, not a Mustang conversion kit. Each system uses Heidt's Mustang II dropped spindle to allow for a front steer mounted rack and pinion unit. It has been engineered from the ground up for a smooth, safe ride!

Suspension system shown assembled and coated for illustration purposes only.

Includes:

- Tubular Upper and Lower Arms
- Factory Ball Joints and Tie Rod Ends
- Steel Adjusters with Urethane Bushings
- Front mount Manual Rack and Pinion Steering
- 11" Rotors with 4 Piston Wilwood Calipers
- Billet Single Adjustable Coilover Shocks with Chrome Springs
- Stock Mustang II Spindles Which Lowers Truck Ride Height 3"

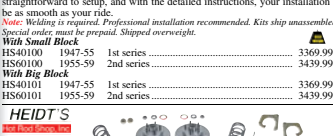

HEIDT'S Hot Rod Shop, Inc.

1947-59 Chevrolet Pickup Superide II Conversion Kits

The SUPERIDE II IFS System features steering geometry very similar to the Mustang II system, using Heidt's Mustang II drop spindle to allow a front mount rack and pinion unit and provide plenty of engine clearance. For wheel alignment, the upper control arms use threaded adjusters which will not slip or lose alignment no matter how big a bump you hit. The resulting ride is smooth, very low, and highly steerable with no bumpsteer and built-in anti-dive. SUPERIDE II is designed to be straightforward to setup, and with the detailed instructions, your installation will be as smooth as your ride.

***Note:** Welding is required. Professional installation recommended. Kits ship unassembled. Special order, must be prepaid. Shipped overweight.*

- *Billet Aluminum shock mounts*
- *Built-in drive shaft loop*

This heavy-duty 4 engine link suspension is designed for the 1967-87 Chevy C-10 pickup to improve ride quality and handling. This kit offers the largest tubes and rod ends in the industry for added strength and durability. The coilover springs are silver powder coated protection and good looks.

Important: Drop from stock height is about 4-1/2".

*Note: *Use if ordering a Heidt's housing. Special order. Shipped oversize.*

Supercar Handling for Your 1963-72 C10!

Hotchkis Sport Suspension

For the ultimate handling 63-72 C-10 Pickup, nothing beats the Hotchkis Total Vehicle System. Set includes the following front components: Tubular Upper and Lower Control Arms which extend the wheelbase 1.8" and increase caster alignment up to +9 degrees. The bump steer is corrected with a new center link assembly and heavy duty tie rods. 4" front lowering springs, and a 1-7/16" front sway bar reduce body roll and control the bumps along with the Hotchkis Tuned/Bilstein shocks and shock relocation brackets. The rear of the truck gets an adjustable full length track bar set up, an adjustable anti squat bracket system improving the trucks instant center for maximum traction. 6" rear sport lowering springs and a 3/4" blade style sway bar reduce body roll, while shock relocators, and the Hotchkis Tuned Bilstein shocks effectively control suspension dampening. Components available separately. Made in USA.

Made in USA

Truck Freight

Important: When using the H18390 Rear Suspension System, use rear sway bar H22390R.

*Note: †For models with coil springs only. *Shipped oversize. **Shipped truck freight.*

1963-72 Swivel Max Bushings

Improve the cornering performance and traction of your 1963-72 C-10 pickup! This upgrade consists of two press-in bushing shells, two 3/4" PTFE lined high articulation spherical bearings, and four articulation spacers. Zinc coated for corrosion resistance and are a direct replacement for OE rubber bushings. Improves traction and control, and reduces truck arm bind. Made in USA.

Features:
- *Bolt-on installation... No welding required*
- *New Delrin Bushings minimize suspension bind for maximum performance.*
- *New Coilover/ Control arm Frame Mounting system.*
- *Monotube Shocks add superior ride quality and handling performance.*
- *Available in both coilover and ShockWaves® configuration.*
- *Includes all bushings, ballpoint, and cross shafts for easy installation.*
- *Improved camber gain enhances cornering performance.*
- *Improved geometry:*
  - *Corrected ball joint angles*
  - *Suspension attachment points*
  - *Increased shock stroke*
  - *Improved negative camber gain*
  - *Integrated caster slug for improved caster adjustment*
  - *Ball joint locations optimized for maximum caster settings*

1963-72 C10 Front Control Arm System

The 1963-72 Chevrolet C-10's are arguably the most sought after and coveted trucks to ever roll out of Detroit. RideTech has developed a coilover/control arm system for the 1963-72 Chevy C10 to improve ride quality and handling performance. Get 21st century handling in a classic truck. Includes upper/lower StrongArms, upper mounting brackets and hardware. Set does not include coilover shocks or ShockWaves®. Made in USA.

ridetech

Made in USA

Features:
- *Tubular trailing arms manufactured from 2" OD 120" wall DOM tubing to give extra strength and flexibility.*
- *Axle mounting pads reposition pinion angle correctly for new lower ride height.*
- *Contoured bolt-on C-notches strengthen frame and allow maximum suspension drop and travel without cutting bed.*
- *Will allow use of coilover shocks, or ShockWaves®.*
- *Bolt-on tubular trailing arm crossmember strengthens frame and provides much needed clearance.*
- *Adjustable panhard bar offers increased strength and allows precise centering of your rear end to optimize tire clearance.*

1963-70 C10 Rear Suspension System

This C10 rear suspension system is designed to compliment the RideTech C10 front suspension system. Includes: trailing arms, C-notches, shock crossmember, front crossmember, panhard assembly, and hardware. Set does not include coilover shocks or ShockWaves®. Made in USA.

Note: Shipped double oversize.

ridetech Air Ride Technologies Air Suspension Systems

How LOW Do You Want to Go?

With Ridetech's engineered air suspension system, you don't need to ask any other questions of your air suspension. Each component is designed to fit correctly and accurately with all other components, and will install into stock suspension mounting locations. Dropping your truck shouldn't be a hassle. And with Ridetech, it doesn't have to be.

CoolRide *1963-72 suspensions use CoolRide front and rear air springs. They are a bolt-on application and are engineered to maintain ground clearance and load capacity. Utilizes factory shocks.*

AirBAR *The AirBAR is a 4 link rear air suspension that will bolt directly in place of the OE leaf springs, into the stock leaf spring mounts.*

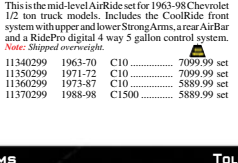

RidePRO *RidePRO provides the most accurate and hassle free control over ride height. Sensors allow the system to compensate for load variation and maintain accurate ride height.*

11360199

RidePRO *RidePRO high tech electronic control allows the user to program three automatic height presets. This system uses air pressure sensors to control ride height. Air pressure sensors provide accurate control but will not compensate ride height for variation in loads. The right choice for trucks that don't see frequent changes in loads.*

STRONGARMS *StrongArm tubular control arms not only improve suspension geometry and handling, they also make installation even easier. The added benefit when replacing control arms is new bushings and ball joints. No more worn out components! They are powder coated black for lasting protection and feature correct mounts for air springs.*

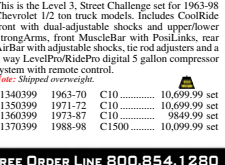

11360299

LevelPRO *LevelPRO ride height sensors provide the Ride system a unique combination of ride height sensors and air pressure sensors to quickly achieve your selected ride height. Levels the vehicle with no cross loading.*

MUSCLEbar *The new Musclebar sway bars were developed specifically for lowered vehicles and will greatly enhance the cornering performance of your vehicle (not to mention they'll also make some vehicles safer at speed).*

POSI-Link *Ball Joint style connection allows bind-free operation through an extremely wide range of motion. Durable design will outlast traditional bushing style connectors.*

11370399

1963-98 Level 1 Air Suspension Systems

This is the entry level AirRide set for 1963-98 Chevrolet 1/2 ton models. Includes a CoolRide front system and either a CoolRide rear that uses the factory control arms, or an AirBar rear 4 link system. Each set includes a 4 way RidePro 3 gallon control system.
Note: Shipped overweight.

1960-87 Modular Spindles and Brackets

The Modular™ Drop Spindle is a one-piece forged nodular iron design with pressed in alloy steel axle pin, installs with no modifications, lowers your vehicle 2-1/2". In some cases, this is accomplished without moving the wheels out! These will work with CPP big brake and many manufacturers' brake kits in a host of different brake sizes.

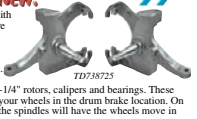

Note: Bracket required when using stock 12" brake components on 1971-87 C10 Heavy-duty with factory disc brakes (1-1/4" thick rotors). Not for use on light duty rotors (1" thick).

C10 Disc Brake Spindles New!

Make your disc brakes compatible with a set of CPP brake spindles. These are the same spindles sold in CPP OEM kits and upgrade kits. Cast from the highest quality Ductile Iron with 4140 Chromoly CNC-machined pins. Accepts factory ball joints and tie rod ends. Designed to use 1971-87 1-1/4" rotors, calipers and bearings. These have the original C10 offset to keep your wheels in the drum brake location. On a factory disc brake equipped truck, the spindles will have the wheels move in almost a 1/2".

RS6033S

1960-72 Rear Coil Springs

These rear coils are designed to work with either a 6 cylinder, small block V8 or big block V8. Heavy-duty coils are for panels, Suburbans and trucks that will be used for towing.

Note: 4" or lower drop recommend C-notch. Coils come black powder coated.

1960-72 Rear Coil Spring Retainers

Coil spring retainers are a perfect upgrade when installing new or lowered coils springs. Manufactured the same as the original with capture nuts for easy installation. Designed to work with our rear coil springs. Four retainers and hardware included in set.

RC6072K	1960-72		14.99	set

1963-72 Drop Center Crossmember

This center crossmember is specially designed for 1963-72 trucks with a 5" or more rear drop. Manufactured from 1/4" thick laser cut steel plate and features a hoop design eliminates drive shaft interference on slammed trucks. The exhaust passages also allow you to tuck a 3" exhaust up out of the way. Mounts in the stock location and includes mounting hardware and trailing arm mounting ears. Custom tubular trailing arms are available separately (TTA6072).

Note: Shipped overweight.

DCX6372	1963-72		214.99	ea

1960-72 Tubular Trailing Arms

These tubular trailing arms offer a clean look for your classic truck. Manufactured with a laser cut and formed spring platform fabricated to a CNC bent heavy wall 2" DOM tube body, these can be used to replace original worn out arms or to improve the overall appearance of your suspension. The bushings are made of a patented heat resistant, self-lubricating material that offers long life and a remarkably quiet, comfortable ride. Can be used with original rear axle and coil springs. These will mount to the factory crossmember or to the custom drop crossmember (DCX6372).

Note: Shipped double oversize.

TTA6072	1960-72		644.99	pr

1963-72 Rear Frame C-Notch Set

Give your truck 3" of added rear suspension travel with a rear C-notch set. The C-notch set bolts into place and come with pre-formed frame boxing plates. Available in bare steel only.

CNK6372	1963-72		124.99	set

1963-72 Heavy Duty C-Notch Set

If you have a lowered 1963-72 truck and plan on towing, this is your answer. The heavy-duty sets are manufactured from 3/8" material (1/8" thicker than standard sets) for extra strength and rigidity. This is only recommended for towing applications. Available in bare steel only.

Front Coil Springs

1963-97 Front Coil Springs

Made in USA

RESTORER'S CHOICE™

A correct ride height and positive handling can only be achieved if all of your truck's suspension components are in good shape. After years of hard work and bad roads, even the coil springs can get tired and sag. Replacing the coil springs can go a long way in renewing your trucks original ride and handling. These coil springs are produced in the USA and are designed to replace your original spring exactly.

Body Mount Components

1965-91 Original GM Body Mounting Bolts and Washers

When you're replacing your body mount bushings, you may find your original hardware in poor condition. The original bolts may be rusty and seized to the body mount bracket. Your truck's body rides on these bolts, why would you reuse rusty, weak hardware? Replace them with these original GM replacement body mounting bolts for your full size GM truck. See listing below for applications and availability.

Body Mounting Bolts

1973-91 Replacement Body Mount Bushing

These are replacement body mount bushings for 1973-91 Chevrolet or GMC pickups, 1973-1991 Blazer/Jimmy and 1973-91 Suburbans. They are not cosmetically correct, however, they fit and function like the originals. These come as a set with upper and lower bushings, plus hardware. These fit both 2WD and 4WD vehicles depending on the application.

Note: Requires 1 set per location.

High Performance Sway Bars

FSB156

FSB528

1955-99 Pickup, Suburban, Blazer/Jimmy, Tahoe/Yukon Sway Bars

High-performance sway bars for various 1955-99 truck, pickup and SUV models. Sway bars reinforce the suspension, offering improved handling. Easy installation with basic hand tools (some sets may require drilling). Each sway bar set includes proper bushings and mounting hardware for a complete installation. See listings below for your application and desired sway bar diameter. Review the notes on each set for additional information.

Important: **This bar must be used if you have an existing bar on your vehicle. This bar is a larger diameter then the factory bar, but the same design as the original factory bar. It requires the use of special hardware that was factory installed for original factory bar. This set may not contain all the hardware that is required for installation. This bar cannot be used without the original hardware. **If the truck is equipped with a large muffler that is tipped up on its side, use RSB396 for 1/2 ton models and RSB291 for 3/4 ton models. ***This bar is an original factory type replacement which mounts in the factory location and is a larger diameter than the original factory bar.*

Note: *Shipped oversize.*

1963-87 C10 Lowered Front Sway Bar

Hellwig C10 front sway bar for vehicles with a 2-4" drop in the front. This sway bar removes the D-shaped polyurethane bushings on the factory control arms and adds an end link. The new design performs better, easier to install and allows a few quick changes to switch between stock height and lowered vehicles. It is made from 1.25" solid, heat treated, chromoly steel and includes all the brackets necessary to install it. The large diameter sway bar helps the vehicle handle better and decreases body roll for a better experience whether it is being used as a daily driver, work truck or at the track. The kit fits any C10, whether they came new with or without a factory front sway bar. For the stock height C10 use HW7746 sway bar kit.

Note: Shipped oversize. 4WD

1973-83 C10/C20 Lowered Rear Sway Bar

For race, show or daily driving applications, the lowered C10 is king. For this reason, Hellwig has an application made specifically for lowered vehicles. This 1-1/8" heat treated sway bar fits vehicles with a 3-5" rear drop. The bar has a 3 hole design allowing the rate to be adjusted to the driving style of the owner or the specific track or course it's being run on. This kit includes U-bolts and brackets to fit on axles with both 3.0" and 3.5" diameter tubes. This also accommodates C20 pickups. The adjustable end links let you perfectly match the bar to your specific suspension. This bar will keep the vehicle tight through the corners for better handling, performance, fun and quicker lap times! For even better performance, pair this rear sway bar with Hellwig's lowered front sway bar (part #HW7804).

Note: Shipped oversize. 4WD

1973-83 C10/C20 Rear Sway Bar

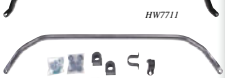

This sway bar is for stock height or with a mild drop 1973-83 C10/C20 pickup models. This 1-1/8" heat treated, chromoly rear sway bar has a 3 hole design allowing the rate to be adjusted to your specific vehicle's weight or driving style. The kit includes heavy-duty, adjustable length end links and multiple U-bolts to allow installation on axles with both 3.0" and 3.5" diameter axle tubes. The C10's did not come with a factory rear sway bar, so adding one creates a huge improvement in handling, safety and performance. It can be used on your daily driver, work truck or autocross beast! For even better performance, pair this rear sway bar with Hellwig's new front stock height sway bar (HW7746). Lowered application front and rear sway bars are available.

- Retains factory ride
- Does not affect towing or hauling

KG09114

KG09104BK

1988-09 Budget Boost and Leveling Sets

Budget Boost is a pair of short spacers that are intended to restore ride height lost from adding heavy aftermarket accessories, such as a winch bumper or grill guard. Leveling Sets are designed to level the stance of a vehicle and eliminate the nose-down rake most trucks have from the factory. Daystar's new top mount easy install strut spacers fall into this category, as do the new torsion bar keys. As the name implies, Leveling Sets level the vehicle and do not include rear lift.

Note: All Boost and Leveling Sets require wheel alignment after installation.

1960-84 Polyurethane Transmission and Transfer Case Mounts

Transmission and transfer case mounts take a tremendous pounding every day and when power- and torque-enhancing modifications are added to the mix, most factory mounts just can't handle the stress. Daystar's transmission mounts are constructed of heavy-duty steel that is fully welded and interlocked for extreme duty strength. These mounts offer several advantages over factory mounts. They are resistant to vehicle fluids and road grime and provide firmer holding power than traditional rubber.

*Note: *Not Daystar.*

Hellwig Helper Springs

1973-98 Pickup Pro Series Helper Springs

Pro Series Helper Springs for 1973-98 Chevrolet or GMC 1500, 2500 and 3500 series pickups, 2WD and 4WD models. Featuring its patented bolt-on design, "Silent Ride" polyurethane stability blocks, plated and powder coated components and easy to follow installation instructions make this the helper spring of choice for do-it-yourself and professionals alike. These units increase your vehicles level load carrying capacity up to the manufacturer's Gross Vehicle Weight Rating. With its progressive rate design this helper spring system enables trucks and vans to carry loads with more control and stability. As your load increases this spring automatically increases its rate to resist sagging and tail dragging. This unit can be installed in a professional shop or in your own drive way using common hand tools for a simple installation. Fine tune your vehicles leaf spring suspension to suit your particular needs by adjusting the heavy-duty U-bolts provided. If your tow and haul needs change, simply adjust the heavy-duty U-bolts to suit the new requirement. Once installed and adjusted you are free to haul and/or tow a multitude of equipment and commodities with greater control and stability. This has a 2500 lbs level load capacity.

Important: *Do not use with factory overload contact springs or rear coil springs. These springs are made to increase the "level load" carrying capacity of your vehicle. Never load the vehicle these units are installed on beyond the manufacturer's maximum gross vehicle weight rating.*

Note: *Shipped double oversize.*

61902	1973-98	pickups 2/4WD	264.99	set

1973-87 Air Springs for 1/2 Ton 2WD Pickups

These air springs are for 1973-87 Chevrolet or GMC 1/2 ton pickups, 2WD only. Offering better handling and control under heavily loaded conditions these kits increase stability and control, reduce bottoming and provide the ability to level the heaviest loads from left to right and front to rear. Featuring an air spring with superior ride quality, this unit softens typical loaded ride conditions by transferring load from the vehicle's leaf spring to the Hellwig Air Spring. Hellwig Air Springs offer longer suspension travel, ease of adjustment, simple installation and years of heavy-duty load control. These heavy-duty air assisted helper systems provide load leveling capability with compressed air applied to the air springs which are mounted between the vehicle frame and suspension. Each Hellwig Air Kit is specifically designed to maximize the safe load carrying capacity of your vehicle up to its Gross Vehicle Weight Rating. These are manually filled using a remote air supply. With its simple bolt on design these kits can be installed with common hand tools (some kits may require drilling). Do-it-yourself or have a professional install it. Hellwig Air Kits come complete with double convolute heavy-duty air springs, heavy-duty powder coated components, zinc-plated hardware, air line, fill valves and installation instructions. Give your vehicle its full capability to tow and haul with improved vehicle and load control, correct head light direction, better handling and improved drivability.

Important: *Do not use with factory overload contact springs or rear coil springs. These springs are made to increase the "level load" carrying capacity of your vehicle. Never load the vehicle these units are installed on beyond the manufacturer's maximum gross vehicle weight rating.*

Note: *Shipped overweight.*

6400	1973-87	C1500 2WD	299.99	set

H2505

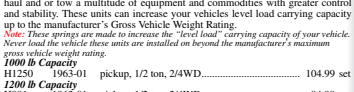

1963-01 Load Pro Helper Springs

These are "The Original Load Levelers". Featuring Progressive Spring Rate and Full- time Spring Rate design, this spring is the workhorse of the Hellwig Spring line. With the Progressive design the vehicle must be loaded and its spring compressed to activate the Hellwig Spring, therefore as the vehicles load increases the Hellwig Helper Spring progressively increases its resistance to the load. In the Full-time design the Hellwig Spring immediately reacts to the vehicles load, therefore compressing very little as load is applied to the vehicle. These units increase your vehicles level load carrying capacity up to the manufacturer's Gross Vehicle Weight Rating. Designed to install on full size pickup trucks, this unit fits vehicles with leaf spring widths of 2.5". These units come complete with plated and powder coated components. Simple bolt on design using common hand tools provide the installer ease of installation. The LP 25 is rated at 2500 lbs level load carrying capacity and the LP 35 is rated at 3500 lbs level load carrying capacity.

Important: *Mounting hardware sold separately. These springs are made to increase the "level load" carrying capacity of your vehicle. Never load the vehicle these units are installed on beyond the manufacturer's maximum gross vehicle weight rating.*

Note: **Will not fit with rear air conditioning. **1973-98 trucks with 7 leaves use mount set 25400. Shipped overweight.*

1963-01 Medium Load Levelers

Medium load levelers for 1963-01 1/2 ton pickup with leaf springs and 1969-01 full size 1/2 ton Blazer/Jimmy and Suburban equipped with leaf springs and without rear AC. Our value line-up of Hellwig Helper Springs are complete with heavy duty powder coated and plated components, hardware and installation instructions. These sets are designed for the vehicle that needs lighter assist in carrying the load. Simple bolt on design provides the ease of installation. Ideally suited for light towing and loads, these units are fully adjustable Once installed and adjusted you are free to haul and or tow a multitude of equipment and commodities with greater control and stability. These units can increase your vehicles level load carrying capacity up to the manufacturer's Gross Vehicle Weight Rating.

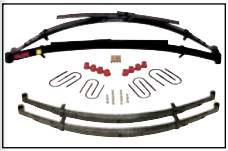

Note: *These springs are made to increase the "level load" carrying capacity of your vehicle. Never load the vehicle these units are installed on beyond the manufacturer's maximum gross vehicle weight rating.*

Suspension Systems with No Bounce, No Rattle and No Alignment Problems!

Suspension Systems

Stainless Steel Braided Brake Line

When performing a lift, this is one of those "must have" items that people often forget or overlook. Ours are the most rugged in the industry... stainless steel braided with heavy-duty fittings designed to match your vehicle. They also feature an outer extruded polyurethane coating to keep them from chafing. They don't just meet the specifications... they ARE the specification! Here we've assembled an easy to follow guide to help you choose the correct line for your vehicle and lift height.

1968-69 Pickup 4WD 1/2, 3/4 and 1 Ton

RBL88	4-6" lift	rear brake line	59.99 ea

Skyjacker Steering Stabilizers Reduce Driver Fatigue!

A steering stabilizer is a dampening shock for your steering system. It dampens out the harshness of the highway or trail. A good steering damper is an absolute must to reduce the shimmy often associated with running larger tires and wheels on a lifted vehicle. Stabilizers also reduce driver fatigue by reducing the amount of strength it takes to guide those larger tires and wheels on and off the road. Changing from a weak stock stabilizer unit to an upgraded Skyjacker unit will be an inexpensive and worthy investment. Put control back in the driver's hands with Skyjacker! We've assembled an assortment of sets to convert your vehicle and added replacement cylinders so you can keep your stabilizer set in top operating condition.

1999-03 Lateral Strut Bars

Lateral Strut Bars show off your off-road readiness in a big way! They provide additional heavy duty support for the rear lower crossmember. If you want to up stage the others, these are a "must-have" item.

Note: These lateral strut bars are designed strictly for use with Skyjacker suspension lifts.

dual-shock brackets for early model trucks (shocks not included)

multi-shock brackets for late model trucks (shocks not included)

1967-91 Multi-Shock Brackets

Dual-shock bracket sets feature plate bracket mounting for early models and a multi-shock tubular mounting design for late models. Installation requires no welding. Reduces individual shock temperature which reduces fade. Also reduces body roll and improves handling. *Note: Shocks are not included with the set and must be purchased separately.*

Nitrogen Gas Eliminates Fade Due to Aeration and Foaming!

Skyjacker Nitro 8000 Nitrogen Gas filled shocks provide more consistent response to a variety of road conditions! You'll enjoy better handling and a more comfortable ride at all speeds both off-road and on the highway. Featuring 150 psi pressurized nitrogen gas, multi velocity sensitive valving, twin tube construction, oversized piston head, 14mm piston rod and red polyurethane all weather boots and bushings, these durable, long lasting shocks are backed by a manufacturer's limited lifetime warranty!

Additional Items Needed for Your Skyjacker Lift!

When you want to go "all out", you'll want to add a few upgrades and options to your Skyjacker lift. In this section, we've compiled an assortment of what we feel would be the most useful additions to your new lift. Take your ride to a new level of performance while adding a look that every truck owner will envy!
*Note: *Must be equipped with 3 bolt steering knuckle.*

KYB® Performance Shocks

GAS SHOCKS

KG5409

KG5415

Gas-a-Just

Gas-a-Just Shock

KYB's Gas-a-Just shocks are designed to deliver maximum driving performance and control. Gas-a-Just's higher gas pressure keeps tires glued to the road while its high strength, monotube configuration provides extra rugged durability and fade-free performance. For a high-performance ride purchase a set of Gas-a-Just Shocks.

Performance Shocks

1963-05 Bilstein Shock

Bilstein's shock bodies are precision formed through a unique seamless extrusion process, which provides superior strength and with high finish tolerances. The finished body is then mated with a solid induction hardened steel, chrome plated and polished shaft, machined valving components and the highest quality seals. With such extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. With Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again.

D445	1955-59	2nd series		359.99 pr

1947-59 Rear Lowering Leaf Springs

Lowering leaf springs for 1947-59 models. Lowering springs allow for a 3" drop with an excellent ride and improved handling. 1947-55 1st are available with either a center bolt location for use with a stock torque tube driveline or where there is a modified newer axle that works with original leaf springs. The other is a 3" off-set center bolt towards the rear for use with later model open drivelines to center the rear axle in the fenders.

Note: Shipped double oversize.

MOSER ENGINEERING
The Leader In Performance Rear End Components

Made in USA

Moser Performance Differential Cover

Strengthen your rear with a Moser Performance Differential Cover. Available for 12 bolt Chevrolet rear ends. These covers are made of 356-T6 aluminum and designed to improve ring and pinion gear life as well as improve the appearance of your vehicle. They greatly reduce the amount of ring gear deflection and therefore, your gears last longer. The cover weighs only 6 lbs and includes all bolts, washers, and gaskets required for a complete installation. Made in USA.

New!

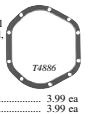

B&M Aluminum Differential Cover

B&M cast aluminum rear end cover was designed to strengthen the rear end by preventing case distortion. Constructed of A356.0-T6 aluminum, this rugged unit also dissipates heat much faster than the stock factory unit to prolong the life of your ring and pinion gears. Additional features include an engraved B&M logo, added fluid capacity for better cooling, magnetic drain plug for catching ferrous metal particles, and complete hardware.

Rear End Components

Differential Cover FilterMag

FilterMag's powerful rare earth magnets trap and hold metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to the cover, are reusable and will reduce maintenance costs by extending the life of your oil. Curved FilterMag's are available for engine oil filters, and a flat style is available for transmission pans. The super strong FilterMag will keep metal particles from harming your differential. Install when replacing the rear end gasket.

Note: Mounts to inside of differential cover.

Rear Axle Flange U-Bolt Kit

Replace faulty axle U-bolts with original mounting bolts. 1-13/32" center to center stud. 5/16"-18 thread. 4 U-bolts included.

R6046 ..... 10.99 kit

1947-55 U-Joint Bolt Set

Hardware for U-joint mounting on 1947-55 1st series models.

J1155 1947-55 1st series ..... 2.99 set

J1157

1947-54 U-Joint Ball Gasket and Seal

Reproduction U-joint ball gasket and seal for 1947-54 models.

J1156 1947-53 pickups ..... 19.99 set
J1157 1947-54 GMC 1/2 ton long bed 30.99 set

Moser C-Clip Eliminators

MOSER ENGINEERING The Leader in Performance Rear End Components

Made in USA

Our improved C-clip Eliminators eliminates the factory C-clip axle retention and provides a safety hub with sealed, press-on bearings. Extra internal seal to helps prevent leakage. The C-clip Eliminators are available for Moser factory type axles with a 1.533" bearing seat. Sold in pairs. Made in USA.

10 Bolt and 12 Bolt Chevrolet Axle Housing

M12153 1.533" bearing seat..... 164.99 pr

Rear Axle/Transmission Ventilator

OER® reproduction of the ventilator used by GM on a multitude of applications from the 1950's thru todays cars and trucks including the rear axle housing, automatic transmissions, front transfer case on 4 x 4 models as well as fuel tank evaporator cannisters. Any application that has a 3/8" hole for a ventilator.

ECTED Max™ Advantages

- Made from 9310 heat treated billet steel for extreme durability
- Can switch from limited slip mode to locker mode "on the fly," at any speed.
- Switches to locker mod without lining up any shift forks or pins.
- Operates quietly – say good-bye to noisy lockers!
- Backed by Auburn's industry leading one-year warranty.
- Backed by the industry-exclusive D-REX = Differential – Replacement Exchange Program.

Auburn Gear Ected Max

New!

545003

ECTED: ***E****lectronically* ***C****ontrolled* ***T****raction* ***E****nhancing* ***D****ifferential* (*Pronounced* "ek-ted") The ECTED Max is a revolutionary traction-technology product that switches between limited slip and locker mode on the fly. When "off", the ECTED Max functions as a performance limited slip differential. When "on", current is sent to an electromagnetic coil on a non-rotational bearing cap bolts, pulling a pilot cone into engagement with the differential case, ultimately compressing the clutch pack and creating locker solid axle assembly. ECTED gives you the advantage at the drag strip, on twisty tracks, or off-road, all in one package.

AuburnGear

*Important: *Uses different bearings: 1989-98 uses *A8500375; 1999-up uses *A8500374. Bearing kits include 1 cone and 1 cup. 2 required per vehicle.*

Note: The ECTED Max is not recommended for use in front axles that feature an "Inter-Axle Disconnect".

GM

1964-75 Rear Axle Lubrication I.D. Tag

Original i.d. tag installed on rear axles with positraction indicating the correct lubrication requirement. Original for 1964-67 twelve bolt rear end covers and 1964-75 ten bolt rear end covers.

G7125 1964-75 ..... 6.99 ea

ROYAL PURPLE

Royal Purple® Max-Gear Oil

Max-Gear is an ultra tough automotive gear oil. It makes gears run smoother, quieter, cooler and longer without overhauls. Max-Gear is recommended for use in front or rear differentials and manual transmissions that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

Goodwrench Rear Axle Lubricant Additive

GM's special additive for use with positraction or limited slip rear ends. Reduces friction and noise in the rear axle. Keeps metal surfaces free from sludge and varnish. Protects seals from carbon deposits.

G7103 4 oz. bottle ..... 11.99 ea

Joe Gibbs Synthetic Gear Oil

Used by Joe Gibbs Racing in every rear end differential and transmission gear box. This fully synthetic, unique SAE 75W-110 gear oil reduces operating temperatures by up to 15 degrees compared to other gear oil brands. Protect your investment with quality lubricants from joe Gibbs! Available by the quart, as a case of 12 quarts or a 5 gallon pail, your choice.

Performance Differentials

1963-00 Lock Right Locking Differential

These positive locking differentials are a breakthrough in differential technology, delivering the most traction possible while still providing full differential operation! The Lock Right system features a revolutionary design that is exceptionally rugged and yet ingeniously simple! Just replace the existing spider gears with a pair of Lock Right driver and coupler gears in your existing stock open differential. Lock Right installs in 1-2 hours, and best of all, Lock Right doesn't require extra modification or set-up since the ring and pinion gears are unaffected. Best of all, no special tools, calibration equipment or fixtures are needed! Designed for fail safe operation and manufactured from high strength, ultra resilient, heat tempered steel alloys for maximum toughness. Prevents wheel "spin-up", and delivers traction that puts the power down with greater efficiency. Best suited for extreme off-road to severe on-road use. Give your classic Truck or SUV the extra performance edge you deserve at a price that can't be beat!

Important: It is very important that you verify that your cross shaft has been properly hardened, prior to installation. Simply take a file and attempt to scratch a cut or groove near the center of the shaft. If you have a properly hardened cross shaft, you will not be able to scratch it.

Note: Not for use with Positraction or Limited-Slip differentials. Use in stock, open differentials only.

1971-98 High-Performance Limited-Slip Differential

Auburn Gear's High-Performance Series limited slip differentials outperform standard OEM differentials hands down. They deliver more traction and faster engagement for controlled power transfer and lightning fast reaction to changing load conditions. No matter what your application, the Auburn Gear limited slip differential is engineered to provide smooth torque sensing operation with bias ratios to meet your performance needs. This superior performance is achieved through an innovative cone clutch design which transfers more power to the high traction wheel for quick acceleration and tight cornering. These units are also compatible with ABS and electronic controls.

Ring & Pinion Master Sets

INCLUDED IN RING AND PINION MASTER KITS:

Replace your worn out or broken ring and pinion gears with new components from Motive Gear®. Master sets include: ring and pinion gears, pinion bearings, seal, crush sleeve and nut, carrier bearings, shim kit, ring gear bolts, gear marking compound and cover gasket or sealant. All parts shown are included in ring and pinion master sets.

Note: Classic Industries® strongly recommends professional installation. All ring and pinion sets are nonreturnable, with no warranty expressed or implied. Check your axle i.d. carefully.

1963-91 Rear Axle Repair Bearing

Replacement rear axle repair bearings for 1963-91 GM truck, Suburban, Blazer and Jimmy models. This axle repair bearing is a sealed, self-contained, prelubed unit, ideal for when damage has occurred to the axle shaft from a worn out bearing, this bearing is engineered to relocate the load area of the bearing from the damaged section of the axle to just outboard of the damage.

Note: 2 required per vehicle. This should be considered a temporary fix until you can replace the damaged axle.

High Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high quality, high temperature bearing grease. This is a very stable aluminized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. Also pickup the perfect tool for the mechanic who is tired of packing bearings by hand. This universal bearing packer works on most cone type bearings.

Bearing Race and Seal Driver

When it comes time to install bearing races and seals, you'll find this tool to be an excellent time saver. Each bearing race and seal driver set includes various size adapters to install most bearing races or seals.

Y12600			41.99 set

Seal Puller

This tool is great for pulling oil or grease seals. Especially useful for pulling seals from hard to reach areas.

Y56750	seal puller		11.99 ea

Disc Brake Conversion Sets

An early GM truck has everything an enthusiast could desire. Style, utility and power, but they sometimes lack one of the most important features wanted...

The Ability to STOP!

Two Different Rotor Finishes are Available:

Turbo Slotted and Xtra Life Plated
The slots provide a space for heat and gas to escape, thus improving braking performance. The slots also clean the pads, removing any debris that might have accumulated. Xtra Life plating adds protective finish layers to the entire surface of the rotor, helping prevent the areas where the pads do not come into contact with the rotor from rusting and corroding.

Big Bite Cross Drilled, Turbo Slotted and Xtra Life Plated
The drilling, like the slots venting, help cool the rotors.

1947-Up Mustang II Front Disc Brake Conversion Set

This disc brake conversion set makes a swap using a Mustang II front end on your 1947 and up pickup a simple bolt-on process using a 5 on 4-3/4" wheel bolt pattern so you can use your choice of many factory GM wheels. Set includes: calipers and brake pads, mounting brackets, hardware, rotors, wheel bearings and seals, spindle nuts and caps. Due to the broad range of vehicles this conversion set applies to, flex hoses and hose to caliper bolts are not included. Caliper inlet thread is 10mm-1.5. Minimum wheel diameter is 14" except for A14829, A14834 and the A14836 where the minimum wheel diameter is 17".

Note: Mustang II front end not included. Shipped overweight.

1963-70 1/2 Ton 2WD Standard Front Drum to Disc Brake Conversion Sets

SSBC PERFORMANCE BRAKE SYSTEMS

As everyone knows, an early model truck will run fine in the city or on the highway, but stopping is another matter. Classic Industries® now offers a solution to this age old problem. These sets include all the components you will need to convert your 1963-70, 1/2 ton, 2 wheel drive standard front drum brakes to a more efficient disc brake set-up. These conversion sets are manufactured to allow any truck owner to convert from drum brakes to disc brakes without employing the help of a professional installer. Our comprehensive conversion set utilizes quality parts for guaranteed fit and safety. Standard conversion sets include cast iron calipers with 75mm pistons. Drop spindle sets feature cast iron calipers with 80mm pistons.

Important: Must be used with minimum 15" x 7" wheels. Designed for stock suspension only. Can not be used with stock wheels.

Note: Shipped overweight.

Disc Brake Conversion Sets

1963-70 1/2 Ton 2WD Front Disc Conversion

These sets feature SuperTwin TK 2 piston aluminum caliper with 54mm stainless pistons, high-performance pads, master cylinder and OE style booster, 11.5" Turbo slotted rotors with Xtra Life plating and installation hardware. The calipers come with a clear anodized finish, or an optional powder coated or polished finish. All sets require 16" or larger wheels. These sets bolt-up to the standard drum brake spindles for a 6 x 5.5" bolt pattern.

Important: *Will work on trucks equipped with a bail type master cylinder cap retainer only. Will not work on trucks equipped with a bolt-on master cylinder cap. Designed for stock suspension only.*

Note: *Shipped overweight.*

1973-91 1/2 Ton Big Brake Front Upgrade Sets

Most GM trucks can use more stopping power. Classic Industries® now offers a solution to this age old problem. These sets include all the components you will need to upgrade your GM truck's standard 74mm single piston caliper to a more powerful 80mm version. These upgrade sets are manufactured to allow a 1/2 ton 2WD truck owner to upgrade the original disc brakes without employing the help of a professional installer. Our comprehensive sets utilize quality parts for guaranteed fit and safety. All the necessary components you will need are included: larger bore calipers, thicker than stock Turbo slotted rotors, and all necessary hardware. Sets bolt-on to stock spindles on vehicles with OE Heavy-duty brakes, spindles are included for vehicles with OE Standard brakes. Some sets are available with 2" drop spindles.

Important: *Upgrade sets for 2WD models with standard duty spindles include heavy-duty spindles. Must be used with minimum 15" x 7" wheels. Can not be used with stock wheels.*

Note: *Shipped overweight.*

Disc Brake Conversion Sets

11" Rotors and Factory Style Cast Iron Calipers

BK2015

1947-59 Five Lug Front Disc Brake Conversion Set

The 5 lug disc brake set swaps the factory 6 lug drums to the GM 5 on 4-3/4" bolt pattern. This set bolts on the stock spindle, replacing the original hub. Set includes: 11" rotors, loaded calipers, caliper mount brackets, bearings, hoses, mounting hardware and booster.

Important: 1947-50 Trucks may require drilling lower spindle hole from 7/16" to 1/2". Original manual transmission may require modifications to transmission crossmember.

Note: Shipped overweight.

BK2015	1947-54	5 lug	699.99 set
BK2016	1955-59	5 lug	699.99 set

12" Rotors and Factory Style Cast Iron Calipers

BK2018

1947-59 Six Lug Front Disc Brake Conversion Set

The 6 lug disc brake set contains all you'll need to add modern discs to your 1/2 ton spindles using your stock hubs. These 1-1/4" thick, 12" rotors use a GM full floating caliper. The booster assembly mounts in the stock location and uses the original brake pedal.

Important: Recommended to use roller bearing upgrade. Requires a minimum of a 15" wheel. May not work with some factory wheels. 1947-50 trucks may require drilling lower spindle holes from 7/16" to 1/2". Original manual transmission models may require modifications to transmission crossmember.

Note: Shipped overweight.

All-In-One, New Units for Disc/Drum or Disc/Disc Applications

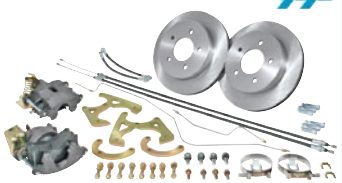

PB838

1947-72 Booster/Master/Prop Valve Combo

The booster combo is complete with bracket, booster, master cylinder and proportion valve for either disc/drum or disc/disc. 1947-59 units mount on the frame and utilize the factory frame mount position and factory brake pedal. 1960-72 mount to the fire wall and utilize the factory brake pedal. Some drilling may be required.

Electronic Disc Brake Conversion Sets

Remote Electric Hydraulic Pump Provides Power

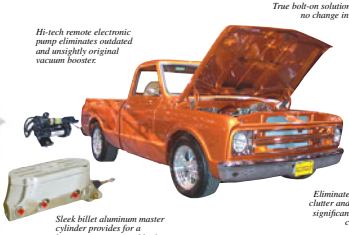

Eliminates the Bulky Original Booster
Gain valuable clearance in the firewall area by doing away with the unsightly, inefficient vacuum power booster. Sleek billet aluminum master cylinder takes it's place for a better appearance and performance.

Increases Braking Pressure and Performance
This electronic system consistently provides 1400-2500 psi of braking pressure at the wheel, is self-contained and runs on brake fluid. Perfect upgrade for engines with low vacuum due to performance cam.

True Bolt-on – Requires No Vacuum
Replaces your OEM brake master cylinder as a direct bolt on (no drilling required). Adjustable pedal rod to allow for correct pedal height.

True bolt-on solution requires no change in spindles.

Hi-tech remote electronic pump eliminates outdated and unsightly original vacuum booster.

Eliminates firewall clutter and provides significant gains in clearance.

Sleek billet aluminum master cylinder provides for a better appearance and high performance braking.

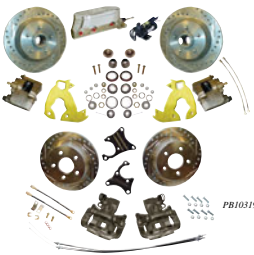

Electric High Power Master Cylinder

Is the big cam in your classic truck causing a lack of braking power, or do you have valve cover clearance issues? Classic Industries® has the answer! The most innovative system on the market today, this bolt-on solution replaces your OEM brake booster/master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist. Complete with a remotely mounted power supply, this fully self-contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures 9" long and 3.5" wide.

PB10569	all	1349.99	set

PB10319

1960-70 Electronic Front and Rear Disc Brake Systems

Looking for a big brake upgrade for your 1960-70 Chevy or GMC Truck? Classic Industries® has the answer. These solutions from ABS Power Brake are true bolt-ons and mount to your OEM brake spindles (require 16" or larger wheels). The complete system includes all necessary brackets and an ABS Power Brake Electric High Power Master cylinder (an EHPM offers trucks with big cams added braking capacity and additional valve cover clearance).

Note: Shipped double oversize.

Truck Disc Brake Conversion Sets

1947-70 True Bolt-on Disc Brake Conversion Sets

No Need for Front End Alignment
True bolt-on front disc brake conversion set eliminates the need for front end alignment due to spindle change.

Easier and Quicker to Install
Because these sets bolt-on your existing OEM spindles, installation time is greatly reduced.

PB10213B

1947-70 Front Disc Brake System with Booster

This is a true bolt-on solution from ABS Power Brake – bolts to your OEM spindles. Included with the system are: all brackets needed, a new 8" Dual Power Brake Booster Combo, master cylinder and proportioning valve so you can select the correct combination (disc/drum or disc/disc). Available with 12" or 13" plain or cross drilled/slotted rotors.
*Important: *PB10413, PB10414 and PB10415 require 16" or larger wheels.*

Power Brake Boosters

1963-02 Power Brake Booster

Having trouble with your power brakes? You may need to replace your power brake booster. To determine if your booster is bad, first check for sufficient vacuum supply. For proper operation, your vacuum level must be at least 18 in. Hg and a strong vacuum draw must be available. Low vacuum levels may be caused by loose or defective engine components. Check your intake manifold fittings and vacuum lines. Make sure they are not clogged, blocked or deteriorated. Check for gas odor or moisture. Gas fumes can enter the booster through the vacuum line causing the internal rubber parts to deteriorate. Gasoline fumes can lead to booster failure and will void the warranty of the unit. Check your PCV system and repair system as necessary. Also check your fuel system for rich operation and carefully match the original and replacement unit rod lengths. Our remanufactured brake boosters carry a manufacturer's limited lifetime warranty.

Important: The listings below are for the power brake booster only and do not include the master cylinder assembly (sold separately). Boosters are not currently available in original OEM color.

*Note: *Dual rear wheels. **Without dual rear wheels. †Second design.*

1960-03 Manual Brake Master Cylinder

The most important part of your brake system besides the brake pads or shoes is the master cylinder. Rebuilding your original could cause unforeseen problems. We did the hard work for you! Replace your worn out original with these remanufactured master cylinders. Available for manual or power, disc brake systems for all GM truck models. No exchange required.

Master Cylinder Parts

1960-95 Master Cylinder Repair Sets

Is your master cylinder leaking or is the seal on the piston worn out and causing loss of brake pressure? If so, then here's an inexpensive alternative to replacing the entire master cylinder. These master cylinder repair sets contain everything you need to rebuild your inoperative master cylinder back to like new condition.

1/2 Ton C-Series Pickup			
MK253	1960-62	1-1/8" bore, without power	20.99 set

Made in USA

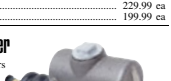

Remote Fluid Reservoir

These attractively designed fluid reservoirs blend well with traditional or contemporary engine compartments. Fluid lines can be run out of the back or bottom of reservoirs via 1/8" NPT holes (plugs included for unused holes). Expertly machined in the USA from premium aluminum materials. Available in polished or satin finishes.

Master Cylinder Parts

Low Pressure Hydraulic Brake Switch

This unit requires 20-50 pounds pressure, instead of stock units that need 60-120 pounds pressure to engage. Standard 1/8" pipe thread (9/16"-18). This switch is D.O.T. compliant which features silicone fluid compatibility.

Wilwood Disc Brake Master Cylinder

New!

2613626P

This dual master cylinder and proportioning valve assembly keep brake adjustments uncomplicated. Designed for manual and power front disc/rear drum and four wheel disc brake applications. Available in natural finish, bright finish or Wilwood's exclusive black E-coat.

Important: DOT 3 or 4 brake fluid recommended. Not for use with DOT 5 silicone fluid.

Wilwood DOT 5 Silicone Brake Fluid

Wilwood FIVE is a highly refined, high-performance silicone brake fluid formulated to preserve the looks and reliability of classic vehicles and show cars. Its non-hygroscopic blend blocks the absorption of moisture from the air, preventing internal brake system corrosion. FIVE is paint friendly and will not harm custom paints and finishes should a spill or leak occur. Provides superior lubrication for all brake system wear surfaces with long life from the master cylinder and caliper pistons, bores, and seals. It is a fully DOT 5 compliant fluid meeting or exceeding FMVSS 116 and MIL-PRF-46176B-DOT specifications, and can be used in any vehicle that requires DOT 5 brake fluid.

1967-74 Brake Combination Valves

If you need a new disc brake metering valve or want the more updated look of a brake combination valve in your 1967-72 truck, or need a replacement for a 1973-74, these carefully machined reproduction brass combination valves are the perfect replacement solution. Will fit and function for all 1967-74 models with either factory disc/drum, disc/drum or disc/disc brake conversions. Available as a valve only or as a set including: valve, bracket and hardware or as a set including: valve, bracket, hardware and lines.

Adjustable Proportioning Valve

When balancing brake pressure between the front and rear brakes don't guess about your vehicles brake balance. With this adjustable proportioning valve, you'll remove any guessing from your brake bias adjustment. With the simple single adjustment knob you will be able to get your braking balanced perfectly. If you ever tow trailers or other equipment you can even make any needed adjustments "on the fly" to compensate for different weight distribution. Don't bet on a guess, get it right the first time! Shown with available pressure gauge.

A0707	adj. proportioning valve	49.99 ea

SSBC Proportioning Valve

Adjustable proportioning valve and distribution block. Distribution block connects to the master cylinder and distributes brake fluid to all four wheels. Adjustable proportioning valve regulates rear brake pressure, helping to maintain correct brake bias between front and rear brakes. Built-in switch will activate tail lights when brake pedal is depressed.

A0730	black anodized finish	84.99 ea
A0730P	polished finish	119.99 ea

Adjustable Proportioning Valve

Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new smaller body accommodates easy mounting in a variety of locations in conjunction with two .25" diameter holes on 1.00" centers. Along with standard 1/8" NPT inlet and outlet ports and two 1/8" NPT to 3/8-24 Inverted Flare brake line adapters included with each valve makes installation simple.

2608419		41.99 ea

Combination Valve Bleed Tool

Combination and proportioning valve bleed tool designed to replace the warning light switch (white plug) on the proportioning valve during the brake bleeding process. After the bleeding is finished, simply remove the tool and reinstall the warning light switch. This item makes bleeding your brake system much easier. Works with all popular non adjustable GM style combination valves, including the proportioning valves used on disc brake conversions. Tool is designed to lock the low pressure shut valve to allow fast and easy brake system bleeding. No need to constantly remove low pressure switch and center the low pressure valve during the brake bleeding process!

P19842		8.99 ea

26013783

Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums.

2 Pound Valve – Blue

26013783	with fittings	19.99 ea

10 Pound Valve – Red

26013784	with fittings	19.99 ea

Brake And Parts Cleaner

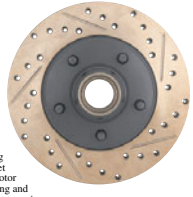

This powerful Brake And Parts Cleaner quickly cuts through grease and grime, but it does not leave an oily film. This fast drying formula gets the job done while using less spray compared to watered down cleaners. Non-chlorinated.

Disc Brake Rotors

1971-00 Sport Tech Sport Rotor

STOPTECH SPORT ROTORS

Drilled/Rotors

Performance wheels and tires are best complemented with StopTech Sport direct replacement drilled/slotted rotors. Designed to resist cracking under stress, prevent glazing of the pads, add bite, and improve wet and dry braking performance. Each rotor is produced from a high-quality casting and finished in a durable corrosion resistant coating.

1971-91 Front Disc Brake Backing Plates

Original GM or reproduction front disc brake backing plates for 1971-86 C/K models and 1987-91 R/V models. These backing plates will help to keep road debris away from your truck's calipers and rotors.

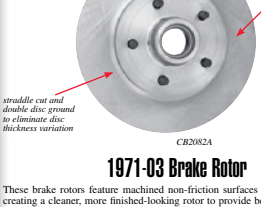

Original GM Disc Brake Backing Plates

G1429	1971-91	LH	1/2 ton 2WD	59.99 ea

Reproduction Disc Brake Backing Plates

K473	1971-91		1/2 ton 2WD	69.99 pr

Disc Brake Rotors

CB2082A

1971-03 Brake Rotor

These brake rotors feature machined non-friction surfaces for better balancing, creating a cleaner, more finished-looking rotor to provide better stopping power, especially in repeated stopping situations. Each rotor is straddle cut and features a double disc ground finish to virtually eliminate run out disc thickness variation. This also produces a non-directional finish for better pad and rotor break-in.

1971-00 Sport Tech Sport Rotors Slotted

Cryo StopTech Sport Slot rotors are given a cryogenic treatment. Deep cryogenic treatment is a one-time process that permanently improves the performance and service life of metal components. Sport Slot Rotors feature a signature "short slot" design, which improves performance by wiping away the debris of used friction material that otherwise accumulates between the rotor and pad. This keeps fresh pad material exposed to the rotor surface and helps prevent pad glazing. By providing an escape path for water, slotted rotors can also improve initial brake response under wet conditions.

Note: CB2086CDL and CB2086CDR are Cryo Drilled/Slotted rotors. Special order.

New!

1981-87 Front Caliper Kit

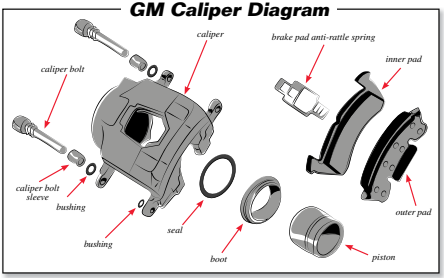

Wilwood's D52 Front Caliper Kit is a direct bolt-on 2 piston replacement for the factory original single calipers on 1981-87 C10/R10 truck models. Forged billet aluminum bodies, stainless steel pistons, and competition style high temperature seals put an end to the rust, bore pitting, and seal failures that plague the OE caliper design. Vehicles 1978 and up (with M10-1.5 banjo bolts) will require new brake lines.

Note: For use on vehicles with 1.04"wide (thick) x maximum 12.19" diameter rotors. Requires flex hose set 220/1571.

Brake Caliper Parts

GM Caliper Diagram

1971-02 Disc Brake Caliper Rebuild Sets

CB2567

These brake caliper rebuild sets include everything you need to get your calipers working after the seals have gone bad. Each rebuild set includes all seals necessary to make your calipers functional. Seals only, no pistons. One rebuild set will repair one caliper. Two sets required per axle for a complete replacement. Remember to service both the left and right brakes as a pair to ensure safe, consistent braking.

DPS85032

1971-02 Steel Brake Caliper Piston

Rebuilding your disc brake calipers? Don't forget to replace the pistons! Moisture is drawn in as brake system cools, causing hidden problems that can only be eliminated with a complete caliper rebuild. For this reason, we recommend replacing the piston along with rubber parts when doing a caliper rebuild.

*Note: *Models with dual rear wheels. **10,000 lb, 11,000 lb GVWR. †15,000 lb GVWR.*

Wilwood Parking Brake Cable

These cables will complete the installation of your Wilwood parking brake set. These cable sets are compatible with all of Wilwood's internal drum parking brake sets including the Dynalite and Superlite kits. This cable will connect Wilwood's parking brake mechanism to your vehicle's OE equalizer assembly. The cables are simple to install and adjust and the cable housing's black finish disappears under the car for a clean looking undercarriage.

Made in USA

E-STOPP® Push Button Parking Brake

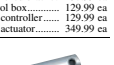

The E-Stopp® is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal or lever brake and mounts conveniently under the vehicle's carriage. The E-Stopp® attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system – it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Made in USA.

Recommendation: *If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation an easier and cleaner.*

Disc Brake Pads

- Outstanding Wear Characteristics
- Lowest Amount of Brake Pad Dust
- Stable Friction Performance Across Wide Temperature Range
- Hardware Included Where Applicable
- Copper-Free Friction Formulas
- Pre-Scorched to Accelerate Break-in

1971-01 Posi Quiet Disc Brake Pads

Posi Quiet brake pads from Centric are manufactured using the same methods as Original Equipment suppliers to assure consistent friction material density throughout the pad. This results in even wear and performance throughout the life of the brake pad. They are scorched to remove impurities in the friction compound and prepare the brake pad to bite right out of the box without an initial green fade cycle. Available in three specialized formulas suited for different applications and styles. Available exclusively in semi-metallic.
*Note: *With dual rear wheels. †15,000 lb GVW. ††Under 15,000 lb GVW.*

Wheel Cylinders

1947-02 Drum Brake Wheel Cylinder

WC37080

These wheel cylinders match the design of your vehicle's original equipment. They are built for long service life and feature the highest quality components for superior resistance to heat, corrosion and leakage. These wheel cylinders deliver consistent, safe and reliable performance, designed to fit exact applications and function as well as your original brakes.

Brake Drums/Hoses

FH117

1947-98 Reproduction Hydraulic Brake Flex Hose

All hoses are produced with the original style fittings and are plated in the correct gold cadmium finish. These reproduction hoses are extra durable and are produced using D.O.T. approved brake fluid resistant ribbed hose.

1976-03 Professional Brake Hardware Sets

Don't struggle with worn out or missing brake hardware during your next brake job. Instead, use the brake hardware sets the pros recommend! Forget about trying to remember every little piece you may need to rebuild your brakes. There are simply too many pieces to try to remember and buying the components individually can be an expensive proposition. These sets are a great value containing practically everything you will need to perform your brake job in a professional manner. Just get this set and all the hardware is there for you when you need it. Completely replace worn out or missing springs, pins, adjusters and hardware and bring your brakes back to proper working condition. Professional quality sets contain everything needed to do one complete axle, LH and RH sides.

Front Brake Hoses

BH38065 BH36761

1960-01 Hydraulic Front Brake Hose

These high-quality replacement brake flex hoses are just what you need to complete your brake system rebuild! All hoses are produced with original style fittings and plated with either a silver finish or gold cadmium finish. These hoses are extra durable and produced using D.O.T. approved brake fluid resistant ribbed hoses. Includes the correct flex hose clip attached.

*Note: *8600-9200 lb GVW; **10,000-12,000 lb GVW; ***15,000 lb GVW.*

BSA13

Armor Spring Brake Line Shield

Correct shielding used on original brake lines for OEM restorers who want exact originality. Includes enough footage to allow you to replace or install shields on your original or replacement brake lines.

BSA13	3/16" diameter, 10 feet	19.99	ea
BSA14	1/4" diameter, 10 feet	19.99	ea

Brake Pipe Clip

Service replacement style clip required to connect hydraulic brake tube. Differs slightly in appearance from the original but will fit and function correctly.

BC110	5/16" x 3/4"	1.99	ea

1973-98 Brake Line Brackets

Universal brackets and clips to mount rubber, nylon or stainless steel lines to the suspension or frame. Bolt-on or weld-on for easy installation.

393737	1973-98	19.99	set

Rear Brake Hoses

1960-01 Hydraulic Rear Brake Hose

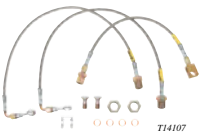

BH36542

These high-quality replacement brake flex hoses are just what you need to complete your brake system rebuild! All hoses are produced with original style fittings and plated with either a silver finish or gold cadmium finish. These hoses are extra durable and produced using D.O.T. approved brake fluid resistant ribbed hoses. Includes the correct flex hose clip attached.

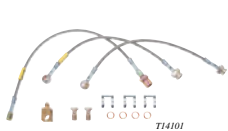

*Note: *8600-.200 lb GVW; **10,000-12,000 lb GVW; ***15,000 lb GVW.*

1981-03 Stainless Steel Brake Line Sets

Increased stopping power, better pedal feel, and improved safety are some of the qualities you can expect with stainless steel brake lines. Eliminate "mushy brake" feel caused by rubber lines that swell under pedal pressure. These quality brake lines are subjected to a 9 step quality assurance testing process including pressure testing each line up to 3000 psi. All lines are D.O.T. certified and T.U.V. (Germany) approved. All sets include 3 lines.

*Note: *Except High Rider package.*

Steel Brake Line Sets

1947-00 Steel Brake Line Sets

Classic Industries® offers the highest quality reproduction brake lines for your early model GM truck. They are available in OEM material for a stock look or stainless steel material which offers a longer life span and custom look! For the 1947-66 models Classic Industries® offers complete brake line sets which include a set of pre-bent front brake lines, front to rear brake lines, and rear axle brake lines. For 1967-00 models Classic Industries® offers these individual brake line sets separately. All brake lines are CNC precision bent and feature machine double flared ends for an exact, no leak fit. We keep a large inventory on hand for quick delivery!

Note: Shipped double oversize.

Notchead Metal Line Clamps

New!

This new line fastening system will keep your metal lines secure and look great while doing it! Once fastened down with the included hardware, your lines will snap in and out of these clamps for a clean and simple installation. Available in 6 piece sets or in a 56 piece shop assortment. Clamps are made from high strength copolymer acetal plastic and are heat resistant to 180 degrees F.

installed

Brake Tools

Speed and COMFORT for a Demanding Job!

Working in a kneeling position on concrete takes a toll on your body, especially your legs. knees, feet and back! This new tool approaches working on your knees in a whole new way. Instead of supporting yourself on your heels, the seat provides the support, while taking pressure off knees, ankles and toes. This leaves your feet free to control your movement. The caster wheels allow you to roll when you need to move instead of crawling, crouching and bouncing on your knees. The attached floating kneepads allow your knees to rest, eliminating the direct pressure that causes circulation problems pain and discomfort. Attached to the tool is a handy 7" x 15" removable tray which is great for holding tools, fasteners, small parts, etc. Weighing only 8 lbs, the tool is manufactured from 1/8" thick industrial strength aluminum. The comfortable webspring seat is covered with a soft leather-like cover and adjusts vertically 11.5" to 15.5" in height. It also adjusts 3" horizontally and tilts for your utmost comfort.

X99115 ..... 199.99 ea

Brake Cylinder Hone

Hones drum brake wheel cylinders and disc brake calipers from 13/16" to 2-3/4" in diameter. Sleeve makes insertion in cylinder easy and protects stones when not in use. Use with variable speed drill.

X265	3/8" hex	15.99 ea
X266	stone set for drum brakes (3)	4.99 set
X2004	stone set for disc brakes (3)	7.99 set

Disc Brake Hone

Special abrasive pads polish the cylinder without cutting. Controlled pressure, three abrasives, and flexible driver give good stability and speed. Stones are 1" long. Range 1-1/2" to 3-1/8".

Y10400	hone	17.99 ea
Y10490	set of replacement abrasives	6.99 set

Bendix Drum Brake Spring Tool

Removes and installs return springs on Bendix drum brakes. Place socket end over spring anchor and twist to remove. Hook notched end through spring and over the post, lift to install.

X280 ..... 8.99 ea

Brake Spring Pliers

This double ended tool is for removing and installing brake springs.

X298 ..... 20.99 ea

Brake Adjustment Tool

Speed up star wheel adjusting on drum brakes by simply inserting the tool through the slot in drum backing plate. A different angle at each end adapts to many various models.

Y50700	brake adjustment tool	5.99 ea

Disc Brake Pad Spreader

This unique tool makes changing disc brake pads easy. The tool compresses the disc brake piston for easy installation of pads.

Y24400 ..... 9.99 ea

Y25750

Speedy Brake Pad Spreader

The pistol grip ratcheting action and the fast acting plunger compress disc brake pistons in seconds. This makes brake pad replacement a snap.

Y24300	single piston pad spreader	49.99 ea
Y25750	dual piston pad spreader	57.99 ea

Brake Pressure Gauge

Measure your braking pressure right at the caliper where it is the most accurate. The gauge comes with the six most common fitting sizes to adapt this versatile gauge right to the threaded bleeder port of either your caliper or drum system. Get the correct brake balancing with the best tool for the job.

A1704 ..... 49.99 set

X2189

V025700

Tubing Bender

These tools make bends easy without the tube collapsing. Tube benders can be used for bending copper or steel tubing such as brake, fuel, transmission cooler or power steering lines. One hand bender for small lines or slight bends in larger lines. Two hand bender for easy bends in larger lines.

Bends 3/16", 1/4", 5/16" and 3/8" Lines

Double Flaring Tool Set

If your brake lines or fuel lines need to be flared, this is the right tool for you. This set allows the user to make single or double SAE flares to exact dimensions. Great item to keep in your tool box!'

Y31310	double flaring tool set	54.99 set

Brake Caliper/Brake Drum Paint System

Available in your choice of 11 colors, this ultra-protective 2 component paint system is the most complete brake caliper paint kit available anywhere! EZ brush-on application, high gloss finish, and the highest heat resistance on the market... withstands temperatures of up to 950 degrees F! Set includes two component paint system, brake caliper cleaner, brush and mixing stick. Seals and protects from oils and corrosion. Choose from red, yellow, blue, silver, black, purple, green, white, gold, orange or pink. Contains enough paint for 4 large calipers or 2 brake drums.

G22160BK	specify color	41.99 set

Universal Brake Caliper Bit Set

Nine sizes for brake caliper bolt applications. No more searching for the correct bit! This handy set will cover a multitude of applications.

Y29150		29.99 set

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y19200		11.99 set

Mityvac Brake Bleeder

The Mityvac Brake Bleeding Set may be used on virtually all hydraulic systems as well as most ABS systems. It's a rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use by the do-it-yourselfer, or step up to the heavy-duty metal bleeder designed for the professional mechanic.

OER® Factory Wheel Coating

OER® factory wheel coatings are available so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.
Note: Ships ground only. No air shipment.

Rocket "Booster" Wheel

Get ready to blast off with the Rocket Racing "Booster" wheels! This 1 piece wheel is purpose built to deliver classic inspired style and performance for the finest muscle cars, pro-touring and street machines at a reasonable price. Designed specifically for the offsets of hot rods and muscle cars, each booster is precision crafted from A356 aluminum and topped off with a vintage style aluminum o-ring center cap. Available with painted gray center and machined outer lip, in full chrome, in hypershot finish or with hyper silver center section and machined outer lip. Manufactured with cutting edge alloys, the strictest quality standards and a gorgeous classic design, the Booster is sure to get you into the stratosphere at the next car show.

Rocket "Igniter" Wheel

At the dawn of the hot rod age, a handful of innovative gear heads in hopped-up roadsters streaked across Southern California dry lakebeds in a quest for speed and glory. Those lakebeds eventually became test sites for top secret rocket planes that set long standing speed records. Now the style that started with those early hot rods has come full circle. The Rocket Igniter is precision-crafted from A356 aluminum and topped off with a vintage style aluminum o-ring center cap. The Igniters are available as cast, with a polished finish, or with a gray painted center with machined outer finish. The 5 window kidney bean Rocket Igniter hot rod wheel is perfect for your roadster, gasser, or street rod.

Rocket "Injector" Wheels

As soon as Rocket released the Launcher Series "front runner" wheels, they were overwhelmed by enthusiast demand for a hardcore traditional hot rod wheel that could be matched with the Launcher for the perfect staggered combo. Rocket's designers accepted the challenge and created this wheel to revive a classic design from drag racing's golden age. Reminiscent of the testosterone pumping Fuelie wheels of the 1960's. Rocket Injector wheels are sculpted to perfection and hold true to the greatest era of Detroit automotive performance. Available with fully polished or in its natural "As Cast" finish.

Note: Shipped overweight.

OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on, wipe-off formula with no scrubbing necessary and no harsh scent.

CRAGAR Classic Wheels

Cragar S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims and other metal work much easier. Can be attached to any hand held drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Spaceage Dura-foam and fiber soft materials make it the most durable tool of its kind. Comes in your choice of two sizes: a 2.5 inch or 3 inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

K89491	3 inch polish ball	28.99 ea

CRAGAR Classic Wheels

Cragar 32 Series Keystone Klassics

If your car is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid-1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Cast Aluminum 17" Rally Style Wheel

17" cast aluminum Rally wheel features a silver powdercoat with a machined lip, 5 x 4.75" and 5 x 5" dual lug patterns, accepts OEM and reproduction center caps, and standard lug nuts (do not use chrome aftermarket style lug nuts, they will not clear the center cap). Due to the weight and size of the Derby style center cap It is recommended to use the Economy Derby part #WK1013 each or WR1013 set of 4. The factory style steel flat disc brake Rally caps and steel police caps fit and function as normal. Available in 17" x 8" and 17" x 9" sizes.

Important: *When installing on older vehicles; you must check the clearances of brakes, wheel openings an backspacing to ensure proper wheel and tire clearance.*

Note: Shipped overweight.

Classic 200S Polished Daisy

One of the most popular wheels ever made by American Racing Equipment was the 200S, also known as the "Daisy Wheel". These polished alloy wheels were originally cast at a foundry in Portland, Oregon until the late 1970's. The Daisy Wheel is a great alternative to the more common Torque Thrust wheel. Includes center cap. *Note: Shipped overweight.*

The American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, were a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a one piece machined alloy wheel with a modular look. It comes clear coated and includes a center cap. It's a good choice if you're looking for a period correct wheel design at a great price. *Note: Shipped overweight.*

Firestone™ Wide Oval Tires

Firestone Wide "O" Oval tires are back! These tires are manufactured from the original molds to bring you the highest quality muscle car tire available. These tires were installed by General Motors on many popular muscle cars from 1967 through 1974. Each tire features a 2 + 2 construction (2 ply polyester and 2 ply fiberglass). Available in Raised White Lettering, featuring the words Firestone and Wide "O" Oval, Red Lines or pinstripe whitewall. After all, if you're going to invest hard-earned money in new tires, why not increase the value of your Nova by installing original style reproduction Firestone tires? You can see the difference!

Note: Tires must be prepaid. Special shipping rate applies.

- Exact Reproduction of the original Firestone® Tires
- Manufactured from original molds!
- Three styles to choose from!
- Produced in the USA!
- Large Inventory for Fast Delivery!

Tire Size Quick Reference Chart

Classic Industries® now offers a convenient way to verify exactly what size tire you can mount onto your specific car! This chart allows you, the car owner, to cross reference the original tire size (listed in the owners manual of your vehicle) with today's "modern" metric sizing. No more guessing!

Goodyear® Polyglas Tires

Give your truck a nostalgic appearance by replacing your tires with original Goodyear® quality! Goodyear® is the tire Chevrolet chose for many late model 1960's and early model 1970's high-performance vehicles. Goodyear® is a registered trademark of The Goodyear Tire Corporation.

- **Perfect for your Truck!**
- **The Goodyear® name means quality and dependability!**
- **Increase the value of your project while maintaining originality!**

Goodyear® is known throughout the automotive industry as one of the finest quality tires manufactured! Now, Goodyear® proudly offers these high-quality replacements produced using the original molds for authenticity and quality! The Goodyear tires are produced with exact specifications offering the highest quality while maintaining complete originality! Many Chevrolet late 1960's and early 1970's muscle cars and high-performance vehicles included the Goodyear® raised white letter Polyglas or Redline Polyglas tires. Make your project complete by adding the one item that so many restorers neglect. Vintage style tires are a great investment and increase the value of your classic! Now you can own the original Polyglas Goodyear® tires, and because they are made from the same molds as the originals, you can count on their Goodyear® quality. Perfect for classic wheel types such as Rally wheels! Although these Polyglas tires were standard equipment for various Chevrolet high performance vehicles of the late 1960's and early 1970's, they can be easily installed on virtually any early model Chevrolet to add a touch of nostalgia.

Important: QW-1 Speedway Wide Tread.
Note: *Tires must be prepaid. Shipped overweight.*

OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on, wipe-off formula with no scrubbing necessary and no harsh scent.

K89617

OER® TNT Extended Life Tire and Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

Tire & Wheel Combos

Bolt them on and go! What could be easier?

When you buy a tire and wheel package from us, you can rest assured that you are getting the best. These complete sets include four tires of your choice. Chevrolet Rally Wheels, tall "Derby" style Rally center caps, trim rings and valve stems... fully mounted and balanced! Your tire and wheel package will be mounted and balanced by a professional with the latest state of the art Hunter balancing equipment. For maximum ride quality, our Hunter SmartWeight balancing system analyzes the entire assembly for non-conformity issues and the result is improved ride quality, performance and wear. You'll also receive FREE nitrogen inflation that will give your combo longer life and better performance. Your combo will arrive to your front door ready to simply bolt on your vehicle so you can go for a drive. What could be easier?

Important: Choose tire size and brand from below. Choose 5 or 6 lug bolt pattern.
Note: Tire sets must be prepaid. Shipped overweight.

- **Complete Sets Include: 4 Tires, Chevrolet Rally Wheels, Tall "Derby" Style Rally Center Caps, Trim Rings and Chrome Valve Stems.**
- **Hand Mountedand Computer Balanced to Precise Quality Control Standards for a Guaranteed True and Round Assembly.**
- **Scratch-Less Mounting, No Need to Worry About a Scratched Rim.**
- **Lug Centric Balancing for the Best Balance and Truest Ride.**
- **Static Balanced with the Unsightly Weights on the Inside of the Combo.**

Wall Mount Wheel/Tire Hanger

The wheel and tire hanger is a great way to organize your shop or garage by getting wheels and tires off the floor, freeing up more space. Each heavy-duty powder coated hanger is approximately 21" long and mounts at a slight angle so wheels won't slide off. Can also be used to hang bicycles or anything you want to get off the floor.
Note: Each hanger will hold 2 wheels with tires mounted.

M998070 wheel/tire hanger ..... 39.99 ea

0-100 PSI Digital Tire Pressure Gauge

Proform's programmable, accurate Digital Tire Pressure Gauge measures from 0-to-100 psi in increments of .01 psi on a backlit LCD screen. When you remove the gauge from the valve stem in NORMAL mode, the gauge will slowly count back to zero. In PEAK mode, the reading will display after removal. Features unit conversion (psi, bars and kp/cm2), automatic OFF, and dual air bleed buttons to allow controlled pressure release. Instructions included.

1947-72 Aluminum Radiator

U.S. Radiator

Reduce the heat in your engine by installing one of these high efficiency Desert Cooler® aluminum radiators. These are non-polished aluminum radiators that offer up to 15% better cooling over common brass/copper radiators. These bolt-in, direct fit radiators feature an efficient two row design of large, 1" wide cooling tubes for increased water flow. Aluminum radiators are available for 1947-72 Chevrolet and GMC trucks.

AL80430AND

Important: Core sizes on aluminum radiators may differ from cores on original copper/brass radiators, but will bolt-in just like original. Note: Shipped oversize.

Aluminum Radiators & Fan Shrouds

1947-87 Polished Aluminum Radiator

New!

Champion Cooling Systems

A7600112

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with louvered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

Important: All radiators have built-in automatic transmission coolers and can be used in both automatic and manual transmission applications. Core size dimensions listed below.

*Note: *Does not have transmission cooler. Shipped oversize.*

Replacement Radiators

Economy Replacement Aluminum Radiator

Don't be fooled by the price of these radiators. These quality lightweight aluminum radiators stand up to the demands of everyday driving with excellent cooling properties. These replacement radiators vary in appearance from the originals, but fit in the factory mounting locations and work with original fan shrouds. Every radiator includes fittings for an automatic transmission cooler.

***Important:** The core is slightly smaller that the original; this will not lessen cooling capabilities. Measure your core. Hose adaptors are included.*
***Note:** *With raised filler neck. Shipped oversize.*

1955-04 Be Cool Aluminum Cooling System

Be Cool radiators are designed to provide the added cooling capacity required by high horsepower engines. These all-aluminum radiators can be up to 40% lighter than traditional copper/brass radiators and feature high-quality aluminum welds to enhance the appearance of your car. Includes: aluminum radiator, radiator cap, electric fan(s), vented coolant recovery tank, aluminum fan mounting brackets, electric fan wiring harness and installation hardware. Dimensions listed below are core size.
***Important:** Module sets with radiator cores 22" or smaller will include a single fan, sets with radiator cores 24" or larger will include a dual fan.*
***Note:** *Some modification necessary to upper/lower hoses and transmission lines for crossflow conversion radiator upgrade. Shipped double oversize.*

1967-87 Polished Aluminum Radiator

ARC

Constructed of 100% polished aluminum, using no epoxy for trouble free service. This radiator fits in the factory mounting location with predrilled brackets for easy installation. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. Available with a built in transmission cooler with the correct dimensions to use the factory transmission lines. For use with both small block and big block engines.

***Note:** Shipped oversize.*

J-B Weld Cold Weld

New!

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Made in USA.

Thermocap Radiator Cap

MR2470

Thermocap is an advance in safety and performance and available to fit virtually any car. It combines a pressurized radiator cap with a thermometer into a single unit, allowing you to know when it's safe to open your radiator. Requires no tools. It's as simple as twisting off your radiator cap and putting on a new one. Specify red, blue or silver when ordering.

Purple Ice Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. It also lubricates the water pump seals. Purple Ice should always be used in conjunction with antifreeze in regions where freezing temperatures occur. Purple Ice is recommended for any water/glycol pressurized cooling system.

Coolant System Protector

Joe Gibbs Driven Coolant System Protector removes impurities in well water that can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage. Offers protection for both cast iron and aluminum components.

FL210

Extends Water Pump Life and Cools Faster!

Used as a primary fan, this unit frees up wasted horsepower and increases fuel mileage by eliminating drag caused by your standard engine mounted fan. Also increases water pump life by reducing strain on the water pump bearing assembly. When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating.

Cooling System

New!

Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440	restrictor plate set	7.99 ea

Flex-a-lite Black Magic S-Blade

This fan provides better cooling to increase horsepower and cooling efficiency. Consistent cooling, regardless of engine RPM. Easy bolt-on installation. Moves 3000 cfm. Fits vehicles with 16" and wider radiator cores. Universal mounting brackets included.

FL160	18" x 16" x 4-1/4"	259.99 ea

Flex-a-lite Syclone Electric Fan

This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

Rubber Fan Spacers

Rubber spacers are used with Champion Series electric fans for proper spacing from the radiator.

MF112	rubber fan spacers	4.99 set

Dual Fan Wire Harness with Relay

This is a dual fan wire harness with relay that will allow safe control of the two fans while using either an on-off switch or an adjustable temperature sensor. Switch and sensor not included.

40080	wire harness with relay	31.99 ea

1983-95 JET Fan Switch

The JET Fan Switch turns on the vehicle's cooling fan at a lower temperature than stock for improved performance and engine longevity. Cooler operating temperatures increase horsepower by providing a denser air/fuel mixture. Installation is simple replacement of the stock sensor. The JET Fan Switch turns on at 195 degrees and turns off at 185 degrees.

JT60600	1983-92	all V8	47.99 set
FK1000	1993-95	350 LT1	68.99 set

Electric Fan Controller

Fully programmable controller includes a 70 amp relay and will work with your existing water temperature gauge and sending unit. Features include a fully programmable "fan on" and "fan off" temperatures and the capability to leave the electric fan operating after the engine has been shut down for a user adjustable time. Full digital LED readout. Operation Range: 150-250 degrees F.

Important: Must use second relay part #DD2702 70 amp relay for dual fan or two-speed fan operation.

SU110 *SU102*

1980-96 Coolant Temperature Sensor

The coolant temperature sensor sends a signal to the electronic control unit relative to the coolant temperature in a computerized engine control system. The sensor is located under the hood, mounted to the front driver side of the intake manifold. The coolant temperature sensor plays a central role in triggering many engine functions. A faulty coolant sensor can cause a variety of cold performance problems as well as emissions failures. Symptoms of a bad sensor may include poor cold idle, stalling, cold hesitation or stumble, or poor fuel mileage.

Cooling System

Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627 ..... 189.99 ea

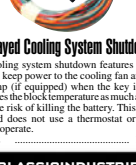

TF900634

"Ice Box" Cooling Fan Control

Available as a single fan control or dual fan/2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single two speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine bolt. Each unit has a fully adjustable operating range of 140-230 degrees.

***Note:** *With Walker 2-speed fans.*

TF900634	dual control	144.99 ea
TF900635*	dual control	144.99 ea

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632 ..... 149.99 ea

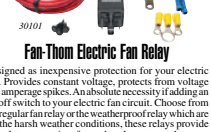

30104

Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes: the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals and mounting hardware.

Specs on Adjustable Fan Thermostat:
Temp range -32 degrees to 248 degrees F
Accuracy: +/- 7.3 degree F
Differential: 7.3 degree +/- 3.6 degree F
***Important:** Temperature refers to the temp of the capillary tube, not the coolant temp.*

Painless F5 Fan Controller

This state-of-the-art fan control system uses pulse width modulation to control electric fan speed from 50% up to 100%. A three position toggle switch lets you choose between normal operation, 100% fan speed, or turn the fan(s) off. An AC compressor override that runs the fans at 100% duty cycle if air conditioning is kicked on. Includes a solid state controller rated for engine bay use, 3/8 NPT threaded temperature sensor, large gauge fan wires and labeled vehicle integration wire harness, mounting hardware, and 70 amp fuse and connectors. The F5 Dual Fan Controller is rated to control two 35 amp cooling fans. The F5 Single Fan Controller is rated to control one 70 amp cooling fan.

1947-90 Cool-View Glass Thermostat

This 2" thermostat assembly allows you to see when the thermostat opens on a unique gradient scale without ever removing the radiator cap.

Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boiler systems. Fits all small and big block Chevrolet engines that use a non-bypass type thermostat, 1955 and up. Also fits all 216-292 straight 6 engines from 1947-90. Made in USA.

Important: Thermometer and gradient scale are only included in sets with thermostat.
Note: Bolts not included.

C1A

1967-72 Reproduction Heater Hose Sets

Reproduction of the correct 3/4" and 5/8" hoses which will completely replace the essential hoses required for your heater assembly to work properly.
Note: The K0057 and C1A may be used with small block or big block applications.

C1A	1967-72	GM markings	24.99 set
K0057	1967-72	OEM type ribbed	29.99 set

YE5215

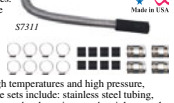

Replacement Heater Hose

Replacement Goodyear heater hose in convenient 5 foot lengths.

YE5210	5/8"	5 feet	5.99 ea
YE5215	3/4"	5 feet	4.99 ea

Flexible Stainless Hose Sets

Ideal replacements for worn or rotted radiator or heater hoses. Noncorrosive construction conforms to tight bends and holds shape indefinitely. Rated for high temperatures and high pressure, these ultimate sets include: stainless steel tubing, 2 rubber sleeves, 4 reducer inserts, 4 stainless steel hose clamps, and 2 chrome or polished aluminum end covers. Can be easily cut to custom lengths. These high-quality sets will enhance any engine compartment. Choose from chrome or polished aluminum ends. Made in USA.
Note: 48" set has double quantity of end caps, sleeves, reducers, and clamps. Save money and make both upper and lower radiator hoses with one 48" set.

High Flow Water Pumps

551510

1947-02 New Water Pump

These 100% new water pumps actually preform better and last longer than conventional new water pumps because they're engineered with insight. Developed with advanced 3D modeling and design software tools to deliver dimensional precision. Unitized seals produced with superior materials. Bearing type and materials meet or exceed original specifications.
*Note: *With 1 outlet, 4 mounting holes on hub. **With 2 outlets, 8 mounting holes on hub.*

16210

Increase Coolant Flow Up to 30%!

These high-performance, High Volume Water Pumps feature balanced distribution and improved efficiency, close tolerance impellers that increase coolant flow up to 30% over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. Use in conjunction with a non-restrictive, high flow thermostat to enable the pump to work to its highest capability. High-quality steel casings, heavy-duty bearings and large diameter shafts make these pumps the top of the line in performance water pumps. Direct factory replacements equipped with all hose connections and bosses.

Water Pumps

WP12203

Stewart Components Stage 1 Cast Iron High Flow Water Pumps

Stewart Components Stage 1 pumps use new, original equipment iron castings that are internally modified for better performance and improved reliability! Pumps are designed to be compatible with stock lines and brackets. These water pumps feature a 3/4" heavy-duty bearing.

WP23113

Stewart Components Stage 2 Aluminum High Flow Water Pumps

Stewart Components Stage 2 pumps use new, 356-T6 heat treated aluminum casting that are precision machined to be compatible with stock lines and brackets. These pumps feature several significant performance upgrades compared to their Stage 1 pumps for maximum performance. Applications suitable for use on V-belt or serpentine belt systems are available. These water pumps feature a 3/4" heavy-duty bearing.

Important: *These small block water pumps require the use of a high flow, modified thermostat due to the elimination of the factory bypass holes in the Stage 2 pumps. See listings below for available temperatures.*

1955-86 Edelbrock Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast powdered metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft. Choose from four popular finishes.

MR4333

Electric Water Pump Drive Set

Electric water pump drive set designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with: motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring and switch. You supply the fan of your choice.

MR4333 Chevrolet V8, and 90 degree V6
Buick V6 231ci, 350ci
Pontiac 350 thru 455ci
Olds 350 thru 455ci ..... 99.99 set

1955-86 Gilmer Belt Drive Set

Gilmer drive sets for small block street/strip engines are machined from billet aluminum and prevent slippage and belt throwing at high RPM. Designed to work with factory alternator brackets. Set includes: crank pulley, water pump pulley, alternator pulley and a 1-1/2" wide belt.

Note: Not for vehicles with power steering or AC.

87101 283-400 w/short water pump 183.99 set
87111 283-400 w/long water pump. 197.99 set

50106 30132

Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

1978-87 Water Pump Bolt Sets

Dress-up your truck with these one-of-a kind dress-up bolt sets. The Chevrolet Bow Tie, SS or flames logo is stamped directly onto the head of the bolts. They are available in decorative chrome-plated or polished stainless steel versions. What better way to make a statement than with these unique bolts?

Note: Must specify logo prefix: C-Flames, D-Bow Tie, E-SS, G-350, H-454 logo.

Chevrolet Small Block Electric Water Pump

Eliminates unnecessary weight and impeller-drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable, but lightweight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Draws 6 amps. Mounting hardware and fitting for water pump is included.

Isn't it Time to Change Your Belts?

Replace weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and a spare set to keep in the trunk just in case you should ever have a broken belt while on the road with your classic. For a complete application guide for your classic vehicle, visit us online at www.classicindustries.com.

Air Conditioning Systems

Gen-IV SureFit System Features:

- Fly-by-Wire Fully Electronic Servo Motor Controls
- No Cables or Capillary Tube to Route
- Separate High Capacity Heat and Cooling Coils
- Behind the Dash Evaporator

941852

1947-55 Chevrolet/GMC Vintage Air Gen IV SureFit AC Systems

This complete air conditioning retrofit system features air conditioning, heating and defrost functions and is designed specifically to mount in your vehicle using existing holes in your dash and firewall. AC systems feature exclusive cable replacement modules that connect to your original control panel to operate the system as if it were original. Sets include: a compressor, evaporator, condenser and mounting brackets, drier, all louvers, ducts, hoses, wiring, preformed aluminum lines, and complete installation instructions.
Important: Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.
Note: A special shipping charges of 59.95 applies. Special order, must be prepaid.

- No Cables or Capillary Tube to Route
- Separate High Capacity Heat and Cooling Coils
- Behind the Dash Evaporator
- High-Volume Dehumidified Defrost Mode
- Includes New In-Dash Control Panel (1960-63)

941164

1960-66 Chevrolet Vintage Air Gen IV SureFit AC Systems

This complete air conditioning retrofit system features air conditioning, heating and defrost functions and is designed specifically to mount in your vehicle using existing holes in your dash and firewall. Systems include: the control panel (where applicable,) compressor, evaporator, condenser and mounting brackets, drier, all louvers, ducts, hoses, wiring, pre-formed aluminum lines, and complete installation instructions.
Important: Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.
Note: A special shipping charges of 59.95 applies.
Special order, must be prepaid.

Air Conditioning Systems

Gen-IV SureFit System Features:

- Fly-by-Wire Fully Electronic Servo Motor Controls
- No Cables or Capillary Tube to Route
- Infinite Temperature Blending/Fan Adjustability
- Separate High Capacity Heat and Cooling Coils
- Behind the Dash Evaporator
- High Volume Dehumidified Defrost Mode
- Steel Firewall Cover Panel

941170

1967-72 Chevrolet/GMC Vintage Air Gen IV SureFit AC Systems

The powerful, intelligent Vintage Air Gen IV system uses an exclusive microprocessor to eliminate cables and vacuum connections. Electronic cable converters adapt factory controls to electronic operation. The system features air conditioning, heating, and defrost functions and is designed specifically to mount in your vehicle using existing holes in your dash and firewall. Systems include: a compressor, evaporator, condenser and mounting brackets, drier, all louvers, ducts, hoses, wiring, preformed aluminum lines, and complete installation instructions.

Important: *Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.*

Note: *A special shipping charges of 59.95 applies. Special order, must be prepaid. Shipped oversize.*

1973-87 Chevrolet/GMC Vintage Air Gen IV SureFit AC Systems

The powerful, intelligent Vintage Air Gen IV system uses an exclusive microprocessor to eliminate cables and vacuum connections. Electronic cable converters adapt factory controls to electronic operation. AC systems for non-original AC applications include a backlit three lever control panel that bolts in the stock dash location for electronic operation. Systems for original AC applications include electronic cable converters, which convert existing factory controls to electronic operation. Sets include: a compressor, evaporator, condenser and mounting brackets, drier, all louvers, ducts, hoses, wiring, preformed aluminum lines, and complete installation instructions.

Important: *Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.*

Note: *A special shipping charges of 59.95 applies. Special order, must be prepaid. Shipped oversize.*

AC Systems

346001

KITS INCLUDE:

- Sanden-Style Compressor
- Mounting Brackets
- Exact Fit Hoses
- Clutch Cycling Switch
- Accumulator
- Variable Rate Orifice Tube
- 134a Adaptors
- O-rings and Mounting Hardware
- Illustrated Step-by-Step Instructions

1988-93 AC Compressor Upgrade Sets

Replace your power robbing R4 compressor with a Sanden-style compressor upgrade that requires less power to operate, runs smoother, and weighs half as much as the original units. These upgrade sets are rated for continuous duty at 6000 RPM and work great on high horsepower applications! Includes: compressor, mounting brackets, compressor, hoses, clutch cycling switch, accumulator, o-rings, hardware, 134a adaptor, and a variable rate orifice tube. Compatible with R134a.

Important: **Late 1990 model only, does not fit early 1990 model.*

1988-93 Engine Compartment AC Upgrade Sets

Ready to upgrade to modern air conditioning? This complete engine compartment upgrade system works with the stock evaporator and interior AC components while replacing your original, power robbing R4 compressor with a lightweight, efficient Sanden style compressor rated for continuous duty at 6000 RPM! Additionally, Classic Auto Air's high efficiency parallel flow condenser improves on the original R-12 designed condenser, drastically improving system performance. Includes: condenser, compressor, mounting brackets, all hoses/lines, clutch cycling switch, accumulator, o-rings, hardware, R134a adaptor, variable rate orifice tube, and condenser. Compatible with R134a.

1947-72 Air Conditioning Retrofit Systems

All of our AC systems are manufactured for R-134a or R-12 refrigerant as desired. It will be necessary to specify your preference when ordering. Vehicles that have an electric radiator fan but NO condenser fan MUST have the electric radiator fan wired with a pressure switch or compressor clutch relay to engage the fan when the AC system is activated (AC head pressure will increase much faster than coolant temperature, which can cause damage to your AC system). Complete AC systems include: custom evaporator/heater/blower unit with mounting bracket, duct hose, vents, glove box (when necessary), integrated switches, wiring harness, control cables, heater valves, AC compressor, compressor mounting brackets, high/low pressure safety switch, AC hose kit, receiver/drier, custom condenser tubes, condenser, necessary hardware and complete illustrated instructions.

Important: **Systems do NOT include additional pulleys, belts or refrigerant necessary.**

Note: **Special order, must be prepaid.**

AP7200HD

1955-59 2nd Series Custom AC, Heat and Defrost System

Heat, cool and defrost unit mounts directly to inner firewall utilizing most stock heater holes and mounting locations. The sets are available with cable controls or electronic controls installation and includes the deluxe lever control, custom corner louvers, new plastic glove box and custom condenser mounting. Mounting brackets are available for inline 6 or V8 Chevrolet engines. Also available are custom kick panels with molded air vents.

Note: **Shipped double oversize.**

1967-72 Custom AC, Heat and Defrost System

A complete AC, Heat and Defrost Unit mounts directly to inner firewall, replacing the original factory heating system. These systems integrate switching with the factory heater controls for both heater and AC functions. Available with your choice of in dash or under dash air vents, and featuring a multi-flow design condenser assembly and drier with custom aluminum lines. Optional single or dual electric condenser fans are available to maximize cooling efficiency.

Note: **Shipped double oversize.**

New!

Sanden AC Compressor

When retrofitting a modern AC system, Sanden SD508 and SD7H AC compressors are the first choice. Not only do they produce colder air than the original compressors, they require less horsepower to turn. Rated for continuous duty at 6000 RPM. All compressors feature a 2 groove V-belt clutch.

Important: *For use with R134A systems only.*

Aluminum Replacement AC Compressor

This is a 10 cylinder "bolt-in" direct replacement for the GM Fridgidare/Harrison A-6 compressor. This new design is specifically engineered to fit the A-6 mounting brackets and AC hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. The aluminum body is 52% lighter than the original A-6 and displaces 210cc. Designed to accept both Superheat and High pressure safety switches. Includes a single groove clutch and oil; compatible for R12 or R134A. Fits 1962 and later models with the A-6 Compressor. Hardware and instructions included.

AP2201	1962-up	A-6 w/single pulley	399.99 ea

1967-85 Liquid Bleed Valve Core

1947-52 Fresh Air Heater Core with Tanks

A complete heater core with tanks as original. For the dealer installed fresh air heater. Made for modern higher water pressure systems as well as the low pressure original. Dimensions: 8.25 x 4.5 x 3.5 inches. Allows you to save your rare accessory GM heater.

Note: Not correct for vehicles with round recirculator option.

CX1994 1947-52 ..... 194.99 ea

New!

CX1993

AP7291

1947-57 Round Recirculator Heater Core

Your choice of a replacement core for the round recirculator GM heater or a modern style redesigned heater core with electric fan. The originals are usually impossible to repair. The replacement core, sold in pairs, is the round core only. You use your own tanks and have the exchange made at a local radiator shop. Or modernize your system with a redesigned core that comes as a square heater core and 313 cfm 12V fan attached to a round replacement plate for a direct bolt-in aftermarket replacement.

*Note: *Special order. Allow 3-4 weeks. Tank not included.*

Hi Performance Crate Engines from GM Performance Parts

GM PERFORMANCE PARTS

Different Levels of Engine Assemblies

Classic Industries® offers three distinct levels of GM Crate Engines, covering the gamut from long blocks to complete Turn-Key engines. This variety gives classic car builders the opportunity to customize an engine as much or as little as they need to, to meet their expectations. For additional engine choices and more information about GM Performance engines, visit us online at http://www.classicindustries.com!

Base/Base+ Engines

The base engine assembly typically includes, block, crank, pistons, cam, heads and valve covers, but allows the builder to pick the carburetor/injection system and intake manifold they desire. Base+ engines include an intake manifold, and on select models, a distributor also.

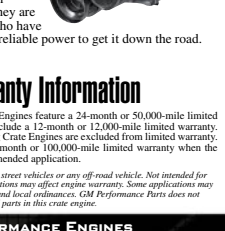

Deluxe Engines

The deluxe crate engines are essentially ready to fire up, as they ship with the distributor installed, harmonic balancer bolted on and the carburetor in the crate. All you need to do is put the parts together and go!

Turn-Key Engines

We told our engineers to have some fun and assemble engines the way they think it should be done… we then took their combinations, built them up and put them in a crate that ships right to your dealer. The Turn-Key engines represent an outstanding value, and they are perfect for enthusiasts who have built a chassis and need reliable power to get it down the road.

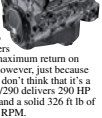

Warranty Information

GM Performance Parts Crate Engines feature a 24-month or 50,000-mile limited warranty. GM Components include a 12-month or 12,000-mile limited warranty. GM Performance Parts Racing Crate Engines are excluded from limited warranty. GM Parts Engines offer a 36-month or 100,000-mile limited warranty when the engine is installed in a recommended application.

Important: *Designed for pre-1979 street vehicles or any off-road vehicle. Not intended for marine applications. Some applications may affect engine warranty. Some applications may not be emission legal, check state and local ordinances. GM Performance Parts does not utilize any used or remanufactured parts in this crate engine.*

350/290HP Base Engine

The best value crate engine in the GM Performance Parts lineup! The 350/290 is an answer to those car crafters who demand maximum return on their money. However, just because it's affordable, don't think that it's a stone. The 350/290 delivers 290 HP @ 5100 RPM and a solid 326 ft lb of torque at 3750 RPM.

Specifications:
Engine Type: Chevrolet small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .450" int/.460" exh
Duration: 222° int/222° exh @ .050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 8.5:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 87 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5100
Balanced: Internal

Installation Notes
• Use internally balanced flexplate part #G9289 for automatic transmission or flywheel part #G7319 for manual transmission (not included).
• Power ratings based on Holley 670 cfm carburetor (not included).
• Does not accept GM Performance Parts roller lifter assemblies.
•Recommended use in vehicles 6000 lb GVW or less.
Note: *Special order, prepaid only. Shipped truck freight.*

Truck Freight
G13013 ..... 2274.99 ea

Z7383/425HP Base Engine

Big block power from a small block engine! For the ultimate GM Performance Parts small block crate engine, choose the Z7383, a combination of Fast Burn aluminum performance heads and a 383 stroker small block that adds up to 425 horsepower and 449 ft lb of torque. The Z7383 has a specially machined engine block and 3.80"-stroke crankshaft, which produce 383 cubic inches of pure performance.

Specifications:
Engine Type: Chevy small block V8
Displacement: 383 cubic inch
Bore x Stroke: 4.00" x 3.80"
Camshaft Specs:
Lift: .509" int/.528" exh
Durations: 222° int/230° exh @ .050"
Valve Size: 2.00" intake/1.55" exhaust
Compression Ratio: 9.6:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 6000
Balanced: External

Note: *Special order, prepaid only. Shipped truck freight.*

Installation Notes:
• Comes with 12.75" automatic transmission flexplate. Requires 1986-99 350 style externally balanced flywheel for manual transmission.

G13022 ..... 6119.99 ea

350 HO/330HP Engine

The 350 HO is based on a tough, Chevy four bolt block. The high lift camshaft is based on the 1965-67 Corvette 327 engines, but it has even more lift and duration. The Turn-Key engine is complete from top to bottom. A complete, running engine right out of the crate. Ships with an accessory drive package, fuel pump, starter, and spark plug wires. One level down is the 350 HO Deluxe which comes nearly ready to fire up. Finally, the base model gives you all of the same internal components as the Deluxe and Turn-Key including chrome valve covers and timing cover.

G13014

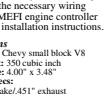

Specifications:
Engine Type: Chevy small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Camshaft Specs:
Lift: .435" intake/.460" exhaust
Duration: 212° int / 222° exh @ .050"
Valve Size: 1.94" intake/1.50" exhaust
Compression Ratio: 9.1:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Ign Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5500
Balanced: External

Installation Notes
• Counterweighted flexplate for auto transmission.
• Change to ext. balanced flywheel for manual trans.
• Right-side oil dipstick.
Note: *Special order, prepaid only. Shipped truck freight.*

454 HO Base+ Engine

We started with a brand new Gen VI four bolt big block, and cast iron cylinder heads deliver a pump gas friendly 8.75:1 compression ratio. Horsepower comes in at 425 with 500 ft lb of torque. The 454 HO is delivered to you complete with water pump, balancer, intake manifold, and 14" automatic transmission flexplate.

Specifications:
Engine Type: Chevy big block V8
Displacement: 454 cubic inch
Bore x Stroke: 4.25" x 4.00"
Camshaft Specs:
Lift: .510" intake/.540" exhaust
Duration: 211° int/230° exh @ .050"
Valve Size: 2.19" intake/1.88" exhaust
Compression Ratio: 8.75:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 92 octane
Timing: Base 4° BTDC, 26° Total
Maximum Recommended RPM: 5500
Balanced: External

Installation Notes
• Clutch linkage boss is cast into block, but must be drilled and tapped.
• For cast iron exhaust manifolds, lower head bolts may need to be replaced with bolts with shorter heads for clearance.
• Comes with a 14" automatic transmission flexplate.

Note: *Special order, prepaid only. Shipped truck freight.*

G7167 ..... 5959.99 ea

ZZ502/502HP Engine

You get the big block V8, four bolt main muscle and just enough of the "finish work" to take the headache out of choosing parts – without missing out on the fun stuff! The ZZ502/502 Deluxe crate engine includes the entire engine, from carb to oil pan, and comes assembled from the factory. It includes a Holley 870 cfm four barrel carburetor, dual-plane intake manifold CNC-port matched to the oval port heads, starter, distributor, plug wires, and water pump. It also offers you a GM Performance Parts tested and validated 502 horsepower/567 ft lb of torque. It comes with our aluminum oval port, big-valve street heads that flow enough air to satisfy the demands of the hungry 4.47" bores and 4.00" stroke crankshaft.

Specifications:
Engine Type: Chevy big block V8
Displacement: 502 cubic inch
Bore x Stroke: 4.47" x 4.00"
Camshaft Specs:
Lift: .527" intake/.544" exhaust
Duration: 224° int/234° exh @ .050"
Valve Size: 2.25" intake/1.88" exhaust
Compression Ratio: 9.6:1
Rocker Arm Ratio: 1.7:1
Recommended Fuel: 92 octane
Ign Timing: Base 8° BTDC, 30° Total
Maximum Recommended RPM: 5800
Balanced: External

Installation Notes ***24-month/50,000-mile limited warranty.***
• Clutch linkage boss is cast into block, but must be drilled and tapped.
• When using cast iron exhaust manifolds, lower head bolts may need to be replaced with bolts with shorter heads for clearance.
• Requires electric fuel pump because the Gen VI block has no mechanical pump boss.
• Comes with a 14" auto transmission flexplate.

Note: *Special order, prepaid only. Shipped truck freight.*

ZZ5 350/400HP Engine

Chevrolet Performance's all-new ZZ5 350 uses new casting Fast Burn cylinder heads equipped with LS style beehive valve springs for greater high-rpm performance. It's rated at 400 horsepower – more than any Small Block engine ever offered in a production Chevrolet muscle car or Corvette! The new, lightweight aluminum cylinder head casting is based on the proven Fast Burn design, with large intake runners and 2.00/1.55 inch valves. New beehive style valve springs enable greater high RPM performance and durability. They allow the ZZ5 to rev higher to make the most of every cubic inch of air drawn through it. The ZZ5 is built with a brand new block with four bolt mains, along with a forged steel crankshaft, an aggressive hydraulic roller camshaft and durable, high silicon pistons. Unique valve covers distinguish this new crate engine at a glance, too along with Chevy "Bow Tie" insignias in the ends of the cylinder heads that let everyone know you've got the latest Chevrolet Performance hardware under the hood. The Turn-Key engine package includes the distributor, carburetor and balancer installed. The starter, fuel pump air conditioning pump, alternator, front end accessory drive kit and more are also included.

Specifications:
Engine Type: Chevrolet small block V8
Displacement: 350 cubic inch
Bore x Stroke: 4.00" x 3.48"
Block: Cast iron with 4 bolt main caps
Camshaft Specs:
Lift: .474" int/.510" exh
Duration: 208° int/221° exh @ .050"
Valve Size: 2.00" intake/1.55" exhaust
Compression Ratio: 9.72:1
Rocker Arm Ratio: 1.5:1
Recommended Fuel: 92 octane
Timing: Base 10° BTDC, 32° Total
Maximum Recommended RPM: 5800
Balanced: External

Installation Notes
• Comes with 12.75" ext. balanced 153 tooth automatic transmission flexplate.
• Change to ext. balanced flywheel for manual trans.
• Requires fuel line from fuel pump to carburetor.
• Fuel pump pressure is preset, no regulator required.
• Some assembly and engine tuning may be required.

Note: *Special order, prepaid only. Shipped truck freight.*

ATK by VEGA
ENGINES • HEADS • TRANSMISSIONS

Remanufactured Engines

ATK Remanufactured Engine Warranty Information:

At Classic Industries®, we know that supplying a great product is only part of the job. The staff at ATK is made up of dedicated professionals whose only job is to support you, the Classic Industries® customer. From the moment you call on ATK, whether to request technical assistance, or inquire about their warranty, they are dedicated to providing solutions and support. That's the ATK promise. Classic Industries® and ATK have always been leaders in innovation, offering products, warranties and programs that have redefined the industry. That leadership is evident in our products and our support. ATK warrants to the original purchaser that each engine sold by Classic Industries® shall be free of defects in material and workmanship under normal use and with periodical maintenance as set forth by the original manufacturer subject to the following terms and conditions.

Definitions:
Engine: As used in this warranty refers to the remanufactured assembly (basic block, cylinder head and internal components) as supplied by ATK.
Term: Standard Warranty: This warranty shall exist for 3-years and Unlimited miles. Warranty term begins on date of installation.
The Standard Warranty applies to all ATK products with the following exceptions:
Diesel Engines carry a warranty term of 12-months or 12,000-miles whichever occurs first.
Trucks Over 11,000 GVW (Gross Vehicle Weight) carry a warranty term of 12-months or 12,000-miles whichever occurs first.
Motorhomes: Class A or Motorhomes over 11,000 GVW are NOT COVERED by the ATK warranty. ATK expressly does not offer engines for these applications. Please be aware that only engines designed expressly for large motorhomes should ever be used in such an application. ATK does not catalog nor prepare engines for these applications and therefore takes no responsibility when an ATK engine is used in this manner.
Product Replaced Under Warranty:
Product replaced under warranty carries the remainder of the original product's warranty term.
Standards:
Subject to the limitations listed herein. ATK, at its option, shall repair or replace a product within the warranty term after determination by ATK that the product is defective. All products are to be returned to ATK for inspection. Products not returned to ATK will not be warranted. All repairs and/or replacements covered by this warranty must be authorized by ATK. Unauthorized repairs will not be paid.
Limitations:
This warranty applies to products originally supplied by ATK. This warranty does not apply to or include any of the following:
A. Damage as a result of OVERHEATING, LACK OF LUBRICATION or CONTAMINATION.
B. Damage resulting from PRE-IGNITION or DETONATION. This includes but is not limited to: melted or broken pistons, broken piston rings, damaged cylinder heads, leaking head gaskets, etc. For more information regarding pre-ignition and detonation please contact our Customer Service Department.
C. Repair or replacement required as a result of any accident or misuse.
D. Repair or replacement of any accessory or service item, including specifically but not limited to: all components of the cooling, fuel, electrical and ignition systems in addition to all belts, hoses, and filters.
E. Any product used for competition racing or related purposes.
F. Any product to which a device or accessory not conforming to original manufacturer's specifications has been installed.
G. Any product on which periodic maintenance services required by the original manufacturer have not been performed.
Limited Liability:
ATK's liability under this warranty is limited solely to the repair or replacement of defective product. ATK shall not be liable for any incidental, special, consequential or exemplary damages, including but not limited to rental cars, towing fees or for any service not expressly provided for herein, relating to or arising from the ATK product.
Limited Warranty:
This warranty is given in lieu of all other warranties, expressed or implied, including any warranty of merchantability, or fitness for a particular purpose, on the part of ATK or the dealer installing the engine. No dealer nor any agent or employee thereof, is authorized to extend or modify this warranty.
Labor Payments:
ATK authorized repairs will be compensated at a rate not to exceed 100% of the applicable flat rate schedule as published by Chilton, Mitchell or Motors Repair Manuals. Hourly rates for all authorized labor claims will be paid in accordance with the original installation rate, not to exceed $42.00 per flat rate hour. Do-it-yourself repairs, and repairs performed by unlicensed repair facilities, will be paid at a rate not to exceed $15.00 per flat rate hour.
Additional Owner/User Obligations:
Initial Startup: Valves must be readjusted to manufacturer's specifications. Due to various component designs, cylinder head re-torque may or may not be required in your particular application. Refer to factory shop manual for the proper procedure for your engine type. If for any reason you are unsure what action to take please contact our Customer Service Department via our Toll Free telephone number.
First Service: Between 600-1000 Miles After Installation: Oil and oil filter must be changed, valves readjusted and cylinder heads retorqued (refer to initial startup instructions). Failure to perform these basic operations may result in a voided warranty.

ATK Gold Seal Service Agreement is an additional $200.00

	Rental	Towing	Max. Hourly Labor Rate
NO Fault Gold Warranty Program	YES	YES	Up to $95
Standard ATK Warranty	NO	NO	Up to $50

ATK GoldSeal

Introducing ATK's No Fault Gold Warranty Program.

An added protection program that covers car rental, towing, an increased labor rate and fluids on all approved claims.

The No Fault Gold Warranty Program Includes:

Rental Car up to $150!
Rental car expense reimbursed for 5 days/ $30 per day up to $150

Towing up to $100!
Towing reimbursed on approved claims up to $100 per occurrence

Increased Labor Rate up to $95 per hour
Increase labor rates to cover approved repairs up to $95 per hour

Fluids up to $25!
Cost of fluids is reimbursed on approved claims up to $25

ATK now offers the No Fault Gold Warranty Program for you to purchase in addition to the Industry Leading standard ATK warranty already included with our remanufactured engines. This added protection policy covers expenses not included in ATK's standard warranty. Coverage is based on hourly rates established by Chilton, Motor and Mitchell manuals.

How does the core charge work?

Upon ordering, you will be charged the retail price of the engine plus the core charge. When your engine arrives, you will save the crating that it is shipped in, so that you can use it to package your core. Once the core is ready to ship, you will call ATK for core pickup. ATK will then inspect the core to make sure it meets the following criteria. Providing the core meets all of the criteria, you will be refunded the core price.

Core Policy:
- All fluids must be drained prior to core return.
- Cores must be complete and in rebuildable condition.
- Core returned must be identical to the engine purchased in size and application.
- ATK reserves the right to refuse any core that has been modified or altered.

Note: Core prices can fluctuate according to supply, demand and availability. If you plan to return a core for credit, please confirm the core price with your salesperson prior to ordering.

Part #	Years	C.I.D./L	V.I.N Code	Description	+ Core	Price

Hi Performance Crate Engines from ATK

ATK has been building engines for over 75 years and has assembled a line of dyno-proven crate engine packages to power up your car. Classic Industries®' dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, ready-to-run package for those who want to bolt their engine into their GM muscle car and hit the road. For the ultimate in Chevy crate engines, there's no better source than ATK from Classic Industries®.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications
Note: Special order, prepaid only. Not eligible for No Fault Gold Warranty Program.

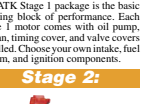

ATK by VEGE
ENGINES • HEADS • TRANSMISSIONS

Features a 24-Month/Unlimited-Mile Warranty!

Three Stages of Performance!

From Tried-and-True. . .

Stage 1:

The ATK Stage 1 package is the basic building block of performance. Each Stage 1 motor comes with oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

Stage 2:

The ATK Stage 2 package builds on the basics of the Stage 1, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

. . . To Tire-Melting!

Stage 3:

The ATK Stage 3 package is high-performance in a crate, with oil pan and pump, spark plugs and wires, timing and valve covers, distributor, performance intake manifold, carburetor, fuel pump, water pump, flaxplate, and balancer all preinstalled.

Stage 1 Performance Engines

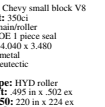

1987-95 350/292HP TBI

The 350ci TBI engine produces 292 HP and 370 lbs of torque in a late style hydraulic roller block. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 292
Torque: 370
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main
Crankshaft: OE 1 piece seal
Bore/Stroke: up to 4.040 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ex
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP31 350/292HP..... 2599.99 ea

350/350HP Vortec

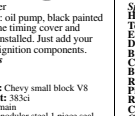

The 350ci Vortec engine produces 350 HP and 400 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Important: Not intended for EFI.

Specifications
HP: 350
Torque: 400
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.040 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .502 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: cast iron Vortec
Chamber Size: 64 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP32 350/350HP..... 2619.99 ea

383/320HP TBI Stroker

This 383ci TBI stroker engine produces 320 HP and 395 lbs of torque with an upgraded hydraulic roller cam. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 320
Torque: 395
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main
Crankshaft: nodular steel 1 piece seal
Bore/Stroke: 4.040 x 3.750
Rods: 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ex
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67 cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 30 degrees total advance
Max RPM: 5800

HP05 383/320HP..... 3609.99 ea

350/375HP w/Alum. Heads

Produces 375 HP and 400 lbs of torque with the help of ATK Pro-Filer aluminum heads and a hydraulic roller cam lifter combo. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 375
Torque: 400 (ATK Pro-Filer)
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.040 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: ATK Pro-Filer aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 steel
Recommended Fuel: 91 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP89 350/375HP..... 3359.99 ea

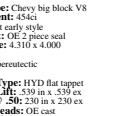

383/380HP Vortec Stroker

This 383ci Vortec stroker performance engine produces 380 HP and 460 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Specifications
HP: 380
Torque: 460
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .500 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Dart cast iron Vortec
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP33 383/380HP..... 3919.99 ea

454/415HP Big Block

The 454ci performance engine produces 415 HP and 497 lbs of torque for your hot rod. Includes: oil pump, black painted oil pan, chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

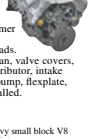

Specifications
HP: 415
Torque: 497
Engine Type: Chevy big block V8
Displacement: 454ci
Block: 2 bolt early style
Crankshaft: OE 2 piece seal
Bore/Stroke: 4.310 x 4.000
Rods: OE
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD flat tappet
Camshaft Lift: .539 in x .539 ex
Duration @ .50: 230 in x 230 ex
Cylinder Heads: OE cast
Chamber Size: 118 cc
Valve Size: 2.079 in x 1.720 ex
Intake Runner Volume: OE
Compression Ratio: 9.4:1
Rocker Arms: 1.7:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP40 454/415HP..... 3399.99 ea

Hi Performance Crate Engines from ATK

Stage 2 Performance Engines

350/408HP w/Alum. Heads

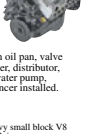

This 350ci engine produces 408 HP and 414 lbs of torque on pump gas with the help of an Edelbrock Performer intake manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 408
Torque: 414
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.040 x 3.480
Rods: Scat 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: ATK Pro-Filer aluminum
Chamber Size: 69 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 full roller
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP34M 350/408HP..... 4949.99 ea

383/435HP Alum. Head Stroker

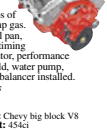

This 383ci stroker engine produces 435 HP and 475 lbs of torque on pump gas with the help of an Edelbrock intake manifold and Dart SHP aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 435
Torque: 475
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 I-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: Dart SHP aluminum
Chamber Size: 72 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 180 cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 full roller
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

HP36M 383/435HP..... 4949.99 ea

454/500HP Big Block

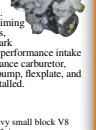

This 454ci engine with performance aluminum heads produces 500 HP and 550 lbs of torque on pump gas. Includes an oil pan, valve covers, timing cover, distributor, performance intake manifold, water pump, flexplate, and balancer installed.

Specifications
HP: 500
Torque: 550
Engine Type: Chevy big block V8
Displacement: 454ci
Block: 2 bolt early style
Crankshaft: OE
Bore/Stroke: up to 4.310 x 4.000
Rods: OE
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD flat tappet
Camshaft Lift: .540 in x .540 ex
Duration @ .50: 228 in x 238 ex
Cylinder Heads: Edelbrock aluminum E-Street
Chamber Size: 110 cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 290 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.7:1 full roller
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP45M 454/500HP..... 5899.99 ea

383/500HP Stroker

This 383ci street/strip stroker engine with 500+ HP and 505+ lbs of torque in a ready-to-run pump gas package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications
HP: 500+
Torque: 505+
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: Scat 4340 forged
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Cylinder Heads: ATK Pro-Filer aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.6:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP55C 383/500HP..... 7439.99 ea

Stage 3 Performance Engines

540/660HP Dart Big Block

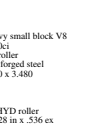

This ATK monster Stage Three 540ci Dart Big "M" engine produces over 660 HP and 650 lbs of torque in a dyno-tested and tuned package. All Stage Three motors are dyno proven, built from top quality parts and come with oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications
HP: 660+
Torque: 650+
Engine Type: Dart Big "M" Block V8
Displacement: 540ci
Block: Dart 9.8" deck height
Crankshaft: Scat 4340 forged steel
Bore/Stroke: 4.500 x 4.250
Rods: Scat H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Dart Pro Series 1
Chamber Size: 121 cc
Valve Size: 2.25 in x 1.88 ex
Intake Runner Volume: 325 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.7:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP42C 540/660HP... 12,299.99 ea

Supercharged 350/500HP

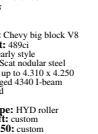

This 350ci supercharged engine produces 500+ HP and 494 lbs of torque in a ready-to-run package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications
HP: 500+
Torque: 494
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: 4340 forged steel
Bore/Stroke: 4.040 x 3.480
Rods: I-Beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 231 in x 239 ex
Cylinder Heads: ATK Pro-Filer aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 8.5:1
Rocker Arms: 1.6:1 full roller
Induction: Weiand 177 supercharger/carb
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP38C 350/500HP..... 9699.99 ea

489/565HP Stroker

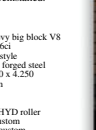

This 489ci stroker big block offers 565 HP and 595 lbs of torque in ready-to-run package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications
HP: 565
Torque: 595
Engine Type: Chevy big block V8
Displacement: 489ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel
Bore/Stroke: up to 4.310 x 4.250
Rods: Scat forged 4340 I-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Edelbrock Aluminum E-Street
Chamber Size: 110 cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 290 cc
Compression Ratio: 10.1:1
Rocker Arms: 1.7:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP41C 489/565HP..... 8049.99 ea

496/600HP Stroker

This 496ci street/strip stroker engine produces 600 HP and 605 lbs of torque. Includes: Moroso 6 qt. oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications
HP: 600
Torque: 605
Engine Type: Chevy big block V8
Displacement: 496ci
Block: 4 bolt main/roller
Crankshaft: 4340 forged steel
Bore/Stroke: 4.310 x 4.250
Rods: 4340 H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Edelbrock aluminum
Chamber Size: 118 cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 315 cc
Compression Ratio: 10.1:1
Rocker Arms: Howards billet full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800

HP63C 496/600HP... 10,079.99 ea

Each Engine Features a 24-Month/Unlimited-Mile Warranty!

New! High Performance Crate Engines from BluePrint Engines

BluePrint means fun, reliable horsepower that you can drive every day! That's why you'll find our engines in all kinds of vehicles – from street rods and muscle cars, to 4 x 4's and daily drivers. BluePrint Engines is large enough to bring competitive pricing and first rate engines to the marketplace, yet small enough to give each and every engine the care, testing and engineering our customers demand and deserve. If you've been shopping for an engine, keep in mind the features that differentiate BluePrint Engines: Each dyno-tested engine includes the dyno sheet, an industry leading 30-month/50k-mile warranty, and free technical support. With BluePrint Engines, you're not just buying killer performance, you're buying peace of mind!

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications. All except BP4271, BP4541 have RH oil indicator and tube.

Note: Special order, prepaid only.

Three ways to purchase!

From Basic . . .

Base Engine

Base engines include valve covers, oil pan, timing cover, brass freeze plugs and Dyno-test results shipped with engine. Choose your own intake, fuel system, and ignition components.

Base Dressed

Base dressed engines includes valve covers, oil pan, timing cover, aluminum intake, HEI distributor, carburetor, brass freeze plugs and Dyno-test results shipped with engine.

. . . To Plug and Play

Fully Dressed

Fully dressed engines include aluminum intake manifold, fuel delivery, HEI distributor, chrome valve covers, brass freeze plugs, water pump, spark plugs, spark plug wires, Dyno-tested and shipped with results.

Performance Crate Engines

355/375HP Flat Tappet

The 355ci engine produces 375 HP and 400 lbs of torque. Includes Melling high volume oil pump, oil pan, chrome timing cover and valve covers. Just add your own fuel and ignition components.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 375
Torque: 400
Engine Type: Chevy small block V8
Displacement: 355ci
Block: 4 bolt main, 1pc rear main seal
Crankshaft: BluePrint cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: Flat tappet
Camshaft Lift: .480 in x .486 ex
Duration @ .050: 229 in x 230 ex
Cylinder Heads: BluePrint aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.0:1
Recommended Fuel: 91 octane
Ign. Timing: 34˚ total at 3500 RPM
BP3551 355/375HP..... 3229.99 ea

1986-95 383/280HP TBI

The 383ci produces 280 HP and 388 lbs of torque. Rotating assembly balanced to within 2 grams. Includes: Melling high volume oil pump, aluminum TBI dual plane intake manifold, custom programmed ECM specific for application, oil pan, brass freeze plugs, hardened push rods, double roller timing chain, chrome timing cover and valve covers. This base engine is intended for throttle body trucks and SUV's from 1986-95.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 280
Torque: 388
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: Flat tappet
Camshaft Lift: .435 in x .454 ex
Duration @ .050-110˚: 209 in x 216 ex
Cylinder Heads: BluePrint modified stock
Chamber Size: 68 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Recommended Fuel: 91 octane
BP3835 383/280HP..... 3629.99 ea

355/390HP Roller Cam

This 355ci engine produces 390 HP and 410 lbs of torque with an upgraded hydraulic roller cam. Includes: Melling high volume oil pump, oil pan, chrome timing cover, Heavy duty double roller timing set and valve covers. Just add your own fuel and ignition components.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 390
Torque: 410
Engine Type: Chevy small block V8
Displacement: 355ci
Block: 4 bolt main, 1pc rear main seal
Crankshaft: BluePrint cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .503 ex
Duration @ .050: 220 in x 224 ex
Cylinder Heads: BluePrint aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.1:1
Recommended Fuel: 91 octane
Ign. Timing: 34˚ at 3500 RPM
BP3552 355/390HP..... 3529.99 ea

1986-95 383/315HP TBI

The 383ci performance engine produces 315 HP and 415 lbs of torque for your 1986-95 base engine for throttle body Trucks and SUV's. Rotating assembly balanced to within 2 grams. Engine is bored .040 over. Includes: Melling high volume oil pump, oil pan, chrome timing cover and valve covers installed, also includes TBI dual plane manifold and custom programmed ECM specific for application. Just add your own fuel and ignition components.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 315
Torque: 415
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: Flat tappet
Camshaft Lift: .480 in x .480 ex
Duration @ .050-112˚: 210 in x 220 ex
Cylinder Heads: BluePrint or World cast iron
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Recommended Fuel: 91 octane
BP3837 383/315HP..... 4429.99 ea

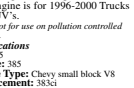

383/430HP Roller Cam

This 383ci performance engine produces 430 HP and 450 lbs of torque when used with a performance carburetor and manifold combination. Includes: Melling high volume oil pump, oil pan, chrome timing cover, heavy-duty timing set, brass freeze plugs and valve covers. Just add your own fuel and ignition components.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 430
Torque: 450
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .050-110˚: 221 in x 226 ex
Cylinder Heads: BluePrint aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.0:1
Recommended Fuel: 91 octane
Ign. Timing: 34˚ at 3500 RPM
BP3831 383/430HP..... 3999.99 ea

1996-00 383/325HP Vortec

Produces 325 HP and 385 lbs of torque. Rotating assembly balanced to within 2 grams. Include hardened pushrods, HP long slot rockers, brass freeze plugs, Melling high volume oil pump, oil pan, double roller timing chain, chrome timing cover and valve covers. Just add your own fuel and ignition components. This base engine is for 1996-2000 Trucks and SUV's.

Note: Not for use on pollution controlled vehicles.

Specifications
HP: 325
Torque: 385
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .480 in x .480 ex
Duration @ .050: 210 in x 220 ex
Cylinder Heads: Vortec cast irons
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Recommended Fuel: 91 octane
BP3836 383/325HP..... 3905.99 ea

Dressed Performance Crate Engines

355/390HP w/Alum. Heads

This 355ci engine produces 390 HP and 410 lbs of torque. Includes: an oil pan, Melling high volume oil pump, valve covers, heavy-duty double roller timing set, timing cover, brass freeze plugs, BluePrint or MSD HEI distributor, BluePrint or Edelbrock dual plane aluminum intake manifold, and Holley 600 cfm carburetor with electric choke.
Note: Not for use on pollution controlled vehicles.

Specifications
HP: 390
Torque: 410
Engine Type: Chevy small block V8
Displacement: 355ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .503 ex
Duration @ .050-112°: 220 in x 224 ex
Heads: BluePrint aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.1:1
Recommended Fuel: 91 octane
Ign. Timing: 34° at 3500 RPM
BP3553 355/390HP..... 4329.99 ea

383/430HP w/Alum. Heads

This 383ci engine produces 430 HP and 450 lbs of torque. This is a balanced rotating assembly. Includes: an oil pan, Melling high volume oil pump, valve covers, timing cover, heavy-duty timing set, BluePrint or MSD HEI distributor, BluePrint or Edelbrock aluminum dual plane intake manifold, and Holley 750 cfm carburetor with manual choke.
Note: Not for use on pollution controlled vehicles.

Specifications
HP: 430
Torque: 450
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .050-110°: 221 in x 226 ex
Heads: BluePrint aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.0:1
Recommended Fuel: 91 octane
Ign. Timing: 34° at 3500 RPM
BP3832 383/430HP..... 4629.99 ea

427/540HP Small Block

This 427ci engine with performance aluminum heads produces 540 HP and 535 lbs of torque on pump gas. Includes: an oil pan, valve covers, timing cover, BluePrint or MSD distributor, Edelbrock aluminum intake manifold, 850 cfm Holley carburetor and harmonic balancer.
Note: Not for use on pollution controlled vehicles. Has LH oil indicator and tube assembly.

Specifications
HP: 540
Torque: 535
Engine Type: Chevy small block V8
Displacement: 427ci
Block: 4 bolt, 2 pc rear main seal
Crankshaft: BluePrint 4340 forged
Rods: 4340 forged 6"
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .577 in x .577 ex
Duration @ .050-112°: 240 in x 248 ex
Cylinder Heads: BluePrint aluminum
Chamber Size: 65 cc
Valve Size: 2.08 in x 1.60 ex
Compression Ratio: 10.0:1
Recommended Fuel: 91 octane
Ignition Timing: 32-34° at 3500 RPM
PS4271 427/540HP..... 8629.99 ea

454/575HP Small Block

This 454ci with 575+ HP and 560+ lbs of torque in a ready-to-run pump gas package. Includes: oil pan, timing cover, valve covers, MSD Pro Billet distributor, Edelbrock aluminum single plane intake manifold, 950 cfm Holley performance carburetor, and harmonic balancer.
Note: Not for use on pollution controlled vehicles. Has LH oil indicator and tube assembly.

Specifications
HP: 575+
Torque: 560+
Engine Type: Chevy small block V8
Displacement: 454ci
Block: 4 bolt main, 2 pc rear main seal
Crankshaft: BluePrint forged
Rods: forged 6"
Pistons: forged
Rings: Hastings
Camshaft Type: HYD roller
Camshaft Lift: .538 in x .622 ex
Duration @ .050-112°: 251 in x 259 ex
Cylinder Heads: BluePrint aluminum
Chamber Size: 65 cc
Valve Size: 2.08 in x 1.60 ex
Compression Ratio: 10.0:1
Induction: carbureted
Recommended Fuel: 91 octane
Ignition Timing: 32-34° at 2500 RPM
PS4541 454/575HP..... 8929.99 ea

Fully Dressed Performance Crate Engines

355/385HP Vortec

This engine produces 385 HP and 405 lbs of torque in a dyno-tested and tuned package. All fully dressed motors are dyno proven, built from top quality parts and come with balanced rotating assembly, hardened push rods, oil pan, Melling high volume oil pump, timing cover, heavy-duty double roller timing set, chrome valve covers, BluePrint or MSD HEI distributor with spark plugs and wires, BluePrint or Professional products dual plane aluminum intake manifold, 750 cfm Holley carburetor with electric choke, fuel pump, water pump, and harmonic balancer.
Note: Not for use on pollution controlled vehicles.

Specifications
HP: 385+
Torque: 405+
Engine Type: Chevy small block V8
Displacement: 355ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint cast steel
Rods: GM heavy beam
Pistons: Keith Black hypereutectic
Rings: Hastings moly
Camshaft Type: Flat tappet hydraulic
Camshaft Lift: .480 in x .486 ex
Duration @ .050: 224 in x 230 ex
Heads: cast iron Vortec, seasoned & modified by BluePrint
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Recommended Fuel: 91 octane
Ignition Timing: 34° at 3500 RPM
BP3554 355/385HP..... 4481.99 ea

383/405HP Flat Tappet

This 383ci engine produces 405+ hp and 440 lbs of torque in a ready-to-run package. This balanced rotating assembly is bored .040 over. long slot stamped steel rockers, hardened pushrods, includes oil pan, Melling high volume oil pump, timing cover, heavy-duty double roller timing set, valve covers, BluePrint or MSD HEI distributor with spark plugs and wires, BluePrint or Professional products aluminum dual plane intake manifold, Holley 750 cfm carburetor with manual choke, fuel pump, water pump, and harmonic balancer.
Note: Not for use on pollution controlled vehicles.

Specifications
HP: 405+
Torque: 440
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: Flat tappet hydraulic lifter
Camshaft Lift: .487 in x .503 ex
Duration @ .050-112° lobe separation: 234 in x 244 ex
Cylinder Heads: cast iron Vortec
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Recommended Fuel: 91 octane
Ignition Timing: 34° total at 3500 RPM
BP3834 383/405HP..... 4629.99 ea

383/430HP Roller Cam

This 383ci engine offers 430 HP and 450 lbs of torque in this balanced rotating assembly that is bored .040 over. Includes: oil pan, Melling high volume oil pump, timing cover, heavy-duty double roller timing set, valve covers, BluePrint or Edelbrock aluminum intake manifold, BluePrint or MSD distributor, brass freeze plugs and Fast EZ EFI Injection system (hand held tuner/fuel pump not included).
Note: Does not include fuel pump, water pump, spark plugs or plug wires, harmonic balancer or flexplate.

Specifications
HP: 430
Torque: 450
Engine Type: Chevy small block V8
Displacement: 383 ci
Block: 4 bolt main, 1 pc rear main seal
Crankshaft: BluePrint or Scat cast steel
Rods: GM heavy beam /150,000 psi bolts
Pistons: hypereutectic
Rings: Hastings moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .050-110°: 221 in x 226 ex
Heads: aluminum
Chamber Size: 64 cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.0:1
Recommended Fuel: 91 octane
Ignition Timing: 34° total at 3500 RPM
BP3833 383/430HP..... 5929.99 ea

427/750HP Stroker

This 427ci supercharged stroker engine produces 750 HP and 740 lbs of torque. Includes: supercharger, electronic fuel injection, coil packs, oil pan, timing cover, valve covers, spark plugs and wires, LS3 intake manifold, and harmonic balancer.
Note: Not for use on pollution controlled vehicles.

Specifications
HP: 750
Torque: 740
Engine Type: Chevy small block V8
Displacement: 427ci
Block: 1 pc rear main seal
Crankshaft: BluePrint or Scat forged
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .624 in x .624 ex
Duration @ .050-114°: 239 in x 255 ex
Heads: BluePrint LS3 aluminum
Chamber Size: 68 cc
Compression Ratio: 10.8:1
Recommended Fuel: 91-93 octane
Ignition Timing: Powertrain control module

Motor Mounts & Components

If your truck has more than 50-60,000 miles or more or the motor mounts have been soaked with oil over time, chances are they are already in need of replacement. Worse yet, if you experience a thud upon acceleration or deceleration, check for signs of "fan scallop" on your radiator core or fan shroud. Use a pry bar to check the mounts for movement. A "fan scallop" or excess movement of the mount would be the telltale sign of a broken motor mount. This can be a dangerous condition as the engine can shift, causing the accelerator to stick in a full throttle position. These fine reproduction motor mounts are an inexpensive cure for this potentially dangerous condition.

C/K & R/V Series Pickup

Each motor mount will fit either LH or RH side unless otherwise indicated.

X2955

X2957

Beam Type Torque Wrench

Directly measure a variety of torque values in English and metric when tightening fasteners with this non-ratcheting torque wrench. Pointer moves clockwise or counterclockwise. Easily calibrated by bending pointer to zero before use.

X2955 1/4" fixed, inch/lbs ..... 54.99 ea
X2956 3/8" fixed, inch/lbs ..... 71.99 ea
X2957 1/2" fixed, foot/lbs..... 65.99 ea

Flywheel Turner

This tool hooks into the flywheel teeth to rotate the crankshaft. Use when working on clutches., transmissions, installing rings, or other jobs which require the crankshaft to be in a specific position. Spring tension aids tool engagement on the flywheel.

X2270 ..... 31.99 ea

Made in USA

The Engine Tilter

Works with standard engine hoists to provide an additional axis to maneuver – adjust the angle of the engine with a turn of the handle! The Engine Tilter is rated for 1200 pounds, made from steel, weighs only 14 pounds, and comes fully assembled. Includes an upper lap link and four 20" chains. Made in USA.

MN2087 ..... 157.99 ea

1256600 HC70

1256599 1256601

Chevrolet Engine Lift Brackets

Lift brackets were installed on the intake manifold for quick assembly ease on the production line. Installing these engine lift brackets will help make removing and installing the engine easier by providing strong lift points. Available for either big block or small block Chevrolet V8 engines. One pair required per engine.

Compression Tester

Compression tester detects worn rings, burnt valves and blown head gaskets. Features external pressure release valve, full 2-1/2" easy-to-read face. U.S. and metric scales. 14" high pressure flexible oil and grease resistant hose. 14mm and 18mm ends fit most spark plug openings.

AC7826 tester only ..... 21.99 ea

Fuel Pressure Tester

Use this fuel pressure tester to diagnose driveability problems caused by poor fuel pressure. Features a 40 inch hose, 2-1/2" gauge face with 0-100 psi/0-700 kPa scales, and a pressure relief button and 6 ft hose for safe gasoline disposal. Includes test adaptors for GM/Chrysler, GM TBI, M12 x 1.25 banjo bolt, and dual Manifold Test Adapter, as well as a handy storage pouch and a manual with step-by-step test procedures.

AC7838 ..... 51.99 ea

Made in USA

Remote Starter Switch

Allows one person to start or crank engine from under the hood. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Power tool type trigger switch for regular use with medium currents. Heavy-duty Neoprene leads. 10 amp, medium current clips open to 1/2". Protective rubber boots prevent electrical shorts. Ergonomic handle. One-year warranty. Made in USA.

AC7853 ..... 9.99 ea

Made in USA

Remote Starting Switch

Excellent tool allowing easy engine starting from under the hood. Features heavy gauge, rubber covered copper wire. Simply depress the button to jog or start the engine. Made in USA.

Y20750 ..... 19.99 ea

Made in USA

Heavy-Duty Remote Starter Switch

Start and crank engine from under the hood or from either side of the vehicle. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Convenient hot circuit red indicator light glows when starter switch is ready, light goes off when switch is depressed. Heavy-duty push button trigger switch, 5 foot heavy-duty leads, 12 gauge conductors. 20 amp, high current clips open to an extra wide 5/8" for easy hook-up. Protective rubber boots prevent electrical shorts. Soft, non-slip rubber grip. Made in USA.

AC7854 ..... 34.99 ea

Specialty Engine Tools

AC Delco 6V Inspection Camera

Thanks to advanced digital imaging technology, you can now see areas that were out of view and unreachable with inspection mirrors. Features a 3" high resolution color LCD display and small 8mm (0.32") camera head. The camera features a two setting 180 degree view flip, 12 setting adjustable zoom (up to 250%), and 5 setting LED brightness control, and a video out port for viewing on full size monitors. The waterproof camera head and flexcable allows you to explore virtually any environment.

***Important:** Requires 4 AA batteries (not included).*

AC100101 ..... 147.99 ea

AC7529

AC7528

Actron Advance Timing Light

This Advance Timing Light features an all metal inductive pickup, bright Xenon flash, and one touch control. Available with a degree dialed knob for easy timing adjustments or a digitally controlled with LED display and tachometer functions. Detailed instructions included.

AC7528 adjustable knob ..... 69.99 ea
AC7529 LED display ..... 94.99 ea

OBD II PocketScan Plus

PocketScan® Plus is the most advanced compact code reader available! Besides automatically reading DTCs (Diagnostic Trouble Codes), this scan tool provides freeze frame data, VIN info and performs I/M-readiness (Inspection Maintenance) testing. Displays over 4000 OBDII generic code definitions and is compatible with all 1996 and newer vehicles (OBD II & CAN).

AC9550 ..... 79.99 ea

Actron AutoTroubleshooter

This ingenious tool features automatic reverse polarity indication, automatic zero adjustment for volts and amps for accurate measurements and overload protection on all ranges. Performs all standard electrical tests for on-car and bench troubleshooting. Locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and your starting/charging system.

AC7677 ..... 54.99 ea

AutoAnalyzer Digital Multimeter

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pm bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for volts, amps, and battery tests, as well as an easy to read backlit LCD. Includes color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 ..... 31.99 ea

Elite Autoscanner Pro

This battery powered OBD I and OBD II enhanced scan tool features a large, backlit LCD and offers hobbyists and technicians the ability to read and erase generic and manufacturer specific DTCs (Diagnostic Trouble Codes), display and reset MIL (Malfunction Indicator Lamp) status, record and playback live sensor data, read and display I/M (Inspection/Maintenance) monitors and more! Read domestic enhanced codes, graph engine data, record stored vehicle information, and connect to a PC to print data and download updates. CAN compliant and compatible with ALL 1996 and newer OBD II compliant vehicles as well as certain pre-1996 GM, Ford and Chrysler vehicles.

AC9190 ..... 334.99 ea

Infrared Thermometer w/Laser Pointer

Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System-On-Chip technology creates a compact, lightweight design with a measurement range of -58 degrees F to +932 degrees F (-50 degrees C to +500 degrees C). Includes two AAA batteries and belt holster.

AC7876 ..... 61.99 ea

OBD II/ABS AutoScanner w/Code Connect

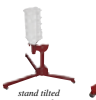

This OBD II scanner not only displays the diagnostic trouble codes, but also offers the most probable solutions for your specific vehicle when troubleshooting details are available thanks to the the CodeConnect database of 3 million verified fixes. Read and erase DTCs (Diagnostic Trouble Codes), display and reset MIL (Malfunction Indicator Lamp) status, read, record and playback live sensor data, read and display I/M (Inspection/Maintenance) monitors. Other features include an OBD II emissions check and drive cycle mode, ABS code read/erase capability for most 1996 and newer GM, Ford, and Chrysler vehicles, a large, backlit LCD, a USB port for updates, and the capability of printing data via PC. Compatible with OBD II and CAN vehicles 1996 and newer.

***Note:** Troubleshooting data in English only.*

AC9580 ..... 209.99 ea

stand folded up

stand tilted upward

M998088

Fold-Up Engine Stand

This fold-up engine stand features a 1200 lb capacity, heavy-duty 2-1/2" caster wheels, and folds to 14" x 40" x 18" when fully collapsed. 5 detent pins for folding. Allows normal use of engine stand when upright, as well as allowing the engine to tilt upward. Folding design allows for savings of valuable garage storage space.

***Note:** Shipped overweight.*

M998088 ..... 759.99 ea

Performance Products

1993-02 JET Performance Module

JET Performance modules offer the most horsepower available for your car when using a donor engine and computer system from a crate engine! Add up to 23 horsepower instantly with simple, plug-in installation! Only JET Performance programming provides exclusive, full range dynamic spectrum tuning of the air/fuel ratio, ignition advance, transmission and various other parameters. Each program is track and dyno-tested to ensure the most possible horsepower and drivability from each application. 50 state smog legal!

Stage 1

Is for stock or mildly modified vehicles. Fuel and timing curves are modified for optimal performance and mileage using less expensive, lower octane fuels. Programming is designed to burn fuel at peak efficiency, which results in improved performance and mileage. Daily drivers can use lower cost regular fuel for potential mileage gains, but for optimal performance gains use of mid-grade or better is recommended.

Stage 2

Is designed for the performance enthusiast, the Stage 2 features more aggressive programming to make the most horsepower and torque available. Fuel and timing curves are extensively modified for peak performance and drivability. Requires use of 91 octane fuel, 180 degree thermostat and free flow exhaust. Also works well with aftermarket intake systems, mass air sensors, TBI spacers, etc.

1999-02 LS1 Performance Programmer

The JET Performance Programmer lets you take control and program your own vehicle computer just the way you like it. Modify air and fuel ratios, ignition timing, shift points, shift firmness, speed limiter, and rev limiter settings. Exclusive JET Tri-Power tuning technology lets you tune for economy using lower cost regular fuel, or tune for performance using midgrade or premium fuels. All three modes are designed to operate the engine at peak efficiency to maximize horsepower and mileage for the given octane level. The programmer will also correct your speedometer and turn off the ABS system trouble light if you change tire size or gear ratios, modify the temperature that the cooling fan turns on and bypasses the skip shift mechanism on manual transmissions. A built in scan tool reads and clears diagnostic codes when your check engine light comes on, saving you a trip to the dealer.

JT15029	1999-02	AT or MT	.....	339.99 ea

2006-14 JET Performance Programmer

Jet Performance's all new Performance Programmer for 2006-14 Chevrolet/GMC models brings your engine to life. This powerful tool allows the user to modify automatic transmission shift points, transmission shift firmness and enable/disable the top speed limiter. The programmer offers three different tuning presets to maximize performance whether you're burning economical regular octane, mid-grade or premium high octane, allowing you to adjust your performance level. In addition, the programmer also features a built-in OBD-II type Scan Tool which can read and clear Diagnostic Trouble Codes (Check Engine Light) and also offers live data monitoring functionality. Unlike other programmers, this unit is updateable via the internet via a simple USB interface.

Hypertech Speedometer Calibrator

The Hypertech Speedometer Calibrator allows speedometer and odometer correction for 2007-12 cars and trucks when changing rear axle gears. It can also clear DTC's and make corrections for tires 24" to 54" in 1/4" increments. Completely user friendly and simple to use! It updates via internet and can easily return the vehicle to stock tune! Additional software can also be purchased and installed turning it into a Max Energy power programmer.

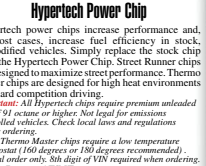

732501	2007-12	GM vehicles	....	229.99 ea

Max Energy Power Programmer

This CARB-approved power programmer can give your 2007-12 gas or diesel vehicle an extra 10 to 40 horsepower. The Max Energy programmer allows countless adjustments from shift points to speedometer calibrations for a wide range of gear ratios and tire sizes. It allows up to 1000 RPM adjustments of the rev limiter, the ability to change the top speed limiter and can be used to read and clear DTCs. It updates via internet and can easily return the vehicle to stock tune, if necessary.

32501	2007-12	GM vehicles	.....	384.99 ea

Hypertech Power Chip

Hypertech power chips increase performance and, in most cases, increase fuel efficiency in stock, unmodified vehicles. Simply replace the stock chip with the Hypertech Power Chip. Street Runner chips are designed to maximize street performance. Thermo Power chips are designed for high heat environments and hard competition driving.

Important: *All Hypertech chips require premium unleaded fuel of 91 octane or higher. Not legal for emissions controlled vehicles. Check local laws and regulations before ordering.*

Note: *Thermo Master chips require a low temperature thermostat (160 degrees or 180 degrees recommended) . Special order only. 8th digit of VIN required when ordering.*

LS9 6.2L/638HP

The Corvette ZR1 LS9 6.2L engine in a fully dressed crate engine package! The LS9's lightweight reciprocating mass, sixth generation supercharger and high flow cylinder heads combine to provide 638 horsepower at 6500 RPM with a neck-breaking 604 ft lbs of torque. Includes a 14" manual transmission flywheel and an intercooler pump. Requires an external oil tank for the dry sump oiling system. Requires a water tank and a heat exchanger for the charge cooling system. Does not include ECU or wire harness. Accessory drive system not included. Crankshaft has a unique 9 bolt flywheel mounting pattern. May require an adapter for use with some transmissions. This engine is intended for installation in pre-1976 nonpollution controlled vehicles or for off-road use.

Note: Special order, prepaid only. Shipped truck freight.

LSA 6.2L/556HP

The supercharged 6.2L LSA engine from the Cadillac CTS-V and Camaro ZL-1 in a fully dressed crate engine package! This cousin of the Corvette LS9 produces 556 horsepower at 6100 RPM with 551 lbs of torque at 3800 RPM. It's a rare engine that offers smooth and well-balanced performance. Includes a 14" dual mass manual transmission flywheel and an intercooler pump. Does not include ECU, wire harness, or accessory drive system. Requires a water tank and a heat exchanger for the charge cooling system. May require an adapter for use with some transmissions. This engine is intended for installation in pre-1976 nonpollution controlled vehicles or for off-road use.

Note: Special order, prepaid only. Shipped truck freight.

LSA Supercharger Set

G25018 *G25016*

Add horsepower to any LS engine with rectangular port L92 style heads! This is the same 1.9L supercharger found on the 6.2L LSA engine with a slightly different intercooler cover. A pair of Eaton four lobe high helix rotors makes this unit extremely efficient at low rpm but sustains the output into high RPM. On a 6.2L engine it produces about 9 lbs of boost but boost pressure may vary with engine displacement and compression ratio. This set includes: intake, fuel injectors, cast cover, intercooler, front pulley, throttle body, and gasket set. Installation requires proper tuning of the vehicle computer system along and a high pressure, high volume fuel pump. Intercooler requires a liquid cooling system consisting of a heat exchanger, a coolant tank and a coolant pump. The ZL1 fuel pump module delivers 66 gph at 65 psi, a significantly greater volume than a standard pump. This module is perfect for custom tanks and motors up to 600 HP.

***Important:** This product may not be legal for highway use in all 50 states.*

Note: Special order, prepaid only. Shipped double oversized.

G25018 LSA supercharger set ..... 7740.99 set

G25016 ZL1 fuel pump module ..... 264.99 ea

ZL1 Supercharger

New!

This supercharger is original equipment for the 6.2L LSA powered 2012-13 Camaro ZL1 and will bolt onto any LS engine using rectangular L92 heads. Displacing 1.9L, this supercharger features a built-in water to air intercooler and a pair of Eaton twin vortex high helix rotors to produce approximately 9 pounds of boost on a 6.2L engine. Each supercharger assembly includes the intake system with injectors, ribbed cast cover and intercooler with front facing lines, front pulley, throttle body, and a gasket set.

***Important:** Installation requires a liquid cooling system with heat exchanger, coolant pump, and coolant tank, as well as a high pressure high volume fuel pump, and reprogramming or replacing the engine management system. Not legal for highway use on pollution controlled vehicles in all 50 States.*

Note: Special order, must be prepaid. Shipped double oversize.

G19300 ..... 7819.99 ea

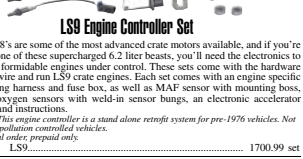

LSA And LS9 Intercooler Fluid Pump

This factory engineered mechanical pump circulates coolant between the intercooler on top of the supercharger and heat exchanger for 6.2L LSA and 7.0L LS9 engines. It can also be installed with any forced induction system that uses a liquid to air intercooler.

Note: Special order, prepaid only.

G25015 LSA/LS9 ..... 249.99 ea

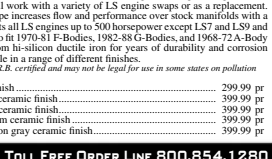

LS9 Engine Controller Set

The LS9 V8's are some of the most advanced crate motors available, and if you're installing one of these supercharged 6.2 liter beasts, you'll need the electronics to keep these formidable engines under control. These sets come with the hardware needed to wire and run LS9 crate engines. Each set comes with an engine specific ECM, wiring harness and fuse box, as well as MAF sensor with mounting boss, a pair of oxygen sensors with weld-in sensor bungs, an electronic accelerator assembly, and instructions.

***Important:** This engine controller is a stand alone retrofit system for pre-1976 vehicles. Not for use with pollution controlled vehicles.*

Note: Special order, prepaid only.

G19299 LS9 ..... 1700.99 set

85010

LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. The contoured shape increases flow and performance over stock manifolds with a traditional look. Fits all LS engines up to 500 horsepower except LS7 and LS9 and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72A-Body vehicles. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

***Important:** Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.*

LS Conversion Components

1967-98 2WD Truck LS Conversion Sets

These unique sets take the guesswork out of installing an LS engine in a 1967-98 2WD GM truck. These sets are designed around the LH8 oil pan. The mounting system positions the engine and transmission with room for most accessory drives, exhaust systems, heater boxes, steering and power brakes. Sets are available for T-56, 4L60E, 4L80E transmissions. The sets include: a transmission crossmember, engine and frame mounts, and mounting hardware. All mounts are protected by a manufacturers lifetime replacement warranty. Made in USA.

Made in USA

Note: Truck LS oil pans can be used but may cause clearance issues on lowered trucks.

LS9 6.2L Accessory Drive System

Front engine accessory drive system for the 6.2L LS9 engine. The drive system assembly comes with alternator power steering pump, power steering reservoir and AC compressor along with all brackets, bolts, tensioners, pulleys and belts. Includes instructions.

Important: This set includes an alternator bracket which is pre-installed and bolted behind the water pump on crate engines.

Note: Special order, prepaid only.

LS Oil Pans for Conversion Sets

These OE pan sets include the gasket, windage tray, oil pickup tube, and mounting hardware. An available oil pump pickup tube girdle improves the fit and seal of the pickup tube in the oil pump with an extra bolt to clamp it in place.

*Note: *Machined for bypass valve. These pans must be used in conjunction with the LS conversion sets.*

1955-87 Holley Retrofit LS Oil Pan

Holley

Holley's Retro LS oil pan is designed for maximum chassis and ground clearance on 1955-87 GM rear wheel drive V8 applications originally equipped with a rear sump oil pan. Each pan is made from machined cast aluminum and uses an original style oil filter and gasket. Features provisions for a factory style oil cooler and attachment points for the factory bellhousing. Set includes: sump baffle, pickup tube, sump plug, oil filter stud, and oil passage cover.

Note: Requires the use of LS3 dipstick and dipstick tube.

LS Conversion Components

Adjustable LS Motor Mount Adapter Set

This adapter set allows the installation of LS engines into 1967-72 Camaro models using a standard 3 bolt motor mount. These adjustable mounts position the engine in either the original location, 1" forward, or 2" forward to allow for transmission bellhousing clearance. Each mounting location is positioned to allow proper driveline alignment. For greater positioning flexibility, each position allows an additional 1/2" of adjustment. Set includes: engine mounting plates, adjuster plates, hardware and instructions.

Note: Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow full front to back adjustment of the adapter. Not for use with "clamshell" type mounts.

A9750010 adapter set ..... 174.99 set

LS700200

LS700201

FitRiteTM LS Engine Mount Kit

This kit is made to assist you with your project. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter kit allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3" forward for a full 3-1/2" of travel with a completely custom range of positions. The short adapter kit is a smaller, more compact version, moving the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. This exclusive design no-weld brackets are CNC laser cut steel and features a durable black powder coat finish. FitRite™ kits include POLYPLUS™ engine mounts.

Note: The short adapter works well with the low mounted air compressor.

Billet Aluminum LS Valve Covers

Give your LS engine a clean, classic look with these billet valve covers! Their modular design incorporates billet tops to cover the ignition coils and the oil cap to provide the appearance of traditional ribbed aluminum valve covers. Available in black anodized or mirror polished finish for LS1 and LS3 engines. Includes: billet oil cap, polished ARP stainless steel hardware, and installation instructions. Made in USA.

Important: Must be used with engine model specific OEM GM ignition coils.

VC50011 VC50015

Billet, Cast and Fabricated LS Valve Covers

Billet, cast and fabricated aluminum valve covers for GM vehicles. These valve covers feature a screw-on aluminum oil filler cap, and are available in either machined or polished finish. The billet and cast valve covers fit all LS and the fabricated covers fit LS1 and LS6. All valve covers include mounting hardware, and the fabricated valve covers include gaskets. LS coil covers for LS1 and LS6 fabricated valve covers are made from formed and welded aluminum. Coil covers include a billet aluminum oil fill extension and mounting hardware.

*Note: *Taller than stock. These valve covers are 1-3/4" tall. **Some applications may require modification.*

LS Valve Cover Adapters

LS valve cover adapters enable owners of LS engine equiped vehicles to bolt on a set of 1958-86 classic small block Chevrolet valve covers. Transform the look of your modern 4.8L, 5.3L and 6.0L LS engine, making it match your vehicle. Manufactured from 3/16" laser cut steel and painted black. Includes: adapter plates, adapter to head gasket and mounting hardware.

T6138 1958-86 ..... 211.99 set

LS Coil Covers – Big Block Style

These coil covers from Holley Performance give modern LS engines a classic big block appearance. Made from a lightweight, durable composite that can be painted to match any color scheme and designed to fit on LS2, LS3 and LS7 and other LS family engines using LS3 style valve covers and coils. Set includes: covers, OE style ball mount snap on studs, oil cap, oil fill adaptor and detailed installation instructions.

Important: Covers are a universal fit and require trimming for proper installation.

H2421 LS coil covers ..... 184.99 pr

LS Coil Covers

Elegantly hides LS coil packs. Fits GM LS engines utilizing existing coil bracket mounting points. Has a cutout for the oil filler. Designed to fit LS crate motors and will not clear factory high mount alternators (such as those found on Corvettes) unless a cutout is fabricated or aftermarket alternator and brackets are used. Best suited for aftermarket serpentine pulley systems. Machined from 6063-T6 aluminum. Can be used with relocated coil packs for a lower profile appearance. Dimensions 19.5" x 5", available in black or mill finish. Made in USA.

P130 black finish ..... 229.99 pr

LS Series Engine Covers

SP3026C9 SP3026C

Give your LS series engine a cool custom look with these smooth top covers. These engine covers are manufactured to your specifications in your choice of black, red, blue or white (if painted) or real carbon fiber; custom fit to your specific LS engine and accessory drive pulley setup and the option of a pre-cut oil filler hole.

Note: Specify color, vehicle year/model, type of LS engine and accessory belt drive setup and specify pre-cut oil filler hole option and desired color. Special order.

Edelbrock Performer RPM LS1

Looking to install a carburetor on an 1997-02 LS1? Edelbrock has you covered. This performer RPM manifold set comes with the major components needed to install a 600-800 cfm carburetor on a modern LS1, LS6, LM7, LR4 and LQ4, maximizing maximum horsepower and torque from 1500 to 6500 RPM. The system includes a 4 barrel non-EGR manifold, MAP sensor, wiring harness and MSD ignition controller for LS1 24x ignition systems (offers choice of 6 timing curves), along with throttle and trans cable brackets.
Note: 600-800 cfm carburetor recommended. Not legal for pollution controlled vehicles.

MSD 6LS Ignition Controller

The 6LS and 6LS-2 Ignition Controllers allow you to map a timing advance curve, as well as program a two step rev limiter, a vacuum advance curve, and even a step retard in case you want to add nitrous to the mix. The 6LS is designed for LS1/LS6 type engines with a 24 tooth wheel, which can be identified by the black crank sensor connector. The 6LS-2 is designed specifically for the LS2/LS7 with a 58 tooth wheel and gray crank sensor connector. Both 6LS ignition controllers use factory style connectors for a direct installation and are compatible with carburetors and EFI. Includes software CD, six timing modules, harness, and instructions.
Note: Does not control fuel injection.

Vintage Air Front Runner Drive

Vintage Air's Front Runner Drive features include a block mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hardcoat finish. The black hardcoat sets include black hardcoated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hardcoated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), High-performance water pump and GM 170 amp alternator. The Vintage Air TiteFit Line/compact compressor package is perfect for that nice tight and clean look.

Important: Not compatible with any LT1 engine.

Note: Shipped oversize.

1994-02 Fuel Injection Engine Swap Wiring Harness Sets

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven F.I. engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each of these sets include detailed instructions and illustrations.

The Detail Zone Wiring

RON FRANCIS WIRING

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telorvek panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECM's require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

*Note: *Corvette engines must use the Camaro/Firebird ECM in order to use this wiring set. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.*

Painless Wiring

PAINLESS

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer G8606 and a mechanical throttle body.

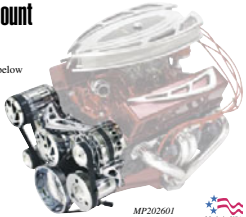

*Important: *Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections. **Requires use of factory 2002-03 Corvette LS6 ECM, accelerator pedal, and TAC module.*

March Performance Pulleys

March "Ultra Drive" Front Mount Serpentine Sets

This system has been designed to mount accessories below the valve covers and between the width of the heads. Precision CNC-machined from 6061-T6 aluminum for strength and perfect fit, hardcoated on high wear areas and clearcoated to eliminate polishing in those hard to reach places to look great for years to come. Set is designed to fit Ram Jet, TPI, Single and multi carb engines and includes an oversize crank pulley that aids in driving your alternator, AC and water pump at idle, where it counts.
Note: Serpentine belts are not included in any of the sets, however, the belt length is included below for information purposes. All sets include short reverse water pump. Shipped overweight.

March "Revolver" Serpentine Sets for Short Water Pump

MP212601

Made in USA

This serpentine conversion offers the same combination of style and low price as the Style Track alternator, AC and power steering set, but cool Revolver styling. The highly styled one piece bracket provides a rigid support for the alternator and AC compressor. A separate bracket allows the option of power steering or no power steering. The Revolver uses a unique, easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. The Revolver offers a much cleaner appearance as a result. Includes all instructions and hardware. Features maintenance-free clear, black or black onyx powder coated or chromed.

Important: No cylinder head accessory holes needed for mounting. Serpentine belt is not included with any set. Length of belt is listed below, and is included in the instructions also.Big block sets are for 9.8" deck height blocks. Power steering hoses and reservoir not included.
Note: Shipped overweight.

March "Mid Mount" Alternator and Power Steering Serpentine Conversion Ultra Sets for Long Water Pump.

Made in USA

"Mid Mount" Alternator and Power Steering serpentine sets from March Performance offer an exciting new look! A higher mounted power steering pump bracket helps clear the steering gear box in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratio pulleys for increased cooling. CNC-machined from solid billet 6061-T6 aluminum for a spectacular machined finish with perfect fit and extra high strength. Designed for a great appearance from any angle, these brackets are even machined on the engine facing side. All billet pulleys and brackets have a "No Polishing" maintenance-free clear powder coating. Also available black powder coated.

Note: Serpentine belts are not included with sets. Length of belt is listed below, and is listed in the instructions also. All alternator belts are 6 rib. Shipped overweight.

Available Finishes

1 – clear powder coated finish

4 – black powder coated finish

Sets Include

- Crankshaft Pulley
- Water Pump Pulley with Nose Cover
- Alternator Pulley with Fan & Nose Cover
- Alternator Bracket with Relocation Arm
- Alternator Bracket Adjustment Tool
- Stainless Steel Tensioning Rod
- Chrome Moly Rod Ends
- Mounting Hardware
- Power Steering Bracket
- Power Steering Pulley
- Power Steering Pulley Nose Cover (Big Block)

Crankshaft Pulleys

Vintage Air Front Runner Drive

Vintage Air's Front Runner Drive provides the ease of a modern serpentine belt system. This engineered package solves issues with premature belt failures caused by mechanical tensioning, excessive belt length runs, awkward component placement, and cylinder head mount bolt variations. Features include a block mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hardcoat finish. The black hardcoated sets include black hardcoated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hardcoated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), Hi-performance water pump and GM 140 amp alternator. The Vintage Air TiteFit Line/compact compressor package is perfect for that nice tight and clean look.

Important: *On Chevy Z24 engine, composite timing cover mounting bolt must be modified or timing cover may be replaced with steel cover (GM part #12523317 or equivalent), for standard short water pump clearance. Not compatible with any LT1 engine. PS = power steering.*
Note: *Shipped oversize.*

Performance V-Belt Pulley Sets

Performance pulleys can free up to an additional 12-15 horsepower at the rear wheels by reducing accessory drag and eliminate belt throwing. The High Water Flow Ratio V-Belt pulley sets are designed for daily street driving, they aid cooling by increasing water flow and fan speed. Both sets are precision CNC-machined from 6061-T6 aluminum to run perfectly true. Designed for extra strength and finished with a "No Polishing" clear powder coated. All sets include: a crank pulley, water pump pulley and single groove alternator pulley.
Note: **Requires 1980's style water pump for clearance or any aftermarket water pump.*

JT90140

1985-97 JET Underdrive Pulley Set

The JET Underdrive Pulley Set reclaims lost horsepower and mileage by reducing the drag placed on the engine to drive the accessories such as the air conditioning, power steering and water pump. The JET Pulleys slow down these accessories to allow the engine to turn with less effort without any adverse effect on the operation of AC, power steering, charging or cooling systems. Installation consists of simple bolt-on replacement of the stock pulleys. Sets include: pulleys, hardware, complete instructions and part number for new serpentine belt (most sets will require use of smaller size belt). Includes 2 pulleys.

***Important:** Belt is not included with set. Number and type of pulleys will vary per application.*

JT90106	1985-87	350 TPI	159.99 set
JT90108	1985-95	3.4L	129.99 set
JT90107	1988-92	350 TPI	169.99 set
JT90140	1993-97	350 LT1	304.99 set

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

PROFORM

Harmonic Balancer Tool

Works with all Ford, GM and Chrysler engines. This heavy-duty, professional tool, equipped with roller thrust bearings, can also be used as a universal puller! Includes: 7/16"-20, 5/8"-18, and 3/4"-16 adapters and various removal hardware. May also be used for steering wheel and pulley installation and removal. Maximum recommended torque is 150 ft lbs.

66514 ..... 74.99 set

Harmonic Balancer Puller

Removes balancers, pulleys, and gears with tapped holes. A floating swivel prevents damage to the shaft end. Four slots in the yoke allow for two or three hole applications. Includes: 3/8"- 24 UNF, 5/16"-18 UNC, 3/8"-16 UNC and 10mm screws for most American and imported cars.

X2286 ..... 24.99 ea

PROFORM

Harmonic Balancer Tool

This tool makes installing the harmonic balancer simple. Just thread the proper end into the crankshaft, and then rotate the nut which presses the bearing against the balancer.

Fluidampr Performance Harmonic Damper

Fluidampr performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone-based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations at almost any frequency and constantly adjusts itself for optimum performance at all RPM ranges. Fluidampr products are made from CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: Small block dampers are not for use with 1992 and later LT1 engines.

HD100001

HD100012

Chevrolet Pro/Race Harmonic Damper

PRO RACE high-performance harmonic dampers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. PRO RACE dampers are ideal for the additional torque loads from belt driven superchargers. The STREET damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. On the RACE damper, the elastomer is bonded to the steel hub and ring to endure sustained high RPM conditions. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally balanced application. Internally balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

Important: Pro Street or Pro Sport Counterweights are not interchangeable with Pro Race Counterweights.
Note: #HD100016 and HD100019 are NOT drilled to accept counterweights.

Edelbrock

Replace Your Stock Timing Chain with a Precision Gear Drive System from Edelbrock!

Made in USA

E7890

Accu-Drive® Camshaft Gear Drives

The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly. Most Accu-Drives require no modifications to the engine block, although some fitting of the axles and front cover may be required. The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.

Important: *Not for stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil galley bosses on block when in the most rearward position. Grind or machine block for clearance.*

Timing Components

Small Block Chevy Dry Timing Belt System

Get more performance out of your small block with the Magnum dry timing belt system! This system absorbs crankshaft harmonics and is more durable and more accurate than traditional timing chains or aftermarket gear drive systems, especially at high RPM. The Magnum belt drive system is ideal for street performance and budget minded race applications. Make quick timing modifications at the track without the hassle of removing a timing chain cover! Includes: main plate, gears, belt, shims, mounting hardware, and instructions.

Note: Minor block modification may be required.

61100B	replacement timing belt	69.99 set

Small Block Chevy Wet Timing Belt System

Get more performance out of your small block with the Magnum wet timing belt system! This system absorbs crankshaft harmonics, keeping the timing accurate with virtually no fluctuation. It is also more durable than traditional timing chains or aftermarket gear drive systems, especially at high RPM. The Magnum belt drive system is ideal for street performance and budget minded race applications. Designed to work with billet timing cover #21101 but works with most late model flat covers. Includes: upper and lower timing gears, belt, cam timing bushings, shims, cam button, mounting hardware and instructions.

Note: Minor block modification may be required.

K&N 14" Low Profile Chrome Air Cleaner

This air cleaner provides a low profile by dropping the filter 7/8" or 1-1/4" below the carburetor flange. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. The 7/8" drop will fit carburetors with electric choke mechanisms. Optional vent kit, item #851190 is available and sold separately. Total height listed below is the minimum clearance needed above the carburetor flange.

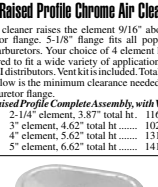

*Important: *Items marked with asterisk will not fit Edelbrock carbs with electric choke.*

K&N Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes: oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

Retro Style Air Cleaner

The design of this heavy gauge steel air cleaner is based on the 1951-56 Oldsmobile and Cadillac oil bath air cleaners. Measures 18-1/4" wide and uses standard 14" x 4" filter elements. Powder coated semi-gloss black. The base fits most carburetors and throttle bodies with 5-1/8" diameter mounting flanges. The rear is notched to provide clearance for HEI distributors. Includes filter element, chrome rocket shaped wing nut, and air cleaner decal.

CL8500 retro air cleaner ..... 149.99 ea

Made in USA

Ribbed Billet Air Cleaners

Manufactured from machined billet aluminum with a mirror polished finish. Each air cleaner includes a K&N filter, stainless steel mounting hardware and detailed instructions. Available in a 14" round version or a dual quad configuration with adjustable base plate to allow for variations in carburetor spacing. Made in USA.

Note: Not for use with Dominator carburetors.

Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of particles from entering your carburetor from between the air filter and air cleaner assembly. This is important if you will be operating your vehicle off-road. The Sealing Grease resists heat and will not melt or run off.

Performance Intakes

Spectre offers a wide assortment of highly innovative products with unmatched quality and value. From HPR high-performance racing filters that offer a washable, reusable high flow air filtration solution to ProFab cold air intakes which brings a smooth stream of cool, dense air into the engine for power you can feel every time you step on the gas. Spectre uses 3D CAD software to design and test new products before a rapid prototype machine creates a quality ABS model which is used to test form, fit, and function. Performance is verified by a computer controlled flowbench which can measure air flow with OEM engineering accuracy. This dedication to quality shows up in the final product, resulting in unmatched performance and value.

Vintage Series Small Block Valve Covers

Vintage Series valve covers are designed to fit all 1958-86 small block Chevrolet engines with perimeter bolt patterns. The die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. The valve covers stand 3.5" tall with pre-installed internal oil baffles on emission compliant models. The oil fill and PCV grommets are also included.

Note: *If your engine has non-standard valve train components, such as a high lift camshaft, roller tip rocker arm, higher lift ratio rocker arms, stud girdles, etc., there may be insufficient clearance.*

LS Aluminum Slant Edge Valve Covers

Cast aluminum slant edge valve covers for GM LS V8 motors. ProForm has developed a full lineup of valve covers that will give your stock LS a totally personalized look. These new valve covers are taller than stock valve covers, and can accommodate a wide variety of large valve train applications. The covers are available in different styles, including raised and recessed emblems. Unique mounting studs and oil restricting baffles are included. Threaded mounting holes for Integrated Ignition Coil Brackets are included. The passenger side valve cover has an oil filler hole (we suggest oil filler cap part #D141630). Proform also suggests using Fel-Pro valve cover gaskets for best seal, our part number is A9700110. Valve covers are sold in pairs.

Important: *LSX-DR owners will need to purchase a LSX-DR mounting bolt kit part #D66330.*
Note: *The following rocker configurations will require the valve cover to be slightly modified: Jesel part #KSS-317070, KSS-317575, and KSS-318080.*

Underhood Wiring Conduit

De-Clutter Your Engine Bay!

Take the ugly out of your electrical wiring with underhood wiring conduit. All of the major components are triple chrome-plated or are polished 304 stainless steel. Choose from a complete starter set with accessories, or piece together your own custom application!

Complete Conduit Starter Set

Is your hood hiding a mess of wiring and vacuum lines? De-clutter your engine bay with this conduit set! This set includes: 15 feet of 1/2" polished stainless steel flexible conduit, enough for most applications, as well as six chrome 1/2" conduit terminators, two 1.50" x 2" chromed aluminum enclosures, chrome aluminum firewall pass through, and twelve 1/2" nickel-plated mounting clips.

42565 conduit starter set..... 129.99 ea

Billet Choke Covers

These chrome-plated choke covers enhance the appearance of dressed engines by covering the plastic choke on Edelbrock, Demon, and Holley carburetors. Each billet aluminum cover comes with a snap-in louvered insert. Available as an individual cover or as a kit with polished stainless steel conduit.

42563 choke cover kit..... 44.99 ea

Firewall Pass Through Enclosure

Compliment your stainless steel conduit with this firewall pass-through! This chrome-plated aluminum enclosure makes it easy to pass wires through to the engine compartment. Machined with two holes for terminators and fitted with a rubber grommet for firm seal. Includes: stainless mounting hardware and cover gasket.

Note: Enclosure does not include conduit or terminators.

42564 firewall pass through enclosure.. 24.99 ea

Flexible Stainless Steel Conduit

Customize your engine bay with this polished stainless steel conduit! Flexible enough to be routed in virtually any shape or direction, this conduit protects wiring and vacuum lines while providing a clean, clutter-free appearance under the hood.

42571 1/4" conduit 5 foot roll..... 12.99 ea
42561 3/8" conduit 10 foot roll..... 29.99 ea

Universal Aluminum Enclosure

Clean up junction blocks and terminals with these chrome-plated aluminum enclosures! These universal enclosures feature a ball milled style cover and can be used as junction or termination blocks for wiring when incorporated with the flexible stainless steel conduit termination fittings.

Note: Enclosures do not include holes for mounting or conduit terminator installation.

42558

Conduit Termination Accessories

Organize your stainless steel conduit with these chrome plated terminators! These connectors and terminators accent your engine bay while protecting wires and hoses from engine heat, dirt, and debris. Available in three diameters with a common thread size for each to fit the end caps and tees.

42551 3/8" terminator..... 4.99 ea
42558 T-fitting..... 7.99 ea

Conduit Mounting Clips and Brackets

These bright nickel-plated clips secure your stainless conduit to keep your installation looking clean and professional. Use with the chrome-plated universal mounting brackets to allow spacing from fender wells, fire walls or can even be used on the engine.

42555 universal mounting bracket..... 5.99 ea

PCV Valves

Keep Your Oil Cleaner!

Made in USA

Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high-performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully rebuildable, 6061-T6 billet aluminum dual-flow PCV valve. Once adjusted, the valve will provide sufficient vacuum to the crank case both during idle and during engine acceleration. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV lines. An available adapter allows for installation on 3/8" i.d. inline applications. PCV valve set includes valve, vacuum gauge fitting, allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution-controlled vehicles.

Specialty Grommet

This is a rubber oil baffle and breather grommet all in one! The angled slots on the bottom and foam insert stop oil seepage and act as a baffle. Installs on all steel valve covers with 1.25" diameter breather holes. Utility plug manufactured in rubber for valve covers with 1.25" diameter holes. Will plug up the opening hole when not using PCV or oil filler cap applications.

Valve Cover Hardware

1969-74 Valve Cover Bolt Set

This set includes reproductions of the original "M" bolts which were stock on all 1969-74 models that used the black powder coated aluminum or the polished aluminum valve covers. These bolts were slightly longer than the standard valve cover hold down bolts which allowed correct installation onto the cylinder heads. Each retaining bolt features the original "M" in circle markings for an authentic appearance. Set of 8.

Valve Cover Hold Downs

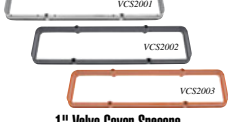

These innovative valve cover hold downs are ideal to prevent leakage for stamped small block Chevy valve covers. They are easy-to-install and by applying even pressure on the entire mounting flange, they'll eliminate the possibility of leaks. Hold downs with wire looms also offer the advantage of attached spark plug wire looms for an ultra clean engine compartment. Your choice of with or without looms in a variety of colors.

Intake Manifold Hardware

Oil Return Screen Set

This oil return screen set is inexpensive insurance on any modified small block Chevy engine. The screens install in and over the oil drain holes in the lifter valley, trapping debris from valve train failure, keeping it out of the oil pan. Includes: galley plugs, screens and a special epoxy for installation.

225000	oil return screen set	24.99 set

225050

Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.

Made in USA

Performer EPS Vortec Manifold

Available for small block Chevrolet with Vortec or Edelbrock E-Tec cylinder heads, the performer EPS dual plane manifold is optimized to deliver superior performance with Edelbrock square bore Performer Series or Thunder Series AVS carburetors. The runner design is "tuned" for peak torque around 3500 RPM on a 350 inch engine and it's ideal for off-idle through 5500 RPM. Dyno-tests showed gains averaging 5+ ft lbs of torque from 3000 to 4500 RPM for more performance where you need it most. Match with a dependable Edelbrock square bore carburetor for maximum performance gains.

Holley

H8120

1955-86 Black Ceramic Coated Intake

Holley introduces select intake manifolds in an all new carbon black ceramic coating that provides an aggressive yet subtle look that goes perfectly with the understated build styles that are popular today. Provides the added benefits of corrosion protection, heat resistance and ease of cleaning. These dual plane, square bore, non-EGR manifolds fit 262-400 small block Chevrolet engines. The Street Warrior manifold is 3.5" in the front and 4.5" in the rear and has a power band from idle – 5500 RPM. The Speed Warrior manifold is a high rise that is 4.19" in the front and 5.27" in the rear and has a power band from 1500-6700 RPM.

Made in USA

Edelbrock Performer

Edelbrock Performer manifolds are dual plane, low rise intake manifolds with a patented runner design that you won't find on other brands. This patented design greatly improves throttle response and torque over a wide RPM range, especially from idle through the mid-range. Manifolds are offered in EGR and non-EGR versions for most GM V8's, and most Performer intakes are 50 state street legal when used with the correct carb and application. Made in USA.

Made in USA

Edelbrock Performer RPM

Performer RPM manifolds are dual plane, high rise intake manifolds with a 180 degrees firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match the free flowing exhaust, and high lift cams and other modifications of a high output engine. They are intended for high-performance street or competition engines that run up to 6500 RPM. Not intended for emissions controlled vehicles. Made in USA.

Engine Components

Small Block Heads

E60719

1955-86 Small Block Performer Head

Designed for 1955-86 small block Chevys, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. These are 50 state street legal heads. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Hardened pushrods required. Made in USA.

Important: When using hot air choke carburetors and Performer manifolds with these heads, choke kit E1932 is required. When using stock rockers on these heads .100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

1987-95 Small Block Performer Centerbolt Head

Designed for 1987-95 5.7L Chevy engines (except LT-1, LT-4, and LT-5) originally equipped with centerbolt valve covers and the 1987 and later intake manifold bolt pattern. The high velocity intake runner is designed to work with either T.B.I. or T.P.I. systems. The 60cc combustion chambers maintain stock compression ratio when used with the recommended gaskets. These are 50 state street legal heads. Hardened pushrods required Available in straight plug configuration only. Made in USA.

Important: When using stock rockers on these heads, 1.00" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

E5087

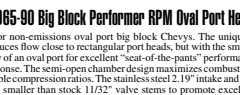

Edelbrock E-210 Small Block Cylinder Heads

The new E-210 cylinder head for small block Chevy engines feature larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts, making them ideal for a spec series racer and larger displacement engines. The exhaust port flange is in the stock location to allow for the use of off-the-shelf headers and hardware, while the enlarged valves and ports support the power needed to compete at engine speeds of up to 6500 RPM. The E-210 cylinder head is capable of supporting more than 500 naturally aspirated horsepower, and even more in forced induction applications. Made in USA.

E5087		max valve lift .650"	1301.99 pr

Big Block Heads

Edelbrock cylinder heads are made from A356 aluminum and heat treated to T6 specs. They are manufactured using the latest CNC programmable machining centers for a high degree of accuracy, and quality is assured using Coordinate Measuring Machines (CMM). These street high-performance heads provide out-of-the-box, bolt-on performance with no additional porting required. They offer improved power throughout the RPM range for great throttle response and top end horsepower. The intake and exhaust runners are CNC profiled for superior flow and performance. Standard port locations allows the use of a wide variety of intake manifolds. Stock location of the exhaust flange allows the use of stock exhaust or headers. Hardened interlocking valve seats are compatible with leaded or unleaded fuel. All Performer and Performer RPM heads are assembled with: high-quality stainless steel, swirl polished valves with undercut stems, 2 ring positive oil control seals, rocker studs, hardened steel guidepalates, valve springs, retainers, and keepers. In most cases these heads are directly interchangeable with the factory heads. Performer heads have provisions for all exhaust emissions related components and are street legal. Performer RPM heads are for non-emission vehicles.

60459

1965-90 Big Block Performer RPM Oval Port Heads

Designed for non-emissions oval port big block Chevys. The unique intake port design produces flow close to rectangular port heads, but with the smaller port size and velocity of an oval port for excellent "seat-of-the-pants" performance and crisp throttle response. The semi-open chamber design maximizes combustion efficiency with streetable compression ratios. The stainless steel 2.19" intake and 1.88" exhaust valves have smaller than stock 11/32" valve stems to promote excellent flow and lighter valve weight. The deck surface and water jackets were specially designed to work with all big block Chevy engines. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

Note: Shipped overweight.

E8551		BB head bolt set (for Edelbrock heads only)	204.99 set

1965-90 Big Block Performer RPM Rectangular Port Heads

Performer RPM rectangular port heads have specially designed intake and exhaust ports for increased flow and velocity over stock big block heads. These heads feature a highly efficient 118cc open style combustion chamber and high velocity 315cc long/300cc short intake ports. Designed for street/high-performance big blocks operating from 2500 to 7000 RPM. Stainless steel hardened tip 2.19" intake/1.88" exhaust valves have 11/32" valve stems for excellent flow and lighter weight. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

Important: The spark plug has been moved closer to the center of the bore and will interfere with high dome pistons designed for stock Chevy open chamber heads. Note: Shipped overweight.

Z28 302 Hypereutectic High-Performance Pistons

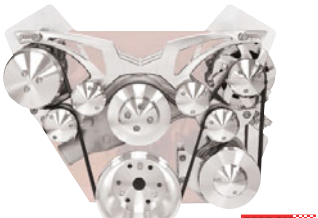

Precision-machined high-performance pistons with original dome design and floating wrist pin for 2nd design 1968 and 1969 stock compression 302 engines (11:1 with 64cc heads). These hypereutectic pistons will also fit 1967 and 1st design 1968 engines with no modifications, and are available in standard, .030", .040", and .060" overbore sizes. Cast with 16-18% silicon alloy, and T-6 hardened for performance applications, new tooling was specifically made for these pistons featuring an exclusive computer designed understructure allowing dome machining (0.143") to safely reduce the compression ratio to 10:1 while maintaining balance. Wrist pin and spirolock retainers are included. Individually plastic sleeved after factory sorting in sets of eight by size and weight to balance and blueprint tolerances (+/- .0004" and 1.5 grams or better). Warranted for 2 full years in street cars. Set of 8 pistons with pins and locks.

Note: Piston rings not included. Not recommended for extreme performance engines.

March Chevy 409 Serpentine Conversion

If you are looking for the high tech race look for your Chevy 409 cubic inch V8, consider this March Performance serpentine conversion. This one piece alternator and air conditioning bracket provides a rigid support for the alternator and AC compressor; a separate bracket allows the option of power steering or no power steering. Four separate idlers guarantee the ultimate in belt to pulley contact area for sure "no slip" operation. Like all our Style Track sets it makes use of a unique easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. As a result, the Style Track displays a much cleaner appearance. Comes complete with: alternator, an alternator pulley with fan and nose cover, a AC compressor and nose cover, a water pump with pulley and nose cover, a crank pulley and the alternator/AC bracket, complete with the belt tensioning tool. Sets with power steering include a chrome Saginaw style power steering pump and the power steering pump pulley with nose cover. Features maintenance-free clear powder coating

Note: Engine and valve covers not included.

E4140

E41403

Classic Aluminum Valve Covers

First made by Edelbrock back in the 1950's, today you can still give your engine bay the timeless good looks these valve covers offered. Made of heavy gauge, sand cast aluminum, and these valve covers also offer enough height to clear roller rockers.

Made in USA

Valve Cover Gasket Set – 348/409

Fabricated from performance CRC (core reinforced composite), Edelbrock Valve Cover Gaskets provide excellent sealing integrity. The multi-layer construction has two highly compressible, high rubber content, fiber reinforced outside layers which are chemically bonded to a high strength composite core. This unique construction has a radial strength to resist high vacuum or blow-outs. Made in USA.

SC6014

1961-64 409 Oil Pan

Replacement 6 quart oil pan for 1961-64 409 engines. This pan is made from the same heavy gauge unpainted steel as the GM originals, complete with dipstick boss and drain plug. This pan may be used on 348 engines to provide an extra quart holding capacity and move the oil dipstick to the right side of the engine.

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

Important: *On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However, these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®.*

A – Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

B – Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C – Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D – Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your car undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

COMP CAMS for Your High-Performance Street Machine!

The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising.

Xtreme Energy™ Cams are Comp Cams® series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

Full Set – includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

For Computer Controlled Engines!

If you have a late model computer controlled engine, you have to be VERY CAREFUL when selecting a high-performance aftermarket cam! The wrong cam could "throw off" the computer, spelling real trouble for your vehicle's driveability and performance.

Comp Cams® has engineered this line of camshafts specifically for these engines, ensuring that you get a camshaft that works WITH your computer, providing exceptional performance and driveability out of your late model Chevy engine!

Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

COMP CAMS for Your TBI/Crossfire or Carbureted Late Model!

Designed for use with throttle body, or crossfire injected and carbureted 305ci engines. Your choice of 3 sets to suit your specific needs, Camshaft only, Cam and lifters or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

Item #	Description	RPM Range	Adv. Dur.	Lift	Price

222008D	full set	1000-5000	252°/260°	.425"/.440"	369.99 set

COMP CAMS for Your 1987-98 Tuned Port Injection Engine!

Designed for use with TPI 305, 350ci engines (Except LT1 and LT4). This cam is designed for 1987-98 engines originally equipped with hydraulic roller camshaft. Your choice of 3 sets to suit your specific needs, Camshaft only, Cam and lifters or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals. Applications are available for use with stock computer or modified computer.

Important: *This cam will not work with stock valve train components. To retain your camshaft warranty and prevent damage to your engine, you must replace the stock components with a matched set from COMP CAMS®.*

Edelbrock Performer Plus Camshaft Sets

Designed for optimum torque from the low end to the mid-range, Performer® Plus camshaft packages match with Performer® manifolds for vehicles operating from idle to 5500 RPM. They are smooth idling cams that provide for a major improvement in throttle response and torque. All camshafts come with hydraulic lifters, assembly lube and instructions. Most Performer® cams are 50 state street legal.

*Note: *These cams are 50 state legal.*
***Not for use on 1965-66 396 or 427 Chevys requiring a grooved rear cam journal.*

Edelbrock Performer RPM Camshaft Kits

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 6500 RPM. These hydraulic lifter camshafts are dyno-matched to Performer® RPM manifolds for high RPM horsepower while maintaining acceptable low end torque. With 10-12 inches of manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts.

75801

1955-03 Mr. Gasket Performance Head Gasket

Mr. Gasket head gaskets are proven in the performance market and earned the respect of many professional engine builders. A variety of materials are available to meet your specific needs. Each provides excellent stability and reduces cylinder bore distortion.

Mr. Gasket Ultra-Seal

Has a five layer composite construction and is coated with high temperature silicone to ensure seal of fluids. It's graphite core has excellent thermo-conductivity, transfers heat away from hot spots to coolant passages. Will not indent aluminum heads.

71134	1955-91	283-350	4.130" bore	.028" comp. thickness ... 39.99 ea
75801	1970-80	400	4.190" bore	.038" w/steam holes ..... 44.99 ea
75804	1991-99	454-502	4.520" bore	.038" comp. thickness ... 45.99 ea

Mr. Gasket MLS (Multi-Layered Steel)

Manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. Ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

73130	1955-91	283-350	4.060" bore	.040" comp. thickness ... 89.99 ea

73144	1997-03	346 LS1	4.160" bore	.054" comp. thickness ... 94.99 ea

Mr. Gasket Steel Shim

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

Note: Do not use with lightweight 305 heads.

71130	1955-91	283-350	4.100" bore	.020" comp. thickness ... 21.99 ea
71131	1965-90	396-454	4.370" bore	.020" comp. thickness ... 21.99 ea

Mr. Gasket Copper (Dead Soft)

Manufactured from dead soft solid copper. Provides excellent stability and reduces cylinder bore distortion and can be used with or without stainless steel o-rings. The Copper head gasket is ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

Note: Do not use with lightweight 305 heads. Gaskets do not include steam holes. O-rings are recommended to seal combustion pressures.

71052	1955-91	283-400	4.140" bore	.020" comp. thickness ... 51.99 ea

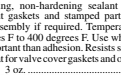

E7201

Made in USA

1958-90 Edelbrock Intake Manifold Gaskets

These gaskets are matched to Edelbrock Performer, Performer RPM and Victor Jr. cylinder heads and manifolds and designed to optimize performance and flow. They will conform to imperfections on sealing surfaces at lower flange pressures and include a nitrile bead around each port opening for a durable seal. Made in USA.

E7201	1958-86	SB 302-400 w/1.28" x 2.09" ports	19.99 set

New!

1988-02 Original GM Oil Pan

Production V8 engines were redesigned in 1986 with a leak resistant one piece rear seal. This change required a revised oil pan design to fit a new rear seal retainer which is bolted to the back of the engine block. As a result of these changes, oil pans and gaskets are not interchangeable between 1955-85 and 1986-up engines. If you have installed a crankshaft seal adapter on a block which is machined for a one piece rear seal, you must use an oil pan and gasket designed for 1986 and newer engines.

Note: Gaskets not included with oil pans and must be purchased separately.

Milodon Stock Replacement Oil Pan

These stock replacement oil pans feature a distinctive gold plating that is not only cosmetic, but also provides long lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. Flat, unwarped pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Sold separately is Milodon's "crush proof" gasket seal set, item #40100 for 1955-85 small block or item #40200 for 1964-90 big block. Also offered is Milodon's new 1 piece gasket item #41000 for 1955-85 small block or item #41001 for 1986-02 small block. For use with original stock oil pickup screen also sold separately.

Chevrolet V8 Oil Pump Primer

Don't start your engine after a rebuild or major engine disassembly without first making sure there is oil at all the critical friction points such as main, rod and cam bearings, rings and cylinders, as well as the lifters and camshaft. Starting your engine without any oil in these places can create the need for another engine rebuild. This oil pump primer can help get oil to all of these crucial areas before you start your fresh engine. Simply drop the oil pump primer down your distributor opening into the oil pump drive, attach a drill motor, and spin up the oil pump. It's that simple!

66896	with bushing		21.99 ea

Oil Pressure Switch Socket

Easily remove oil pressure sending units! This socket designed with extra recess to accommodate most oil pressure switches and many brake lamp switches. This 3/8" drive socket features a 1-1/16" hex opening and a durable black oxide coating.

Royal Purple Synthetic Oil

Royal Purple Motor Oil delivers superior protection and improves performance in four cycle gasoline and diesel engines. It increases horsepower and torque, saves fuels and reduces heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Compatible with other mineral and synthetic motor oils.

Oil System Components

Royal Purple Engine Break-In Oil

Engine builders have grown increasingly concerned that many modern motor oils do not provide adequate wear protection for new engines, particularly those using flat-tappet cams. Royal Purple has developed a new engine break-in oil formulated to allow optimal ring seal and protect rotating assembly components such as the camshaft and valve train from initial start up wear. Combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Fully formulated and does not require the use of any other chemical additives. Royal Purple recommends using their high-performance motor oils after the engine is broken in for maximum engine performance.

RP11487 quart ..... 9.99 ea
RP11497 case of 12 ..... 113.99 cs

Break-in Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break-in roller cam engines, and as a general purpose dyno oil.

Hot Rod Vintage Car Oil

From the leader in racing lubricants, now comes a lubricant designed specifically for hot rods, street rods, and vintage cars. Joe Gibbs Driven Hot Rod Oil builds on the formulation that is used by thousands of racers while adding critical additives to protect engines. What can you do? If the oil you currently use carries an API donut, it probably lacks the amount and type of formulated anti-wear chemistry that historic or racing engines need. Designed specifically for older style historic car and hot rod engines, Joe Gibbs Driven Hot Rod Oil features high levels of zinc for wear protection as well as U.S. Military grade rust and corrosion inhibitors for storage protection.

1256593 1956-67 ..... 3.99 pr

Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM. This anodized billet aluminum adapter eliminates the bypass valve, preserving your expensive engine. For small block and big block applications.

223775 ..... 34.99 ea

Engine Saver Prefilter Screen

Add life to your engine with a prefilter screen for your oil filter. This stainless steel screen installs on top of conventional spin-on oil filters and traps debris down to the 280 micron range without restriction or loss in oil pressure, letting you examine particles from failing bearings that would normally be trapped in a filter, unseen.

223845 ..... 15.99 ea

1968-92 Oil Filter Adapter

Original GM replacement oil filter adapter for all 1968-92 small block and big block models. The adapter is essential because the oil filter attaches directly to this item. The adapter also includes the filter bypass valve.

G7300 1968-92 V8..... 51.99 ea

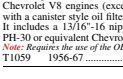

1958-67 Oil Filter Adapter

This adapter will convert all 1956-67 small block Chevrolet V8 engines (except Chevy II) that came with a canister style oil filter to a spin-on type filter. It includes a 13/16"-16 nipple which will accept a PH-30 or equivalent Chevrolet spin on type oil filter.

Note: Requires the use of the OEM bypass valve.

FSS300

FilterMag

FilterMag's powerful rare-earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super-strong magnetic force holds FilterMag to the canister. FilterMags are reusable and will reduce maintenance costs by extending the life of your oil. Fits steel oil filter canisters from 2.9" to 5.5" in diameter. The heavy-duty racing FilterMags have a larger curve surface that allows for a stronger magnetic field and a stronger magnetic pull force, designed for more demanding situations.

1967-85 Oil Filter Connector

Correct replacement of the connector that installs on the engine block which the oil filter cartridge attaches to. Improperly fitted oil filters can cause engine problems and make for a nasty cleanup. 13/16"-16 x 1/2" on one end, 1"-12 x 7/16" on the other.

G9147 1967-85 ..... 8.99 ea

Oil Return Screen Set

This oil return screen set is inexpensive insurance on any modified small block Chevy engine. The screens install in and over the oil drain holes in the lifter valley, trapping debris from valve train failure, keeping it out of the oil pan. Includes: galley plugs, screens, and a special epoxy for installation.

225000 oil return screen set ..... 24.99 set

K&N Oil Filter

The K&N Performance Gold® Oil Filter has been constructed from the ground up to satisfy the vehicle owner who wants the very best oil filter available. The heavy duty construction provides up to 550 psi hydrostatic burst, and helps reduce the risk of rock or stone damage. But the real quality isn't just on the outside, the inner filter element traps contaminants as small as 10 to 20 microns in size. Metal top end caps are used instead of paper to ensure that no unfiltered oil can get back into the system. High volume positive oil flow with low restriction coupled with exacting engineering standards results in the right balance between engine protection and low oil pump drag. Simply put, the K&N oil filter is the very best filter money can buy. Your pride and joy deserves no less.

Say Good-bye to Points Forever with a Mallory Unilite Distributor!

Unilite Electronic Ignition

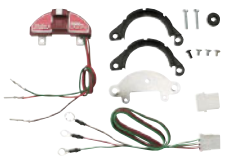

Unilite Electronic Ignition distributors use Mallory's Unilite module and can trigger either a HyFire capacitive discharge ignition or be run with just a coil. Each distributor features an easy 3 wire hookup. Also available for those running a mechanical tach is a Unilite mechanical advance model with mechanical tach drive output.

Convert Your GM Distributor to Electronic Ignition and Never Change Points Again!

Unilite Conversion for GM Distributors

Unilite conversion sets for point distributors put an end to high maintenance point ignition systems by installing a proven Mallory Unilite ignition conversion set. By utilizing specialized electronic circuitry and an infrared signal, ignition timing is stable from 1 RPM through 10,000! Features include more accurate ignition timing than any other type of system, improves performance and fuel efficiency, easy-to-install with simple hand tools, reduced maintenance (never change points again) and latest thermal clad based surface mount construction for maximum dependability and long life.

"Plug and Play" Performance for 1887-93 Models

Fuel Injection HEI/FI Distributor

HEI/FI 80 series distributors are designed to work with factory fuel injection systems used on popular GM V8 engines. High output magnetic trigger for stronger signal throughout the RPM range. Precision CNC-machined billet aluminum housing. Exclusive Mallory distributor cap with added crossfire protection. Unique ball bearing/bushing-supported oversized hardened shaft for maximum timing stability. Direct plug-in replacement for factory distributor. The output of the distributor works the factory computer system making it the ideal "Plug and Play" upgrade on these engines.

1957-74 E-Spark Conversion Set

Are you tired of constantly having to adjust and replace points in your distributor? Eliminate those pesky points altogether with Mallory's new, low cost E-Spark conversion sets. This self-contained conversion kit fits neatly within a stock GM or Mallory distributor cap, so it looks like original from the outside. Thanks to specialized electronic circuitry and an infrared signal, you'll never again have moving parts to wear out, and you gain better performance, drivability, and throttle response, plus improved fuel efficiency!

MSD Performance Ignition

MSD Pro-Billet Distributor

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a QPQ, or Tuftride coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8 or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled."Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

"Standard" Pro-Billet Distributor

For use with MSD 6, 7, 8 or 10 series ignition.

MSD Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the noise filter on the heavy power supply wires coming from the MSD. It is recommended that the noise filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover. Made in USA.

8830	MSD noise filter with cover	44.99 ea

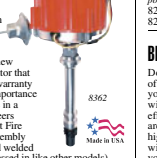

MSD 6A/6AL Ignition Control

The MSD 6A is the base model of the capacitive discharge multiple spark 6 Series design. Like all of the MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6 and 8 cylinder engines. The 6AL shares the same proven circuitry of the 6A with the addition of a built-in adjustable rev limiter. The combination of powerful sparks with the safety of a rev control is what makes the 6AL the most popular ignition control in the world.

6201	6A		219.99 ea
6425	6AL	with rev limiter	254.99 ea

Street Fire HEI Distributor

Introducing the Street Fire value-line brand of MSD Ignition. Street Fire components will offer a quality designed alternative to the bottom bargain parts that are springing up all over. We're so assured with the quality of our new Street Fire HEI Distributor that we provide a one-year warranty with it! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you can not afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. The high voltage is transferred through a new rotor to the brass terminals of the distributor cap and out to the plugs. The Street Fire Distributor is the first product to come from our new value branded ignition line. Made in USA.

MSD Ignition System Coil

If you are looking to upgrade your stock coil or want to complement the performance of your MSD 6 Series Ignition, our Blaster Coils are the right choice. The following Blaster Coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 Coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot. Made in USA.

8202	Blaster 2	49.99 ea
8223	Blaster 3	49.99 ea

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster Coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red. Made in USA.

Important: *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

8200	Blaster 2	chrome	51.99 set
8203	Blaster 2	red	55.99 set

Blaster SS Coil

Don't let the compact size of the Blaster SS Coil fool you because it is packed with performance. The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamps with a maximum voltage output of 40,000 volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts. A great addition to CD Ignitions and some stock applications. Made in USA.

8207	Blaster SS Coil	55.99 ea

MSD Performance Ignition

Universal Super Conductor wires (31373) shown with multi-angle boots

Made in USA

2-in-1 Universal Wire Sets

These universal spark plug wires sets are made from MSDs Super Conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut to fit any application. Each set includes a MSD Mini-Stripper crimper for easy installation. Available with wires in either black or red. Made in USA.

8.5mm Super Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Available in your choice of red or black wire. Made in USA.

*Important: *With wires over valve covers.*

Spark Guard

Made in USA

This dielectric grease stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD Universal Spark Plug Wire Sets. Spark Guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely. Made in USA.

ACCEL Ignition

Superstock

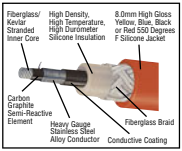

Applications: Performance upgrade to OE replacement type.
Features: Silicone spark plug boots, yellow, blue, red, and black silicone wire, zinc-plated steel spark plug terminals.
Benefits: Efficient transmitter of ignition energy, popular priced performance, oversized upgrade where OE is 7mm.
Construction: 8mm, 450 degrees F silicone and EPDM rubber construction with a fiberglass braid.
Core: Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

4040	8mm	yellow, blue, black, red (specify color)	39.99 set
4041	8mm	yellow, blue, black, red (specify color)	39.99 set

8mm Superstock Spiral

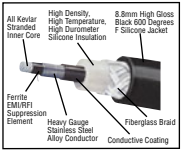

Applications: Late model coverage.
Features: Color-matched silicone spark plug boots, high gloss blue, black, red and yellow wire, stainless steel spark plug terminals.
Benefits: Increased ignition energy due to lower resistance, oversized upgrade where OE is 7mm.
Construction: 8mm, 550 degrees F double silicone construction with a fiberglass braid.
Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

5041	8mm	yellow, blue, black, red (specify color)	59.99 set

300+ Race Wire

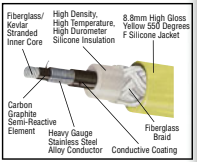

Applications: Race engine configurations.
Features: Silicone spark plug boots, black wire, stainless steel spark plug terminals.
Benefits: Maximum energy to spark plug, heaviest gauge conductor in the industry, 8.8mm oversized racing wire, complete suppression of EMI/RFI (radio noise).
Construction: 8.8mm, 600 degrees F double silicone construction with a fiberglass braid.
Core: HD gauge spiral wound copper/nickel alloy conductor, magnetic suppression and fully reactive ferrite material, all Kevlar core, 150 Ohms per foot resistance.

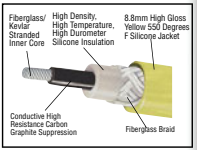

7030	8.8mm	spiral core – black	101.99 set

8.8mm Wire

Applications: Performance street/strip.
Features: 8.8mm oversized wire, oversized 8.8mm silicone spark plug boots, high gloss yellow wire, stainless steel spark plug terminals.
Benefits: True performance upgrade, increased ignition energy due to lower resistance.
Construction: 8.8mm, 550 degrees F double silicone construction with a fiberglass braid.
Core: Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance, also available with carbon/graphite core.

EXTREME 9000 Ceramic Wires

Increase ignition energy with these incredibly low resistance severe duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohm/ft of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

Important: Universal 8 cylinder sets can be used for 6 cylinder applications.

Performance Ignition

NEVER CHANGE POINTS AGAIN!

by Pertronix

30-Month Limited Warranty

IGNITOR

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame-Thrower 40,000 volt coil. Ignitor is concealed entirely within the distributor so you have no unsightly black box to clutter up your engine compartment. Easily installs in minutes with no complex wiring, is compatible with 12 volt negative ground systems, and it's smog legal in all 50 states and Canada! Comes with a 30-month warranty.

6 Cylinder

PX1181	1957-74	8 cylinder	79.99 set

Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

8 Cylinder with Hall-Effect Style Sensor

PX91181	1957-74	8 cylinder	114.99 set

Ignitor III

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Legal in all 50 states and Canada. Fits GM V8 single point type distributors.

Note: Not available for 6 cylinder.

Flame-Thrower 50,000 Volt HEI Coil

Pertronix Flame-Thrower 50,000 volt E-Core coils feature an optimized winding design to maximize spark gap current and available voltage. When teamed with the Flame-Thrower module, they produce 100% more energy across the spark plug gap compared to the OEM coil. Select the matching Flame-Thrower module for your application to create a proven performance combo!

Note: Replaces OEM coils with the same color wires listed.

Flame-Thrower Performance Coil

Complete your ignition upgrade with a Flame-Thrower high performance coil. Best when used with the Ignitor Electronic Ignition Conversion, the Flame-Thrower High Performance Coil fits existing coil brackets for a clean, factory look. Enables larger plug gaps for greater fuel efficiency and more power. Available with either a chrome or black finish. Choose from a variety of voltages and primary resistance ratings.

40,000 Volt Coil – 1.5 and 3.0 Ohm

These Flame Thrower coils are compatible with breaker point ignition systems or vehicles equipped with the original Ignitor system. Choice of 6 or 8 cylinder.

Flame-Thrower HV 60,000 Volt Coil

The Flame-Thrower HV (high voltage) coil have an E-Core design which is rated at a sizzling 60,000 volts and operates with no degradation of energy throughout the temperature ranges. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output, and the housing is black anodized for increased corrosion resistance. Available in 3 different resistances for compatibility with most points and electronic ignition systems. Standard threaded connections and mounting hardware are included.

Flame-Thrower HC 60,000 Volt Coil

The Flame-Thrower HC (high current) coils have an E-Core design which is rated at 60,000 volts with an ultra low .32 primary resistance and has a high current design for a rapid charge rate. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output. The housing is black anodized for increased corrosion resistance and has a precision machined male high tension terminal and brass primary terminals. It is compatible with Ignitor II and Ignitor III systems as well as most capacitive discharge boxes. Standard threaded connections and mounting hardware are included.

Performance Ignition

Flame-Thrower HEI Distributor

HEI systems rely on a great module and a great coil. Available in machined or cast finishes. Operates without misfires up to a minimum of 7500 RPM. That's 3000 RPM higher than most enthusiasts report with their stock HEI. Produces 67% more energy in the coil, delivers twice the energy across the spark gap allowing wider plug gaps (.050-.055). 12-month limited warranty.

Note: Please specify red, blue or black cap when ordering.

Ignition Wires

1953-74 Date Coded Spark Plug Wire Sets

Reproductions of the original style Delco Packard plug wires used with 1953-74 GM truck models. Each wire includes the original style lettering with the wording Packard TV R Suppression. 1961-71 wires are date coded based on the production quarter of the vehicle. "1-Q" indicates the first half of the production model year and "3-Q" indicates the 2nd half of the production year. Wiring sets are produced for engines equipped with original exhaust manifolds.

Note: These are not for use with aftermarket type headers or aftermarket manifolds. Wiring may be applicable for use with other manifolds or headers but are not guaranteed to fit. 3-Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production. 1953-03 Spark Plug Wire Sets

QW609

Spark plug wires are a major component in the vehicles ignition system. Electrical failure can be caused by loose connections at the ignition coil(s), distributor, or spark plugs. This loosening can develop from quality variations in the wires themselves, or through normal engine vibration. Other causes include retainer failure, fluid leakage on the wires causing the wires to swell and soften, or even poor original routing (too close to exhaust components or components with sharp edges). When these conditions exist, and they may or may not cause a noticeable misfire, the wires must be replaced immediately, or they will wreak havoc on other components such as coils and nearby electronics, or exhaust system components such as oxygen sensors and catalytic converters. These replacement wires are tailored to fit your specific application.

*Note: *With Mitsubishi coil. More applications available online at www.classicindustries.com*

Limited Lifetime Warranty

Made in USA

Flame-Thrower 7mm Spark Plug Wires

These Flame-Thrower high-performance spark plug wires are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set. They have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Made in USA.

Thunder Volt 8.2 Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno tested and proven to increase horsepower and torque. Designed with a Ferrite spiral wound core coated with a blend of copper/nickle bonded with a conductive acrylic cover for only 40 Ohms per foot of resistance with optimum RFI and EMI suppression. A 2 layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

TT14260

Cool It Plug Wire Sleeves

This unique spark plug and ignition wire protector comes in four colors: red, blue, black and silver. These dual purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double wall construction keeps the wire and boot cooler in a high temperature engine. Its universal size fits most boots, is easy to install and – most importantly – is nonflammable. Cool It Plug Wire Sleeves can be used in any temperature environment from street vehicles to race cars. Sleeves are available in packs of 4 or 6.

Ignition Components

Spark Plug Wire Tester

When you want to quickly locate faulty plug wires, you need this tester. Now you can check spark plug wires without piercing or ruining the wires. If the light flashes, you have a sound and intact wire. If not it's time to replace.

Y26900 ..... 11.99 ea

HEI Battery and Tach Pigtail

When installing an HEI distributor or repairing a broken lead, don't use single spade connectors that come loose. Use one of these positive locking HEI pigtails. Pigtails are available in both a dual connection single plug and dual single plug configurations. They both feature red and green wires for easy installation and connection to the distributor.

170072 single dual plug pigtail ..... 14.99 ea
170073 dual single plug pigtails..... 9.99 pr

Ignition File

Files ignition points and other small objects. Thin blade with fine grid on both sides is ideal for removing carbon from points.

X2153 ..... 2.99 ea

Spark Plug Terminal Pliers

Safely removes spark plug cables. Prevents damage to cables when replacing. The handles and jaws are coated with heavy plastic for a sure grip.

X135 ..... 12.99 ea

X2756

X2757

Calibrated Ignition Tester

Accurately check for spark in ignition systems without removing the spark plugs from the engine. Attach the spark plug wire to tester end, clamp tester to engine as ground, then crank the engine and test for spark.

X2756 HEI ignition tester ..... 10.99 ea
X2757 standard ignition tester ..... 10.99 ea

Spark Plug Hole Thread Chaser

Cleans and threads directly in the spark plug hole! Double ended for both 14mm and 18mm threads. Use with 13/16" spark plug socket.

Y20200 ..... 7.99 ea

Spark Plug Gapper

Gauges and gaps all types of spark plugs from 0.20" to .100" (.50mm to 2.53mm) Includes tapered edge for gauging spark plugs. Specially designed hole with flange adjusts side wire of plug without pressuring center electrode.

Y67870 ..... 2.49 ea

Distributor Timing Indicator

Designed to fit all stock and aftermarket Chevrolet V6 and V8 distributors. The steel degree plate attaches to the intake manifold under the distributor and the pointer clamps to the distributor housing. Allows quick, accurate timing changes without a timing light.

Note: The degree plate is .062" thick.

226100 distributor timing indicator ..... 34.99 ea

Deluxe Feeler Gauges

Feeler gauge set consists of 31 blades, including a brass 0.010 blade for use on electronic ignitions. Precision blades ensures accurate measurement. Blades from 0.0015" to 0.035" (0.038mm to 0.889mm) are approximately 1/2"W x 3-1/2"L.

Y68100 ..... 8.99 set

Brass Non-Magnetic Feeler Gauges

Includes 6 brass blades, 0.006" to 0.016". This nonmagnetic feeler gauge is designed to measure the clearance on electronic ignition systems where a nonmagnetic gauge is required. 1/2"W x 3-5/16"L.

X2223 ..... 3.99 ea

Distributor Clamp Wrench

Reach around obstructions to turn distributor lock nut with this double ended wrench. Fits 1/2" and 9/16" lock nuts. Use adapter to join wrenches together or attach to 3/8" ratchet or extension.

X104 ..... 27.99 ea

Distributor Housing Shims

When an engine block has been decked or heads have been resurfaced, shims are needed under the distributor to maintain correct clearance. If the distributor sits too low, it can cause damage to the oil pump or camshaft. These shims are made to exact GM gasket specs from high impact nylon to ensure a leak free fit. Each set contains .030", .060" and .100" thick shims.

226150 distributor shim set ..... 4.99 set

Distributors

1949-03 Remanufactured Distributor

If your pickup is having problems starting, has a rough idle or the performance is not what it use to be, it could be time to change your distributor. Each distributor is remanufactured and tested to guarantee you get the best quality distributor your money can buy.

*Note: *New distributor, includes cap and rotor. Distributor cap and rotor not included with remanufactured distributors.*

New Electronic Ignition Dist.

These distributors are an inexpensive replacement for worn out factory distributors and perfect for upgrading to electronic ignition. They are made from 100% new parts and include a high-quality distributor cap and rotor with brass contacts. They feature heavy-duty chromoly gears and machine polished CNC-machined housings. HEI distributors also include a fully adjustable vacuum advance and a 65 KV ignition coil with a color matched cover that matches the distributor cap.

Note: Gasket included.

1960-86 Vacuum Advance

The vacuum advance is a mechanism attached to the distributor which moves the breaker point or pickup coil plate when it receives vacuum generated by the engine. Over time, the vacuum advance can become worn or the diaphragm can become brittle and crack causing the vehicle to run poorly.

Want to unlock more power from your engine and actually burn less gas? Through an intensive R&D process, E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

8199

Solve Spark Plug/Header Clearance Problems!

ACCEL's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

Brand New Direct Replacement Starter

Why buy remanufactured if you can buy brand new at a fraction of the cost. These starter replacement starters for your GM truck are new and priced competitively against remanufactured starters. Designed to replace your worn out or inoperative starter these will install and function just like original.

*Note: *With 3D255 starter. **With PG260 starter. †With PMGR starter.*

Remanufactured GM Starter

Replace your original worn out starter with a Genuine GM remanufactured original style starter motor for early truck models. Maintain originality along with the reliability of a factory replacement. Aftermarket starters are good but they don't offer a cosmetically correct appearance. Each starter is completely remanufactured and tested before leaving the factory.

No exchange required!

MSD DynaForce Starter

Made in USA

MSD DynaForce starters are designed for severe duty, high compression applications. The 3.4 HP motors use a 4.4:1 gear reduction to easily start even an 18:1 engine with a lower current draw than traditional starters. Features a red powder coat finish and nickel plated solenoids with a three position adjustable mounting block so they can be clocked for easier installation. Small and big block models have a straight mount bolt pattern and work with 153 and 168 tooth flywheels. Made in USA.

5095

Note: LSI/LS7 starter not compatible with GTO LS engines.

Starter Motor Replacement Brushes

When rebuilding your original starter motor, it is usually necessary to replace the brushes. The brushes are the most commonly worn out part of the starter which can cause failure. These brushes are stamped 945 and contain a 13/64" diameter hole. 4 required per starter motor. Each set includes 4 brushes.

RX6004	1955-81		3.99 set

Starter Heat Shield™ Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters.

TT1002		with straps	24.99 set

Starter Solenoid Heat Shield

Reproduction Starter Solenoid Heat Shield to guard against high temperatures from exhaust system components. This is for all standard (non-metric) solenoids on V8 truck models. Features easy mounting and produced in stainless steel.

K0173	big block (iron nose, staggered)	12.99 set

1962-81 Starter Motor Attachment Bolt

The correct bolt used with all starter braces from 1962-81. The bolt should be replaced when replacing the brace to maintain a tight connection.

3/8"-16 x 3-5/8".

3733289	1962-81	V8	3.99 ea

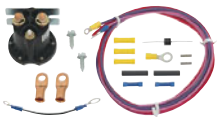

Starter Wire Harness Retainer

Reproduction of the commonly discarded starter wire harness retainer. Clamps to the main body of the starter solenoid and helps keep the power and negative wires from coming in contact with the exhaust manifolds.

HC82		19.99 ea

PAINLESS

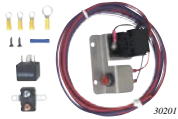

Remote Starter Solenoid

Allows you to position the starter solenoid any place you need to in order to make maintenance easier. Comes with of extra wire and connectors to do the job right.

30203		69.99 ea

PAINLESS

30201

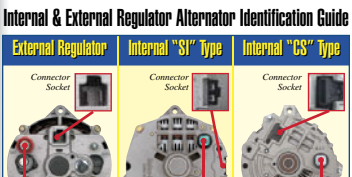

Hot Shot Starter Solution

The solution for vehicles with GM starters that are hard to start when hot, or vehicles with old or worn out electrical systems. Works by boosting available amperage to the starter solenoid. The "Hot Shot" Plus model includes an engine bump switch which allows you to turn over the engine while working in the engine compartment (adjusting valves, etc.) Includes: stainless steel mounting bracket, 30 amp heavy-duty relay, 24" wire length, wire leads, terminals, and easy-to-follow instructions.

30201	with engine bump switch	74.99 ea
30202	without bump switch	39.99 ea

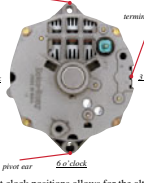

Alternators

Internal & External Regulator Alternator Identification Guide

Clocking Position Identification Guide

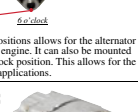

The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.

Limited Lifetime Warranty on Generators and Alternators!

Direct replacement for your worn-out or inoperative generator or alternator. These quality remanufactured units will install and function as original. We offer a wide selection of applications with a limited lifetime warranty against defects in materials and workmanship!

Note: If you have a late model vehicle that is not listed here, you may want to check for brand new units listed elsewhere in this catalog. For more applications please visit our website at www.classicindustries.com

TF700382	1955-59	power steering	63.99 set

1983-88 Brand New Alternator

Direct replacements for your original alternator. These brand new (NOT remanufactured) alternators will install and function as original. We offer a wide selection of different applications depending upon your year and engine. Appearance may differ slightly from original.

N7294U3

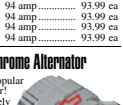

Note: Part numbers with a "U" suffix followed by a number refers to a clock position of the plug-in terminal on the alternator case. Looking at the back of the alternator with the pivot ear at the bottom, or 6 o'clock position, note the clock position of the plug-in terminal on your original alternator, and match it to the replacement listings.

PowerGen Alternator

Get the current to support aftermarket accessories or install a later model engine and keep the look of the original generator! Featuring one wire operation and a heavy-duty regulator, PowerGen alternators are designed to fit generator brackety and provide 60 amps at idle and 90 amps at peak charge. Available with Light Drive to power factory charge lights. Choose from chrome, polished, or standard black finishes.

MSD DynaForce Alternator

Whether you need a high output alternator to power your muscle car, street rod or touring machine, MSD has you covered with the DynaForce Alternator. For the street, MSD offers a 120 or 160 amp one wire alternator. Not only are they designed for extreme output at higher RPM, but MSD balances the current output to keep your electronic components up to speed during idle and lower RPM operation as well. Both the 120 and 160 amp alternators feature one wire installation to keep things clean, easy and effective. The charge post of the alternators is moved to the side of the housing to allow for improved clearance to the block, plus a pulley baffle is included to ensure there is never any fan-to-belt issues (common at high RPM on lesser alternators). The DynaForce Alternators are designed for applications that require straight mounts from top to bottom. Typically found on GM vehicles from the mid 1960's through the mid 1980's. Made in USA.

Note: Some modifications to the mounting bracket will be necessary.

Alternator Bolt Sets

The subsequent loss of electrical power could be due to the OEM alternator stud failing. To prevent this from ever happening, conscientious engine builders rely on ARP's "bulletproof" alternator studs. They're made from a premium grade 8740 chromoly steel alloy and heat treated to a nominal 200,000 psi tensile strength. They are very rigid and won't bend under the stress of competition, eliminating problems with alternator pulley alignment. Made in USA.

1958-68 Alternator Bracket for Headers

Exhaust headers often use extra thick flanges and tight bends making it difficult to mount an alternator bracket. These ceramic coated steel alternator brackets mount to the left or right side of the engine using header bolts that surround the front cylinder to allow the alternator to be attached without interference. These brackets close mount the alternator toward the vehicle center line. For those who want to retain the existing alternator position, a matched billet aluminum spacer, offered separately, allows you to retain the original belt. Three spacer styles are offered with either a polished or satin finish.

Note: For 1958-68 models with small block V8 and short water pump.

1989-92 Alternator Brace

General Motors original alternator brace which is used to support the alternator. Mounts to a stud on the cylinder head and the rear case of the alternator. Fits 5.0L or 5.7L V8 engines.

G7265 1989-92 ..... 4.99 ea

Universal Alternator Bracket

Universal lower alternator pivot bracket can be used for LH or RH applications on small block engines with a short water pump and factory exhaust manifolds with mounting bosses. Header adaptor bracket is necessary for use on vehicles equipped with headers. The use of GM bushings and spacers will vary depending on application.

T9008 pivot chrome ..... 9.99 ea
T9254 adaptor chrome ..... 9.99 ea
T4869 pivot black ..... 14.99 ea
T9234 adaptor black ..... 11.99 ea

Small Block Alternator Relocation Set

This set allows you to mount your alternator down low on the driver side of the car. Uses the two bolt holes on the LH side next to the balancer. If you have trouble running tall valve covers due to alternator clearance, are trying to open up the area up top for radiator hose routing and do not have a power steering pump mounted low on the driver side of then engine, this may be the set for you. Requires use of short water pump.

NJG27 bracket set ..... 62.99 set

Fuel Tank Assemblies

GM Truck and SUV Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE quality appearance for discerning restorers. For show quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

Zinc-Coated Fuel Tanks ★★★

- Quality Replacement Tank
- Standard Corrosion Resistance
- Manufactured to Factory Specifications

Ni-Terne Steel Fuel Tanks ★★★★

- OE Quality Replacement Tank
- Exceptional Corrosion Resistance
- Manufactured to Factory Specifications

A8101008

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: *Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.*

Note: *Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg 06 = 6", 11 = 11"*

Pop-Top Fuel Filler Cap

Manufactured from aluminum with a smooth and polished finish. To open the cap you press the center, turn slightly counter clockwise and the cap will pop up. The dimensions are 2-1/2" in diameter and 3/32" above the mounting surface and uses a 1-3/4" i.d. filler hose. This keeps your bed looking great when relocating your fuel tank!

Important: *A 1/8" hole may be drilled in center of plastic cap for a vent (located on back of aluminum cap).*

Royal Purple Fuel System Cleaner

ROYAL PURPLE

Max-Clean targets and cleans deposit build up in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit build-up is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

RP11723	case of 6 – 20 oz. cans	86.99 cs

EFI Fuel Return Adapter

When converting a carbureted vehicle to an EFI system that requires a fuel return system, there's no longer any need to buy an expensive fuel tank. This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes: the adapter with two buna rubber sleeves and four stainless steel clamps for a leak proof seal.

265385	fuel return line adapter	49.99 set

71560

Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy-to-use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance and readability.

71560	standard gauge	39.99 ea
71564	liquid filled gauge	41.99 ea

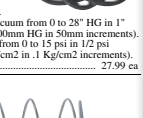

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872	fuel pump safety switch	21.99 ea

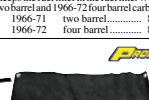

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage. Easy to read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments. (0-1Kg/cm2 in .1 Kg/cm2 increments).

1987-03 Fuel Pump Relay

A bad fuel pump relay can be the cause of a hard starting problem in your 1987-03 truck. If you turn the key into the on position, you should hear the fuel pump "whirr" for a few moments as it pressurizes the system. If not, and the pump is good, that may be an indication that you have a bad fuel pump relay.

Electric Fuel Components

H128011

Holley Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

62531

Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vein technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve. Available in a range of pressures with the choice of chrome or cadmium-plated housings.

Note: *Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.*

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump fed vehicle. This fuel pump safety switch monitors the tach signal to limit when an electric fuel pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After the initial three seconds, the fuel pump only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003	fuel pump safety switch	67.99 ea

E1791

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free-flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet/outlet, 160 p\gph free-flow, up to 1000 HP.

Important: *For proper installation and voltage requirements, use fuel pump relay E1795.*

30131

Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50102			34.99 set
30131	weatherproof		54.99 set

Perfect Flow Fuel Delivery System

The Perfect Flow Fuel Delivery System is a fuel pump system designed to support up to 1000 horsepower in naturally aspirated engines. It can also be configured as a main and secondary pump to support up to 500 horsepower in situations where a redundant fuel delivery system is needed, such as off-road or racing. Set includes wiring and relays. Due to the multiple plumbing options, fittings are not included with this set.

65100		826.99 set

Universal Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or E1792.

E1795	universal fuel pump relay	59.99 ea

In-Line Street/Strip Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand-alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings.

E3594		229.99 ea

Micro Electric Fuel Pump

This compact electric fuel pump is compatible with all gasoline fuels and additives. The solid state design has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Include fittings, mounting hardware and instructions.

Note: *Not for diesel applications.*

Edelbrock Carburetors

Edelbrock Thunder Carburetors

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. Its a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even an 800 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

EnduraShine Finish

The EnduraShine finish carburetors offer an everlasting show quality appearance, extreme durability and unmatched performance. The durable finish won't turn blue like chrome and it doesn't require countless hours of polishing and maintenance to maintain the everlasting shine. These bright silver chrome finish carburetors are powder coated for durability. The clear top coat enhances the polished aluminum look for a great appearance.

E1806

650 CFM Carburetor

This carburetor is recommended for most Performer applications and small cubic inch Torker II applications.

E1805	650 cfm	manual choke	364.99 ea
E18054	650 cfm	manual choke with EnduraShine Finish	489.99 ea
E1806	650 cfm	electric choke	411.99 ea
E18064	650 cfm	electric choke with EnduraShine Finish	544.99 ea

800 CFM Carburetor

Recommended for most small block Performer RPM or Torker II applications and big block Performer applications.

E1812	800 cfm	manual choke	421.99 ea
E18124	800 cfm	manual choke with EnduraShine Finish	544.99 ea
E1813	800 cfm	electric choke	454.99 ea
E18134	800 cfm	electric choke with EnduraShine Finish	594.99 ea

650 CFM Off-Road Carburetor

The new Thunder Series off-road carbs include spring loaded needles and seats for outstanding performance in rough terrain.

E1825	650 cfm	manual choke	379.99 ea
E1826	650 cfm	electric choke	411.99 ea

Dual Feed Fuel Lines for Thunder Series Carburetor

Designed especially for the new Thunder Series AVS carburetors, these dual feed lines include chromed parts and a stainless steel braided line for high-quality looks and performance. Available with or without fuel filter. Replacement filters are also available separately.

E8133	with blue anodized fuel filter	94.99 ea
E8128	with polished aluminum fuel filter	84.99 ea
E8132	with 3/8" barbed end and no filter	81.99 ea
E8130	blue anodized fuel filter only	29.99 ea
E8129	polished aluminum fuel filter only	34.99 ea

Edelbrock Performer Carburetors

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square-bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square-bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

E1405

500 CFM Carburetor

Recommended for small cubic inch Performer and dual quad applications. Includes both timed and full vacuum ports for ignition advance.

E1404	500 cfm	manual choke	331.99 ea
E1403	500 cfm	electric choke	375.99 ea

600 CFM 50-State Legal Electric Choke Carburetor

50 state street legal for all 1980 and earlier GM V8s (E.O. #D-215-10). Calibrated for maximum fuel economy. Includes timed vacuum ports, EGR and fuel vapor outlet.

E1400	600 cfm	electric choke	381.99 ea

600 CFM Carburetor

Recommended for most Performer applications and small cubic inch Torker II applications. Includes both timed and full vacuum ports for ignition advance.

E1405	600 cfm	manual choke	309.99 ea
E14054	600 cfm	manual choke with EnduraShine Finish	439.99 ea
E1406	600 cfm	electric choke	344.99 ea
E14064	600 cfm	electric choke with EnduraShine Finish	504.99 ea

750 CFM Carburetor

Recommended for most Performer RPM or Torker II applications and 402ci Performer applications. Provides excellent fuel economy when used on 454ci Performer applications. Includes both timed and full vacuum ports for ignition advance.

E1411	750 cfm	electric choke	379.99 ea

EPS 800 CFM Carburetor

The new EPS 800 carb is designed and calibrated for street high-performance engines. Dyno tests show that the EPS 800 carb outperformed a Holley #3310 carb out of the box by 26 ft lbs of torque and 22 horsepower on a small block Chevy equipped with Performer RPM components. Features include: a high capacity accelerator pump, and an improved secondary cluster design.

H300521

1955-86 Holley Chevrolet Tri-Power

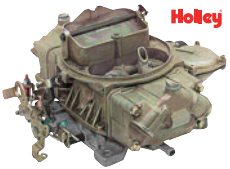

Holley Tri-Power intake manifold and carburetor system for small block Chevy engines. It was factory equipment under the hood of the legendary big block L71 and L89 Corvettes. With a Tri-Power system you can cruise around economically on the 350 cfm center carburetor or unleash all 1000 cfm at wide open throttle to truly have the best of both worlds. Systems include a dual plane medium rise 3 x 2 Weand intake manifold, three Holley 2 barrel carburetors (one 350 cfm center carb with electric choke and two 325 cfm outboard carbs) in either a dichomate or cast shiny finish, steel fuel lines, progressive throttle linkage and reusable air filters with polished housings.

Note: Carburetors do not have a provision to conect an automatic transmission kickdown cable or linkage. Overall height is 11-1/2" front and 12-1/2" rear with air cleaners installed. HEI distributors will need to use a standard cap style small body distributor, the large caps with coils on top are too large to fit.

Holley® Carburetors

Don't settle for anything less than a perfect factory original replacement! These new Holley carburetor assemblies are designed to replace the factory original exactly. Each carburetor is manufactured from the original Holley tooling ensuring an authentic and powerful replacement of the original factory installed carburetor.

750 CFM Holley Carburetor

Classic Industries® offers newly remanufactured 750 cfm Holley carburetors. They feature an original finish, vacuum secondaries, electric choke and Power Valve blowout protection. For all engines with or without air injection reactor (smog). These replacements are similar to the 780 cfm units installed on Z28 and big block models and can be used to replace list numbers 3910, 4490, 4555, 4800-1, 4801-1, 6238-1, and 6329-1.
Important: *Throttle solenoid used on some models not included. Order separately. Carburetor stamped with current manufacturing date.*

Performance Carburetors

67213

67208

PROFORM Street Series Carburetor

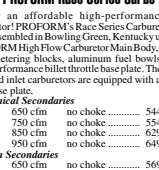

Based on the highly successful Race Series carburetors, PROFORM street carburetors are constructed with lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using PROFORM High Flow Carburetor Main Body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

MSD

2900

MSD Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box, which includes: the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide-band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components, or purchase the fuel components separately.

Holley Accelerator Pump Cam Set

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012 includes 8 pump cams..... 27.99 set

Heat Shield for 4 Barrel Holley Carburetor

OER® manufactured heat shield for all GM models with Holley Carburetors. This heat shield will help cool the intake charge for better performance.

New!

EFI Fuel Return Adapter

When converting a carbureted vehicle to an EFI system that requires a fuel return system, there's no longer any need to buy an expensive fuel tank. This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes the adapter with two buna rubber sleeves and four stainless steel clamps for a leak proof seal.
265385 fuel return line adapter ..... 49.99 set

JG1341

Driven Carb Defender

Driven Carb Defender fuel additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Fuel Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.
JG1340 4.5 oz. bottle ..... 9.99 ea
JG1341 case of 6 – 4.5 oz. bottles ..... 53.99 cs

New!

Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level by tilting it forward 5 degrees This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.
Note: *Not legal for use on pollution controlled vehicles.*
265030 carburetor wedge plate ..... 39.99 ea

Universal Throttle Cable

Made in USA

All Lokar throttle cables are designed with a specially extruded liner to extend the life of the cable. Cables are equipped with aluminum fittings and aluminum ferrule to eliminate fraying. These cut-to-fit cables are available in 24", 36" or 48" lengths with a stainless steel inner wire, and your choice of a stainless steel, black stainless steel or black nylon housing. Clevis is designed to eliminate cotter pins and set screws. Includes installation instructions.

Important: Remember to pull inner wire out before cutting outer housing.

Note: For 1986-93 EFI use TC10024.

DP10001B

Lokar Duo-Pak Throttle Cable Set

Made in USA

Lokar Duo-Pak throttle cable sets will easily adapt to most gas pedals and throttle assemblies. Kits feature Lokar's Hi-Tech throttle cable, stainless steel carburetor bracket, and return spring kit. Cables designed with aluminum fittings and aluminum ferrules to eliminate fraying and feature a "U-Cut-to-Fit" stainless inner wire and outer housing. Available in your choice of stainless steel, black stainless steel or black nylon.

Note: Duo-Pak only available for carbureted applications with Holley, Edelbrock, AFB, Quadrajet and In-Line Dual Quad carbs.

Carburetor Parts

Carburetor Adapter

Four hole, Square-bore to Spread-bore Adapter (.850"). Mounts Edelbrock square-bore carbs to stock Quadrajet and Thermo-Quad manifolds.

E2696 ..... 19.99 ea

Carburetor Spacer Set

Easily optimize the flow rates of air and fuel in your car with this modular 1" carb spacer set! Each spacer set comes with one frame and three popular inserts: open, 4 hole, and tapered 4 hole. Dial in exactly the right flow to get the most from your motor!

67160 carburetor spacer..... 31.99 set

1974-75 Rochester Carburetor Heat Baffle

Carburetor heat radiation baffles for 1974-75 V8 full size models originally equipped with Rochester 4 barrel carburetors.

354310 1974-75 reproduction ..... 3.99 ea

AUTHORIZED

1973-78 Carburetor Rod Clip

Reproduction of the carburetor rod to accelerator rod clip for 1973-78 GM truck models.

3962782 1973-78 ..... 2.99 ea

T2386

Throttle Return Spring

Mounts to intake manifold on driver side. Required by many race sanctioning bodies and a great idea for any high-performance car, these intake manifold mounted throttle return spring and bracket sets provide positive throttle return. Includes: chrome brackets, springs, bushings, and fastener.

T2386 big block..... 19.99 set

T2387 small block with carb spacer.... 14.99 set

Throttle Return Spring Set

Fits Holley 2300 and 2305 two barrel or Holley 4150 and 4160 four barrel carburetors mounted on any manifold.

DC2083 ..... 11.99 set

Carburetor Linkage Plate

Each plate is triple chrome-plated for a beautiful and custom finish. For GM cables.

T2333 Holley/AFB..... 16.99 ea

Chrome Universal Carb Return Spring Bracket

This replacement chrome universal carb return bracket is designed to replace the original bracket for most carburetors. Adds a high-performance touch to any carburetor.

66180 ..... 4.99 ea

Universal Accelerator Throttle Rod

This rod is for use when modifications will not allow the use of the original rod between the accelerator pedal lever and the carburetor. Bend and shape as needed. 14-1/2" long.

Note: Not for cable operated applications.

AL124 1958-72 ..... 14.99 ea

T9757

T9756

Throttle Cable Bracket Set

Chrome-plated bracket set small block Chevy with cable type linkage. May be used with either round or square mounts. You do not have to remove the carburetor to install. Allows full adjustment.

Note: Use T9757 also if you have a TH350 transmission.

T9756 small block..... 9.99 set

T9757 350 trans. kickdown bracket ..... 2.99 ea

Morse Cable Bracket

Chrome-plated bracket for use with Holley or Quadrajet carburetor linkage plates. Can be used with part #T2333.

T2334 ..... 9.99 ea

Carburetor Mount Linkage Bracket

These brightly polished, chrome-plated brackets can be installed on vehicles equipped with Holley carburetors. For GM cables.

T9619 manual transmission..... 6.99 ea

T9620 automatic transmission..... 9.99 ea

Carburetor Parts

OER

1958-69 Carb and Throttle Arm Bushing

Use this rubber bushing/plastic sleeve combo or just the plastic sleeve or bushing as a replacement for your carburetor linkage or throttle arm linkage bushings.

K521 1958-69 bushing/sleeve ..... 3.99 set

Fenton Accelerator Linkage Set

This set comes with all of the necessary linkage components to complete the installation of a Fenton 6 cylinder dual carburetor intake system. All components are made of high-quality stainless steel. Set includes: the bellcrank, pushrod to carbs, return spring clip, and accelerator return spring.

AJ5316 Fenton dual linkage set ..... 77.99 set

E8133

Fuel Lines for Edelbrock Carburetor

These fuel line and filter sets fit Thunder Series or Performer Series Carburetors. Features chromed hard steel line and Russell fuel filter. The dual feed lines include a stainless steel braided flex line for high-quality looks and performance.

Single Feed Lines for Square Bore Carbs

E8134 with blue anodized fuel filter..... 39.99 ea
E8131 with polished fuel filter..... 41.99 ea
E8126 w/3/8" barbed hose end, no filter 19.99 ea

Dual Feed Lines for Thunder Series AVS Carbs

E8133 with blue anodized fuel filter..... 94.99 ea
E8128 with polished fuel filter..... 84.99 ea
E8132 w/3/8" barbed hose end, no filter 81.99 ea

Replacement Fuel Filter

E8130 blue anodized fuel filter only..... 29.99 ea
E8129 polished fuel filter only..... 34.99 ea

66635

8-21/32"

Holley Dual-Feed Fuel Line

Chrome dual-feed fuel line kits for Holley carbs. High-quality gas lines specifically designed for Holley dual feed carburetors.

66635 8-21/32" inlet center to center 11.99 ea
66636 9-5/16" inlet center to center.. 11.99 ea

Adjustable Dual Feed Fuel Line for Holley Carbs

Made from aircraft quality buna-N neoprene hose encased in braided stainless steel, this fuel line is temperature, gas and oil resistant. Made for 3/8" NPT fittings, the fuel line is adjustable between the carb bowls from 7-1/2" to 11-1/2". Includes: 1/8" pipe fitting and plug for optional fuel pressure gauge, etc. Hose inlet nipple not included.

E8101 ..... 89.99 ea

JET

1985-93 JET Fuel Pressure Regulator

The JET TBI Billet Aluminum Adjustable Fuel Pressure Regulator provides you with the ability to adjust fuel pressure for maximum efficiency and horsepower gains. Factory TBI regulators are not adjustable and wear out over time due to weakening internal spring tension which reduces power and mileage. Stock vehicles with high mileage can restore lost power by simply replacing the regulator and performance built motors benefit from the ability to precisely meter fuel delivery. The JET Regulator is a direct replacement and features a steel insert on the adjuster to prevent stripping unlike other designs.

JT61501 1985-93 305/350 TPI..... 89.99 ea

JET

1998-02 JET Powr-Flo Mass Air Sensor

The JET Powr-Flo Mass Air Sensor delivers improved horsepower, torque and mileage from your LS1 powered vehicle by simply replacing the restrictive stock mass air sensor. The factory sensor not only is a major restrictive point in stock intake systems, but it also limits the full potential of aftermarket cold air intake systems. The flow bench tested design of the JET mass air sensor provides airflow increases of up to 45% and installs in 10 minutes or less. Compatible with other aftermarket upgrades such as computer upgrades, cold air intakes, TBI spacers, free flow exhaust systems, etc.

JT69104 1998-02 5.7L LS1 ..... 339.99 ea

New!

BBK

BK1709

BBK LS1 and LS6 Throttle Body

BBK LS1 and LS6 throttle bodies are designed to increase airflow on 1998-02 models to add between 7-12 horsepower. These throttle bodies are CNC-machined from quality castings and feature OEM die-stamped linkages, double sealed bearings, o-ringed throttle shafts and include new gaskets with detailed instructions with all parts and necessary hardware for installation.

BK1709 1998-02 80mm..... 329.99 ea
BK1710 1998-02 85mm..... 349.99 ea

PAINLESS

Throttle Body Adapter

Now you can convert from carburetion to TBI without having to replace your manifold. This adapter bolts on any square or spread bore manifold and accepts any 43mm bore throttle body from 4.3L, 5.0L and 5.7L GM engines.

60118 ..... 137.99 ea

Low Profile Fuel Line Disconnect Set

Easily disconnect fuel injection quick connect fuel lines in hard-to-reach locations. 3/8" adapters work on GM fuel lines. 5/16" adapters work on Ford and Chrysler applications.

34750 ..... 24.99 set

Vacuum Switch Socket

Removes and installs ported vacuum switches on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for parts. Provides adequate depth to fit over switch. Heat treated alloy steel. Use with 3/8" square drive.

Y12000 ..... 11.99 ea

Hedman Hedders

Hedman Hedders has led the performance exhaust industry for more than 40 years. As a premier manufacturer of headers, Hedman offers a large selection of street header systems. Hedman Street Hedders is the standard line of hedders for passenger cars and trucks. Many are 50 State legal while others are for use on vehicles which may not be used on highways. Hedman Hedders come standard with a black coating and are application specific designed. Smooth, mandrel bends for increases of as much as 20%, and are flame tested for leakage. Limited applications feature TORK-STEP stepped tube hedders. Dynamometer tests prove that a strategically positioned change in the primary tube broadens your engine's overall torque curve. After installing TORK-STEP Hedders, a small block Chevy engine of 5.7L piston displacement will experience a "Torque Boost" in the 2800 to 3200 and 3600 to 4000 RPM ranges. The result is a solid increase in low RPM towing and pulling power, increased RPM recovery rates upon gear shifts, and more power during downshifts for passing.

0) TEMS (Tubular Exhaust Manifold System)
1) Without smog injection or injection heads.
4) Includes parts necessary to retain emission devices. (50 State).
5) With AIR system.
6) Modification to stock exhaust required to retain catalytic converter.
15) Shortie hedder (Max. ground clearance).
16) Check non-Tork Step listings for same part number replacing last digit with a 0. Pay special attention to emission footnotes.
26) AC equipped vehicles require bracket #201110. (A6 compressor).
45) Not legal for sale or use in California on pollution controlled motor vehicles.
47) Some vehicles may encounter clutch shaft interference when cross shaft location is under or behind the driver side rear exhaust port. Use #69092 without AIR. Use #69093 with AIR.
48) Will not fit torsion bar suspension.
51) Under chassis exit
75) 4 x 4 manual transmission with hydraulic clutch. Does not work with slave cylinder.
103) Will fit with angle plug heads (Chevy alum. only)
112) Must use all factory big block hardware and mounts.
121) Must modify rotary AC bracket.
127) Late model only. Engine offset to passenger side of vehicle.
134) Dual outlet.
139) Must use 1975 and later model clutch linkage located at rear of engine.
144) Complete with Y-Pipe to single catalytic converter.
160) Early chassis only.
208) Due to aluminum cylinder heads on GEN VI engines, 502 BB Chevy will have clearance problems on some applications. Bottom of hedder flanges may hit head bolts. Notching may be necessary.

DOUG'S HEADERS

The original DOUG'S HEADERS

Every Doug's header set comes with all the necessary mounting hardware, collectors, premium gaskets and detailed installation instruction sheets. The extra thick gaskets are rated up to 1100 degrees F, and are designed for an exact port match with Doug's headers. Utilize 3/8" flanges on light duty applications and 1/2" to 5/8" flanges on heavy-duty applications, such as motor homes and tow vehicles. Thicker flanges hold up to heat better and are less likely to warp. Metallic Ceramic Thermal Barrier Coating (MCTBC) is simply the best header finish on the market and now comes standard on all Doug's headers. It protects and extends the life of headers by creating a thermal barrier that significantly lowers underhood temperatures and protects the substrate metal from thermal fatigue. After MCTBC is applied, it is polished with a vibratory finishing process that produces a high luster aluminum appearance and compresses and activates the coating, which increases the surface hardness to produce a finish that is 60% more corrosion resistant.

Doug's Headers Notes

36) Fits D-Port cylinder heads including ZZ4 crate engines.
69) Big block frame stands and motor mounts must be used to insure proper engine location and header fit.
82) Better ground clearance than 8372.
92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.
93) Requires removal or modification of locking steering columns if equipped.
94) Non catalytic converter equipped.
96) Installation requires a left side AC bracket 7608. 1979 and later vehicles with short compressors can use the stock bracket.
126) Y indicates Tri-Y design.
133) Does not fit with power glide transmission.
137) Will not fit 4-speed applications with bellhousing mounts.
141) Available with optional smog pump provision. Dual smog pump applications add DP to the end of header part number. Single smog pump applications add SP to end of header part number.
A) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicle/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

Exhaust Manifolds

GM Restoration Parts

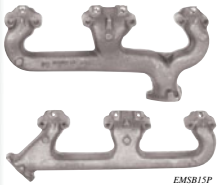

1968 Small Block Exhaust Manifolds

There's no better feeling than knowing you're replacing an integral part of your engine with correct reproductions! Each reproduction exhaust manifold is specifically designed to replace the original exhaust, including correct part numbers cast into each manifold. This reproduction is regarded as the early style and does not include smog tube holes. Sold in pairs only for a complete replacement.

1968-72 Big Block Exhaust Manifolds

Reproduction exhaust manifolds for 1968-72 full size big block models. These extremely high-quality manifolds are designed and manufactured to exact original specifications including the correct casting numbers for 1968-70 models. The manifolds are also correct for 1971-72 big blocks with the exception of the casting numbers, which were different. Reproduction manifolds were "outflow" tested to ensure factory equivalent specifications. Manifolds are sold in pairs only.

Ram's Horn Exhaust Manifolds

Reproduction exhaust manifolds based on the famous high-performance small block Chevy Ram's Horn manifolds from the 1950's and 60's. Manufactured from heavy cast iron without air injection ports or alternator/generator bracket provisions. Available in raw cast iron, black ceramic, silver ceramic or with a heavy chrome finish. Includes mounting hardware and gaskets. Sold in pairs.

Note: Not legal for use on pollution controlled vehicles.

85014

LS Cast Iron Exhaust Manifolds

Hooker cast iron exhaust manifolds designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. Their contoured shape aims exhaust gases for increased flow and performance over stock manifolds with a traditional old school look. Fits all GM LS engines up to 500 horsepower except LS7 and LS9's and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72 A-Body vehicles. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

Note: Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.

ARP Header Bolt Set

ARP manufactures premium grade bolt sets to facilitate installation of exhaust headers in both stainless steel or 8740 chromoly steel. The Stainless 300 material is not affected by corrosion or extreme heat, making it ideal for the application. The compact 12 point head version lets you easily fit a socket close to the pipe. Each ARP set includes the specific number of bolts for your application, plus premium quality washers with hex or 12 point heads, as required. The black oxide finished chromoly bolts and stainless steel fasteners are nominally rated at 170,000 psi tensile strength. Small block sets contain 12 bolts and big block sets contain 16 bolts. All bolts are 3/8" diameter.

R34749

1967-80 Exhaust Manifold Smog Tubes

Reproduction smog tubes also known as air injection reactor tubes. Each tube is manufactured to the exact factory specifications including correct bends and outlets for installation onto the exhaust manifold. A correct threaded outlet head is installed for easy installation of the smog pump check valve. The reproduction tubes have a non-original semi-gloss black finish, and the original GM tubes are finished in the correct zinc-plating.

G1804 1968-70 with counterweight.. 74.99 ea

Oxygen Sensor Fitting

Weld-in oxygen sensor fitting for all fuel injection systems. Fits TBI, TPI, CMFI, LT1, LSX, 5.0L and most other oxygen sensors.

60406 ..... 14.99 ea

Manifold to Headpipe Tube Extension

This is the short extension pipe which slips in between the exhaust manifold and the main header pipe and supports the exhaust pipe packing gasket. This item is manifactured in steel and has the dimension of 1-13/32" o.l. x 2-1/2" o.d.

3890382 1971-72 small block ..... 12.99 ea

3890689 1971-72 big block..... 12.99 ea

1967-71 Exhaust Pipe Packing Gasket

Original GM pipe packing was commonly used with 1967-71 models. This unit installs between the headpipe and exhaust manifold outlet. Heat resistant gasket which helps prevent exhaust leaks. Measures: 2-1/32" i.d. x 2-1/2" o.d. Keep your GM all GM by replacing the parts on your truck model with Genuine OEM products.

G5136 1967-71 ..... 4.99 ea

Engine to Exhaust Crossover Pipe Ring

Replacement ring used to link the exhaust manifold to the front exhaust crossover pipe. This ring is necessary when replacing the front exhaust pipes. Manufactured in cast iron.

31400 1971-72 2-1/2" o.d. x 2" i.d... 3.99 ea

Aluminum Collector Gasket Set

Soft conforming aluminum gaskets easily conform to the collector flanges for a superior seal. Each set comes with 2 gaskets and 6 nuts and bolts.

Electric Exhaust Cutouts

Don't crawl under your car to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials – CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Note: *Match valve size with cutout size for optimal fit and performance.*

Remote control for your electric cutout system. When space is a premium this control box gives you the flexibility you need. Includes 2 wireless key fobs for 100% control over your cutouts at the push of a button.

MN2466 ..... 84.99 set

Pypes Electric Cutouts

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware and 2 gaskets. Limited lifetime warranty. Electric exhaust cutouts fit 2-1/2" or 3" dump legs.

P1074 3" electric exhaust cutout set.. 359.99 set

25054

Doug's Stainless Steel Electric Cutouts

These cutouts feature a rugged 12 volt DC motor and rotating gate for a leakproof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A prewired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Cutouts are available individually, in pairs, or in complete sets with Y-Pipes for easy installation. Made in USA.

Important: *Not recommended for vehicles equipped with catalytic converters.*

Note: *May not be legal for highway use or use on emission controlled vehicles.*

Performance Exhaust

U-Fit Dual Pipe Set

These new sets come complete with all the pipes you need to build a custom dual exhaust system in 2-1/4", 2-1/2" or 3" pipe diameters. These U-Fit sets include the front adapter pipes, intermediate pipes, H-pipe assembly and over-the-axle pipes. Each piece has a slip-fit connection, for easy assembly and built from mandrel bent, 16 gauge aluminized steel tubing.

Note: These sets do not come with any hardware. Shipped oversize. 48S

1968-87 Pypes Header Back System with X-Pipe

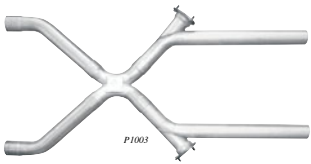

Pypes has designed 2-1/2" Header Back dual exhaust systems for 1968-72 and 1973-87 V8 models. Fabricated using 16 gauge, mandrel-bent aluminized steel pipe ensures maximum exhaust gas flow which will boost horsepower. This system features a Siamese designed X-pipe, a pair of mufflers, tailpipes, cad plated clamps and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. Choose from 3 different muffler styles available.

Important: Exhaust tips not included. Some cutting may be required. 48S

Note: Shipped double oversize.

Flowmaster Muffler Heat Shield

Formed aluminum heat shield designed to mount on muffler for added protection in reducing heat radiated from mufflers and reducing interior noise. Attaches easily with included straps. Fits 5" x 10" x 17" mufflers.

F51017		34.99 ea

Flowmaster Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6.5" x 9.5" x 4".

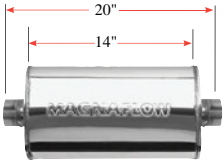

Note: These mufflers are recommended for off-highway use, not for street driven vehicles

FLOWMASTER Performance Mufflers

This Design Uses Low Pressure to Pull Spent Gases Out of Each Cylinder More Efficiently.

FLOWMASTER Performance Mufflers

Flowmaster's technology uses the pressure and sound energy released from an engine's combustion chamber into the exhaust system to create a low pressure area between exhaust pulses. Their design uses this energy to pull spent gases out of each cylinder more efficiently. This improved removal of exhaust gases out of the cylinders promotes a more efficient charge of unburned fuel and air to fill the cylinder for the next cycle. The result is more power as the engine has a purer mixture to burn.

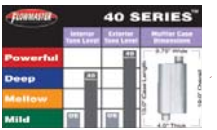

FLOWMASTER Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminized, black in color and is an aggressive, deep sounding street two chamber muffler. Enjoy some American Thunder today!

FLOWMASTER 40 Series Performance Mufflers

- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

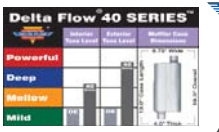

Flowmaster 40 Series-Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

FLOWMASTER Delta Flow 40 Performance Mufflers

- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

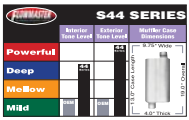

Flowmaster Delta Flow 40 Series-Reduced Interior Resonance

This two chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

FLOWMASTER Performance Mufflers

FLOWMASTER Super 44 Delta Flow Mufflers

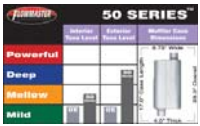

FLOWMASTER Super 44 Delta Flow

The Super 44 is the most aggressive, deepest toned street and strip muffler Flowmaster has ever made! The Super 44's offer maximum performance, an improved flow path radius, and generates more torque and more power than ever before! If you really want to hear your exhaust system inside as well as outside, the Super 44 is for you!

FLOWMASTER 50 Series Performance Mufflers

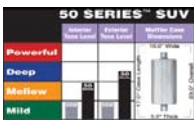

- T409 Stainless Steel
- Milder Performance Sound
- Lower Interior Resonance
- Performance Street

Flowmaster Delta Flow 50 Series-Milder Interior & Exterior Tone

This is the latest design of the 50 series muffler that utilizes Flowmasters patented "Delta Flow" technology along with an "H-Chamber" to eliminate most all interior resonance and still have that famous Flowmaster sound outside the vehicle. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

FLOWMASTER 80 Series Performance Mufflers

- Aluminized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

Flowmaster Cross Flow 80 Series-Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (cross-flow) behind the rearend. It provides an aggressive muscle car sound both inside and outside the vehicle. A replacement for early and late model vehicles. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

New! Dr. Gas! Exhaust Components

A7700144

Made in USA

Dr. Gas

Frame clearance tubes allow you to route your exhaust through tight areas under crossmembers and frame rails. They are designed with round openings and a larger diameter low profile oval center section that gives extra clearance without a loss of cross-sectional area or flow. Available for 2.5", 3", or 3.5" diameter pipe. Made in USA.

Performance Mufflers

New! Dr. Gas! Exhaust Components

Made in USA

A7700110

Dr. Gas Boom Tube

Dr. Gas Boom Tubes were designed for stock car racing, and now these low profile side exit exhausts are available for your muscle car. Boom Tubes have no restriction and are a perfect add-on for exhaust cutouts. Boom Tubes are fully MIG welded and can be trimmed to match your vehicle's side profile. Untrimmed Boom Tubes measure approximately 27.5" long and are available with 2.5", 3", and 3.5" round inlets. From the inlet transition, they drop to a thin 1.75" thick and 8" wide with two length wise support ribs. Exposed exit is approximately 12" to 14" wide depending on the trim angle. Combine with Dr. Gas mufflers and X-pipe system for a one-of-a-kind exhaust sound! Made in USA.

Note: Test fit before trimming. No returns accepted once Boom Tubes are trimmed or altered.

Dr. Gas Boom Tube Tip

These Boom Tube Tips are similar to full size Boom Tube, but are shorter in length for easy installation. They still have the same 8" by 1.75" compact size after the inlet transition. Tips are pre-cut at 45 degree to expose an 11-1/4" opening at the side of the car and can be trimmed to match the profile of your car. Tips are fully MIG welded and are available individually or in pairs. Boom Tube tips are approximately 23" long on the long side and 14" long on the short side and are available with 2.5", 3", or 3.5" round inlet pipes. Made in USA.

Note: Trimmed or modified tips cannot be returned.

A7700139

Dr. Gas Universal X-Pipe Crossover

Dr. Gas designed and commercialized the X-pipe crossover in the '80s. X-pipes equalize exhaust system pressure imbalances while producing a scavenging effect for more power and efficiency. Exhaust note is dramatically improved to a smoother, higher-pitch note. Universal X-pipe crossover sets are available in 2.5", 3", 3.5", and two special sizes with built-in reducers after the X junction. Sizes with reducers deliver enhanced torque without a horsepower loss. Complete sets include: two inlet bends, the X-pipe junction, two outlet bends, and flanges with gaskets and hardware. Precision made with premium materials. Made in USA.

Note: Welding and trimming required. Test fit before final installation. No returns accepted once products are trimmed or altered.

Pypes Performance Exhaust

Street Pro Muffler

Don't let the looks of this muffler fool you. Although at idle, you may cause passengers to immediately reach for their seat belts, upon acceleration, a smooth authoritative tone turns apprehension into a reassuring confidence. This is a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler because there is no filler to burn off. Recommended for stock to medium modified vehicles where an aggressive sound is appreciated but not advertised. Muffler shell measures: 4" x 9" x 14" long.

409 Stainless Steel

P1021	2.5"	offset in/offset out	74.99 ea
P1022	2.5"	offset in/center out	74.99 ea

P1024	3"	offset in/center out	69.99 ea

Race Pro Muffler

When it comes to flow, you just can't get anything better than our Race Pro Muffler. This baby features a 'straight through' path with throughput that can be 95% of straight pipe! The throaty sound is surprisingly tame considering the absence of any impedance when you look down its barrel. At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders look out! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Highly recommended for the track where every 1/10th counts. Of course, there are plenty of these mufflers hidden under some fine street machines too. Think of these mufflers as large exhalers for your car. Muffler shell measures: 4" x 9" x 14" long.

P1034	2.5"	offset in/center out	95.99 ea

Violator Muffler

The Violator is Pypes' newest muffler and has already gained acceptance and praise in the marketplace. It flows as much air as our Race Pro muffler but has an incredibly unique and aggressive sound! The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers. Finally, a muffler that flows like a straight through muffler but sounds like a chambered muffler. If you want to be noticed... this is your muffler! Muffler shell measures 4" x 9" x 14" long.

DYNOMAX Performance Exhaust

17734

Universal Fit Super Turbo Muffler

The Dynomax Super Turbo muffler has exclusive patented flow directors to channel exhaust flow and eliminate turbulence, larger diameter internal tubes for maximum flow, along with fiberglass matting that delivers a mellow, true performance sound. Made of all aluminized materials, double-wrapped and arc-welded for longer life and sharper appearance. All universal mufflers are reversible for custom installation.

Important: *This muffler comes in two styles: Sport model from 2" to 2-1/2" measures 4" x 9-3/4" x 18-1/2" and 3" measures 4" x 9-3/4" x 20", Street model measures 4" x 9-3/4" x 25-1/2".*

FLOW TECH A Holley Performance Brand

50051

Universal Fit Raptor Muffler

Flowtech's new Raptor turbo performance muffler features a unique sound rib case design and aluminized, lock seal construction. The Raptor has low restriction, reduces back pressure and increases performance. It offers gigantic, high output flow tubes to provide more horsepower, better mileage, and a sound of pure performance. Dimensions: 13" x 10" x 4-1/2" with offset-inlet/center-outlet.

Low-Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When set up as a functional feature, it allowed the racer to uncap or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the car with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from three styles – slanted outlet without cap, triple outlet with caps or single outlet with cap. Available in three lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

Note: Shipped oversize.

Socket Assist

Essential tool for bolts with tight clearance like spark plugs and header bolts! 12 point for maximum finger traction. Set of three including: 1/4" x 1/4", 1/4" x 3/8", 3/8" x 3/8" (12 point x socket drive size). These belong in every tool box.

67575 3 piece set..... 9.99 set

Dual Drive Oxygen Sensor Wrench

Tool comes with both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat-treated steel with six point design will withstand high torque removal applications.

12390 ..... 25.99 ea

Tailpipe Expander

Used to remove clamp grooves and round out crushed or bent exhaust pipes to ensure a tight fit, eliminating exhaust leaks. The hex end allows the use of a combination wrench to remove clamp grooves or small imperfections, or an impact wrench to expand pipes. Imperfections are forced outward rather than forward, eliminating possible damage to component parts. No holding fixture is necessary.

S80335 3 oz. tube ..... 2.99 ea

Exhaust Accessories

Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031 ..... 48.99 ea

Create More Horsepower! Reduce Underhood Temperatures!

The original Exhaust Insulating Wrap™ was developed over 12 years ago by Thermo-Tec®. Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F, and contains no asbestos. Thermo-Tec® exhaust wrap will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. This coating controls heat buildup and dissipation. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

Reduce Underhood Temperatures Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec® and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder	64.99 ea
TT1016	8 cylinder	85.99 ea

This Flexible Heat Shield Simply Clips Into Place!

The Header Manifold Blanket™ provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in two sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications	79.99 pr
TT1018	straight 6 or 4 cylinder models	74.99 ea

Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

Hi-Heat Coating

To finish off a clean and well-protected Exhaust Insulating Wrap application it is recommended to use the Hi-Heat Coating. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

THERMO-TEC®

- Floorboard
- Firewall
- Doors
- Headliner
- Underhood
- Transmission Hump

Cool It Mat

Use the Cool It Mat™ to battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. It is also perfect in doors, underhoods, and above transmission housings. The Cool It Mat™ is composed of resin bonded silica blanketing insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

TT1005	24" x 48" insulating mat	31.99 ea
TT1006	48" x 48" insulating mat	64.99 ea

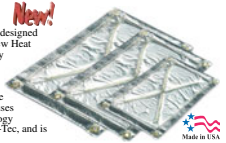

Keep Cool! Reflect Radiant Heat Away from Your Passenger Compartment!

The Muffler/Catalytic Converter Heat Shield™ is made up of woven silica with a flexible mylar finish. The highly reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the car. The kit includes one 24" x 40" mylar heat shield and all necessary fasteners.

TT1007	muffler heat shield	58.99 ea

Ultra-Lite Insulating Mat New!

Ultra-Lite insulating mat was designed with the racer in mind. The new Heat Terminator is made of a highly textured aluminum composite surface on the one side, with a high temp silica felt center and a durable mylar composite facing. The Heat Terminator uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and is available in six popular sizes.

Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14720	36" X 60"		56.99 ea

Micro Louver Air Shield

Lightweight yet durable, the aluminum Micro Louver Air Shield features micro air louvers, which allow air to flow through the metal shield. The movement of the vehicle creates dynamic air flow, cooling by natural convection. The textured surface created by the micro air louvers creates more area for heat dissipation. The Micro Louver Air Shield is flexible yet durable, it bends and flexes easily by hand, making a custom fit trouble-free.

TT11710	12" x 24"	39.99 ea
TT11720	24" x 24"	58.99 ea
TT11740	24" x 48"	99.99 ea

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing and is easy to trim and fit.

THERMO-TEC®

Adhesive Heat Barrier™

Use your imagination and you will find many uses for this heat reflecting mat. Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. It can be used in applications to protect painted surfaces, plastic parts or any component from the damaging effects of radiant heat. Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance. Two sizes to choose from.

TT1004	12" x 24"	19.99 ea
TT1049	24" x 36"	49.99 ea
TT1050	24" x 48"	67.99 ea

Starter Heat Shield™ Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters.

TT1002	with straps	24.99 set

Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

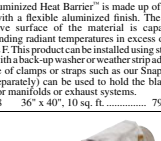

TT1019	1-1/2" x 15' feet	15.99 ea
TT1051	2" x 50' feet	42.99 ea

Protect Your Vehicle from Corrosive Battery Acid!

Excessive heat in the engine compartment will cause most standard batteries to spew or seep corrosive battery acid. This in turn will not only corrode your vehicle's battery tray, underhood and radiator support area, but will also reduce the longevity of your battery. Prolong battery life with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. It is so effective, it is used by all branches of the U.S. military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/ neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

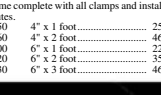

TT1001	battery heat shield set	25.99 set

An Extremely Versatile Heat Barrier™!

The Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. This product can be installed using standard rivets with a back-up washer or weather strip adhesive. The use of clamps or straps such as our Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

TT1008	36" x 40", 10 sq. ft.	79.99 ea

Clamp-On Heat Shield

The flexible Clamp-On Heat Shield blocks more than 90% of damaging radiant heat from the exhaust. The high tech composite construction provides the ultimate in protection by incorporating Thermo Conductive Technology, a highly texturized silica-based fabric. Clamp-On Shields are available in 1', 2' and 3' lengths. Sets come complete with all clamps and install easily in minutes.

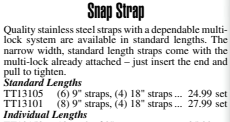

TT11650	4" x 1 foot	25.99 set
TT11660	4" x 2 foot	46.99 set
TT11600	6" x 1 foot	22.99 set

TT13160	6 pack of 18" straps	19.99 set

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

3' Foot Lengths

TT1020	1/4" to 1/2" inside diameter	12.99 ea

Transmission Products

Street/Strip TH350 and TH400

B&M's Street/Strip Transmission is a complete "Ready-to-Run" unit (less converter) for high-performance street and mild strip use. The transmission provides firm shifts and features a standard shift pattern. These are the finest available for street/strip use.

GM TH350

Key Features:
- 2.52:1 first gear ratio, 1.52:1 second gear.
- Extra wide direct drum bushing.
- Machined forward and direct pistons.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kickdown band with welded anchors.
- All new thrust bearings and races.
- New adjustable modulator.
- New detent control link with new breather and filter.
- Recalibrated valve body.

GM TH400

Key Features:
- 2.48:1 first gear ratio, 1.48:1 second gear.
- Rebuilt front pump utilizes B&M pressure regulator spring and shims.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kickdown band with welded anchors.
- Machined center support with new case saver ring.
- All new thrust bearings and races.
- New adjustable modulator and silencer ring.
- New external electric connector and kickdown solenoid.
- Recalibrated valve body.

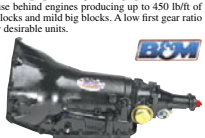

Note: *Shipped truck freight.*

223030A	TH350 6" tailshaft	1175.99 ea
223031A	TH400 with large bushing, for large 1-7/8" yoke	1175.99 ea

Street TH-700-R4/4L60

This transmission is suitable for use behind engines producing up to 450 lb/ft of torque, which covers most small blocks and mild big blocks. A low first gear ratio and overdrive 4th make these very desirable units.

Note: *Will not replace 4L60E applications (post 1993).*

GM TH700-R4/4L60

Key Features:
- 4-speed GM transmission.
- 3.06:1 first gear ratio, 1.63:1 second, 1:1 third and .70:1 overdrive ratio.
- Rebuilt front pump and governor with new gear.
- New thrust washer kit, races, thrust bearings bushings and 2-4 band.
- All new B&M high-performance friction plates.
- New overdrive sprag assembly.
- High-performance reaction carrier assembly.
- Corvette 2-4 servo assembly.
- New external electric connector.
- Recalibrated valve body.

Note: *"Street – except Corvette, 60 degree V6, or 1984 and later 30 tooth spline converter. Shipped truck freight.*

Pour-in Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and R/V applications as well as racing.

Important: *Not recommended for electronically controlled automatic transmissions.*

Bowler 4L80E 4-Speed Automatic Transmission

If your GM produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly built transmissions, every Bowler unit is built by an individual technician start-to-finish and dyno tested before shipping. Includes flexplate, converter, computer and accessories. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

Important: *Does not come with driveshaft or crossmember.*

Note: *Special order, must be prepaid. Shipped truck freight.*

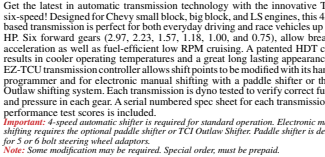

A9800103

- **1-year warranty**
- **New clutches, seals and gaskets**
- **Updated boost valve system**
- **New overdrive & lower roller sprag**
- **Updated servo piston**
- **Hardened forward clutch hub**
- **300M billet input shaft**
- **Updated shift valve springs**
- **Wide kickdown band**
- **Electronic speed sensor**
- **New valve body separator plate**
- **Improved lubrication system**
- **All new Torrington bearings**
- **All new thrust washers**
- **New fill tube and indicator**
- **Energy suspension transmission mount**
- **Custom billet internals stall converter**
- **Bowler dependability and durability**

TCI 6X Transmission Package

Get the latest in automatic transmission technology with the innovative TCI 6x six-speed! Designed for Chevy small block, big block, and LS engines, this 4L80E-based transmission is perfect for both everyday driving and race vehicles up to 850 HP. Six forward gears (2.97, 2.23, 1.57, 1.18, 1.00, and 0.75), allow breakneck acceleration as well as fuel-efficient low RPM cruising. A patented HDT coating results in cooler operating temperatures and a great long lasting appearance. The EZ-TCU transmission controller allows shift points to be modified with its handheld programmer and for electronic manual shifting with a paddle shifter or the TCI Outlaw shifting system. Each transmission is dyno tested to verify correct function and pressure in each gear. A serial numbered spec sheet for each transmission with performance test scores is included.

Important: *4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adaptors.*

Note: *Some modification may be required. Special order, must be prepaid.*

Includes:
- TCI 6x Transmission
- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller & Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

Transmission Products

From Hot Rod Hall of Fame Member and World Class Transmission Builder – Art Carr

"Performance Automatic Transmissions Built to Take It"

TH350 and TH400 Performance Transmission

Whether you have a stock engine or one that's built-to-the-hilt, you don't want to have an automatic transmission that just slides into gear. You need one that shifts positively into each gear, especially at wide open throttle. That is why you need a performance automatic transmission from California Performance Transmission. With over five decades of performance automatic transmission rebuilding experience, CPT transmissions are designed for the rigors of the street and strip. They are built with heavy-duty clutches and bands, with a complete blue printing that includes modifications for improved lubrication and increased thrust capacity. The driver has a choice of either complete manual or automatic control of the transmission as a result of the CPT Manual/Automatic Hi-Tech Valve Body kit installed in each transmission. These street/strip transmissions are bolt-in replacements for your stock transmission and have all the heavy-duty features described above.

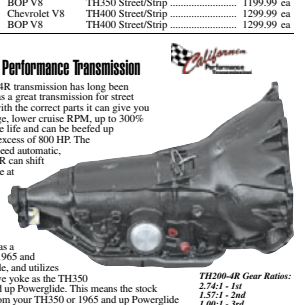

TH350 Gear Ratios:	*TH400 Gear Ratios:*
2.52:1 - 1st	*2.48:1 - 1st*
1.52:1 - 2nd	*1.48:1 - 2nd*
1.00:1 - 3rd	*1.00:1 - 3rd*

Important: *BOP = Buick, Oldsmobile, Pontiac. Do not use torque convertors with a stall speed in excess of 2600 RPM. See warranty info at the bottom of page.*

TH200-4R Performance Transmission

The TH200-4R transmission has long been overlooked as a great transmission for street rods. Built with the correct parts it can give you better mileage, lower cruise RPM, up to 300% longer engine life and can be beefed up to handle in excess of 800 HP. The ultimate 4-speed automatic, the TH200-4R can shift into overdrive at full throttle. Other benefits are that the TH200-4R is the same length as a TH350 or a 1965 and up Powerglide, and utilizes the same drive yoke as the TH350 and 1965 and up Powerglide. This means the stock driveshaft from your TH350 or 1965 and up Powerglide can also be reused. The TH200-4R has a multiple bolt pattern that will fit Buick, Oldsmobile, Cadillac, Pontiac and Chevrolet engines. The gear shift and cooler lines are located the same as the TH350 and Powerglide and hook up easily. The only modification necessary is moving the crossmember back 6-1/2" from the TH350 or Powerglide position. The TH200-4R uses a throttle valve cable and bracket that hooks to your carburetor or throttle body and gives you control over your shift points.

TH200-4R Gear Ratios:
2.74:1 - 1st
1.57:1 - 2nd
1.00:1 - 3rd
0.67:1 - 4th

Important: *BCOP = Buick, Chevrolet, Oldsmobile, Pontiac. Do not use torque convertors with a stall speed in excess of 2600 RPM. See warranty info at the bottom of page.*

These *transmissions have a full 90-Day warranty, and are subsequently guaranteed against defective workmanship for two full years from purchase date. After 90 days, for two years, California Performance Transmission will rebuild or overhaul under warranty, the transmission for $250.00 plus hard parts to the original owner, or $300.00 plus hard parts, to any subsequent owner, if warranty is transferred. This overhaul or rebuild includes a new factory warranty. Transportation to and from California Performance Transmission for any warranty repairs is the responsibility of the transmission owner.*

Note: *Special order. Shipped truck freight.*

SuperMatic 4L70E Transmission

Support up to 480 horsepower with the SuperMatic 4L70E. Greater performance with enhanced efficiency is the cornerstone of a growing movement in environmentally conscious hot-rodding or "E-rodding". One of the best ways to drastically improve the efficiency and driveability of your vehicle is by installing a modern automatic overdrive transmission. This GM Performance Parts 4L70E transmission compliments high-performance engines with the exceptional efficiency, strength, and shift characteristics that enthusiasts demand. Built with the highest quality OEM parts, including a 13 vane pump with a heat treated stator support, five pinion input and reaction carriers, high performance 2/4 servo, heat treated sun shell and heavy-duty low roller clutch assembly, and a robust 3-4 clutch pack and high energy 2-4 band. Needle bearing assemblies replace conventional thrust washers to minimize power losses. The new SuperMatic 4L70E is the perfect compliment to a GMPP crate engine, creating a bulletproof powertrain for any project you can dream up.

B&M Transmission Products

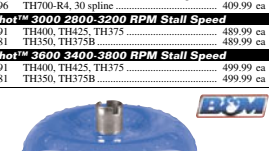

HoleShot™ for Small Block and Big Block Applications!

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Many modifications, particularly big cams, tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher rpm where more torque is available. The HoleShot™ is generally a very good choice for the typical street machine that is looking for better launch capability and more strength. Street rods with modified engines will also benefit from a HoleShot™ converter. Not recommended for N20 equipped engines.

Stall speed listings are based on engines producing 230 ft lbs of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated. *Note: *Items denoted with asterisk require small 10-3/4" bolt circle flexplate or dual pattern flexplate.*

California Performance Transmission Torque Converter

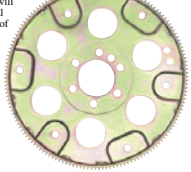

The revolutionary Street Converter (2400-2600 RPM stall speed) came from research and development of off-road competition. These converters offer a slightly higher stall speed that will allow greater torque bands at medium and high speeds, and increased lock-up at higher RPM ranges. In addition there's an increase in fuel mileage at cruise speed. The 10" converter is recommended for vehicles in excess of 450 HP. Thus, named Heavy-Duty Super Torque Converter. You'll get 52 extra horsepower over stock converters with the HD Super Torque converter.

Important: These torque converters have a full 90-Day warranty, and are guaranteed against defective workmanship for two full years from purchase date. After 90 days, for two years, California Performance Transmissions will completely repair or replace, at its option, at a cost in relationship to the original cost of the torque converter. Standard repair will be $225.00. Transportation to and from California Performance Transmission for any warranty repairs is the responsibility of the torque converter owner.

From Street to Strip — These Flexplates are Built Especially for High RPM Engines!

B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of transmission applications.

Key Features:
- SFI spec 29.1 approved.
- NHRA/IHRA legal.
- SFI spec 29.1 certification sticker included.
- Ideal for street applications to extreme duty racing and high RPM use (above 6000 RPM).
- Dual bolt patterns to accommodate Powerglide, TH350, TH400 and 700-R4.

Transmission Products

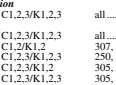

SuperMatic Transmission Controller

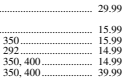

GM Performance Parts' all-new SuperMatic transmission controller system is the most fully integrated and user-friendly transmission control package in the aftermarket. Designed for hot rods and other vehicles equipped with LSx engines and GM Hydramatic 4L60 or 4L80 series electronically controlled transmissions – including GMPP SuperMatic transmissions. Installation is a simple matter of completing the new fully terminated connections that link the transmission controller. Controller comes pre-programmed and is ready to drive once all connections are made. Designed to operate with GMPP's E67-based engine controller, which operates all GMPP LSx crate engines with electronic fuel injection. While the system is designed for "tuning-free" operation right out of the box, it also includes optional connections that allow adjustment and calibration, including shift timing and shift firmness and can be configured to operate the transmission. Comprehensive adjustment instructions are included with the kit. As if all those features weren't enough, the system also includes full on-board data logging capability to help maximize performance when tuning.

TCI Pro Super Transmission Overhaul Kit

TCI Pro Super Kits are a performance overhaul for automatic transmission based on the same components in TCI Street Fighter transmissions. These kits include: gaskets, seals, performance frictions, steel clutches, bands, adjustable modulator, high volume filter, a drain plug kit and bushings as well as a TCI Trans-Scat valve body kit to allow for manual/automatic shifting, giving solid shifts suitable for towing and drag racing applications.

Torque Converter Lockup Controls

These units provide control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. These are designed for use on carbureted engines. Eliminate converter lock and unlock cycling and premature unwanted converter lockup avoiding engine lugging and spark knock. Provides lockup at highway speeds for fuel economy. Can be used for converter lockup operation when converting a non-lockup equipped vehicle to a lockup style transmission and converter. B&M set is for the person who wants to "fine tune" when the converter locks up; while the Painless set is for the person who wants to put it in and forget about it.

B&M

Provides a dash mounted control to govern converter lockup at any speed between 30 and 90 MPH. LED dash indicator displays when converter is locked or unlocked. Sets are available for vehicles with mechanical and electronic speedometers. Sets for electronic speedometers include an adjustable control box with locked and unlock indication, wiring and instructions. Sets for mechanical speedometers also include a speed sensor with a cable adaptor for mechanical speedometers. Lockup sets work with TH200, 200R4, TH350, TH700 and 4L60 transmissions with lockup converters.

223314	electronic speedometer		204.99 set
223308	mechanical speedometer		204.99 set

Painless

Uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lockup solenoid. Includes: vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

60110	TH200-4R	181.99 set
60109	TH700-R4	209.99 set

Bowler

The Bowler lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. These set allows engine to regain proper RPM before allowing the converter to lockup. Usually lock up occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th. Set includes: single wire lockup control module, 4th gear pressure switch, new internal wiring harness with lockup solenoid for 700-R4 and 200-4R, brake switch, pan gasket and filter with detailed instructions.

No More Messy Oil Splash!

End the messy job of draining transmission fluid forever with a Transmission Drain Plug Kit from B&M. Only a few automatic transmissions are equipped with drain plugs from the factory. If you're not one of the lucky few, then you can install one yourself very easily. Simply remove the pan once, drill a hole, bolt the B&M Drain Plug Kit in, and eliminate messy oil splash forever. Non-magnetic, universal fit.

Cast Aluminum Transmission Oil Pan

Fight high transmission temperatures with these specially cast transmission oil pans. The sand cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black, "As Cast" or polished, there is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

Note: Gasket and filter not included.

MOROSO

Transmission Oil Cooler/Filter

Automatic transmission oil cooler and filter combination assembly with a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes: filter cartridge and two 1/4" NPT to 3/8" line fittings.

241200 transmission filter cooler assembly ..... 99.99 ea

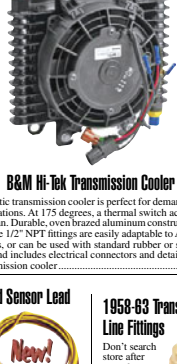

Flex-a-lite

Made in USA

Double the Life of Your Transmission!

Did you know that approximately 90% of all transmission failures are caused by overheating? When fluid overheats, seals and clutches burn out, clutches start to slip, seals harden and varnish forms. Automatic transmissions generate extreme heat during stop-and-go driving, when towing or when carrying heavy loads. Once the fluid reaches 200 degrees, it deteriorates rapidly, losing it's ability to cool critical transmission components. If you frequently drive in stop-and-go traffic, have installed a high stall torque converter, tow or carry heavy loads, a transmission cooler can help reduce transmission temperatures tremendously. Reducing the fluid temperature just 20 degrees can actually double the life of your transmission. This high-performance transmission oil cooler is made in the USA and features a heavy-duty 7-1/2" x 20" x 3/4" core for extreme conditions. Comes complete with: all hardware, hoses, fittings, adapters and easy to follow instructions.

Flexible Transmission Dipstick

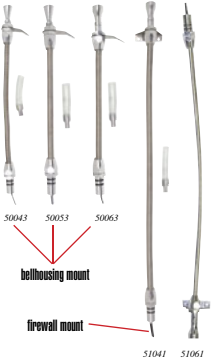

You can have unlimited flexibility with Lokar's Teflon lined flexible braided stainless steel transmission dipstick. Comes complete with braided stainless outer housing and heat resistant easy to read flexible inner dipstick measuring cable. Inner cable is molded with appropriate trans fluid levels. Billet aluminum handle and fittings complement Lokar's flexible engine dipsticks. Includes dipstick funnel adapter to assist in filling. Designed for push-in style transmissions and includes dipstick seals with o-rings. Available in both firewall mount and trans mount. Firewall mount measures 24" in length. Trans mount mounts to the bellhousing and the length varies according to the transmission application. Complete with installation instructions.

Royal Purple Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Additionally, Max ATF is more oxidation stable than other transmission fluids for longer fluid life. Max ATF is recommended for a wide variety of transmissions. Max ATF significantly reduces heat to extend the life of your transmission. Automatic transmissions generate a great deal of heat and depend upon the transmission fluid for cooling and protection. Max ATF is fully compatible and can be mixed with other automatic transmission fluids; however, for the best results drain or flush the current oil and then fill with Max ATF.

B&M Transmission Products

Provide Crisp Shifts and Eliminate Slippage without Removing Your Transmission!

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission – and you get two modes of performance to select from: Heavy-Duty, or Street/Strip. It's our least expensive and simplest to install kit. All you need are a few dollars and some hand tools! In the space of an afternoon, you can turn your transmission into a B&M tuned unit! Just ask the thousands of satisfied customers that have installed one in their transmissions!

Stage 1 – Heavy-duty
Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.
Stage 2 – Street/Strip
Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

223070

Key Features:
- Provides crisp shifts on any stock automatic transmissions.
- Elimination of soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

223070	1965-87	TH400, 375, M40	41.99 ea

Recalibrate Your Automatic Transmission for Optimum Performance.

The next step up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). Most stock automatic transmissions won't downshift into low gear above 15 MPH, and automatically upshift at a predetermined speed no matter what gear you're in. With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want! This is an asset when you've got a modified engine, and you want additional RPMs, or you're towing a trailer or driving heavy loads downhill.
Stage 1 Heavy-duty – For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".
Stage 2 High-Performance Street – For full performance street use. Essentially the same as Heavy-duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

223095

Key Features:
- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.
- Includes B&M high-performance friction materials, complete overhaul gasket set, B&M Transpak™ modification components including special replacement valves and springs, and drain plug kit.

Switch-On High-Performance Driving Fun!

ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced – extending the life of your transmission! Anyone can install a B&M ShiftPlus™ in minutes with a few simple hand tools. This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock!

Key Features:
- Installs in minutes.
- Reduces slippage and heat!
- 50 state emissions legal.
- For late model automatic transmission equipped vehicles.

4L60E GM rear wheel drive and 4 wheel drive with trans code MT1 or M30 (RPC code found in glovebox). Includes 1994-96 Impala, and Caprice.

223101		B&M ShiftPlus™	49.99 ea

B&M Tranny in a Box!

The most comprehensive kit available! Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Kits available for TH350, TH400, 375, 375B, M40, M38 and TH-700R4. The TH-700 is a desirable transmission due to it's extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Comes with instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a TH-700R4 to B&M specs. Easy to understand even if you have no experience in this area!

Key Features:
- Same quality and components used in a B&M Street/Strip Transmission in a do-it-yourself kit.
- Transpak modification components including special replacement valves and springs.
- Includes all the necessary parts, springs, plates, etc., to convert your valve body to a full B&M Manual/Automatic valve body.
- Improved shift feel, retains full automatic features.
- B&M high-performance friction materials.
- Complete overhaul gasket set.
- Drain plug kit.

1942-07 Transmission Mount

If your vehicle has over 50,000 miles, or the transmission mounts have been soaked with oil, chances are they have grown weak and need replacement. If you experience a thud upon acceleration or deceleration, use a pry bar to check the mounts for movement. Our reproduction transmission mounts are an inexpensive cure for this potentially dangerous condition.

1968-84 Transfer Case Torque Mount

Replace broken or deteriorated transfer case torque mount bushings with polyurethane bushings. These transfer case mounts control dangerous torque movement on the race track, street and off-road. Soft enough for daily driving – yet strong enough to handle extreme conditions. Choice of black or red. Includes 2 mounts per set.

Note: Add for red mount G for black.

31106	1968-84	4WD	64.99 set

1973-02 Polyurethane Trans Mount

Once available only in degradable rubber compound, these mounts are now available in a longer lasting and very durable polyurethane material. For use with automatic or manual transmissions. Specify "G" suffix for black urethane or "R" for red urethane when ordering.

4L80E, 4L85E, 4L70E Mechanical Speedometer Conversion Set

Mechanical speedometer conversion sets for the 4L60E, 4L65E, 4L70E late model GM overdrive automatic transmissions. Each kit will convert your overdrive automatic transmission to a factory mechanical speedometer while retaining a functional VSS capability. It is a simple 30 minute bolt-on installation. Includes the correct length tail housing, new GM speedometer sleeve with new gear, new GM VSS sensor, new GM reluctor/drive gear bushing, and bolts. The 1998 and up sets include: a billet 6 bolt to 4 bolt adaptor and hardware.

Important: *When ordering set, you must give rear axle gear ratio, either tire diameter or tire size for correct speedometer gears.*

Note: *Special order, must be prepaid.*

4L80E, 4L85E Mechanical Speedometer Conversion Set

Classic Industries® is offering mechanical speedometer conversion kits for the 4L80E, 4L85E late model GM overdrive automatic transmissions. Each set will convert your overdrive automatic transmission to a factory mechanical speedometer while retaining a functional VSS capability. It is a simple 30 minute bolt-on installation. Includes the correct length tail housing, new GM speedometer sleeve with new gear, new GM VSS sensor, and A new GM reluctor/drive gear bushing, bolts. You must reuse tail housing bolts. There are two types of output shafts: short spline (2WD truck) or full length spline; you must indicate which one you have to receive the correct bushing for the shaft. Check examples above.

Important: *When ordering set, you must give rear axle gear ratio, either tire diameter or tire size for correct speedometer gears.*

Note: *Special order, must be prepaid. Check output shaft photos to see which spline you have before ordering.*

1955-89 Driveshaft Support Bearing

Replace the worn out driveshaft center support cushion bearing in your 1955-89 GM truck. Designed for trucks equipped with 2 piece driveshafts. The OE style center support bearing is surrounded by rubber for a stock replacement, or a polyurethane cushioned bearing for longer lasting service life and high-performance applications to support the center of the driveshaft assembly. A worn center support cushion or bearing can cause a severe vibration of the driveshaft assembly.

1947-54 Rear Trans Support Bracket

Reproduction of the often broken 1947-54 rear transmission support bracket. Fits 3-speed or 4-speed transmissions with an enclosed driveshaft. This bracket is for the original torque tube style driveline and attaches to the factory crossmember and the rear of the transmission.

14092	1947-54	.....	64.99 ea

Auto Transmission Driveshaft Yoke

Factory GM fine spline driveshaft yoke to fit Muncie 4-speed, 3-speed with 27-spline standard transmission and TH350, TH200-4R, and TH700-R4 automatic transmissions. This is a must have when installing a TH200-4R in a 1964 and earlier Powerglide-equipped vehicle.

G13114	27 spline yoke	.....	99.99 ea

Adjustable Transmission Shift Arm

This 3/4"- 48 spline is designed for 360 degree rotation, allowing proper ratio adjustment between the transmission and the indicator on the column.

AC1802	adjustable trans shift arm	.....	49.99 ea

1947-59 Transmission Crossmember

Transmission crossmember and mounts for installing a TH350 or TH400 automatic transmission in your early model pickup. This 3 piece heavy-duty construction adds the support you need when upgrading your drive train. Easily installs between the original frame rails.

CX1354	1947-59	.....	51.99 ea

1963-72 Transmission Crossmember

Transmission crossmember designed specifically for slammed trucks with large diameter exhaust. Featuring simple bolt in installation, this crossmember bolts onto the lower frame rail and matches up to all engine and transmission combinations. The low profile creates plenty of room to run the exhaust high off the ground, between the frame rails. This fits all GM transmissions with the popular 2 bolt rubber or poly mount. When used with DCX6372, you can run 3 1/2" exhaust with out any portion hanging down below the frame.

Auto Trans Shifters

The Most Comfortable Shifter We Offer!

B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, backup light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

223016 Hammer™ shifter ..... 226.99 ea

High-Performance Ratchet Action!

Megashifter™ is one of B&M's all-time classic designs due to it's timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, backup light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

223017 Megashifter™ shifter..... 331.99 ea

Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, backup light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

223018 QuickSilver™ shifter ..... 299.99 ea

The Perfect Shifter for Your Daily Driver!

Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ – but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between First, Second, High and Neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch and flat aluminum stick. For TH400, 350, 250, 200, 700-R4, 200-4R 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, backup light switch, lighted gear indicator, black T-handle and cable.

223019 Sport Shifter™ shifter ..... 219.99 ea

Straight Line Detent Shifter with Timeless Style!

B&M StarShifter is one versatile three-speed automatic shifter – wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in Low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

223020 StarShifter™ shifter ..... 204.99 ea

More Bang for the Buck!

B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of overshifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For TH400, 350, 250, 200 automatic transmissions.

Important: *Not for original consoles.*

Key Features:

- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, backup light switch, black T-handle and cable.

223021 Z-Gate™ shifter ..... 191.99 ea

Auto Trans Shifters

New!

Floor Mount Shifter

These shifters include a neutral safety switch with positive safety lockout in park and neutral.Designed to operate on solid adjustable linkage, each shifter also includes gold iridited brackets. For models with bucket seats we offer the 8" handle. For bench seat models the 16" bench bend shifter is available and includes all the same features listed above. The bench bend shifters have been manufactured and shaped to clear most bench seat applications. Shifter levers are available in chrome or black and the mushroom shift knob in either brushed aluminum or a black anodized finish. All shifters include mounting hardware and instructions.

*Note: *With aluminum case only.*

Hurst Roll Control

Used primarily in drag racing to provide positive locking action to the front wheels of race cars. In tests, the Hurst Roll Control has proved a 1/100,000 of a second release time and vibration tests have seen up to 30 G's applied without mechanical failure. Roll Control installation kit that includes lines, fittings and connectors is sold separately.

Pistol-Grip Quarter Stick Provides a Firm Natural Grip!

The Pistol-Grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. This cable operated shifter also features a forged aluminum stick, one hand operated spring loaded reverse lockout mechanism and a factory installed neutral switch. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately.

Important: For vehicles without factory consoles.

The Floor Mount Hurst Quarterstick Provides a Positive Shift Feel!

The Hurst Quarter Stick automatic shifter is designed to provide positive gear change control for street or strip applications. Detent activation is controlled by a chrome-plated trigger contoured to fit comfortably into the driver's hand. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, pick the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst Quarter Stick shifter fits TH250, 350, 375, 400 transmissions.

Important: For vehicles without factory consoles.

Key Features:

- Forged aluminum stick.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

Doing a Custom Engine and Standard Transmission Installation?

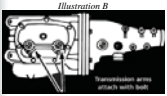

If you're doing a custom installation and plan on using a passenger car standard transmission on your 1/2 ton Chevrolet or GMC pickup, we have a variety of shifters and installation sets to help you complete your install. As with any custom conversion, you may find it necessary to slightly modify stick or installation set to complete your install successfully.

Hurst Shifters/Components

Ratchet Action! Specifically for Your Truck!

The Hurst Pro-Matic 2™ Ratchet Action Shifter is quality engineered for years of precise, trouble-free operation. The Pro-Matic 2™ gives a custom appearance to your truck and is ideal for street or strip performance. Models available to fit TH250, 350, 375, 400, TH700 R4 and 200 4R transmissions.

Operation of Shifter from Park Position:
- Lift up handle to pull into reverse.
- From reverse, pull back to reach neutral.
- Push down and ratchet into gear.

Key Features:
- Tall shifter stick for use exclusively in truck applications.
- Attractive black textured console with chrome plated cover.
- Can be trimmed to fit any floor contour.
- Cable operated to provide for your choice of mounting locations.
- Progressively illuminated gear position indicator.
- Incorporates a neutral safety and reverse light switch assembly.

TC559G 1955-59 2nd series ..... 6.99 set

EXTERNAL FEATURES

SuperCase

We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger, full width 307 maindrive bearing and a countershaft sealing soft plug, and we reinforced and thickened the mounting ears. As a final touch, user-friendly straight thread fill and magnetic drain plugs with sealing o-rings were added. Despite these improvements, we preserved the look of a 1960's design so our new case won't look out of place under your classic muscle car. No flex, no leaks, no broken ears.

Roller Side Cover

We noticed that we sell more side cover oilseals for Muncies than synchronizer rings, and although the oilseals are inexpensive and easy to replace, this bothered us. When we investigated we discovered that the shifter shafts in many high mile side covers are running in elongated bores, causing new oilseals to fail prematurely. Obviously, a new side cover with round bores would solve the problem temporarily, but we wanted a permanent solution, so we made our shifter shafts a true .750" and supported them with needle bearings. It's standard on our new transmissions.

Extension Housing

If you've been looking, you know that good extensions for thirty-year old Muncies are hard to come by. When we set out to eliminate that little problem, we also thought about what you're planning to do with it. We added a backbone rib, stiffened the reverse shift tower, and enlarged the oilseal shroud. This housing is produced with a passenger side speedometer drive housing. So whether all you need is an extension better than yours or you're thinking your monster motor might need the big output to handle all that torque, you can stop looking. We've got you covered.

INTERNAL FEATURES

Gearsets

For over fifty years Auto Gear has delivered the highest quality manual transmission gears. Our Muncie M22 gearset is typical. Some vendors purchase the "unimportant" gears in India or China. They must be smarter than we are – we think they're all important, so all six of our gears are manufactured for us in Italy by Antonio Masiero S.p.A. For General Motors cars from 1963-74, we offer the most complete range of Muncie gearing available. Every piece meets our standards before we put our name on it. You can buy cheaper gears elsewhere, but you can't buy better gears anywhere.

Roller 1st Gear Option

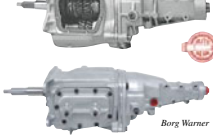

When you're not in low (and how much time is that?) your gearbox is spinning your 1st gear on the shaft. That's horsepower that's not going to your tires, and for years racers have minimized that loss by squeezing a bearing between modified 1st gears and sleeves, an expensive, one piece at a time solution. Our roller 1st upgrade uses a specially cut gear and sleeve for the ultimate in accuracy, coolest running, and lowest cost. It's standard in our new transmissions.

Note: Not for use in drag racing applications, or street use when hard launches will be the normal, or even occasional driving style.

Ductile Iron Midplate

Every time you shift your Muncie's heavy mainshaft assembly is thrown back and forth, restrained only by two snaprings and your midplate. Think of it as a slidehammer and it'll be no surprise that many aluminum midplates are distorted at the snapring groove. We make the midplate you should be hammering on... our midplate is made from shock resistant ductile iron. It's standard in our new transmissions.

The Ultimate SuperCase Muncie 4-Speed

There are exotic transmissions designed for quarter miles or circle tracks, but if your Muscle Car sees city streets or country lanes you need a heavy-duty, synchronized, close-ratio gearbox with a helical gearset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts – the highest quality available – and includes all the goodies: SuperCase, ductile iron midplate, your choice of three heavy-duty gearsets (each with roller 1st) and a roller side cover. Best of all, it's ready to install and it's available at a less-than-exotic price. No core required!

Note: All transmissions are special order and must be prepaid. Special shipping rate applies.

SuperCase with M22 Gearset with 2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22-based gearset. All three of ours feature the legendary 'Rock-Crusher' gear geometry and run with the signature whine. And, while they cost a little more, most owners find that they raise the value of their automobile by the difference or more. The M22 is as GM intended and was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

SuperCase with M22W Wide Ratio Gearset with 2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that'll show your wallet a little mercy. It's a little less strong, but it's far from weak.

Remanufactured 4-Speed Transmission

We offer these replacement Muncie and Saginaw transmissions, which are completely remanufactured and ready to install! Each transmission is fully rebuilt with OEM quality parts and has a 90-Day warranty against defects in workmanship and materials. Speedo driven gear and housing adaptors are not included. No cores are required!

Note: All transmissions are special order and must be prepaid. Special shipping rate applies. Shipping to Alaska, Hawaii, Canada, or foreign countries must be rated. Please contact our sales department for additional information.

Transmissions & Bellhousings

Hurst 5-Speed Driveline Tremec Trans

TR4618

High performance, 5-speed overdrive transmissions ftom Tremec. Rated at 500 ft lbs and include a unique internal shaft-rail system that accommodates up to eight different shifter locations. Rear cross member bolt pattern designed to fit most GM applications. 26 spline, 1-1/8" input shaft and 31 spline output shaft. Upgraded transmission internals for a stronger, longer lasting transmission. 6-Month warranty from Tremec.
Important: Some modifications may be required.
Note: Shipped overweight.

Hurst 6-Speed Driveline T-56 Trans

TR5601

Each Hurst Driveline 6-speed features a brand new TREMEC® T56 Magnum transmission, rated at 700 ft lb torque capacity! The Tremec shifter mechanism can be mounted in multiple locations for various console applications. Bolts directly to LS style T56 bellhousing. Comes with electric and mechanical speedometer pickups. 26 spline input and 31 spline output shaft for increased torque capacity. Includes a 180-Day warranty from Tremec (from date of purchase). Free one-year extended warranty from Hurst Driveline Conversions!
Important: Some modifications may be required.
Note: Shipped overweight.

Made in USA

QuickTime Bellhousing

Designed for circle track, strip, and street applications. QuickTime bellhousings are built from high grade steel, with a spun cone, not rolled or stamped. This allows QuickTime bellhousings to be the most dimensionally stable and accurate for today's high-performance vehicles. For T56 transmissions only. Made in USA.

Install a STEEL Bellhousing!

This bellhousing/transmission adapter is made from .25" thick hydroformed steel for extra strength and is perfect for engine swaps. Fits most Chevrolet V8 and 90 degree V6 applications with block mounted starters and conventional clutch linkage. Accepts the standard GM Muncie, Saginaw, and BorgWarner T-10 transmissions. Ideal for street use where an SFI approved bellhousing is not required.
Note: Not for use as a safety bellhousing. Does not meet SFI specifications.

HY77150		464.99 ea

Made in USA

LS Engine 4-Speed Aluminum Bellhousing

Reproduction "621" bellhousing designed to bolt to Gen III LS engines. Along with a 168 tooth flywheel and 11" clutch, allows the use of an original 4-speed Saginaw, Muncie, or BorgWarner transmission, including the original clutch linkage and starter. Made from CNC-machined heavy cast aluminum, heat treated and reinforced with extensive thick webbing, this is one of the strongest cast aluminum bellhousings available. Made in USA.
Note: Pivot ball sold separately.

1967-96 Kevlar Pilot Bushing

Kevlar has a long history of durability in industrial applications, and now RAM offers pilot bushings in this amazing material. By utilizing Kevlar for the pilot bearing, wear is significantly reduced over time versus bronze or needle bearing bushings that can lose lubrication over time, causing wear. Kevlar bushings are self lubricating and offer low susceptibility to damage from heat while maintaining their dimensional stability. Replace your damaged pilot bearing or bushing with a Kevlar bushing today.

BU656K	1967-96		49.99 ea

1958-96 Roller Pilot Bearing

Replacement pilot bearing for use on all 1958-96 V8 models. Worn pilot bearings can cause hard shifting and increase transmission wear. When changing your clutch be sure to use a new pilot bearing for best results. This bearing should be used in high-performance vehicles and is a significant upgrade from the stock bronze bushing.

LW15977	1958-96		39.99 ea

Offset dowels are a must when accurately dialing in the bellhousing. Adjustable dowel pins correct for improper register bore alignment of the bellhousing to the engine crankshaft center line. Available in different offsets as well as stock configuration.

LW15920	.007" offset		42.99 pr
LW15930	.014" offset		24.99 pr
LW15940	.021" offset		25.99 pr

Adjustable Bellhousing Dowel Pins

Adjustable offset dowels pins are easy to use and install! No need to pound the pins in and out trying to adjust correctly. They slip into the engine block dowel pin holes with ease and are designed to easily turn with an open-end wrench. No drilling, welding, or thread tapping required. Available in 3 different offsets and are longer than stock so block plates can be used.

LW15907	.007" offset		104.99 pr

1963-67 Bellcrank Felt Seals

Reproduction die-cut seal that slips over the bellcrank pivot studs and seals against the end of the bellcrank tube to prevent dirt and water damage.

3743360	1963-67	medium duty	2.99 pr

1958-96 Adjustable Clutch Fork Pivot Ball

Adjustable clutch fork pivot ball designed to allow additional adjustment of the clutch fork height to eliminate clutch release problems when installing a high-performance clutch. Also for use with Lakewood Safety Bellhousings.

LW15501	1958-96		29.99 ea

1969-72 Frame Side Bellcrank Pivot Ball

Reproduction frame side clutch bellcrank pivot ball. Manufactured in steel, this ball provides a pivot point for the clutch bellcrank. Fits 1969-72 Chevrolet/GMC truck models with manual transmission.

17116	1969-72		19.99 ea

Transmission Parts

Lakewood Clutch Fork Boot

Lakewood's clutch fork boot is designed to help keep unwanted dirt, dust and moisture from entering the bellhousing preventing contamination of the clutch. This clutch fork boot is made of a soft pliable rubber for Lakewood Safety Bellhousings only.

LW15510 ..... 29.99 ea

1973-84 Heavy-Duty Clutch Fork

This heavy-duty Clutch Fork is a replacement for the stock GM clutch forks that tend to crack or break from stress. Constructed from .165" thick, heavy gauge stamped steel. Offers more strength than the original factory unit and has a durable zinc-dichromate finish to resist corrosion.

High-Performance Throwout Bearing

Hays High-Performance Throwout Bearings have been developed to withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

High-Performance Self-Aligning Throwout Bearing

Designed specifically for installations with clutch to transmission misalignment resulting in noise and vibration, the Hays Self-Aligning Throwout Bearing minimizes these conditions. Clutch alignment can also vary due to normal wear and tear. Self-Aligning Bearings with their rugged performance characteristics are also a functional upgrade from standard bearings on older cars, when applicable.

Adjustable Throwout Bearing

McLeod's adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid length bearing and if you remove all three rings you will have the short bearing.

16505		adjustable	99.99 ea

Hydraulic Release Bearing

Hydraulic release bearing for stock style clutch applications. This bearing functions in GM applications utilizing the 1.375" transmission collar size. The bearing is a floating design and installation is simple and quick. Optimal uses for this bearing are for any project car in which fitting a mechanical linkage is not possible. The bearing requires a minimum 7/8" bore master cylinder and a -4AN feed line to run from the master to the bearing. A remote bleeder system is available to make bleeding simple from the outside of the bellhousing.

Flywheels

True Balance Billet Steel Flywheel

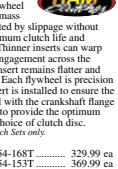

11501

Ram True Balance billet steel flywheels are recommended as a replacement for factory cast iron flywheels in high-performance and racing vehicles. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum runout and the optimum mating surface for the Ram Clutch friction materials offered. Use steel flywheels for the best driveability in street driven vehicles. For vehicles with V8 engine only.

Note: For use with Ram Clutch Sets only.

True Balance Billet Aluminum Flywheel

22501

The choice for most all-out competition vehicles, Ram True Balance billet aluminum flywheels are CNC-machined from certified materials and exceed SFI specifications. A key feature of a Ram aluminum flywheel is a 1/4" steel friction insert. A well tuned competition clutch system has a predetermined amount of slippage at launch and at the gear changes. The flywheel insert must have enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. Thinner inserts can warp and lift causing uneven engagement across the clutch disc. The thicker insert remains flatter and dissipates the heat better. Each flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum runout and to provide the optimum mating surface for your choice of clutch disc.

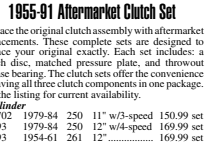

Note: For use with Ram Clutch Sets only.

1955-91 Aftermarket Clutch Set

Replace the original clutch assembly with aftermarket replacements. These complete sets are designed to replace your original exactly. Each set includes: a clutch disc, matched pressure plate, and throwout release bearing. The clutch sets offer the convenience of having all three clutch components in one package. See the listing for current availability.

With More Than 40 Years of Research, Development and Testing, Hays Has Emerged as the Leader in Performance Clutch Technology. With Hays Performance Clutches, You Can Be Assured of a Brand New Product Manufactured from the Finest Quality Materials and Workmanship Available.

1963-88 Hays Street Clutch Set

An excellent upgrade from the stock unit, the Hays Street Clutch far exceeds OE specifications in material, construction and performance. Hays Street Clutches are matched sets designed to provide clean, smooth engagement and a significant performance increase without sacrificing streetability. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays Street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter-free engagement. The Hays High-Performance Throwout Bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat treated and blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch sets include: a Hays Performance Pressure Plate, Hays Performance Clutch Disc, Hays Performance Throwout Bearing, bolt kit and a handy splined clutch pilot tool to aid in installation of set.

Performance Clutches

1957-84 Hays Truck Clutch Set

HY85103

Hays Truck Clutch sets feature a clutch disc manufactured with a durable, heat resistant woven lining riveted to a shock-absorbing Marcel backing. The sprung center hub absorbs driveline shock and vibration for chatter-free engagement. Two types of pressure plates are available, the diaphragm pressure plate design provides light pedal pressure with a clean release for precise gear changes. All sets include: a performance throwout bearing, heavy-duty clutch cover, bolt kit, and a splined clutch pilot tool.

1963-88 Hays Competition/Off-Road Disc

Hays Super Connector Clutch disc provides the ultimate in clean, crisp competition shifts. Designed for the rigors of competition use, the Super Connector utilizes a newly formulated superior strength lining material that maintains its friction coefficient as it heats up for superior engagement.
Note: This disc is not recommended for street use.

1963-02 Powergrip Performance Clutch Set

As engine power and torque increase you need a clutch set to stand up strong. Powergrip utilizes a unique blend of friction materials and increased clamp loads to give you the holding power you need for aggressive street driving and occasional drag strip use. With up to an 80% increase in holding power Ram's Powergrip series is a natural for the aggressive driver.

FACTORY'S CHOICE™

Reproduction Delco® Energizer Battery

Authentic reproduction Delco® Energizer batteries give you true "tar-top" appearance while eliminating the sticky hot weather disadvantages. Each battery is correct in every detail including acid resistant, screw or push-in type caps featuring Delco full or half circles and are finished in the proper trim. Also includes reproductions of the assembly line battery decals featuring white label with red text attached to the battery posts as well as correct lettering on the top casting. All batteries feature 780 cold cranking amps.

Officially Licensed by General Motors

CAUTION: *Maintenance-Free batteries are Gel-Cell type batteries and DO NOT require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.*

Note: *Batteries carry a 48-Month manufacturer's warranty. Shipped overweight.*

Optima YellowTop Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the YellowTop AGM battery is a true dual-purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

Note: *Shipped overweight.*

Protect Your Vehicle from Corrosive Battery Acid!

Excessive heat in the engine compartment will cause most standard batteries to spew or seep corrosive battery acid. Prolong battery life with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, and is inexpensive and easy to install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. It is so effective, it is used by all branches of the United States military. Set consists of one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery.

Battery Cables

Officially Licensed by General Motors

1955-66 Spring Ring Battery Cable

If you want to restore your Chevy truck to exact factory specifications, these OEM type cables are what you need! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word Spring Ring in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end.

Universal Battery Cables

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18' while underhood sets measure 6' in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs and shrink tubing.

Battery Chargers

Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap!

X205 carries top mount.. 6.99 ea

Priority Start! Battery Protector

The PriorityStart! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

Battery Doc Battery Tester

Simply attach the ring terminals of the battery tester connector directly onto your battery and push the button. The tester will indicate if your battery is weak or fully charged. If your battery needs charging, simply attach the Battery Doc Charger (available separately)!

W20040 battery tester ..... 12.99 ea

The Battery Tender Plus

12 volt, 1.25 amp battery charger that is designed to fully charge and maintain a battery at a proper storage voltage without the damaging effects caused by trickle chargers. The micro-chip technology applies the correct peak charge, then automatically maintains the battery at the perfect float voltage. The Battery Tender Plus will correctly charge and maintain any type of lead acid, AGM, sealed calcium or gel batteries. Includes: ring terminals and alligator clips.

21028 The Battery Tender Plus ..... 49.99 ea

The Battery Tender Junior

Twelve volt, .75 amp battery charger that is designed to fully charge and maintain a battery at a proper storage voltage without the damaging effects caused by trickle chargers. The Battery Tender Junior is ideal for those hard to fit spots. Includes: ring terminals and alligator clips.

21023 The Battery Tender Junior..... 29.99 ea

T70781

Battery Topper

Now you can turn any modern style battery into a vintage looking one by adding one of these battery toppers featuring correct special grain just as original. Battery toppers are designed to be used with any maintenance free flat top battery, and will work on any 24/60 series battery as long as the post location is original.

T70781	top post	59.99 ea
T70782	side post	59.99 ea

Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

X201 plastic

X206 steel

X2173 post and terminal tool

Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Manufactured in your choice of high impact plastic or heavy-duty steel. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts. This item is good to use whenever servicing the battery or cleaning the engine compartment.

X201	high impact plastic	8.99 ea
X206	heavy-duty steel	9.99 ea
X2173	post and terminal tool	9.99 ea

Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed. Great for removing corroded battery terminals. Your choice of standard grade or professional level tool.

Y54000	professional level puller	24.99 ea

Battery Terminal Spreader and Cleaner

Clean and spread battery cable terminals with this pliers type tool. Sharp teeth effectively clean corrosion from clamp. Squeeze handle to spread clamp.

X204		22.99 ea

Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BLS1		29.99 ea

Battery Nut Pliers

Easily loosen and tighten nuts on battery terminal clamps. Handles are offset for working in cramped areas. Serrated jaws are designed for sure grip.

Thermo-Flex Hose and Wiring Covering

New! Bull It Tested Tough

Made in USA

TT1105

Thermo Flex hose and wiring covering for Truck models.

The combination of aluminum, silica, and stainless steel is combined to produce a sleeve that is flexible lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering, without disconnecting the ends of the wire or hoses. Thermo-Flex aluminum can withstand extreme temperatures up to 750 degrees F.

Express Sleeve

New! Bull It Tested Tough

TT1125

Made in USA

Express sleeves for Truck models. Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure. The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct continuous temperatures up to 750 degrees F. It's even fireproof! Express sleeves come in two sizes: 1/2" to 1" or 1" to 1-1/2" in diameter, with 3', 12', and 50' lengths.

Universal Wiring Harnesses

Universal Chassis Wiring Harnesses

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple set with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

Wiring Harnesses

1955-82 Chevrolet Front Light Harness

One of two main harnesses located in the engine compartment. Provides wiring for the main battery power lead, headlights except for 1955-66, parking lights, side marker lights (1968 and up), horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge. These harnesses are produced as closely as possible to original specifications including correct colored wire.

*Note: *Requires CT03065 to complete voltage regulator wiring.*

CT30380

1947-72 Alternator Conversion Harness

Alternator conversion harnesses for 1947-72 Chevrolet and GMC truck models. 1947-55 harnesses convert the original 6 volt system to 12 volts and allows for installation of internal regulated alternator. 1955-62 harnesses convert the 12 volt generator to an internal regulated alternator. 1963-72 wiring adapter converts external regulator to internal regulator

Note: This is an easy conversion that can be used with 1985 and earlier SI series alternators. On cars where an internal regulated alternator is desired, this provides the necessary connections for the new alternator without any plug-in.

RF700101

iStart™ Touch Sensitive Starter System with Advanced Security

Looking to make your classic more like late model rides? Install the iStart transponder system from Ron Francis Wiring! This system uses a security module with proximity sensors to disable the ignition switch and keep the doors locked until you come into range. Once inside, a touch-sensitive starter button lets you cycle through accessory, ignition, start/crank, and off modes just like a typical ignition switch. Skip directly to start/crank by simply holding the button!

Note: Main control box is 5-1/2" x 6". Security module is 3" x 4". iStart™ button requires 1-1/4" mounting hole.

- 20 Circuits on 16 Fuses
- 4 Select-A-Circuits
- Faster Installation with New Style Terminal Block
- Cooling Fan Relay Included
- Serial Number
- Includes the Proper Connectors and Terminals
- Clear, Simple, Color Coded Instructions

1947-80 Express 16 Fuse, 20 Circuit Wiring Harness Set

These high temperature, fire resistant and color-coded wiring harnesses are built specifically for 1947-80 GM trucks. They feature wiring for the entire truck and work with most stock and aftermarket steering columns. Includes: provisions to wire full gauge sets, works with HEI, points and aftermarket distributors, and neutral safety switches. Features wiring for high and low beams, indicator lights, parking lamps, turn signal lamps and brake lamps, and will readily accept fuel injection. All sets include a headlight switch, isolated cooling fan relay and color-coded instructions. A unique serial number for each harness enables Ron Francis to support your installation.

Note: Blazers and Suburbans use corresponding year truck harness and part number. All part numbers fit short and long wheelbase, 1/2 and 3/4 ton, 2WD and 4WD.

The Detail ZONE

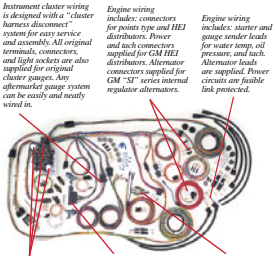

1994-02 Fuel Injection Engine Swap Wiring Harness Set

These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each harness is designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

*Note: *Corvettes must use the Camaro/Firebird ECM in order to use this wiring set. This engine uses the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.*

Wiring

Instrument cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. Any aftermarket gauge system can be easily and neatly wired in.

Engine wiring includes: connectors for points type and HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors supplied for GM "SI" series internal regulator alternators.

Engine wiring includes: starter and gauge sender leads for water temp, oil pressure, and tach. Alternator leads are supplied. Power circuits are fusible link protected.

Fuse box and custom mounting plate are designed for a bolt-in under dash installation. Standard flashers and horn relay are mounted on fuse panel.

Steering column connectors will plug directly into most aftermarket columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be used with the supplied mating connectors and terminals.

New ignition switch is provided with indexed connector. Additional connectors and instructions are provided to use the original switch.

1947-72 Classic Update Wiring Harness

Bring your classic GM truck into the 21st Century with a complete wiring harness update set! This set accommodates all the popular accessories you may desire including: AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as a V8 engine swap!

PAINLESS Wiring

Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the car or the harness. Our 21 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuseblocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

LT1 and LS1 FI Engine Swap Wiring Harness

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven F.I. engine wiring harnesses. The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Like all Painless wiring harnesses, these fuel injection harnesses feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer G8606.

*Note: *Not for use on vehicles with VATS modules.*

Add Fused Circuits with the CirKit Boss!

Add electrical accessories the safe way with a CirKit Boss! This sets allows you to add three fused circuits to your existing fuse block. Simply mount the fuse block and relay, route the 10 gauge wire to the battery, route the ignition wire, then route the accessory circuits. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. Includes: one 70 amp SPST relay, relay base/fuse block with harness, crimp-on terminals and mounting hardware.

70114	3 circut	91.99 set

Digital Power Manager

This Digital Power Manager is a weatherproof, solid state dual battery control unit that eliminates the guesswork when using a secondary battery. When the main start battery is too low to crank the engine by itself, the units combines both batteries to crank the engine. The Digital Power Manager will not allow the main battery to drain the secondary battery, and once the engine is running, it will only allow the alternator to charge the auxiliary battery after the main battery is fully recharged by the alternator. The unit is capable of switching up to 280 amps for large loads such as winches or jump starting another vehicle. Ideal for any vehicle equipped with high power stereo systems, high amp driving lights or winches. Includes: weather proof Digital Power Manager, 6 gauge connection cables, terminals, heat shrink, mounting hardware and a remote indicator lamp.

Phantom Key Push Button Start

Want to add keyless ignition to your muscle car or truck? Here's your best option: The Painless Phantom Key allows the total replacement of most ignition switches. Simply remove your existing ignition switch, install the backlit stainless push button and let the Phantom Key do all the work for you. When the key fob is more than 20 feet from your vehicle, the LED backlit push button switch blinks to indicate a security device and ward off potential thieves. Extra channels for functions such as trunk popper and door lock provide the added security of not having any key tumblers for a thief to pick. Available with white, blue, red, green, orange or yellow backlit 22mm switch.

14 or 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style prewired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Prewired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kit includes: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

Important: *No wire included with these kits.*

Remote Master Disconnects

Whether your needs are to comply with sanctioning body requirements for your own safety, car show rules or simply for your vehicle's security, Painless has a battery disconnect for you. We offer two Master Disconnect kits with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Our new Master Disconnect with Emergency Push Button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Finally, our new Remote Master Disconnect with Mechanical Latching Solenoid is ideal for everyday vehicle applications and is a simple and effective antitheft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button. No risk of accidentally draining your battery with this latching solenoid.

Painless F5 Fan Controller

This state-of-the-art fan control system uses pulse width modulation to control electric fan speed from 50% up to 100%. A three position toggle switch lets you choose between normal operation, 100% fan speed, or turn the fan(s) off. An AC compressor override that runs the fans at 100% duty cycle if air conditioning is kicked on. Includes: a solid state controller rated for engine bay use, 3/8 NPT threaded temperature sensor, large gauge fan wires and labeled vehicle integration wire harness, mounting hardware, and 70 amp fuse and connectors. The F5 Dual Fan Controller is rated to control two 35 amp cooling fans. The F5 Single Fan Controller is rated to control one 70 amp cooling fan.

Chevrolet Truck Identification

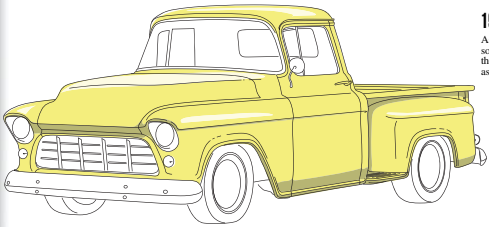

Need to identify a Chevrolet truck model? This handy Classic Industries® model identification guide is designed to help you through some of the basic year-to-year updates to classic Chevrolet truck models, as well as provide some GMC guidance.

1947-55 "Advance Design" Pickup Trucks

The Advance Design was GM's first postwar truck platform. This generation is usually listed as 1947-55 1st Series.

- 1947-53 models featured a horizontal bar grill design, 2 piece windshields, with angle-topped bedsides.
- 1950 saw the introduction of modern tubular shocks.
- 1951 saw the introduction of door vent windows.
- 1954-55 models received rounded tail lamps, a cross-type bull nose grill, a 1 piece curved windshield, a redesigned dashboard, and a deeper bed with flat topped bedsides.
- Chevrolet 1955 1st series models were the last to be offered with 6 volt electronics. GMC continued to offer 12 volt electronics as an option.

1955-59 "Task Force" Pickup Trucks

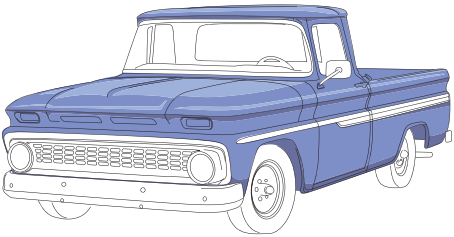

As Chevrolet tooled up for the "Task Force" platform, some factories continued to produce the earlier design as the 1955 1st Series, while the new design was produced as the 1955 2nd Series.

- 1955 was the first year for the optional 256ci Small Block V8.
- 1955 2nd Series Models featured a wrap-around windshield.
- The rare and desirable fiberglass bed Chevrolet Cameo Pickup is offered from 1955-58. 1958 trucks introduced dual headlamps.
- Fleetside Pickups replaced the Cameo in late 1958.

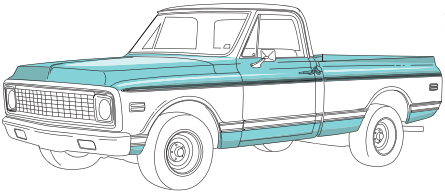

1960-66 C/K Pickup Trucks

The 1960 redesign featured a drop center ladder frame which allowed the cab to sit lower. It also marked the introduction of the C/K designations for Chevrolet, "C" for 2 wheel drive models, "K" for 4 wheel drive models. A more sophisticated suspension design provided a more car-like ride.

- Series 10, 20, 30, and 40 (C or K) were badged as "Apache", etc.
- Series 50 and 60 series trucks were badged as "Viking".
- The largest 70, 80, and 90 series models were badged as Spartan etc.
- Chevrolet trucks were available with smooth "Fleetside" or fendered "Stepside" beds. GMC called these "Wideside" and "Fenderside".
- 1960-62 models used a torsion bar front suspension and a coil spring rear suspension.
- 1963-66 models upgraded to a coil spring front suspension.
- 1964-66 models changed to a flat windshield design.
- 1966 introduced the 327ci V8 and Turbo-Hydramatic (TH) transmission.

Chevrolet Truck Identification

1967-72 C/K Pickup Trucks

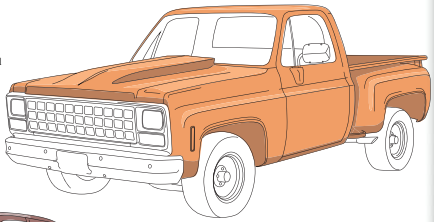

The 1967-72 Chevrolet and GMC trucks were dubbed "Action Line". Most Chevrolet trucks of this design were built with coil spring rear suspension. All 1967-72 four wheel drive trucks had leaf springs on both axles.

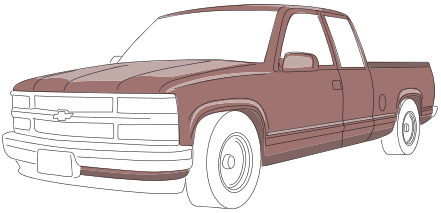

- 1967 was the last model year without side markers.
- In 1968, a 50th Anniversary package for Chevrolet trucks featured a distinctive white-gold-white paint scheme.
- The Longhorn 3/4 ton trucks debuted in 1968, adding an extra 6" to the bed.
- The short wheelbase K5 Blazer debuted in 1969 along with the GMC version, known as the Jimmy.
- For 1970, the 396ci big block V8 was enlarged to 402ci, yet still sold as a 396.
- 1971 introduced the Cheyenne comfort trim package for Chevrolet and the Sierra package for GMC.
- 1971 brought front disc brakes on all light duty trucks.

1973-86 C/K, 1987-91 R/V Pickup Trucks

For 1973, Chevrolet and GMC trucks were tested in a wind tunnel and designed for better aerodynamics. Wheelbase was extended and dual rear wheel option was offered on one ton pickups.

- An all-new carbon steel ladder frame designed with a "drop center" was introduced.
- The fuel tank was moved outboard of the frame rails beneath the cab floor to offer up to 40 gallons of fuel capacity.
- 1973 introduced the Crew Cab option with choice of 3 + 3 seating or lockable storage in the rear cab.
- Two wheel drive trucks used independent front suspension.
- Power windows and locks were offered as an option in 1977.
- 1978 introduced the first diesel engines.
- For 1987, C/K was changed to R/V to distinguish these trucks from the upcoming 4th generation models.

1988-98 C/K Pickup Trucks

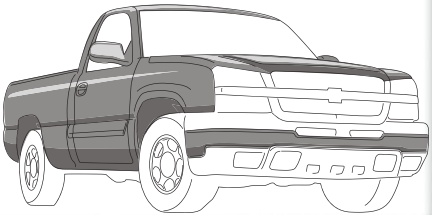

All 4th generation C/K trucks, including four-wheel drive models, received independent front suspension.

- From 1990-93, a performance model called 454SS was offered with a 454ci V8, sport suspension, and quick-ratio steering.
- An updated fascia debuted along with the mandated center high mount stoplight.
- A turbo-diesel was made available beginning in 1992.
- Vortec V8's debuted in 1995 with high flow cylinder heads, new camshaft, roller valve lifters, and higher compression for increased power and efficiency.

1999-07 Silverado/Sierra Pickup Trucks

GM dropped the C/K designations for 1999, opting for Silverado for Chevrolet and Sierra for GMC, referring to the platform as GMT800.

- Chevrolet models received a new fascia and revised tail lamps in 2003.
- GMC offered an upscale trim level called Denali in 2001.
- 2001-05 Denali models offered a Quadrasteer 4 wheel steering option.
- Beginning in 2003, Chevrolet offered a Silverado SS high-performance pickup. In 2006, an Intimidator SS was offered in honor of the late Dale Earnhardt.
- A gasoline/electric hybrid was offered beginning in 2004.

VISIT OUR NEW SHOWROOM!

Conveniently Located in Huntington Beach, CA!

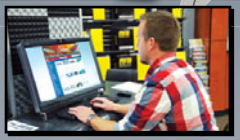

- 10 minutes from the beach
- 20 minutes from Knott's Berry Farm
- 20 minutes from John Wayne Airport
- 30 minutes from World-Famous Disneyland

Bring the Family!

Step past the featured display car and take a seat in front of our entertainment center, designed to create a comfortable atmosphere for enthusiasts, their children, and their significant others.

Discover Our Products

Browse our unparalleled selection of restoration and performance parts and accessories at these convenient computer terminals. Discover the latest products from Classic Industries® for your project.

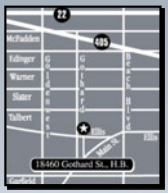

Save on Shipping with Will Call

Want to pickup your order at the showroom and save the shipping costs? With our immense inventory of parts, we are SoCal's biggest parts store for classic GM and Mopar models.

Automotive enthusiasts seeking personal service have always been invited and encouraged to visit our location in Huntington Beach, California. We have recently expanded our showroom facility to make the experience worth the trip for our customers and their families.

More than mere parts counter, our new showroom has something for everyone. A rotation of show cars is on display, including award-winning Classic Industries restorations such as the "TWISTED" Duster, "CAMOTION" Camaro, and "INNOVATION" Nova. Information kiosks let you browse electronically while our entertainment center keeps spouses and younger enthusiasts occupied. Naturally, the latest gift and apparel items are presented along with the newest reproduction parts. Our friendly, knowledgeable staff is ready and able to help with questions and ideas to make your restoration project smooth and easy.

Shipping Information

Classic Industries® calculates domestic shipping based on the 8 zones in the contiguous United States. Please note that the following chart only provides a base rate – charges may be added for oversized, overweight or truck freight items.

Zones	1	2	3	4	5	6	7	8	9
Estimated Delivery	2-4 Days			3-6 Days		4-8 Days			7-10 Days

ALASKA, HAWAII, GUAM AND PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

HANDLING

Each order is charged a handling fee of up to $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by Fed Ex. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum $125.00 fee for all California orders and minimum $175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional $40.00 fee. Should the customer's delivery require special handling (lift gate service, rerouting, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

ZONE 9
ALASKA & HAWAII

Orders to Alaska and Hawaii ship by air and therefore ground rates do not apply.

Four Ways to Order!

ORDERING BY PHONE

TOLL FREE 800•854•1280

In the continental United States, Hawaii and Alaska. Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

Service Excellence From the Restoration Leaders!

You No Longer Have To:

- ✖ Pay excessive fees to protect your merchandise
- ✖ Contact the carrier yourself
- ✖ File a damage claim yourself to have the carrier inspect the damaged items
- ✖ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.

***Note:** Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.*

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think of Us as Your Partner in Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® – your partner in restoration!

Form of Payment

CREDIT CARDS

Classic Industries® accepts *Visa*, *Mastercard*, *American Express*, *Optima*, and *Discover* for your convenience. When placing your order, be sure to indicate the cardholders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be pre-printed on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:

Classic Industries®

PAYPAL

Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be pre-paid including freight *(when applicable)*. COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient **Toll Free** number allows you to place your order with confidence to assure you get exactly what you want when you want it! ONLINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info@classicindustries.com.

General Information

Sales Tax Information

Orders shipped outside of California may be exempt from sales tax. California residents are required to add the appropriate current sales tax. Due to regular variations in California sales tax, rates are subject to change without notice. California orders are subject to tax on handling fees, COD fees and rush fees. This additional tax will be applied the to invoice. As of the printing date of this catalog, the current rate is 8%.

Accuracy of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as left or right hand products. (left side – driver) (right side – passenger). Left hand or right hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

Shipping Information

ALASKA, HAWAII, GUAM AND PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Prepayment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product *"Shipped truck freight"*. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a *minimum $125.00* fee for all California orders and *minimum $175.00 fee* for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an *additional $40.00* fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Overnight shipments that fall the following specifications for billing purposes: Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

Sales Errors/Ordering Errors

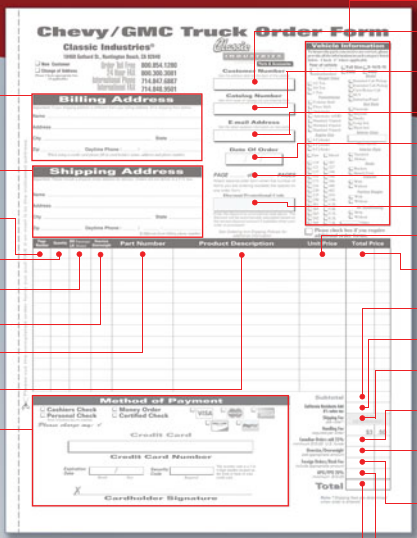

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

How to FILL OUT YOUR ORDER FORM

Billing Information:
If paying by credit card, fill in the cardholders name and billing address (*where the credit card statements are received*).

Shipping Information:
If different than the billing address, please fill in the name and address where the order will be sent.

Page Number:
The page # of the product being ordered.

Quantity:
How many of each item you are ordering.

LH/RH:
LH (driver side) or RH (pass. side) if applicable.

Oversize/Overweight:
Enter correct amount if applicable.

Part Number:
Enter part number as it appears in this catalog.

Product Description:
The name of the product as it is listed in this catalog.

Method of Payment:
Check the appropriate box for payment. If you are paying by credit card, fill in the card number, expiration date, security code, and card holders signature.

Vehicle Information:
Complete information about your vehicle.

Customer Number:
Usually located on the back of your catalog, above your name.

Catalog Number:
Located on the front upper right corner of the catalog cover.

E-mail Address:
Enter your E-mail address.

Date of Order:
Enter the date of your order.

Number of Pages:
Enter the number of pages you are sending.

Discount/Promotional Code:
Enter the discount or promotional code.

Unit Price:
The unit price of each item.

Total Price:
The individual price of each product multiplied by the quantity being ordered.

Subtotal:
The total amount of products ordered.

California Sales Tax:
Orders shipped within California add 8%

Shipping Fee:
See note*

Canadian Orders:
Add 25% of your subtotal or a minimum of $10.00 U.S. funds, whichever is higher.

Oversize/Overweight and Double Oversize:
Check the quantity of items and add the appropriate amount based on the chart.

Foreign Orders/Rush Fees:
Contact Classic Industries® for current shipping rates to your country.

APO/FPO:
Add 20% of your subtotal or a minimum of $10.00 U.S. funds, whichever is higher.

Total:
Total of all items including tax and shipping.

Classic INDUSTRIES® Parts & Accessories

Thank You For Choosing Classic Industries®

- **If you have questions, please call and a sales representative will help you with completing the order form.**
- **Classic Industries® will notify you if any price changes need to be made to your order form.**
- **Classic Industries® will notify you if any products are on back order.**
- **Go to www.classicindustries.com to use our convenient online order form**

How to READ Your Invoice

Invoice Number
Each order is assigned an individual invoice number.

Account Number
Your customer number.

Billing Information
Customer mailing address or where the credit card statements are received.

Vehicle Information
Shows your vehicles's year, model, etc.

Quantity Ordered
The number of each part that you've ordered.

Unit of Measure
Indicates if an item is sold individually, as a pair, kit or set.

Part Number
Part number as it's listed in the catalog.

Sale Item
"S" indicates sale item not eligible for discounts.

Product Description
Description of the part ordered.

Quantity Shipped
Number of items shipped.

Quantity Back Ordered
Number of items out of stock.

Payment Information
This shows the type of payment (cash, credit card, etc.) and the amount billed.

Date of Order
This is the date your order was originally placed.

Sales Person
The person that took your order.

Shipping Information
The address your order was shipped to.

Unit Price
The cost of each individual part.

Total Price
The total price of each part multiplied by the quantity your ordered.

Sub Total Price
The total of all parts.

Discounts
The total of discounts applied.

Sub Total Price
The total of all parts and discounts applied if applicable.

Credits
The total of credits applied.

Sub Total Price:
The total of all parts, discounts and credits if applicable.

Misc. Fees:
This includes shipping and handling, rush charges, insurance and sales tax if applicable.

Invoice Total:
The total of all parts shipped and fees for your complete order.

If you have any questions regarding your invoice please contact us at 800-854-1280 during regular business hours and a customer service representative will gladly assist you.

Lock Kit and Storage Bag With Car Cover Purchase! A $20.00 Value!

WeatherBlocker™ *Plus* Car Cover

Designed for outdoor use, OER's Weather**Blocker** *Plus* covers are manufactured using a durable 4 layer non-woven material that provides a high level or protection from the elements and features a soft cotton backing which helps protect against scratches and dings. Each cover is sewn with double-stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Weather**Blocker** Plus covers offer excellent water resistance and protection from the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock. Specify gray or tan.

1947-66 Altman Easy Door Latch Set

Stop slamming your doors! The Altman Easy Latch set is a vehicle specific bolt-on, bear jaw rotary claw latch set that features contoured jam plates to match the contours of your vehicles doors. These are in no way a universal application. Our bear jaw rotary claw latches are each designed to work with the exterior handles, interior handles, and the exterior door lock cylinders of the specified vehicles. Each piece of our bear jaw latches are zinc-plated to fight corrosion. The Altman Easy Latch kit will have your doors opening and closing smoothly and safely. Instructions and mounting hardware is included. Manufactured in the USA.

Important: *1955-59 sets are offered in two ways, for customers retaining the look of their original steel door panels with an insert that is supplied and will fit in the recessed area, or for customers that desire to fill that area with a custom door panel.*
